FLAPPER FANNY SAYS:

When a girl marries into money, the honeymoon turns out to be a harvest.

'CRUSHED LAMB' IS FUR FABRIC

M. Fine Shows Good Variety of Coats, Hats and Frocks.

A DAINTY BLAZER

"Crushed Lamb" is the odd name of a new fur fabric which makes a snappy coat model in the stock of M. Fine's store, at 300 George street. It is in grey and has for a companion a black plush with a good-looking Japanese mink collar and cuffs, the latter with little pendant tails as trimming.

"Ramona" is remembered here by her distinctive dress, done in black satin, one model having a variation in the long, instead of short, sleeve, with a scarlet "bishop" cuff and embroidery of gold.

A navy georgette shows a new treatment in the skirt hem, which is pleated, with navy petals of the crepe let in between the pleats, giving a very flary look to the edge. A peach georgette frock has floating panels at the sides, finely tucked.

A little blazer of printed velvet is a dainty accessory to a chilly evening costume, its black ground covered with tiny bars of red, blue and gold.

In the hat line, there is a pretty thing of soft rose pink of figured velvet and one of the "patchwork" hats which are new and popular appears with folds of green, blue and gold. Other models are developed in the season's vogue for felts and velvets.

A cloth coat of grey broadcloth shows a new idea in its three-way treatment of the throw collar, which may be worn over the shoulder, down the front or concealed within the coat, as an extra bit of warmth.

A rich coat of wine red has collar and cuffs of brown Thibetine fur.

An effective Paris theatre frock in old rose taffeta had a series of graduated frills from hem to hips, the bodice fashioned like a casaquin blouse, with a round neck and no sleeves.

VARIETY SEEN IN FALL HATS

Dark and Light Colors and Large and Small Shapes Shown.

NEW MILLINERY OPENS

Miss Olga Haskill is just opening up a millinery parlor in rooms in the Bank of Toronto Building, and has a stock of very pretty things that exhibit the latest modes in Fashion's demands for women's headgear.

There are hats for matrons and younger women, in dark and light colors, in the large and small shapes which suit every taste and in the varied treatments which this year has decreed for the modish hat.

Combinations are many this season. With a felt brim and a velvet top, a brown hat of reindeer shade has a shirring to its velvet band and gold braiding.

Rather unusual and interesting is the shadow stitching which gleams in blue and red on the crown of a little hat of black chiffon velvet.

Cutwork felt is new this year and gives an embroidered effect to the crown of one sand felt model and to the rim of a brown hat made of felt and velvet. Another unique touch is provided by the very brilliant facing of silk embroidery which shows under the brim of a hat of black felt, while green hackle feathers, those soft, silky-looking feathers of mottled hues, make the entire top of one small hat, with ear-tabs ending in brilliant yellow feathers.

Hatter"s plush, another favorite of the season, is used for a wood-brown hat which uses soft feathers as a mount at the right side.

A plain black felt, unadorned and banded simply with black grosgrain ribbon, depends for its interest on the slashed eyebrow curve which gives it such a jaunty appearance when placed on the head.

Orange and brown velvet made a beret shape which has a brim heavily stitched in gold thread.

On a hat of bottle green velvet appear triangles of lighter green satin and a facing of stitched taffeta, while a rose hat of felt has three shades of rose velvet in harmonizing tints in the carefully-placed pieces on the crown, and a canary felt shows a stenciled design in brown and black.

So easy now to prevent Perspiration Odour

Margaret's frocks were always charming, her headdress lovely and her skin beautifully white and smooth . . . she seemed literally a picture of personal refinement, but . . . perspiration odour! So offensive, yet now wholly needless.

Millions of refined persons have learned that to keep the skin wholesomely sweet and clean, it is only necessary to change to Lifebuoy Soap, for all Toilet Soap purposes.

This delightful aid to personal charm, gives every service you expect from the choicest toilet soap . . . *and more.*

Lifebuoy's antiseptic lather not only cleanses and keeps beautiful the skin, but actually purifies the millions of tiny pores and banishes perspiration odour from bath to bath.

Don't try to prevent perspiration --- Neutralize it

Physicians say the average human body exudes from one to two pints of moisture, in the form of perspiration, daily . . . winter and summer. It's a healthful process. Don't try to smother it. Just use Lifebuoy Soap in the bath.

And there is no Price Penalty

The attractively packaged, orange red cake costs less than many "soaps" which being just soap, lack Lifebuoy's priceless purifying quality.

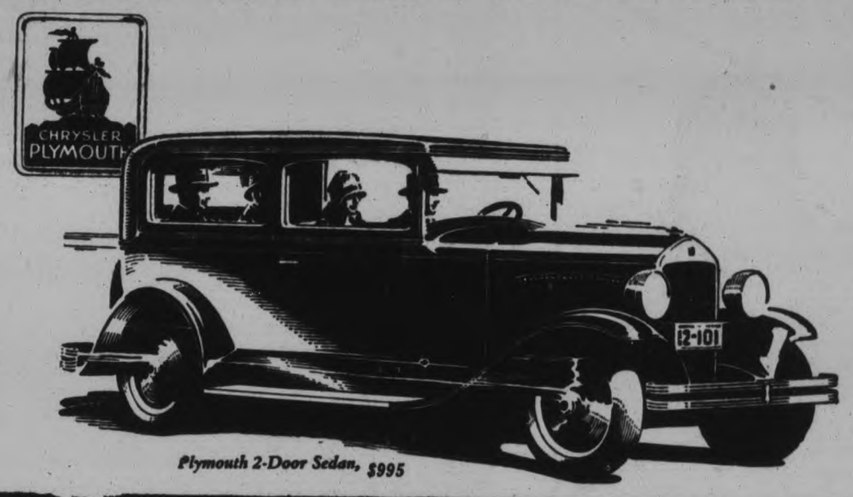
Head and shoulders above the cars of its class



Plymouth 2-Door Sedan, $995

CHRYSLER
Plymouth

The new Plymouth gives, in the lowest-priced field, size, style, smartness, speed and safety never before available at so low a price.

Here you find characteristic Chrysler performance from the new "Silver-Dome" high-compression engine, using any gasoline—with smoothness no other car under $1300 can approach;

full-sized, roomy bodies, ample for adult passengers, with comfortable, deep luxurious seats and fittings you expect only in cars of far higher price;

the extraordinary safety of light action, internal-expanding hydraulic 4-wheel brakes, safe and sure in all weather—the only car at or near its price with such equipment;

absolutely new style, grace and distinction in body lines—with slender-profile chromium-plated radiator, "air-wing" fenders and arched-window silhouette.

Years of dependable service with marked freedom from mechanical trouble.

To learn for yourself the new Plymouth's greater dollar-for-dollar value over the few cars which strive to compete with it, contrast them and their results with what you get in Plymouth at $970.

$970
AND UPWARDS

Coupe, $980; Roadster (with rumble seat), $970; Touring, $990; 2-Door Sedan, $995; De Luxe Coupe (with rumble seat), $1035; 4-Door Sedan, $1035.
All prices for delivery in Peterborough, and include 2 Bumpers, Spare Tire and Cover, and License.

The New Browns Take Front Rank in the Autumn Mode

In a riot of changing tones, brown runs through the whole gamut of new clothes for Fall. From the glimmering amber in the costume jewellery, to the tawny brown of the fur-collared coat—all the lovely brown tones will be seen in madame's Autumn ensemble. There's a shade of brown for every time of day—for every complexion.

Fur Collars Rise High on New Cloth Coats

Wise French designers realize how flattering fur collars can be. So these roll generously wide on Cloth Coats in the new brown mixtures, so high in favor—standing back as frame to the face. Immense muff-like cuffs and petal-like incrustations of cloth are other marks of the mode. They are among many styles, all outstanding values, in the Fall display of Fur-trimmed Coats. Sizes for misses and women ..... **19.75 to $165**

Dresses Strike a Smart Note in Brown —New Velvet Frocks for Autumn Wear

Both plain and printed velvets in the new sheer weave known as "transparent" to which a thread of rayon lends a lustrous gleam. So soft and supple is this transparent velvet that it lends itself to the tiers and pleats that distinguish the new Frocks.

You will find it in one and two-piece styles, tailored or formal of aspect, in the highly becoming shades of brown—pinkish chocolate, all the rich tawny browns that so well harmonize with Nature's colorings.

Afternoon Dresses of Spanish Lace

Lovely fine Silk Lace is used in featuring this exquisite Dress. As an example of the mode, we are showing a style in a Bolera effect Blouse and very fine pleated Skirt of Lace, designed over extra good quality Georgette of the same shade. It is undoubtedly a beautiful Frock for dinner or informal wear. Comes in new Powder Blue shade **$35**
Teco Store .....

Georgette Takes Its Place in the Evening Gown

The new Evening Gowns are of exquisite suppleness and most becoming. The lovely soft Pea shade in Georgette is now being shown, presenting a Tulle-fitted Basque, irregular hem line, and deep metallic Lace, set-in Skirt, showing beautiful contrasting shades. Come in and see the most beautiful Frock for Evening wear.

Brown Stockings Favored by Smart Women

Hosiery that tones in with her chocolate brown shoes and her sherry brown dress is the aim of the chic woman for this Autumn of 1928. Hosiery that deepens the sunburn shades of Summer, and give proper value to her russets, and slate blues—some of them with an almost taupe cast. So in smart Stockings appear a whole new range of brown shades. In chiffon and service weights. Sizes 8½ to 10. Pair..... **$2**

Fall Footwear Keeps Step in Brown Modes

Brown, so important for early Autumn, appears in shades to accompany the varied costume demands—in suede, in kidskin, in reptile leathers. Simplicity and grace of line characterize the newest models, combined with the utmost of comfort in fit, and excellence of workmanship. For example, kaffa brown suede with contrasting kid inset, and strap, is comfort personified, with its Cuban walking heel and roomy but elegant toe. AA to D widths. Pair ... **$10**

Accessories in Brown

The lovely brown shades glint and gleam through the whole category of fashionable accessories. Chic Bags in beige, tan and dark brown are interesting in pouch and under-the-arm styles. Brown and Beige Shoes smartly complement the Fall dress or coat. Costume Jewellery glimmers in many colored amber lights—even Flowers in the new pate-shell and bronze Tones. Neckwear in a softly tinted bronze pink—or with deep ecru lace, is a novelty.

Belts, increasingly important in the fashionable scheme, are of supple brown suede with smart gilt buckles—attractive for sweater or dress.

SCHOOL KIDDIES ATTEND FAIR

(Continued from Page 1.)

Queen Mary school; G. Clark, Queen Mary school; S. Currie, Queen Mary school.

Boys, thirteen and under—Jack Gardner, King George school; Melville Hunter, King George school; Jack Primeau, Immaculate Conception.

Boys, fifteen and sixteen—Clarence Dempster, St. Peter's school; Herbert Fitzgerald, St. Peter's school; James Duffus, St. Peter's school.

These three boys finished in the same order in the semi-finals and they immediately raced against two fresh entries who had received a bye but carried off the honors in the same order that they won the semi-final heat.

The girls' relay race that was run over a course of fifty yards was won by the King Edward girls whose team consisted of Bernice Williams, Gladys Gerrard, Elsie Cook and Elsie James. The boys' half mile relay race was won by St. Peter's school with a team consisting of H. Fitzgerald, C. Dempster, E. Hyland and G. Duffus.

At the close of the race the children were entertained by some daylight fireworks which were touched off and went up with a loud explosion bursting in the air and revealing many queer figures floating there, elderly women, roosters, and many other forms while flags attached to parachutes were seen floating in the sky.

The youngsters in the stands acted as rooters for their various schools and at times kept up a regular roar of yells during the events, after the close of the events all the kiddies seemed satisfied that the day had been worth while.

CATTLE, GRAIN AND PRODUCE

(Continued from Page 4.)

shipment to this city amounted to but 28,000 bushels, whereas, the open interest in September corn contracts here is nearly 22,000,000 bushels.

The country offered new corn more freely, and 348,000 bushels were purchased by Chicago houses, mainly from Illinois points, but this corn is about all to arrive not earlier than December. On the other hand, shippers here took 176,000 bushels of corn to-day from Chicago stocks, and vessel room was chartered for 235,000 bushels to go to Buffalo and Georgian Bay.

Wheat values derived their firmness almost entirely from the strength of the corn market. The upturns in wheat were in the face of favorable harvest weather in Canada, prospective bearish Canadian government crop estimates, and virtual stoppage of export demand. The world's available supply, though, decreased 1,259,000 bushels for the week, and the European crop summaries were construed as rather unfavourable. Oats tended upward with other grain, and because oats receipts were small. In the provision market, lard was firmer, but meats were inclined to drag.

MONTREAL, Que., Sept. 12. — (Canadian Press). — Sterling Exchange closed here yesterday as follows:

Demand $4.84 5-16 to $4.84 3-8.
Cables $5.84 11-16 to $5.84 3-4.

BUTTER AND EGGS.

TORONTO, Sept. 12.—While no change occurred in the local butter market yesterday, the undertone was firm. Wholesale and jobbing sections reported quiet trading on spot, with quotations ruling around 39¾c to 40c per lb. for No. 1 pasteurized creamery solids. The volume of business was small, with little demand from outside sources. Wholesale jobbing quotations for highest quality creamery prints at the close of last week averaged 43.11c per lb., as compared with 43.88c at the close of the previous week.

The local cheese market was quiet, although strong in tone, with quotations for No. 1 large, colored; paraffined. Government graded cheese standing at a range of from 23c to 23¼c per lb., delivered Toronto. According to latest statistics the cheese offered for grading in Ontario and Quebec (exclusive of Quebec City) from January 1 to September 8, 1928, was 1,018,759 boxes, against 989,000 boxes for a similar period in 1927.

The local egg market continues firm, with dealers reporting no new revision of prices in either direction for future supplies. Outside markets are maintaining a fine position, with a tendency toward higher prices in some centres for fresh eggs, due to the decline in local receipts.

WALNUT LEADS IN FURNITURE

McBride & Franks' Store Shows Splendid Range for Fall.

ANTIQUES BACK

In all furniture, walnut is the prevailing wood that is shown in the fall furnishings, while there is a small sprinkling of mahogany. Copies of the antiques are coming into favor, with the Queen Anne, William and Mary, and Colonial styles outstanding.

Dining-room suites composed of nine pieces, chairs, table, buffet and china cabinet are being shown in walnut and in these designs. The double pedestal table with the long extension is the latest thing. Rarely there is also a servor used with the dining-room suite although there is an occasional demand for these.

Bedroom suites are shown mostly in walnut and some mahogany. An especially attractive set is one with the four-posted bed. These are shown in the same period designs. The set comprises bed, highboy, vanity and bench. This year the vanity is shown with the single mirror instead of the old triple mirror of last year's style.

The fall chesterfields show the overstuffed effects with exposed walnut frames. The coverings are mostly in plain effects shown in mohair, taupe, walnut brown and wine shades. The cushions are of the reversible type in figured silks. French freizes and jacquard velours are shown with colors that tone in with the rest of the coverings.

Occasional chairs are shown as well as are the Cogswell chairs which are to be had in a variety of colors and are used to fill in odd corners around the room.

Fibre furniture, both in the room suites and chairs, is taking the place of willow and reed furniture. This can be had in enamel finishes of any shade, but the cafe au lait shade is outstanding for this type of furnishing.

Bridge and floor lamps are taking on a modernistic effect. One model has a plain knife pleated effect and with figured effect in shades of light and dark walnut and green and blue, finished with a fine beaded design in colors to match. Other styles show a variety of colors with beaded, silk and metal fringes. The standards are shown mostly in walnut with a polychrome finish.

For the best room with a view to draperies, a Swiss panelling with applique borders top and bottom in ivory and ecru shades give a wonderful two-tone effect. Plain silk is also shown in filet and Tuscan weaves which have gold and ecru shades. These are finished at the bottom with a hem and three rows of tucks making a very effective window.

Overdrapes are shown in plain velours, plain silks, plain and striped taffetas and plain and striped poplins. There is also for the fall a large variety of bright floral designs and bird designs in these.

TARTAN CRAVATS ARE ON DISPLAY

Riley & Hickey Have Fine Line of Silk Ties in Window.

Riley & Hickey, exclusive men's wear, are showing at present an attractive window display of the latest ties. In the south window are displayed cravats in the original Scottish tartan designs of the clans. These ties are made of the finest quality Scottish silks by the Sanbrook & Wetting Company, Limited, of England, and are imported direct to Riley & Hickey, who are the exclusive representatives for this firm in Peterborough.

Many a Scotsman's heart will go back to the Old Country as he passes this window and sees the colors of the famous clans represented in the latest neckwear. Fourteen clan tartans are shown. The MacRae, Grant, Fraser, MacLeod, Graham, MacLean, Macduff, MacIntosh, Robertson, Gordon, Hunting Fraser, MacKenzie and Royal Stuart are all here.

PRIMEAU HAS SNAPPY WEAR

Tans and Greys To Be Worn This Fall in Smart Styles.

FRENCH COAT BACK.

Jack Primeau, of the Shop Fashion Craft, 140 Hunter street, who keeps a smart shop for young men, says that the new shades for suits will be tans and greys. Fall coats and winter overcoats will follow these shades while the blue overcoat is to be the thing for dress wear. The ever popular blue suit will always be the suit for less formal wear and evenings during the fall and winter.

The suit coats will follow the single breasted style with the two button coat becoming very popular. The trousers will be of the eighteen inch style at the cuffs. Broader shoulders and fitted to the hips with the standard length coat are shown in the suits.

The tuxedo still holds sway for formal wear. The style is similar to last year the English effect still being predominant.

Bowler hats or derbys, the hard hat, will be shown for formal wear and the dressy man with the blue overcoat. The style is lower this year with a snappier appearance. The soft hats are somewhat narrower and are shown in snap brims and welted brims with the greys and fawns predominant.

The old yellow slicker and the straight slicker seem to be disappearing for the rainy days, and the trench coat with its snappier appearance in military styles seems to be the favorite. Loose-fitting, with slant pockets, belted waist and shoulder straps seems to be taking the eye of the younger man. These coats come in various colors.

White is the leader in shirts, especially with the collar attached, which is now accepted for any wear except formal. There are still a few fancy shirts in demand.

Ties and socks are still much the same as last years, colors and pattern predominating.

FASHION LEADS IN FURNISHING

Hall Store Draperies Follow Trend of More Personal Wear.

FLOWERED DESIGNS

The influence of color on the modern living mode is shown everywhere in dresses, shoes and new draperies. Flowered designs in bright colors are the leaders in hangings. Canadian made drapes are coming more and more into their own. Other years local stores had to rely on English and American goods, but now Canadian manufactures are being received with favor.

Fine Swiss curtains in lace work and panelling which is sold in panels or by the yard has been taken favorably for the furnishing of the better rooms. These are shown in the festival shades of honey and beige.

Damask tapestries, of the modern type, in beautiful colors of blues, antique rose, and soft gold tints that blend with the autumn shades, and combinations of the metallic shades of gold and black and silver and black have proven popular.

Fashion decrees the proper style for draperies in the modern home as well as the style of dress that is worn. Short draperies in the past were the style, but now the long drapery has replaced this, showing the trend of the fashions. Draperies are changed with every change of style, and the old idea of once hangings are put up they are to be forgotten has passed.

Rugs are shown for the fall in handsome designs that have been copied from the old Persian designs. Fashion is now again turning from the plainer rug to the all-over pattern, not as heavy as the old-fashioned rug but in a lighter design. Bright colors in rugs have also passed, as the brighter hangings and the brighter aspect of the modern rooms requires that a sombre background with neutral tints be used to set off the room.

There is this year a great number of patterns being used in linoleums, inlaid and in every color and design that can be thought of.

Occasional rugs in oval design are again popular this year for use in odd places in the house.

COME SHOP With MISTRESS JEANETTE

No less than eighteen little glass buttons in a bright shade of blue, transferred to the dress in just the same formation as they appear on the card, made the finishing touch to a wide belt of blue on a frock in a George Street store window.

It doesn't matter what color scheme you may use in your bedroom, the stock of blankets in one local store will match it. Not content with plain colorings this year, blankets here have branched out into such hues as bright reds and oranges and pinks and mauves, with variety in their checks and stripes.

A group of dainty Watteau shepherdesses, brandishing golden crooks, appear in colorings of rose, green, yellow and blue on a brown background, in the lining of one fur coat in a local store. Another fur garment in the same establishment shows clusters of deep purple English violets, with bright green leaves.

Something new in the bedspread line, displayed in one of the Peterborough stores, is worked in the Murray Bay District, its geometrical designs carried out in tufts on colored wool on a white ground.

A yellow silk nightrobe, with two rows of fine brown lace as trimming, companioned by cocoa brown bobettes, as displayed in one of the stores here, carries out the vogue for brown shades.

"Companionate" colors is the way in which is termed those bright colors which make a pleasing harmony with their dark companions, like the tri-partite long bow of pale rose and yellow and green which falls from the waistline of a black lace frock in a local store.

—JEANETTE.

VIOLETS LINE STRIKING COAT

Barrie's Fur Store Shows Out-of-the-Way Linings This Season.

MANY TYPES

Big purple violets of the English type, with green leaves, form the pattern of the lining of a seal coat at the Fur Store of Barrie's, Limited. Another out-of-the-way lining to a seal coat that has a brown Kolinsky collar of Queen Anne type, framing the face, and cuffs of the same rich fur, is a beautiful thing with Dresden shepherdesses disporting themselves on a brown ground, in shades of rose, green, yellow, and blue.

These linings, which come either plain, as in the case of the quiet sand interior of a Persian lamb model with mink tails to the cuffs and a crush collar of mink, may also be brocaded in rich patterns and colors, or sport beautiful motifs of embroidery in gorgeous hues and designs.

At the Barrie Store there is a wonderfully large and varied assortment of fur coats and fur pieces of different types. Black Persian lamb garments, with self and mink and grey squirrel collars and cuffs, Hudson seal, mink, and minkeline, grey and brown squirrel, grey lamb, grey and brown caracul, comprise the majority of the models with the darker furs among the most popular offerings of the season. In slightly longer models, with Queen Anne and shawl and crush and mushroom collars, of mink and squirrel and fox they offer a splendid variety.

For motor use, there is the shiny brown calfskin with trimming on collar and cuffs of Nutria, a soft, beaver-like fur of mouse brown.

A coat of soft grey squirrel with short cuffs of self has a collar of silver rat.

There are coon coats also, the long-haired fur in direct comparison to the short-haired squirrel that companions them.

The fur scarfs offer a wide choice with fox leading in all its shades from the gorgeous silver to the bright red and the soft beige and amber and peach.

$14.95, $49.50

Frocks

Satin has become one of the leading fabrics for the new Fall frocks. Tight girdles, front flares, vestees and pleats are some of the season's features. We show them in moderately priced Dresses from..

$9.95 to $19.50

CHARMING HATS

The secret of charm in most of the new Hats for Fall lies in the shape of the Hat itself, for trimmings seem incidental. Brims turn up off the face, and sports type have narrow and becoming scoop brims that are deeper at the sides than at front or back. Prices are attractively low.

$1.95 and $4.95

LOFTUS LADIES' WEAR

366 George Street

Stylish Footwear for Comfort and Service

Pumps and strap styles are favored, in plain and fancy patterns.

In our better shoes, there are many Cuban heels.

Combination lasts are used almost entirely in our women's fine shoes.

Narrow widths a speciality.

AUTOMOBILE DEALERS ARE READY FOR FALL SEASON

CHEVROLET SALES AND SERVICE.

Peterborough representatives of the Chevrolet car tell how Chevrolet has shattered time and records.

Considerably in advance of the date originally set, the 5,000,000th Chevrolet unit to be manufactured came off the assembly line at Flint in the presence of a number of officials of the company.

The history-making car was a coach and it is possible that arrangements may be made to send it on a tour of the important cities of the country as an exhibit.

Increased speed of quantity manufacture by Chevrolet is shown by the fact that the first million units had been produced by February 27, 1923; the second million by July 10, 1925; the third million by January 18, 1927; the fourth million by January 11, 1928, and the fifth million by September 8, 1928.

In other words, while it took from November, 1911, when Chevrolet began manufacture, to February, 1923, or eleven years and three months, to make the first million, it required less than twenty-nine months to make the second million; a couple of days more than eighteen months to make the third; seven days less than twelve months to make the fourth, and only seven months and eleven days to make the fifth.

In the industry, it appears that the first million is the hardest.

HOOD AND CUMMING, FORD DEALERS.

When the new Ford Model A was introduced in December of last year, the acclaim with which it was received designated the tremendous demand that this new car would enjoy. But to build any fine product takes time, and to build an entirely new fine product requires just so much more time. Manufacturing standards were set, and irrespective of the intense demand for the new car, only that rate of production was tolerated, commensurate with perfect workmanship. Only this painstaking care in manufacturing of the new car makes its outstanding performance possible.

To-day the greatest number of cars ever to be turned out in a single day by the Ford factory is an accomplished fact. In consequence, Ford dealers are now able to satisfy the insistent demands of many buyers who have waited faithfully for the new cars. While it is true that orders for certain models are still considerably in excess of production, it does not hold for all models, some of which can be obtained immediately and others within a few days following the placing of the order.

Hood and Cumming, Limited, is fully aware of the forebearance of many who have waited for delivery of their cars and take this opportunity of expressing its appreciation of the confidence that has been shown in its product. This appreciation is expressed with an unstinted feeling that the confidence has been well placed and that every model A owner will have every reason to feel that his new Ford car was worth waiting for.

HOWSON MOTOR SALES.

In their old but new quarters on Water Street, the Howson Motor Sales have established a reliable service and are expecting a new line of Oldsmobile cars before the end of the week. They are featuring the new De Luxe series of Olds cars, which are strikingly smart and have justified the Oldsmobile position in the beautiful car field. Attractive colors, wire wheels mounted in fender wells on the side and folding trunk rack are a few of the features in this exceptional new line of cars.

JOHNSON NASH MOTOR SALES.

This week there is a new line of Kolster radios being featured and new S.L. batteries. There is an efficient and reliable battery service in connection with this auto sales. Dunlop tires and tubes, it has been found through these distributors give a remarkable amount of satisfaction and the repair work, such as vulcanizing that is done in connection with the tire service has won popular fame throughout the city.

A big feature of this establishment is the "truck to service" on tires and batteries free of charge. That is, a call for these will be made free of charge. This is done in order to give the customer satisfactory service.

SELKIRK AND ELLIOTT.

Selkirk and Elliott are featuring this week the new Studebaker President "8," with the ball-bearing spring shackle that assures perfect riding ease. This feature will also be carried out in the "six" models, the Dictator and the Commander. The Erskine "6" is displaying an entirely new model this fall with a larger motor and a more comfortable car with very flexible spring suspension.

The Durant fours and sixes are maintaining the same grade of outstanding performance as before with the famous Red Seal Continental motor. One feature of this car is that there are no yearly models.

J. J. DUFFUS, LTD.

J. J. Duffus, Limited, have just redecorated their show-rooms artistically in the "Siberling All Tread Colors" and are running a special exhibit of a full line of four and six-cylinder Whippett cars as well as a complete exhibit of Willys-Knight cars, including the big "66," and as a special feature will show a Willys-Knight heavy duty truck which is equipped with all the latest improvements.

This firm is very much elated on account of the Willys-Knight Company coming from 17th place five years ago to second from the top in the industry at the present time.

Possibly one of the most interesting and attractive features of their line is the new six-cylinder, seven bearing crankshaft Whippett, which is the lowest-priced six- cylinder car in Canada.

EASTWOOD GARAGE.

"The prediction made a month ago that shipments for the second half of 1928 would show an even greater ratio of increase over 1927 than the phenomenal increase shown for the first six months is amply justified by the figures available at the close of July," states Mr. E. P. Clarkson, managing director, Dodge Brothers (Canada), Limited.

"Shipments of passenger cars and trucks from the Toronto plant during July show an increase over July, 1927, of 186 per cent., and shipments for the seven months ending July 31st show an increase of 52 per cent. over the same period of last year.

"This is due largely to the fact that during the first six months of this year the Standard, Victory and Senior lines of passenger cars were not in full production, and the Graham Brothers truck lines from the ½ ton to 2½ ton were being entirely revamped," states Mr. Clarkson. "Now, with the transition period passed, and all lines in full production, we fully anticipate the largest Fall business in the history of the Canadian company."

Many of Canada's leading social and sporting clubs use Red Rose Orange Pekoe Tea exclusively. The added strength and inimitable flavor of Red Rose Orange Pekoe make it last longer, go farther and taste better. Packed in damp-proof aluminum. 13EW

BREWER MOTOR SALES.

Hudson-Essex's "little automobile show of its own," as the exhibit is described by Brewer Motor Sales, Hudson-Essex dealer distributor, has been so enthusiastically received by motorists of this city that it will be continued, according to an announcement to-day.

The special show consists of a display of the Essex chassis and parts; of the performance possibilities and records of the Hudson Super-Six; and of all Hudson-Essex cars in new fall colors. All the past week scores of interested observers have looked into various features of the exhibit.

"We have said in our advertising," he continued, "that Essex is built like a $3,000 car. That sound like quite a broad statement, but when we show the vital units of Essex design it is plainly true. We have the big safety roller bearings for the wheels, the big steering mechanism, the propellor shaft and axles of most unusual size and strength, the roller tappets and the silent front-end chain in the motor, the enclosed and protected four-wheel brakes, the frame with five cross members—all features of the best quality cars, but all features which are not found in any other car of the price except Essex.

"Each and every one of these units is of vital interest to the car buyer. They are the points which would be first examined by an engineer who was called on to report on a car's quality. This exhibit is an education in itself insofar as it shows how Essex is built.

"Our Hudson show is as interesting, except that we are proving its design and construction by demonstrations, rather than by a display of its parts. We are here to say and to prove that Hudson is the greatest roading car on the market to-day. On the road it is doing things effortlessly which other cars can scarcely do at all.

"Hudson gasoline economy is 15 to 18 miles a gallon. We invite all the motoring public to continue their interest this coming week."

EVENING GOWN IS EFFECTIVE

Hall Store Has Satin and Lace Combination in New Silhouette.

BASED ON CREPE

The combination of shimmery black satin and fine black lace that is so effective for evening wear is noted in one of the gowns at the Hall Store, in a model that has the down-at-the-back and up-in-the-front silhouette. It is made wholly of alternate wide bands of lace and satin and is posed over a slip of flesh-colored silk crepe that has a wide hem of cream lace. Beneath the lace at the top appears also a pointed yoke of cream lace.

An orchid gown uses sequins of silver at neckline and waistline as its sole trimming, while a long cream lace gilet or vestee of Alencon lace makes the front of a gown of Madeleine blue transparent velvet. An entire gown of lace is in honey beige with a large silk flower at the side waistline, colored in varying shades of rose and yellow.

A Renee blue georgette of that soft shade of French blue which is so becoming, has a knife-pleated skirt and a bow at the side of the belt.

An olive-green georgette gown has two wide box pleats in the front of the skirt and a one-sided effect in the silk-embroidered jabot of georgette in sand color, which falls from the neck. Heavy silk stitching trims another green gown of satin-faced crepe.

For sports wear there is an intriguing model of rosewood, with a skirt of knife-pleated satin and a top of fancy embroidered jersey in the same soft shade. From the bottom of the blouse portion depend little tabs which fasten to the satin skirt.

In the coat department are stylish and smart examples of the fall and winter models in cloth garments. One suedine of rust color has a collar and deep cuffs of peach fox and a wine-red coat, with lining that is half plush and half silk crepe, has a striking fur trimming of bright striped fox. Wolf, opossum and minkeline trim other garments in broadcloth of King blue and brown.

There is a large stock of woollen things such as sweaters, with the favored "turtleneck" top, and of the little flary "butterfly" skirts in bright colorings. Lingerie and corsets show a wide variety in choice and the most up-to-date ideas in modes.

"Knobbs" hand-blocked felt hats are prominent in the millinery display. There are small felts trimmed with stitching and silk embroidery and grosgrain ribbon bandings, with their sharp curved edges and "off the face" lines. One felt hat of grey French velour shows insets of clipped material as a variation.

A tam of grey velvet has soft, pliable lines. Stitched taffeta makes a large shape, absolutely untrimmed, and a perforation of felt on the crown shows a white lining to a black felt hat of close-fitting shape.

On the street floor of the Hall store are the many accessories which are needed to complete Miladi's costume, in parasols, bags, flowers, hosiery, handkerchiefs, scarfs and gloves, all demonstrating the latest models and newest colorings.

Elastic metallic belts in silver and gilt make a gleaming touch of color and there are many shades of brown in the flower collection, as brown appears so often in the fall wardrobe. Neckwear inclines to lace, with jabots and motifs of lace on transparent net and georgette and little collar and cuff sets of pure linen.

On the dress goods counter are the chiffon and transparent velvets, the printed and embossed velvets and the velveteens, the feather suede flannel which is so soft and velvety in surface, the crepes in the many variations of Canton, morocain, satin-faced and pussy willow, the duvetynes and suedines and plaids, and the San Toy material with its fine corded woollen fibre.

In colors, there are many variations of the blues and reds and greens which form the season's favorites after black. The beige-brown gamut leads in favor, with light navy and sapphire or "Renee" blue very good, bottle and olive green and all the many shades of wine in reds.

FOOTWEAR FOR AUTUMN

(Continued from Page 7)

department this autumn. Made on a neat last, with the medium toe, and Cuban heel, they have either strap or tie fasteners, while patent kid shoes with suede trimmings are also shown.

For dress wear, there are many lines of patent and satin shoes with the inevitable spike heel but with a medium toe, and rivalling these in popularity, especially for more formal dress occasions, are silver and gold cloth shoes.

The kiddies are well taken care of and offered an equally varied range from which to choose, though this year the Colonial style pump with its low heel and large steel rectangular buckles is suggested especially.

There is also a line of lizard skin shoes for big sister, a feature of them being a gold buckle through which the securing strap is placed.

W. & A. INGRAM.

Shoes made and fitted under the some roof is the proud boast of W. & A. Ingram, who, at their store on George Street have on display the products of their workshop located at the rear. A nice arrangement of walking shoes and prospecting boots are to be seen, all made on comfort-insuring lasts. Here, if anywhere, one may secure "a fit" for they are made to order.

B. CHESLER.

Brown suede will lead in high-class shoes for ladies this fall, according to B. Chesler. Brown will also lead in calf and kid shoes, he believes, although suede will be more popular. This material will also be found in black and blue. Black has been the rule for some time, however, so Mr. Chesler thinks the fall trend will be towards colored shoes.

Heels are high! Full spikes will be worn by those who are most conversant with fashion's whims. In fact, on many of the new shoes the heel makes up about half the shoe. A long spike of a heel, with a thin sole, a little toe cap, and enough material around the back of the foot to provide a fastening for the straps comprise the whole shoe. At the instep the sole is the only link between heel and toe. Mr. Chesler called to mind the high boots of ten or fifteen years ago as he pointed out how little material is used in one of these modern shoes.

TECO STORE.

Straight lasts and round toes for men. Blucher cut, with black most popular. These are the pronouncements for men's shoes for fall, as voiced by John Edgar, shoe salesman of the men's wear department of the Teco Store. Calf is the favored material for smart footwear, although kids and patents continue to take well.

Square toes are still selling, although the tendency toward the smaller cap is becoming more marked. Oxfords continue to hold their popularity for most occasions, boots being almost entirely relegated to use for heavy work.

In boys' shoes, the square toe which gives the active young feet plenty of room to kick is still the best seller. None of the tapered shoes of a few years ago are offered these days, their place being taken by solid, comfortable shoes and boots of substantial leather.

STENSON STORE.

Black is far the best seller for fall, according to the Stenson shoe store. It will lead in both men's and women's wear, leaving browns and other colored shoes far behind. Toes will be round, instead of square, for men, although there is little change from the spring lasts.

SPORTS MODEL IS OUTSTANDING

Tweed Coat Attracts Attention Among Alice Williams' Stock.

LOVELY DRESSES

A "sports" model coat that is striking and unusual is one of the outstanding items in the stock of ready-to-wear goods carried by Miss Alice Williams, in the Bank of Toronto Building.

This is of novelty tweed which shows a variation in its pattern, a portion of which is of shadow striping and the rest a checkerboard diagram in black and soft green. It has a "Paquin" collar of natural wolf.

A black coat of French broadcloth uses silver fox for its collar and cuffs and a coat of "Olympic" blue, a rich, moderately dark blue shade, has grey mole for its mushroom collar and cuffs.

A black "Brolaine" coat, in material resembling a broadcloth, has a broad band of black caracul across the lower back with Vandyke cuffs and a Queen Anne collar of the same fur.

A velvety needlepoint in King blue with a lining of the same shade is finished with platinum wolf collar and cuffs.

On the dress hangers are some lovely examples of the latest things for Fall and Winter wear. In the soft mistiness of French lace is the bodice, which has a flesh-pink lining, while the circular flare skirt is hemmed with velvet transparent tissue, with ittle velvet cuffs and a velvet bow at the shoulder.

A "Blackshire" dress of satin-faced crepe in black has a scalloped under hemline and a godet at the left side of the skirt. Its trimming consists of triple bands, fastened together, on cuffs and belt and godet, of satin, in shades of rust, rose beige and light turquoise blue.

A dress of "Independence" (flag) blue satin has a circular skirt which opens at the left side, and a gilet, or long vestee front, of honey beige georgette, edged with ecru lace and embroidered in a design of blue and silver.

A dinner gown of lace in a heavy silk Spanish weave is of rose beige with matching under-slip. Its circular skirt is bouffant in style and its wide Bertha collar forms the sleeves. A large bunch of pink velvet geraniums is placed at the left side of the waistline.

A gown of printed velvet has a V opening to its neckline, edged with real lace of ecru shade. The pattern of the material is a small conventionalized rose.

Another evening gown of bright shamrock velvet of chiffon texture is sleeveless. A yoke to the skirt is joined to a circular flounce that is high in the front and low in the back, while the sole trimming of the bright frock is a velvet flower of green placed on the right shoulder.

An exquisite frock of "sweet pea" (light orchid) georgette has a very wide belt that extends far down on the hips. The long plain sleeves end in a tiny French fold at the wrist and the vestee of white tucked georgette has a double jabot of orchid and white, with picoted edge. The whole skirt section is made of separate circular godets in handkerchief style.

A "Montullo" or light olive green charmeuse satin has a long front embroidered in gold thread and a one-sided rever. The same metallic embroidery trims the high-placed cuff which starts two inches above the plain piece at the wrist and extends nearly to the elbow, in a flaring line.

Ye Olde Firme Heintzman & Co.

You're Invited

to visit our display section in the Manufacturers' Building at the Peterborough Exhibition. Our showing is the finest exhibit of Musical Instruments ever displayed in this district, including the world-famed Heintzman Piano, the Orthophonic Victrola, Brunswick Panatrope, the wonderful Credenza (the latest creation in the orthophonic class of phonographs), and the Rogers Batteryless Radio.

Recitals every afternoon and evening by local artists.

WOMEN'S PAGE

THE WHATNOT

A Place for Little Bits of Everything of Local Interest

By MARION

THIS being a Fashion Number it seems well to say something about those whom it most affects—the women of Peterborough. And I hope that what I shall write will help some to take better advantage of the stores' offerings.

• • •

In every city, no less than in Peterborough, there are leaders and those who trail along behind the procession. In every gathering you can pick them out—the people whose clothes are always in style, who furnish their homes with taste, drive smart cars, and entertain artistically. They are the leaders.

• • •

They don't seem to spend any more money than their neighbors—in fact, many of the smartest women dress on an allowance that would seem absurdly small to others less well turned out—and yet they undoubtedly set the pace.

• • •

And at the other end of the line you can pick the trailers. They are the people who are always a little out of step. They are the last to hear that styles have changed—the last to learn of new housekeeping methods or improvements in automobiles.

• • •

They think "Remember" is the latest song hit, and are planning to get "Main Street" out of the library some day when they are up George street.

• • •

What is it that makes the difference between front rank and rear rank families? Temperament partly, of course. But the real answer is that one group chooses to keep posted while the other is willing to remain in ignorance.

• • •

It is to give every woman reader the same opportunity to dress well, furnish her house well, and live well, that this number is published by The Examiner. Jeanette, who has written several columns of comment on what she saw, visited every ladies' wear store in the city during the past seven days, and made notes of what goods are on exhibition. Other reporters called on the shoe stores, the furniture stores, and the men's wear stores, with similar object.

• • •

The result is that in these twenty-four pages you have gathered for you most complete information on fall styles, enabling you to choose with discrimination. There should be no trailers in Peterborough this fall!

• • •

Then, too, there are the advertisements, in which the stores tell particularly about their best lines and special offers. By reading the articles and the advertisements, every woman ought to be able to select well and economically.

• • •

I hope that you find it so.

• • •

I have requests from readers for recipes for pickles, butterscotch pie, and a method for freshening a blue ribbon hat which is not faded, but just in need of a livening-up. Will some readers oblige?

• • •

There are no patterns left of the beveless jacket but I have still a few of the pointed slip the camiknicker and some copies of the recipes for beverages. They are yours for the asking as long as they last.

• • •

Little posies made of pastel colored ribbon are used to ornament the new lingerie. They are not hard to make, and most inexpensive as they need so little ribbon. If you would like to make some for yourself or for gifts, please send me the coupon and I will mail the instructions, with sketches, at once.

• • •

Don't forget to take a walk around the stores during Exhibition week. Most stores are putting on special displays for the occasion. While I was investigating for material for my front-page article I heard whispers, too, of some splendid values to be offered the latter part of this week. It seems that a little money will go a long way in the purchase of fall garments. And if you don't use it that way, you will perhaps spend it less advantageously.

• • •

And please, you readers who are exhibiting your handiwork at the Fair, don't be backward about giving us the recipes. We'll be delighted to have them, and I am sure my other readers can make good use of recipes which are good enough to be entered in competition.

Marion

Why We Do What We Do.

WHY WE HAVE DEFENSE MECHANISMS

By Mehran K. Thomson, Ph.D.
(Author, The Springs of Human Action.)

Defense mechanism is the term the psychoanalysts use to denote a very common mental trait which leads every person to cover up some humiliating experience, some stigma. The man who is humiliated by being abnormally small in stature will compensate and defend his pride by assuming a dignified attitude far beyond normal and a deep bass voice that is supposed to belong to a man of very large stature.

Any stigma of race, of physical, mental or moral trait is compensated for in this way as a means of self defense. The same defect in another person is most severely criticized and quite unconsciously.

Recently the manager of a department store was convicted of fraud and of stealing from the company. It was observed that he had been the most hardboiled in dealing with the clerks who had been caught stealing.

There is no end to illustrations of this type of conduct. Defense mechanism serves to explain a great many queer acts, especially the acts that are exaggerated and out of proportion to the situation.

We rightly suspect the man who is abnormally intolerant of some human frailty. It is a pretty good sign that he suffers from the same defect.

The motive for defense mechanisms is obvious. It is merely the conscious and mostly the unconscious effort to cover up some deformity or defect which the individual thinks stands in his way of getting the social recognition he craves. It is an attempt to forget an unpleasant trait or experience, to compensate for it by exaggeration of some other desirable characteristic and in denouncing the stigma in others in order to disarm suspicion and reproach.

THE MIRROR OF THE MODE

By Mary Marshall.

A striking fan of white feathers with black splotches was chosen for this all-black evening gown.

The fact that decidedly warm weather prevailed in Paris on the days when some of the important dressmakers showed their new autumn clothes is said to be the reason for the revived interest in fans. Fans were carried by the mannequins when they showed these new frocks entirely appropriate under the circumstances, and consequently we may carry fans in the evening all winter because they were then accepted as part of the new mode. It is a fact, that the French dressmaker realizes to the full, that the fan must be chosen for the frock with which it is to be worn. Not only must it harmonize or match the frock in color but its motion must be of the same rhythm as the frock. The bouffant frock of the period sort with molded bodice and billowy skirt lines demands a different sort of fan from the frock that hangs at the front in rather straight classic lines and then trails off at the back in a floating gesture when the wearer moves about.

SPANISH LACE FOR EVENINGS

Barrie's, Limited, Show Gowns in Long Lines With Uneven Hems.

NEW VELVET SEEN

Spain, the land of the castanet and the serenade, sends us lace this season for our evening frocks. Heavy Spanish lace of long lines and uneven hemline, with a single large brilliant buckle as ornament, makes one of the intriguing dinner frocks at Barrie's Limited, in the section of the store devoted to women's ready-to-wear goods.

Long, suave lines, tight at the hips, flary at the front, with the "fishtail" or "Princess" back of the mode, are demonstrated in the smoothness of the gleaming black satin of another gown, which has two long silk tassels, capped by rhinestones, finishing the beltline.

With a bloused bodice and an elastic gilt belt, a black gown of transparent velvet uses metallic velvet in gilt design as a variation.

Another model of transparent velvet in unique design that resembles exactly the soft pattern of a pheasant breast has a hand-made lace jabot of cream tint, and shows the tight hiplines, the straight back and flare front of the mode. Another bit of interest this year is the drapery formation called the "gypsy" hip, with a handkerchief-like piece tied just across the hipline.

In batik of American beauty and black tones is the trimming in points of the blouse portion of another unusual gown.

Printed velvet comes again in a design of black and green and brown polka dots on a black ground, in a frock developed in two-piece style, with cream vestee edged with cream lace. Cream lace is on the small cuffs also and a green and crystal ornament completes the effect.

A true lover's knot of hand-made cream lace makes the single ornament on the upper part of a black transparent velvet gown that has a V neckline.

One beauty in an evening gown that resembles a butterfly is made entirely of two-inch folds of shaded brown tulle, posed over beige georgette. The bodice is tight-fitting and a huge butterfly bow of the brown tulle is perched at the side of the waistline. A rhinestone butterfly poises on the shoulder.

For business wear, there are the "Golflex" jerseys. One snappy model has a skirt made of navy with white polka-dot pattern. The scarf is of the same material, while the balance of the frock is of plain navy jersey.

Diagonal overlays of orange, sand, and rose beige in pointed endings trim the front of a sand jersey dress.

These frocks come also in Frisca cloth, in featherweight tweeds, in clingaling jerseys, in hairline stripes, in fine poplins and in pepper and salt effects that are trim and brisk-looking.

The coats here are the last word in the mode. One "Caravan" model in lizard pattern has straight lines deep cuffs and collar of fitch sable. Another of checked cloth has a collar of Susliki (Rusian rat) fur and a suede belt.

A grey Dorchester tweed of trig appearance has a border of blue to the revers and pockets and collar and cuffs of kit fox in black and grey.

A grey swansdown coat has an odd, effective stitching extending from the pockets to the hem. This also appears on the cuffs and the collar is formed of platinum wolf.

In sand color is developed a Chinchilla cloth coat that uses beige duvetyn to trim its collar and cuffs in narrow bands, and also takes the same material for its lining. A navy chinchilla has a warm look with its silver rat collar and cuffs, the latter made with the fur above the narrow band of the cloth material which shows at the wrist. Plaided linings are another variation in these coats, while a plain black broadcloth coat has a very bright lining of rose and blue and a collar and cuffs of black fox.

In the stock here also are silk lingerie in lock knit and flat crepe fabrics, also scarfs and a variety of lovely flowers for evening and daytime wear.

A camp stool, covered in gay chintz and painted a vivid color, makes a fine end table for porch use, just the thing to stand a tray on or lay books.

FAVORITE RECIPE.

SANDWICH FILLING
(Contributed by Mrs. J. Armstrong, Cavan.)

- 4 packages (small) cream cheese or 3 large ones, 2 bottle stuffed olives (small), or 1 large one.
- 2 eggs, boiled twenty minutes.
- 2 tablespoons melted butter.
- 2 slices onion, dash red pepper and paprika.

Chop until very fine and blended. Mix a while before using.

A Tip or Two

To cool a dish of pudding or any hot food quickly, set it in a pan of cold water which has been well salted.

A little vinegar mixed with blacklead for cleansing grates will give a high polish and prevent the blacklead from getting hard and cracking.

To clean dirty clothesline—Wrap it around the washboard and scrub it with a brush and soapsuds.

To measure syrup or molasses, rinse cup in scalding water; this prevents sticking.

Canada's Favorite Window Cleaner

Bon Ami

Made in Canada

NOTHING is so widely used for keeping windows and mirrors crystal clear and spotless as Bon Ami *Cake*. 37 years on the market and today more popular than ever.

Cleaning with Bon Ami is safe, easy—really fun! With a damp cloth apply a thin lather of Bon Ami over the glass. When it dries, whisk off the film with a clean, dry cloth,—not a streak, not a smear remains.

And remember Bon Ami *Cake* has a partner—Bon Ami *Powder*. You'll like the Powder for cleaning and polishing many things. Both forms have the same magic ingredients—both blot up dirt without scratching. Never redden or roughen the hands.

Powder and Cake
every home needs both

BON AMI LIMITED, MONTREAL

The Modes of Autumn

FALL FROCKS
$17.50

INTRIGUING Satin has again come to the fore as the leading material for fall frocks. The one sketched is typical of the lovely models we are offering for $17.50. Note the tight, swathed girdle, the front flare, the smart vestee.

FALL COATS
$46.50

WHEN madame and mademoiselle step forth with fashion this fall, Coats very similar to the one sketched, will be worn. Every new autumn coat mode is Here! Every new fur trimming! Every new color!

FUR COATS
$75 up

THE style details of the new fur coats are smart, original we might even say unique. Sports coats of fur use leather belts, interesting new buckles, patch pockets and new collar treatments.

PLUSH FABRIC USED IN COAT

A. Swartz Has Extensive Choice in Coats Trimmed With Fur.

A CUT-WORK DRESS

The plush fabrics which are used extensively this season for winter coats have their innings at the store of A. Swartz at 422 George Street. They come in black and brown and taupe, with matching fur collars and cuffs.

A very smart-looking coat at this store is of black broadcloth with black oposum fur trimming. Other coats opossum fur trimming. Other coats that are so popular this year, in blacks and navies and browns.

There is an excellent line of staple goods, of children's coats and dresses, of shoes and of hats in velvet and felt.

One of the prettiest dresses is a model of black satin with a wide belt in chain effect, composed of rose and silver and long bell cuffs to the sleeves, embroidered in the same two tones.

The vogue of flary cuffs which matches the style for flary skirts is demonstrated in the black crepe with its pleated skirt and ornament which is a plastron of yellow velvet, placed high on the bodice and outlined with silver crystals.

A dress composed entirely of cutwork embroidery is of navy georgette over rose color, with jabot of knife-pleated georgette.

A variation is the one-sided collar of pleating that tops a dress of wine-colored crepe, while a yoke of checked velvet in red and black finishes the bodice of another red gown.

Bands of orange-colored cut velvet trim the blouse portion of a rose-colored crepe, which has an odd hem showing applied flowers of black satin. Cream lace is the trimming of yoke and cuffs, on a frock of deep wine color.

A bright blue gown shows a long V to the waist, made of the reverse of the satin-faced crepe, and edged with faggotting.

UKULELE CONTESTS PROVE SUCCESSFUL

Clementine Poitras, a French Interest in Harmonica and Ukulele Competition.

WINNIPEG, Man., Sept. 12 (CP)—For the past few weeks mothers have quietly suffered their sons and daughters to either rend the air with their efforts on the harmonica or strum, hour after hour on the ukulele; mothers are ever patient with anything that is for a good cause and in this case they knew their children were preparing for the ukulele and harmonica contest conducted by the playgrounds. For three solid hours the judges listened to many variations of "Home Sweet Home," urprising talent was shown by youngsters, John Saunders, in the 12 years and under class, scoring 94 per cent.

The harmonica and ukulele contest is probably the first large contest of its kind to be held in Winnipeg or the west, and judging by the results obtained in the finals, the playgrounds made a happy contribution to child life when they included such a contest in its summer programme.

LYRICS OF LIFE

THESE BOYS AND GIRLS

They give us many a day of care,
These boys of ours, these girls of ours,
And many a night we wonder where
They are, these boys and girls of ours.
They give us many an anxious day
And many a night to kneel and pray
That God will bring them through someway,
These boys of ours, these girls of ours.

Things once were wicked, they allow,
These boys of ours, these girls of ours,
But people think quite different now,
They say, these boys and girls of ours.
And we can only weep and wait
And pray to heaven not too late
They seek the highroad, and the straight,
These boys of ours, these girls of ours.

And in our hearts we know they will,
These boys of ours, these girls of ours,
Believe them, help them, love them still
The same, these boys and girls of ours
Our girls will wed with honest men,
Our boys will look for goodness then,
And we shall both be glad again
We had these boys and girls of ours.

(Copyright, 1928, Douglas Malloch.)

COME SHOP With MISTRESS JEANETTE

Dame Fashion, as seen through the mirror of Peterborough stores that handle ready-to-wear models for women, has two faces this season. She is a Janus-like lady who gives herself airs as a sophisticated, suave, smooth, silky person with long lines and a "Princess" silhouette, or she is a dainty creature who wears charming little frocks of demure tendencies, with bouffant skirts and a high-placed waistline.

This matter of the waistline is an important one. It slides up and down at the will of the wearer, who may have a waist that looks absolutely normal or one that has hips as a dividing line between the blouse and skirt portions of her frock. But the belt has returned to favor. It comes in wide pieces of self goods showing horizontal tuckings, or in little separate ribbon belts with silver buckles. These belts are detachable, of course.

And many things besides belts are detachable. There are detachable capes and detachable sleeves and detachable bolero jackets. Clothes are accommodating this season, like the piece of cloth that makes a skirt for a neat little suit and unfastens into a wide piece by simply snapping open its dome fasteners.

We go in for doodads, also, in an endeavor to be as feminine as possible. Mannish ways are a thing of the past. We place flowers on our shoulders or on our belts and we trim our frocks with little odd bits of material, like long, slinky bows draped over the shoulder and running through a buckle, or big, squashy pouffs of stuff that bulge out from the waistline, or little bows that indent a belt. Muffs are another tendency. There are litti ear muffs and tabs for the hats, muff-like sleeves in the "Ramona" type of gown that places a puff at the shoulder or at the bottom of the sleeve, and there are big, muff-like cuffs on the sleeves of our Fall and Winter coats.

These fur trimmings are luxurious this season. Fur wanders everywhere. It adapts itself into a long "Queen Anne" collar, one of those pretty things that are slightly wired and stand up to frame the face, or it fashions itself into a "Paquin" collar, named after the famous French dressmaker. This collar lies down well over the shoulders when in repose and stands erect to almost cover the hat at the back, when in use. It gives itself a point at the back also and finishes itself with an animal head. Again, a mushroom collar of fur appears, or a crush collar, both of which are just like their names. An intriguing way of this fur that tries to splash itself all over the coat is the long end that winds its way through a link at the right side of he collar and ends in a long scarf down the back. Long tails of fur finish the shawl collars in front, on some of the models, and huge cuffs of fur reach to the elbows in points, while a "snake" fur line is another variation, draping itself once or twice or thrice about the cuff in bands and finishing with a head.

In fur coats, which are slightly longer, there are gorgeous and beautiful linings, a two-button fastening in the front and a single button at the throat and the same furs are used which trim the cloth coats, with a few more models using mink. The tendency in furs this year is to long-haired types, just as the tendency in felt hats is for the long-haired or "Fox" felts.

Things have a pointed way of expressing themselves, this Fall. In the local stores, one finds points everywhere. They cannot be escaped. Fur cuffs point to the elbow, skirts have sharp, "toothy" points in dipping hemlines, yokes are pointed, and even hats are pointed, with their abrupt little sharp curves above the eyebrows and their pointed tabs of trimming.

It looks like a black season, but it is a shimmering, soft, smooth black that lightens itself with brilliant buckles and sequins and unexpected touches of bright color, like the brilliant embroidery facings on some of the dark felt hats.

Blacks and browns and navies and reds and greys are the best of the season's colors. Black lace or combinations of black and bright colors, in the "companionate" type of colors, black transparent velvet and black satin, are best for evening, with black satin slippers, while woodsy browns in "Madeleine" and "Montanella" and "reindeer" and "cocoa," suit the street costume. Reds in all the softly dark shades of wine have their vogue also, with a few greys and greens in the bottle and olive tints.

It is a very complacent and amiable season. Nothing clashes. Madame plays a matching game with the mode this year. She does not match for pennies, but for effects. With her gown she wears a matching hat, a matching coat, a matching bag, matching shoes and gloves. If she uses a touch of color, it is harmonizing, not contrasting, in effect.

The hats are sophisticated in style. One bares the forehead with a little model of "eyebrow" curves or covers it with the wide rim of a "Vagabond" hat. Again, there is the skull cap, with its ear tabs, or the one-sided effect that stretches out on one side and closes in to the headline on the other. Hatter's plush and long-haired felts, smooth velvets and shimmery satins, form the materials, with pequins, embroidery in gilt thread, grosgrain ribbon bands, or tabs of felt, as trimming. One effective use of cutwork embroidery is to make an all-over crown pattern of this type and place a softer shade of lining beneath. Hackle feathers, those soft feathers that gleam and glisten and lie down flat, are back again in little hats and there are models that resemble exactly an old-fashioned patchwork quilt, with little pieces of triangular-shaped velvet feather-stitched on, the spaces between filled with gilt thread embroideries.

A fascinating French version of the Scotch tam o' shanter is the beret, with its folded crown caught down at one side, and its firm little visor-like band in front.

The one-sided effect in hats is again repeated in skirts, that fall to the floor almost in the back and rise almost to the knees in front. It appears again in yokes, which are often high at the right and low at the left; in collars, with a wide band at one side and a narrow band at the opposite side; and in trimmings, with a large bow placed lopsidedly at one side of the waistline.

It is a "dress up" season. Gone are plain lines. We have graceful silhouettes and uneven lines of diagonal tendencies, and soft drapings that express themselves in little inserts of material called "godets," in jabots of Alencon lace, in motifs of lace and embroidery, in luxurious fur trimmings, and in jaunty, intriguing small hats.

Even business frocks show this tendency, with jerseys taking on a new note in fringed hems and pleated collars and tucked vestees or "gilets."

Pleating is everywhere and so is tucking. Shirring has a way of appearing unexpectedly on hats and dresses, but smocking is mainly confined to children's wear. These small people have replicas of senior dresses and coats and hats and Miladi may match herself in this way also, by having a small duplicate of herself walk beside her.

The only contrasting note in this orgy of fancifulness is the frock sleeve, which still persists in being very plain in the majority of gowns. Often it finishes with a tiny cuff or a French roll of self material.

Lace is prominent this year as a trimming, and appears in many forms on collars and cuffs and yokes and vestees. Ecru is its most favored shade. The lovely Spanish and French laces make some of the most beautiful gowns.

Flowers are more gorgeous than ever, with velvet as the principal material. In combinations of color, like red, black and white, or in zinnia-like shy tints like faded rose and gold and soft green, they are wonderful bits of artificial bloom.

The beaded bag is strong in favor and also the leather pouch or envelope purse in brown shades. Black moire is another favorite, usually encrusted with steel beads or crystals set in bakelite.

As for hose, favorites appear to be in the fawn and brown shades, with "blue fox," which is a brownish gunmetal shade, as a good seller. The "pyramid" or slipper heel holds its own.

Costume jewellery in bright colors is as strong as ever.

Jeanette

DINING SUITES IN SOLID OAK

Home Furnishings Also Show Latest Two-Tone English Finish.

TWIN PEDESTAL

Home Furnishings, located at 208 Charlotte Street, are showing many beautiful designs in chesterfield suites. These are seen in very attractive shades of taupe, freize coverings, with shaped fronts and exposed wooden frames. Some of these sets are covered with blue mohair, jacquard velours, and with many different styles to choose from.

The new floor lamps show a great variety of attractive juniors and bridge types in numberless shades and shapes. The outstanding shades are blue and cerise, black and orange, taupe and cerise, and cerise and beet. All the lamps are adorned with different colored beading.

A most complete line of dining-room suites is seen here in solid oak and in two-tone English finish, which is in solid genuine walnut. The tables are the latest twin pedestal table with a large extension in the French finish.

Reed furniture seems to be featured and is shown in colors that are varied and beautiful. Browns, sage greens, taupe and browns and many others are in stock for fall. These are finished with attractive colorings in covers.

The Wilton rug is to be the leader. This remarkable floor covering has a wide variety of attractive patterns to choose from and can be seen in the rug or carpet style in the finest qualities.

LINGERIE HAS ITS HOME HERE

Jean Riddick Yarn Shop Has Complete Stock of Garments.

The undies and foundation garments which make such an indispensable part of Miladi's trim appearance form a large portion of the stock at the Jean Riddick Yarn Shop at 412½ George Street. In this small store there is a large and complete stock of dainty and useful things. Exquisite items are the bridal sets in white, in heavy silk crepe, and the beautiful gowns which are almost as pretty as evening dresses, with their ethereal laces and ribbons and hems of tulle.

The hosiery section contains everything necessary for evening and day wear, from silk and wool stockings to those of pure silk.

Fine wool underwear, light and warm, is on sale, in goods for seniors and children alike. There are gloves in silk and suede, fancy and plain, brassieres and Teddies and bobettes. One of the utilitarian samples of the latter comes in cocoa brown to harmonize with the season's vogue for this shade, and there are lighter hues in the flesh pinks, orchids, creams, pale blue, green, and pink. Combinations like pale blue and rose, or brown lace on yellow silk, are very effective.

Nickel Reaches New High But Reacts Before Close

TORONTO, September 12. Canadian Press. — International Nickel continued to dominate the market on the Toronto stock exchange to-day, and with sales reaching well over 12,000, climbed to a new high of 133¼. It reacted before the close however, and closed at 132, recording a gain of two. The rights followed the same course, advancing to 7.25, to register a gain of 35 cents. Trading throughout the list improved, practically all the issues showing gains.

Service stations in the unlisted section was a popular stock and on sales of more than four thousand shares moved up 2½ points to 42½. Canada Dredge was up 1½ at 54; Building products one at 38; Pressed Metals one at 71; McKinnon two at 47½, and Canada Dry continued its upward movement, closing at noon at 83; up one. Elsewhere fractional improvement was noted.

Canada's Wheat Report Causes Drop In Price

CHICAGO, September 12. Canadian Press. — Influenced by the Canadian government report pointing to the largest crop on record, wheat prices here tended downward early to-day. In some quarters the opinion was expressed that the Canadian production forecast was an underestimate. Opening 3-8 to 7-8c off Chicago wheat later showed but little power to rally. Corn was irregular, starting at 5-8c decline to an equal advance and subsequently holding near to the initial range. Oats were firm. Provisions showed steadiness.

Opening prices were: Wheat, Sept., 107½; December 112 1-8; corn, September, 96¾; December 75 5-8; Oats, September 40¼; December 41¼.

MINING BRIEFS

A Special Service to The Examiner

TORONTO, Sept. 12.—A despatch from Timmins is to the effect that the vein recently cut on the 700-foot level of the Vipond Consolidated is increasing in length and holding up well. This new development is attracting considerable interest and explains recent activity in the stock.

The annual meeting of the Keeley Silver Mines is being held in Toronto this morning when, no doubt, results of preliminary exploration of the lower contact will be given.

It is reported that Macassa will commence operations on the sinking of the new shaft some time this week. During the past winter several "scouts" of American interests reported on this property and these were understood to be favorable. The management decided to retain control however.

Local brokerage houses are in receipt of a report which states that Crown reserve are drawing up plans for the erection of a 200-ton mill. When approached, an official of the company told the Financial News Bureau that this was a trifle premature and related several other tales which he classed on a par with this morning's report, such as a trip to the moon etc. Crown is pushing development aggresively but the time for a mill is yet distant.

Drilling is being carried out both from surface and underground at the Bidgood Consolidated and it is understood that the results obtained are anything but poor. Official news of this development will be given the public next week.

The shaft at Hilltop is now reported at 600 feet with only one shift being employed at present. It is said that no ore of material importance has been located in sinking this shaft and it is understood that no lateral work will be undertaken until the objective of 1,000 feet has been reached.

Officials of Kirkland Premier Mines announce that following a director's meeting held in Montreal yesterday that a number of mining brockerage houses together with other financial men have underwritten a further block of their shares, placing the company in a good financial position, which will enable them to proceed with the sinking of the winze and the development of the ore body indicated recently by diamond drilling from the 800-foot level.

The ore body is found practically in the centre of a dyke of feldspar porphyry upwards of 1,200 feet in width, state officials. The company reports having cut this ore body in four different places through diamond drilling over a length of 1,000 feet. Showings from this drilling indicate an ore body averaging from four to seven feet wide and carrying commercial ore.

During the meeting the president announced having received word from the mine manager, Mr. Osborne, the the effect that the winze had cut into the south side of the vein, and that it was well mineralized and looked good.

Pend Oreille Again Linked With Smelters

VANCOUVER, Sept. 12. — The western tour of E. W. Beatty, K.C., president of the Canadian Pacific Railway Company; Sir Herbert S. Holt, and practically the whole board of directors, has for its motive some important decision in connection with the affairs of Consolidates Mining and Smelting Company and Pend Oreille, according to gossip in the financial district of Vancouver. Naturally the railway and power officials from the east are not telling the purpose of their visit, but British Columbian financial centres say it is not altogether for pleasure.

Vancouver interests in touch with Pend Oreille's affairs are not apparently disturbed over the slump of the past few months in its shares. They attribute this to a short interest in Toronto and claim that the Toronto "shorts" are not well informed on Pend Oreille.

The immediate concern of officials of Pend Oreille is the necessary financing which will have to be done for the new concentrator and smelter. It is claimed that this financing will involve the raising of ten or twelve million dollars, which will be divided between a 1,500 and 2,000 ton concentrator and a smelter of at least 1,000 tons daily capacity. The financing could be accomplished in two ways, either by an increase in capital or by the taking over of control of Pend Oreille by some other large mining company such as Consolidated Smelters. The latter even is thought to to be a serious possibility, as has been rumored now for months. It is claimed here in Vancouver that the time has now come when the Smelters directorate will have to make a definite decision, as Pend Oreill have other plans they can employ if Smelters will not pay the price.

Dome Reported to Have Closed Finally the Chibougamau Deal

It is reported here from a fairly reliable source that Dome Mines this morning closed a deal for the Chibougamau Prospectors Limited property. The deal is said to involve a payment of $500,000 by Dome the latter securing a 75% interest in the property. The shares were up to $10.00 this afternoon in the report.

Small Profit Gained from Production of Keeley During Past Year

In his remarks to shareholders at the annual of Keeley Silver Mines, President F. H. Hamilton stated that "in presenting this year's report to the shareholders, the directors regret that production this year has not been as large as in former years, a state of exhaustion which is the eventual fate of mines regardless of how rich they may have been.

"The directors also regret that owing to the greatly reduced earnings, the board considered it advisable to preserve the strong cash position of the company by passing the dividend usually declared in September. The company, however, has over a million dollars' worth of cash assets in the shape of Dominion government bonds over and above all liabilities.

The monthly production since October last has been 50,000 to 60,000 ounces, leaving a small profit in the neighborhood of $6,000 to $7,000 pr month. While it is impossible to definitely state it is hoped to maintain production during the period that the exploration of the lower contact is being carried out, and at the same time any possibilities still remaining at the upper contact will be thoroughly explored.

Leading Canadian Interests in Nickle Have Not Sold

It becomes increasingly apparent that Wall Street has completely reversed its position of some months ago in regard to International Nickel. Market interests there appear to realize more fully now the wonderful potentialities of the company, not only as a producer of nickel and its alloys, but from the standpoint of copper output. Montreal claims that in face of the great appreciation that has taken place in the stock practically none of the stock purchased by important Canadian interests at considerably lower level has been dislodged. New York interests were puzzled at the manner in which Canadian held on, after Nickel went to 100 for the first time some months ago, but they have fallen in line since with the optimistic views of those Canadians, who are powerful financially and can bide their time. A good deal of Canadian selling in the summer represented weak accounts.

News From the Mines

Through
Solloway, Mills & Company

Malartic.

TORONTO, Sept. 12.—A well-known engineer with many years northern mining experience made an examination of Malartic for us and has prepared a report as follows:

"On the 130-foot level the main vein has been drifted on for over 1,000 feet, 600 feet of which is said to be in ore, shown by crosscuts to be approximately 30 feet wide and to run $6 per ton in gold. Further southward another vein has been indicated by diamond drilling to have a length of at least 1,500 feet, an average width of over 30 feet with values running between $6 and $7 in gold. Between these two ore bodies a vein running $10 to $12 per ton over 4 feet has been opened up for a considerable distance. The surface outcrop which was opened up for 100 feet in length and 6 feet in width and assayed $20 has been proven by Mr. Norrie to swing in and unite with the main vein. A raise put up from the first level to surface has shown commercial ore all the way. Diamond drilling is also being carried on at this horizon to further explore and block out the ore bodies.

"Examination of the second level was not made by the writer, who was informed that conditions there, where approximately 325 feet of later work had been accomplished, were very similar to the third level, the ore body being some 35 fet wide assaying $6 in gold per ton.

"On the 386-foot level, the crosscut intercepts the main vein a short distance from the shaft and discloses a width of 71 feet of ore stated to run $8, a further mineralized area 54 feet wide stated to run $2.50 per ton both assays for gold. Further on, the crosscut encounters another vein approximately 10 feet wide stated to run $12 per ton in gold. Approximately 350 feet of lateral work has been done on this level. All favorably located faces on this level are in what appears to be ore. A diamond drill operating on surface is exploring to the south vein.

"The ore bodies are located in Temiskaming grey-wacke and are composed of pyritized and highly silicified grey-wacke, which is in places replaced by quartz fissure veins.

"Assuming that the assays given represent the true value of the ore, it can readily be seen that a very large tonnage of low grade ore has been developed.

"Considering the size, strength and nature of the main vein and the fact that the main vein break has been traced for 2,500 feet, and that comparatively little work has been done on the whole property to date, the possibilities of making a large mine are very great.

"The fact that the south vein dips northward at 75 degrees may cause a situation similar to that existing in the case of the surface outcrop, namely, that these two veins will join at a comparatively shallow depth, giving either enrichment or increased widths or both.

"The deepenin of the shaft, if this section is at any time deemed necessary, can be satisfactorily accomplished with the plant on hand, to a depth of 1,000 feet. Two machines are being operated two shifts a day. Compressor capacity is good for double that number, three shifts a day if necessary, and if conditions are favorable. Finances are said to be ample for all mine requirements up to the time when a mill will be considered. Too much credit cannot be given Mr. James Norrie for the efficient manner in which he has planned and executed a very great amount of work for such a short time."

In connection with the finances, we learned from a well-known source last night that the company have more than $200,000 cash in the treasury, together with some 250,000 shares of stock unissued, which should be more than sufficient to bring the property to the production stage, and if further finances are necessary for mill requirements, we understand very valuable rights will be issued to shareholders at that time.

Quebe Mine Stocks Leaders On Exchange

TORONTO, September 12 (Canadian Press).—With the Quebec stocks again active features, the market turned definitely softer on the standard Mining Exchange this morning. Noranda was weak leader, sagging to 54.00 for a loss of 1.30. Amulet sold down 15 at 3.35, and Malartic lost two at 1.80 in active trading. A fourth Quebec issue, Newbec, showed firmness, however, and strengthened fractionally in heavy trading. Weak spots in the general list included Hollinger and Dome, each down about half a dollar at 8.55 and 9.50 respectively. Barry Hollinger at 52½, Bidgood at 70, and Howey at 1.10 were down a point or more, while Sudbury Basin weakened twenty at 6.30. Isolated firm stocks were Crown Reserve, which gained three at 49, and Tough Oakes, up about three points at 42½. Mond Nickel improved to 27.40.

Many Record Highs Recorded In New York

NEW YORK, Sept. 12.—(Canadian Press).—The bidding up process was resumed with considerable violence in to-day's stock market, nearly fifty issues soared to new high records on gains ranging from one to seven points, with trading so heavy the ticker fell more than half an hour behind market.

Call money was again in plentiful supply at the renewal figure of seven and a half per cent., with no calling of loans reported during the morning. Time money rates held firm. Although widely expected in banking circles, no shipments of gold from England have yet been reported. Sterling Exchange continues to hover around the gold import point.

GOLF.

Notice to Golf Players.

As the season is advancing rapidly, players still remaining in trophy matches are requested to play games as soon as possible after draw is made or in future time for playing each round will be shortened.

Hall Trophy--Semi-Finals.

J. F. Strickland vs. C. Rogers.
J. McDermid vs. H. Bradburn.

Matches to be played on or before Monday, September 17.

Club Championship—Second Round.
Eliminating Byes.

R. Abbott vs. L. Killaly.

Byes: J. C. Green, F. M. Delafosse, A. Mowat, H. Bradburn, F. Green, J. Wearing and J. W. McDermid.

Match to be played before Sept. 17th.

Macdonald Cup—Second Round.

G. M. Lyons vs. R. M. Waddell.
Judge Huycke vs. Dr. McCullough.
W. H. White vs. F. Stinson.
Desmond Marshall vs. George Logan.
C. Rogers vs. H. T. Cranford.
W. R. Widdess vs. Jack Jennings.
C. H. Cutmore vs. C. S. Browne.
J. F. Strickland vs. W. C. Beamer.
M. E. Shaver vs. W. F. Huycke.
J. R. Marshall vs. C. Sedgwick.
R. H. Harding vs. G. Monkman.
A. J. Reynolds vs. S. Widdess.
B. D. Hall vs. A. H. Stratton.
G. Wood vs. W. A. Donnelly.
Dr. E. H. Woood—Bye.

Matches to be played on or before Monday, September 17. Stymies. Match play; no handicaps. Winners strike out losers' names.

Captain and Vice-Captain's Prize, Match Play.

First round to be played on or before September 20th. Stymies must be played.

Mrs. C. G. Graham vs. Mrs. Reynolds.
Miss H. Fanning vs. Miss Gladman.
Mrs. B. D. Hall vs. Mrs. F. L. Roy.
Mrs. Scott vs. Mrs. Carmichael.
Miss Montgomery vs. Miss Rogers.
Mrs. Wightman vs. Miss M. Connor.
Mrs. Wearing vs. Miss N. Davidson.
Miss Hatton vs. Mrs. Lyons.
Mrs. C. E. Jamieson vs. Mrs. P. Bond.

Miss M. Widdess vs. Miss C. Mason.
Miss J. Eastwood vs. Miss E. Eastwood.
Mrs. T. B. McCulloch vs. Mrs. R. Turner.
Mrs. W. H. Hill vs. Mrs. J. A. Aylmer.
Mrs. Millar vs. Mrs. J. F. Strickland
Mrs. J. D. Collins vs. Mrs. Potvin.
Mrs. Vernor vs. Miss Wood.
Mrs. Neal vs. Miss Anderson.
Miss L. Lyle vs. Mrs. G. McClellan.
Miss D. Davidson vs. Mrs. Harding.
Mrs. F. Hall vs. Mrs. Darling.
Mrs. F. Turner vs. Mrs. Dewart.

Winners must mark off opponents' name or both names will be omitted from next round.

Any playing member whose name has been omitted please notify Mrs. R. Grant.

Championship Consolation.

Match play. No handicaps. First round to be played on or before Sept. 20th. Stymies must be played.

Mrs. W. H. Hill vs. Mrs. H. Wightman; Miss M. Widdess vs. Miss C. Mason; Mrs. J. F. Strickland vs. Mrs. J. Vernor; Mrs. Millar vs. Mrs. T. P. McCullough; Miss M. Rogers vs. Mrs. F. Hall; Miss M. Connor vs. Mrs. Darling; Miss Gladman vs. Mrs. Dewart; Mrs. L. Lyle vs. Mrs. F. Turner; Miss Wood vs. Mrs. Reynolds; Mrs. B. D. Hall vs. Mrs. C. E. Jamieson; Miss J. Eastwood vs. Mrs. P. Bond; Miss Montgomery vs. Mrs. Hawthorne; Miss H. Fanning vs. Mrs. R. M. Waddell; Mrs. L. A. Potvin vs. Mrs. L. W. Scott; Mrs. G. McClellan vs. Mrs. Neal; Miss D. Davidson vs. Mrs. J. D. Collins; Mrs. Harding vs. Miss Nina Davidson; Mrs. Blaiklok vs. Mrs. C. G. Graham; Mrs. Carmichael vs. Mrs. R. Turner; Miss E. Anderson vs. Mrs. E. Eastwood; Mrs. F. L. Roy vs. Mrs. Lyons.

Winners must mark off opponent's name or both names will be omitted from next round.

Any playing member whose name has been omitted please notify Mrs. R. Grant.

GAME CALLED OFF.

Raybestos Team Unable To Play in Stouffville Because of Rain.

The rains of the last two days made it necessary to call off the baseball game that was to have been played in Stouffville this afternoon. The Raybestos intended going there this morning but were informed by the Stouffville club that it would be impossible to play on their diamond.

The game will be played on Saturday at 3 p.m.

LAWN BOWLING

BOWLERS, ATTENTION.

Weather permitting the following games of doubles will be played tonight, starting at 7.30:

G. Coleman and A. Brown vs. J. Cullen and K. Sloane.
J. McDonald and D. H. Moore vs. J. Mayneord and F. Seymour.

The following singles will also be played at the same hour:

E. Taylor vs. C. J. Seymour.
M. B. Chenhall vs. A. Watson.
G. Fallon vs. J. Bacon.

8.30 Games.

D. Hill vs. George Johnson.
Grant vs. Kay.
Parnell vs. T. Donaldson.

HIGH COMPRESSION PERFORMANCE

WITH ORDINARY GASOLINE

YOU don't need special, costly fuels to get brilliant high-compression performance from this new Oldsmobile.

A new type cylinder-head of General Motors Research design provides the zest and snap of high-compression engines, and *with ordinary gasoline*. Try this great new 55 h.p. engine on the road. You will find power for every need, speed to meet every desire. Stirring acceleration. Amazing hill climbing ability.

Wonderful smoothness and quietness of operation.

Such remarkable performance could only result from fine-car engineering. The motor is cushioned on resilient rubber. The crankcase is ribbed both horizontally and vertically to prevent distortion and maintain permanent, accurate bearing alignment.

Stop in today. Let us place an Oldsmobile at your disposal, for any tests or comparisons you care to make.

HATS TO SUIT VARYING TYPES

McWilliams and Company Have Wide Selection From Snappy to Quiet.

BANDS CONSERVATIVE.

McWilliams are showing what the well dressed man should wear in the line of hats and caps. A wide variety of hard hats, soft hats and caps will be shown.

Fedoras, the soft hats, will appear for the snappier dressed individual in the snap brim hat with the raw edge and in colors of browns and greys. The more conservative youth will choose the soft hat with the welted edge in the same colors while the older man and the still more conservative youth will be able to purchase the roll brim type. All of these styles are stocked by McWilliams and Company, 374 George street.

Hat bands this year are to be in practically the same colors as the hats; the brish band seems to have had its day, and more pleasing harmonizing shades are shown this fall. Cords are attached to many of the hats for use on windy days. These range from white to the same color as the hat band.

The bowler, or hard hat, is shown this year with a flatter crown and a flatter brim giving a lower and more rakish appearance to this type. The bowler makes a very snappy combination when worn with a blue coat.

Caps are the usual tweeds in the pattern type. There are no more solid colors being shown. Patterns and checks in eight quartered tweed caps will be the thing.

THEATRES

AT THE CAPITOL.

MILTON SILLS IN "THE HAWK'S NEST" WHICH COMES TO THE CAPITOL, THURSDAY, FRIDAY AND SATURDAY, BRINGS THRILLS, CHILLS AND MYSTERY. AN INTENSELY INTERESTING UNDERWORLD STORY.

A new kind of underworld—that of a large city's populous and mysterious Chinatown—furnishes the background of "The Hawk's Nest," starring Milton Sills, which opens at the Capitol Theatre to-morrow.

This picture marks a distinct departure for Sills, who appears in the early part of the story as a disfigured war veteran, with a makeup equally as good as anything Lon Chaney has achieved in recent years.

The story, which concerns two underworld resorts, operated largely to thrill tourists, is handled in unique manner by Benjamin Christensen who achieves some of the finest trick camera effects that have been seen since "The Last Laugh" and "Variety." The air of Chinatown is symbolized as much by camera work as it is by actual Chinese architecture, the picture being given all the weird mystery of a "thriller" largely through such camera work.

Sills operates one of these underworld cafes for tourists, while Montague Love, another underworld gangster, which is attempting to put Sills' place, "The Hawk's Nest," out of business through framing Sills' partner, played by Mitchell Lewis. The enmity between Sills and Love is deepened through Sills' protecting the dancer, played by Doris Kenyon, who is sought by Love.

Mystery thrills, and the tense atmosphere of the underworld furnishes the background for this fast-moving drama, one of the best in which Sills has appeared for many months. A particularly admirable performance is given by the distinguished Chinese actor, Sojin. The story is by Wid Gunning, who also produced the film for First National Pictures.

"RAMONA" COMING MONDAY.

"Ramona" with Dolore Del Rio, the picture that has created more talk, and more business for the theatres than any other pictures in recent years, will be the attraction at the Capitol for Monday, Tuesday and Wednesday. In order that every one will have an opportunity to see "Ramona" there will be three performances every day, matinees at 2.30 and and 7 and 9 in the evenings. Miss Geraldine M. Collins, gold medalist at the Toronto Exhibition last week, will sing "Ramona" at the evening performance.

LONGFELLOW WROTE POEM ON HESPERUS WRECK AT MIDNIGHT

Interesting Fact Disclosed in Excerpt From Famous Poet's Diary.

That Longfellow 'burned the midnight oil" when he wrote his famous ballad, 'The Wreck of the Hesperus," is disclosed by an excerpt from his diary, disovered by DeMille Studio research authorities while preparing for filming the Harry Carr-John Farrow screen version of the poem, Elmer Clifton, who made the famous "Down to the Sea in Ships," directed the picture as a DeMille special for Pathe release and it will be on view at the Regent Theatre Thursday, Friday and Saturday.

This excerpt was published originally in Park Benjamin's publication, "The New World." Under date of December 30, 1839, Longfellow wrote:

"I wrote last evening, a notice of Alliston's poems. After which I sat till twelve o'clock by my own fire, smoking when suddenly it came into my mind to write 'The Ballad of the Schooner Hesperus,' which I accordingly did. Then I went to bed, but I could not sleep. New thoughts were running in my mind, and I got up to add them to the ballad. It was three by the clock. I then went to bed and fell asleep. I feel pleased with the ballad. It hardly cost me an effort. It did not come into my mind by lines, but by stanzas."

Frank Marion and Virginia Bradford, recent DeMille junior "discoveries," are featured in the romantite roles, while Alan Hale and Sam DeGrasse also have conspicuous portrayals.

BARBER SHOPS CLOSED THURSDAY AFTERNOON

The Barbers of the city have agreed among themselves to close their barber shops at 12.30 to-morrow (Thursday) so that everyone in the business may be able to attend the Exhibition. Their action is very much appreciated by the Exhibition Board.

GEORGETTE IN LOVELY FROCK

Florence Exclusive Shoppe Shows Bouffant Style Evening Gown.

OTHER MODELS DAINTY

Pale yellow georgette, wired at the hips in true bouffant style, with embroidered motifs of rose and silver and a georgette hem of pale pink, up at the front and down at the back. Such is a very weak word picture of a lovely evening gown displayed at the Florence Exclusive Shoppe at 311 George street.

A very pale orchid gown is a delicately dainty thing which uses cream lace as a trimming and has a skirt done in tiers of knife pleating. Lace outlines the deep V neck and trims the small cuffs. A folded belt is made of the self material and clasps with a tiny gilt buckle. An all-over lace evening dress of heavy cream has a two-tone foundation that gives it a lovely hazy shimmer of rose beige and pink.

Another exquisite orchid georgette uses fringe as its only and extremely effective trimming, with a line of fring across the front and at the hem, straight in the back and pointed in the front.

A georgette gown of sunset pinkish hue has vertical tucks to the top and lace panels to the front and back, with a long tie at the back of the neckline.

Two tones of material, in rose lace and pale pink georgette, form another stunning gown.

In the hats, the little models with long, dripping feather pompoms are new and very smart and the silk embroidered shapes are also very dainty.

Coats come in suedines and broadcloths in the blacks and browns and blues of the mode, with plain tailored lines and with snug fur collars and cufs.

REGENT LAST CHANCE TO-DAY TO SEE

"HAM and EGGS at the Front"

An ace-high Comedy of Black Face Comedians in the Trenches.

"BLAKE OF SCOTLAND YARD" is on the way.

P. BLACK HAS WIDE CHOICE

Babies', Children's and Women's Clothing Offered in Good Range.

HATS VARIED

At P. Black's store at 281 George Street there is a wide variety for every taste. Babies' wear, children's and women's clothing, may be purchased here, in everything from hosiery and lingerie, right through the wardrobe to the umbrella and the handkerchief, the scarf, and the gloves. There is something to suit the most exacting on the shelves, the counters and the hangers.

There is a wide assortment in the hat, coat, and dress line for women. Little felt shapes with the turned up and the "Vagabond" brims, with ear laps and in tam effects, in reds and blues and greens and browns, with trimmings of printed velvet and silk embroidery and metallic sequins, are close neighbors to the shelves full of dainty hats for children and babies, in poke bonnet styles or in the turned up fashions that please their elders.

On the hangers are examples of the mode in the latest styles and colors. For evening wear, there are some lovely gowns. One is a pale pink georgette with ruffled skirt and trimming of cream lace. It has the detachable sleeves which are such a convenience in making a gown do double duty for afternoon or evening wear.

A frock of blue velvet has a bloused top with scalloped edges, and a knife-pleated skirt.

A very pretty, youthful model of shimmering black satin has the fashionable flary skirt, with long vestee, collar and sleeves of peach georgette and narrow black velvet ribbons lacing the front in French peasant style.

A wine satin shows an odd combination of color in its trimming of sand georgette in small collar and cuffs, and ties of pale pink velvet ribbon.

A two-piece dress of navy is combined with pale maize and has embroidered silk wheels carried out in red, yellow, green, and blue. A black satin has a big bertha collar of georgette.

A very smart black frock of satin has a detachable cape collar of the same soft material, piped with white, a tiny white vestee and black buttons. Another black gown shows the skilful use of the reverse of its satin-faced canton crepe as a trimming, in an effect which seems entirely different.

There are checked velvets that resemble checkerboards, one model of black and red having a strong resemblance to this game.

For business wear, there are the fine wool "spiderweb" frocks in blues and browns, and two-piece jersey dresses with tucks and pleats and narrow belts.

Tricotine coats, with "mushroom" and standing and straight collars, with Tuxedo and notched and scarf collars, with inserts of black satin or self tabs, with collars and cuffs of fur in different styles are also to be seen.

The vogue for tailored things has its expression in the trimly severe coats of chinchilla and Whitney cloths, with their unadorned lines and dark colorings.

There are coats of suedine and needlepoint and broadcloth, with long fur collars ending in tails or cross tabs and linings which are often half of brocaded satin and half of light plush. Pressed plush is another popular material seen here in black and brown and the "snake" style of fur trimming to the cuffs, which has a demonstration on a lovely coat of dark wine color with floral insets of itself as a back trimming.

STYLISH COATS IN NEW CLOTH

Rogow Shows Several Models of Czecho Slovakia Material.

ATTRACTIVE GOWNS

Czecho-Slovakia cloth is the name of the material used in several of the coats on view at Rogow's Ladies' Ready-to-Wear Store at the corner of George and Brock Streets. It is a great deal like broadcloth in its weave and surface and makes up into a very good-looking garment.

"Pointed" fur, with white points attached to the fur of a dark animal, is used on one of the coats here, where the wolf collar of a shawl type extends right to the hem of the coat and fur makes the cuffs also. The same wolf fur adorns the collar and cuffs of an imported heavy tweed in a coat that has a very smart appearance. Blacks and navies and browns, the three favored tones for autumn, are shown in the coat models.

A black crepe romain frock that has a stylish air has a flare to the skirt, made of black transparent velvet, a pointed neckline and a jabot, all velvet-trimmed.

Another black gown that has a youthful and lovely look is made of georgette with the same type of flary skirt of velvet, a deep cape of georgette, edged with velvet and reaching to the waistline and a velvet belt with a tiny crystal ornament in front. There is snap and attraction to the combination of materials in the soft black.

A Roshanara crepe, also in black, has a top portion of printed velvet, a gold design appearing on a black ground.

Long lines for the "stylish stout" are afforded by the vertical treatment of tucks and embroidery in a cocoa brown frock of crepe with motifs of Swiss embroidery. Box pleats add to the appearance of slimness in this dress.

The little brisk skirts that are variously labelled "Butterfly," "Sunburst" or "Umbrella," with their pleats extending from waistline to hem, and their bright hues, are on sale here, and there are tiny hats also, "a la mode," in felt and velvet, with their trimmings of self tabs and grosgrain silk and brilliant buckles.

PLAN OCEAN FLIGHT.

Polish Aviators Arrive at Milan to Prepare For Hop to New York.

MILAN, Sept. 12—(Canadian Press)—Planning a non-stop flight to New York from Milan, Captain Kpwalczn and Pilot Klisz, Polish airmen, arrived here yesterday.

BIG GORILLA HERE FOR EXHIBITION

Sheesley Shows Arrange For Attraction From Canadian National Exhibition.

Announcement was made yesterday at the Peterborough Industrial Exhibition grounds by the management of the Greater Sheesley Shows and fair officials that Capt. John M. Sheesley had secured and would bring to his mammoth amusement enterprise and the Peterborough Exhibition today one of the outstanding feature attractions that catered to the vast throngs that attended the Canadian National Exhibition at Toronto.

This attraction is the largest gorilla ever captured and brought to this continent its weight being nearly 300 pounds and its height about seven feet, its upward reach about ten feet. Capt. Sheesley states that this is a true gorilla, not a chipanzee. The gorilla attraction brought prominent press comment in the Toronto newspapers. It is the second special attraction featured by Captain Sheesley at Peterborough, the other being Jean Lucierre, who last Fourth of July went over Niagara Falls in a self-manufactured rubber ball.

ESSEX Super 6

If you drove a car costing $3,500..you would find the same vital elements of quality

The only Essex point in common with cars in its price field — is price. An examination of our Special Chassis Display will give you some astonishing and impressive comparisons that you will not forget. Essex quality, fine appearance and high manufacturing practice rightly classify it with those costly cars which use the best known fine car methods.

For every important item in Essex construction you must go to these costly cars to find comparison. Like the $3,500 cars Essex uses roller tappet bearings. It uses Timken tapered wheel bearings. It uses worm-and-gear type steering.

It uses a hard-rubber steering wheel with steel core, identical with the wheel used on the highest priced cars. Like the $3,500 cars Essex uses five frame cross members for rigidity. Like them it fully balances all running parts for smooth, long-lasting operation.

The four-wheel brakes used on the Essex Super-Six are the same enclosed and protected type used on costliest cars, and assure the maximum brake safety.

They typify the costly car way Essex is built throughout—and you can verify this detail by detail, inside and out, by comparison first with costly cars—and then with cars in the Essex price class.

Come see the most important part of your Essex and the way it is built in this special chassis display. It will explain why Essex is the largest selling "Six" in the history of the industry.

YANKS OVERCOME LEAD TO BEAT ATHLETICS

RUTH'S HOMER AIDS VICTORS

Athletics' Third Straight Defeat When They Lose By 5-3 Score.

WANT TO WIN.

NEW YORK, Sept. 12.—Canadian Press).—With 40,000 fervent fans roaring for the world champion Yankees battered down the Philadelphia Athletics 5 to 3 yesterday, and just about clinched the American League title by pushing Connie Mack's staggering warriors 2½ games behind them. It was the Athletics' third straight defeat in this super-crucial series.

The kill was put off until the eighth inning. The Yankees then tied the score with one out, and George Herman Ruth waddling to the plate, drove his home run pal, Lou Gehrig, on second base. Connie Mack and Bob Grove elected to fight it out with the great Bambino rather than have him on first base, as the batter would.

The Babe, among his many feats, drove to cross the opposition by hunting the first one, but it was fouled on the third base line by a shade. Mr. Ruth next took a called ball, and then it happened.

Yes, into the wild, frigid, cold bleachers it rode for home run number 49 with all the earmarks of a pennant fastened upon it. More than 40,000 strangely partisan New York throats bellowed a paean of joy such as seldom before has disturbed the peace of the lower Bronx, and almost as many pairs of hands reached for straw hats with which to shower a welcome upon the triumphal procession of Lou and the Babe.

Want to Win.

Now that the Yankees have been threatened, New York seems to want them to win, as they did yesterday by a score of five to three, for the third straight time in this most crucial of crucial series. The bent form of the old, old master stood on the steps of the Athletic dugout with a worried wrinkle upon his brow as he peered out at the bedlam and the triumph of the enemy.

The gaunt, troubled old man was visibly shaken by the blast which shattered his dreams of baseball empire. He trembled, passed hard over brow, bobbed the great lump of an Adam's Apple which nestles just above the high collar he always has worn. Connie then steadied himself and deployed his troops for a final assault upon young Henry Johnson, nemesis of the 1928 Mackmen.

The ninth inning saw Ty Cobb, Eddie Collins and Wally French stride up in turn, first line reserves of the beaten Athletics. The first two of these names, as names alone, would have been enough to frighten the average young pitcher out of the box as recently as two years ago, but not Johnston yesterday.

The young Floridian got Ty on a hoist to Koenig, Eddie on a foul fly to the same gentleman of the defense and French on a weak pop to Meusel. The Yankees had won, and led the worried Mackmen by two and one half games.

Fourth Game To-day.

All that remains is that fourth game of this now not-so-crucial engagement to-day and the final sally through the west, fifteen games for the Yanks in the Occident and thirteen for the Macks. The trail is long to the end of the pennant rainbow and the pot would seem gold, and the minions of McGillicuddy are tired.

If they can beat Hoyt with Earnshaw to-day the case will be ever so much brighter. But what seems to be the ace against killers who have won sixteen out of twenty-one?

Until the eighth inning kill in the September gloom Robert Moses Grove seemed to have a firm grip upon the Yankee jinx which has now cost him six of the seven games he has lost this season.

Disastrous Eighth Inning.

The Yankee eighth was opened by a pass to Combs, always a bad sign for any pitcher. The Colonel reached second on Koenig's infield single and raced on to third when Dykes followed with a wild throw past Fox. Grove then deftly inserted a wild pitch, scoring Combs and sending Koenig to second. Gehrig followed with a single, and raced madly to second as Simmons threw to Cochrane in a vain bid to cut off the tieing run.

This set the stage for Ruth, and the game was wrecked as related.

A home run by John Stone, recruit outfielder, in the eighth inning with two men on gave Detroit a 7 to 6 victory over the White Sox yesterday in the last game of the short series. The blow came when the Tigers were two runs behind. Heilmann and McManus drove out successive homers in the fifth to place Detroit within two runs of the Sox. Thomas went the full distance for Chicago while Owen Carroll was lifted in the eighth for a pinch batsman. Shires and Reynolds, the former with two hits and the latter with four, scored all the White Sox runs.

The St. Louis Browns rounded out a 16 to 6 victory over Cleveland in the last game of the series yesterday at Cleveland. Fourteen two base drives were evenly divided between opposing batsmen. The Browns had 17 safeties while the Tribesmen slammed out 14 but were credited with four errors. It was their tenth straight defeat.

Miller started the game for the Indians but was relieved by Grant in the third after the Brown had scored four runs. The rookie could not stop the base drives but Manager Peckinpaugh allowed him to finish the game.

JOCKEYS REPLACED.

DONCASTER, England, September 12 (Canadian Press Cable). — With alterations in the jockeys for the St. Leger to-day Joe Childs replaces Jelliss on Plantage, F. Fox has the mount on Ledore, Allemand on Palais Royal Second, and Graves on Constant Son. Fifteen horses are probable starters in the classic of a mile six furlongs 132 yards.

VIEWS ON SPORT

Ruth's 49th homer of the season decides chances of the Yankees for American League pennant.

The Rays are in Stouffville to-day in an effort to make it two straight and keep their record clean. Their wins have come in pairs since dropping the first of the city series with the Cogs, and their consecutive victories to date total nine. Threatened with dire things, in the event of bad umpiring by local officials last Saturday, the Raybestos players are awaiting to-day's game with some curiosity as to the quality of the umpiring served in Stouffville. The visitors saw capable umps here, and if the Toronto imports equally efficient, the contest should be a real ball game.

* * * * *

The O.B.A.A. representatives instructed to look after the bantam game in Toronto last Saturday made a belated appearance, and had to do some tall hustling to get the contest under way. There were no bases, and no pitching rubber, and only one new spalding to start the game. After a long delay, play was commenced with the local youngsters having to face some hot razzing from the supporters of the Toronto team.

* * * * * *

The Peterborough bantams flying the Riley & Hickey colors will put up a different argument at James Stevenson Park at the week-end. The youthful ball tossers played smart ball and overcame some hard opposition to win the city title. Baseball fans should support the team with a big crowd on Saturday. The game will start at three o'clock.

* * * * * *

Toronto senior champions will be ready to meet Belleville next week, maybe, after an earlier announcement from the O.B.A.A. that the winner must be ready on September 8. It was ever thus.

SIX CANADIANS IN FINAL MATCHES

Drawn Against U. S. in Canadian Women's Open Golf Play.

MONTREAL, Que., Sept. 12 (Canadian Press).—Six Canadians and 10 players from the United States advanced to the second round of the Canadian women's open golf championship by winning their first round matches at Beaconsfield yesterday. All six Canadians are drawn against United States stars for to-day's play. Chief interest will centre, however, in the all-United States struggle in which Helen Payson, the defending champion from Portland, Maine, will meet Mrs. Lee Mida, a sturdy match player from the Chicago district, who is favored by many who have been following the play, as a likely winner of the title.

There are other contests that promise stout competition, especially in the upper half brackets. Mrs. Maude Ross, of Royal Ottawa, and Mrs. F. J. Mulqueen, of Toronto, are the two Canadians grouped with six United States stars in the upper half, and both Canadians face severe tests. Mrs. Ross will meet Mrs. John Arends, of Chicago, who on Monday eliminated a fellow-countrywoman, Mrs. J. J. Thomson, of Siwanoy, N.Y. Mrs. Mulqueen plays Mrs. Dalton Raymond, of Baton Rouge, La., who was taken to the 19th green yesterday by Marion Wilson, British Columbia champion, before she advanced. The other match in the upper half finds Virginia Wilson, another mid-western American, and a conqueror of Glenna Collett last year, playing against Marjory Hayden, of Schenectady, N.Y.

Bowling

A game of very great interest to the members and friends of the Ladies' Lawn Bowling Club was played on the green on Monday afternoon. It was the completion of the rink games for the season, when Mrs. Wright's rink, winner of the first series of games, played Mrs Greenslade's rink, the winner of the second series to decide who will be the champions to hold the Denne Trophy for the coming year.

It was a great game, with many splendid shots made by both sides. At first it looked as if Mrs. Wright's rink would be the winners as she had a good lead, but Mrs. Greenslade's rink did some fine bowling, and at the finish the score was, Mrs. Greenslade 17, Mrs. Wright 11.

The winning rink was composed of: Mrs. R. J. Martin, lead; Mrs. C Wiley, second; Mrs. D. Eldred, vice; Mrs. W. A. Greenslade, skip.

The opposing rink; Mrs. C. Cheverill, lead; Mrs. C. Wiggins, second; Mrs. R. J. Devey, vice; Mrs. C. Wright, skip.

Mrs. Greenslade's rink will also receive first prize for the rink games and Mrs. Wright's rink second prize.

OVERCHARGING

You might just as well let the rats gnaw the inside of your battery as to overcharge it. Burning your lights during day-time driving is only PARTIAL protection against overcharging. See us for FULL protection that keeps the owner's battery safe from harm on the hottest day in summer—the coldest day in winter.

GENUINE WILLARD BATTERIES AND WILLARD SERVICE FOR ALL MAKES

GIANTS IN SECOND PLACE

Displace Cubs By Winning Two More Games From Braves.

CARDS WIN 6-3.

NEW YORK, September 12. Canadian Press. — The Giants went into second place in the National League yesterday, displacing the Cubs by the narrow margin of two percentage points. They accomplished the feat by winning two more games from the Braves by scores of 11 to 6 and 7 to 6, and making it four in two days over Boston. Their standing now is 79 won and 56 lost for a percentage of .585, while the Cubs, who also won yesterday, have .583.

The first game of the second successive double bill was a runaway for New York. The Giants hit 17 times, for a total of 25 bases off four Boston pitchers who opposed them.

The second encounter was much more of a scrap although New York took the field in the fifth inning on Andy Reese's homer with one on base, and was never headed. When the game ended the Braves had scored three runs in the ninth and had two men on base, and Larry Benton, pitching ace of the Clan McGraw had been called in to save the young southpaw, Clan Hubbell. Freddy Lindstrom had a field day at bat with three singles and a double in the opener and a homer and three singles in the second contest.

The Phillies and Brooklyn divided ed their second successive double header yesterday at Philadelphia. The Robins captured the first game 5 to 2 but lost the second 4 to 3 when Freddy Leach, Phillies' first baseman, poled out a home run with one on in the ninth inning.

Leach's four base smash came a moment after Dazzy Vance had been rushed to the rescue of a game Brooklyn apparently had won when Del Bissonette hit his twenty second homer of the season with a runner on the sack in the first half of the inning. This blow gave Brooklyn a 3 to 2 lead.

Ray Moss had relieved Jess Petty, who started the game and gave way for a pinch hitter in the eighth, but after Whitney's double that opened the final inning for the Phills, the might Dazzy was called in from the bull pen to try and save the contest. Leach, who nicked Petty for a single and a double, smashed the second ball Vance offered him over the fence in right centre.

Jim Elliott had all the better of a quartette of Philly pitchers in the opener, giving only seven hits, while the Robins collected 15. Rube, Rube Bressler connected for a homer in the ninth inning of this encounter, and Hendrick got one in the seventh.

Win from Reds.

The St. Louis Cardinals turned the tables on the Cincinnati Reds here yesterday, making it one game each for the series by virtue of a 6 to 3 victory at St. Louis. The final game of the series to-morrow will end the home National League season for the Cards.

Victory, based primarily on concentration of hitting by the Red Birds, enabled the leaders to cling to the narrow 2½ game margin in the league. High contributed a homer, and Bottomley and Frisch each donated triples to the cause. Critz for the Reds also connected with a four base hit.

Continuing their expert handling of the ball on infield plays which on Monday enabled them to tie the National League record, the Reds yesterday set a new loop market of 175 double plays for the season. Critz and Kelly participated in the double killing which exterminted the Cardinal gesture toward scoring in the fifth by cutting down High and Beathit.

Pat Malone had the best of five Pittsburgh players in a free hitting contest yesterday and the Chicago Cubs defeated the Pirates 9 to 3 in the final game of the season between the two teams at Chicago.

The Pirates got to Malone for eight hits but four of them were bunched in the third inning when the former American Association strike out ace faltered long enough to allow three runs to cross the plate. Thereafter, however he set the invaders down in rapid order with the exception of the fifth and eighth, when brilliant support got him out of trouble without any runs scoring.

Tunney Gives Up His Walking Tour

PARIS, Sept. 12.—(Canadian Press).—Gene Tunney has given up the walking part of his tour of Europe. Deciding that if he took to the road his progress would be hampered by admirers, he has decided to ride the cushions of passenger trains.

MUSIC AT THE EXHIBITION

The programme to be given by Cervonne's Band on Thursday evening before the grand stand will be as follows:

March: "Tannhauser." (Arrangement by Cervonne).

Overture: "Student Prince." (Arrangement by Cervonne).

Popular Number: "Who Wouldn't Be Blue?" (Huster), featuring Cervonni, Dorsi and Bonny.

Vocal number by Miss Edna Joyce; "Was It a Dream?" (Garkow).

Popular Number: "Mary Ann" (Popson).

God Save the King.)

ROCHESTER HOLDS FIRST PLACE TIGHT

Beats Buffalo 5-4 While Leafs Are Idle Yesterday.

ROCHESTER, Sept. 12.—Vic Keen's airtight hurling over the final four innings kept a one-run lead pounded out by Rochester in the fifth inning here, and enabled the Red Wings to defeat Buffalo by 5 to 4 yesterday. Herman Bell pitched the first five innings, and was found for seven hits and four runs. Keen took his place in the sixth, and but one man reached first base safely, Barnes doubling after two were out in the ninth.

TOUGH BLOW TO DUNN.

BALTIMORE, Sept. 12.—The Jersey City Cats got up in the International League tree yesterday and clawed a double victory from the Orioles' nest, 8 to 1 and 3 to 0. The opener went to Jersey City due to the airtight pitching of Sheffner, who was never in any real danger, while his mates were walloping Bolen out of the box. The night cap, the usual seven-inning affair, was taken by the visitors when Horne allowed the locals but a brace of hits, both of the scratch variety, and both annexed by Williams.

AND THEN THE BLOW-UP.

NEWARK, Sept. 12.—After pitching great ball for seven innings, Don Brennan blew up in the eighth, and the Reading Keys uncorked five hits which produced four runs. When the explosion came the score was tied one-all. Two triples, three singles, and a pair of errors did the trick.

Until the seventh Brennan, who opposed "Slicker" Parks, allowed but two hits, while "Slicker" allowed three including two doubles by Bentley.

ADVERTISE IN THE EXAMINER

HUDSON and ESSEX

World's Largest Selling Six

ON EXHIBIT AT OUR SHOWROOMS DURING EXHIBITION WEEK

World's Leadership of Six-Cylinder Sales is the solid and sincere ovation accorded to Hudson and Essex values

Now, it is our pleasure to have you see these great public favorites, with all their latest refinements, plus an opportunity to see them in beauty and quality, that is unmatched with, even with the other and new cars which have so recently been announced in the industry.

Such comparison will emphasize afresh the leadership of Hudson-Essex influence, and confirm the public verdict that these cars are years ahead in design, value and brilliant performance. Visitors who are in the city for the Exhibition are heartily welcomed to visit our showrooms, where you may see the most remarkable value in automobile history.

MEN WEARING BRIGHT COLORS

Box Coats in Large Over-Checks Offered By Graftons This Fall.

FURNISHINGS BRILLIANT.

Judging by the goods shown The Examiner by Lorne E. Conway of Graftons, any gathering place of men during the coming fall and winter will be a place of bright colors. Not only are ties bright, but shirts, socks, sweaters and even coat and suit materials show a welcome brightness after the sombre hues recently in vogue.

Single-breasted coats with wide open notch lapels, plain box backs, in either two or three-button styles are the thing for the stylish young men this winter. The newest touch in fashion is the double-breasted vest, which is found in some of these models.

For older men the coats are a little more conservative, but they follow the same general line. For both young men and their seniors, tweeds are the first choice, with overchecked patterns preferred. Serge suits are found with pin stripes set an inch or inch and a half apart.

Clothes make the man, is the old saying, and this year's overcoats are going to be responsible for a surprising increase in the number of big burly fellows walking Peterborough's streets. Heavy tweeds, overchecked, with wooly surfaces, are tailored with wide swing backs, some with half belt and others plain. They have a luxurious appearance in spite of their burliness. Rich silk linings are used in yoke and sleeves, and silk piping in seams and pockets.

Boys' clothing copies that of the older men. The patterns are the same, with smaller check. For junior boys the suit may be either single or double-breasted plain box coat with two pairs of golf knickers. Older boys may have similar coats with one pair of trousers and one of knickers or two pairs of longs. Overcoats are but smaller models of the men's styles, in cut and color.

A riot of color is the only way to describe the haberdashery end of the store. Shirts are colored, ties are of bright contrasting hues, socks have entirely forsaken the plain blacks and greys of yesteryear. Sweaters, long the garb of pugs, are now correct for many occasions and their colors are many and brilliant.

Yet with all this color, the plain, conservative dresser is not left out. He can have his blue suit and overcoat, his white shirt and plain quiet socks and ties, and still be in the best of style, for these staple, substantial models are always in style.

This was Grafton's 75th anniversary year, and Mr. Conway, in speaking of the styles, commented on the fine patronage which the local store had received during its celebration of the three-quarter century mark.

SNAKE OF FUR TRIMS SLEEVE

M. S. Zacks Has Black Coat Showing Attractive Fall Notion.

SCARFS ARE BRIGHT

The "snake" line of fur around the cuffs of fall coats, with the fur extending from the end of the cuffs to the elbow, and usually ending with a head, is exemplified on one of the black fur fabric coats at the store of M. S. Zacks, at 424 George Street. This trimming fur is black "pointed" fox.

There are also fur scarfs here, in bright red and brown fox neckpieces.

Lingerie, scarfs, gloves, staple goods of many sorts, along with hats and coats and dresses, form the stock at this store. The coats for fall wear are developed in navy and black, in brown and grey and green, with fur collars and cuffs showing the variations of the mode.

One of the most outstanding of the dresses is an evening gown of orchid georgette, with a cape-like back of gold lace which also makes the deep hem of the skirt, that opens in the front over a petticoat slip of orange crepe. The combination is odd and striking.

A sage green satin has a long line down the front of self-covered tiny buttons and faggotting makes the trimming of the skirt.

An exquisite gown of black and gold is made of taffeta. The hips are wired slightly, with the tight bodice and top of the skirt made of the taffeta and the hem of black, outlined in gold braid. The small Peter Pan collar and ties are also of black taffeta.

A dress of rosewood Canton crepe for afternoon wear has two sorts of pleats, box and knife, for its skirt portion. The top shows a long collar extending narrowly to the waist, made of sand georgette edged with cream lace.

A dress of rose silk crepe under mauve carries out the season's ideas in two-tone combinations.

An extremely interesting dress at this store looks just like a Spanish shawl, at first glance. It is of white, embroidered in a floral design in mauve, similar to the designs used on the shawls which have been such favorites of fashion for some time. The skirt ends with a hem of heavy white silk fringe and the cape top of the bodies extends well down over the shoulders, also ending in fringe.

GRAFTON & CO. LTD. 379-381 GEORGE ST.

FROM MAKER TO WEARER

COCOA BROWN IS FALL TINT

Pretty Model Shown in M. Abramson's Store—Other Browns Seen.

WIDE VARIETY

Cocoa brown is one of the most popular of the tints for autumn and winter wear, as well as all the other shades of warm browns which combine so well with Fall sunshine.

A pretty brown of this light shade of cocoa is shown in the stock of M. Abramson's store at 289 George street. It has loose side panels of pleating, a lot of gilt stitching on its belt and a Peter Pan collar, with small cuffs.

Another brown dress of georgette is developed with tiered skirt and has an edging to the tiers, as well as wide belt, of soft brown velvet. A crystal ornament completes the trimming to the front of the frock.

A two-piece jersey is also of brown, with tucked belt and side pleating to the skirt.

Other dress models are made of georgette, satin and crepe, in black, navy and grey.

A blue suedine coat with grey fur collar makes a pretty combination of color, while a brown plush has a matching collar of fur.

The stock also includes staples of various sorts, with plenty of variety in the goods on view. Minister will bring to them.

NEW TRIMMING AIDS TO CHIC

H. Abramson Has Wide Assortment of Newest Frocks and Coats.

ACCESSORIES, TOO

A wide assortment of dresses and coats for women of all ages, from the tot of four years to the lady of mature life, is a feature of the stock at the store of H. Abramson, at 370 George Street. There is a big variety also in the staples carried, in everything in accessories, in hats, shoes, underwear, hosiery, scarfs, gloves, bags and print and cotton dresses for the kitchen, as well as the fancier sort of gown and the coats that are intended for fall and winter use.

There are Jersey dresses for business wear, little hats in bright and dark tones developed in velvets and felts, coats with luxurious fur trimmings, for children and their seniors alike, and gowns of every type. Black and navy, brown and red and green, broadcloths, and suedines and tricotines, with fur collars and cuffs, are on the hangers.

In the evening gown section, a pretty sample of pink has a rose silk slip under pink georgette, while a tiny round yoke and an uneven hem ending in sharp points is of blue georgette, hemstitched on. At the left of the waistline a piece of the blue stuff is let on, in the manner described in the word "godet," and this falls to the hem of the gown. It is headed by three tiny flowers of pink, red and blue. The whole has a very dainty effect.

On a green gown, green silk fringe, very deep, makes the trimming around the bottom of the skirt, while two rows of gold lace trim a deep rose pink georgette dress in which the waistline is finished with a triple row of shirring.

Another finish to the floating side panel of pleated georgette which makes an effective touch on a black gown for a matron is the four-inch hem of smocking.

A rosewood crepe coat dress is worn over a slip of the same shade, while Swiss embroidery about the belt line of another model of navy and sand, is very attractive.

UNIQUE GOWN FOR EVENING

N. Sukloff Shows Rose With Two Shades of Blue Georgette.

IN SEASON'S MODE

Printed silk under navy georgette, the slip extending down the entire length of the gown, which is in matron's style and has slim lines because of its vertical tucking to bodice and skirt, and is made in one-piece effect, is an attractive demonstration of the mode for bright colors under darker hues, as demonstrated at N. Sukloff's Dry Goods Store at 441½ George Street.

This little store has a wide variety of staple goods and dress wear in stock, with hats, gowns and coats and accessories for every taste.

One odd evening gown has a rose foundation with two-shaded blue georgette over it. The gown is of Copenhagen blue with trimming of periwinkle blue velvet at the pointed yoke, hem and wide belt.

In the crepe gowns, one of rose pink has box pleating for the skirt and a great deal of faggotting or double hemstitching, as it is sometimes termed, as a trimming.

The fall coats show some interesting samples. One of black tricotine has collar and cuffs of black wolf, a model of cocoa brown and one of wine red are also richly fur-trimmed and there is a pretty soft green in the popular soft-napped suedine.

In the hat line, several shapes show the popular treatment of ostrich pompoms of long lines, over the right ear, on little velvet shapes of bright colors. There are also velvets and felts for youthful and senior ladies.

BAKER'S COCONUT

PAINTED HATS FEATURED HERE

M. Botnick Has Dainty Headgear on Display—Felt is Leader.

MANY DESIGNS

Hand-painted felt hats, with floral and geometrical designs on soft backgrounds, are a feature of the stock at the store operated by M. Bothnick at 293 George street. They are dainty little new bits of the mode in headgear. Other models have the silk embroidery and the self tabs and cut-outs that form an expression of the season's ideas.

An extremely pretty thing in a three-piece costume is made of shimmering rose pink Canton crepe, with long sleeves. This is a very trim and attractive outfit.

Other dresses show the vogue for satin, crepe and georgette, in blacks and navies and browns, while business frocks are developed in jersey.

The Fall coats have a wide assortment in broadcloths and tricotines, in navy and rosewood and brown, with long fur collars and fur cuffs.

A full line of ladies' shoes is also carried at this store.

MANY COLORS IN FURNITURE

Dining-Room Suites Offered in New Finishes This Year.

AT TECO STORE

On the fourth floor of the Teco Store, until quite recently known as the C.D.S.L., is housed the furniture department, in which one may find the solution of any housefurnishing problem. Whether it be a dining-room suite, an occasional chair, chesterfield suite or for the bedroom, this department is prepared to furnish it.

The dining-room suites are seen in combination walnut or oak, with Australian lace wood freely used, while lacquer, plain oak and Old English finishes lend the necessary degree of variety. And there is a suite in antique walnut and colors of French grey, old ivory and jade with the cupboards of the high back welch models. Belgian green and peacock blue are also colors used.

For the breakfast nook is a new departure—a table that can be lengthened or shortened with a slight pull It is available in colors to match the complete sets that are stocked.

Bedroom suites are mostly of walnut in antique effect, and a new vanity dressing table boasts but a single mirror.

Windsor chairs and other occasional chairs have lacquered effects, while a set, comprising a straight chair, a rocker and setee, of fine fibre with show wood framing is being featured. Auto-type cushions complete the set which is steel braced throughout.

CHECKS LEAD IN MEN'S SUITS

Single-Breasted Coats for This Season, Say Maher & Wesley.

CAMEL HAIR NEW

Maintaining their reputation as a smart and up-to-the-minute men's wear store, Maher & Wesley have on hand their complete stock of autumn and winter clothing—and a pleasing stock it is. "What have you for young men?" The Examiner asked, and in answer a member of the firm turned to a neatly arranged line of suits. They they were, in the popular single-breasted greys, fawns and checks, two-button and one-button single-breasted coats, and in addition, the ever-popular double-breasted models in blues and a fair amount of tweeds and worsteds.

And for the older man, with his more conservative tastes, were shown those quiet yet dressy greys and blues, mostly in single-breasted two-button models.

"Fall overcoats we have aplenty," said he, and thereupon brought forth a rich stock of the garments, many of them in the loose fitting, slip-on models in fawns and greys and the heavier mixed tweeds. Pasing on to the winter coats, he showed a fine range of blues for the demand this year, as in the past two, will be strong, heavier mixed tweeds. Passing on to hair are also available at this store, though the latter is a material not available to the average buyer, ranges as it does, at from about $75.00 to the century mark.

"Our stock of shirts, hosiery, braces, handkerchiefs, etc., is not greatly changed. There is, of course, the tendency toward the green novelty shirt and the white shirt, with either attached or detached collar, will enjoy the greatest demand, as usual. Hosiery will be of a happy range of checks and stripes and neckwear will be in the quieter stripes and plain colors."

MANY TWEEDS BEING SHOWN

Al Sharpe Displays Suits with Double Vests and Pleated Trousers.

CHRISTIES BEING WORN

Speaking of suits, Al. Sharpe, proprietor of the popular little clothes shop indicated a pleasing variety of tweeds in stripes and checks and also worsteds, mostly with single-breasted coats and double-breasted vests and pleated trousers having a high waistline that makes the wearing of braces almost a necessity. Blues and blacks with white pin stripes are shown for informal dress, while black and grey combinations called Londontown worsteds look good either for business or pleasure.

Christies will again be worn, while the popular snap-brim hats in demand for business wear. This year they have a noticeably lower crown and browns will share the honors, while pearl grey will prevail among the bound-edge hats likely to be sold to the older men.

Another entirely new line shown at the Clothes shop is a fairly heavy Irish-knit hose, with a not too elaborate check. These hose, made in the Irish Free State, retail at a fairly high price, but have all the appearances of an unusually good line.

The Camels Are Coming!

Thus Al. Sharpe declared himself in no uncertain manner in discussing the overcoats that he will feature this fall and winter, at his Clothes shop on George Street. By way of explanation, the "camels" referred to are the wide range of overcoats made from the new camel hair material, splendidly hand tailored, satin-lined, and of that fleecy texture that gives warmth without weight, and an appearance that, for a real utility coat, seems to have "it."

Apart from this new line, Mr. Sharpe has stocked a nice range of Scotch tweeds and velours; Elysian weaves, a soft blue material and the French Montagnac clothes made up into beautiful winter dress coats and for fall, the loose fitting slip-on Donegals, hand loom, Saxony fabrics and tweeds are quite in the fore. Most of the winter models are high waisted, form-fitting garments with half belt and pleated back, of medium length, some with and some without the rope shoulder.

BIG TRUCK LOAD OF WASHERS HERE

Miss Simplicity Company New Exhibitor at Peterborough Exhibtion.

On Monday morning the W. A Krebbs Co., Ltd., of Hespeler, Ontario, forwarded a large truck-load of Miss Simplicity washing machines and other products to the Peterborough Exhibition. This company established its business in 1857 and this year its exhibit at the Toronto Exhibition was the largest and best one it had ever shown. Through the advice of their local representative, M. E. Ketcheson, and because of the tremendous business in this district, it is showing in Peterborough. One of the exhibits is a new type of copper washer, which has as yet been shown only in Toronto.

Everybody is Out-of-Step but ME!

FAR too many of us go through each day carrying on our shoulders the proverbial chip. Acquaintances seem to jar it. Friends hand it a jolt. Life is one continual peeve. Often the reason is frayed nerves. Nerves whipped up by the drug stimulants tannin and caffeine, contained in certain mealtime beverages.

Tannin and caffeine are harmful. With you these agents may work fast or slow. But, sooner or later, their poisonous effects are certain, sure!

Drink Postum. Delicious—sustaining—economical—*free from all drug stimulants*. Serve delicious Postum to the whole family, because it is an aid to better sleep. Instantly made in the cup, at a cost of about half a cent. Or there's Postum Cereal, made by boiling or percolating twenty minutes. Ask for Postum at all grocers, restaurants, or on the train. Accept Carrie Blanchard's free offer. Mail the coupon today.

Carrie Blanchard's Offer

"I want you to try Postum for thirty days. I want to start you out on your test by giving you your first week's supply (sufficient for 21 cups).

"It seems to me that it would be a wise plan for mothers, particularly, to think of this test in connection with the health of their families.

"Will you send me your name and address? Tell me which kind you prefer—Instant Postum, made instantly in the cup, or Postum Cereal (the kind you boil). I'll see that you get the first week's supply right away."

CANADIAN POSTUM COMPANY, LIMITED, P-19-28
METROPOLITAN BUILDING, TORONTO 2, ONT.
I want to make a thirty-day test of Postum. Please send me, without cost or obligation, one week's supply (21 cups) of
INSTANT POSTUM ☐ *Check which*
POSTUM CEREAL ☐ *you prefer*
Name.....
Address.....
City..... Prov.....
35

Postum

You know how many children do not like the taste of milk. You know how they like to have the same drink as the "grown-ups". You know, too, how good it is for them to have a *hot* drink! Make Instant Postum for them, using hot milk (not boiled) instead of boiling water! They'll like the taste immediately! And they will get the added nourishment of milk in a *hot* drink that is economical and so easy to make.

Wedding Bells

SCRACE—LESURF.

A very pretty wedding was quietly solemnized at St. John's church, on September 6th, by the Rev. Dr. Blagrave, when Lillian, daughter of Mr. and Mrs. William Lesurf of Peterborough, was united in marriage to Richard Scrace, the only son of Mr. and Mrs. R. Scrace of Peterborough.

F. G. Mann played the wedding march and also throughout the ceremony. The bride given in marriage by her father, was a charming picture in a sand French crepe gown with her hat and other apparel to match, and also a beautiful fox fur. The bridal bouquet was a shower of Columbia roses, while the bridesmaid's bouquet was butterfly roses. Miss Eva Scrace, sister of the groom, was the bridesmaid, and was prettily dressed in sand, with a hat to match. Mr. J. Lesurf, brother of the bride, acted as best man. During the signing of the register, Mr. Walter Farr sang "Because."

After the ceremony a large number of guests assembled at the home of the bride's parents, where a dainty lunch was served. The bridegroom's gift to the bridesmaid was a lovely compact, and to the best man a pair of gold cuff links, while the bride wore a strand of pearls, which was the gift of the groom.

The happy couple received many beautiful and useful presents from their friends. On their return from their honeymoon the young couple will reside in this city.

NEWS IN BRIEF

MACKAYS ARE RECONCILED.

NEW YORK, Sept. 12.—(Canadian Press.)—The Daily News in a copyright article to-day said that Clarence MacKay, post telegraph head, and his daughter, Mrs. Irving Berlin, wife of the song writer, were reconciled at the bier of Mrs. Marie Hungerford MacKay, mother of Mr. MacKay, in fulfillment of Mrs. MacKay's death bed wish.

BOY KILLED BY CAR.

TORONTO, Sept. 12.— (Canadian Press.)—Terence Kearsley, 12, died to-day from injuries received when he was run over by a motor truck las tnight while riding his bicycle.

PASSENGERS SAVED.

MERIDA, Yucatan, Mexico, Sept. 12 (Canadian Press).—Rescued when fire broke out aboard the Ward Line steamship Monterey, off the port of Progreso, 67 passengers bound for Havana and New York were safe on shore to-day. They were taken aboard a tug two hours after the fire was discovered at noon yesterday.

Exhibition Attendance.

Children's Day at the Exhibition brought out 5,498 paid admission, an increase of 3,531 over the second day of the big fair last year.

SMITH.—To Mr. and Mrs. Orvel Smith (nee Dorothy Tooms), of 218 Carlisle Ave., at St. Joseph's Hospital, Sept. 10, a son.

METER MEN ELIMINATED

Defeated 11-4 By Punch Press Department in Softball Finals.

C.G.E. SHOP SERIES.

Under weather conditions that made good soft ball playing almost impossible the Punch Press Department last night defeated the Meter Department at Confederation Square by the score of eleven to four, thereby eliminating the Meter Makers from the struggle for the group championship, and qualifying to meet the winners of the Test-Office battle which will be staged Thursday night, in a three game series for the C. G. E. Softball trophy.

Despite a drizzling rain which began in the third innings and continued until the sixth, some nice plays were made, especially Bannon's running catch of McClennan's foul fly in the sixth frame.

A feature of the game was a clean three base clout by Len. Hollingsworth into right field, and which he stretched into a run, when the throw-in went for a passed ball.

The continued rain made the infield muddy and the ball slippery, which was responsible for a great number of errors made.

The game was called at the end of the seventh, owing to darkness.

Meter Dept.: Len Hollingsworth 1b, E. Johnson lf; Robert Pilling 2b; D. Sproule cf; H. Bannon c; Roy Pilling rf; F. Williams ss; J. Pilling 3b; A. Nobbs, p.

P. Press Dept.: Craighead ss; Fraser lf; Miller c; Feely, p; Parsons rf; Heasman 2b; Turley 1b; Wood, cf; McClennan 3b.

The score by innings:

Meter . . . . . .1020100— 3
P. Press . . . . . .2220005—11

3 base hits: L. Hollingsworth, Heasman; 2 base hits, Robert Pilling, L. Fraser; struck out by Feely, 3, by Nobbs 3; bases on balls, off Feely 2; off Nobbs, 4.

Umpires, W. Bennett at the plate, Bud Weese on bases.

Are Your Pants Baggy at The Knees

Is there a gravy stain on your vest? or an odor of 1926 mothballs about you?

It stands to reason that you need to send the whole suit to JAY'S before it disgraces you, and lowers your pride as a good dresser.

MINISTER COMMENDS EXHIBITION BOARD

Child Drowned At Healey Falls

Falls Into Canal At Home

Robert Edward Dutton, 5, Son of Lockmaster, Loses Life.

BODY RECOVERED.

No Person Sees Little Lad Fall Into Deep Water—Missed at Noon.

(Examiner Staff Correspondence.)

HEALEY FALLS, September 13. — Grim tragedy swooped down on Healey Falls yesterday morning in the form of the death of Robert Edward Dutton, the five-year-old son of Mr. and Mrs. T. J. Dutton. The little chap came to his death when he accidentally fell into the canal at a spot where the water is about twenty feet deep, and less than one hundred yards from his own home. This was the opinion of the coroner, Dr. Loucks, of Campbellford, who was summoned to the scene. The accident occurred shortly before eleven yesterday, as nearly as the distracted parents can say and the body was recovered at twenty minutes past three in the afternoon. The funeral service will be held from Christ church, at half past two on Friday afternoon, with interment in Christ church cemetery.

Lately the weather in this district has been more than usually wet and disagreeable. The Dutton children have to traverse about four miles of country road to school, and whenever possible the father drives them there. This was the case yesterday morning. Mr. Dutton got out the car to drive his son Alfred, aged 8, to Connely's school, on the Trent River Road. His daughter, Lydia, seventeen, and the unfortunate lad, went along for the drive, and for company for their father. Returning, Mr. Dutton stopped at the home of Claude Insley, a neighbor, and his daughter and little son returned home on foot. While he was at Mr. Insley's home, word was received that there was some work to be done on the dam, and Mr. Dutton went there, as was his duty, along with the duties as lockmaster at Lock fifteen, Healey Falls.

Always, says the father, his little son ran to meet him when he returned to his home at the noon hour or at the end of the day's work; but there was no welcoming lad at noon yesterday. Mrs. Dutton had not missed him till then. She recalled having seen him near the edge of the canal earlier in the morning but had called him back to his usual playground. Out behind the house is the skeleton of an old row boat. It is entirely unseaworthy, and has not been in the water for many summers. This ancient craft

COLLIDES WITH STANDING CAR

Irwin Tully, of Omemee, Drives Against Parked Car During Night.

NO PERSON INJURED.

At midnight last night a car driven by Irvin Tully of Omemee struck a car belonging to the Johnson Nash Motors at the corner of George and McDonnel Streets. Johnson's car was parked on the south side of McDonnel Street without lights, about one hundred yards from the intersection. Tully was coming east on McDonnel Street, and as the rain and the mist made his vision very poor, he failed to see the parked car and struck the running board and front fender and then his car turned over on its side injuring no one.

Labor Denounces Importation of Men

CHICAGO GANGSTER IS BURIED IN GREAT POMP.

CHICAGO, September 13—Old Country manners and Chicago custom combined yesterday to make the funeral of Antonio Lombardo, murdered gangland chief, impressive. A nobleman in Sicily would not have had more pomp and ostentation than did the slain ruler.

There were seventeen truckloads of flowers and a procession two miles long. Alphonse ("Scarface") Capone was there in person. John Scalisi and Albert Anselmi, comparable with the Royal Guards of their native land were on hand.

Hundreds of Chicago police were there, too, eyeing the men who make a business of crime.

Twelve pall bearers in tuxedos officiated. A silk American flag topped with a brass eagle and a silk Italian flag topped with a brass symbol, crown, and cross, were over the casket.

FIFTEEN KILLED AT CROSSINGS

Three Cars Are Struck and Only One Occupant Survives.

HE MAY SUCCUMB.

ST. CLOUD, Minn., Sept. 13 (Canadian Press).—A family of seven was wiped out last night when a Northern Pacific passenger train struck their motor car at a grade crossing near Rice, Minn. The dead are John Morgel, his wife, and their five children, ranging in age from five months to seven years.

GARY, Ind., Sept. 13 (Canadian Press)—Seven persons were killed and another injured, probably fatally, when a west-bound Grand Trunk freight train struck their motor car at a grade crossing on the edge of Gary early to-day. The party was en route to Flint, Michigan.

A seven-year-old boy, unidentified, lies near death in a hospital.

HAWKESBURY, Ont., Sept. 13. — (Canadian Press).—When the car which he was driving was struck by an eastbound C.N.R. train at a level crossing here last night, John Miller, 42, received injuries from which he died in hospital an hour later. It is believed the driver failed to hear the sound of the approaching train.

NORTH RENFREW M.L.A. IS VERY ILL

Blood Transfusion Resorted To By Attending Physicians Last Night.

OTTAWA, September 13. Canadian Press. — The condition of E. A. Dunlop, M.L.A., for North Renfrew, is critical, attending physicians intimated late last night, and officials at the local hospital to which he was removed last Monday from his home in Pembroke, to-day stated that there was no change. He suffered a relapse yesterday and a prominent surgeon from Montreal was called into consultation, with the result that blood transfusion was resorted to. He is 52 years old.

Macdonald Sails.

QUEBEC, September 12. Canadian Press. — Ramsay MacDonald sailed for England to-day, terminating a visit to Canada which took him from coast to coast in company with his three daughters.

GOVERNMENTS AND RAILWAYS ARE CONDEMNED FOR MOVEMENT

Labor Congress Upholds Policy of Examination Before Sailing.

URGES ADVISORY COUNCIL.

Men Brought In As Harvesters Will Compete For Few Winter Jobs.

TORONTO, Sept. 13.— (Canadian Press.)—Strong condemnation of the movement of British miners to Canada for harvest work was voiced by the Trades and Labor Congress today. The special committee appointed at the beginning of the convention to deal with immigration brought in its report this morning and coupled the re-affirmation of Labor's immigration program with a denunciation of the importation of harvest labor. "No language is too strong," the report states, "to denounce the bringing here of men, ostensibly farm labor, so late in the year, when they are certain to compete with men already here for the few jobs available in the winter."

The British and Canadian governments, the railway and steamship companies, and the Salvation Army all received their share of blame for the scheme. Discussion of other phases of immigration took place. The parliamentary scheme of medical examination abroad was heartily endorsed. President Moore declared that opposition to the system was being stirred up by the transportation companies.

The Congress reaffirmed its program which demands the establishment of a non-political immigration advisory council. The Dominion government, Mr. Moore declared, should assume full responsibility for the control and selection of immigrants.

DUKE SCHILLER MAY FLY AGAIN

Suspension Lifted For Three Months To Allow Him To Carry Supplies.

ON RELIEF MISSION.

OTTAWA, Sept. 13.— (Special to The Examiner.)—Canadian aviation's "bad boy," C. A. "Duke" Schiller, whose License was suspended recently when he was found responsible in a crash at St. Hubert Airport, Montreal, this morning was re-instated as a commercial pilot in order that he might go on a life-saving mission to Baker Lake in the Chesterfield Inlet area of Hudson Bay, where a party of men working for Northern aerial mineral exploration is tied up in a precarious position without supplies.

The request for the lifting of the suspension under which Schiller was placed when he piled up a Loening amphibian at Montreal, came from the N. A. M. Company when it was found that no reliable pilot could be hired to fly supplies into the stranded men. Schiller was suspended for six months prior to a further infraction of the air regulations when he jumped his suspension and flew a ship from Montreal to Sudbury, where he was promptly put under arrest by the Sudbury police, acting on a request from the Royal Canadian Mounted Police here.

In an interview this morning G. J. Desbarats, Deputy Minister of the Department of National Defence, said that the suspension imposed on Schiller was not being waived, but would be renewed in full on December 15 when it was figured, his share of the rescue mission would be ended. He will be unable to fly from that date until he has finished his complete term of seven months, one month having been added to the original term for the Sudbury infraction after he was released by the police.

OSLO, Norway, September 13 (Canadian Press). — A wing believed to be part of the plane in which Radid Amundsen and his five companions were lost, was found this morning in the southern part of the Strait of Tromsoe, in the vicinity of the point where fishermen recently picked up one of the pontoons of the plane.

AFGHANS ADOPT BLACK FOR CEREMONIAL DRESS.

LAHORE, September 13—The striking changes made by King Amanullah in the laws and customs of his people since his return to Afghanistan from his European tour, still increase. The Jirga, or Assembly of the people at a recent meeting passed a resolution abolishing all ceremonial uniforms and dress. The civil dress in future will consist of a black suit, and the military dress of khaki.

It was decided to abolish all forms of complimentary address. The King and Queen and all officials will now be addressed in correspondence as "My Dear—."

Another decision is that lists must be made of the property of officials at the time they enter the Government service, and that accounts of their incomes and expenditures must be kept. The National Assembly will fix the number of domestic servants to be kept by officials.

Men entering the Government service in future must not have more than one wife, and those already in the service must not indulge in polygamy. The King has advised the prohibition as far as is possible of all early marriages.

CHAMBERLAIN NOT RESIGNING

Not Slightest Truth in Rumor, He Tells Interviewer in Bermuda.

NO SECRET TREATY.

LONDON, Sept. 13 (Canadian Press) —A cabled report of an interview with Sir Austen Chamberlain on his arrival at Bermuda says that he declared there was not the slightest truth to rumors that he would resign. The British Foreign Minister said that he fully expected to resume duty when he returned home in November.

Questioned regarding the Anglo-French naval accord, Sir Austen, according to the report, laughed at the idea of a secret treaty and declared that people at home easily found "mares' nests." He declared the idea was to bring about an understanding for submission to the disarmament commission.

Y.W.C.A. POOL WELL PATRONIZED

Large Number Taught To Swim Well Durnig Past Summer — Little Ones Learn.

The Y.W.C.A. swimming pool is providing a popular recreation centre these days. In fact all summer long swimmers have enjoyed the clear pure, heated water of the "Y" pool. The filterer and vacuum which were installed at the pool have meant grade A tests each week from the Provincial Board of Health and assured the swimmers of every possible protection.

This season has shown wonderful results in the swimming classes. Over two hundred have learned to swim and then through practice, advanced classes or life saving have become perfectly at home in the water. Twice each weak a babies' class is conducted and the pool now boasts twenty children under six years of age who can swim. Classes from the playgrounds sponsored by the Kiwanis Club have meant many school children learning to swim and through life saving to look after themselves and others in danger in the water. The business girls and ladies classes have also been well patronized. Junior classes have shown marked improvement many becoming expert in diving.

All swimmers are entitled to join the Friday evening sports hour when encouragement is given to all advanced work. At the pool correct strokes, diving, stunts and methods of life saving and resuscitation are taught and in many cases only a few lessons are needed to enable one to swim with ease and confidence.

Chang Bids His 28 Wives Fond Farewell Then Goes To Battle, Breathing Defiance

PEKING, Sept. 13.—Twenty-eight wives and concubines bade a fond farewell to Chang Tsung-chang to-day on the eve of his start for the battlefront northeast of Tientsin where he will make his last stand for power against the Nationalists.

Chang, who is a former dictator of Shangtung province, assured his wives he would be victorious in the fighting which is now in full swing and would soon be home again.

General Pai Chung-shi, who holds the Nationalist mandate for clearing the provinces of Chihli and Shantung of the renants commanded by Chang, told American observers a few days ago prior to his departure for field headquarters with a warrant for Chang's arrest that his task would be easy.

Chang's reply, however, was as much as to say, "Here I am, come and get me."

Chang is one of the most picturesque of the disappearing old time Chinese leader. He has a fighting jaw, is full of adventurous spirit, and maintains a dapper exterior. He once was a gang coolie at Harbin.

He began marrying young and although the majority of his wives are Chinese they include Japanese, Koreans, Russians and Mongolians.

The military operations against him are designed primarily to re-open North China rail connections with the Trans-Siberian and Peking-Mukden lines which have not been functioning since the retreat of Chang Tso-lin.

POULTRY ENTRY AT EXHIBITION IS LARGE AS EVER THIS YEAR

Full Pens Occupy All Available Space in Building and Tent.

GOOD BIRDS SHOWN.

Many Varieties of Chickens and Other Fowl On Display—Rabbits Plentiful.

The pens and coops in the Poultry Building are packed this year with birds, numbering upwards of eight hundred, which fill the big, well-lighted building to capacity and overflow into a tent at the rear, where water fowl are housed in a compartment all their own. Mr. George Paxman, chairman of the committee in charge of poultry, looks after all arrangements in his usual very efficient style, and judges are A. W Tyson of Guelph and A. F. Field Marshall of Beamsville.

This season marks the fortieth consecutive year of exhibiting for H Lush, whose fancy Polish and Ancona fowl make one of the interesting sections.

Outstanding in the list of entries, all of which, notwithstanding the bad season and unhealthy weather, are of exceptional type and condition, is that of Bruce Law of McGill Street, whose string of White Wyandottes are superb specimens of this big, white, meaty fowl.

There are entries this year from Toronto, from the "Highland" Yards, as well as the usual entrants from Warkworth, Hastings, Campbellford, Port Hope, and Norwood.

The "Production" class is one of the most interesting of the classes, being better and bigger than ever this year, showing an increasing interest in the youth of the rural districts in this type of fowl. White Leghorns and Barred Rocks are mainly represented in this class, crowing loudly to prove their superiority.

Water fowl have a large list, and the entries are all in first-class condition.

The display of rabbits intrigued the fancy of the children on their special day, Tuesday, the placid bunnies blinking out at their small visitors with mild eyes. A senior spectator had a different viewpoint from that of the juniors.

"Hello, sweetheart," he remarked affectionately to one brown bunny. "Ah, wouldn't he make a wonderful pie, just," he went on addressing his wife.

All the well-known varieties of standard birds and many of the out-of-the-ordinary fancy fowl are on view, with their assembled crowings and their small bickerings and squabbles. A pair of fierce fighting cocks squared away at each other in neighboring coops, raising and lowering their heads in traditional attitudes of defiance, while a meek hen regarded them with a startled eye. From the coops of the tiny Bantams come some of the loduest, albiet the shrillest, of the crows. A hoarse big Black Orpington persisted in trying to crow above his fellows, while a defiant White Wyandotte did his best in vocal combat with the deep note of a huge Rhode Island Red.

In many of the sections there are long lists of entries, all of the classes being well represented. The showing includes White, Black, Brown, and Buff Leghorns, Blue Andalusians, Anconas, Black Minorcas, Light and Dark Barred Rocks, and the high-clipped Partridge Rocks, Silver Golden, Black and Buff Wyandottes, with many of the pure White Wyandottes, Cochins with their Paisley-shawl markings, in Buff and Partridge varieties, Buff and Mottled Dorkings, Orpingtons, Buff, Black and White big Redcaps and little, skinny Cornish, Columbian Wyandottes and huge Rhode Island Reds, Light and Dark Brahmas, and Black Langshans.

The Bantams occupy upper coops, with their heavier brethren below. The little birds with their shrill notes come in all the well-known types; the white, brown, black and spangled Bantam Brahmas, Seabrights and Japanese, Pyle and Birchen Game, Black and White Cochin Bantams, and Pitt Game.

The fancier birds include a fine showing of Gold and Silver Campines, Houdans with their tufted tooknots obscuring their eyes, Golden and Black Hamburgs, and the Polish varieties, the latter displaying fine fowl.

A couple of big Sussex with their plump chests and half a dozen of the meek-looking Silkies were odd contrasts.

Down in a coop all by themselves were a pair of ring-necked English pheasants exhibited by Howard Cole, the mildly-feathered hen and the gorgeously-tinted cock attracting much interest.

The cages containing the Belgian, Chinchilla, and Angora rabbits were well patronized by the onlookers, as were the coops containing the pretty pigeons—Homers and Pouters and Jacobins and Fantails and Tumblers, with their red feet and red-rimmed eyes.

In the tent devoted to water fowl, there were some noble specimens of large and small birds of this type. The inquiring-looking geese are probably the most interesting from a spectacular point of view while the turkeys promise most in the way of interest at the table, later on. All the classes had large entries.

There were big white Emden geese and huge grey Toulouse, with their orange bills, while the knobby-nosed Africans were well represented, and the white Chinese, with their puff-ball topknots.

Bronze and White Holland turkeys, some bringing their families along with them, were interesting specimens, as were the ducks, black Muscovys with red, warty noses, shiny black Cayugas, mottled Rouens, large white Aylesburys and Pekins, and the smaller white Indian Runners.

Flying Cure For Deafness Is Myth May Prove Harmful, Says Physician

WASHINGTON, Sept. 13.—Prompted by the recent airplane accident at Springfield, Mass., in which three persons were killed in a flight undertaken to cure deafness in a child, Lieut. Col. Levy, M. Hathaway, chief medical officer of the U. S. Army Air Corps declared yesterday that not only was flying not beneficial for deafness but might prove harmful. "Deafness is caused and aggravated by flying," he asserted.

"Defective hearing is common among aviators and is generally considered occupational. Many fliers are slightly deaf though not noticeably so, except when tested for hearing."

The noise of the engine, together with the rapidly changing atmospheric pressure on the delicate structures of the auditory apparatus, soon dulled the sense of hearing, he added.

Is Pleased With Place Accorded Agriculture By Peterboro Board

Minister of Agriculture Believes Exhibition Has Prospered Because of Courtesy To Exhibitors and Great Attention To Farming.

IS GUEST OF CITY OF PETERBOROUGH AT COMPLIMENTARY LUNCHEON TO-DAY

Mayor Denne Welcomes Distinguished Visitor To City and Fair—Directors Trying To Make It Great Success, He Declares.

Complimenting the Peterborough Industrial Exhibition Board of Directors on their policy of keeping the Big Show essentially an agricultural event, and urging upon them the necessity of continuing this policy into the future, the Hon. John S. Martin, Minister of Agriculture, spoke at a luncheon tendered by the city in the Empress Hotel to-day previous to the formal opening of the Exhibition. His declaration, "As long as you continue to do so, I am with you both hands," briefly but emphatically indicated the attitude of the Minister.

The luncheon meeting revealed a fact that had been in doubt since unfavorable weather jinx had taken so firm a grasp upon their show — the directors are not downhearted, though they have been keenly disappointed. President Roland Denne, in proposing the toast to the visiting Minister, referred to this discouraging state of affairs, but added the hope that the last two or three days might redeem their successors with a record attendance.

"We appreciate what you have been doing for the agricultural district surrounding Peterborough," said Mayor Denne, "and we appreciate your presence here to-day, the more so because of your recent accident, injuries from which might well have justified your absence. You will encounter a genuinely agreeable surprise when you visit the Peterborough Industrial, for the live stock department alone is outstanding in point of numbers and calibre of stock. I therfore thank you, in behalf of the Exhibition Board and in behalf of the city."

Thus was proposed the toast to the honored guest, in response to which the directors added three cheers and that happy song attesting to his jovial qualities.

The Hon. J. S. Martin

The address of the minister was one, strictly in keeping with the informal goodfellowship of the meeting. Without lengthy preface he began: "I am glad to be here to-day for it represents the fulfillment of a long unfilled wish to visit the Peterborough Industrial Exhibition, though my absence has not been of my own choosing. From the press and hearsay I have learned much that was favorable to your exhibition, and while it is not necessary for me to tell you what my ideas of fairs are, I may say that I had a great desire to know what you were doing, first hand.

Exhibitors Satisfied

"I have had many splendid reports from exhibitors who have been impressed with the courteous treatment accorded them at Peterborough. And I have the ideas that too often, the failure of many Fall fairs is due to a neglect of that, on the part of directors. Courteous treatment of exhibitors is an important factor and one which caused me to be an exhibitor at the New York State fair for twenty-one years.

"Apparently you have learned the value of a little forethought and assistance given here and there. Oftentimes a man's exhibit represents great care and time spent in its preparation. He idolizes his horse, for instance and a little help or courtesy makes a world of difference to him."

Mr. Martin referred to the Canadian National Exhibition as the finest on the continent, due, he claimed, to the fact that every director realizes his duty and is painstaking in its discharge. Peterborough directors had, so far as he could discover, also realized the importance of such conscientious service and that realization seems to actuate them in all that pertains to the In-

SIX CHILDREN BURN TO DEATH

Use of Coal Oil To Revive Fire Causes Catastrophe in North.

FOUR ESCAPE.

SAULT STE. MARIE, Ont., Sept. 13 (Canadian Press).—Six children of Mr. and Mrs. T. Peyeur are dead and the hired girl, Marie Peyeur, a niece, may die as a result of a fire which early this morning destroyed the Peyeur home, at Mileage 279, on the Algoma Central Railway about twenty miles south of Hearst, Ontario. The parents, together with a baby in arms and a girl thirteen years of age, escaped from the flames. The bodies of two children, apparently smothered by smoke, have been recovered, but the remains of the other four are still in the ruins.

The destruction of the house followed the use of coal oil in the kitchen stove by the hired girl to revive the smouldering fire. The girl was terribly burned.

POPE SEEKING CHURCH UNITY

Third Letter of Year Directed Particularly To Eastern Churches.

ROME, Sept. 13. — (Canadian Press).—Pope Pius in his third encyclical issue this year again refers to unity of the Christian church. The Pontiff's first message was directed at all non-Roman Christions, particularly members of the advanced party in the Anglican church, but the new plea is directed towards the Oriental churches considered schismatic by the Roman Church. Reincorporation of these eastern churches in the body of the Roman Church has been the aim of the Hierarchy for centuries.

The Pope praised the work already accomplished in this direction, expressing gratification that there was now a large force of clergy especially well equipped to deal with the problem.

The Pope hopes that efforts now being put forth will make prejudices disappear and conduct dissidents to the one flock of Christ under the Shepherd."

The Holy Father called upon the Oriental Christians to consider carefully the advances which Christianity in the Orient has received from the Roman Church. He mentioned especially the Franciscan and Dominican Missionaries and the Jesuits. To the latter has been particularly entrusted the problem of reuniting the eastern churchs with Rome.

Radio Annoys Neighbors, Youths Hailed To Court For Disorderly Conduct

NEW YORK, Sept. 13—Because they entertained girls in their apartment, cracked ice loudly enough for their neighbors to hear, and kept the radio going after 10 o'clock at night, Lester Clarkson and Norman Driscoll, two young bank clerks who share the same apartment, were haled to Court yesterday on a summons charging disorderly conduct.

The complainant was Mrs. Nellie Murdock, who lives with her husband in the apartment directly below. Her husband objected to the radio, and Mrs. Murdock was distracted by the sound of ice being cracked and by young women's voices. Mark Alter, counsel for the youths, pointed out that women's voices were not illegal, and Magistrate Silbermann explained to Mrs. Murdock that he could not prevent young men from entertaining young women and cracking ice.

The radio was another matter. The Murdocks wanted it stopped at 10 o'clock, but a compromise was effected. The young men agreed to turn it off at 10:55 nightly and the summons was dismissed.

REACH AGREEMENT ON DISARMAMENT

Would Set Meeting Date

Lord Cushendun Says Anglo-Saxon Experts Reach Amicable Agreement.

OTHERS DISSATISFIED.

Favors Resumption of Preparatory Commission Sittings at Earliest Possible Moment.

GENEVA, Sept. 13.—(Canadian Press Cable).—In a forefui and outspoken speech yesterday before the third committee on disarmament, Lord Cushendun, Acting British Foreign Minister, said that a certain measure of success had been achieved on the subject of disarmament by the Anglo-French naval compromise. The British and French experts, he said, had reached a perfectly amicable settlement on this particular point.

It had been necessary, he continued, to submit it to other parties concerned.

"Unfortunately, however," Lord Cushendun said, "intimations have reached us that the compromise may be extremely distasteful to some other parties concerned who are just as well entitled as we are to have particular opinions represented and their voices heard."

Large Step Forward

Lord Cushendun added that though the accord with the French had been a large step forward he would be too bold if he said that at the present moment all difficulty was at an end and that if the committee were to insist on fixing a definite date for the next meeting of the disarmament commission they would be able to go straight forward and find an agreed convention.

While he was entirely favorable to the resumption moment, the Actbl to sy when tht shrdluhrdlush ing Foreign Minister, he was unable to say when that moment should be. He strongly deprecated the idea of fixing a definite date there and then. The committee did not have the necessary information to enable it to judge when was the most opportune moment.

Lord Cushendun's speech followed an address by Paul Boncour, France, in which the French statesman urged that a definite date be set for the next meeting of the preparatory disarmament commission.

In an interview following his speech Lord Cushenddn said that the intimations referred to be him were those which appeared in the the press, not the actual replies of the governments concerned. No replies from the various governments had as yet been received.

BUSINESS POLICY TALK
No. 6—By H. E. M.

CHOOSING A TYPE FACE

There Is a Type Face for Every Business

THE choice of a suitable type face for your particular business is just as important and becomes part of you just as much as your particular style of walking. Many people know us by our walk, and many buyers know a man's business by the face of type he uses throughout his business advertising.

The Examiner makes a special study of each customer's business and suggests a type face that will express to his customers an individuality that is both interesting and pleasing.

This service is made possible by the fact that we make all of our own type, rules, borders, etc., right on our own premises. We use type but once, and then it is remelted. This means that you get new, clear, clean type in every job, and at no greater cost than other printers charge for the use of old and worn type.

We have the most complete typemaking and typesetting equipment between Toronto and Montreal. This makes it possible for us to turn out large catalogs, publications, etc., in record time.

Our Service Department will be glad to talk over type faces with you, without obligation, at your convenience.

Once more we emphasize the fact that "We give the same treatment to one and all."

OUR TELEPHONE NUMBER IS 1600

The subject of the next talk will be, "Standing Matter; What It Means."

PEN AND PENCIL FOR MADOC GIRL

Miss Ethel Fox Is Entering Nicholls Hospital Training School.

(Examiner Correspondence).

MADOC, Sept. 13.—Miss Ethel Fox was recently honored by the members of the Union Sunday School and other friends at a social evening held at the home of her parents, Mr. and Mrs. John A. Fox, prior to her departure for Peterborough, where she has entered Nicholls Hospital as a nurse-in-training. The evening was spent in games and Miss Fox was presented with a Waterman fountain pen and pencil, an ivory clock and a silver vanity case by little Evelyn Chambers, while the accompanying address was read by Cecil Robinson.

Personals.

Mrs. Roy Taylor has returned home after visiting friends in New York, Niagara Falls, and Buffalo.

Mr. John Henry, Sr., has been renewing acquaintances in town.

Mr. Robert O. Reerdon was in Saginaw, Michigan, last week, attending the funeral of his brother-in-law.

Mr. and Mrs. Will Christie, of Foxboro were guests at the home of Mrs. M. Christie on Sunday.

Miss Minnie O'Hara has returned home after a pleasant holiday with her niece, Mrs. Roscoe Vanderwater, in Foxboro.

Miss Elizabeth Bray has returned to her home in Belleville after spending the past two months in Madoc.

Miss Mildred Comerford, of Belleville, visited in Madoc over the week-end.

Mrs. T. Bird is moving into apartments in the Whytock.

Mr. and Mrs. Avery are moving from West St. Lawrence Street into the house owned by Mrs. T. Bird.

Mrs. McKinnon and son Campbell, of Orillia, spent Friday and Saturday with Mrs. J. Blue and family at Crookston.

NEWS IN BRIEF

Fall Kills Woman.

TORONTO, September 12. Canadian Press.—Falling or jumping from the tenth story window of the Ford Hotel here at noon to-day, a woman aged about 36 years, and identified as Mrs. Richie, of Montreal, was instantly killed. She had registered at the hotel only a short time before.

Secretary Resigns.

OTTAWA, Ont., September 12. — Canadain Press. — N. B. Douglas, Dominion secretary of the Retail Merchants' Association of Canada, has submitted his resignation to the Dominion Executive Council of the organization, to take effect in three months.

CALL EXTENDED TO REV. JOHN LENNOX

Havelock Presbyterians Ask Him To Resume Ministry at Knox Church.

(Examiner Correspondence.)

HAVELOCK, Sept. 13.—A congregational meeting was held in Knox church on Monday evening for the purpose of moderating in a call to the Rev. John Lennox, of Beamsville, to become minister of the congregation.

Mr. Lennox occupied the pulpit of Knox church in 1925. Rev. William Allan, of St. Paul's church, Peterborough, resided.

On Tuesday William Mathison, representative elder, William Martin and Albert E. Wilson represented the congregation at the meeting of the Peterborough Presbytery in Port Hope, when the call was sustained and forwarded to Mr. Lennox for his acceptance. Arrangements were made to hold the induction service on Tuesday evening, September 25.

PRIZE WINNERS ANNOUNCED FOR DOMESTIC SCIENCE COMPETITION

Miss Helen Tedford and Miss Mable Muller Senior and Junior Champions.

MANY ENTRIES.

Carried On Under Auspices of Ontario Department of Agriculture.

Miss Helen Tedford of R.R. No. 2, Indian River, and Miss Mabel Mullen of R.R. No. 4, Peterborough, are senior and junior champions respectively of the County of Peterborough and the Townships of South Monaghan, Cavan and Emily, in the domestic science judging competitions carried on under the auspices of the Ontario Department of Agriculture, in connection with the Peterborough Industrial Exhibition. These two young ladies will also, besides being adjudged champions in their classes, have the honor of being guests of the Peterborough Kiwanis Club at the Royal Winter Fair, the club having offered trips to the girls getting the highest total of marks, who had not won trips to the Fair in other competitions.

Miss Tedford, as senior champion, also wins a "Markeena" choker, valued at $12, donated by the Peterborough Raw Fur Company to the girl in the senior competition who made the greatest total in all classes, and Miss Mullen, as junior champion, wins a brooch, valued at $3, donated by Alex. Gibson, jeweller, George Street, to the girl in the junior competition making the greatest total in all classes.

This competition, sponsored by the Department of Agriculture, and aimed to encourage a greater interest in household science among the young ladies of the district, has the co-operation of the Exhibition Board, and is in charge of J. B. Nelson, district agricultural representative. It takes place in a big tent on the Fair Grounds, the competitions commencing yesterday morning at nine o'clock, and ending some hours later.

The senior competition is open to girls over 18 years of age and under 26 years, and the junior competition is open to all girls from the abovementioned district who are 18 years of age and under. It is divided into three classes, which have to do in turn with judging of nutrition, with respect to school lunches and family menus, of clothing, with respect to a country girl's wardrobe and a dress parade, and of house furnishings, including farm living rooms and kitchen plans.

With the assistance of four young lady models from the Hall Store, the judging of the dress parade was carried out, while school lunches were spread out in the tent, on tables. The other sections were judged by means of diagrams and charts, 50 per cent. each being allowed in all sections for correct placings and 50 per cent. for reasons.

In each class, there were six awards, the first for $4, the second for $3, the third for $2, the fourth and fifth and sixth for $1 each.

Ladies in charge were Miss E. Wallace of Toronto, Miss E. A. Slicter of Kitchener and Miss E. Collins of Ancaster, all of the Ontario Department of Agriculture, and all taking a great deal of interest in the competition, which was carried out with despatch. Twenty-nine girls took part in the senior and junior tests, coming from Peterborough, Warsaw, Indian River, Norwood, Lakefield, Keene and Ennismore. They were coached for

HAS HAND CRUSHED IN THRESHER DRIVE

C. F. Steenburgh Painfully Hurt While Working in S. Watson's Barn.

(Examiner Correspondence.

HAVELOCK, Sept. 13.—C. F. Steenburgh met with a painful accident while threshing on the farm of Samuel Watson on Monday afternoon when his left hand was caught in the chain drive of the feeder on the threshing machine. Three fingers were badly smashed and a bone in his wrist was chipped.

36 Lose Lives In Crossing Accidents

OTTAWA, Ont., September 13 (Canadian Press). — Thirty-six persons were killed in level crossing accidents during August, according to a return made yesterday by the Board of Railway Commissioners. Seventy persons were injured in similar mishaps. The total number of persons killed accidentally during the month was 68 and 294 injured. Out of 43 crossing accidents, automobiles were involved in 37 of them, resulting in 37 persons being killed and 68 injured.

LADIES' AID OPENS SEASON'S MEETINGS

George Street Ladies Hold First Session of Fall.

The first meeting of the Ladies' Aid of George Street United Church for the autumn season was held in the board room of the Sunday School Hall on Friday afternoon, with a very fair attendance.

The president, Mrs. C. E. Smith, presided. Devotional exercises were in charge of Mrs. T. Mather, and Mrs. Smith led in prayer. After the reports of the secretary and treasurer had been read and approved, the corresponding secretary, Miss Mary Elliott, read a number of letters. Miss Morrow reported for the Flower Committee and Mrs. Stubbs for the Sick and Visiting Committee, reporting twenty-four calls made.

Arrangements were also made for serving dinner at the meeting of the Presbytery, which is to be held in George Street United Church on September 25.

Mrs. G. Liddle rendered a pleasing vocal solo, and the meeting closed with prayer.

At a meeting of the executive of the W.M.S. held previous to the Ladies' Aid meeting, it was decided to hold the regular September meeting of the W.M.S. on Tuesday afternoon, September 18.

Mrs. C. Smith gave a very comprehensive report on behalf of the Executive and Social Committee of the 12th of July dinner which was given in the church. It was one of the most successful dinners ever given there. Miss Elliott reported on the get-together meeting of the Booth Committee for the Christmas fair and the arrangements for work to be done during the summer months.

It was decided to have the rally day meeting the first Tuesday in October, when refreshments will be served by the Social Committee.

Cavan

(Examiner Correspondence)

CAVAN, Sept. 12.—Mr. and Mrs. Albert Werry and Mr. and Mrs. Rupert Werry and family of Blackstock visited Miss Winona Cathcart on Sunday.

Among those from around here who attended the Toronto Exhibition last week were: J. S. Cathcart, Oscar McGill, Fred Hutchinson, Donald Tinney, Frank Harkness and Will Howden.

Mr. and Mrs. John Gow and family of Ennismore visited Cavan friends on Sunday.

Mr. and Mrs. Will Seymour spent the week-end with friends in Western Ontario.

Mrs. Ida Keegan has returned home after a few weeks' visit with friends in Peterborough.

Mrs. Will Tinney is visiting her daughter in Toronto.

Mrs. James Douglas attended the Toronto Exhibition last week.

DOURO TAX RATE IS 27.6 MILLS

School Taxes Are Additional To This Levy—Accounts Passed.

COLLECTOR APPOINTED.

The members of the Municipal Council of the Township of Douro met at the Town Hall, Douro, on Monday, Sept. 10. All the members were present.

The following municipal by-laws were passed: By-law No. 985, authorizing the levying and collecting, on the rateable property in the Township of Douro, a rate of 8.3 mills as a county tax; 1 mill as a House of Refuge tax; 5.9 mills as a highway and Provincial highway tax; 5 mills as a town ship road tax; 1.5 mills as a township tax; 5.9 mills as a general school tax, and trustees rates as per requisitions.

By-law No. 986, appointing Richard Sheehan collector of rates at a salary of $110.00.

On motion of T. J. FitzGerald and J. D. O'Shea, Frank Kennedy was allowed a rebate of $1.00 on dog tax.

The following accounts were passed: John Ryan, two sheep and two lambs killed by dogs, $54; H. Ingram, three sheep killed by dogs, $45; The Municipal World, supplies, $1.64; Examiner Printing Co., voters' lists, $90.97; notice re first posting of voters' lists, $4.20; J. B. Nelson, grant to Douro School Fair $20; Peterborough County Plowmen's Association, $10; F. D. Leahy, postage, $5; John McMurray, salary as weed inspector, $74; Workmen's Compensation Board, $18.45.

JOINT MEETING HELD AT CAVAN

Women's Missionary Society and Ladies' Aid of United Church Meet.

(Examiner Correspondence.)

CAVAN, Sept. 13.—A joint meeting of the W.M.S. and Ladies' Aid of Cavan United church was held at the home of Mrs. A. B. Kenndy on Thursday afternoon, Sept. 6. The president of the Aid opened the meeting with the usual devotional session. There were eleven members present and four visitors. This was the first meeting of the Aid since the month of June.

The principal business was planning and arranging for the annual Thanksgiving dinner and Sunday services preceding it. The final planning was left over to be completed at a business meeting called for Tuesday evening in Cavanville.

In the absence of the president of the W.M.S., Mrs. R. S. Staples, the vice-president, Mrs. H. Snider, conducted the meeting.

After the opening exercises and reading of the minutes the financial treasurer reported that there are eighteen paid up members and twenty-six dollars and four cents of our allocation to be raised before the end of the year. December.

The missionary subject for September was "The Indian."

The leaflets read were interesting and instructive.

Mrs. Snider read a splendid leaflet on the early days of those first inhabitants of our country. Mrs. J. W. Perrin read one on the habits of the Pacific Coast Indian. Mrs. Swain Indian trading and industrial schools. Mrs. Ray Syer pioneer work among the Indians of Saskatchewan and Manitoba. Mr. Carpetner on work among the Indians on the Pacific Coast, including residential schools supported partly by the government and partly by the W.M.S.

A collection of $1.25 was taken. The meeting closed by repeating the Lord's Prayer in unison. Lunch was then served.

CANADIAN CATTLE GO TO AUSTRALIA

Famous McGregor Herd To Supply Foundation Stock For Government Farm.

(Special to The Examiner.)

WINNIPEG, Man. Sept. 13.— The Australian government has just completed a deal for eighteen foundation heifers and two bulls from J. D. McGregor and Sons, the widely known Aberdeen Angus breeders of Brandon. The animals will be selected from Mr. McGregor's Gencarnock herd by the head herd-master of the Australian government and shipped by the Canadian Pacific Railway by way of Vancouver. This shipment apart from some pure bred dairy cattle to the Orient from British Columbia is probably the first exportation of pure bred cattle from Canada overseas.

BOMB FACTORY FOUND.

LISBON, Portugal, Sept. 12. — (Canadian Press.)— Government police to-day discovered a bomb factory in Beja, a town of South Portugal. Many bombs were seized and numerous arrests made.

BRIGHTON FAIR IS SUCCESSFUL

Early Morning Rain Clears Off in Time To Encourage Attendance.

RACES A FEATURE.

(Examiner Staff Correspondence.)

BRIGHTON, Sept. 13. — At the last minute the weather man relented to a certain extent and turned on the sun so that the Brighton Fair would not have to be slated for another date or cancelled entirly for the year, but the grounds were still damp and many of the people remained in their cars which they had parked at points of vantage on the grounds. There was a general feeling among many of the officials that the attendance was not as large as that of last year, but others believed that there was little difference if any. They took into consideration that a good percentage of the crowd was sitting in automobiles watching the races and various other attractions throughout the grounds. As the minutes passed the grounds became drier and the crowds began to move about with more freedom. Before they called it a day, the directors were justly able to say that the fair this year had been a success.

The number of exhibits in each of the classes was quite as large as could be expected and the standard of work produced was of a very high calibre. This year there was not the usual brilliant display of the new automobiles but there were a few on the grounds from nearby dealers who were able to arrive in the village after the rain ceased. Very noticeable on the grounds were the number of fine horses of various breeds, types and weights. At the northeast corner of the enclosure was a fine array of Jersey and Holstein cattle. Fine sheep were also shown as well as other animals from the farm. All were exceptionally fine specimens. The domestic exhibits were housed in a large marquee near the grand stand and attracted large crowds all during the afternoon. The flower display was extremely pretty and some of the blooms were rare specimens of perfection.

The grand stand was well filled for the feature event of the day, the trotting races. The track was heavy after the rain, and the drivers and owners of the horses were duly warned and cautioned. Art Phillips of Colborne and Mark Wade of Brighton were the principal judges, but there were several veterans of the track present in the stand. George Tice, Belleville, popular starter of the district made the men and horses toe the scratch when he stood with megaphone in one hand and

SEVERE STORM VISITS WARSAW

Animals Killed in the Fields and Telephone Wires Burned Out.

ROOTS WILL BENEFIT.

(Examiner Correspondence.)

WARSAW, Sept. 13.— Warsaw experienced one of the worst electric storms of the season on Monday evening. It began a few minutes after five o'clock and was quite steady for half an hour, though it did not stop then. Flash and crash seemed simultaneous many times, and the rain came in torrents. Late in the evening there was another electric storm, but not as severe, and during the night there was more rain. About eight o'clock no damage had been reported in the village, except that several telephone lines were burned out. Nor by noon on Tuesday was there any report of damage. However, by evening word came in that Mr. Little had lost some cattle, Louis Sullivan had lost two horses, a driver and a heavy one, William Miller lost two colts he had purchased in the spring, and Thomas McMurray one colt. The last three were found together dead under a tree, quite late in the afternoon.

Nearly every one who has cattle or horses out on pastures went to look for them on Tuesday and some who did not see them all searched again on Wednesday to make certain whether the missing ones are dead or alive.

A sap pail which stood on a platform where it received only rain drops had nearly four inches of water on Tuesday morning. Swamps and flats were filled.

The rain will do good, as the land was very hard. Corn, late roots and late buckwheat will all profit.

The Dummer Sunday School Association did not meet as planned on Monday evening.

YOUTH ATTEMPTS BANK HOLD-UP

Hits Manager Over Head With Hammer and Then Escapes.

QUEBEC Qut., September 13 (Canadian Press). — A young well-dressed man walked into the Levis branch of the Caisse d'Economie de Quebec yesterday and asked to see the manager. The latter, J. Masson, stepped up and asked the visitor what he could do for him. Without a word, the man pulled a hammer from beneath his coat and felled Masson with a heavy blow. A clerk, who witnessed the attack, yelled for help, and the intruder dashed out of the building and made his escape. It is thought that the young man was attempting a hold-up. Marson thing more serious.

CAN YOU FIND THE TWINS?

A rich man left a fortune to be divided equally between his twin nephews. When the news got out a number of false twins appeared and it is proving a hard matter to find the real ones. Many of the false twins look almost like the real ones, but some difference in the hat-band, the tie or buttons shows them up as fakers. Only two are exactly alike. If you think you have found them send in your answer at once. It may win a large sum of money for you.

YOU DO NOT HAVE TO SELL ANYTHING NOR WILL YOU BE ASKED TO SOLICIT ORDER OR SUBSCRIPTIONS

Mail your answer today. You will be immediately notified how well you have done. Someone who is clever enough to solve this puzzle correctly is going to win a large sum of money.
Why not you?

OFFICIAL RULES OF THE CONTEST

1. Write the number of the two twins you think are alike on a sheet of square paper, using pen and ink—your name and address in upper right hand corner, also name of paper.
2. Competitors must be over fifteen years of age.
3. No one connected with Company will be allowed to compete.
4. In case of ties the prizes will not be split up but the tied entries will be judged by a committee of judges and general appearance will be the deciding factor.
5. The Judging Committee will consist of three impartial gentlemen in no way connected with this Company. Their ruling and decisions will be considered final.

THURSDAY, SEPTEMBER 13, 1928

NO TRADE WITH THE SOVIET.

If the red element in Canada had any hope of winning over Canadian labor it must have been completely killed by the attitude displayed by the Canadian Trades and Labor Congress.

The action of that body in refusing admission to a Communist who had been elected a delegate was a jolt to the Reds, but the latter have been knocked out completely as the result of the refusal of Congress to pass a resolution calling upon the Canadian Government to resume trade relations with the Soviet administration.

This effort to re-establish commercial relations with Russia was defeated by an overwhelming majority of the delegates present.

Obviously the attempt was made in order that it might appear that Canadian labor was in sympathy with the aims of the Soviet, and the convention refused to be placed in such a position in the eyes of the world.

Labor in Canada is sane and sound, and the Communists, although noisy enough, have little chance of making any serious impression upon the workers of this country.

Despite this week's reverses, they will keep on trying, but they must realize that they are leading a forlorn hope.

A HALF-BILLION BUSHEL CROP.

So much has been heard recently of the troubles of some of the British miners who came to Western Canada as harvesters that we are in danger of missing the news that really matters, and that is, that Canada is harvesting the largest wheat crop ever raised in this country.

The Dominion Bureau of Statistics estimates the yield at 550,482,000 bushels.

That means that for the first time in Canada's history the wheat crop has passed the half-billion mark.

And the good news is not confined entirely to the wheat yield.

Canadian barley shows the greatest crop on record, a total of1 44,875,000 bushels, as compared with 100,000,000 bushels, the biggest crop up to this year.

The oat crop, too, while not achieving a record, will reach a total of 474,242,000 bushels, a figure much better than the average of recent years.

These figures make great reading for the Canadian people, and more than that, they mean general prosperity throughout the Dominion.

A half-billion wheat crop has been reached at last, and the achievement means much to all parts of Canada.

PUT IT OVER THE TOP.

The fact that the weather conditions have been far from kindly to the Peterborough Industrial Exhibition and that the rain has seriously interfered with the attendance up to the present stage, is a challenge to the people of Peterborough and district.

If they do their part and rally behind the Exhibition, there is still time to score a new attendance record.

The two best days of the Exhibition program are coming.

To-morrow and Saturday will be crammed full of interesting events, vaudeville, Cervonne's Band, the jumping horses, great horse racing, and other features that deserve capacity crowds.

Given good weather there is every reason to believe that the people of the city and countryside will respond to the appeal of this great program, and give the Exhibition the largest two-day attendance in its history.

The disagreeable conditions during the first part of the week have made it necessary that the community should come to the rescue now, and by record patronage to-morrow and Saturday give the Peterborough Industrial a new mark to shoot at and encouragement to plan a greater fair for 1929.

OVERDOING THE STUNTS.

The warning that the Canadian National Exhibition has been given by the Globe to "beware the midway mind," is one that the management of the Canadian National would do well to heed.

There is a very real danger that sensational features such as the marathon swim may do lasting damage to the reputation of the great institution of which the people of Ontario have been so proud.

The Exhibition did not come to its present greatness through circus "stunts," and admitting that the swimming contest was responsible for bringing this year's attendance to record proportions, there is no reason to feel confident that any permanent benefit can follow from a patronage created in such a manner.

To depend upon "stunts" to attract crowds is to bring about a situation in which it will be necessary each year to adopt a more sensational program in order to appease a public appetite jaded through an overdose of such things.

There is a place for sport and entertainment in Exhibition programs, but when such a spectacle as the recent marathon crowds every other feature into the background, the C.N.E. management might well stop and reflect as to where it is going.

LEAVES NAUSEOUS TASTE.

St. Catharines Standard: Nothing under the name of sport, not even despised prize-fighting or crooked horse-racing, has left such a nauseous taste with the public as that following the Wrigley swimming marathon at Toronto on Wednesday.

Toronto "the Good," which stopped any dancing marathon, subjected a number of healthy, normally mental athletes to a test which could only be forgiven in the stress of the war. It was cruelty to keep any one in the waters of Lake Ontario on Wednesday last in such a Spartan contest. There were days, which we read from the ancient civilization, when men fought with beasts. We deplore in our more effete days the spirit of cruelty which prompted these events. And yet, have we improved much on the ancients? The crowd roars when one fighter brings gore from his opponent. The Toronto crowds, millions in fact, on the radio, roared when they heard of the guards taking unconscious men from the water. Have we not progressed past the brute stage of human endeavor?

And it must be conceded that the Frenchman has some just complaint. He remained in cold-storage nine hours longer than another participant, and will receive $2,500, the same as Norman Ross of Chicago. This also leaves rather a depressing feeling about the whole business.

The Toronto managers of the Canadian National Exhibition would be well advised to stop all this swimming barbarity. Not even the public of Toronto approves of it, while the people in the rest of the Province abhor such business, conducted under the name of sport, as that consummated on Wednesday last.

THE QUESTION MARK.

The Government at Washington may not like the Government of Russia, but a little thing like that doesn't prevent the United States from accepting many millions in mercantile orders from the land where the Soviets rule.

Mr. Saul Bron, chairman of the Amtorg Corporation, the agency for trading between Russia and the United States, arrived in New York a day or two ago from abroad and announced that his organization will spend $40,000,000 in the States for automobile trucks, tractors and machinery for refining oil. He added that in the last year Russia had laid out $128,000,000 in the American Republic, which is $48,000,000 more than the business of the preceding twelvemonth.

Russia is the world's question mark. Here is a nation spending $128,000,000 in the United States in a single year—and countless sums in our markets of supply—and yet, diplomatically, its Government is cut off from the leading powers and the world at large knows little of what is going on within the country or what the future holds in store.

The revolution that overturned the Romanoff dynasty and the second revolt that brought Lenin and Trotzky into power, were not regarded very seriously at the time they took place. That is to say, many persons believed that the country would return to monarchy or, in the second instance, that the rule of the strange school, labelled Bolshevik, would be brief, even if bloody. Things have not worked out this way. Year after year has passed by. Lenin, master mind of the movement, is dead. Trotzky, his assistant, is in exile. But the movement survives and apparently it is as strong as ever, perhaps stronger. A world that waited for the early collapse of Bolshevism in Russia is still waiting and there are few signs of the climax most of us expected.—Border Cities Star.

A TRAGIC QUESTION.

How closely tragedy stalks on happiness! For many days a Toronto family by the name of Klianman had been planning to attend the Exhibition. The anticipation was a joyous thing, especially to the four children. The visit to the fair promised to be a red letter day in their young lives. It seemed as if the day would never come. Time didn't fly; it crawled with leaden feet. But though a day seemed an age, and a week eternity, the time drew finally near when they should have their wish granted and see the fair.

As the eventful day approached, their joyous expectancy increased. It was a happy little family with the prospect of the fair before them. Other families might have more money, more comfortable homes, more ideal surroundings than did this family which lived over a store. But none could get greater pleasure from anticipation. Pleasurable anticipation is something that all, or nearly all, may experience, and this, as a compensation, seems to be greater where the deprivations of life press the hardest.

It is well that this Klianman family experienced fully the joys of anticipation, for this, unfortunately, was all that they experienced. In the midst of their glad planning and anticipating, death, the enemy of joy, invaded the home. One night, as the family slept, flames swept their little home, cutting the Exhibition attendance by five. The sight-seeing days of father, mother and three children were over, for they were dead. One alone remains, a boy of eight, but he may yet join the rest of the family, for his hold on life is precarious. In addition to the injuries he received in the fire, pneumonia has set in and his devoted attendants are waging a brave battle for life, with the odds slightly in favor of the Grim Reaper.

Apparently, and happily so, he does not realize the seriousness of his condition, and has repeatedly asked, during the past few days: "Why doesn't 'mummy' come to take me to the Exhibition?" What tragedy is contained in that question! It is enough to make the heart of the most heartless ache. Death has answered the question, but, mercifully, he does not yet know the answer. If he lives he will know it some unhappy day, and may the blow fall as lightly as it is possible for such a blow to fall.

This little lad's question shows with what joy he had looked forward to having his "mummy" take him to the Exhibition. There are few cancelled pleasures, fortunately, that have the tragic setting that this one has. But it might easily happen in many other families. If the Klianman family had been told that five of them would never see the Exhibition they had planned so much to see, they would probably have laughed at the prophets of evil. No one knows when a family may be decimated. Death, always on one's track, may be just around the corner.

It, therefore, behooves families to make the most of the passing days, spending them in happy association, anticipating and participating in those domestic joys which make the home the dearest spot on earth.—St. Thomas Times-Journal.

EDITORIAL NOTES AND COMMENT.

Make it 45,000.

Snow is reported north of Cobalt. It won't be long now.

The Globe suggests that the Fish Committee which has been visiting Eastern Ontario has made a note of the addresses of the best bass. But will they make the report public?

Fall fairs do much to correct the impression that the horse is becoming extinct.

Kingston's Exhibition was opened by Tommy Church, M.P., but so far as has been reported he didn't advise the Kingston management to stage a swimming marathon.

The Peterborough Industrial can still be put over the top. A record attendance to-morrow and Saturday will turn the trick.

Two motorists who drove too fast over intersections have been fined. The other 998 who do this kind of thing daily had better be careful in future.

The Question Box

C.M.G. Q.—How many Homestead entries were made in 1926?

A.—Homestead entries in Western Canada in 1926 were approximately 60 per cent greater than in 1925, amounting to 6,106 against 3,821 in the previous year. New entries in Saskatchewan totalled 2,807 as compared with 1,903 in 1925; in Alberta 2,212 as against 1,371; in Manitoba 951 as against 420 and in British Columbia 136 as compared with 127.

* * *

C.M.G., Q. — What was Canada's flour milling production in 1926?

A.—There was produced in Canada in 1926, 18,965,368 barrels of flour, of which 10,456,916 barrels were exported. This production was obtained through the grinding of 85,316,163 bushels of wheat. The volume of production reached its peak level during the month of October, with a total of 2,231,028 barrels, while the smallest productive month of the twelve was August with an outturn of 1,044,102 barrels. The average monthly production throughout the year was 1,580,447 barrels.

GOD'S MINUTE.

Hear, O Lord, when I cry with my voice: have mercy also upon me, and answer me. When Thou saidst Seek ye my face; my heart said unto Thee, Thy face, Lord, will I seek. Hide not Thy face far from me; put not Thy servant away in anger: Thou hast been my help; leave me not, neither forsake me, O God of my salvation. When my father and my mother forsake me, then the Lord will take me up. Teach me Thy way, O Lord, and lead me in a plain path, because of mine enemies.—Ps. 27: 7, 11.

* * *

We bow humbly before Thee, O Lord, our Father, and render to Thee our praises for all Thy loving-kindness and tender mercy toward us. All that we have and are and hope, we owe to Thy goodness. We humbly beseech Thee to forgive our sins, and cleanse us from every stain of iniquity. Help us to walk before Thee blameless, resisting every temptation, and faithfully performing every duty which

A Thought

GIVING.

Some men give so that you are angry every time you ask them to contribute; they give so that their gold and silver shoot you like a bullet. Other persons give with such beauty that you may remember it as long as you live; and say, "It is a pleasure to go to such men." There are some men that give as springs do; whether you go to them or not, they are always full; and your part is merely to put your dish under the everflowing stream. Others give just as a pump does when the well is dry, and the pump leaks.—H. W. Beecher.

District Churches

WOOLER UNITED CHURCH.

(Examiner Correspondence)

WOOLER, Sept. 12.—Morning service in United Church was conducted by the pastor, Rev. H. B. Neal. A vocal duet was sung by C. F. Wessels and Clifford Rogers. Repsonsive reading was Psalm 46. The subject of the message was, "The Home of Martha and Mary."

In the evening the Trenton-Wooler band played sacred hymns and vocal solos and duets, which assisted the pastor in his message, "The Place of Music in Our Lives and the Christian Churches."

LAD DROWNED IN FRENCH RIVER

PARRY SOUND, Ont., September 11. — The five-year-old son of Gordon Elder, French River, was drowned on Sunday morning within fifteen feet of the dock at that place. The father and two boys, aged three and five, were starting out for a picnic on a motor boat. Soon after the engine started the boat tipped and began to fill with water. Elder jumped out and attempted to push the boat to shore, but it overturned and he was able to rescue only the younger boy. The body of the lad was recovered in about 20 minutes, but all efforts to revive him were in vain.

CATTLE, GRAIN AND PRODUCE

TORONTO LIVESTOCK.

TORONTO, September 13. — With six hundred cattle from Tuesday, market opened slow. Prices did not recede, but feeling was not the same as for the first two days in the week.

All choice steers and heifers were picked up at steady prices, leaving the poorer classes to the last, with lower bids.

Quality of the cattle was not very good and buyers' preference was shown for the better finished cattle.

Baby beeves were steady, with very few for sale.

Cows weer brisker than other classes. Choice light butcher cows brought $8.50 to $9.00, with some extra quality beasts higher.

The trade on bulls held steady with no change in prices. Some bologna bulls were sold as high as $7.00.

There was a little more activity for the choice springers. The common are slow.

Active trade at steady prices prevailed on calves. The bulk of the run sold at 15½c to 16½c. A few sold at 17c, but were extra choice.

Yearling sheep are turned over at 9c to 10c.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Que., September 13 (Canadian Press). — There was no change yesterday in the domestic market for car lots of grain, prices for all lines being maintained with a moderate amount of business passing with country buyers.

A moderate amount of business was reported in the spring wheat flour export market chiefly with continental buyers for deferred shipment.

The millfeed market was fairly active, with prices unchanged.

A fair amount of businss was done in eggs yesterday in a jobbing way, with a steady demand from grocers and other dealers. Prices remained unchanged. Receipts were 931 cases.

The volume of butter business showed no improvement and the market was quiet. Prices were unchanged. Receipts amounted to 47 packages.

Cheese prices were reduced ¼ cent to ½ cent per pound for Western grades and ⅛ cent to ¼ cent for Eastern grades yesterday, as a result of continued lack of interest shown by British importers. At the lower level there was an improved demand from spot operators and a moderately active business was transacted. The receipts were 5,875 boxes.

CHICAGO GRAIN

CHICAGO, September 13 (Canadian Press). — Like the celebrated maneuver of the French king's army, wheat prices marched right down the hill yesterday, and then marched up again. Commission houses and previous speculative sellers of wheat turned to the buying side when values failed to establish a new low record for the season despite official figures, indicating a North American surplus big enough to allow 2,000,000 bushels export every day in the year. Reports of near famine in the Ukraine district of Russia were a bullish influence.

Closing quotations on wheat were nervous at the same as Tuesday's finish to ⅝c higher, with corn at ⅛c decline to 1⅜c advance, oats ⅛c to ¼c off to ⅝c up, and provisions varying from 5c setback to a rise of 2c.

According to some authorities, the Canadian Government crop report, although pointing to the largest yield of wheat ever known in Canada was not bearish as many traders had looked for. Some predictions of late having been for a total about 35,000,000 bus. in excess of the official figures. However, with the Canadian Government forecast 110,000,000 bus. over last year's harvest, selling pressure enough developed here to carry the market down to within ⅛c of the lowest price which December delivery had reached yet this season. Then

Her Baby Wakes up Laughing and Cooing

"I started using Eagle Brand for my five months old baby two months ago. Now she wakes up laughing and cooing and is more than satisfied. No more getting up nights, as she gets only one bottle, going to bed, and no more till 7 a.m. She won a third prize at a recent baby show and I know Eagle Brand helped her to win. She weighed 6 lbs. at birth but is now over 13 lbs. If any mother would like me to tell her about Eagle Brand I would be pleased to do so. I only wish I had known about it sooner as it cannot be too highly recommended".

"Mrs. W. J. P.,
Ontario."

RECORD ENTRY FOR JUDGING AT EXHIBITION

More Than Sixty Young Men Take Part in Annual Competition.

DEMONSTRATIONS GIVEN.

Agricultural Representatives Point Out Good Points of Animals—Minister To Give Prizes.

The largest entry in the history of the Peterborough Exhibition was received for the boy's Judging competitions held on Wednesday at the Exhibition grounds. There were over sixty entered, from twelve up to twenty-six years of age. This passed the objective that was set at the beginning of the year by the executive.

Starting at nine o'clock, the competitions were not finished until long after noon. Judging took place in the following classes: beef cows, dairy cows, heavy horses, sheep, pigs and production poultry.

The judges were Walter Smith, agricultural representative at Brighton; J. Y. Kellough, representative at Port Hope; M. H. Winter, representative at Lindsay and Gerald Phillips, a sophomore student from the O.A.C. at Guelph.

The judging of the cattle and horses took place in the ring at the agricultural tent while the sheep and hogs were judged at the pens. The boys returned to near the tent again to judge the poultry.

Before the judging commenced G. A. Gillespie and His Worship Mayor Roland Denne, spoke to the assembled boys. Mr. Gillespie spoke of his pleasure at seeing such a large class and stated that it was one of the finest educational features of the whole fair." Judging teaches," he continued, "why one animal is better than another. Farming and cattle raising is the greatest industry in Canada and Ontario especially. There is no bigger plant than a farm. There is much to learn and that is scientifically of interest."

His Worship the Mayor spoke:—"We are trying to make this an educational fair and no taxpayer can say that we have not spent their money to the best of advantage. It is good to make good on the farm. Wages in the city look bug but there are young fellows in the city who are ready to take any kind of a job and to be any person's slave. On the farm you are your own boss, but science is as necessary as in any industry.

"Thirty eight men, not fair directors, went to Toronto to get a grant for this exhibition and we are on our note personally for a large amount. The Honorable John G. Martin will meet us on Wednesday and distribute the prizes and I want you all to meet him and when he sees the large number it will make a good impression on him. We have the best farming county in Ontario and it is up to you. Mr. Nelson is in his office and through him you can get any kind of help on the farm that you want. All you have to do is ask for it. Keep Mr. Nelson so busy that he will need an assistant. I want you all here on Thursday afternoon about 2:00 o'clock to meet Mr. Martin; he will present the prizes."

Beef Cattle

The first class to be judged was the beef cattle loaned by Mr. Skuce. Mr. Nelson went over a demonstration cow before the others were brought out." Cows are of two types which are as far apart as possible" he said. "They are of different shapes for different purposes. In beef cattle you want meat, as much as possible. They want to be thick set, short of leg and blocky. The most valuable meat is over the hind quarters, over the loin. It is also necessary to have a good engine, heart and lungs, shown by the depth of the heart."

The contestants then took the cards with which they were supplied and proceeded to check on them the cows they thought were the best and to put the four cows in order of merit according to their estimation. All the contestants are identified only by numbers. After dinner they had to give the oral reasons for their classification, on which 50 per cent of their marks are based, consequently many took notes. It appeared harder to them than the taking of a school examination. They were allowed twenty minutes for their classification and two minutes for their oral reasons.

Dairy Cattle

The next class to be examined was the dairy cows, which Mr. Kellough handled. The cows must be of a dairy type with the general outline and a dairy temperament and a proper confirmation. The hair demonstrates the quality. Note the udder, milk wells, and veins, constitution and capacity. The triple wedge, loin, depth of heart, spring of rib, and the hook to pin bone are important. The skin should be loose and pliable and one should be able to insert two or three fingers between the last ribs. The milk well should be large and the veins long and winding, while there should be a good udder with four teats well placed. The head should be clean cut with a large muzzle and clear eye. The cow should be of a good size."

Mr. Smith demonstrated the heavy horses, which were kindly loaned by Steinkraus and McKnight for demonstration and class purposes. Size, substance, as much quality as possible with proper confirmation for moving heavy loads is important as well as endurance and action.

Hogs

D. McKinnon, government inspector at the C.P.C., demonstrated the hogs. "Not too much can be told by handling" he said. "Stand ten to twelve feet away and take a view of the animal from all angles. The side view gives the depth and length, the front, the head, snout and shoulders, from behind, ham, top, line and arch of the back are seen. A bacon hog should show the characteristics of the breed. The ears should be erect, neck blended well into the shoulder, shoulder well covered and smooth, blending well with the side of the hog. The side should be long with a good spring of rib dropping straight. The ham should be full and the loin well filled out as the dearer parts of the meat are found here. The quality of the animal can be told by the hair. Coarse hair denotes a lack of constitution. The animal should be long of leg and walk without a wabble. The bone should also be sharp and flinty with a good top line, having about 1½ inches of fat along this line.

M. H. Winter demonstrated the sheep which belonged to H. Skinner of Tyrone. Shropshire sheep were shown. Pointed out the fine wool, confirmation of outline, good leg of mutton, loin and back similar in some respects to be judged as beef cattle.

Poultry

J. B. Nelson pointed out the good quality of the demonstration hen. These are more difficult than the sheep and cattle and swine but show features are not to be considered. The judging points are much the same as for stock. A large quantity of eggs, regularly, strength and constitution, size of the front over the heart, a flat and wide shape which is carried well out to the tail and hip bones were the points he made. Capacity can be told from the color of the back, legs and size of the vent.

This finisher the practical side of it so the contestants and the girls all went to the agricultural ten where basket lunches were opened. After lunch J. A. Carrol, assistant director from Toronto, spoke a few words to the boys and girls present. This line of thought was along junior and senior farm and institue work, stressing organization and the work as a starter for young people in the future. Economic and social aspects are to be considered. Farming is now in competition with the rest of the world and Canadian farmers must be the best. One cannot live by standards alone and social conditions in the country must be equal to any others in order to keep the people there. He then offered many suggestions to help the work and stressed the necessity of a definite program, after which he gave illustrations of the work carried on by other branches.

FALLS INTO CANAL AT HEALEY FALLS

(Continued from Page 1.)

had a strange attraction for the boy, and he spent many hours playing in it each day. It was to it that the mother sent him and there she expected he would remain as he usuwhen she looked again about eleven.

Returning from his work at the dam, the father was notified and at once set off to inquire of the neighbors where the lad might be. All the while, he said, he felt that he was looking in vain, that the boy was in the river.

Earl Greenly of the Hydro-Electric Power Commission, employed at the Healey Falls plant, and Thomas Greenly, his guest from Toronto, began to search the canal with pike poles when grappling irons were not immediately forthcoming. At twenty minutes past three their efforts were rewarded. The spot where the body was recovered is about eighty yards from the house and on the opposite side of the swing bridge across the canal. At this particular point, the concrete wall takes a sharp curve and this gave rise to the theory that the little fellow was watching over his shoulder expecting to be caught out of bounds and called back. Thus he did not notice the curve and simply stepped off into the deep water. Although the weather was fine during the late morning, no one heard any outcry.

Robert Edward Dutton, deceased, is survived by his parents, four brothers: Thomas of Toronto, Jack of Mount Clements, Mich., Alfred at home and Donald, age two years. He had also one sister, Lydia, at home. To them is extended the sympathy of the entire community.

Last night the roads were wet and greasy, full of water holes and more than a little dangerous, and a dense fog shrouded the river and surrounding district. At intervals vivid lightning flashed through the gloom, but in spite of the adverse weather and road conditions, there was an almost continual string of motor cars along the usually slightly travelled road leading from the main highway to the Dutton home at Lock Fifteen, bearing friends of the bereaved family, desirous of expressing their sincere sympathy. The whole affair becomes all the more tragic when it is recalled that this is the first fatality of the kind in this section this season.

PRIZE WINNERS ANNOUNCED

Continued from page 1.

the commpetition by Miss J. Hopkins of Lindsay.

The ladies in charge reported a great increase in interest over last year, also reporting excellent reasons given by the girls for their judgments, particularly in the nutrition classes.

Winners in the Senior Section were as follows:

Nutrition: (1) Helen Tedford, R.R. No. 2, Indian River; (2) Marjorie Frankish, R.R. No. 2, Lakefield; (3) Ivy Petrie, R.R. No. 8, Peterborough; (4) May Petrie, R.R. No .8, Peterborough; (5) Pearl Mullen, R.R. No. 4, Peterborough; (6) Mary Middleton, R.R. No .2, Peterborough.

Senior Home Furnishings: (13 Evelyn McMurray, R. R. No. 2, Lakefield; (2) Evelyn Mason, R. R. No. 3, Peterborough; (3) Florence Burgess, Norwood; (4) Edna Frankish, R. R. No. 2, Lakefield; (5) Eulah Hancock, R. R. No. 2, Peterborough; (6) Dorothy Tully, R. R. No. 4, Peterborough.

Senior Clothing: (1) Annabelle Carlow, R. R. No. 2, Indian River; (2) Viola Wilson, R. R. No. 3, Keene; (3) Mrs. Wm. Floyd, R. R. No. 1, Warsaw; (4) Anna Lynch, R. R. No. 8, Peterborough; (5) Ethel Collins, R. R. No. 2, Keene; (6) Nellie Hunter, R. R. No. 3, Keene.

Winners in the Junior Section were:

Nutrition: (1) Anna McMurray, R. R. No. 4, Lakefield; (2) Rosetta Frankish, R. R. No. 2, Lakefield; (3) Julia Leahy, R. R. No .2, Indian River.

Junior Wardrobe: (1) Mabel Mullen, R. R. No .4, Peterborough; (2) Dora Tedford, Warsaw; (3) Lois McNaughton, Young's Point; (4) Mildred Harrison, R. R. No. 4, Peterborough.

Junior House Furnishing: (1) Rita McMurray, R. R. No. 4, Lakefield; (2) Florence Tedford, Warsaw; (3) Mary Rose, Warsaw; (4) Lillian Mason, R. R. No. 3, Peterborough.

BRIGHTON FAIR IS SUCCESSFUL

(Continued from Page 1)

the bell in the other. During the afternoon he admitted making but one error.

That was when he called to a group of women to "Let us have the track." There was no doubt but that he meant to have the track vacated by the ladies who were walking across just as he was doing his best to get the horses to come down together. But the person he had addressed was Mrs. Tice. Her husband had not recognized her at the distance. She turned and appeared to smile.

"I'll hear about that," said Tice with a smile, as he again directed his attention to the fast horses. "That is my wife."

The free-for-all race drew four entries, Final Direction, owned and driven by Walters of Port Hope, winning the first money with three firsts and a third in the four heats. Her time was 2.34¼. Leo Stewart, a Frankford-owned horse, driven by Sullivan, came in for the second prize with one first and three seconds. The third money went to Doris Patch, owned and driven by Sutherland, of Peterborough. Hal Direct also ran. He scored three fourth places and one third. The latter was the first heat.

In the two-fifty class there was a surprise for some of the fans of the track. Race horses can not always be told by the vehicles they draw or the colors worn by their drivers. Maudie D., owned and driven by Cobbledick of Warkworth, won three firsts and one second with an old-fashioned wooden-wheeled sulky. The driver was not arrayed in any colors, but wore an ordinary light colored shirt and a peak cap. Lucky Lena, owned and driven by Joe Vasseau, of Trenton, came in for second money with one first and three seconds. Peter Rythmie was the third horse, and scored four thirds. The time for the mile was 2-fifty-two.

To the novice, there is nothing more or less to driving a horse than just to guide him by pulling one or other of the reins. Horsemen know better than that. So to the novice, there is nothing much to starting a trotting race other than to shout "G-o-o-o" as the horses sweep by the stand and under the wire. But George Tice of Belleville knows better. Time and again he sent the field back and coached them as they went. Frequently they would not listen to his words, shouted through a megaphone, and came down in a ragged line. It would not do. Tice sent them back and kept on sending them back till they did it properly. Then there was the starter's "G-o-o-o!" shouted at them as they thundered past and not the tinkle of the bell and Tice's voice calling "It won't do. I won't stand for it. Go back and wait for the bay horse."

Luck was a good partner to take down the midway. There were blankets and all manner of curious things to be procured for a small expenditure, provided the investor was accompanied by luck. Medicine men managed to collect crowds wherever they pitched their tents. While one man sold one remedy for all diseases another sold something else which he claimed was equally good. A little entertainment on the side helped business along. Taffy pullers were another feature of the day. Rarely does the average fair goer have the opportunity of watching a master of the art. They snapped, cracked, and twisted the golden elastic substance and finally pulled it out in sticks for sale at the usual prices.

All factors considered, the fair was a complete success and the day was fittingly terminated by Arlie Marks and her players in the Opera House in the evening.

All-Electric
(No Batteries)

Exceptional Power—Remarkably Selective—Rich Pure Tone—Exquisite Cabinet Work

This Kolster model offers unsurpassed value. All-Electric (no batteries) with the famous standard Kolster features of mechanical precision and unretouched reproduction of tone.

Reasonable in price—easy to buy—a model you'll be proud to own. To-day, see this Kolster model—hear it—on display at the store of your Kolster Dealer.

70 feels like 20

"I have found a New Life"

What does age matter if you're feeling young? You'll never feel old till you feel ill. Take Kruschen and you can laugh at the calendar. Here is an example:—

"I am seventy years of age, and for several years I suffered from every possible thing, above all lack of appetite, sickness day and night, faintness and giddiness. For about four weeks I have been taking your Kruschen Salts every morning. Would you like to know how I feel now? Exactly as if I were 20 years of age! Everything has been brought about in this short space of time; good appetite for every meal, joie de vivre, such energy as I have never had before in all my existence, physical agility. I could run against any person 20 years of age; in fact, it is exactly as if in one month I had found a new life."—Madam S. of D.

Original letter on file for inspection.

Kruschen is a perfect blend of those six natural salts which are vital to your bodily well being. The analysis is on the bottle. There are sodium and magnesium to clear away the waste matter that clogs your system and poisons your blood. To feed your tissues, there's the tonic potassium. The daily dose of Kruschen will keep you in constant good health. Buy a bottle to-day and start a new life to-morrow.

Kruschen Salts

At Drug and Dept. Stores at 75c. a bottle. Manufactured by E. Griffiths Hughes, Ltd., Manchester, England (Estab. 1756). Importers: McGillivray Bros., Ltd., Toronto.

Campbellford

(Examiner Staff Correspondence).

CAMPBELLFORD, Sept. 13. — Mr. Walter Morton, Toronto, is visiting his mother, Mrs. Mary Morton, of Ranney Street.

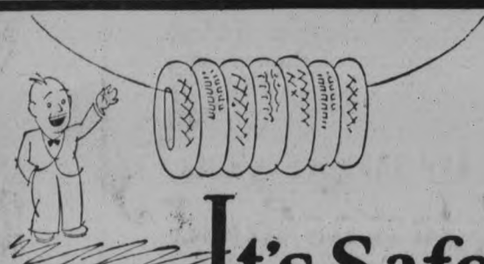
Mr. and Mrs. N. Gaffield, Castleton, are visiting Mr. and Mrs. J. Ross MacLaren and other friends in town.

The Keller Millinery will be re-opened Saturday with a complete new line for the fall and winter.

Non-Stop Race Starts.

ROOSEVELT FIELD, N. Y., Sept. 12. — Canadian Press. — The trans-continental non-stop air race to Los Angeles got under way to-day, Clifford McMillan being the first to take to the air.

Joe Sewell, the Cleveland shortstop, has played in 876 consecutive games without a miss during the last five years.



It's Safe to Buy Any Tire in This Line

WE can give you lots of choice in tires—lots of sizes, a range of prices, different tread designs. But every one of them is a *safe investment*—because every one is built by *Goodyear*. That means *value*. It means SUPERTWIST Cords in every tire. And it means the lowest possible price for the quality.

NOVEL ATTRACTIONS SEEN AT EXHIBITION MIDWAY

Many Interesting Shows and Rides Provide Entertainment For Patrons.

NEW FERRIS WHEEL.

Capt. Earl Kitening's Autodrome Proves Greatest Thriller on Grounds.

The midway—a blaze of color—a jostling crowd, games, fun, noise, music, barkers and all that goes to make it the most interesting place at the Peterborough Exhibition for the fun lover, is on hand. A great variety of shows tempts the passers-by, where the barkers with their luring tales of mysteries and daring stunts prove too much for the ordinary spectator.

Tiny horses are shown which are one of the many curiosities, one is from North-West Canada, another from Portland, Oregon, another from Seattle, Washington, and one is 18 months old that weighs only twenty-five pounds is from North-West Texas and is a thoroughbred Indian pony. So small are two of these horses that they can be put in suit cases. All their shoes are so small that they fit perfectly about an American silver dollar.

Bobbis is a freak of naure from Peterborough County, and is a beautiful white pony, born in May, 1927, but has his head turned entirely around with his eyes in the back. Outside of that he is perfectly normal.

Circus Side Show.

The circus side show is always a place that every curious person investigates. Here will be found Alfred, the Alligator Skin boy; Hajo, the bear boy; Duke Ross and his married midgets; Madame Leona-Hososcope, interpreter; the famous Thor girl with five deaths, and the ever popular Norman glass blowers.

Perhaps one of the outstanding shows on the grounds for the lovers of the jazz age is the Minstrel Show that is a typical show, all the performers being colored and with all the banter of a show of that type. There are featured in this show, Black Bottom and Charlston dancers, blues singers with the outstanding Slick and Brothers dancers; Johnny Walker, Pork Chop comedian, a big chorus, and a red hot jazz band that shoot the blues away when they play "Are You Happy?" "Blue Boy," and the ever famous burning "St. Louis Blues."

The man who went over Niagara Falls in a rubber ball is on exhibition. Jean Lussier, who performed the feat, will tell persons of the act of daring.

The Girl show of the midway this year is The Broadway Show, which is a popular musical revue featuring Amorita, the Egyptian wonder, and Handa Ben Mohamaden of Egypt, who is the well-known show giri-man. There is also with this show a troupe of singers, musicians and entertainers who are on a par with anything that is presented on vaudeville circuits.

Many a person gets lost on the Fair Grounds when they enter Funland, which is a maze of mirrors and plate glasses.

Monkey Speedway.

The Monkey Speedway, always an attraction when the horse races are finished, and for the youngsters who have a real good time betting on the winner as they drive their high-power cars around the track, also get a real thrill when the star of the show comes rushing down the incline and loops the loop without even as much as a squeal.

The greatest thriller on the grounds is the autodrome. Captain Earl Kitering, the foremost rider in fancy motorcycle stunts, makes the spectators hold their breath. A novelty is introduced in this act which is not seen in the ordinary motorcycle shows when he lets loose a lion in the bowl and rides around; again when he rides in his tiny powerful car with a bear for a passenger, a regular black bear, born in the Canadian Rockies. With him is Buster, the mile-a-minute girl, who suffered a slight accident the other day while driving up from Quebec, but who rode to-day and is riding to-night and is as fit as a fiddle. The Ride of Death is a breath-raker when the motor cycles race around the red line along the wall, which is only eight inches from the top of the bowl. Most of Captain Kitering's riding is free style, without the use of his handlebars. He thrills the spectators by riding backwards sitting on the handlebars, and with his hands extended. Another famous stunt is to the Australian snake ride, which he weaves in and out free of hands from the handlebars.

Fun on the Farm and No Man's Land are other attractions on the grounds. Then there is the Freak Animal show with three-legged calves, two-tailed cows, a half zebra and half donkey exhibit, a six-legged dog, and many others.

Popular Fun Show.

Through the Rapids seems to be the most attractive fun show on the grounds, when shreiks of laughter can be heard from the minute that the thrill-seekers enter until they are spilled out on the long rolling waves and over the falls for the climax. This was about the most popular place on Children's Day.

The merry-go-round does the regular thriving business, the whip still has a thrill for many, while an innovation is seen this year in the Ferris wheel, where gondolas are substituted for the ordinary rocking cars. The flier, in a small suspended seat, which is thrown high and wide over the crowd, is a new thrill that many wish to experience and alight from, feeling quite shaky but who are always ready to go back.

Games galore for the man with the "take a chance" frame of mind where practically everything is offered as a valuable prize. Hot dog stands, foamy candy, a regular restaurant, a camera man, ice cream sandwiches, a balloon seller and what not, is to be seen on the grounds of the big show.

The Greater Sheesley Shows are responsible for the attractive midway, and it is one of the best that have ever visited Peterborough.

EXHIBITION JUDGES

George H. Muir, B.S.A., Central Experimental Farm, Ottawa—Dairy cattle.

George Rathley, B.S.A., farm superintendent, Guelph—Beef cattle.

Mr. Harding, Thorndale—Sheep and swine.

D. D. Gray, farmer superintendent, Central Ontario Experimental Farm, Ottawa—Heavy horses.

Mr. Webster, Oakwood — Light horses.

George Baldwin, Toronto—Flowers.

A. E. Gibson, Bowmanville—Vegetables.

A. W. Tyson, Guelph—Poultry.

A. E. Field-Marshall, Beamsville—Poultry.

Miss Goodfellow—Ladies' work.

Charles Snow, of Toronto, will be the official starter for the horse racing.

CHILDREN HAVE MANY ENTRIES

Interesting Section of Flower Shown Tent Given Over To Them.

STRIKING DISPLAYS.

An interesting section of the display at the Flower Show this year is that devoted to the work of the Junior Horticultural Society, where sixty-one entries have been made by the younger florists of the city. They are showing bouquets of asters zinnias, phlox, marigolds and nasturtiums and their exhibit is exceptionally interesting, denoting, as it does, an increasing interest in floriculture among the boys and girls of Peterborough.

Although the backward season affected floral growth and consequently exhibits, to a great extent this year, still the display at the Flower tent is very creditable and the blossoms on view appear to be fresher and to have more brilliant colorings than has been the case in several seasons past.

All the flower growers of the city are represented, with few outside entries. From Indian River comes an exhibit, but the Whitby Gardens which have in other years been well represented are not exhibiting this year.

There are some gorgeous sweet peas and some big, lovely, feathery asters, with a fine exhibit of the odd dahlia family, whose big blooms recall the efforts of the late Joseph Grierson along this line. Gladioli are very fine also, although not as numerous as heretofore.

The two big central beds display a wonderful assortment of fine-fronded ferns, big-leaved palms and brightly-colored foliages. In their making, they include begonias and many of the lovely "lilium rubrum" or ruby-striped lilies.

The bouquets of wild flowers are always interesting in their assortment of odd leaves and blossoms of the woods and roadsides. The decorative baskets of cut flowers also exhibit a deal of artistic taste and ingenuity in color schemes and arrangements.

One especially striking basket is composed of only one tone of odd, henna-like red, in gladioli and big zinnias, exactly matching in hue. Another bluish-purple wicker basket is filled with single mauve asters with yellow hearts and a basket of mauve wicker is filled with mauve and pink sweet peas. Tulle in these two tints is twined about the handle and appears in a big bow at the side. In a brownish basket are pale pink asters and pink snapdragon. The very simplicity of the designs and the soft loveliness of the colorings make these exhibits beautiful in the extreme.

One basket exhibited by George Downer contains in its making a new flower or leaf that is extraordinary. Mr. Downer grew this from a packet of seeds sent him from the United States, and does not remember the name. But it is a novel and striking thing, like a highly-colored maple leaf in a long, narrow shape, set in clusters on a central vine.

The display of flowers made by professional and amateur growers includes all the well-known and many of the lesser-known blooms. There are gladioli in the exquisite shades of this dignified flower; "Purest of All" which is a dead white; "Empress of India," a dark burgundy red; "Duchess of York" in ash of rose tint; "Longfellow" a lovely pink; the yellow "Cleopatra;" the brilliant carmine "Majestic"; the pinkish brown of "Nancy Hanks"; and the deep reddish purple of "Purple Glory."

There are asters in pink, mauve and white, delphinium, big African ball marigolds, cosmos and gaillardia and phlox, gorgeous, pointed-edged dahlias and dahlias of the cactus type, snapdragon, odd things like Echinops, which resembles a scabiosa or "Old maid's pin-cushion." Hibiscus, looking like a large wild rose, spikes of Impatiens, or balsam in mauve, pink and mottled red and white, Saxifraga, which looks like a wig of wiry green hair Celosia cristata, in fan-shaped velvet formations, zinnias with their off tints of orange and red and purple, and Lathyrus, which is another name for sweet peas. Some of these last are the most wonderful big, double blossoms, in shades of white, mauve, red, rose pink, salmon pink and purple.

There are some dainty little things in buttonhole bouquets and the hand and table bouquets are also very interesting and lovely. One is a bunch of creamy roses another shows tiny red, white and pink carnations and a third uses pale pink gladioli and gypsophila, or babies' breath.

The display of foliages and potted plants exhibit the prettiest of these border favorites and J. H. Callander's showing of cacti is another point of interest in the Flower Tent. These spiny, thorny blossoms of the desert come in all their odd formations, like the "old man" with his white beard, the "watering-pot" of the desert, the "pincushion" and the "Pan of buns."

A tragedy of the Flower Tent on Children's Day was the loss of a bright red, gas-filled baloon brought in by a little girl who released it suddenly. It floated upward and lodged securely, high above capture, in the uppermost point of the tent, angled by the pole opening.

FLIES ARE THE FILTHIEST INSECTS KNOWN

Flies reek with bacteria. They taint everything they touch. Infect food. Cause untold sickness. Authorities say 40,000 deaths each year are caused by fly contamination. Flies must be killed. FLY-TOX is easy to use . . . fragrant . . . harmless to people . . . guaranteed.

Stomach Troubles, Headaches and Dizziness

When your stomach is sick, you are sick all over. If you can't digest your food, lose strength and "pep" get thin and nervous; and feel as tired when you get up as when you went to bed.

This was the condition of Mme. P. Royal, 2170 Letourneux street, Montreal. She says: "I was so nervous that the rustling of a newspaper upset me. My appetite had left me; indigestion was giving me a great deal of trouble; I could not sleep; and steadily lost weight. Tanlac soon had me eating again, corrected my stomach trouble, steadied my nerves, ran my weight up ten pounds, and made me feel just right in every way. Let Tanlac do for you what it did for this sufferer and thousands of others. It is marvelous to see how it corrects the most obstinate digestion troubles—relieves gas, pains in the stomach and bowels—how it restores the appetite, vigor, sound sleep and strong nerves.

Tanlac is made of roots, barks and herbs—Nature's own medicine for the sick. Get a bottle from your druggist today.

Tanlac

52 MILLION BOTTLES USED

ONE THIN WOMAN GAINED 15 POUNDS IN 5 WEEKS

Men and women, weak, thin and miserable, are urged to put on weight and get back their health and strength with McCoy's Cod Liver Extract Tablets.

One woman gained 15 pounds in five weeks and that's going fast enough for anyone.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty cent boxes of McCoy's Cod Liver Extract Tabelts or 2 one dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

Ask McDermid & Jury, Bond's, Lynch, and Giles' Drug Store.

MUSIC AT THE EXHIBITION

Lieut. Cervonne's Band will play the following program at the evening performance before the grand stand on Friday night:

March: "U. S. Field Artillery," —(Sousa.)

Overture, "Albion," (Lampe.)

Popular number, "Mississippi Mud" (Verones.))

Vocal solo by Miss Edna Joyce, "Ramona," (Nardozzi.)

Selection, "Persian Rug," (Arrangement by Cervonne.)

Popular number, "Black Maria,"—(Dorsi.)

God Save the King.

GOOD PROGRAM BEFORE STAND

Fine Variety of Skill and Comedy Provided at Exhibition This Year.

MUSIC PLEASES.

"The "must be seen to be appreciated" label was undeniably awarded the Peterborough Industrial Exhibition grand stand program by an encouragingly large audience, many of them children, when on Tuesday afternoon, it was presented for the first time. Truly it was not of a length that so oftimes renders such entertainments wearisome, but there were six separate and distinctly different acts, through which exhibitions of the most clever tight wire work, tumling, cycling, dancing and musical numbers were presented.

Scheduled to have been presented on Monday evening, the vaudeville program was necessarily postponed because of the anything but pleasant weather, which seemed far from entirely over as the time of starting drew near on Tuesday. Strangely enough with the opening number of Cervone's 176th Artillery Band, which forthwith presented an half hour of music, the sun broke through and the first act began under kindly circumstances. Truly a major portion of the grand stand audience was made up of children, but anyone present during the afternoon will agree with the youngsters that it was well worth seeing, and quite up to the best of former years. It brought before them many of the leading artists on the continent, some of whom had come direct from the Canadian National Exhibition at Toronto.

Wire Act First.

Without resorting to the customary umbrella or balancing pole usually associated with the act, Golda presented her wire act as the curtain raiser, she tripped lightly and deftly from one end of the wire to another, and after making certain of her equipment, performed several difficult feats, among them being the most exacting jumping into and out of horizontally held hoops, in the hands of an attendant. A fitting conclusion was provided by a clever side swing feat as her attendants gradually slackened the wire until it swung in a loop several feet wide.

Acrobatic Act.

The Marietta trio lived up to flattering advance notices in their presentation of an acrobatic act that very closely approached perfection. The trio, comprising mother and two daughters, are wife and daughters of De Lonra, who, it will be recalled, was injured when he fell from a high pole during an act at the Toronto exhibition.

Clever acrobatic dancing, and tumbling and a novel Bell act, were only a few of the features, while at one stage the mother was holding her two daughters, one on each end of a pole which she supported on her shoulders.

Edna Joyce Pleases.

Edna Joyce, soprano, with Cervone's band, who is not a stranger to the Peterborough Exhibition, again pleased her audience this year, with two vocal numbers—Romano, and You're a Real Sweetheart, with band accompaniment. Miss Joyce has a voice unusually well adapted to out-door singing, as it carried well from end to end of the grandstand.

Clever Comedy Cyclists.

Clever comedy cyclists in the fullest sense of the term were the Jean Jackson Troupe of four young women and a clown, who followed the musical numbers with a series of stunts on bicycles that violated everything that is set and conventional to the cycle family—single wheeled, and two-wheeled, and with sprocket drive wheels located high up and low down, they were ridden by one, two, three, four and finally—all five persons on a single bicycle.

The young women in the act were equally as accomplished as their male partner who, by the way, drew a great laugh by his antics on a miniature "bike" and also on a very high, single-wheeled arrangement. A good act, well up to the others, was the verdict.

One hundred and four complete turns as she hung, by one arm far from the ground, with each twist and snap completly dislocating her shoulder, was the astonishing endurance feat with which Miss Bee Starr concluded her aerial act which provided some of the sure-fire thrills of the afternoon. Clever work throughout with this final feature established her as one of the outstanding performers of the week.

Sweetest Act of All Time.

The Honey Troupe, with their slogan, "The Sweetest Act of All Time," went on as the final entertainers of the afternoon and well fitted they were to conclude so clever a program. The troupe was composed of three young women, a man and two boys, one of the boys being the feature member, around whom the act seemed to have been built. Everyone in it proved a master of the tumbling act, while the boy referred to performed some stunts that brought forth bursts of applause.

There was one part in which one of the women jumped from the shoulders of another, striking the end of a teeter board and throwing the boy high into the air. He did a complete turn and alighted on the shoulders of another member of the troupe and finally, 'way up" in a seat balanced by the man That concluded the act.

During the announcements, which were made to the grandstand by Webber Turner, through a large amplifier, installed by the Northern Electric Company of Montreal, it was made known that the complete grandstand program would be given each afternoon and evening for the remainder of the week, with special fireworks as an added attraction.

HOW TO TREAT RED EYES—STYES

Styes won't return if you use Dr. PETTIT'S EYE SALVE—the marvelous swift, healing and soothing salve which reduces swelling, prevents pus formation. Not a new preparation but the old reliable, in use for over 120 years. 30c and 50c at Bond's Drug Store, McDermid & Jury, McDermid Drug Co., or any drugstore. Have clean, clear eyes—sparkling with health.

XXV—HAPPINESS AND SORROW.

Garry Nairn came in the afternoon.

"Just to see if you wanted anything," he explained casually. "Isn't Sanderson back yet?"

"No, my friend is not so well, so he's staying in London for a bit longer."

"He seems a decent sort," Garry said.

"The very best," Sally answered. She really meant what she said. She knew that very few men would have troubled after Poppy as Phillip had done, especially as she also knew that Sanderson disliked Poppy exceedingly.

Garry took her out in the afternoon, this time up to the vicarage for tea, which the vicar had with them in his book-lined study, where a wood fire burned, and they had hot home-made scones.

Sally was very excited. She wished all her old friends of the Faun days could see her lying on a couch that belonged to a real live vicar, in the real live vicar's study, being waited on by his son, and made much of.

When it was time to go home she said frankly that she was sorry.

"I should love to come again," she told him.

The vicar laughed.

"Come whenever you like. After all, we are not so very far away."

"I think your father is just a dear," Sally told Garry as he trundled her homewards. "He's not a bit like what I thought vicars were."

Garry laughed.

"What does that mean?" he inquired.

Sally explained with slow difficulty.

"Well, he doesn't preach at me, or talk about my soul."

"I dare say he would if he thought you would like him to."

Sally grimaced.

"Ugh! I should hate it."

They went a little way in silence.

"Are you going to stay at home for always?" Sally asked presently.

He hesitated.

"I thought I'd stay for most of the summer. The guv'nor wants me to, but I shall go back in the end."

"Go back where?"

"To where I came from—South America."

"Do you like it better than this?"

"No, but it likes me better. I can make money there I can't over here."

Sally sighed.

"I shall be sorry when you go."

"I shall be sorry, too," he answered.

They were facing a glorious sunset as they walked up the road to the cottage a riot of purple and gold and rosy pink splashed all over the sky, as if someone had tried to melt a rainbow.

"There's a car at your gate," Garry Nairn said suddenly.

"A car!" Sally tried to raise herself to look. "It must be Philip come back, then," she said, and there was a little flat note in her voice. "What sort of a car?" she asked after a moment.

"It's a two-seater—a Fiat, I think."

"It's Philip's."

She did not speak again till they were almost level with the cottage, then she said in a quick, breathless little way:

"Mr. Nairn!"

"Yes?"

"You will come and see me again, won't you?"

"Of course. Why not?"

"I only thought—I was afraid—perhaps now Philip is home you might not want to."

"I will come if you want me to come."

"Yes, please."

There was no time for more they were at the cottage, and Philip was striding down the path towards them.

"How old he looks!" Sally thought, and was immediately ashamed of the thought. How could she think such an unkind thing?

Garry Nairn opened the gate and prepared to wheel the long chair in, but Philip stopped him. He stooped over Sally, drawing the covering rugs aside, and lifted her in his arms.

He had taken no notice of Garry, and Sally was too anxious to hear news of Poppy to see that the slight was intentional.

"How is she—better?" she asked eagerly. "I suppose she is much better, as you have come back."

Sanderson did not answer until he had carried her into the cottage and put her down on the soft couch by the fire.

"How is she?" Sally asked again. She tugged at his hand when he would have turned away. "Philip, how funny you are! Why don't you answer me? How is Poppy?"

He spoke then, in a harsh voice which was not harsh on account of any emotion he felt on Poppy's account he had never even liked Poppy—poor Poppy!

"She died this morning," he said. He could not break the news gently or soften the blow, much as he wished to do so. He was a man who believed in meeting a shock squarely, face to face he believed that to hit once and to hit hard was infinitely the best way. "I did all I could, but it was too late. I'm sorry, Sally——"

"Oh—oh!" Sally broke into hysterical weeping. Poppy had been so vitally alive, Sally could not think of her as dead she could not believe that the world would go on, was still going on, with no Poppy moving in it, laughing in it, trying gallantly to make the best of things.

"Oh, oh!" Sally sobbed brokenheartedly. She put out a groping, shaking hand as if for comfort, and Sanderson took it in his but it was across the room, to where Garry Nairn stood, his brown face all sad and sorry, that Sally looked with her tear-drowned eyes.

* * * * * * *

Philip Sanderson had not only been detained in London on Poppy's account, although, once he had seen her and her comfortless circumstances, sheer pity prompted him to do everything he could to make her happier She had been pathetically glad to see him tears had rolled down her cheeks as she stretched a feverish hand to him.

"You're an angel, Philip," she said in a choking voice. "I never knew how lonely I was till I saw your ugly face at the door." Her voice was weak, and her words came a few at a time, in little gasps.

Philip took her hand awkwardly, held it for a moment, then gently laid it down on the cotton coverlet.

"Sorry to see you so ill," he said. "Sally got your wire, but of course she couldn't come, so she sent me."

"You'd have come on your own, anyway, I expect," she answered with difficulty. "You're one in a thousand Philip——"

She had to rest a moment in order to get her breath, and Sanderson said:

"Don't try to talk you'll make yourself worse. I'll do the talking."

She laughed faintly at that. "You do the talking! You never open your lips to me unless I give you a lead, and it'll do me good to speak. Not a soul to talk to all this time, and I've been ill nearly a week, and Jenks hating me like the very devil—dirty o'd—cat!" The tears came faster, but she brushed them away and tried to smile.

"I read somewhere once in a paper that the best definition of a friend was 'The first person who comes in when al the worl goes out.' All my world had gone out, Philip, til you came. Bless you for ever."

He was touched by her gratitude he fidgeted awkwardly.

"Nonsense! I just thought I might help. Have you had a doctor?"

"No It's only a chill. I got hot dancing one night, and then walked home along the Embankment with only a thin shawl. It serves me right."

Sanderson knew that in all probability the thin shawl had been the only wrap Poppy possess d.

"I'll bring a doctor in," he said practically "No good getting worse if they can give you something to make you better. What have you had to eat?"

She tried to answer jokingly:

"Oh, tea, and then tea again—and then tea."

Sanderson scowled.

"If the doctor says it'll be all right, I'll have you moved from this place."

"Not to a hospital! I hate 'em! Seen too much of 'em! Philip, not to a hospital, promise me. I'll die if I go there."

"We'll see what the doctor says."

"If I've got to die, I'd rather die at home," Poppy said feebly. That hurt Sanderson. To think that anyone should call this wretched room "home."

For the first time he felt curiosity with regard to Poppy. Where did she come from? he wondered. Whom did she belong to? It made him shudder to think that but for him Sally might have been in an even worse position.

(To be continued.)

UNCLE WIGGILY

By HOWARD R. GARIS

Up-to-date Bedtime Story

(Continued from yesterday.)

UNCLE WIGGILY'S BLACK SNAKE

(Copyright, 1928, McClure Syndicate.)

Though it was September the weather was still hot in Woodland near the Orange Ice Mountains, where Uncle Wiggily had built his hollow stump bungalow.

"It's almost like summer still," said Nurse Jane Fuzzy Wuzzy, as Mr. Whitewash, the Polar Bear gentleman, brought in a big cake of frozen water from his icicle cave.

"Yes, but it's good for the ice business," growled the Polar Bear, shaking some drops of ice water from his shaggy white coat. "The longer hot weather keeps up the more money I'll make."

"Well, it's good your ice cave is so near us," said Nurse Jane, as she chipped off a little frozen chunk to

He sat on a toadstool.

cool some milk for Baby Bunty. "But I hope we soon have fall weather."

"It will come soon enough," growled the Polar Bear gentleman. He did growl because he was angry on account of having to carry heavy cakes of ice, but growling was his way of speaking.

Uncle Wiggily thought, early that morning, he would hop out and have an adventure, which he did nearly every day.

"I might even stop at the Hollow Stump School to see if everything is ready for the opening of classes next week," thought Mr. Longears. But when he found how hot the September day was he sat in the coolest part of his garden on a toadstool, with a larger one over him for an umbrella and he thought about the North Pole and the igloos or snow houses the Eskimo boys and girls live in during winter.

All of a sudden, as Uncle Wiggily was sitting in the shade trying to keep cool, he heard voices whispering on the other side of a bunch of thick weeds. The voices were those of Jackie and Peetie Bow Wow.

"It will be fun to do it!" barked Jackie.

"Lots of fun!" whined Peetie. "Come on!"

So the two little puppy dog boys trotted off and Uncle Wiggily said to himself:

"Now, I wonder what mischief they are going to do? Perhaps I'd better go look." But it was so hot out in the sun and it was so cool at the end of the garden, sitting on a toadstool with another one over his head like an umbrella, that Mr. Longears stayed where he was.

Pretty soon, however, there was another sound back of the clump of tall, green weeds and a voice chirped:

"And so long and black, too!" exclaimed another voice. "I'm afraid."

"If we could only find Uncle Wiggily to tell him he might do something about it!" said the first voice.

With that the rabbit gentleman, who had been dozing off until he was almost asleep, sat up and called:

"Who are you and what's the matter?"

"We are Mr. and Mrs. Robin," was the answer, "and much is the matter. There's a big black snake coiled here on the path and we're afraid he is trying to either catch you or us."

"Dear me! A big black snake in my garden!" exclaimed Uncle Wiggily. "That must never be. He may catch your little robins."

"He can't catch our little birds, for they have been hatched, have grown up and have flown away," said Mrs. Robin. "And as we can fly high the snake can't catch us. But he may catch you, Uncle Wiggily, so you had better come here and throw stones at the snake, and drive him away."

"I will!" said the bunny. Hopping off the toadstool, he hurried to where Mr. and Mrs. Robin, perched in a tree, were looking at something long and coiled in the grass. "Get away from here, if you please, Mr. Black Snake," said Uncle Wiggily.

He threw a stone at the black thing. The rock bounced off and struck Mr. Longears on the nose.

"Oh, what a horrid snake!" cried Mr. Robin.

"Ha! Ha!" laughed some voices in the bushes. "That isn't a snake. It's just the black rubber hose and we're going to make a shower bath with it!" Then Jackie and Peetie Bow Wow, with their bathing suits on, scurried out of the bushes and turned on the water. And when it spurted out of the hose nozzle the puppies got under the shower and cooled off.

"Ha! Ha! That's a good idea!" laughed Uncle Wiggily. "I'll get my bathing suit, too. We'll all have a shower bath!"

Soon the bunny and the puppies were splashing away and the robins also got under the glittering, cool drops, laughing to think how they had thought the long rubber hose was a black snake.

IN DAYS GONE BY

What Peterborough People Read in The Examiner.

Twenty-five years ago to-day, Saturday, September 12, 1903:

James Lynch offers a prize of $5 in gold to the boy and girl making the highest marks in Entrance examinations from the boys' and girls' Separate schools.

The 18th annual meeting of the Association of Executive Health officers of Ontario, closes with a trip to Stoney Lake and a luncheon at Burleigh Falls.

Ten years ago to-day, Thursday, September 12, 1918:

Miss Jean Harstone gives address at Red Cross Rooms regarding hospital work in France.

Peterborough Exhibition opened today with all exhibits in excess of last year's records. It was formally opened by Mayor Duncan, G. A. Gillespie and J. H. Burnham.

Private Frank Peters has been wounded while serving with the 75th battalion.

Captain Claude Rogers has been awarded the military cross.

Peterborough motorists endorse proposal to save gasoline by avoiding unnecessary use of their cars, and Sunday driving.

HOROSCOPE

The Stars Incline, But Do Not Compel

FRIDAY, SEPTEMBER 14, 1928

(Copyright, 1928, McClure Syndicate.)

Contrary and conflicting planetary influences are strong today, according to astrology, which reads in the horoscope much of promise despite adverse aspects.

In the morning routine work should be pursued. It is a time for taking account of one's weaknesses and for stressing one's good points.

It is a day when those in authority should be avoided rather than courted, a time for wise procedure.

Under this rule there may be serious dissensions regarding policies of plans. It is a time when family discussions may become unpleasant. During the breakfast hour all perilous subjects such as finances should be avoided.

There is a sign foretelling good luck for newspapers and all connected with them. Profit through a sensational scandal reaching over seas is indicated.

Even though this is Friday it should be a lucky wedding day, provided the ceremony is performed after the noon hour.

Banks and bankers may now come much into the limelight, because of political policies that awaken public interest, astrologers foretell.

The stars smile on all places of amusement today and theaters are likely to benefit greatly. New plays are to be better than the dramas of recent years.

Educators have the best possible outlook for the new academic year. Colleges will prosper as never before, since enormous benefactions are foretold.

This is a favorable rule for women who are ambitious whether it be for preferment in the professions or for success in domestic roles.

The evening is a propitious time for presenting prominent men to the public, especially to the voters, it is announced by the seers.

After sundown good fortune may await men and women who are in search of employment. Fate walks late tonight.

There is a sign read as most favorable for those who desire to establish homes and to own land.

According to astrology it is well to possess at least a little of the Earth and to build a dwelling, for in certain cities the separate house soon is to be but a memory, it is foretold.

Persons whose birthdate it is should be exceedingly careful of their financial resources in the coming year which is to bring them money and with it the temptation to be extravagant.

Children born on this day probably will be exceedingly self reliant and independent. These subjects of Virgo are naturally materialistic in their aims, but they usually have tremendous spiritual power when it is brought out.

Why We Do What We Do.

WHY WE WANT TO BE ENTERTAINED

By Mehran K. Thomson, Ph.D.

(Author, The Springs of Human Action)

The human desire for entertainment is a strong one. It is evidenced by the enormous number of people who flock to the movies and other places of amusement. Rare and unnatural indeed is the person who doesn't seek some form of entertainment at fairly regular intervals.

The obvious motives for this universal human desire are diversion, recreation, change, etc. However, there are at least two other important motives for wanting to be entertained, which are not so obvious.

One of these is that in being entertained we are relieved of the necessity of thinking for ourselves. We place the responsibility in the hands of others and sit back to be worked upon. It is a real diversion because it saves us wear and tear.

The people therefore, who have the least energy and mental resources are the ones who seek entertainment most. Left alone they are lost for want of knowledge and thoughts and ideas with which to occupy their minds. It is much easier to let some one else do your thinking. It takes energy and wit to entertain one's self as well as to entertian others.

The easiest way to entertain guests is to hire professional entertainers or to take your guests to the theatre where the professional entertainers are to be found. This is proper at times, but is not the highest type of hospitality. The true host and hostess are people of imagination and mental resources sufficient to furnish the guests with home-made entertainment.

Another important reason why we like to be entertained is that it appeals to our pride and self-esteem to sit back and secure some talented person to do his best to please us. We applaud to show our good judgment and the artist bows in humble acknowledgement of our valued patronage and sound critical ability.

In other words, being entertained is being served and service always has its appeal. We like to be served by other human beings. The more servants we have the more significant we feel. Being entertained is being served.

Why do you do what you do? Dr. Thomson will be glad to answer questions on human behaviour. Address him care of this paper, and enclosed an addressed, stamped envelope for reply (Copyright, 1928, McClure Syndicate.)

Loo Lomski, the Idaho boxer, who has drawn close to the light-heavyweight championship, has had sixty-four ring battles, with only four decisions against him and thirty three knockouts to his credit.

PIMPLES LASTED OVER 2 YEARS

Very Large and Painful. Healed by Cuticura.

"My daughter's face was covered with pimples that were hard, very large and red. They festered, and were so thick that you could not put a pin head between them. They also broke out on her shoulders and back. They itched and burned, and she could hardly have her clothes touch her, they were so painful. Her face was badly disfigured. The trouble lasted over two years.

"I read an advertisement for Cuticura Soap and Ointment so purchased some and at the end of three months she was healed." (Signed) Mrs. Horace Reynolds, New Glasgow, N. S., March 22, 1927.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses.

Sample Each Free by Mail. Address Canadian Depot: "Cuticura, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

MARBLE CLOCKS - - - 98c
Ornamental Clocks in various colors. All good timekeepers.

RICHARD HALL LIMITED

SURFACING BEGINS ON STIRLING PAVING

New Houses Being Erected in Village—Quarry Being Worked.

Stirling, Sept. 13 (Examiner Correspondence)—The first stage of the work in connection with the paving of Front and Mill streets being nearly completed, the real work of placing the material which forms the covering of the roadway, began on Friday, under the supervision of T. C. McConnell. It is the intention to rush the operation until the work is finished. When done, Stirling will have quite a cityfied appearance with its paved streets and boulevards.

Building Operations.

Edward Baker is making good progress with his new house. The roof of colored slate is being put on now and has a picturesque appearance with the different colors.

Robert Christie's new house on Front street west is nearly ready for occupation.

Sells Farm.

Bert Eggleton, of Anson, has sold his farm to Harry Jeffs, of Hoards, who will take possession in two or three months' time

That which was the small post village of Harold, has become a place of some note since the stone quarry on George Bailey's farm was opened and three stone crushers installed by the Department of Highways. Half-acre plots have been purchased from the farmers at each concession road about a mile apart. These plots have been fenced and it is the intention to fill them with crushed stone from the quarry for the future maintenance of the highway. The road superintendent for Rawdon, Will Courtney, has taken advantage of the situation and has covered several of the roads under his supervision with stone from the quarry. The roads in Rawdon have always been above the average in condition and this sort of treatment will ensure a still higher standard of perfection.

Tax Collection.

Tax Collector M. W. Sine reports that the taxpayers are responding readily to the new order of paying taxes twice a year, and a great many are taking advantage of the chance of getting a slight rebate by paying all of their 1928 taxes at one time.

To Have Exhibit.

At a meeting of the Women's Institute held last Thursday it was decided to have an exhibit at the fair of domestic products and fancy work done by members of the Institute. It was also planned to hold the annual Hallowe'en concert, and committees were appointed to prepare the program.

Fair Posters Out.

The large bills for Stirling Fair have been posted and a big and better exhibition is promised. The Championship School Fair will hold its second event of the kind on September 26 at the Stirling Agricultural grounds, and doubtless will be worth while attending.

Church Notes.

The services in St. John's Anglican Church were conducted on Sunday evening by L. Hummil Cooke the new principal of the high school

At St. Andrew's Presbyterian Church, in the evening, Miss F. Matthews and Miss Dougan gave reports of the summer school course, which they attended at Knox College, Toronto.

Mr. Rowland was the preacher at St. Paul's United Church, and chose as his subject the question asked the disciples: "Whom do men say that I am?"—Mark viii 27

Personals.

Mr. Charles Allen, of Beaver Dam, Wis., visited friends here last week.

Mr. and Mrs. Willard Sine and son, Bert, of Rochester, N.Y., and Mr. Harry Heagle, of Kingston, were guests of friends here and at Sine last week after an absence of many years.

Mr. and Mrs. A. G. Mackenzie and son, Grant, spent a few days in Ottawa and Montreal last week.

Mr. Clinton McGee, Jr., left last Friday morning for Guelph, where he will become enrolled as a student in the Jesuit College. He was accompanied on the trip by his mother and brother, Murray.

Mr. and Mrs. Hume Bissonnette and son, Julian, of Hartford, Conn., and Mr. and Mrs. Donald Bissonnette, of Toronto, are visiting Mrs. Annie Bissonnette.

Mrs. Discent and daughter, Miss Delia, of Detroit, are visiting friends here for a short time.

Mrs. Mattie Welch, of Chicago, is the guest of her brother, Mr W. H. Waller Mrs. D. Sarles, of Minto, another sister, is also visiting Mr. Waller.

Miss Eleanor Marshall has returned home after spending the summer vacation with her sister, Mrs. E. Boardman, at Edmonton, Alberta.

Mr. and Mrs. Roy Lansing left for their home in Cleveland, Ohio, on Friday last after visiting Mr. Lansing's parents, and his brother, Mr. Clifford Lansing.

Mr. Charles Nix, of Madoc, is spending a few days with his sister, Mrs. John Rosebush.

OMEMEE W.M.S. STUDIES INDIANS

Work Carried On By Society Is Topic of Discussion By Ladies.

(Examiner Correspondence.)

OMEMEE, Sept. 13.—The regular monthly meeting of the Women's Missionary Society of Trinity United Church was held in the Sunday School room on Thursday afternoon. Mrs. H. Lamb the first vice-president, presided. After the opening hymn, the Scripture lesson was read from Psalm 104, by Mrs. W. Moncrief. The devotional leaflet, entitled, "In the beginning, God," was read by Mrs. L. A. Mahood, followed by the repetition of the Lord's Prayer in unison.

A pleasing piano solo was rendered by Mrs. Dr. McPhee. Reports were heard from the secretary and treasurer and all communications read. Mrs. H. Lamb consented to act as president for the remainder of the year. It was decided to hold a second sewing meeting at the parsonage on Wednesday to complete the articles for the bale, which will be packed the last week of September.

It was the decision of the society to send fruit as usual to the Fred Victor Mission and Deaconess Home, Toronto.

The date of the annual Bazaar was set for Thursday afternoon, November 22nd.

The subject for Study was the educational medical, community and supply work among the Indians, which the Women's Missionary Society is conducting. Short papers on the subject were read by the leader, Mrs. E. Bradburn, Mrs. H. Gardiner, Mrs. J. Bushnell and Misses Eva Race and Madeleine Gray. A very fitting prayer in sympathy for the Indians was offered by Mrs. R. Poast. The meeting closed with a missionary hymn and prayer by Mrs. W. Brandon.

A social time was enjoyed at the close when Mrs. H. Laidley, Mrs. C. L. Morcombe and Mrs. S. D. Vaughan were hostesses.

Personals.

Mr. and Mrs. J. O. Tisdall, of Swift Current, Sask., Mr. Stanley Tisdall, and family, of Moose Jaw, Sask., Mr. Everett Tisdall, of Toronto and Mr. B. Mitchell of Rochester, N.Y. are spending a few days at the home of Mr. and Mrs. Charles Ivory.

Mr. N Clemett attended the C.N.E. in Toronto last week.

Mr. Horace Hill is taking a course at the Peterborough Business College.

Miss Wilma Skuce, of Peterborough, is visiting her friend, Miss Helen Rutherford.

Mr. Allan Adams, of Oshawa, is spending a few days at his home in town.

Messrs. George and Tom Dickson and Harry McGinness, attended the C.N.E. on Monday.

Mrs. C. Tobey, paid a short visit with her sister, Mrs. Stephens in Lindsay, on Wednesday.

Mr. J. Douglas, of Peterborough, was in town on business on Friday.

Ross Widdis and Edward Lowes left last week to take Upper School work at the Lindsay Collegiate Institute.

Miss Jessie Lamb has resumed her studies in the Lindsay Collegiate Institute.

The first woman to attend a university in Spain accomplished her purpose by disguising herself as a man.

RED ROSE TEA "is good tea"

The Orange Pekoe, at a little extra cost, is extra good

In clean, bright Aluminum

Modern women wear fewer clothes

More delicate clothes, even for every day. More expensive. And far more difficult to take care of. Because fewer clothes are worn they are apt to soil more quickly. Because they are fragile, they require more safeguarding in the wash. The laundry soap to which you entrust the cleansing of these nice things must be gentle yet thorough.

You have the CERTAINTY of safety, when you use Surprise. It works in, and rinses out, completely. Without harming a thread.

And Science has for forty-four years steadily been making Surprise Soap better—adding other merits to its Safety.

SURPRISE SOAP

Brunswick

NEW RECORDS for OLD RECORDS

We all have accumulated Records which we no longer play. Bring YOUR Records to us in exchange for New, Up-to-date Records.

Here Is the Plan:

Bring any four or multiple of four old Brunswick or Victor Records to us. Select any four new Brunswick Electrical 10-inch Records, and we will sell you the Four for the price of Three. In other words you will receive 75c credit for the four old Records—18¾c each. It makes no difference how badly worn or old the Record is, just so it is in one piece.

We carry all the very latest Brunswick Electrical Records. We will be more than pleased to help you choose from our large assortment.

Nickel Continues To Lead In Quiet Trading To-day

TORONTO, September 13. Canadian Press. — International Nickel continued to lead the trading on the Toronto stock exchange this morning, although trading eased off considerably as compared with yesterday's market. Opening at 128 it sold between 126¾ and 129¼ for the most part of the session, closing at the latter figure to register a net gain at the close to-day of 1½. The rights weakened during the session, selling downward to 8.85 with a loss of 15c. Canada Dredge Preferred to top its gain of 8 points yesterday, made a rise of 3 points to-day to sell at 163. McKinnon voting trust, with little activity, advanced to 49½, increasing 1½ points. Service stations continued the principal issues on the curb section and with heavy buying was up ½ to 43. Other gains and losses were of a fractional nature, while trading on these issues proved of little interest.

ATTENTION, FARMERS!

1 Second-hand 6 h.p. Engine, mounted; 1 Second-hand Tractor and Plow. A number of Second-hand Cream Separators, also several Second-hand Stoves. 1 Combination Coal and Gas Range for Sale, cheap. Farm Implements and Stoves, etc., of all kinds.

Mine Shares Continue To Decline On Market

TORONTO, September 13. Canadian Press. — Prices continued their downward movement during the morning on the Standard mining exchange to-day, while trading manifested a little more activity than yesterday's market. Malartic, one of the heavy losers of the previous session, continued to weaken, dropping four points to sell at 1.76, while Amulet also recorded among losses yesterday, was selling at 3.25 with another decline of five. Hollinger was up twenty at 8.70; Lake Shore up 15 at 22.50, and Kirkland Lake up five at 1.60. Barry Hollinger with a moderate transaction was off 5½ at 45½; Mandy 13 at 2.40 and Nipissing mine at 3.15; Pend Orelle was weak, selling at 12.75 with a decrease of 50.

Wheat Opens Weak But Rallies Quickly

CHICAGO, Sept. 13.— (Canadian Press).—The unexpected weakness of wheat quotations at Liverpool lead to early downturns to-day in wheat values here. Rallies quickly ensued, however, a good demand on the declines being helped by corn strength and by notice that United States wheat growers were being officially advised to hold back their wheat. Opening half to 1¼ cent lower, Chicago wheat subsequently recovered. Corn started at one half cent decline to ⅞ cent advance and later scored gains all around. Oats were firm.

Opening prices were: Wheat, September, 107¼; December 112¼. Corn, September, 98⅝; December, 75¾. Oats, September, 40½; December, 41¼.

News From the Mines

Through

Solloway, Mills & Company

Dome.

TORONTO, Sept. 13.—Officials of Dome yesterday confirmed the report that the company had taken an option on the property of Chibougamau Prospectors, Limited. It is learned that by the terms of the agreement, Dome will provide a sum approximately $100,000, for development work, which is to be completed by late in 1929, after which payments amounting to approximately $500,000 will be due. Should the terms of the option be completed, a new company may be formed in which Dome will have a 75 per cent. interest, and Chibougamau prospectors will hold the remaining 25 per cent. Dome is to purchase all supplies on the property and is to acquire or rent the diamond drill now being sent in by airplane. Two of the company's engineers will be on the way to the property within the course of a few days to take charge of operations.

Crown Reserve and Bidgood.

According to Kirkland Lake advices, Crown Reserve have cut their No. 1 vein which shows a width of 7 feet. No assays are available as yet.

Bidgood are reported to have cut their north vein which is 6 feet wide and assays $7 over this width.

Keeley.

Shareholders of this company at their annual meeting yesterday were told of proposals to explore the lower contract of the mine from the 1,400-foot level of the adjoining Frontier mine. Reference was made to the passing of the current dividend by the chairman, who stated that the company had over $1,000,000 in cash assets over and above all liabilities.

Production since October last has been between 50,000 and 60,000 ounces monthly, leaving a profit of between $6,000 and $7,000 each month. The management anticipate maintaining this output during the period in which the exploration of the lower contract is in progress. The shareholders were told by Mr. Stafford, the chairman, that a quite promising copper property, had been taken under option, situated in Wintering Lake, 190 miles north of The Pas, and quite close to the Hudson Bay Railway. This property has a strong break running through it for 3¼ miles, and while it was early yet to say how it would turn out, work was being aggressively pushed.

MINING BRIEFS

A Special Service to The Examiner

TORONTO, Sept. 13.—A meeting of the directors of Hollinger Consolidated was held in Montreal yesterday which was adjourned until to-day. Although the consensus of public opinion seems to be that the dividend will be cut it is heard in unusually well-informed quarters that this is not the case. It is said that Holly is now on the upgrade and that it will not be long before capacity of 6,000 tons is again put through the mill. The reason for Holly's reduced profits has been the low grade or ore milled as well as the decreased amount. Unofficial reports for July state that the mill treated 4,500 tons daily of about $5.80 ore. This explains the bears attitude. A study of the last annual report shows, however, that of the $60,000,000 ore reserves that better than $50,000,000 averages about $10 per ton. This is not low grade by any means and as soon as Holly cleans up their less than $10,000,000 of low grade stuff the production figures will again show an increase. The meeting will not conclude before 3 p.m.

A despatch from Kirkland Lake is to the effect that Crown Reserve have cut their No. 1 vein. This is said to show good values over a 7-foot width. No assays are available as yet.

It is reported that Bidgood have cut their north vein and obtained assays of $7 over 6 feet.

Vancouver advices state that the time is almost at hand when Smelters will make an announcement regarding the Pend Oreille property. It is also said that recent work on the Kootenay Florence has solved the geological problem which confronted the company at depth and are now proceeding after ther main vein. The work has also placed a good amount of ore in sight.

A report from Ames states that Malartic have made a rich strike on the 375 foot level, ore running about $25 over a 7-foot width. An independent engineer who has just returned from the property states that the company had uncovered a high grade streak in a broad belt of mineralization at the 375 foot horizon.

A prominent Toronto mining engineer recently paid a visit to the Tashota Gold Mines property and imparts the latest information to the Financial News Bureau Considerable trenching has been done following a quartz vein which showed considerable sulphide mineralization at surface. Encouraging asssy have been reported on surface and two lenses of ore are indicated. Adjoining the vein an equal schistose one was observed. A second vein to the south has been uncovered and numerous narrow stringers have been trenched.

Equipment consists of a steam driven plant which should be adequate to carry operations to 5,000 feet depth provided no large flow of water is encountered. The property is easily reached by wagon road from Tashota. On the first level established a considerable amount of drifting has been done. Sampling indicated ore of $15.40 grade. It was said, however, it was not determined whether sampling was sufficient to give a true average of the ore and therefore it would not be stated as to whether it would grade commercial. Sampling done to date indicates good commercial ore.

"Vipond's ore body at 733 Feet depth averages 9.90 over 8.4 for length of 170 feet and is still in ore."—Dr. H. C. Boydell, consulting engineer of Vipond Consolidated Mines Ltd. made the statement today that development work at the property during the last month or so has given encouraging results and continues to look very promising. He says: "In the 709 Drift on the 733 foot level the shoot of ore mentioned in the quarterly report of July 31st. has lengthened very considerably and the grade of ore and width of the ore body has also improved. This ore shoot to date has a length of 170 feet averaging $9.90 per ton over a width of 8.4 feet with both faces still in ore of good grade. In some places it is from 16 to 20 feet wide and its total width and length have not yet been definitely determined, but slashing on the north west drift is being carried out and the face of the south east drift is being advanced into virgin territory still carrying good ore. The drift on the 600 foot level is being extended in order to get over the ore encountered on the 733 foot level and an encouraging improvement in values has already been met with.

"Apart from the intrinsic value of this find, a very important feature in connection with it is that the locaton of this ore is in general conformity with the poinion of your Consulting Engineer that ore deposition in this Vipond property has been largely controlled by the structural features developed at the intersection of the No. 9 vein and others of a general north easterly strike; this new occurrence at the 7th level appears to have this general control. In order to further investigate this supposed general structural control of ore bodies in the Vipond and more particularly for the specific purpose of tracing the No. 9 vein, the strongest structural feature on the property, in a southerly direction, a geophysical survey of the property, by The Radiore Company of Canada is now being carried out. In addition, Dr. V. L. Whitehead is making geological investigation in close collaboration with the electrical survey and it is hoped this co-operaton between the geologist and the geo-physicist will lead to the approximate location of intersections along the No. 9 Vein in such a way as to considerably facilitate underground exploration. That this procedure is promising of economic results finds support in this most recent discovery on the Seventh Level."

THE MANFACTURERS' BUILDING

Perhaps one of the most visited buildings on the grounds is the Manufacturers' Building at the Peterborough Exhibition. Here are displayed all the finest achievements of the various manufacturers in the city and the country. Phonographs, pianos, canoes, clothing, perfumes, refrigerators, postal exhibits, cake exhibits and many others, are to be seen her.

Grafton's.

On the left hand side of the western entrance is Grafton's exhibit, which is made up entirely of the newest fall suits and overcoats which are being shown to the Peterborough public for the first time.

Peterborough Canoe.

In its old place opposite the entrance, is the Peterborough Canoe Company's exhibit, where is shown a cedar stripped outboard motor boat, a beautiful model; also a canvas covered torpedo deck canoe finished in a dark green. There is also a showing of skiis, snowshoes, toboggans, outboard motors, and surf boards.

Canadian Packing Company.

The C.P.C. has a very attractive exhibit with a counter display in their booth and a wonderful red rose which practically forms the background of the display. This opens and closes from bud to open flower automatically. An attractive display of the meats that are put up by this firm, is also shown. Bacon, ham, eggs and butter make this a really attractive exhibit.

Victrolas.

E. V. Warne has a fine exhibit of Victrolas. The new model four-seventy in walnut finish is an ideal model for the small home or apartment. The library model is a beautiful, orthophonic in antique finish, with richly colored albums, while the Electrolla in Georgian design, plays the records electrically and uses an electrical reproduction.

The DeLaval.

The DeLaval display in gold and black depicts the golden series of cream separators and milkers which are celebrating their 50th anniversary in the dairy industry. Three separators are shown, a milker, and also an exhibit of DeLaval special purified oil.

Canada Starch.

The Canada Starch Company has a large display of their wares featuring a display and demonstration of Mazola salad oil and free samples of starch, Lily White corn syrup, Edwardsburg corn syrup, Silver Gloss starch, corn starch and Lassies' molasses syrup, are a few of the products that fill out a very complete booth.

J. J. Turner and Sons.

J. J. Turner and Sons' display is one that reminds one that winter will soon be here. It is a very colorful exhibit with a background of a setting sun effect with a ground of Hudson Bay blankets in various color combinations, but with white predominating. A border of snowshoes lines the booth, while skiis and snowshoes are seen throughout the exhibit as an indication that the sport coats thus shown are to be popular for this winter's sport wear.

W. Lech and Sons.

William Lech and Sons have a very complete display of furs with a nice line of fox furs and changing border. Persian lamb coats, seals, rats and beaver trims are shown. The ladies find great interest in this booth.

Easy Washers.

The Easy Washer has an attractive booth with a background of blue rope hangins and "Easy" in mirrors set out against this dark background, making a striking exhibit. There is one machine for demonstration and two for exhibition purposes.

Brinton Carpets.

The home furnisher will find great delight in the Brinton carpet exhibit of Sarouk rugs in Oriental designs, and colourings. The background and floor design is carried out in rugs.

Heintzman Hall.

Heintzman and Company is showing the finest display of musical instrument that can be found. There is a comfortable studio in connection with this exhibit, where persons may come and talk things over and at the same time admire the handsome instruments.

Adam Hall.

Adam Hall has a fine display of stoves, Tropic ranges, Quebec heaters and camp stoves, set in a background of flowers.

Frigidaire.

Frigidaire shows for the first time the new V-5 model, which has been on the market only three weeks. There is also shown a beautiful two-tone model, with new compressors with greater power, which is noiseless. A Savage washing machine is also shown here in demonstration.

Stock's Bread.

Stock's bread has an all white exhibit that makes one hungry to look at it. A revolving stand on which various baked products are shown, forms the central part of the exhibit.

Peterborough Milk.

Peterborough Milk Products in a pure white booth is showing their products, featuring the new chocolate milk drink, Kirm Ko. Meadow Vale condensed milk, butter, ice cream, butter milk, and the rest of their products are shown.

The Post Office.

The postal booth is one of the most educational in the building. A film on postal work and service is shown. An idea is given as to the right and wrong way of addressing letters and parcels. Stamps are sold here and a small air mail plane is seen. There is also a cancelling machine and a large display of dead letters showing the people what happens to wrongly addressed mail.

A small golden colored stand depicts the Golden California poppy perfume and black narcissus, of which free samples are given away.

Quaker Oats.

There is a large display of the Quaker Oats Company featuring Muffets as a central background. Samples of cakes are given away which have been baked with Quaker flour. All Quaker products are to be seen at this booth.

Peterborough Lumber.

Ten Test insulating board for building is exhibited by the Peterborough Lumber Company. This is shown in the plaster test, with wall paper on it; also stuccoed. A small model house is on display.

All these various displays make this building one of the most interesting on the grounds, as there is something here to interest everyone.

Will You Be Clerk or Manager

TEN YEARS FROM NOW?

Are you sacrificing the best years of your life to a routine job, in the thought that you must stand in line for promotion—that you can advance only at the shuffling pace of the rank and file? The man who depends on length of service for advancement rarely gets beyond the information desk.

Why throw away your future in a low-pay job, when you can qualify, in a comparatively few months, for a high-salaried position as a business specialist?

Thousands of men with no better start than you have doubled and tripled their incomes by home-study business training under the La Salle Problem Method. During a period of only six months, 1,248 members of La Salle Extension University reported definite salary-increases as a result of training under this remarkable method. **The average increase per man was $89 per cent.**

If "half as much again" would look good to you **within the next twelve** months, check the training that interests you, sign and mail the coupon NOW. It will bring you full particulars, together with details of our **convenient payment plan;** also your free copy of "Ten Years' Promotion In One." "Get this book," said a prominent Chicago executive, "even if you have to pay five dollars for it." We will send it **free.**

Make your start toward that bigger job TO-DAY.

SMOKING IN BARNS MUST BE STOPPED

Smoking in the buildings at the exhibition, and especially the barns, must cease, according to Chief Gimblett. The firemen have had considerable trouble enforcing the orders, and if any further opposition is made, Chief Gimblett told The Examiner, some of the patrons of the fair would find themselves in the police court. Last night on his round of inspection he found five negroes who belong to the midway, lying in on a pile of hay in one of the stalls, smoking cigarettes.

Exhibition Program.

FRIDAY—COMMUNITY DAY

8:00 a.m.—Gates open.
8:30 a.m.—Exhibits open.

Wedding Bells

BREDIN—ANDERSON.

The following announcement refers to the wedding of Mr. Wilfred Bredin, of Toronto, a brother of Mr. Mark Bredin of this city:

"Miss Helen Elizabeth Anderson, elder daughter of Mr. and Mrs. Edward H. Anderson, and Mr .Wilfred Bredin, son of Mr. and Mrs. Mark Bredin, were married yesterday in Calvin Presbyterian Church. Rev. J. Wasson officiated. The bride was given in marriage by her father, and she wore a gown of white satin, with long tight sleeves, and bouffant skirt of chiffon frills. The gown was trimmed with pearls and brilliants, and the satin train was hung from the shoulders, with rimilar lover's knot beading of pearls. Her veil was of tulle and rose point lace, caught to her head with sprays of orange blossoms. She carried a shower bouquet of roses, orchids and lily-of-the-valley. Mrs. W. J. Houston of Stratford, was matron of honor, and Miss Hazel Bredin and Miss Mary Anderson were bridesmaids. All were dressed alike in gold taffeta, in bouffant style, with long brown bows at the back, and hats of soleil velours. The matron of honor carried Summer lilacs and butterfly roses, and the bridesmaids, roses and delphiniums. The best man was Mr. Arthur Pennington, and the users were Mr. Ernest Bredin, Mr. John Brady, and Mr. Tots Bunting. Mr. Proctor played the wedding music. A reception was held at Ryan's Art Gallery, when Mrs. Anderson received wearing a gown of black transparent velvet and ecru lace, black hat and corsage of pink roses. The mother of the bridegroom, Mrs. Mark Bredin, wore black lace and georgette, with black hat and corsage of pink roses and lily-of-the-valley. Mr. and Mrs. Bredin left later for a trip to Europe, the bride travelling in a bright navy blue dress, travel coat of grey with grey fox collar and cuffs, and felt hat. On their return they will live in Lawrence Park."

(Examiner Correspondence.

DAVIS—ROSEBOROUGH.

LAKEFIELD, Sept. 12.— A quiet, but very pretty wedding was solemnized at 6 o'clock on Wednesday evening, September 5th, at "Lakeview Farm," the home of Mr. and Mrs. Joseph Roseborough, when their only daughter, Marjorie Viola, became the bride of Russell Braden Davis, son of Mr. and Mrs. Aaron Davis, of Smith. Rev. J. B. McCormack was the officiating clergyman.

The bride, who was given in marriage by her father, wore a becoming gown of shell pink Celanese crepe with touches of ivory lace, shell pink hose and black satin slippers. The young couple were unattended.

Following the ceremony a sumptuous supper was served to the guests, who included only the immediate families of the contracting parties.

The bride's going away costume was of sand crepe romaine, embroidered, and with brown silk velvet trimmings, and hat, shoes and hose to match. She also wore a handsome Australian brown fox fur, the gift of the groom.

The young couple will reside on the groom's farm in North Smith.

MATHERS—McLEAN.

(Examiner Correspondence)

LINDSAY, Sept. 12.—At St. Andrew's Presbyterian Church, on Sept. 8, the marriage took place of Marjorie Dorothea Peace, daughter of Mr. and Mrs D. L. McLean, of Lindsay, and formerly of Norwood, to George Seth Mathers, youngest son of Mr. and Mrs. Seth Mathers, of Weyburn, Sask., and formerly of Otonabee, Peterborough County.

The ceremony was performed by Rev. Henry Marsh of St. Paul's Church, Toronto, assisted by the Rev. J. C. Grier, pastor of St. Andrew's. The bridal march was played by Lorne Arnold, of Cookstown, while Miss Alma Ringland, of Lindsay, sang "At Dawning" during the signing of the register.

The bride was given away in marriage by her father. She was gowned in an empire frock of French ivory satin, and also wore the groom's gift, a long string of pearls. Her veil of Brussels lace and tulle was gracefully and daintily caught by sprigs of orange blossoms. Her bouquet was Easter lillies.

The brides maids, Mrs. William Hall, of Minico, and Miss Helen B. Graham, of Baltimore, Maryland, were gowned alike in two shades of green georgette with bustle effect and train. They wore hats of soft green felt and carried arm bouquets of yellow chrysanthemums, purple delphinium and fern. Dr. E. Kenleyside, of Regina, was best man.

A reception was afterwards held at the home of the bride, the guests being received by Mr. and Mrs. McLean and Miss Tena Mathers, of Peterborough, aunt of the groom. The bride's mother was becomingly gowned in rose taupe silk, with felt hat to match. Miss Mathers wore a lovely gown of georgette in blush rose tones, with beige hat and fox fur.

The bride and groom left on a trip to Banff and Lake Louise, the bride's travelling ensemble being of navy blue crepe and beige. On their return they will reside at 1627 Bloor street west, Toronto.

MILLS—GRIFFITH

The Salvation Army Citadel at North Bay was the scene of a pretty wedding on Tuesday evening, September 4th, when Bertha Mary, eldest daughter of Mr. and Mrs. G. Griffith, became the bride of Arthur Tennyson Mills, eldest son of Mr. and Mrs. B. T. Mills, Peterborough. The service was conducted by Captain William Jolly. The bridal arch was beautifully decorated with white and pale blue trimmings, two small white bells on each side and a large bell ranging from the crest of the arch. Many friends of the young couple were present.

The bride wore the army suit, with a white army sash crossed over her shoulder. She carried a bouquet of Columbia roses and sweet peas. Miss Winnifred Griffith, sister of the bride, was bridesmaid. She wore a dress of blue satin face canton crepe trimmed with sand flat crepe, and carried a bouquet of Columbia roses and sweet peas. George Griffith, brother of the bride was best man. Miss Nellie Morgan sang "Until," Mr. Garfield Thomas presiding at the organ.

The gift of the bridegroom to the bride was a fox neckpiece; to the bridesmaid, a diamond ring; to the attendant, a set of engraved gold cuff links, and to the soloist, an amber necklace.

Following the service, a reception was held at the home of the bride's parents, Campbell avenue, Ferris, where about forty friends gathered to wish many blessings on the young couple. A dainty buffet luncheon was served by the bride's parents. Mr. and Mrs. Mills left the same evening for a ten days trip to Peterborough ,and Buffalo, returning by Toronto. The bride travelled in a gown of sand poiret, twille tailored coat and picture hat On their return they will reside in North Bay.

Mr. and Mrs. John O'Toole, 201 Rink Street, announce the engagement of their youngest daughter, Anna, to Edward A. LeBarr, son of Mr. and Mrs. L. W. LeBarr. The marriage to take place the latter part of September.

• • •

Mr. and Mrs. Charles Turney of Colborne are in the city, visiting friends and attending the local Exhibition.

• • •

Mr. and Mrs. Hancock of Port Hope (formerly Miss Margaret Storey) were visitors this week to the Peterborough Exhibition.

• • •

The Misses Etta Smith, Hazel Blodgett and Eunice Roseborough were hostesses last evening at a shower given in honor of Miss Zetta McCall, a bride-elect of this month. A large number of lovely gifts were presented to the guest of honor by the guests present, and were brought into the room in a wagon prettily decorated in blue and white, drawn by Elva Mae Roseborough and Master Jack McCall. The evening was pleasantly spent in dancing, followed by the service of dainty refreshments.

• • •

Peterborough members of the Catholic Women's League who attended the annual Diocesan convention of the organization, held in Downeville on Tuesday, included the president, Mrs. J. J. Lynch, Mrs. M. Henry, Mrs. B. Law, Mrs. Wm. Lynch, Mrs. Frank Lynch and Miss Norah Shevlin. His Lordship, Bishop O'Brien, also was present at the convention, with Rev. K. Corkery, Rt. Rev. Monsignor McColl and Rev. Father Black of Lindsay, Rev. J. McAuley of Ennismore, Rev. Father Killogly of Kinmount and Rev. J. B. Ferguson of Warkworth, the latter giving the principal address at the meeting. Mrs. J. J. Lynch of Peterborough was appointed delegate to the next annual convention of the Catholic Women's Leaue of Canada, while this city was named as the meeting-place for the next Diocesan convention. Mrs. J. J. Lynch was also elected as first vice president of the Diocesan society, with Mrs. Bruce Law as recording secretary and Miss Norah Shevlin as corresponding secretary. Other Diocesan officers elected were Miss Delphine Piggott of Downeville, Mrs. George O'Sullivan of Campbellford, third vice president, and Mrs. Hickey of Kinmount, treasurer.

• • •

Mrs. Joseph Henry Brault of Osnawa is the guest of his son, Mr. Archie Brault, at the corner of Hilliard and Water streets. Mr. Brault is one of the original "Old Boys" of Peterborough and formerly lived at the corner of Charlotte and Water streets, the present site of the Empress Hotel. He was a member of the well-known "Brault Orchestra" of which his father was leader, and which the older residents of the city will remember as a leading musical organization in days when good music was always appreciated.

• • •

Miss Jennie Stockdale and her brother, Mr. Norman Stockdale, of Toronto, motored to the city to attend the Exhibition.

• • •

Mr. and Mrs. Wm. Beckett of Norwood were visitors to the Fair this week.

• • •

Mr. and Mrs. Pethick have returned to their home in Rochester, N.Y., after visiting Mr. and Mrs. R. J. McWilliams, at 570 Bolivar street.

• • •

Mr. and Mrs. A. A. Bowes of Glen Tay were recent visitors at the home of Mrs. Bowes' sister, Mrs. J. H. Kimberley, Bolivar street.

• • •

Mrs. R. A. Tate of Omemee is the guest of Mrs. W. K. Payne, London street, while attending the Exhibition.

• • •

Mrs. William Colling of Toronto is the guest of her niece, Mrs. Edward Dillon.

• • •

Mr. E. W. Hachborn of La. Salle Extension University, Chicago, Illnos, is staying at the Empress Hotel for a few days.

• • •

Hon. G. N. Gordon, K.C., and Mrs. Gordon and son Wilmot have returned to the city after spending the summer at Chemong Park.

• • •

Rev. D. Elliott of Perth was a recent visitor at the home of Mr. and Mrs. J. H. Kimberley, Bolivar street.

• • •

Mr. and Mrs. Mark Bredin motored to Hamilton yesterday, where the former took part in a men's lawn bowling tournament, with Messrs. G. Cairns, W. Oke and C. Seymour.

• • •

Miss Ethel Simpson of Windsor motored to Ennismore to visit Mr. and Mrs. Chas. Perdue.

• • •

Mr. W. T. Young of the staff of Elliott and Selkirk, Hunter street, is celebrating a birthday anniversary today. Mr. Younge leaves next week to spent the winter in Regina, Sask.

• • •

The many friends of Mr. W. J. Northey of Lakefield will be pleased to learn that he is progressing favorably after his recent operation in St. Joseph's Hospital.

• • •

Mr. Fred McWilliams of Detroit left for his home today after visiting his brother, Mr. R. J. McWilliams, for the first time in eighteen years.

• • •

Mr. Joseph O'Connor of Windsor motored to Ennismore to visit Mr. and Mrs. Charles Perdue.

Friends of Miss Dorothea Marie Patterson, of Detroit, formerly of the local staff of the Bell Telephone Company, will be interested in the announcement of her marriage on Monday, September 3rd, at Bowling Green, Ohio, to Mr. James Monroe Smith, of Detroit.

• • •

Mrs. A. L. Lydgate of Honolulu is the guest of her sister, Mrs. R. R. Hall, Reid street.

• • •

Friends of Mrs. J. E. Fraser, Dennistoun Avenue, will be pleased to learn that she has recovered sufficiently, after a fortnight in the Hospital, to return to her home.

• • •

Miss Linden Hall and Miss Florence Hamilton left by motor on Tuesday to spend some time with Mrs. F. Griffin in Vermont.

• • •

Mr. Percy King is home from Western Canada and is renewing old acquaintances in the city. He leaves for St. Catharines next week.

• • •

Mrs. A. McCormick and daughter Muriel, of Winnipeg, were guests of Mr. and Mrs. R. J. McWilliams, Bolivar street, for a short time while on their way to Montreal. Mrs. McCormick will return later for a short visit to the city.

• • •

Mr. and Mrs. Jack McWillians spent the week-end in Toronto with Messrs. E. Parker and J. White and visited the Exhibition during their stay.

• • •

Mr. and Mrs. John Fletcher of Bensfort spent last week in Montreal, visiting their nephew, Mr. Frank Hall, who is vice president of the Railroad Labor Unions. They motored home with their son, Mr. George Fletcher of Bailieboro.

• • •

Mr. and Mrs. Stanley McCabe returned home from a visit to Alexandria Bay and other places, covering eight hundred miles by motor during their absence.

• • •

Mr. William F. Greene, the popular secretary of the Oddfellows' Triple Link Club, is celebrating a birthday to-day, the anniversary of the visit of the late King Edward, then Prince of Wales, to this city.

THE MIRROR OF THE MODE

By Mary Marshall.

A simple gown of black satin takes on the new feminine note when trimmed with white georgette pleating and rose-colored gardenias on the shoulder.

Wearing artificial flowers is to many French women like drinking wine, regarded as a sort of patriotic duty. If no one drank French wines—what would become of the thousands of folk in the provinces of France who get their living in the orchards or wine presses? If no one wore artificial flowers and if French dressmakers did not keep the fashion very much alive, what would become of the thousands of women in Paris and other cities who earn a meager though generally adequate living making these posies of silk and velvet?

It was perhaps from patriotic motives that Louisboulanger of Paris displayed so many boutonnieres on frocks in the collection she recently displayed for autumn. Even the most influential of French milliners might find it difficult to induce women to wear flowers on their hats—especially at this time of the year—but nowadays the logical place to wear artificial flowers anyway is the frock not the hat.

With Louiseboulanger I believe violets and pansies are the most favored of flowers and some of these are made in a new way of crochetted silk, decidedly realistic.

The sketch shows an arrangement of artificial flowers on a frock adorned with a pleated neck frill. Once we might have regarded wearing flowers on frills rather fussy, over ornate, but taste has changed much within the past six or eight months and any embellishment that makes a frock seem more feminine, is looked upon with approval. If perchance you have a last year's frock to wear this autumn, why not bring it up to date by supplying it with a frill for the neck and then to the frill add a small bunch of flowers?

TORONTO MOTHER HEIR TO FORTUNE

Will Inherit Bulk of Estate Left By Eccentric Will.

TORONTO, Ont., Sept. 13 (CP)—A fortune is piling up for the prolific Toronto mother who in 1933 is due to inherit the bulk of the estate left by the late Charles Vance Millar, the Toronto lawyer whose eccentric will excited continent-wide comment when it was probated more than 18 months ago.

When the will was probated, the estate showed assets of $322,309, but since then it has been found that 100,000 shares of common stock in the Detroit-Windsor tunnel, which at the end of 1926, it was believed, were not even worth listing, now have a value of $5 each or $500,000, according to others interested in the company.

By 1936, when the specified 10-year span following Mr. Millar's death has expired and when by consulting the vital statistics records, she who has born in Toronto the most children will be named as the residuary heiress, the legacy should easily be worth more than a million dollars, if the assets continue appreciating.

THE WHATNOT

A Place for Little Bits of Everything of Local Interest

By MARION

WHAT a blessing it is," mothers are saying this week, "to have the children back in school again. It's so much easier to keep things nice when they are not underfoot all day long."

• • •

I met one mother this week who thinks differently. "What a trial it is," she said, "to have to see that they are decently dressed in time to go to school in the morning. In vacation time it doesn't so much matter whether they had the right clothes on or not, and there was no rush about getting them out."

• • •

This remark just brought to mind the system told me by a north-end mother of two, whose well-dressed children are the envy of the neighborhood. I'm going to tell the system here for the benefit of all my mother-readers.

• • •

Every Wednesday afternoon when the clean clothes are ironed and ready for mending and distribution this mother plans precisely what each of the two children shall wear for the rest of the week and until Wednesday of the following week. There are clean socks for each every other day, with a special pair for Sunday, so as she mends them and looks them over she pins little tags on them marked, "F., Sat., Sun., M." etc.

• • •

There are definite times for changing underwear, and the underthings are marked for each child accordingly.

• • •

For the little girl the wash frocks are similarly marked, and shirts for the boy are arranged in the same way, with fresh handkerchiefs for each morning arranged in a pile. Each child has a bureau drawer where the week's supply of clean clothes is conveniently placed.

• • •

"The usual thing, I suppose," this mother told me, "is to place different sorts of things in special places, but when I did this the children seemed to muss up the whole pile in their hurry in the morning and usually came off with just the wrong things."

• • •

I'll be glad to hear how you other mothers arrange.

• • •

To give the dainty new touch to your nightgowns and other pieces of lingerie you should have some of the new pastel-colored ribbon posies. You may buy these ready made, but they are cheaper if you make them yourself, and after you get the knack of making them you will probably want to make quite a number, as they make charming gifts and bridge prizes. So if you are interested, please send me the coupon and I will send you full directions with a sketch.

• • •

In a local store this week I saw one of the stitched velvet hats that set Paris agog at the openings. This one is tan velvet with brown stitching and a brown grosgrain ribbon that ties in a debonaire little bow in front. The brim is slightly rippled.

• • •

It struck me that this would be delicious with tweed frock or suit or almost any type of tailored or sports costume. It is crushable and may be easily packed in a week-end bag.

• • •

A smart oxford shoe is shown in a George street store. It is medium last, neither long and slim nor short and stubby, but smartly designed for the average foot. It is effectively developed in brown suede with a wing tip side decoration and above-the-heel applique of brown kid. The heel is that comfortable and chic three-quarter solid leather heel that fashionable women are wearing.

• • •

Anyone who gets the hat I have described, and these shoes, will have the nucleus of a chic street or sports wardrobe. Their colors are one of the season's smartest, the fabrics are new, and the styles are high in the fashion for autumn.

• • •

Several replies have come to the question "Why do men prefer to dine downtown," which I put to the neighbors last Saturday. There is still time for your opinion, and the winner will receive a box of up-to-the-minute stationery or correspondence cards. Do you know why? Tell us!

• • •

And how would it be if we open this contest to men, just to make it more exciting? A suitable prize will be given—perhaps a free dinner in a down town restaurant! Come on, you men

WOMEN'S BENEFIT HOLD CONVENTION

400 Delegates Attend — Miss Bina West Speaks On Health.

TORONTO, Ont., Sept. 13 (CP).—Nearly 400 women of the Women's Mutual Benefit Association of America have been in convention here. Miss Bina West, President and Founder, has always stressed, through the 39 years of the Society's life, ideals of health.

"I hope to be working when I am 70," she said, "Every day I accomplish more because I haev learned to do my work more easily from experience, and I can relax completely for a few moments each day."

This woman who has spent her life dealing with her own sex in business relations, has found them most reasonable and most diplomatic. There is no truth in the statement that women cannot work harmoniously with their own sex, Miss West declares. The attitude which marks all business relations as successful should be used with women as well as with men and that is "be impersonal."

Fashion pictures in magazines and periodicals are responsible for the poor posture among the younger women of today, in the opinion of Dr. Katherine G. Manion, supreme medical examiner of the Women's Mutual Benefit Association of America. Having spent nine years with the association, Dr. Manion has supervised the medical examinations of 250,000 young American women.

"I think that the girls of today walk and sit terribly," she said. "I find 98 out of every 100 neither walk nor sit right. They have a debutante slump which they have copied from the magazine plates just because they think it smart.

"Young girls are not clothing themselves as they should for weather conditions," Dr. Manion added; "and then they add to the difficulty of trying to keep healthy by dieting to retain their boyish figures. These are very bad tendencies among them. The 'spike heels" which they have been wearing this year should be taboo, both because they throw the body out of plumb and because they add to the difficulties of walking properly. I believe in moderation in everything, and these are extremes in dress."

Short skirts and corsetless freedom were splendid innovations, Dr. Manion thought, but the short skirts should be accompanied by warm hose in cold weather.

Social Amenities

Hester: No, ushers should not wear tuxedos at a 4 o'clock wedding. They should wear formal afternoon clothes or plain business suits.

• • •

Bride: Yes, it is customary at an informal wedding to make a present to the couple standing up with the bridal pair.

• • •

Louise: Since you are not on intimate terms with your hostess, a note like this would be correct:

Dear Mrs. Brown:

I shall not let another moment pass without telling you how much I enjoyed my visit. It was wonderful. I love to think of the happy days and evenings, and I thank you a thousand times for having asked me to come.

Yours sincerely,
Louise White.

The note should be sent promptly, of course.

Frankness was invented to conceal the truth.

FAVORITE RECIPE

CREAM CAKE

(Contributed by Miss Lilian Syer, Cavan.)

- 1 cup white sugar
- 1 egg, ¼ teaspoon salt
- Beat until light
- ½ cup cream; fill the cup with sweet milk.
- Beat again.
- 1¼ cup flour, 1 teaspoon baking powder and ¼ teaspoon soda sifted with the flour.
- Beat again and put in jelly cake tins.

FAVORITE RECIPE.

Butter Scotch Pie.

(Kindly contributed by Mrs. J. W. for Mrs. E. R.)

"Dear Marion,

"Seeing your request for a recipe for Butter Scotch pie, I am sending you mine, which I think is real good.

"Two cups of milk, 2 tablespoons of butter. Put in a saucepan and heat.

"Yolks of 2 eggs 1 cup of brown sugar 1 teaspoon vanilla, 2 heaping tablespoons of flour. Mix the eggs, sugar, vanilla and flour together with a little milk, and stir into the hot milk and butter, and cook until thick. Place in pie shell and us the 2 whites of eggs for the top."

Red on Steel Stove.

(Kindly contributed by M. A. M., Millbrook, for Blue Eyes, Lakefield.)

"My dear Marion,

"I read in your paper of some one asking advice to blacken a steel stove that had burned red. Try 'Stove Ink' at 25c a bottle. Follow directions. If it is only for the top of the stove I find it real good.

"We have taken your paper for some time, and enjoy it very much.

M. A. M."

Red-topped Steel Stoves.

Contributed by Mrs. S., Cavan, for Blue Eyes, Lakefield.)

Where a stove is hard to keep blackened on the top, the addition of powdered bluest ne to the blacklead will help a great deal. Apply to the stove when cool.

MARION'S MAIL.

"Dear Marion,

"Is the use of perfume good taste or bad? I hope you will give me an early answer, to settle an argument. Dot."

This is a question that cannot be answered categorically. There are qualifications at every turn. First, there is the choice of perfume. There is such a thing as perfume to match your type. Just the right perfume incautiously used is bad taste. The wrong perfume carefully used is unfortunate. Just the right perfume employed in just the right way, in just the right amount and at the right time is the final exquisite feminine touch and will, regardless of all the arguments in the world for or against, and whether the men like it or not, be dear to the heart of every daughter of Eve. This much you can rely on. Nobody ever puts a dab of perfume on the handkerchief nowadays. The atomizer is best. The perfume may be sprayed lightly on the body or underwear. Never touch with perfume the clothes that will not be changed at the end of the day. You do not want to remind your friends of dead flowers.

• • •

"Dear Marion,

"I just want to tell you how much I like your dainty writing paper. I don't think I ever saw anything so nice, and I'm glad you had to send me the private reply. I've shown my letter to all my friends, and they are surely delighted with it.

Yours sincerely,
"Elsie."

I'm glad that you like my correspondence paper, Elsie. I'm rathe glad, because I designed it myself, and had it printed by The Examiner, so you see it is all a home-town product! It is wonderful what you can do with paper, type, pictures, and ink!

JONES HAS CLOSE CALL FROM ELIMINATION

MANY UPSETS AND THRILLS IN OPENING ROUNDS OF PLAY FOR AMATEUR GOLF HONORS

Five Former Title Holders Eliminated From Battle at Newton.

VON ELM OUT.

Jones Stages Desperate Uphill Fight To Outlast R. Ray Gorton.

(By Alan J. Gould—Associated Press Sports Editor).

BRAEBURN COUNTRY CLUB, Newton, Mass., Sept. 13.—The downfall of five former American title holders and a close call for the king himself, Bobby Jones, yesterday furnished a succession of upsets and thrills in the opening rounds of match play of the amateur golf championship.

With his crown hanging in the balance, Jones staged a desperate uphill fight in his second match to outlast R. Ray Gorton, home club veteran, and win by the margin of one up at the 19th hole, after he had easily deposed of the New Jersey champion, J. Wolcott Brown, by a score of four and three, in the morning round.

This victory for Jones, the first extra hole match he has ever played in the title tournament, brought to a spectacular climax a day that saw the defeat of the man regarded as his most dangerous rival, George Von Elm of Detroit, the only man who has beaten Bobby in the last four years of championship play.

Von Elm, eliminated in the first match of the day by Arthur W. Yates of Rochester, N.Y., by 3 and 2, faded out of the title picture along with four other ex-champions — Francis Ouimet, Max Marston, Jess Sweetser and Chick Evans—and the champion of Canada—C. Ross Somerville.

Rain Hinders Play.

A drizzling rain most of the day beat down on the shattered hopes of these golfing giants as the field of 32 that started yesterday morning was abruptly cut down to a select group of eight. This array is composed of six Americans, led by Jones, and two British contenders, led by their own champion, T. P. "Phil" Perkins. The survivors, in the order in which they will start play to-day at ten o'clock, follow:

Upper half:

Phil Perkins, Great Britain, vs. John Dawson, Chicago.

Dr. Oscar F. Willing, Portland, O., vs. George Voigt, New York.

Lower half:

Phillips Finlay, Boston, vs. Harrison R. "Jimmy" Johnston, St. Paul.

John B. Beck, Great Britain, vs. Robert T. Jones, Jr., Atlanta.

Only a brilliant comeback by Jones, after one of the worst outward nine holes he has ever had in big tournament play,saved the three-time American champion from suffering the same fate that befell the other favorites. Where he had played sub-par golf in the first round to trim Brown, the Georgian lost six strokes to par and two holes to Gorton out of the first four. Only the fact that the home club star himself was going poorly kept him from running up an overwhelming lead at a time when the champion was so badly off his game.

Jones, although 42 at the turn, seven over par, actually managed to square the watch on the eighth and ninth, but there were fireworks from then on as both Bobby and his rival beat par on the inward nine. A birdie four wasn't good enough to win for Jones at the tenth, where Gorton shot an eagle 3, laying his second shot dead. Bobby squared the match at the twelfth, but was down again on the next as Gorton bagged a birdie four. It took another birdie, a three by Jones on the 15th, to again bring about a deadlock that lasted to the deciding hole.

While a huge gallery looked on in the rain, Gorton saved himself on the eighteenth in dramatic fashion, holing an eight-foot putt for a half in five after topping his drive into the rough, playing a backward and finally reaching the green on his fourth shot. Jones, on in three, had a 25-foot putt which he laid dead. Partially stymying Gorton, the latter curled his ball around and into the cup to an accompanying din of cheers, but this heroic effort was wasted when he sliced his tee shot on the first extra hole into the rough and lost the match.

Von Elm, the victim of a first day upset for the second straight year, found an enemy in his putter as well as in Yates. The former champion tossed away what few chances he had on the greens, while Yates, playing par golf most of the way, took a lead of 3 up at the turn and settled the issue on the sixteenth green. The Rochester star's success was sensational but short-lived, for he was put out in the second round by the British champion, Phil Perkins, 2 and 1.

Had Narrow Escape.

Perkins himself had a close call from elimination in the first round, winning the longest match of the day when he went to the twenty-second hole to beat the youthful Donald E. Moe of Portland, Org., one up. Moe, two up and three to go, tossed away his chances on the last three holes. He missed a three-foot putt on the 18th green that would have given him victory, after Perkins, with a fine rally, had squared the match on the 17th hole.

George Voigt, of New York, the medalist, continued his sensational golf at the expense of Jess Sweetser, whom he beat, 3 and 2, in the second round, after disposing of Billy McPhail of Norfolk, Mass., by the same score in the morning.

Voigt faces another severe test, however, to-day, when he meets Dr. Willing, who exhibited the most sensationally consistent golf of the day. The Portland, Org., dentist, continuing the great pace that he set to qualify Tuesday, trounced the southern champion, Watts Gunn, of Atlanta, four and three, in the first round and then overwhelmed the British star, Eustace F. Storey, in the second round, six and four.

ATHLETICS TAKE FINAL TUSSLE

Are Now Trailing the Yankees One and Half Games.

LEAVE FOR WEST.

(By William J. Chipman, Associated Press Sports Writer.)

NEW YORK, Sept. 19.—Prof Cornelius McGillicuddy marched solemnly about the premises of Jacob Ruppert yesterday afternoon gathering up the bits of wreckage. In them he found one practically unused ball game, which he promptly appropriated by a score of 4 to 3, over vigorous and sustained protest by the Yankees. The Athletics so escaped from the Bronx with one victory in four engagements, and vanished into the west trailing the champions by one and one half games.

The battle moved through almost eight innings as a pitcher's duel between Waite Hoyt and Howard Ehmke, but then developed quickly into a contest of strategy between Messrs. Huggins and McGillicuddy. The winning blow was Max Bishop's home run with two out and none on the base in the ninth. This smash over Babe Ruth's head into the right field seats broke a 3 to 3 tie in favor of the Macks, and so unnerved Hoyt that he turned the reins over a moment later to George Pipgras.

Pitched Magnificent Ball.

The veteran Ehmke, battered and beaten in almost all of his recent starts, pitched magnificent ball against the champions until he wrenched his knee in delivering the ball to Tony Lazeri in the eighth. The tall right hander so injured himself that he had to give way to Oswald Orwell with two out, the Athletics one run ahead and the bases full of Yankees.

Orwell was no part of the blonde dragon of last Saturday in Boston. He promptly passed Lazzeri to force home the tieing run and then worked the count to three and two on Mike Gazzela before finally retiring the Yankee third baseman on a high fly to Haas.

Such antics were very trying on the nerves of Connie Mack, already sorely taxed and Rube Walberg was found in the centre of the diamond in the ninth to defend the new Margin the Macks had built up with Bishop's home run. The Rube passed Collins for a starter, giving the 40,000 something to yell about, but settled to his task and retired the next three men without incident.

Fanned Six.

Although Ehmke gave the Yankees ten hits in the seven and two-thirds innings he worked, he fanned six and so scattered the drives that he seldom was in trouble. Three Athletic double plays came in handy in blocking just that many incipient Yankee rallies, although Hoyt batted in a run while hitting into a double killing in the fifth.

The champions started the scoring with one in the third by bunching two singles with a pass and a force out, but the Athletics came back with two in the fourth and would have had more but for some dense base running by Al Simmons.

Cochrane doubled and Al walked, only to be trapped off first a moment later on Bengough's snap throw to Lazzeri who sneaked over to the bag as Gehrig moved in for an expected bunt. As a result Cochrane was forced off second and run down, and Simmons was lucky to get safely back to first.

Singles by Fox and Dykes and a sacrific fly by Miller followed immediately, sending two runs across the plate, the second made possible by Combs' wild return of Miller's sacrifice.

A pass to Robertson, Bengough's single and Hoyt's smash into a double play put the Yankees on even footing again in the fifth, but the seventh saw the Athletics jump ahead once more on singles by Boley, Bishop and Haas

The eighth inning crisis which the Athletics weathered just when it seemed they were sending another game to the bow-wows, began harmlessly enough. Combs singled to Boley, but died trying to make third on Koenig's smash into left for a base. Gehrig obliged with a strike-out and Connie ordered Ruth passed. Meusel next was hit by a pitched ball and the bases were filled. The fans, now with the Yankees, yelled madly for a base hit as Lazzeri marched to the plate. Ehmke seemed to take an extra step forward in delivering the ball to Tony, and apparently wrenched his right knee. After a consultation in the middle of the diamond among members of Mack's board of startegy, young Orwell was called into action, with the results noted.

Milwaukee at Minneapolis postponed on account of wet grounds.

GOLF PLAY POSTPONED

Canadian Women's Golf Championship Called On Account of Rain.

FINAL ON SATURDAY.

MONTREAL, Quebec., September 13. Canadian Press. — There was no play yesterday at Beaconsfield golf club in the second round of the Canadian Womn's Golf Championship, and in the consolation flights, as scheduled. Rain and a course puddled with pools of water made it essential that the play be postponed.

To-day the second and third rounds will be played, 18 holes in the morning and 18 in the afternoon. Provided no further delay is necessary due to weather conditions this will leave the semi-finals to be contested on Friday and the final on Saturday.

Two rounds, which will bring the event to the semi-final, are scheduled for to-day in the championship consolation and one round in each of the five consolation flights.

VIEWS ON SPORTS

Softball fans should take in the C.G.E. play-off games now being staged in Confederation Park.

While the city league softball is over there are still the odd few games (exhibition and otherwise) being staged in Confederation Square these nights. In the C.G.E. finals, the Punch Press department eliminated the Meter Men on Tuesday to meet the Test Office crew in the first game of a three game series for the championship, to-night at the Park while two all-star teams are slated to play also.

• • • • • • •

Gingerbury will likely do the hurling for the St. Francis team when they come to Peterborough on Saturday afternoon for the second game of the bantam O.B.A.A. finals on Saturday afternoon at James Stevenson Park. Playing the same ball that they did in the city league running, the Riley and Hickey crew are bound to give the visitors a run for the honors and baseball fans can be assured of one hot argument when these two teams clash. Providing the weather is a little more favorable than it has been for the past few days a goodly crowd should be on hand to witness the battle.

• • • • • • •

Bishop's home run into the bleachers of the Yankee Stadium broke the tie that won the final tussle for the Mackmen in the four game series between the New Yorkers and Philadelphia in the American league yesterday. The runners-up have thirteen games to play and they must win eleven of these to take the flag if the rejuvenated champions take at least ten victories out of their fifteen games scheduled.

• • • • • • •

While two of the leading contenders for the national league honors were idle yesterday the St. Louis Cardinals increased their lead in the standings to three full games by reason of their 2-1 victory over the Cincinnati Reds. A rally in the fourth scored them the winning run although they were outhit 7 to 3 in the game.

• • • • • • •

William Drury, pilot of the Naco plane won the international feature event of the 1928 national air races when he landed his plane at Mines Field, Los Angeles last night. The race started at Windsor, Ont. There was only one other pilot in the race at the time Drury came home to victory.

• • • • • • •

The soccer tip-bit of the season will be played on Saturday afternoon when the Canadian General meets the DeLaval in the final of the G. N. Gordon trophy. It is many years ago since the local electric boys had their name engraved upon the silverware while the DeLaval intend achieving this issue this year.

BUFFALO CLIMBS ABOVE TORONTO

Defeats Rochester 11-2 While Leafs Are Idle at Montreal.

ROCHESTER, Sept. 13. — Rochester and Buffalo closed their season's play yesterday, the Bisons bringing the Red Wings down to near even terms in the pennant chase, as thy won a one sided contest 11 to 2. The Bisons now trail the Wings by two points in the pennant chase with Toronto two points back of the Herd. Rochester and Buffalo are tied in the matter of games won and lost, and hold a half game margin over Toronto.

Rookie Wins for Newark.

NEWARK, Sept. 13. — Four successive singles in the eleventh inning at Newark yesterday, against Pitcher Socks Selbold, gave the Newark Bears a 4 to 3 victory against Reading. G. Thomson, a rookie infielder from the Blue Ridge League, sent the winning run over the plate. The Bears made five double k[illegible]s which checked as many rallies. Lee was the hitting star with three.

Orioles Break Even.

BALTIMORE, Md., Sept. 13. — After dropping the first game to the Jersey City Cats, 5 to 3, for three straight losses the Orioles came back to take the abbreviated second game of the doubleheader here yesterday by 7 to 2.

Cliff Jackson, one time Baltimore pitcher, was touched for nine hits by the locals in the first game, but kept them well scattered and tightened up in the pinches. Guy Cantrell blazed through five innings, yielding but two hits and one run. Then came the deluge of five hits for four runs, and Guy went to the showers. Johnston took up the burden and went the rest of the way without much difficulty.

NO MORE PILES

Thousands Bless Dr. Leonhardt, the Specialist Who Discovered This Common Sense Remedy

If you think that the surgeon's knife is the only method of escape from the misery of piles, it's because you haven't heard of the internal treatment known as Dr. Leonhardt's HEM-ROID.

J. S. Leonhardt, M.D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named this prescription HEM-ROID, and tried it in 1000 cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere with money back guarantee. It is easy to take, and McDermid & Jury, Bond's drug store will gladly refund the purchase price to any dissatisfied customer.

CARDS GAIN LEAGUE LEAD

Defeat Cincinnati Reds 2-1 For Three Game Lead.

OTHER CONTENDERS IDLE.

NEW YORK, Sept. 13 (Canadian Press),—Despite the fact that they were outhit 7 to 5, the St. Louis Cardinals increased their lead in the National League to three full games by virtue of a two to one victory over the Cincinnati Reds in the last home game of the season at St. Louis yesterday.

A walk, a single and a sacrifice in the opening stanza enabled the Reds to get their only score of the game, while the Cardinals collected their counters in the fourth when a walk, a balk, two singles and a stolen base were transformed into runs.

The New York Giants and the Chicago Cubs, other leading contenders for the pennant, were idle.

Watson Clark, Brooklyn southpaw pitcher, sent the Robins at Philadelphia yesterday a little further along the road to the .500 average for the season that is their aim by turning in his second victory in three days over the Phillies yesterday. The score was 6 to 1.

The Mississippi portsider limited the Phils to five hits, all of which came in three innings. This gives him a record of 12 hits and three runs in the two victories he has scored here.

CATTLE, GRAIN AND PRODUCE

(Continued from Page 4.)

rallies set in, with the upturns owing in some degree to word of heavy rains likely to cause delay to movement of domestic spring wheat north-west.

In addition to late reports that Russia would be forced to buy foodstuffs on account of distressed conditions in the Ukraine, the fact that the domestic spring wheat movement is not of large proportions attracted increasing notice as the day drew to an end. Trade talk was current to the effect that good wheat is being well taken by mills, and that premiums on all kinds of milling wheat show a tendency to harden. Under such circumstances, the market all around went above Tuesday's finish, and closed at nearly yesterday's top level.

Corn prices tightened up sharply yesterday for September contracts, but deferred deliveries tended to sag. With receipts small here as well as west and south-west, much buying was in evidence on the part of traders short of corn to fill requirements before October 1. On the other hand, new crop deliveries were bearishly affected by official reports that much corn is already out of danger from frost. Oats were steadied by the fact that receipts lacked volume.

Firmness of hog values upheld the provision market.

STERLING EXCHANGE.

MONTREAL, Que., September 13 (Canadian Press). — Sterling Exchange closed here yesterday as follows:

Demand—$4.84 5-16 to $4.84 7-16.

Cables—$4.84¾ to $4.84 13-16.

BUTTER AND EGGS.

TORONTO, Sept .13.— Quotations on the Toronto wholesale produce market continue firm with the tendency toward greater firmness. Rising quotations on eggs taking place on Tuesday are being maintained, and in the selling division the prices are again somewhat higher. In selling to Toronto retail dealsr, the wholesalers are now quoting on eggs: Fresh extras, in cartons, 49 to 50 cents; fresh extras, loose, 48 to 49 cents; fresh firsts, 42 fo 44 cents; and fresh seconds, 36 to 37 cents .The wholesale markets for butter, cheese and poultry are firm, with quotations unchanged.

O'Keefe's Dry GINGER ALE

What is the secret that gives O'Keefe's Dry that exclusive...inimitable flavor?
First...the water, crystal-clear, from a famous spring...then it is because we skilfully blend the finest Jamaica Ginger, pure cane sugar and selected fruit essences, and further because *O'Keefe's, like a rare old wine, is mellowed by age.*
There is no secret about the fact that O'Keefe's Dry is Canada's favorite beverage.

DOLORES DEL RIO IN RAMONA

THEATRES

AT THE REGENT.

"The Wreck of the Hesperus" Has Thrills Aplenty as Big Story Approaches Dramatic Climax. Longfellow's Poem of Fierce Sea storm of 1839 Screamed in Thrillingly Realistic Manner.

Rain and wind whistling through her canvas—spars snapping, cracking, and crashing from aloft—her crew crazed by the fury of the storm—her mainmast toppling to the deck—and she pounding herself to pieces on the menacing rocks of Norman's Woe!

Such was "The Wreck of the Hesperus," immortalized by Henry Wadsworth Longfellow in his famous ballad, which has been finely brought to the screen as a De Mille special. Elmer Clifton, who won fame as a director by his remarkable production "Down to the Sea in Ships," directed the production from the script of Harry Carr and John Farrow, who adapted the poem for filming.

Spectacular Scenes

In this production, the spectacular wreck scenes, which come as the high point of the picture, appear to be the most realistic ever filmed. Stark realism is the goal of Clifton, since the storm about which Longfellow's poem was written was one of the most terrific of maritime record. This storm, which occurred December 15, 1839, witnessed the loss of countless vessels, among them the "Hesperus."

Noted Players Featured

Featured in the leading romantic roles of "The Wreck of the Hesperus," which will be presented at the Regent Theatre to-day are Frank Marion and Virginia Bradford, a junior "team" of screen lovers that first won public attention by their work in "The Country Doctor." Alan Hale, Sam De Grasse and Ethel Wales, Josephine Norman and Milton Holmes are others of the cast.

AT THE CAPITOL.

THRILL AND COLOR OF UNDERWORLD ADVENTURE IN "THE HAWK'S NEST" WHICH OPENS AT THE CAPITOL TO-DAY—SILLS' PICTURE WILL SATISFY PUBLIC'S CRAVING TO BE HELD IN THE GRIP OF UNUSUAL HAPPENINGS.

Underworld pictures seem to satisfy the innate craving of most people for the thrill of witnessing those happenings that are hidden from the ken of the average man or woman.

Thus Milton Sills' latest picture "The Hawk's Nest," which opens at the Capitol Theatre to-day, grips immediately and maintains its hold to the end of the picture.

Wid Gunning wrote a story that teems with action and with just enough mystery surrounding the central character of the Hawk to arouse and stimulate curiosity, as to the denouement.

Milton Sills, as the Hawk, does a remarkable and virile characterization. A villainous heavy is played by Montague Love, as Daugherty, rival gang leader, in the underground haunts of the shady characters in a great city. To add to the festivities a number of mysterious Orientals are introduced including the sterling actor Sojin. A beautiful girl of the night clubs played with charm and dash by Doris Kenyon develops a love interest in which the Hawk is the opposite figure.

A murder attributed to a pal of the Hawk, forms the nucleus of the story. The Chinese lineup against a suspected gangster who turns out to be the real killer, and by a clever twist at the finish, his confession of murder is obtained and the accused man freed. The Hawk gets the girl and the audience is satisfied.

"RAMONA" COMING MONDAY, TUESDAY, WEDNESDAY

There will be three performances daily with "Ramona" in order to avoid any disappointments. Matinees at two thirty, and two performances each evening at seven and nine o'clock. Miss Geraldine M. Collins, A.T.C.M., Gold Medalist at the Toronto Exhibition will sing "Ramona" at the evening performances.

Marmora

(Examiner Correspondence)

MARMORA, Sept. 12.—Miss Jean Thompson is attending a Collegiate in Toronto.

Miss Jean Hughes, of Toronto, is on a visit to Mr. and Mrs. J. R. Hart.

FINE ANIMALS ARE DISPLAYED AT EXHIBITION

Breeders For Miles Around Send in Their Choicest Stock.

CATTLE PREDOMINANT.

Beef and Dairy Classes Well Filled—Other Animals Plentiful.

While vaudeville, music, rides and shows contribute greatly to the success of an exhibition such as the Peterborough Industrial, from an entertainment point of view, still, the exhibition of all that pertains to agriculture is a fundamental part, lacking which the big fair would fall "flat" indeed.

The live stock section of the Peterborough "Ex" this year is one of the most successful departments—a fact revealed to The Examiner during a tour of inspection through the splendid new buildings provided for the housing of the cattle, horses, sheep and swine. All available space has been utilized and on Wednesday, the judging of the stock created a busy scene in and around the buildings referred to. The results of the judging will appear elsewhere in The Examiner.

Beef and dairy cattle are present in large numbers and among the latter class are a splendid herd of Guernseys, the only one of its kind in the "Ex." and one of a very few in this ection of the province. They are owned by J. Milligan and Sons of Maple Stock Farm, Cannington, "the Home of Good Guernseys," and were brought from Nova Scotia a year ago last May. There are nineteen head in all, included among which are an aged bull, a yearling bull, three bull calves, an aged milch cow and an aged dry cow. Eighteen ribbons were captured by this herd at Toronto Exhibition in competition with many of the best on the continent. The aged bull took the grand championship last year. It is a herd worth seeing.

In the beef cattle ciass are placed the twelve head of Polled Hereford cattle exhibited by Mossom Boyd and Company of Bobcaygeon Among them are one grand champion bull and a grand champion female at Toronto Exhibition as well as ten other firsts. Coming direct from the C.N.E. the cattle are in the best of condition and are making a very creditable showing.

Mr. Blackburn, of Uxbridge, is present with, and enthusiastic over, his twenty-one head of Aberdeen Angus cattle, ranging from mature head to yearling stock. The pure black Aberdeen Angus animals are attracting consderable attention as are Charles Wes'lake's four head of Herefords, comprising a splendid bull and three females. They will be competitors for the four township prize as well as in the straight breed competition

The Fair Valley Stock Farm of Reaboro, breeders of Scotch Shorthorns, has seventeen head in its herd and W. E Skuce, owner, expressed confidence that they would carry off some of the prizes. Field Lodge Farm of Roseneath has seht sixteen head of Jerseys and among them is a celebrity in the dairy cattle world, namely, Silver Boy III, who has been chosen by the Jersey Cattle Club to be one of thirty head being sent to Memphis, Tennessee, where the U. S. National Dairy Show is to be held. Another Jersey herd is exhibited by E. L. Bell, of Peterborough, R. R. 7, included in which are calves under six months and two mature cows.

George Whittington and Son of South Monaghan, have a Shorthorn exhibit that is well up to the high standard of the Peterborough Fair, while James Whittington has entered a yearling bull, "Marquis Dale," purchased at the Royal Winter Fair last November. This is the first time James has been an exhibitor here, but George Whittington has been at the "Ex" each of the last four years

The Rt. Rev. W. J. McColl and N. W. McConkey, of Peterborough, have it in black and white—eleven head of Holsteins including "Sir Bloomfield Alcartra," an aged bull who was grand champion at Lindsay Central Exhibition last year. Two aged cows, two 2 year olds, and two yearlings, a bull calf and two junior heifer calves are also in the exhibit .

Pinecrest Farm of J. Gordon Mann and Son has a large herd, nineteen head of Ayrshires including an aged bull, "Robinhood of Springbank." Incidentally, it might be mentioned that in discussing the De Laval Automatic Milker being in stalled in the cattle barn building. Mr. Mann stated that he had been using such a milker for the past ten years, having secured the first machine installed by the De Laval in Canada.

World's Champion Present.

James Seymour and Sons, Holstein breeders, have no less than twenty-one head of cattle on exhibit, and among them was no less a personage in cattledom than the world's champion cow, 'Idylwilde Korndyke,' whose record of over a thousand pounds of butter in 305 days, milking twice a day, stands far beyond her nearest rival.

The Ayrshire Heifer Club has eight splendid head on exhibit, while W. H. Down of Lakefield has eight fine Jerseys. Allan B. Mann has five head of Shorthorn cattle, while Kerr and Davidson of Markham are on hand with fifteen of the same breed. Frank Birdsall of Birdsall's Station is not superstitious, for he has thirteen head of Hereford cattle, including a champion of last year.

Garnett Kerr of Campbellford has sixteen head of beautiful Jerseys; G. T. R. Kerr has eleven head of Ayrshires, including several prize-winning combinations at Belleville.

Horses Plentiful.

In conversation with Director Knox, The Examiner gained a few interesting sidelights on the class and number of horses which have come to the Exhibition this year, either for showing or grandstand performances. Mr. Knox was especially pleased at the large turnout by local exhibitors in the various classes. Every available space had been utilized.

The driving class is particularly strong this year, according to Mr. Knox, while G. A. M. Davidson, of Unionville, has brought to the Exhibition, a number of splendid ponies and saddle horses. The famous jumping horses or "hunters" of R. Rogers, Toronto, will, along with a couple of mounts owned by C. S. Richardson, of Aurora, be seen in performances before the grandstand during Thursday, Friday and Saturday.

Good Showing of Sheep.

Another particularly encouraging feature of the live stock department this year is the showing of sheep, which has taxed accommodation to the limit and provided plenty of competition. All breeds are well represented. In the section reserved for swine, there is a fair representation, though the turnout of porkers this year has not been as excessive as in the other departments.

Exhibitors Satisfied.

Curious as to the opinions of the many exhibitors regarding accommodation for their live stock, The Examiner was careful to inquire of them and in every single case, "absolutely satisfactory" was the answer. The new cattle barns were accorded no little praise, filled to overflowing as they were with accredited herds. The competition was very keen among the Holstein classes, with a pleasingly large number of local entrants.

BICYCLE RIDING WITH SAFETY TO BE DEMONSTRATED AT FAIR

Fred St. Onge To Ride At Exhibition On Saturday Morning.

SPECIAL FOR CHILDREN.

Admission Fee To Be Ten Cents —Several Contests Will Be Held.

Fred St. Onge, internationally known bicycle rider, made a brief tour of the city yesterday to secure information as to what particular unsafe practices some of Peterborough's bicycle riders are indulging in. He finds there is a deplorable lack of the use of proper hand signals.

St. Onge says there is no excuse for failure to use proper signals when making left or right hand turns, or when about to stop, in the same manner which automobile drivers are expected to use. Courtesy and safety on the streets should prompt every bicycle rider to see that vehicles following him are fully warned as to just what his intentions are.

St. Onge rides a wheel that he has ridden in parctically every city in the Dominion, which is a "shining" example of the properly adjusted wheel, saddle in the correct position, handle bars at proper height, proper sized sprockets and with pedals within easy reach when riding. Attention is also called to proper warning signals such as a bell or a horn and a light for night riding. He emphasizes the value of riding a bicycle which is properly adjusted, such as his own, as it affords complete control over the bicycle at all times. The pedals, being easily accessible, prevent wobbling up and down, which often times results in youthful bicycle riders losing their balance and getting a severe fall, or being run over by a closely following vehicle, and smilar accidents

Through the courtsy of Exhibition officials the front of the Grand Stand on the track at Exhibition has been secured for a big Safety First demonstration on Saturday morning at ten-thirty o'clock. All bicycle riders and scooter chasers are invited to participate in the event. A close-up exhibition of proper riding methods will be given and several contests will be staged. To make the affair more interesting an abundance of prizes will be given to riders for the best decorated wheels and to winners in a fifty yard scooter race.

A contest that will excite great interest and one quite new will be the plank riding event, where the rider will attempt to ride a narrow board five inches wide, half an inch thick and 150 feet long. The plank lies flat on the ground. The contest is open to all bicycle riders, with no entry fee and no registration to make. There will be three fine prizes in the plank riding event. Saturday will be Kids' day at the Exhibition and a special price of ten cents admission will cover everything.

NOTED CYCLIST HERE FOR EXHIBITION

Photo shows Fred St. Onge internationally known bike rider who will be remembered for the high wheel stunt he put on here several years ago. Mr. St. Onge travels all over Canada demonstrating the correct methods for riding bicycles in safety. Mr. Ste Onge has generously given his services through the courtesy of C.C.M., Weston, Ontario and will direct a big bicycle program Saturday morning in front of the grand stand when all Peterborough boys and girls will be invited to participate. A plank riding contest will be a big feature of the program. A special prize has been set by Exhibition officials for boys and girls. Ten cents will admit to the grounds and grand stand Saturday morning.

PLOT FRUSTRATED.

Arrests Last Night Prevent Rising To-day Against Primo de Rivera.

MADRID, September 13 (Canadian Press).—Announcement was made today that a plot against the Government of Primo de Rivera had been frustrated. Arrests nipped the plot in the bud. The statement said that the anti-Government movement was to have come out in the open to-night with various elements participating.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Bisurated Magnesia to Overcome Trouble Caused by Acid Indigestion

Gas in the stomach accompanied by a full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful or four tablets in a quarter glass of water right after eating. This will drive the gas wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation, and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never in liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

NOTES ON THE PETERBOROUGH INDUSTRIAL.

Shortly after eight o'clock in the evening, the weather took a decided turn for the worse and the 57th Band, a vocal soloist and finally the band of Pipers gave in. But there was one provider of music that didn't worry about weather— it was the large Northern Electric Amplifying service which, tuned in, broadcast about the grounds a pleasing selection of record music. And then the storm blew over, the bands came out and the Fair went merrily on.

A touch of the good old times was seen along about five o'clock in the afternoon over by one of the horse barns. The Old Time fiddler who has been providing so much amusement during the last couple of days, had climbed high on top of a wagon, another good sport among the exhibitors climbed to an improvised platform and to the enjoyment of a large audience that sprung up seemingly from nowhere, began as clever a step dance as has been seen on the grounds in many a day. No encores—when it was over he took away off toward the live stock buildings "to feed the pigs," his exhibit at the "Ex."

There is a happy spirit of satisfaction existing among the Live Stock exhibitors, who ungrudgingly declare that everything has been done for the comfort of their stock — good buildings and courteous treatment is bound to make the first year exhibitor a repeater.

"Please Help the Blind" read a sign on his headpiece, as he came hesitatingly through the gate of the Peterborough Industrial Exhibition on Wednesday afternoon and sat him down on a bench near the Band stand. He began to play in masterly fashion on his mouth organ and as he played, the 57th regiment band refrained from continuing its program. His tune was of short duration—and the band concert was resumed.

Just a little courtesy, you know, and possibly the bandsmen were not aware of it even. But he sold a couple of pencils by that tune.

A tiny brown kitten meowed forlornly in the rain on the roof of the cattle barn last night. With the assistance of two tall men, a trio of small boys rescued it. It found a snug corner inside the coat of a member of the group, while another fed it all of his weiner and a lot of popcorn. "We're going to take it home," they announced. "It's a part Persian," displaying a long and wiry tail in proof of the assertion. The kitten blinked its eyes sleepily, secure in the knowledge that it was in good hands.

ILLUMINATION AT THE EXHIBITION

Lighting Arrangement Has Been Well Taken Care Of.

Harry Beatty and his staff of electricians as usual have made the Exhibition Grounds a veritable fairyland. The night effect is most imposing, and has a good deal to do with the pleasure obtained by the big crowds in attending the Fair.

GROUNDS MAKE GAY SPECTACLE

Fresh Coat of Paint To Fences and Buildings Brighten Appearance.

COLORED LIGHT SCHEME.

Never before in the history of the Exhibition have the grounds looked so beautiful. A fresh coat of white wash to the fences and many of the buildings makes them stand out most prominently. The late rains have added a green tinge to the grass which so often looks brown at this time of year.

A colored light scheme has been installed by Harry Beatty and his band of electricians that makes the grounds look most gorgeous at night. Mr. Beatty and his workmen have spent many hours in arranging the lights and their efforts is more than revealed when the shadows of night fall on the grounds.

The directors this year have been most careful in alloting the booth space and great care has been taken in keeping the booths as far as possible away from the main grand stand where seats have been provided and visitors to the grounds can sit and listen to the bands.

SEARCH ABANDONED.

ROME, Sept. 12 (Canadian Press). —The abandonment by the Italian Government of further search for possible survivors of the "balloon party" in the Nobile Arctic disaster was seen to-day when announcement was made through the Stefani News Agency that the vessels now in Spitzbergen waters would be recalled.

For nine consecutive years the University of Toronto has won the senior intercollegiate hockey championship of Canada.

In the deep, cool shade of the veranda . . .

LATE in the afternoon when the heat of the day is spent you sit on the veranda reading a summer book. Perhaps a few friends call. Perhaps you are there alone and a neighbor comes across the lawn. And you welcome your friend.

These little occasions offer an appropriate time to serve "Canada Dry." It is a delicious beverage, with a subtle gingery taste, with a dryness and thirst-quenching allure which instantly appeals.

The delicate flavor of "Canada Dry" is partly due to pure Jamaica ginger; partly to the blending and balancing, under rigid laboratory methods, of the purest ingredients. This fine old Canadian product is mild, mellow and "dry." In short, it is a real ginger ale. And because of its secret method of carbonation it is especially good for you in summer-time. Order "Canada Dry" in the convenient Hostess Package of 12 bottles. Then you always have some on hand.

GOOD EXHIBITS IN MAIN BUILDING

Local Firms Display Latest in Clothing and Other Products.

In the Main Building at the Exhibition, the upper floor is given up to the display of women's work, which has already been reviewed, as has been the exhibit of Art work shown on the lower floor.

A number of interesting displays are on view on this lower floor, where a corner section is devoted to photographs of various types from the F. L. Roy Studio. There are lovely examples of up-to-date photographic art on exhibit, including several handsome large portrait photographs, a group of dainty little French etchings in gilt frames, group photographs of local and visiting celebrities, groups of graduate nurses in their fresh white caps and uniforms, color enlargements, copies of old family photographs, daguerrotypes, tintypes, and paintings, enlargements of snapshots and outstanding examples of the "Mother" and "Baby" pictures which are specialties at this studio.

In a tiny corner, the John R. Cressy Company of Toronto is demonstrating its perfumes, and in the same block, the Teco Store has a display of electric washers.

The exhibit of men's wear on view in the little living-room interior of the Teco Store is very good. In a setting of French blue and ivory, with rugs and walnut furniture and tall lighted floor lamps, different types of men's wear are exhibited to the best possible advantage. There are men's coats, suits, ties, shoes, shirts, club bags and gloves. Blue serge suits, pin stripings, single-breasted sack suits, ties in Roman stripes and figured effects, coats in tweed and woollen materials and light grey fedora hats, make up the display.

The Dominion Experimental Farms at Ottawa have one of their pictorial exhibits which are always of the most modern type. Sliding, illuminated picture panels show various activities of farm life; there is a miniature model of a "desirable poultry plant" and a model of an "undesirable" one, contrasting methods being demonstrated, and there are glass tubes containing samples of various seeds. A revolving stand also holds seeds and grains and free agricultural literature is distributed.

Interesting and novel is the exhibit of the Peterborough Lumber Company showing Gyproc and California stucco, the latter being a new colored plaster for interior decoration. The display of Gyproc is in different panels, showing the process of treating seams and joints with this substance and the completed effect when finished with wall paper. The California stucco is displayed in colors of rose, yellow, blue, brown and cream.

The Singer Sewing Machine Company, in a small living-room interior, fitted with wicker chairs, rugs and pictures, shows the latest models in sewing machines of the electrically-driven and treadle type, with demonstrations of "binder" and "tucker" attachments. A huge mauve doll at a tiny table is in charge of a child's sewing machine, miniature in detail except for the senior-sized spool of thread which tops it.

A very fine exhibit of furs, in the raw and finished state, is made by Barrie's, Limited. The walls, ceiling, floor and stands in this compartment are hung and draped with pelts of fur-bearing animals and with women's coats and scarfs made from the finished skins.

A dazzling white coat resembling ermine, without the black markings, is of white coney and has a collar of white Iceland fox. Another unusual garment is the coat of Greenland seal, which is a golden-brown, shiny, long-haired fur, with collar and cuffs of the same, dyed dark brown. Blended and natural mink, grey squirrel, seal and Persian lamb, are used in other coats and there are fox scarfs of many types and colors, from silver to red.

Grey fox trims a coat of grey lamb and collars and cuffs appear also in Kolinsky and opossum. A caracul paw coat of soft brown, tasselly fur, has a collar of brown wolf, showing the season's vogue for harmonizing colors in women's wear.

OIL ON RUGS

can be cleaned off with Parke's Knoflame, a cleaning solution that is equally good for oil or grease spots on clothing, rugs or upholstery, it clean without danger of fire or explosion. Sold in 25c, 50c and $1.00 bottles by Bond's Drug Store, corner George and Hunter streets.

The worst of trying to settle down is that there's always so much to be settled up.

BUICK SALES BREAK RECORD

Factory Has Been Overwhelmed With Orders. Sales Manager Says.

PRODUCTION VERY HIGH.

OSHAWA, September 12.—Thanks to Dominion-wide public acceptance of 1929 models, all McLaughlin-Buick monthly records for production and sales were smashed during August, according to George E. Ansley, general sales manager.

"From the day of the announcement of the new cars on July 28," states Mr. Ansley, the factory has been overwhelmed with orders. The radical departure from precedent in the lines of the 1929 models, as exemplified by the use of curves instead of straight lines wherever possible, made an instant hit. This was at once reflected in a tremendous demand which made the wisdom of the designers immediately apparent. It is now obvious that a new fashion has been set.

Then when the first few of the new McLaughlin-Buicks got out on the road, and the public began to appreciate their spectacular performance, the demand was augmented again, with a resultant avalanche of orders unprecedented in the company's history, according to Mr. Ansley. Increased engine bore and stroke, new carburetor, improved manifold and large intake and exhaust valves are but a few of the factors contributing to this car's superlative performance, he says.

The general sales manager is authority for the statement that if present schedules are maintained—as seems likely—production in August and September of this year will equal the entire production from July 31st to December 31st, 1927. No sign of a slackening demand has yet made itself felt and it is expected that the factory will work at peak pressure for an indefinite period.

ONTARIO
THE ONTARIO RAILWAY AND MUNICIPAL BOARD

SEVERE HURRICANE STRIKES PORTO RICO

All Land Wires Down—Storm Expected at Haiti To-night.

NEW YORK, September 13. Canadian Press. — A severe hurricane struck Porto Rico early to-day and was expected to reach Haiti before night fall, said cable advices to the French Telegraph Cable Company. All business has been suspended in Porto Rico. All land wires are down.

No reports were received as to the loss of life and property damage.

One message from San Juan said the wind was blowing at ninety miles an hour.

The storm is probably general over a goodly part of the Western Indies.

A special warning was sent out last night by the United States weather Bureau to all vessels in those waters and in Cuba the government meteorological station told residents of that island that disturbances might reach them.

The storm centre last night was about 50 miles south of St. Kitts. It was moving west northwestward and was expected to pass south of the Virgin Islands this morning, skim the southern coasts of Porto Rico and be over or near southern Haiti to-night. Winds of hurricane force were accompanying the slow progress of the vortex of the disturbance.

On With the Show

To Help it on, we are offering

THE BANKRUPTCY ACT
In the Estate of White's Cycles & Sports Ltd., Bankrupts

Notice is hereby given that White's Cycles & Sports, Ltd., of the City Peterborough, in the Province of Ontario, was adjudged Bankrupt and a Receiving Order made on the 21st day of August, 1928, and that G. A. Dow, Esq., Assistant Master, has appointed us to be Custodian of the estate of the Debtor Company until the first meeting of creditors.

Notice is further given that the first meeting of creditors in the above estate will be held at the office of Geo. J. Sherry, Esq., Official Receiver, at the Court House, in the City of Peterborough, Ontario, on Thursday, the 20th day of September, 1928, at 2 o'clock in the afternoon (Standard Time).

To entitle you to vote thereat, proof of your claim must be lodged with us before the meeting is held.

Proxies to be used at the meeting must be lodged with us prior thereto.

And further take notice, That at such meeting the Creditors will elect the permanent Trustee.

And further take notice that if you have any claim against the Debtor Company for which you are entitled to rank, proof of such claim must be filed with us, or with the Trustee when appointed, otherwise the proceeds of the debtor company's estate will be distributed among the parties entitled thereto without regard to your claim.

DATED at TORONTO, this 11th Day of September 1928.

Murray street choir will hold its regularly practice to-night at 8. All members please be on hand.

436,601 PERMITS ISSUED THIS YEAR

First Five Months of Control Act Saw 274,000 Sold.

TORONTO, Ont., Sept. 13 (Special to The Examiner). — Liquor permits issued in Ontario during the present fiscal year have now climbed to the total of 436,601.

The comparison with the five-month period which brought in the liquor control system is as follows:

	1927 (5 months)	1927-8
Residents	220,446	366,696
Tourists	53,800	69,905

The total for the first five months was 281,889, and this includes permits to dentists, druggists, doctors, manufacturers, and churches for Sacramental purposes. For the latter purpose 217 permits were issued.

The tourists did not buy as many permits as it had been estimated in some quarters that they would.

"But they bought enough," was the smiling comment of Sir Henry Drayton, chairman of the Control Board.

"There were of course many tourists who did not buy any at all, and no doubt there were some who got their supplies by means of permits held by their Ontario friends."

PLEASED BY PLACE GIVEN AGRICULTURE

(Continued from Page 1.)

dustrial Exhibition. "I congratulate you on this spirit. Keep it up" said he.

Essentially Agricultural

The folly of degeneration from the Agricultural status to the circus type, was emphasized by Mr. Martin in another phase of his address to the directors. He instanced what would happen should the directors make this mistake and congratulated the Peterborough Board on keeping their fair strictly agricultural, with the safe admission of clean midway entertainment as a secondary matter. In this connection he spoke as quoted above and concluded by expressing the wish that it may not be another five years 'ere he may again attend a Peterborough Exhibition.

Alderman Macdonald expressed the pleasure of the meeting at having the Minister present, and voiced the wish that Mr. Martin might become an annual visitor. He then called upon Frank O'Connor of Toronto, who representing the exhibitors, voiced a satisfaction that is general among the exhibitors.

Mayor Denne.

In closing the meeting His Worship Mayor Denne, made reference to the fair, giving full credit to "a conscientious, hard-working board of directors."

"We have realized that it is up to us, and if we had the money we would be better fitted to carry out our mission of providing education and entertainment for those who are unable to go to the Canadian National Exhibition at Toronto. We are trying to do our best," he declared in conclusion.

John Crane presided at the piano during the National Anthem which followed.

Those present included Hon. J. S. Martin, Alderman G. A. Macdonald, E. A. Peck, M.P., W. A. Anderson, M.P.P., Rev. R. G. Blagrave, D.D., Col. Ackerman, Alderman James Hamilton, Vincent Eastwood, Manager of the Royal Bank, Peterborough branch; S. R. Armstrong, City Clerk; J. B. Nelson, Peterborough Representative of the Department of Agriculture; Alderman Harry Huffman; G. A. Gillespie, Past President of the Peterborough Chamber of Commerce; James Dutton, President; F. G. Stinson, Secretary of the Chamber of Commerce; Alderman J. M. Greene; Mr. Kay; Prof. Day, secretary of the Dominion Shorthorn Breeders' Association; Thomas McIndoo, vice-president of the Exhibition Board, William H. Bradburn, M.P.P., and President Roland Denne of the Exhibition Board, and Mayor of the city.

Young's Point

(Examiner Correspondence).

YOUNG'S POINT, Sept. 11.—Mr. and Mrs. Simmons of the Lakeview House have gone on a trip to Windsor and Montreal.

Mr. and Mrs. Parker will carry on the business during Mr. Simmons' absence.

Messrs. Andrew Wilson, Leonard Wilson and Aubrey Wilson attended the cheesemakers' meeting held at Oakdale Cheese Factory Friday evening.

Rev. R. T. C. Dwelly spent Friday at Haultain, visiting with his parishioners.

Mr. and Mrs. Stanley Hockaday spent a few days in Toronto at the Toronto Exhibition.

Messrs. William Hockaday, Fred. Hockaday, and Percy Hockaday attended the Apsley Fair held on Thursday.

Mr. Walter Young is at Mount Julian on business for a few days.

Mr. McCauley, who has been visiting with his daughter, Mrs. Fred. Young, returned to his home in Peterborough on Tuesday.

The mission which was held in St. Mary's Church in the past week was very largely attended. Rev. Father Keough being the officiating priest.

OBITUARY

DR. ROBERT CONROY.

This morning the news reached his relatives in the city of the sudden death yesterday in Salt Lake City, Utah, of Dr. Robert Conroy, second son of Mr. and Mrs. David Conroy, of East City. The telegram did not state whether the death was accidental or otherwise.

The late Dr. Conroy was in Peterborough last week, on a visit to his home here. At that time he was apparently in good health.

The remains are being shipped from Salt Lake City to the home of the deceased in Medford, Oregon.

Survivors there are his wife and three young children.

IN MEMORIAM.

MILNE. — In ever loving memory of our dear Niece, Mrs. Grace Myrtle Milne of Campbellford, who died on September 13, 1926:
Just a thought of you, dear Myrtle,
Just a memory, fond and true,
Just a token of affection
That our hearts still ache for you.
As we loved her, so we miss her,
In our memory she is dear,
Loved, remembered, longed for always
Bringing many a silent tear.
—Sadly missed by her uncle and aunt,
Mr. and Mrs. Walter Bromell, Peterborough.

IN MEMORIAM.

McINTYRE.—In loving memory of John Archibald McIntyre, who passed away September 12, 1927.

"In God's care, softly sleeping,
Where the gentle breezes wave,
Lies one we loved so dearly,
But whom we could not save.
Some day we hope to meet you,
Some day we know not when.
We shall clasp those loving hands in in a better land,
And never part again."
Ever remembered by his Niece, M.V.R.

IN MEMORIAM.

CUNNINGHAM. — In fond and loving memory of J. Herbie Cunningham, who departed this life on September 13, 1921:
Dear Herbie, how we miss you,
As the weeks and years pass by,
But it is God's blessed promise
That we shall meet thee again.
—Inserted by the family.

TOO MANY FAIL IN HISTORY TEACHERS SAY

ART GOEBEL LOSES AERIAL HONOR

DISQUALIFIED FOR LANDING IN ARIZONA

Makes Hop In Approximately 25 Hours and Fifty Minutes.

$22,500 PRIZE MONEY

Holds Previous Trans-Continental Record, Winner of Dole Race.

LOS ANGELES, Calif., Sept. 14.—(A.P.)—Art Goebel, who late yesterday was the first and only non-stop cross-country flier to arrive at Mines Field and who therefore was expected to be declared the winner of the feature of the 1928 national air races, later was announced as having been automatically disqualified for making a forced landing at Prescott, Ariz., yesterday

Goebel, who won fame last year on the vast airway above the Pacific Ocean, brought his white Lockheed Vega plane to a landing at Mines Field here at 3.22 p.m., Pacific time. He had been in the air since 3.30.10 p.m. on Wednesday, or approximately 23 hours and 50 minutes.

Flying low at first over the finish line where $22,500 in prizes had been hung up, Goebel circled the field and came to a rather rough landing in front of the four big grand stands erected for the carnival.

Third Aerial Record.

By winning the non-stop flight westward, Goebel hung up his third major aerial record. He was winner of the Dole race from the Pacific Coast to Hawaii, and holder of the previous trans-continental record, having been the first person to negotiate a flight from the Pacific Coast to the Eastern Coast.

He clipped approximately three hours from the previous record for a flight from the Atlantic to the Pacific. Lieutenant Oakley G. Kelly and John A. MacReady in 1923 made the only other successful westward non-stop trans-continental hop. They flew from Hempstead, N.Y., to San Diego, Cal. in 26 hours 50 minutes 38 2-5 seconds.

STRUCK BY AUTO, WOMAN SUCCUMBS

H. Grisdale of Peterborough, Driver of Car, Is Not Held.

OSHAWA, September 14. — Mrs. H. S. Phair, of Courtice, a small village a short distance east of Oshawa on the Kingston road, died in the Oshawa general hospital at 10.30 last night from injuries received when she was struck by an automobile while crossing the highway near her home.

The driver of the automobile, H. Grisdale, of 582 Aylmer street, Peterborough, proceeded immediately after the accident to the Oshawa police station, where he made a report. He was not held by the police.

According to the police, Mrs. Phair was driving some cows across the highway about 6 o'clock in the afternoon, when she was struck by the car. She was rushed to the Oshawa hospital but never regained consciousness before her death. A son and two daughters were in attendance at the Oshawa fair at the time of the accident.

The death of Mrs. Phair was practically coincident with the death of her daughter Ruby, who was struck down and killed by an automobile, while walking on the highway a short distance from where yesterday's accident took place. Miss Phair was killed a year ago this coming October. Her husband, son and two daughters survive.

MOTOR KILLER STILL AT LARGE

Search For Car Which Dragged Man Six Blocks is Continued.

FOUR MEN QUESTIONED.

LONDON, Ont., Sept. 14 (Canadian Press)—An intensive police search for the automobile which killed Joseph Fox, a pawnbroker, late last night, dragged the victim's body for six blocks, and then drove into the night without stopping, was unsuccessful up to noon to-day. County, Provincial and city officers are engaged in the hunt.

Four drivers of cars have been questioned and released.

RE-ELECTED.

TOM MOORE,
who was again elected President of the Trades and Labor Congress of Canada to-day. No opposition was offered by the delegates to his return to the post which he has filled for several years.

JAPAN AGREES TO PRINCIPLE

Reply Concerning the Anglo-French Naval Accord On Way.

LIBERALS CRITICAL.

LONDON, September 14. Canadian Press. — The British government was informed to-day that Japan agrees to the principle of the proposed Anglo-French naval agreement. The Japan reply is understood to be on on the way to London.

Daily News Criticizes.

LONDON, September 14. Canadian Press. — "It is now perfectly clear from Lord Cushendun's latest utterance that the Anglo-French naval pact is as dead as Queen Anne," declares the Daily News, Liberal, in an editorial to-day. The "muddle-headed folly" of the whole procedure adopted in regard to the agreement.

TWO TORNDOES CAUSE 11 DEATHS

Town of Davis, South Dakota, Mass of Wreckage As Result.

CHICAGO, Sept. 14 (Canadian Press).—Two tornadoes wiping out lives and smashing buildings and homes had left portions of Nebraska and South Dakota virtually in ruins to-day.

Eleven persons were known to be dead. The town of Davis, South Dakota, a community of 250 people, was a mass of wreckage.

More than 100 were injured, many seriously, from twisters that cut two separate strips of destruction late yesterday. Both storms travelled north-easterly, crippling communications so that only meagre reports had come from many outlying sections early to-day.

ALD. S. A. LOWE.
Indicative of the good quality of horses gathered together by Director Stan. Lowe, of the Peterborough Exhibition Board, who is in charge of the horse races, was the feat of Peggy Allerton, owned by Dr. Whitley, of Goderich, in breaking the track record while running in the 2.15 class race this afternoon. The mare's time was 2.12, made in the first heat, in which there were four entries, including Art. Johnston's Armadale, the former record holder, who ran third in a close race.

MINISTER OF AGRICULTURE VISITS PETERBOROUGH FAIR

Pleased With Many Exhibits of Livestock, Grains and Vegetables.

CONGRATULATES DIRECTORS

Development of Agriculture Aim of Exhibitions, Says Hon. J. S. Martin.

The Honorable J. S. Martin after being a guest of Peterborough at a luncheon held at the Empress Hotel at noon yesterday went to the Peterborough Exhibition directly after and made a survey of the cattle exhibits and various other exhibits on the grounds, expressing his delight with the fair.

Then he appeared in front of the grand stand to speak on behalf of the fair board. Mayor Roland Denne introduced Mr. Martin, expressing the honor and pleasure it was to have him at the fair. He had half expected another disapointment, as Mr. Martin had promised many years to come but was unable to get here. "However, he is here to-day. We are absolutely glad to have him here and are pleased to show him the exhibits and what we have done under the handicaps," he concluded.

Mr. Martin said it was a real pleasure to see what the directors have accomplished. "The fame of the fair has gone abroad and I have often heard of the Peterborough fair. I regret that the weather is not suitable but we cannot regulate it. Many a picnic, many a garden party and many a fair has been spoiled by the weather. However I am delighted at visiting the different parts of the exhibition to congratulate the good people of Peterborough and the fair directors on their extremely splendid fair.

"The fundamental purpose of a fair is to develop agriculture which is its main object. The department of agriculture is very anxious that an exhibition should primarily be agriculture and we are ready to praise or to check fair directors. Praise fair directors who follow the main purpose. Most officers and fair directors are doing this generally over the province. Some forget the purpose however, and we are trying to weed them out.

"I wish to congratulate the directors here. You have a most wonderful exhibition and have developed agriculture to an unusual degree. You are building your fair on a firm foundation. While there may be ups and downs, you are forming a solid foundation for future years.

Pleased With Exhibits

"The exhibits of cattle, livestock, grains, vegetables and all the other exhibits would do justice to the largest fair. We are anxious that the fair should have the backing of the people. It takes a long time to produce such animals and such exhibits, that co-operation is necessary to get the desired result.

"Exhibitions are important as great meeting places, very desirable for the town and country because of this social value. The directors are doing a great work and the people in both the city and the country should help and work together in this way.

"You shall have my heartiest co-operation at all times and I shall use every effort to give you aid and solicit the aid of ministers. I shall use my good offices to tell the government that you are doing a most wonderful work and you should be supported in the efforts that you are putting forth."

Directly after this Mr. Martin presented the prizes to the champions of the boys and girls judging contests at the Agricultural tent. The winners were: oy Staples of Fraserville, senior champion; Roy Dunford of Lakefield, junior champion. The girl winners were: Helen Tedford of Indian River and Mabel Mullen, R. R. 4, Peterborough.

DEFINITION OF 'MEN' WANTED BY COUNCIL

United Church Won't Ordain Women Until Decision. Is Given.

WINNIPEG, Sept. 14 (Canadian Press).—Until the Committee on Law gives a ruling on the word "men" in the constitution of the United Church of Canada, ordination of women to eldership in the Church will not be permitted.

This was decided at last night's session of the General Council when the report of the Ordination Committee was submitted by Mrs. Nellie McClung, of Calgary.

The General Council, by adopting the report of the committee, however, put itself on record as declaring "that there is no bar in religion or reason to the ordination of women," but decided to take no action on this question at present.

'WE NEVER GIVE UP' SAYS MAYOR; FAIR GOING OVER TOP THIS YEAR

President of Board Expresses Determination of Directors To Succeed.

IN SPITE OF HANDICAPS.

Kiwanians Hold Annual Exhibition Luncheon With Board at Fair Ground.

Peterborough Kiwanians fittingly signalled the spirit of goodwill and co-operation which they bear the Directorate of the Peterborough Industrial Exhibition—and the Directors, in turn, acknowledged that spirit when the two organizations held a joint luncheon meeting in the St. James' Church dining tent to-day at noon. Not only was there a pleasing and sincere exchange of felicitations, but D. D. Grey, superintendent of the Experimental Farm at Ottawa, addressed the meeting, his explanation of, and suggestions for the judging of heavy draft horses being interesting both from an educational and entertaining standpoint. President Joe John and His Worship Mayor Denne, president of the Exhibition Board, presided from the head table, while the vote of appreciation to the speaker, and to others taking part on the program, was voiced by Kiwanian Jack Dewart.

There was plenty of an entertaining nature at the meeting to-day, what with Bailey's Band and Bert Caldwell, baritone soloist, being heard in several happy numbers, in addition to the regular club singing.

President Joe John extended a hearty welcome to all visitors, and it was a pleasing occurrence that J. T. Drope, one of the guests, should win a Booster prize. The other winners of Bill Merrill's prizes were Charlie Saunders and Charles Cummer. Jack Craig drew attention to the concert, being given next Monday evening in the Conservatory of Music by four young people who won signal honors at the Toronto Exhibition musical competitions. Since they have been generous to the Kiwanians in the past he urged a good attendance of the club members at their concert on Monday night.

President Roland Denne.

The President of the Big Show, His Worship Mayor Roland Denne, spoke briefly at the luncheon to-day, extending a hearty welcome to the Kiwanis Club, and at the same time voicing the appreciation of his directorate for the splendid support and co-operation of the club. "We had a lot of disappointment the first of the week," said he, "but we never give up, and this year Peterborough Industrial is going to go over the top and go over big." He went on to mention several prominent exhibitors of fine horses at the "Ex," among them Frank O'Connor, an old Peterborough boy, and Mr. Rogers, who had brought his hunters from Aurora.

Old Boys' Re-union.

"While speaking of Peterborough boys who have made good in other fields and yet have given Peterborough the benefit of their success," continued the President, "I want to tell you that we are already planning an Old Boys' Re-union for the first week in July next year, and we want to bring them all back again."

Referring back to the Exhibition, Mayor Denne mentioned the splendid impression which it had made on the Minister of Agriculture, the Hon. John S. Martin, during his visit on Thursday. He spoke of the extra charge for entrance to the grandstand, stating that the Directorate has to have the money, and that it would therefore be up to the Peterborough and district public to give its patronage.

The Speaker.

Introduced by Joe John, an acquaintance and friend for more than twenty-five years, Mr. Grey, the speaker of the day explained that he had been at a loss for a subject. Tracing the nationalities of his relatives, he laid claim neither to Scotch wit or Irish humor, but proceeded to illustrate both with a couple of amusing stories. He had a definition for each. Scotch wit he defined as that which is used when it will benefit the user—Irish humor, he pointed out, was more the art of making a fool of the other fellow by inference. Stories to illustrate each, brought just the right seasoning of mirth to the meeting.

Turning to the more serious phases of his address, Mr. Grey expressed his intention of dealing, for a few minutes with the judging of heavy horses. Instancing the Clydesdale (in which he is personally interested) the speaker suggested, in a kindly way, that some judges are losing sight of the utility aspect and that the animals to which they award the prizes are oftentimes overweight, merely for show purposes. Reduced to utility weight, they would not even class among the "heavies."

He explained that weight, conformation and style or carriage are the three basic points which judges look

Evacuation of the Rhineland Discussed By Delegates At Geneva

GENEVA, Sept. 14.—(Canadian Press Cable via Reuters)—The work of the League of Nations was divided up among committees yesterday, while at a meeting of representatives of the leading powers of (Great Britain, France, Germany, Italy, Japan and Belgium) the thorny question of evacuation of the Rhineland was discussed, for two solid hours. The atmosphere seemed more favorable for a solution of the question. Aristide Briand, French foreign minister, left last night for Paris but is returning on Sunday to resume the conversations.

A rapid increase in the credits demanded was noted by the committee which dealt with the draft of the League's budget for 1929, this increase amounting to nine per cent. more than last year. The committee therefore passed a resolution that in the interests of economy there should be a reduction in the number of conferences next year.

Another committee discussed intellectual co-operation in connection with a plan to advertise the League's world-wide worth. South African delegates warmly applauded when it was suggested that a world-wide League of Nations be held, as it is held in South Africa, to focus the attention of the children on the aims and work of the League in addition of course to their elders.

LABOR URGES GREATER USE OF LABEL ON UNION PRODUCE

Trades Congress Will Launch Active Campaign To Get Mark Used.

HELP FOR WOMEN.

Extension of Mothers' Allowances To Every Province Advocated By Congress.

TORONTO, Sept. 14.—(Canadian Press).—More active propaganda for the use of union labels, to indicate that goods are made by union labor, will be launched as a result of recommendations made to-day by the Trades and Labor Congress at its annual convention. Many delegates spoke strongly on the matter and pointed out that it was only by the use of union labels that union working conditions could be guaranteed.

The question of Mothers' Allowances and Maternity Benefits was brought up in a resolution. Steps are to be taken to secure the enactment of Mothers' Allowances legislation in all the provinces which have not adopted it. The establishment of a system of maternity benefits for women in industry was also urged as a means of lowering maternity and infant mortality rates.

Referring to the recent disaster on the Welland Canal, delegate Hiscocks, Toronto, advocating the inspection of all machinery used on construction jobs. He also thought that labor should be represented at the inquest and invesigation into the affair.

Special leave was given delegate Maguire of Oshawa to introduce a resolution calling on all labor organizations in the country to write the General Motor Corporation requesting better treatment for automobile workers in Oshawa.

Moore Re-elected

Tom Moore, of Ottawa was re-elected president of the Trades and Labor Congress of Canada this afternoon by acclamation. P. M. Draper will act as secretary treasurer for another year, while acclamations were also given to the three presidents, B. Foster, Montreal; Robert Pallon Calgary, and James Simpson, Toronto.

Former Lakefield Resident Honored

LAKEFIELD, Sept. 14 (Examiner correspondence).—Mr. Laurence O'Neill, of Buffalo, formerly of Lakefield, was one of the winners of the A. and P. Co. prizes offered to their managers in New York State for the six who made the greatest gains in the past three months. The award which the winners will receive is a trip to the World's Series of baseball. There were thousands of entries, and Mr. O'Neill's many friends in Lakefield will be delighted that he is among the half dozen who are included in the trip. All expenses are paid, and the men are told to enjoy themselves and the wonderful opportunities which the trip affords.

TWO INJURED IN CAR CRASH

Morgan Perry Lies in Hospital Seriously Hurt About Back.

DRIVER MISSES TURN.

Morgan Perry, of 471 Mark Street, is in Nicholls Hospital, suffering from an injured spine and several fractured ribs, while Walter Merrett, 339 Burnham Street, is at his home nursing a badly bruised hand, sustained when a motor car, owned and driven by Merrett, turned over in a ditch on the River Road at 11.30 last night. They were returning from the St. Luke's Church corn roast and missed a turn just north of the Peterborough Golf Links.

Dr. Morgan and Belleghem's Ambulance were called, and after a hasty investigation of Perry's injuries, the doctor ordered his removal to hospital, where an X-ray was taken.

PUT THE FAIR OVER THE TOP

To the People of the City and County of Peterborough:

May I, on behalf of the Directors of the Peterborough Industrial Exhibition appeal to you to turn out in large numbers to-night and on Saturday. It will be well worth your while.

A great deal of time and money have been spent on the grounds and buildings this year, and all visitors would be well advised to inspect the new barns, also to look over the cattle and horses housed therein. Agriculture is the basic industry of the country; when the farmer is prosperous, everybody prospers, and the farm end of the Exhibition is a most important and interesting one.

Then there are the horses, trotting and jumping, on the track and field before the grandstand. More money has been spent on this part of the Fair than ever before, and some of Ontario's finest horses will be seen in action to-morrow afternoon. In the intervals between the races there will be a large number of high-class vaudeville acts, most of which came here direct from the Canadian National Exhibition, Toronto.

Nothing need be said about the Midway. Clean amusements, thrilling rides, and games for those of a speculative turn of mind are included in the Greater Sheesley Shows, which occupy the eastern portion of the grounds and have drawn large crowds already.

The Directors have spent a large sum of money on the Fair this year, and are on their personal note for a sum which amounts to a lot of money each if the Fair goes behind. They are counting on the support of the citizens, and now that the weather man has withdrawn his opposition of the beginning of the week, hope that the residents of city and county will work to reach the objective of 45,000.

We are counting on your support.

ROLAND DENNE, President.

Large Gorilla As Midway Attraction

Big Jim the only gorilla in captivity on the North American continent arrived in Peterborough last night and is to-day being shown at the Sheesley shows at the Exhibition. The big fellow resembles the build of a human being and has the eyes of an old man. He appears to be a very hardy specimen and may live for a number of years. He is strictly vegetarian and will not touch meat. At times he is hard to manage and just covers himself up in a blanket, while at other times he is most quiet and playful. His legs are very short body heavy and he is covered on the back with long, brown hair. His arms are very long with large hands and extraordinary long fingers.

Big Jim was caught in the wilds of Borneo about the end of November and was brought to New York early in that summer. He was a big feature at the Toronto Exhibition and since then has been purchased by Mr. Sheesley.

FIRE DESTROYS OMEMEE HOUSE

W .C. Veals Loses Frame Residence Rented By Road Gang.

BARN SAVED.

(Examiner Correspondence.)

OMEMEE, September 14. — The frame house and shed belonging to W. C. Veals burned to the ground this morning. The house, which was formerly owned by Matthew Wilson, had been vacant for some time, but for the past month had been occupied by workmen from the road construction gang at Dancey's Hill. The occupants lost clothing, money and valuable papers. The furniture in the upstairs rooms was burned, while that in the lower portion of the house was saved. The maple trees and fruit trees around the house were badly scorched, but neighbors succeeded in saving the barn on the property, which was full of grain.

Insurance was carried on the house but not on the contents.

C.P.R. OFFICIALS HERE.

Large Party of Railway Executives Visits Fair.

The following C.P.R. officials visited the Peterborough Industrial Exhibition on Wednesday night. They were very much delighted with the Fair, which, they said, was one of the nicest Fairs seen in their travels in Ontario:

Messrs. M. McMillan, Superintendent, Toronto; Victor Ripley, Divisional Engineer, Toronto; F. Davis, Superintendent, Toronto; H. P. Buchanan, District Freight Agent, Toronto; J. Nevin, K. T. Fletcher, and J. A. Yorick, of the Passenger Department; L. Rutter, District Engineer, Toronto; R. J. O'Heron, Bridge and Building Master, Toronto, and C. Tole, of Smith's Falls.

SAFETY MEETING

Thirteen Suggestions Received at Meeting of Deloro Committee.

(Examiner Correspondence)

MARMORA, Sept. 14—The monthly meeting of the Deloro Safety Committee was held on Tuesday evening at the Hub, the attendance not being so large as usual. Thirteen safety suggestions were reported as having been received during the month. The flag was awarded to the Engineer. E. Hewitt as floating member on the Inspection Committee gave a satisfactory report. J. Reardon was appointed to that position for the current month.

Exhibition Attendance.

The attendance at the Exhibition, although far ahead of Wednesday showed a decrease of 622 yesterday over the same day one year ago. There were 6,228 paid admissions yesterday, while for Thursday, 1927, there were 6,850. The record to date is:

	1927	1928
Monday	Free	Free
Tuesday	1,967	5,498
Wednesday	9,558	2,824
Thursday	6,850	6,728
Total	18,347	15,050

Decrease on day—622.
Decrease to date—3,297

Paper Set Not Very Hard

History Teachers Ask Premier For Investigation Into Marking.

PLUCKING CHARGED.

Examination Not Difficult Warrant 50 Per Cent. Failures. They Believe.

TORONTO, Sept. 14.—(Special to The Examiner).—History teachers of Toronto have asked Premier Ferguson as Minister of Education, to investigate the "Plucking" of about 50 percent of the Province's candidates in the middle school examination in British History.

"That number" said a Toronto teacher," is twice as many as there have been in other years. The paper was fairly hard but not difficult enough to account for such a slaughter."

General opinion among the teachers is that the examiners have been too severe.

The British History paper included nine questions, of which candidates were to write on four. Some examples follow:

1 (A) Give the locations of any five of the following: Balaclava, Coronel, Gibraltar, Lexington, Madras, Omdurman, Neuve Chapelle, Pretoria, Quatre Bras, Sydney.

(B) By reference to historical facts show why each of the five selected is important in British history.

(2) Give an account of the following:

(A) Pitt the Younger and the Irish Union.

(B) Earl Grey and the first reform bill.

(C) Palmerston's foreign policy.

3 (A) State four of the chief terms of the Bill of Rights and show what led to the inclusion of each of these terms in the bill.

(B) Tell the story of the Wilkes agitation and give its results.

7 (A) Narrate the events of the Great War during 1918, up to and including the armistice.

(B) Sketch the part played in the Great War by (I) Louis Botha; (II) Jellicoe.

8 (A) What were the provisions of the Toleration Act of 1689?

(B) Sketch the progress of religious toleration during the nineteenth century.

(C) Give an account of the advances made in medicine, and in science as applied to industry during the nineteenth century.

9 (A) Give an account of the Trent affair and explain what is meant by the Alabama question.

(B) Given an account of the agitation for Home Rule for Ireland during the period immediately preceding the Great War, namely 1912-14.

(C) Give the terms of the Home Rule Bill of 1920.

MAIL PLANE FOUND OFF SCILLY ISLANDS

French Aviators Catapulted From Steamer, Have Been Missing Whole Day.

PARIS, Sept. 14 (Canadian Press). —A mail plane from the steamer Ile De France, missing since it was catapulted six hundred miles at sea yesterday, was found early to-day off Bishop's Rock, the western outpost of the Scilly Isles. Commander Louis Demougeot, the pilot, and his aides are safe. The machine is being towed to the French coast. The crew was rescued by a French sailing vessel.

KNOX W.M.S.

Members Hear Fine Papers On Work Among Canadian Indians.

The regular monthly meeting of the Women's Missionary Society of Knox church was held on September 5th with a good attendance. The president, Mrs. Watt, occupied the chair.

The meeting opened with singing the Doxology and all reciting the Lord's Prayer. The regular routine business was then dealt with.

The hymn, "O Master, let me Walk with Thee," was sung. The Scripture lesson, Luke 15, was read by Mrs. Johnston, who also led in prayer.

Splendid papers on the different da were given by Mesdames Finnie, phases of the Indian work in Canada-Perrin, Byers, R. Laing and Johnston.

A very pleasing solo was rendered by Mrs. E. Johnston, and an excellent paper was given by Mrs. Johnston also.

The meeting closed with singing, "Hark, the Voice of Jesus Calling," and prayer by Mrs. A. McKenzie.

YEAR'S PROGRAM ARRANGED BY LAKEFIELD WOMEN'S INSTITUTE

Usual Business Transacted at Regular Meeting of Society.

REPORTS READ

Discuss Employment of School Nurse for Village and District.

(Examiner Correspondence)

LAKEFIELD, Sept. 14.—The regular meeting of the Woman's Institute was held in the Memorial Hall on Wednesday afternoon with an attendance of about forty and the president, Mrs. J. H. Payne in the chair. Following the routine of opening, including reading of minutes and correspondence and the roll call the first vice-president, Mrs. W. M. Graham submitted a program for the year which had been approved by the executive at a meeting held on Tuesday evening. The program was adopted by the meeting and will be printed so that each member should have one for reference. The program was arranged from October 1928 to September, 1929 inclusive and was as follows:

October, 1928, Strangers' Day—Answer the roll call by introducing a stranger. Papers on the Institute's part in welcoming new comers and new Canadians.

November, Music Day—Answer the roll call with the name of a song which should be put on the Institute song sheet. Paper, The value of a community sing song and the asset a song sheet can be.

December, Gift Day— Answer the roll call with a suggestion for the Institute's Christmas cheer. Papers, Gifts for the whole family—both useful and inexpensive. Singing Christmas carols. Report of the convention.

January, 1929, Turning Over a New Leaf— Answer the roll call with a practical suggestion for the winter work.

Paper, The Institute as a community centre. (a) Health, (b) Charity, (c) Home economics.

February, Our Canadian Poets — Answer the roll call with a quotation from one of the Canadian poets. Papers on Canadian poets.

March, House Cleaning—Answer the roll call with a suggestion in house cleaning. Papers on labor saving devices procurable to all.

April, Poultry Keeping — Answer the roll call with the name of your favorite breed of poultry. Papers, (a) Poultry in the country, (b) Poultry in the village.

May, Garden Planning and Election of Officers—Answer the roll call by telling your favorite garden flower or flowers. Papers, (a) Planning an old fashioned garden; (b) Making a perennial border; (c) Making the waste places bloom. Plan an exchange for perennials and flower seeds.

June, Home Economics—Answer the roll call with a recipe for a hot weather dish, salad or cooling drink. Papers (a) Value of home made drinks; (b) Salads for every day; (c) School lunches.

July, Canada First—Answer the roll call with the name of one of Canada's nation builders (men or women). Papers, (a) Canadian industry; (b) Canadian women and their part in history; (c) Buy "Made in Canada" goods and get the best.

August, Canning and Preserving—Answer the roll call with a recipe of canning your favorite fruit. Papers, (a) Canning; (b) Preserving; (c) Value of conserves.

September— Answer the roll call with a suggestion for work which the Institute can undertake this fall or winter. Papers, (a) First aid kits in the schools; (b) Layette baskets; (c) Value of preparing and presenting a pageant; (d) Money making schemes of value

On motion it was decided that the branch federation fees be paid so that the local branch would become part of the great Federated Institute.

Mrs. J. W. Ridpath brought in a notice of motion regarding the employment of a school nurse who would serve the village schools and also those of the district. Refreshments were served at the close of the meeting.

Cow And Calf Are Struck By Lightning

APSLEY, Sept. 14.—Archie Downing had the misfortune to lose a cow and a calf which were struck by lightning during the severe storm on Monday afternoon. They were discovered yesterday lying side by side close to a pine stump that was splintered by the stroke.

BUSINESS POLICY TALK NO. 7
(By H.E.M.)

STANDING MATTER WHAT IT MEANS

Explanation of a Technical Printing Phrase

MANY purchasers of printing perhaps do not understand the "meaning of "standing matter" as used in connection with printing.

The Examiner has many hundreds of standing forms. These forms, after being originally set in type, are filed away so that when a customer requires a new set we are able to give immediate service.

It requires unlimited type and material to make this possible, also a system of filing, plus storage space. It is only an office such as ours that can afford to keep hundreds of customers' forms intact, as type and material tied up in this way involves a considerable investment. However, we consider it as part of our service, and follow this system out in every instance where we feel it will prove of benefit to our customer and save him money.

With our facilities for making our own type and material, we have always an inexhaustible supply of type and material (which constitute the printer's tools) with which to work.

Standardized forms of all kinds save considerable money. We are specialists, and will be pleased to assist you to standardize any or all of your business or factory forms and . . . keep them standing for you.

We will consider it a pleasure to talk this matter over with you either at your office or our office. Our telephone number is 1600.

"We give the same treatment to one and all."

The subject of our next talk will be, "Saving Money on Printing."

MONTREAL POLICE OFFICIALS RESIGN

Pierre Belanger Resigns Office After Being Reinstated.

MONTREAL, September 14 (Canadian Press). —Pierre Belanger, chief of police, Montreal, yesterday was reinstated after a week'ss uspension, and cleared of any connection with alleged police irregularities. Immediately upon his reinstatement, Chief Belanger submitted his resignation, effective immediately, and will receive a pension.

William Leggett, deputy chief, and for the past week acting chief of police, yesterday resigned after declining an invitation to reorganize the force. His resignation was also effective immediately, and he was granted a pension.

Reorganize Department.

Inspector H. Langevin, Eastern Division, was appointed chief of police pro tempore, with carte-blanche to reorganize the department and orders to produce results.

The resignations and appointment were announced by Alderman A. A. Desroches, chairman of the Legislature Committee of the City Council, following yesterday's private session of the committee's probe into the alleged irregularities. The Legislature suspended Sergt. A. Rocheleau, of No. 4 Police Station.

The chairman also announced that Inspector Hector Mercier has been reinstated following his suspension, and transferred from the post of chief of detectives to that of inspector of the Eastern Division. He also was cleared of any connection with irregularities.

REPORT READ AT MEETING

Women's Missionary Society Hold Regular Meeting at Norham.

INDIANS DISCUSSED

(Examiner Correspondence)

NORHAM, Sept. 14.—The Woman's Missionary Society of Norham met at the parsonage on Tuesday afternoon. Mrs. Clare, the president, presided.

The subject for the meeting was Indians and missionary work among them. A short report of the sectional convention held at Wooler on Thursday last was given.

The Woman's Institute met at the home of Mrs. Lorne Evans on Wednesday afternoon.

Miss Margaret Clare, B.A., who has spent the past three months at Bon Echo, returned home on Monday.

Miss Nora Holden of Toronto is visiting her friend, Miss Margaret Clare.

Miss Dingman is visiting friends in Napanee.

Mrs. Ella Campbell and daughter, Bernice, is visiting friends in Campbellford.

Mrs. Davidson has moved into Mrs. Laver's house.

Mrs. Roberts, mother of Mrs. W. Campbell is ill.

Marmora

(Examiner Correspondence).

MARMORA, Sept. 14.—Mr. K. Yaschuk has moved into the residence formerly occupied by Mr. P. Cuddy.

Mr. Wesley Grant is confined to his home through illness.

Mr. A. Bartlett has moved back to his residence north of the village.

Mr. C. Nicholson has arrived back from his trip to England.

W.M.S. MEET AT ROSENEATH

History of Christian Indians Subject of Discussion at Meeting.

ATTENDANCE SMALL

(Examiner Correspondence.)

ROSENEATH, Sept. 14.—The regular monthly meeting of the Woman's Missionary Society was held on Tuesday afternoon in the United church. Owing to the extra busy season the attendance was not as large as usual. The meeting was conducted by Mrs. Lily Turner, Mrs. Geoerge Ingham, the former president having resigned her office and much regret is felt in all church circles in which Mrs. Ingham devoted a great deal of time helping in every way along the Christian work and welfare.

The meeting was most interesting, bringing to light the early history of Christian Indians Leaflet No. 1 read by Mrs. Turner on the Indian and where he came from. No. 2 by Mrs. Davey of Indians before the white men came. No. 3 by Mrs. Arnold. The first call for work among the Indians to which the Woman's Missionary Society responded. It was near Prince Albert, Sask. The first Crosley Girls Home was built at Port Simpson. These homes offer not only the privileges of Christian family life, but educational advantages as well. No. 4 by Mrs. Crego, Schools in Qupella Valley, Man. No. 5 by Mrs. M. R. Brown, Mission work in British Columbia and the opening up of different schools and what great work is being done since these different schools were started.

Each member was asked to bring another member with them to next meeting. The meeting then closed with prayer.

Mrs. Cecil Radley has returned home after a visit with friends in Toronto.

Mrs. Robt. Mouncey is visiting friends in Peterborough.

Mr. G. M. Mouncey spent a few days in Toronto on business this week.

MILLBROOK PAVING IS NEAR COMPLETION

New Clerk Takes Up Duties at Regular Meeting of Council.

(Examiner Correspondence)

MILLBROOK, Sept. 14.—A. W Connors, consulting engineer, was present at the regular meeting of the Millbrook Council and addressed the council regarding the progress of the work in connection with the two miles' paving program, reporting same going on satisfactorily and with completion in sight within the next two weeks.

Charles Thorndyke, who was appointed clerk for the balance of the year at the last council meeting, taking the place of L. C. Russell, took up his duties for the first time at Monday's meeting.

A communication was read by the clerk from the Hydro Electric Power Company in reply to a recent communication from the council asking the value of local plant, stating that the information required is being prepared and will be supplied in the near future.

A communication was also read from J. Y. Kallough, Agricultural Representative for Durham County, informing the council that plans are under way for holding a short course in Millbrook this winter, under the auspices of the Department of Agriculture, and asking about accommodation for classes, students, etc.

Reeve Wood and Councillor T. J. Lang, were appointed as a committee to discuss plans for the requirements mentioned with Cavan Council, and report.

The following accounts were ordered paid: H. Whyte, $3; Hydro Electric, $71.17; town hall current, $3.87; H. Murney, $9.45; Millbrook Telephone Company, $3.90; H. Lord, $7; G. Ward, $4; A. Wilson, $25; J. J. Clarke, $5; F. H. Smith, $8.50; Attwool and Sheppard, $14.90; H. Nattress, $27.60; W. Budd, $8.05; S. Donnelly, $28.88; L. C. Russell, $12.25.

OBITUARY

(Examiner Correspondence.)

MRS. THOMAS WILSON.

DUNSFORD, Sept. 14.—Mrs. Thomas Wilson, whose maiden name was Lauretta Sherriff, died at her late residence, lot 1, concession 3, Verulam, on Monday, Sept. 10th, at the age of 58 years, after an illness of about nineteen months. Thirty-seven years ago she married Mr. Wilson and for ten years after that she resided in Emily. For the past twenty-seven years she has lived on the farm where she died. She was born and brought up near Dunsford, the daughter of Mr. and Mrs. David Sherriff.

The funeral, which was held from her home Wednesday, Sept. 12th, was largely attended. The service was conducted by the Rev. Mr. Everson of Dunsford United church. The floral tributes were many and beautiful. She leaves to mourn her loss besides a loving husband three children, Mrs. E. W. Shea, Saskatchewan, Mrs. A. R. Ford, Havelock, and Mr. A. L. Wilson, Dunsford. Two brothers and two sisters, Harry, Jack and Elsie, of Dunsford, Mrs. J. M. Graham of Gull Lake, Saskatchewn. also survive.

DRUG BUSINESS CHANGES HANDS

Fred W. Wood, Campbellford, Sells Out To F. N. Brown, of Belleville.

RESIDENT 43 YEARS.

(Examiner Staff Correspondence.)

CAMPBELLFORD, September 14.—One of the best known privately owned businesses in the town of Campbellford, changed hands yesterday. The drug store which has for many years been the property of Fred W. Wood, becomes property of F. N. Brown of Bellville. Since Monday of this week, Mr. Brown has spent much of his time in town but the actual change over was not effected till yesterday.

Mr. Wood has been a resident of Campbellford for the past forty-three years. All but seven of these years he has been in business for himself. He is a graduate of the class of '91, of the Ontario College of Pharmacy, Toronto, and was well known to the citizens of Campbellford before that time. His apprenticeship was served with the late J. D. Tully of Peterborough, and he came to Campbellford while still a student druggist, to manage the drugstore owned by the late Dr. Goldsmith and later the late Dr. Gallaghr. Immediately following his graduation as a professional pharmacist, Mr. Wood purchased the business from Dr. Gallagher and a few years later removed from the west side location in what is now the office of the Campbellford Cloth Company, to the Ferris Block, corner of Front and Bridge streets, where he has conducted the business ever since. When the drug store was located on the west side, the building which housed it was the hotel known to the older citizens as the Gibson House. It has since passed out of the hotel world, and the block is now an office building with club rooms on the second floor.

For the last twenty five years Mr. Wood has held the position of treasurer for the corporation of the town of Campbellford and he expects that he will retain the position. He is also the Canadian Pacific representative here and intends to continue in this capacity as well. He has not the least intention of leaving town permanently, but later may spend some weeks visiting his daughter in Alberta. During his time in business Mr. Wood has accumulated a host of friends. All of them are genuinely pleased to learn that Mr. and Mrs. Wood do not contemplate leaving town, but will remain at their Front street residence.

A sudden turn in the market puts some store in a position to offer you goods of the highest repute and quality at a bargain price. Read the advertisements and save money.

WESTWOOD CHURCH SPECIAL SERVICES

Rev. Dr. Kannawin is Preacher at Celebration of Anniversary.

(Examiner Correspondence)

WARKWORTH, Sept. 14.—The anniversary services of St. Andrew's Presbyterian church were held on Sunday last. The Rev. Dr. A. M. Kannawin, secretary of the Board of Sabbath schools and Young People's Societies of the Presbyterian church in Canada, was the special preacher for the day. Large congregations greeted him morning and evening, many people coming from neighboring points to help celebrate the occasion. The church was beautifully decorated with flowers. Dr. Kannawin took as his text in the morning "Thou are Christ, the Son of the living God" and at night "I am come that ye might have life and that ye might have it more abundantly" and from each one preached an earnest, inspiring sermon. He also addressed the Sabbath school. Special music was given by St. Andrew's choir. Mr. C. T. Maycock sang a solo in the morning service and in the evening Mrs. William Grant. A quartette consisting of Messrs. C. Bowen, F. Haynes, C. T. Maycock and Dr. C. C. Armstrong sang "The Old Rugged Cross" as the final musical offering. The anthems given by the entire choir were very pleasing. St. Andrew's church is now hearing candidates for a call, and Mr. L. H. Fowler, B.A., who has been its student minister for the past year and a half returns to his studies in Knox College, Toronto, at the end of the month.

Personals.

Mrs. M. Massey is spending a week with friends at Rossmore and Belleville.

Mr. L. H. Fowler spent Tuesday in Port Hope.

Miss Sarah McComb has returned after spending two weeks' holidays in Toronto and Campbellford.

BOOTLEG IN GOLD CAMPS OF CANADA

By NEA Service.

TORONTO, Sept. 14—Bootlegging gold is the newest form of outlawry to be practiced in the mining camps of northern Ontario. Gold is bought from dishonest employes at the mines and then carried to other localities. Recently the arrests of two smugglers led to the uncovering of a thieving ring that has disposed of more than $150,000 worth of gold in the last five months. Many other cases are awaiting trial.

In many of the rich mines, gold often is blasted out in flakes an inch or more in diameter, worth $40 or $50. Because of the general high character of their employes, the companies have not yet instituted the custom of searching the men, so the few dishonest workers are enabled to steal the precious metal at an amazing rate. Then they depend upon gold bootleggers to get the loot to market.

$1000.00 IN PRIZES

for the Best Answers in the

SANI-BILT Week CONTEST

$300.00 CASH 1ST PRIZE

14 VALUABLE PRIZES

What does Sani-Bilt's 100% MOTHPROOF protection mean to you? Your answer may win the $300 1st Prize

CONSIDER these facts: The Sani-Bilt Mothproofing Process has saved hundreds of chesterfield investments from loss through moth damage. Sani-Bilt is the ONLY upholstered furniture sold in Canada which carries a written guarantee to REPLACE the suite if it is damaged by moths. And a REPLACEMENT GUARANTEE is the only guarantee that is of any real value.

Now we invite Canadian women to study the advantages of choosing Sani-Bilt and to write them down for us in their own words. Generous cash prizes are offered. The official entry blank must be used. This is FREE at any of the Sani-Bilt dealers' below and gives you helpful information and full details of the Contest. Secure yours right away and start tonight on your way to one of these big cash prizes,

See This Sani-Bilt Week Special Suite and get official entry blank from Sani-Bilt dealers

PRIZES:

1st	$300 in Cash
2nd	200 in Cash
3rd	100 in Cash
4th	A Sani-Bilt Chaise Lounge, value $100
	and 11 further prizes of "Occasional Chairs" each valued at $30

TOTAL VALUE OF PRIZES $1,000

There are no "conditions". You do not have to buy a Sani-Bilt suite. It is open to all Canadian women.

Sani-Bilt Week Sept. 15 - 22
7 Days of Attractive Prices

This attractive suite is being featured for SANI-BILT WEEK ONLY

Solid walnut frame, mohair covers. A genuine value, a real buy at its low price

The following Sani-Bilt Dealers will show you this Special Suite:

COATS

A formal presentation of Fall and Winter Fashions

Fashion's newest Coats—Fashion's choicest Coats—combining the economy of fabric with the luxury of fur. We have gathered an extensive assortment of new models—fashions that mirror every new turn of the mode. Prices ranging from .....

$15 up to $75.00

40-HOUR WEEK IN KEEPING WITH MODERN CONDITIONS

Head of Minimum Wage Board Finds Trend in This Direction.

EFFICIENCY GREATER.

Would Be Tremendous Task To Change Over, He Says—50 Hours Usual.

(Special to The Examiner)

TORONTO, Que., Sept. 14.—The resolution by the Trades and Labor Congress of Canada in convention here favoring a 40-hour week of five working days, is in line with the trend of modern industrial conditions, Chairman J. W. McMillan of the Ontario Minimum Wage Board.

"The trend of modern industry is toward more leisure for the working man," he declared. "Machinery and the increased efficiency which it has brought to industry means greater productivity in a shorter time and it is only fair that the worker should share in the benefits of this progress.

"Of course it would be a tremendous task suddenly to reduce all the factories of Canada to a 40-hour week, but things are certainly moving in that direction. At the present time in Ontario a number of factories are working only 40 hours, although most operate for 45 or 50 hours. One or two factories are operating with the same staff for 60 hours a week, the maximum allowed by the factory acts for the employment of women. There is no legal limit to the number of hours which a man may work."

Dr. McMillan said that he had found that the factories employing their workers for the longer hours were generally the less prosperous. "The man who depends on long hours for his profits is very seldom in line with the progress of modern industrial development", he said.

Harry McGee, vice-president of the T. Eaton Co., did not think that the 40-hour week would ever become universal among departmental stores in Canada, at least nit in this generation. The closing of the store all day Saturday during the two summer months was not an industrial experiment, he said, but had been started in 1919, in the jubilee year of the firm, as a gratuity to the employees and had been continued as such ever since.

President J. Carlisle of the Goodyear Tire and Rubber Co. views the 40-hour week as "entirely impracticable in modern industry."

We work here five and a half to six, eight-hour days. And all our employees are quite satisfied," he said. "They are well paid, and we have not and will not consider the 40-hour week. Many of the men are paid by a piece work standard, and a shortening of the week would mean that they would be paid less and I am sure that they would not stand for this."

Dr. Forbes Godfrey, Minister of Health and Labor for Ontario, declined to discuss the resolution before it had been officially brought to his attention.

BIG ENTRY FOR RACES

Horses From All Parts of Ontario Provide Real Drawing Card.

AT EXHIBITION

Yesterday's horse races at the Peterborough Exhibition proved to be a real drawing card. Never before in its history have better horses started in their classes and never before has there been such a large entry list of race horses. Race owners have brought their horses from all parts of Ontario, with one coming from the Province of Quebec.

Over thirty horses, the best in the province, are entered in the six races that will be run off on the last three days of the Fair. Charles Snow of Toronto is handling the bell this season, and yesterday's demonstration proved to patrons of the Exhibition that Mr. Snow could get horses away on the scratch with every driver getting a fair chance.

Seven horses started in the 2.30 class, with Dr. Johnston's Donna Belle from Port Hope capturing the three heats and first money in the $500 purse. Donna Belle was an easy winner in two of the heats, but in the final one Nettie F, who finished second each time, gave her a real race on the final stretch to the line. Lou Todd, owned by R. Welsh of Hastings, stepped in for third money, while Peter G. Jr., owned by W. Wellwood of Merlin, took fourth money. The best time was 2.15, which was just a second slower than the fastest heat in the 2.18 class.

Five horses started in the 2.18 class, with Ingomar Grattan, owned by C. Chapman of Toronto, taking first money. Just Jack and King Grattan had quite a time fighting it out for second money, much to the delight of the spectators. Lou Grattan finished in fourth position every race, while Jim Todd, after taking third in the first heat, went back to fifth in the other two heats.

2.18 Class.

Ingomar Gratton—C. Chapman, Toronto—1 1 1.
Just Jack—R. Elmhirst, Keene—2 2 3.
King Gratton—J. Wellwood, Merlin—5 3 2.
Lou Gratton—C. Schooley, Peterboro—4 4 4.
Jim Todd—A. T. Johnston, Peterboro—3 5 5.
Time: 2.16, 2.15, 2.14.

2.30 Class.

Donna Belle—Dr. Johnston, Port Hope—1 1 1.
Nettie F—B. Porter, Orillia—2 2 2.
Lou Todd—R. Welsh, Hastings—3 3 5.
Peter G, Jr.—J. Wellwood, Merlin—5 4 3.
Birdie Brino—Dr. Bailey, Uxbridge—6 5 4.
Olympic Grattan — C. Sanderella, North Bay—4 6 6.
Rose Direct—Wm. Elmhirst, Keene—7 7 7.
Time: 2.15, 2.16¼, 2.16.
Starter—C. Snow, Toronto.
Timers—C. Armstrong, Havelock, and A. W. Clysdale, Peterboro.
Judges—Gus White, Peterboro; M. Storey, Peterboro, and A. Juby, Peterboro.
Clerk of Course—C. Stapleton, Peterboro.

'BIG SIX' TALK OF RHINELAND

Powers Meet To Discuss Germany's Demand For Complete Evacuation.

FRANCE ASKS SECURITY.

GENEVA, Sept. 13 (Canadian Press)—A second meeting of the "Big Six," Great Britain, France, Germany, Italy, Japan and Belgium, to discuss evacuation of the Rhineland was held today. French Foreign Minister Briand arrived at the conference ready to counter the German demand for unconditional evacuation by demanding an improved form of political security on the Franco-German frontier as essential to reduction or complete withdrawal of troops.

The French insist that more effective and more speedy operation of the "right of investigation" by League commissions is needed for the Franco German border. In other words, France wants the Rhineland frontier made stronger than is possible under the existing treaties. The Germans on the other hand say they would resent any new form of security as offensive to German pride and prestige.

The conference was described as a "hopeful meeting" afterwards by one of the participants. An agreement was arrived at to sit again on Sunday morning.

WEDDING BELLS

WILSON—BARLOW.

(Examiner Correspondence).

MADOC, Sept. 14.—The wedding took place at Belleville on Saturday, Sept. 1st, of Miss Bertha Irene Barlow of that city and Foster Wilson of West Huntingdon. Rev. L. M. Sharpe, minister of Point Anne United Church, officiated.

BLACKBURN—HINCHCLIFFE.

On Wednesday, Sept. 5th, Miss Helena May Hincheliffe of Sidney Township became the bride of William M. Blackburn of Eldorado. The ceremony was performed by the Rev. L. M. Sharpe at his residence in Belleville.

BLAKE—HALL.

CAMPBELLFORD, Sept. 14.—The home of Mr. and Mrs. Alex. Hall was beautifully decorated when their eldest daughter, Elsa, became the bride of Beecher F. Blake, Peterborough, son of Mr. and Mrs. F. C. Blake, of Campbellford, on Wednesday afternoon. The ceremony was at one o'clock, and promptly on the hour, the bride, escorted by her father, entered the room to the strains of Lohengrin's Wedding March, played by Mrs. Florence Stephens. The groom was attended by Frank Hall, brother of the bride, and the Rev. R. C. Tait was the officiating clergyman. Miss Jean Blake, sister of the groom, was bridesmaid.

The bride was charmingly attired in a French gown of ivory georgette, with rhinestone embroidery. Her veil was of embroidery net arranged with a coronet of orange blossoms. Her shoes were white kid with rhinestone buckles and she carried a bouquet of Columbia roses. Her only jewellery was a three-strand necklace of matched pearls.

Miss Blake, the bridesmaid, wore tea rose georgette with silver trimmings, a picture, silk mohair hat to match with silver hose and shoes. She carried sunset roses and asters of a deep rose shade.

The ceremony was performed under the arch of fern, smilax and autumn flowers, surmounted by a huge wedding bell.

During the signing of the register, Miss Hilda Bonnycastle sang "O Promise Me."

At the ceremony and at the luncheon table, Mrs. Hall, mother of the bride, looked charming in a gown of peach georgette, with a corsage bouquet of American asters. Mrs. Blake, mother of the groom, wore navy satin with a corsage bouquet of sweet peas.

The groom's gift to the bride was a fox neckpiece; to the bridesmaid, a dinner ring; to the pianist, a scarf; to the groomsman, a tie pin; to the young ladies who assisted at the luncheon, silver and enamel vanity cases.

An unusual feature was the Christening of the child of Mr. and Mrs. Ralph Stephens, "Phyllis Ruth Elizabeth," immediately after the register had been signed. During the luncheon there were vocal numbers by Miss Bonnycastle and Mrs. C. W. Turner.

Going away, the bride wore a Chinese blue santoy ensemble, with fur neckpiece and cloche hat. Her shoes were of satin, with cut steel buckles. After a motor trip to Toronto, Detroit and New York City, Mr. and Mrs. Blake will be at home at 443 Mark Street, Peterborough, where Mr. Blake is the manager of the George Street branch of the Dominion Stores.

Millbrook Fall Fair

SEPT. 17 and 18
Earlier and better than ever.
Two Horse Races.
Concert and Dance.
Don't miss the best two-day show in the district.

WORK STARTED ON NEW BRIDGE

Concrete Structure will Take Place of One Damaged By Spring Floods.

NEAR ROSENEATH.

(Examiner Staff Correspondence)

ROSENEATH, Sept. 12. — Construction work on the new concrete bridge on the Warkworth road about one half mile from this village began this week. The structure is at the foot of the long grade known as Braithwaite's Hill and will take the place of the one damaged by the spring freshets this year. The roads in the vicinity of Roseneath are exceptionally good and the village prides itself on the high class of highway which it maintains.

Notice has just been received that Roseneath school fair will be held on the agricultural grounds on Thursday, September 20th.

Mrs. Charles Craig is seriously ill and her sister, Mrs. Doriane of Montreal has been called to Roseneath.

Mrs. Charles Kemp and her daughter, Effie, have been renewing old friendships in the village and district before returning to their home in Grimsby.

The regular meeting of the Women's Institute was held at the home of Mrs. C. W. Varcoe last Thursday. There was only the regular routine business transacted and such other details as were urgently necessary on account of the small attendance. This circumstances was due to the fact that a number of the members of the Institute are ill and unable to attend.

Mr. Charles Greig will hold a sale of the household effects of his mother, the late Mrs. Walter Greig on Saturday afternoon.

Mrs. Macklin, Peace River, is visiting relatives and friends in the district.

The Young Peoples Society of the United Church here decided on a new form of re-organization meeting for the coming season. Last Friday evening they held a corn roast at the Agricultural grounds which proved very popular with the young folk of the village. Corn was not the only item on the menu. The young ladies had prepared a long list of good things including cakes, pies and dainties of many varieties. Old time music and modern community singing were also features of the evening.

Miss Jessie Johnston has been confined to her home for several days with a severe cold.

Trent River

(Examiner Correspondence)

TRENT RIVER, Sept. 12.—Rev. W. R. Archer has returned from his vacation and had charge of the service Sunday afternoon.

Mr. and Mrs. Earl Fairbrother and little son, Richard, left for Toronto Monday morning from spending a week at the Fairbrother cottage.

Mr. and Mrs. Fred. Lane arrived Monday from Toronto and will spend three weeks at the Cook cottage.

Mr. and Mrs. John F. Diamond Misses Della and Jean and Norman McCubbin, of Norham, were Sunday visitors with Mrs. Charles French and Miss Bessie at Beau Sejour.

Mrs. Charles Davidson and Miss Georgie, of Campbellford, spent over Sunday at Sunny Side.

Mrs. T. J. Brown and little daughter, Jerrine, returned home Saturday from spending the week in Detroit and the C.N.E., Toronto.

Mr. John Boyd and granddaughter, Miss Isabel, oldest daughter of Dr. Robert Boyd, of Fort William, arrived Saturday night from a ten-day trip down the St. Lawrence to Montreal.

Mr. and Mrs. Isaac Lawson and Miss Rose motored to Oshawa Sunday to spend the day with their daughter, Mrs. McGovern, and children.

Miss Leeta Chaplain has accepted the duties as teacher at Castleton.

Mr. Edward Wildman spent a few days last week at the C.N.E., Toronto.

Miss Maybelle Inkster left Tuesday for Montreal to resume her duties as nurse-in-training at the Royal Victoria Hospital in that city after a month's vacation at the parental home.

FRIDAY, SEPTEMBER 14, 1928

THEY COME FROM ALL OVER.

No annual event in Peterborough's history brings together people from so many different places as does the Peterborough Industrial Exhibition.

The grandstand performance, for example, is contributed by artists from widely-scattered points, one act being composed of an Australian family.

Cervonne's Band comes from Pittsburg.

Horsemen from all over the Province have brought their horses here for the harness events.

The Sheesley Shows were recruited from the Southern States, but include in their personnel people from all parts of the United States.

Many sections of Ontario have furnished the splendid livestock exhibits.

To provide the entertainment offered the people of Peterborough this week people from all over the Continent have assembled here.

There must be a lot of advertising for Peterborough but of that condition alone.

MAKE IT A RECORD.

The Examiner appeals to its army of readers in the city and district to ensure the financial success of the Peterborough Industrial Exhibition by giving it the largest one-day attendance on record to-morrow.

The showery weather for the greater part of the week has made the effort to set up a new attendance record for the Exhibition an extremely difficult one, but a real crowd to-morrow will go a long way toward achieving the aim of the directors and toward meeting the very heavy cost involved in staging an Exhibition of such magnitude.

The Exhibition Board made large expenditures in preparing for this years fair, erecting new buildings, providing more prize money and securing a grandstand performance of better quality than ever before.

Without enthusiastic and loyal support on the part of the people of the district to-morrow, the revenue from this year's fair will not be sufficient to provide an operating surplus.

The Examiner is confident that that support will be in evidence to-morrow, and that the closing day of the 1928 Exhibition will be written down in the history of the Peterborough Industrial as the red-letter day of all time.

ADMISSION NOT EVERYTHING.

The advice given to the directors of the Western Fair at London by Dr. G. I. Christie, president of the Ontario Agricultural Club, should be remembered by all exhibition managements.

There is, as has been pointed out in connection with the Canadian National Exhibition, a danger of over-emphasizing the importance of admissions, and in striving to develop on lines of showmanship rather than to build up an all-round fair.

"We must be careful," said Dr. Christie at London, "that we are not so hard pressed for dollars that we allow the amusements, midway and features that might draw the crowd to over-shadow the fundamentals of our fairs, such as the livestock and agricultural exhibits."

That is a sensible warning, and in the long run, the Exhibition which, while providing sufficient entertainment to satisfy its patrons, pays proper attention to its agricultural and industrial departments will achieve the greatest success.

Sensational features are bound to grow common after a while, but the encouragement of better farming methods and of the breeding of better stock is a constructive work that is certain to live.

THE BUREAU OF COMPLAINTS.

The official announcement has been made through a newspaper advertisement bearing the name of Hon. Geo. S. Henry of the inauguration of a bureau of complaints in the motor vehicles branch of the Department of Highways.

This departure, hinted at several months ago, will give the careful driver a chance to protect himself by reporting to the department cases of reckless driving that come to his notice.

Cards on which such reports can be made may be obtained at police stations, or at the offices of agents of the motor vehicles branch, and it is promised that all such reports will be dealt with confidentially.

There is considerable diversity of opinion as to the efficacy of the new measure of protection devised by the Highways Department.

Some police officials do not believe that the plan will accomplish very much, while, on the other hand, there are motorists who declare that there are some reckless drivers whose conduct is a public menace and who can be reported and checked up through the medium of the Bureau of Complaints.

A motorist who is careful and courteous himself should welcome a chance to help correct the dangerous driving of others not so considerate.

AGAIN, WHAT IS NEWS!

Those good people who take eight years to become physicians, five years to become lawyers, and any number of years to master any other other profession or trade ,but who, through some strange alchemy, learn how to run newspapers without ever having been inside a newspaper office, should read and ponder an item that yesterday came over the cables from far-off New Zealand. It told of an extraordinary welcome which the stolid men and women "down under' accorded to their fellow-countryman, Mr. Tom Heeney.

Now, according to the critics who know all about journalism without having ever practised journalism, newspapers should never print such or anything about prize-fighting and prize fighters. Such lowbrow stuff, they keep assuring us, is both uninteresting and degrading; what we should print, and what readers passionately demand, are items about scientists, philosophers, statesmen; lectures, sermons, political speeches, and so on.

Well, here is what happened when Mr. Heeney, accompanied by his bride, reached the dock of Auckland:

"Two thousand people bought tickets for the wharf and then the gates were closed. The crowd swarmed over sheds, up cranes, and faced the peril of electrocution from the high-powered wires.

"When the gates were opened to admit a mail cart, the crowd took charge and the efforts of the police were futile. In the rush several women fainted, some were rescued from the crush and others were rolled in the mud, emerging with a bedraggled appearance.

"The gate-keepers say the women fought more furiously than the men. One man lost a trouser leg."

How many New Zealanders would have crowded that dock to welcome a scientist like ,say, Mr. Bertrand Russell? How many would have gone wild over the Bishop of London? How many would have risked electrocution to see Sir Austen Chamberlain?

And in all lands, among people everywhere, it is the same. Usually staid British crowds went hysterical over Gene Tunney, on his way to walk in Germany. Not more than half a dozen officials met Mr. Kellogg, on his way to Paris to sign a pact to help the peace of the world.

When Mr. Kellogg and our own Mr. Mackenzie King were sailing from New York, a mighty mob assembled on the dock. The mob cheered and jostled, as mobs will, and, no doubt, Mr. Kellogg and Mr. King were mightily bucked up and pleased. They were pleased until they discovered the sad fact that the mob had not gathered to see them at all, but for the more thrilling purpose of shouting godspeed to Miss Gloria Swanson and Miss Dolores Del Rio, peppy movie queens.

Such is fame—and news! The masses, our many and distinguished critics to the contrary, are not interested in philosophers or preachers and politicians. Not unless the preacher is a Father Vaughan, or unless the scientist mixes a dash of spiritualism with his science, or unless the politician has white plumes, or is an Al Smith or a Lloyd George.

In an editorial yesterday, the New York Times said that Canadians were profoundly interested in the United States presidential election because of its bearing on the tariff. All of which is flattering, but nevertheless nonsense. Canadians are interested in the American elections because of the personality of Al Smith. Smith, like his distinguished fellow-countryman, Gene Tunney, and like his not-less-distinguished countryman, Mr. Babe Ruth, is news. He has color. He has personality. He has what our neighbors call "it." So instead of being perturbed over what a Republican or Democratic victory may mean to the tariff, Canadians really want to know whether a Catholic can be elected President; how the Brown Derby will fare with the Ku Klux Klan; what will happen as between the "Wets" and "Drys." That is all. The tariff doesn't enter into the thing at all. It would be a great thing for Canada and democracy if it did.

All of which explains why newspapers, if they are to give the news, the sort of news that people really want, must soft pedal on the preachers and philosophers and scientists, and chronicle the activities of the Heeneys and the Tunneys and the Al Smiths and Bernard Shaws. If they listened to their critics ,and printed long reams about religion and philosophy and science and politics, then they would soon find themselves as much neglected as the journals which are exclusively devoted to such things.—Ottawa Journal.

SANE AND SAFE IS MacDONALD.

There cannot but be a general impression in Canada that this country does not entertain often enough men in the higher realm of politics in Great Britain. Canada was delighted a year ago with the visit of Premier Baldwin. Canada also cordially welcomed the great Lloyd George. But in more recent days, this country has been delighted with the visit of Ramsay MacDonald, one-time Premier, and leader of the Labor party in Britain.

Mr. MacDonald's words of wisdom, those, perhaps of a cautious Scot, have been broadcast throughout the Dominion and are full of enlightenment. His addresses reveal the inner nature of the man and the brilliant intellect he possesses. It is not at all surprising that a rich friend gave Mr. MacDonald, when Premier, a luxurious automobile for his comfort. It can readily be imagined that a man like Mr. MacDonald would attract friendships from high and low in the land. He has certainly done so in Canada. His speeches have been models, and show concentration of thought on inherent problems in this country which is not given to all politicians. In fact, Mr. MacDonald is a statesman, not a politician in the ordinary sense, whatever.

One remark made by the ex-Premier is worthy of repetition, on the immigration problem. He said:

"Now and then when the problem of over-population has become more or less acute in the Old Country, there has been too much of an inclination to take a shovel, as it were, and throw the excess across the Atlantic."

In other words, you cannot uproot and transplant people as you would an ordinary commodity. The factor of the human element enters into the whole business of immigration, and this makes the solution of our population problem difficult. Mr. MacDonald was quite right, that you cannot handle this sort of thing with a "shovel."—St. Catharines Standard.

EDITORIAL NOTES AND COMMENT.

Make to-morrow the biggest day in the history of the Peterborough Industrial Exhibition.

To-morrow is the last day of the big fair, and the best from the viewpoint of program excellence.

With good weather, all roads will lead to Peterborough to-morrow as the people of the district flock in for their last chance to see the Industrial Exhibition.

The list of level crossing accidents recorded yesterday should frighten the most reckless driver into being careful at such danger points.

It is stated that there is going to be another marathon swim next year. The grease stocks should show an immediate reaction to this announcement.

The return of the brown derby, we fear, is merely the thin edge of the wedge. Next the manufacturers will make 'em in purple, pink, mauve and Nile green. —Sault Daily Star.

Alberta coal should really get a great boost in Ontario if they would pull off another one of those famous strikes in Pennsylvania.—St. Catharines Standard.

The Question Box

T.T. Q.—When and by whom was Toronto (or York) captured?

A.—Toronto, when it was Little York, was twice captured by American forces during the War of 1812. Both were in 1813. The first capture was on April 27, 1813 when a force of 2500 compelled one of 600 to evacuate the town, but it was only held by the invaders for a few weeks. In the following August Americans made a second landing, but for only a day.

* * *

B.A. Q.—I am told that Canada supplies more than 50% of the world's nickel, cobalt, asbestos, pulpwood and lumber. Is this right?

A.—Canada supplies the world with 90% of its nickel and cobalt, 85% of its asbestos, 35% of its pulp wood, and 22% of its lumber.

GOD'S MINUTE.

Let us offer the sacrifices of praise to God,—Heb. 13: 15.

* * *

As the morning breaks gently upon us, O Lord, awakening us to consciousness and opening our eyes to the light and labor of each new day, before the blood-sprinkled mercy seat we bow. Here we would leave our sins, and loose and lose our weights, and find and cherish the full assurance of Thy favor. May Thy face be unobscured to us to-day. Give us grace to set our affections where Christ sitteth, that so we may be saved from all sordidness of thought, or word, or deed, and that our lives may draw their inspirations from high and holy springs. Help us to cherish a tender regard for all the children of God of every name.

Our eyes are unto Thee, O God. Our hearts would find repose in the assurance of our acceptance in the Beloved. We would yield our members as instruments of righteousness unto Thee, that, by the gracious power of Thy Spirit, we may ourselves this day grow in grace and knowledge, and, by our ministry to others in Christ's name, bring some into an experience of His abounding grace.

Hear us, O Lord, because we pray in that sweet Name in which Thy exceeding great and precious promises are sure. Amen.

Rev. Thomas T. Shields,
Toronto, Ontario.

A Thought

RIGHT STANDARD.

A comparison may seem more creditable than it really is. To say of a man that his word is as good as his bond may appear quite complimentary; but when it is known that his bond is worthless the comparison loses its value.

To say that a man is as godly every day of the week as he is on Sunday is little to his credit when he is known to spend his Sundays drinking and gambling. Only when the standard has real value are comparisons with the standard of substantial credit.

Marmora

(Examiner Correspondent)

MARMORA, Sept. 11—Mr. and Mrs. F. C. Knight and Mr. and Mrs. G. Knight and young daughter, of Detroit, are visiting at the home of Mr. and Mrs. Abe Smith for a few days.

Among those attending the Bridges-Denike wedding at Colborne on Saturday were Mr. and Mrs. F. A. Bapty and Mr. and Mrs. R. A. Elliott.

Rev. Mr. and Mrs. A. B. Caldwell and family returned home from holidays on Saturday.

Mr. and Mrs. E. Williams, of Toronto, are spending a few days at the rectory.

Mrs. W. Newnham, sons, William and Lorne, and daughter, Rosebud, of Hamilton, who were visiting relatives in Madoc called at the home of Mrs. James Gray on Tuesday and Thursday of last week.

Mr. and Mrs. W. Bishop and Mr. and Mrs. Matthews McGarvey spent Sunday in Cloyne.

Mr. Edward McGarvey and daughter, Aletha, accompanied by Mr. Herbert McKenzie motored down from Toronto on Saturday to visit relatives in town.

Mr. and Mrs. Percy Gray and family, of Bancroft, spent the week-end with relatives in town.

Mr. and Mrs. Lester and family, of Belleville, spent Sunday with Mr.and Mrs. Frank Gray.

Mr. Dave Bowen visited in Stirling on Sunday.

Mr. and Mrs. Cecil Armstrong and Miss Marjorie Henderson, of Glanmire, visited Mr. and Mrs. Manley Cavender on Sunday.

Mr. Barney Callery has moved with his family to his farm in Marmora township.

STERLING EXCHANGE.

MONTREAL, Que., September 14 (Canadian Press). — Sterling exchange rates were quoted here yesyesterday as follows:

Demand—$4.84⅝ to $4.84¼.
Cables—$4.84 13-16 to $4.84⅞.

CATTLE, GRAIN AND PRODUCE

TORONTO LIVESTOCK.

TORONTO, September 14. — On a weak market buyers showed little inclination to procure cattle unless at lower prices. Although the holdover was not large, and only thirty head of fresh cattle came in, trade was very slow.

Choice steers of heavy and butcher type sell steady. Heifers are not in great demand and bidding is lower.

Cows sell at $8.50 to $9.00 for choice, with a fair feeling.

Bulls of all classes meet with a good demand at unchanged prices.

Stocker and feeder cattle are quickly disposed of. Trade continues active, with yearling heifers from the west, on through billing, bringing $9.00 to $9.50.

Calves sell strong at 15c to 16½c with fancy reaching 17c.

Lambs will be turned over at 14c for the majority.

Hogs are unsettled, packers bids being out at $13.00 f.o.b. for week-end loading.

Receipts — Cattle 22, calves 3, sheep 160.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Que., September 14 (Canadian Press). — There was no improvement in the foreign demand for grain here yesterday, and business was reported dull. A moderate trade was done in car lots of grain with country buyers and prices ruled steady.

Owing to weakness in the Winnipeg market the local market for the spring wheat grades of flour was easier. Millers generally reduced prices 10 cents per barrel. Despite the lowered prices business was reported quiet. No price changes were announced for winter wheat flour, the market being quiet and steady.

The millfeed trade remained firm with a steady trade continuing in all grades. Prices were unchanged.

Owing to the recent strength in the market for oats and the increasing scarcity of good milling grades a stronger feeling has developed in the market and prices were advanced 10 cents per bag for standard grades of rolled oats.

There were no new developments in the local egg situation. Receipts were 1,687 cases.

Scarcity of imported beans and supplies forced prices up 10 cents to keen competition between buyers for 20 cents per bushel with sales of choice white hand-picked in small lots at $4.20 to $4.40 per bushel, ex-store, and car lots to arrive sold at $4.00 per bushel, ex-track.

An increased inquiry developed for second grades of creamery butter, and 39½ cents per pound was bid. Owing to the limited supply available on spot buyers found it difficult to fill their wants. Otherwise the market was quiet. Receipts were 1,099 packages.

There was practically no change in the cheese market yesterday. Receipts were 4,522 boxes.

CHICAGO GRAIN.

CHICAGO, Sept. 14.—Corn made a spectacular advance yesterday and put backbone into all other kinds of grain. Sensationally bullish foreign news about corn was received, Bulgaria reporting half her crops lost, and Rumania reporting a yield much less than home requirements. Profit-taking sales on the upturns in price however, led to reactions as the day drew to an end.

Closing quotations on corn were irregular at ¼c. off to 1 3-8c. up, with wheat varying from 3-8c. decline to 1-8c. gain, oats unchanged to ½c. advance, and provisions ranging from five cents setback to a rise of 35c.

September delivery of corn was the star performer yesterday, starting skyward as soon as trading began. Corn available for immediate use was in brisk demand, with shipping sales being made at high prices, and receipts here relatively meager, 115 cars. Under such circumstances offerings of future deliveries of corn quickly dried up, and the price of September delivery jumped to above $1.00 a bushel for the first time of late and showing on some trades a rise of as much as 6c. a bushel since Tuesday.

Efforts of previous speculative sellers to put a stop to losses in the corn market gave further impetus temporarily to the rise in prices. Numerous standing orders to buy at various set limits, and thus prevent additional sacrifice of outlay, were automatically forced into execution. Meanwhile, talk was current that leading holders of corn had disposed of all grain they had unsold in the east, and there were active inquiries for boats to take further shipments. On the other hand, the spot corn trading basis here at the finish was 1c. to 3c. lower compared with future deliveries. Country offerings too were somewhat enlarged. Oats followed corn.

Wheat strength came chiefly from the bulge in the corn market. However, general notice was taken that United States' wheat growers, were being officially advised to hold back their wheat while prices are depressed.

Besides trade reports indicated that only 20 to 30 per cent of domestic wheat arriving at country elevators north-west is being sold, the remainder being stored. There were also advices that frosts have reduced the quality of the Canadian wheat crop one to two grades on a third of the crop. Provisions averaged higher, influenced by an upturn in hog values to the topmost point since 1926.

BUTTER AND EGGS.

TORONTO, Sept. 14.—Prices continue steady and firm on the Toronto wholesale produce market. On the wholesale egg market, some dealers are quoting slightly higher prices to country shippers for ungraded eggs, delivered Toronto, cases returned, their prices on extras being 40 to 42c, while on firsts they are paying 38 to 39c. Some sales of Ontario graded eggs are reported at, extras, 43c; firsts 40c; seconds, 32c, delivered, cases returned.

Cold Storage Holdings.

Cold storage holdings on September 1, 1928, according to the report of the Bureau of Statistics, show decreases in butter, cheese, lard, beef, veal and poultry compared with those on the same date last year and increases in eggs and mutton.

The butter in storage amounts to 28,650,702 pounds of creamery and 615,159 pounds of dairy. Creamery butter shows an increase of 25.39 per cent. over last month and a decrease of 15.18 per cent. from last year; and dairy butter also shows an increase of 47.76 per cent. over last month and a decrease of 12.57 per cent. from last year.

Cheese stocks total 27,854,470 pounds, showing an increase of 18.12 per cent. over last month and a decrease of 22.25 per cent. from last year.

Eggs in Storage.

Eggs in cold storage amount to 15,168,879 dozen; eggs other than cold storage, 1,201,417 dozen and frozen eggs, 3,455,406 pounds. Cold storage eggs show decreases of 4.92 per cent. from last month and .51 per cent from last year; eggs, other than cold storage, show increases of 86.56 per cent. over last month and 54.78 per cent. over last year, while frozen eggs also show increases of 15.32 per cent. and 100.60 per cent. over last month and last year, respectively.

IN POLICE COURT

(Examiner Staff Correspondent.)

CAMPBELLFORD, Sept 13.—Business was brief in the local police court yesterday. There were two cases on the list, but one had been previously settled and the other when called for hearing, was postponed till ten o'clock on the morning of the eighteenth. There was considerably more evidence to be collected for the defense and Magistrate Payne granted a postponement till the above date. Both cases were breaches of section 238 of the Criminal Code

Misgivings are what a woman has about her next-door neighbor's character.

In an Indian village in Alaska there is a club of eight white women which is affiliated with the general Federation of Women's Clubs.

Long years ago, when hustles were all the rogue, and men boasted of their "coach and four" the inns of little old New York were famous for their comfort and good cheer. The Victoria, today, is proud to follow that same tradition of true hospitality.

THERE'S a FAMOUS Tradition BEHIND the NEW VICTORIA!

It's a smart hotel, of course—you're proud to say, "I stopped at the Victoria!" It's convenient, certainly—you're in the very heart of the theatrical and business and shopping districts! But above everything else, you'll remember your stay at the Victoria for its old-fashioned courtesy, its warm hospitality!

Industrial progress is a great factor in modern life. You find it exemplified in the advertisements from day to day. Read these advertisements and keep up with the history of your own times.

"HELPED ME WONDERFULLY"

Woman Strengthened by Taking Lydia E. Pinkham's Vegetable Compound

Port Colborne, Ont.—"After having an operation, I was very miserable, weak, nervous and very near unfit to work. I saw Lydia E. Pinkham's Vegetable Compound advertised and tried it and believe it helped me wonderfully. I have no weak spells any more, the pains have left me and my nerves are much better. I feel safe in saying Lydia E. Pinkham's medicines have helped me wonderfully."—MRS. WM. H. BEECHTELLER, Box 143, Port Colborne, Ont.

Brunswick

NEW RECORDS for OLD RECORDS

We all have accumulated Records which we no longer play. Bring YOUR Records to us in exchange for New, Up-to-date Records.

Here Is the Plan:

Bring any four or multiple of four old Brunswick or Victor Records to us. Select any four new Brunswick Electrical 10-inch Records, and we will sell you the Four for the price of Three. In other words you will receive 75c credit for the four old Records—18¾c each. It makes no difference how badly worn or old the Record is, just so it is in one piece.

We carry all the very latest Brunswick Electrical Records. We will be more than pleased to help you choose from our large assortment.

Best saddle horse, suitable for lady to drive, to be ridden by lady (4)—1 Mrs. Davison, Unionville; 2 Keith Kelly, Peterborough; 3 Mary Denne.

OBITUARY

MRS. T. E. BURNSIDE.

MADOC, Sept. 14.— Following an acute illness of some months duration there passed away at the Kingston General Hospital on August 31st, Fmma M. McCoy, wife of Mr. T. E. Burnside, of Madoc.

Born in Madoc township in 1871, daughter of the late John McCoy and Jane Allen, Mrs. Burnside spent all her life in this vicinity. She received her education in Madoc township and Albert College, Belleville. In 1898 she marries the late Wm. K. Blair, who predeceased her eight years ago. O fthis union four children were born, Paul and Pauline, who died in infancy, Jean who died in 1926 ,and Sarah at home. In 1927 she was married to T .E. Burnside, who, with Sarah, is left to mourn her passing. One brother and two sisters also survive, Charles Alfred McCoy of Madoc township, Mr. Archie Thompson of Madoc and Mrs C. E. Muffett, of Coe Hill.

Mrs .Burnside gave of her life unstintedly. In her quoet, unassuming way she served well the church she loved. The Ladies' Aid, the Women's Missionary Society and the Adult Bible Class afforded fields of labor, and these societies have suffered the loss of an earnest, untiring worker. In her home she was the replica of the true mother and the faithful helpmate. She was an ardent Christian and at all times exemplified the Christ-like spirit, loving the sunshine and firm in the shadows, meeting all adversity with stoicism and true Christian fortitude.

The funeral was held from her home to Trinity United church, where a very impressive service was conducted by her pastor, Rev. G. W. Rivers, assisted by Rev. Stanley Morton, of Kingston, a nephew of the deceased, and the Rev Mr. Adamson, of Eldorado. Rev. G. W. Rivers spoke from the text, "For me to live is Christ and Christ is gain," and referred in feeling terms to the exemplary life of the deceased. Rev. S. Morton gave hopeful and helpful counsel from the words, The gift of God is eternal life through Jesus Christ."

Interment took place in Hazzard's cemetery, where a large concourse of relatives and friends paid fitting tribute to the memory of the departed. "There is no death; what seems so is transtiion."

GEORGE WOOD.

(Contributed.)

A life of over four-score years was closed on Thursday, September 6th, when George Wood, one of the oldest and most highly respected pioneers of South Monaghan, passed peacefully away at the home of his son, Everett Wood, lot 2, concession 12, South Monaghan.

Deceased was born in South Monaghan 85 years ago, the son of George and Isabelle Wood, pioneer settlers of the virgin soil. His mother's maiden name was Isabelle Rebecca Colton. The late Mr. Wood was united in marriage to Annie Shields, and this union was blessed with two sons and one daughter, namely, Everett of South Monaghan, Violet of Toronto, and Amys of Edmonton.

As a young man he followed his father's occupation, farming, and spent his entire life upon the homestead.

In seemingly the best of health Mr. Wood enjoyed the evening of life until a week ago, when he was taken suddenly ill. In spite of all that medical aid could do he passed away to his heavenly reward.

The deceased was a life-long Conservative and a regular member of the Bensfort United church. Besides his sorrowing family he is survived by one aged brother, Thomas Wood, of South Monaghan.

Interment took place in the Dawson cemetery, Rev. Mr. Swain of Bensfort church officiating.

Many beautiful wreaths and flowers surmounted the casket that held the earthly form of the departed.

Much sympathy is extended to the bereaved family over the loss of a loving father and grandfather. As an old favorite hymn says:

"Lead kindly light,
Amid the encircling gloom
Lead thou me on,
The night is dark aid I am far from home,
Lead thou me on."

MRS. E. J. HOTSTON.

St. James' United Church mourns the loss of a Christian lady and devoted worker in the person of Mrs. Viola Hotston, who was laid to rest Saturday afternoon, Sept. 8.

Mrs. Hotston as a young girl (Viola Palmer) was identified with St. James' Church from its organization in 1908. In the passing years it was her joy to serve efficiently in many departments of church life: superintendent of the Junior League of Young People, superintendent of the Mission Band, leader and pianist in the Senior Young People's work, teacher of the King's Own Bible Class. Being a most gifted musician, she gave of her talents freely to the church choir and the Sabbath School, for some time serving as organist of the church and latterly as pianist of the Sabbath School, in which capacity she filled most acceptably for a period of twelve years.

It was her joyful experience to be married in the new church built in 1917, this being the second marriage solemnized in the church by the Rev Benj. Greatrix.

Owing to failing health, it was necessary for her to relinquish active service in the church about two years ago, but notwithstanding the frailty of the body, she was strong in spiritual realities, and many can testify in their visitation of the smile of greeting and cheery disposition in the hours of sickness. The congregation of St James' joins with a host of friends in mourning the passing of this devoted Christian lady and extends heart-felt sympathy to the sorrowing husband and parents, Mr. Edward Hotston, and Mr. and Mrs. J. Palmer, in their great loss.

MRS. WILLIAM ROBINSON

On Monday afternoon the funeral of the late Mrs. William Robinson, who died on Friday evening, September 7th, in her 84th year, was held from the home of their daughter, Mrs. A. Stewart Hall, Cavan.

The service was conducted by her cousin, the Rev. Herbert Perrin of Cameron, assisted by the Rev. Mr. Riddell, Millbrook, and the Rev. Mr. Swain of Fraserville.

At the conclusion of the service, a solo, "I shall be Satisfied when I Awake in Thy Likeness," a favorite of the deceased, was beautifully rendered by Rev. H. Perrin.

The pallbearers were her four grandsons, Chalmers and Judson Pue, Clifford and Willis Hall, and her two neghews, Herbert and Lionel Perrin.

Those who are left to mourn her loss are her son, Stanley of South Monaghan, and four daughters, Mrs. Robert Pue, of South Monaghan; Mrs. A. E. Wood, of Vancouver, B. C.; Mrs. A. Stewart Hall of Cavan, and Mrs. Clara Fife of Keene; also two sisters, Mrs. Joseph Buyers and Miss Etta Perrin, of South Monaghan, and two brothers, Charles Perrin of Oakwood, and Joseph Perrin of St. Mary's.

Burial took place in Dawson's cemetery, Mrs. Robinson being laid to rest beside her husband, who died in 1914.

The funeral was very largely attended by relatives and friends. Among those from a distance who attended, were the Rev. Herbert and Mrs. Perrin, Mrs. Cummings, Mrs. Tait and Miss Ward of Cameron, Mr and Mrs. Charles Perrin, Mr. and Mrs. Herbert Perrin of Oakwood, Mrs. J. Perrin of Peterborough, Mr. and Mrs. S. Johnston and Mr. Stephen of Campbellford.

A BIGGER JOB--
and You're the Man

Are you hunting a bigger job, or does the bigger job hunt you? Why waste priceless years at routine work, when you can acquire at home in a comparatively few months the specialized knowledge for which big firms pay big money? Thousands of men have greatly increased their incomes by home study business training under the LaSalle Problem Method. Let us show you how you can do just as well or better. The coupon will bring you complete information, together with details of our convenient payment plan! also your free copy of a remarkable book—"Ten Years' Promotion in One." Make your start toward that bigger job today.

'40'--The Danger Age For Most Men

Much Ill Health of Later Years Due to Neglect of Conditions First Noticed in Middle Life

With middle age ailments attacking over two-thirds of those past 40, it is time every man who notices such distressing symptoms as Lameness, Pains in back and down through groins, scanty but frequent and burning Urination, "Getting-Up-Nights", Nervous Irritability and Lack of Force—should at once try the amazing value of Dr. Southworth's URATABS.

While new to many, the truly remarkable value of URATABS has been proven by many years of successful use. Reports from Doctors and Users alike offer convincing evidence: "I never found anything to help my case until I tried URATABS." "URATABS are the best thing for Bladder Weakness and Irritation I have ever tried." "No more backaches, no more pain, no more daily embarrassment or "Getting-up-nights. I now sleep soundly and get up in the morning full of pep—thanks to URATABS!"—This is amazing evidence!

No matter how long you have been troubled or how stubborn your case may seem to be, a ten-day test of Dr. Southworth's URATABS offers comfort and relief—and you can make the test without risk of cost, for Bond or any good druggist will supply you on guarantee of money back if not satisfied. Try URATABS today!

Interesting Reading for All the Family

The Planter of the Tree

By RUBY M. AYRES

© McClure Newspaper Syndicate

(Continued from yesterday.)

WHO'S WHO IN THE STORY:

SALLY LINGFIELD, dancer at the Faun, a night club.

JOSH AKERS, a waster, with whom Sally is in love.

POPPY, Sally's roommate, another dancer at the Faun.

PHILIP SANDERSON, rich young man of wealth who early one morning, when drunk, runs over Sally, badly injuring her. Sanderson loves Sally.

SOMETIMES, Sanderson's dog.

MRS. KIFF, his landlady.

Josh Akers, hearing of Sally's probably permanent injury, says he is through with her, and Sanderson assumes her care. He gets a cottage in the country for her and Mrs. Kiff. At first Sally hates it, and is heartless to Sanderson—even telling him she is glad when Sometimes is injured by an automobile. But gradually she becomes somewhat reconciled, and even looks more kindly on Sanderson's love for her. The rector, ROBERT NAIRN, brings his young son, GARRY, to see Sally. Sanderson is immediately jealous. Word comes that Poppy is very ill, and Sanderson goes to her. While he is away Garry comes often to see Sally, and take her out in her invalid chair.

XXVI—A HOPELESS CASE

Sanderson went out and ordered in fruit and champagne, blissfully unconscious of what was the right thing to give her, and only remembering what she had always liked. Then he took a taxi-cab to Fortnum and Mason's, bought chicken broth and turtle soup, and half a dozen extravagances which he thought might tempt her to eat, stopped at a florist's for flowers, picked up the only doctor he could find at home, and went back. On the way he explained things as well as he could.

"She's a friend of mine. I want to do all I can, but don't send her to a hospital if you can help it. She's afraid of hospitals, poor soul."

"I see." The doctor was a busy man who did his duty according to the time at his command. He suspected that Poppy was a great deal more than just a friend to this queer-looking giant in the funny hat and clothes, but it was none of his business, and, anyway, his first brief examination of Poppy told him the worst. Outside on the landing he broke the news to Sanderson.

"There's no need to move her."

Sanderson did not understand, and he looked relieved.

"I'm glad of that: she'll be glad, too. If there is anything she wants, just tell me."

"I'm afraid she won't want anything for long," the doctor said diffidently. "I'm afraid it's too late for me to help her much. She's dying."

"Dying!"

Philip Sanderson had never dreamed of such a thing, and it gave him a bad shock. Dying! Alone in that comfortless room which she called "home."

Someone must stay with her," the doctor went on. If you can get a nurse——"

But it had not been possible to get a nurse, though Sanderson drove from hospital to hospital in a vain attempt. When he told Mrs. Jenks how bad Poppy was he was met by a volley of abuse.

Well, she can't die here! I've trouble enough, without a death in the house. She owes a month's rent, too."

I'll pay it. I'll pay everything. Good heavens, woman, haven't you got a heart or any decent feeling?"

She looked taken aback.

You can't afford a heart in my job," she answered bitterly. I've got my work cut out to keep my body going, without bothering about a heart."

But she did what she could when she found it was to be made worth her while, and she stayed with Poppy while Sanderson went out and wired to Sally that he would not be returning that night. Then he called in at the flat behind Manchester Square, to see if there were any letters. There were two bills and a business-like-looking document which he thrust into his pocket unopened, only remembering it during the long hours of the night, when he sat by the smoky fire in Poppy's room, listening to her labored breathing, and occasionally getting up to replace the thin blankets which she persistently flung off. He knew without a doubt now that she was dying, and he remembered what she had said to him that morning they breakfasted together:

What do you suppose will become of me when I'm too old to work?"

Well, she was spared the fulfilment of that dread, at all events. A tin-pot clock somewhere about the house struck two, and Sanderson mechanically groped in a pocket for his watch, in order to compare the time. It was then he came across the unopened letter, and more for something with which to occupy his thoughts than from any real interest, he opened and read it.

It was from a firm of lawyers of whom he had never heard, requesting him to go and see them at his convenience. The matter, it appeared, was in regard to some money which fell to him owing to the death of one Abel Sanderson, his half-brother.

* * *

Philip's face grew grim in the dim light. How he had detested Abel! They had not met for nearly twenty years, and he had always hoped that they would never meet again.

Abel must have died intestate, or he would never have allowed his money to come to him, he knew.

Well, it would mean more for Sally—that was a good thing. And then his thoughts fled down to the cottage at Ash Hill, and to the girl he loved with all the strength of his queer nature.

What was she doing? he wondered. Lying awake, perhaps—perhaps even thinking of him. The audacity of that thought amused him. Sally had been very kind—so kind that even now it seemed like a dream—but she would most surely not keep awake for one moment in order to give him a thought, even though it was for her sake that he was spending the long night here, watching Poppy Sladen die.

Poor Poppy! He glanced towards the bed with compassionate eyes. He was glad he had come; her gratitude had repaid him for his trouble, and afterwards, when it was all over, it would be something to remember that she had not been left to die alone.

He sat back in the hard, straight-backed chair which was the only one in the room, and closed his eyes.

How the hours dragged!

Presently the clock struck three; it would soon be morning.

Sanderson knew that people very often died in the early hours of morning. He turned his head again towards Poppy. She was lying so still now that for a moment he thought she had just gone out quietly, after all, without any struggle.

Then he felt that her eyes were open and fixed upon him, and after a moment she spoke his name very feebly.

"Philip!"

"Yes?" He got up at once and went to her. "Don't talk. Try to go to sleep."

She ignored his words.

"Why are you still here?" she asked.

"I thought you would like me to stay. It's rotten being alone when you're ill, and I couldn't get a nurse."

"How you must hate it!" she whispered, with a flash of her old cynicism.

"I don't hate it."

"You wouldn't if I were Sally," she said rather sadly.

"I don't as it is," he told her quietly. She closed her eyes, and there was a little silence.

"Are you going to stay all night?" she asked presently.

"Yes."

Her heavy lids opened.

"Sally's a damned little fool," she said with weary scorn. "If it 'ud only been me you wanted, instead of her now!"

He tried to fall in with her mood.

"Go on! You wouldn't have looked at me."

"Perhaps not when I was well," she admitted painfully. "But now—now I know what sort of a chap you really are—— I suppose you've kept your wings folded under that awful coat of yours all this time."

"Don't talk. Go to sleep."

"All right. Don't go away, then. Sit where I can see you if I look."

"Right-oh!"

The night dragged away somehow, but in the morning Poppy was still there, although she was much weaker, and hardly conscious save in painful little flashes.

The doctor came again, looked at her, felt her pulse, sounded her heart and shook his head.

Philip followed him outside the door. The landing was dark, and smelt of stale food and a gas leakage.

"Look here, doctor," he said bluntly, "if Poppy lived in Park Lane and had twenty thousand a year, what would you suggest doing to try and keep her alive?"

"Nothing now—it's too late."

"Because if there is anything——"

"I know. I'm sorry. Get another opinion if you like. I can do no more."

But she lingered all that day and half-way through the next night before the fight ended. Sanderson hardly left her.

"Haunts the house like an evil spirit," Mrs. Jenks complained downstairs to her husband, a lazy lout of a man who spent his life in his shirtsleeves, drinking beer, and bullying lodgers who could not pay their rent.

But there was nothing evil in Philip Sanderson's face when at the last he sat beside Poppy's bed. She had asked him to hold her hand.

"I shan't feel so lonely," she whispered. The fever and delirium seemed to have abated; she was just intensely weak.

(To be continued.)

UNCLE WIGGILY

By HOWARD R. GARIS

Bedtime Story

(Continued from yesterday.)

(Copyright, 1928, McClure Syndicate.)

UNCLE WIGGILY'S LITTLE SHIP

"Dear me! This is too bad!" said Mrs. Longears one day as she sat in the hollow stump bungalow reading a letter that Mr. Crow, the black bird postman, had left.

"What is too bad?" asked Uncle Wiggily, who sat in the corner. No, he wasn't sitting in the corner because he had been bad, but because the looking glass was there and Uncle Wiggily wanted to see if his pink nose was twinkling straight.

"It is too bad about these poor bunnies," said Uncle Wiggily's wife, who had come back from her vacation, bringing with her the forty-twelve little rabbits ready to start school Monday morning.

He started out with a basket.

"Do you mean our baby bunnies?" asked Mr. Longears.

"No," said his wife, "the poor rabbit children I have in mind live in an orphan asylum not far from here. This letter is from a dear old lady rabbit friend of mine who helps look after the orphan bunnies. She says they are so poor, with no fathers or mothers to buy toys for them and she asks if we haven't some old playthings that we can spare for the orphans."

"Plenty of them," said Uncle Wiggily, looking around the bungalow at the scattered toys, and where there are forty-twelve little rabbits belonging to Uncle Wiggily you can be sure there are many toys. "We could send a lot of these playthings to the orphan bunnies," said the old gentleman rabbit.

"That's what I was thinking," spoke his wife. "If I gather them up will you please take them?"

"I will, right gladly!" promised Uncle Wiggily.

"Even broken toys will do," said Mrs. Longears looking again at the letter from the orphan asylum rabbit lady. "They have a kind old janitor who will mend them."

"Then I'll gather up a lot of the playthings and toys that our bunnies have cast aside because they are broken," said Uncle Wiggily, "and I'll take them to the poor bunnies."

So he started out with a basket of tops, roller skates, dolls, Noah's arks, picture books, puzzle games and one little ship. The little ship once had sails and could skim over the duck pond beautifully, just like a real vessel. And it wasn't so small, either, for Uncle Wiggily could have gotten on board.

The little ship had belonged to Buster, one of the forty-twelve bunnies of Uncle Wiggily. But Buster was like his name. He broke many things and the little ship was among them. So now the sails were torn and draggled and the rudder was broken. As Uncle Wiggily looked at this little ship, among other broken toys, the bunny gentleman thought to himself:

"It is a pity that pretty little ship is broken. Some little boy orphan bunny will want to sail it as soon as he sees it and he can't until the orphan asylum janitor mends it. I think I will stop and mend this ship myself before I take it with the other toys to the poor bunnies. I'll mend it and make it ready to sail."

No sooner said than done. Uncle Wiggily sat down beside the brook and soon had the rudder of the little ship mended. Then he began on the sails and, with the help of a dragon fly, or "darning needle" as these insects are sometimes called, the sais were soon made as good as new.

"Now I will try to sail the littt ship" said Mr. Longears. He put it in the water, but there was no wind to blow on the sails and send the ship scudding along. "Perhaps if I got on board and wiggled the rudder the ship might sail," thought Mr. Longears. So he got on board and, just as he did so, down to the brook came running the Wolf.

"Ah ha! This time I have caught you!" howled the Wolf. "Come back here so I can nibble you!" He said this because Uncle Wiggily, on the little ship, was drifting out from shore and the Wolf did not want to get his feet wet. "Come back where I can get you!" howled the Bad Chap.

"No, I will not!" said Uncle Wiggily and oh, how he wished a hard wind would blow to send him on the little ship to the far shore where the Wolf could not get him. But no wind blew. Then the little ship with the rabbit on began drifting back to the bank where stood the Wolf.

"Ah! Now I'll get you!" howled the hunry chap. But he didn't.

STRANGE AS IT SEEMS—

by John Hix

the new era. Aviation and the radio are to assume new importance through marvelous inventions as well as through increased demands from the public.

One of the maladies most common will be a nervous condition that seeks constant change and recreation, it is foretold. Wives should refrain from harping on housekeeping troubles or from rebuking man's trivial faults.

Again astrologers emphasize the fact that those who seek beauty must cultivate the mind and character, for the age is emerging from materialism slowly but surely.

Persons whose birthdate it is may have a year of surprises. In it friends may be fickle and new associations may be formed. The subjects of Virgo often are too sensitive for their own best interests and should beware of self pity.

Children born on this day probably will have great personal magnetism. They usually will pay attention to dress and will develop musical and other talents that make for wide popularity. They have graceful figures, melodious voices and polished manners as they mature.

Why We Do What We Do.

WHY WE HAVE REVERENCE

By Mehran K. Thomson, Ph.D.

(Author, The Springs of Human Action)

Reverence is a strong sentiment of esteem and respect. It is an attitude of deep and sincere admiration for what is vastly above and beyond us.

The self-regarding instinct is the strongest motive of human behavior. This impulse has two phases, self-assertion and self-abasement or submission. In domination and exploitation, the desire to lord it over others, we have an illustration of the self-assertive phase. Reverence illustrates the highest form of the submissive impulse.

We take pleasure in submitting to a superior person because in so doing we raise ourselves to kinship with him and shine by reflected glory. We follow a great leader and are glad to be identified with him even if it involves some pain and sacrifice. The satisfaction in this form of submission is in reality self-assertion.

And if we find pleasure in submitting to superior human beings, how much more pleasing it is to submit to the god of all the universe, who is so much more powerful than any mortal or group of mortals. The compliment to our self-esteem is correspondingly great.

Despite our egotism and self-assertive tendencies all of us realize our weakness and frailty as compared with the forces of nature and the great mysteries of life that baffle the wisest of men. We cannot help but feel a sense of inadequacy as we stand in the presence of these great phenomena. Our sense of submission and self-abasement predominates, and we find pleasure in assuming the attitude of reverence towards the power or supreme person we call the deity.

Submission to an inferior or an equal rankles and we never do it, willingly. But to submit to a superior is a great pleasure because in so doing we really climb up in our own estimation. In reverence we identify ourselves with the supreme being and enjoy the added sense of security and power that we could not otherwise possess.

Reverence is sincere and elevating. It appeals to our ego maximation indirectly, but nevertheless effectively.

Why do you do what you do? Dr. Thomson will be glad to answer questions on human behaviour. Address him care of this paper, and enclosed an addressed, stamped envelope for reply.

LYRICS OF LIFE

THE SHIFTLESS

I've noticed this, the less they own
The more they waste and spend,
And then they sadly sit and moan
About some favored friend,
Some lucky neighbor who is worth
A little more each night,
And swear the good things of this earth
Are not divided right.

I've noticed this, if humble their
Abode, it made them sad,
And yet the less they gave of care
To anything they had.
They envied other people who
Had better-looking things,
The while their table needed glue,
Their cushions needed springs.

I've noticed this, although, no doubt,
Misfortune some may see,
The rest of us are just about
What we deserve to be.
The spendthrift always hates the rich,
The coward hates the bold,
And those who never take a stitch
Complain about the cold.

(Copyright, 1928, Douglas Malloch.)

Hastings

HASTINGS, September 10. — Mr. Charles Gallagher of South Porcupine has returned home after visiting his sister, Mrs. A. N. Bailey.

Mr. Paul Bailey of Montreal, spent the week-end with his parents, Mr. and Mrs. A. N. Bailey.

Mr. James Coveney of Rochester, spent the holiday with his parents, Mr. and Mrs. John Coveney.

Mrs. J. H. Hess and son Everett, have returned after spending a few days with friends in Toronto.

Mr. and Mrs. Walter Burkholder, and family of Haliburton, are spending their vacation at the home of Mrs. Burkholder's parents, Mr. and Mrs. A. B. Smith.

Mr. George Hill and Mr. B. Hill, of Pittsburgh, Pa., are spending their vacation with their parents, Mr. and Mrs. William Hill.

Mr. and Mrs. Harold Wilson spent Sunday in Picton.

Mr. and Mrs. W. R. Learmouth and son Russell, spent the holiday at the home of the former's brother in Ottawa.

Messrs. William Wellman and Sandy Stevenson, spent a few days at the Toronto exhibition.

(Examiner Correspondence)

HASTINGS, Sept. 11.—Miss Marie Armstrong of Peterborough is visiting at the home of her aunt and uncle, Mr. and Mrs. John Cruikshank.

Mr. Albert Brubacker of Kitchener spent a few days in town visiting friends.

Miss Gladys Stevenson spent a couple of days in Toronto attending the Exhibition.

Mr. and Mrs. Gordon Overland of Detroit, Michigan, are spending a week in town visiting friends and relatives.

Mr. Roy Johnson left on Friday for Bancroft where he has been engaged to teach for the coming year.

Mr. Lawrence Murtagh spent a few days of this week at the home of his parents in Kitchener.

Messrs. George Stevenson, William Wellman and Stanley Stevenson spent a few days at the Exhibition.

Experience may be a good teacher, but the terms are always excessively high.

HOROSCOPE

The Stars Incline, But Do Not Compel

SATURDAY, SEPTEMBER 15, 1928

(Copyright, 1928, McClure Syndicate.)

Astrologers read in today's horoscope adverse signs for the early hours, but benefic aspects rule later in the day.

Workers should find this a favorable rule for holiday pleasures and they should benefit through recreation.

Women are well directed while this configuration prevails and they should find the rule most favorable to romance. Men may be easily won when the stars are posited as they are today.

This is read as a lucky wedding day, promising prosperity through hard work and mutual helpfulness.

Women should utilize the hours today for every sort of domestic activity. It is a lucky day for entertaining and men will appreciate hospitality that includes first rate cooking.

This is not an auspicious rule for orators and those who patronize the radio may find it disappointing.

Under this direction of the stars money talks more convincingly than fair promises and in labor troubles will be an efficient peacemaker.

For starting on long journeys there is a forbidding sign and it is well to heed it, for severe storms at sea are foretold.

Advertising and publicity are subject to a planetary rule that means much prosperity for the press, which may be more exacting than formerly regarding financial returns.

The seers who study colors declare that browns, which will be fashionable this fall, have a great significance to those who understand the symbolisms.

All the signs appear to presage for the air world attention that betokens

LADIES' WORK OF HIGH CLASS

Smaller Number of Entries Received This Year in This Section.

QUALITY STILL GOOD

Although the display of Ladies' work in the upper hall of the Main Building at this year's Exhibition is much smaller than has been the case for some years past, the work on view there is of a very high quality and possibly the decrease in the number of articles allowed those on view to be shown to much greater advantage. The impression of crowding that has sometimes been received in the past is lessened this year by the decrease in entries in the fancy work section, also by the fact that the display of painting, also less than in previous exhibitions, has been placed in the downstairs portion of the building.

Upstairs, the yellow curtains at the windows, with their black bows, make a very cosy and attractive bit of color, and the use of large lace paper d'oylies and tablecloths for the home-cooking display adds to the attraction of the exhibit.

The cooking is more delicious-looking than ever, this year. The housewives of the district and of outside places which contributed to the display, must have taken extra pains this season to achieve such remarkable examples of the culinary art. The large sponge cakes, cakes with chocolate and cocoanut icing, fruit cakes, biscuits, cookie, drop cakes, muffins, buns and bread to say nothing of the canned fruits and pickles, all testify to the excellence of the makers' art.

One entry came from north of Lakefield and the two young women who made it brought their cooking by motor car which broke down on the way. They walked back five miles to get another car and then proceeded on their way to the city.

A little end exhibit which is arranged with potted plants in a very pleasing manner shows some very fine work in wood. There is an outstanding bit of interest in the chip carving on a hall chair and a picture frame, while an inlaid tray is another exceptional bit of expert workmanship in this line.

Here too are a couple of clever models done in wood. One is a wooden replica of Tower Bridge in London, England, made by F. H Christmas, and the second is a fascinating little model of "The Flying Cloud" the fastest racing clipper of 1862, built by William Webb, junior, of Young's Point, at the age of seventeen years. This model is done in red, white and black wood, the rigging of the clipper executed in fine black wires.

The fancy work, as has been mentioned, is of a very high order and some fine pieces of needlework are on view. Two or three elaborate examples of Italian embroidery in silk are wonderfully done. A cushion cover and two table clovers are shown in this work, which uses very brilliantly-colored flowers and fringe. The cushion cover has bright red and green flowers in heavy silk on a dark ground, bordered by colored circles and fringed deeply with silk. One table cover has conventionalized flowers in several shades of brown with a fringing of heavy silk.

Included in the display are dainty embroideries on tea cloths and serviettes, one done with butterflies being particularly pleasing. There are also many examples of fine needlework in crocheted and embroidered luncheon and tea sets, fine handkerchiefs with tatted edging, embroidered table runners and cushions, embroidered pillow cases and towels and sheets, also a number of finely-worked embroideries on spreads and quilts. One of the latter is of heavy linen with insets in its corners and centre of applied pieces, square in shape and embroidered in black thread in a conventional design. These are edged with pink sateen.

Knitted and crocheted quilts make another interesting display with several excellent entries, and there are many hooked and braided rugs.

Dainty knitted things for the baby in prettily colored wools and novelties like a beautifully beaded bag, are among the articles on display.

A section of the Ladies' Work exhibit that always arouses interest is the the display of work done by ladies of seventy-five years and over. This is as good as usual, this season. With careful, patient fingers, there have been knitted socks of wool, print dresses made, linen pieces embroidered, and quilts and spreads and dainty small bits of needlework finished. One very interesting quilt on view was made by Mrs. George May, who is over eighty years of age. This particular piecework quilt, a silk "Log Cabin" design, took forty years in its making. Over twenty spools of thread were used in its construction and over 10,000 pieces of silk.

Another interesting section, a contrast to the work of these senior women, is that of the juniors in the schools of the city, where sewing and painting and Manual Training work is taught in the classes that progress from the Primer grade to the Senior Fourth. Examples of the children's handicraft are ranged along the wall, behind the wire netting which protects the other exhibits in this upstair hall.

This exhibit includes pen and ink and charcoal drawngs and small water color and wash paintings, which range from bits of still life in pictures of fruit and flowers, to little scenes and imaginary happenings, like the picture of the snow man with black eyes, who is being increased in size by contributions from little, busy black mites. Ducks and figures and wall-paper designs intrigue the fancy of other small artists.

The little pieces of embroidery are very painstakingly finished off, and there are tiny models of dolls' dresses with lace trimmings, besides miniature dresser and table sets in fine linen. Tiny shopping bags show the face of a mischievous kitty embroidered on the surface with black stitches.

Nearby are the samples of boys' dexterity in carved-out wooden models of many things, both useful and ornamental. There are two models of aeroplanes that exhibit much careful thought and handicraft of a high degree of skill, also a romantic bit of old-time shipping in the model of a full-rigged sailing schooner of an earlier day. Wooden candle sticks, jardinier stands, wood bark bird cages, and a bird's house set atop a high standard, are also on view. There is a small model of a gunboat, a miniature wooden ironing-board and a bit of childish humor in the reproduction of the famous Mr. Jiggs Mahoney and the white bunny with the yellow ears and the red wheels.

The exhibits in this section and in the downstair Art showing are in charge of Miss M. Elliott and Miss M. Higgins, with Mrs. E. E. Cox a special Constable. The stairs leading to the upper hall are decorated with some very interesting examples of Y.W.C.A. posters, depicting the 'Y' activities in many forms.

The Art Exhibit which is shown this year in the lower section of the Main Building exhibits much new work and fewer of the old standbys which had become very familiar with passing years. There are examples of artistic work in oil, in water colours and in crayons. A head of a St. Bernard dog is a good piece of work, as is the painting of a mare and colt, with spirited heads up.

Several softly-tinted scenes of Autumn woods are pleasing in effect and there are efforts also along the line of portraiture. The paintings of landscapes and trees and flowers are very interesting.

Newbec Retains Lead On Standard Exchange

TORONTO, September 14 (Canadian Press). — The exceptional demand and strength of Newbec featured the Standard Mining Exchange to-day. With sales running well over 477,000 it jumped to 55¼ for a rise of nine and a quarter points. Malartic was next in line, and after selling at 1.72, it closed at 1.69, one point higher than yesterday. Other issues gave the market a rather steady appearance with losses and gains about equally balanced. Mining Corporation was up fourteen at 3.35, Murphy six at 55, Sherritt-Gordon five at 6.65, and Graham and Siscoe each up three at 35 and 64 respectively. Hudson Bay, with easy trading, gained one to sell at 20.00.

Grain Prices Steady On Chicago Exchange

CHICAGO, September 14 (Canadian Press). — Prices displayed unusual steadiness early to-day in the wheat market, with traders giving continued attention to reports that United States farmers are withholding supplies. In the corn pit an unofficial forecast of frost to-morrow over the western sections of the corn belt had only a slight bullish influence. Opening ⅛ cent to ⅜ cent off, wheat sagged a trifle more and then recovered. Corn started at ⅛ cent decline to 1¼ cent advance, but subsequently tended downward. Oats were easy.

Opening prices were: Wheat, September 107⅞, December 112½. Corn, September 100⅛, December 75⅞. Oats, September 41, December 41⅝.

Speculation Resumed In Spite of Warnings

NEW YORK, Sept. 14.— Speculation for the advance was resumed on a broad scale in to-day's stock market, which witnessed the establishment of nearly two score new high records. Buying embraced a wide list of issues, but the motors, motor accessory, oils, foods and coppers gave the best demonstrations of group strength. Extreme gains in active issues ranged from two to thirteen points, with the ticker again falling half an hour or more behind the market.

Despite bankers' predictions of continued high money rates this fall, operators for the advance went confidently ahead with their campaign in the belief that the resumption of gold shipments from Great Britain would ease the credit situation. Call money renewed at seven per cent. as against seven and a half yesterday and loans in the outside market were reported at 6¾ and 6½ per cent.

Trading Limits Narrow But Gains Are Large

TORONTO, Sept. 14.— (Canadian Press.)—Trading was confined to a few of the well known issues on the stock exchange to-day. Prices in those cases made substantial increases, City Dairy especially recording a new high for all time. After reaching a high of 69 it reacted, closing at 65½ to register a gain of four and a half. International Nickel, selling between 128 and 131 1-8, closed with a net increase of three to sell at 130½. The rights were even more active, selling at 7.00, 15 cents over yesterday's close. Page Hersey continued on its upward movement to-day, gaining another two points at 102½, while McKinnon was up 1½ at 51. Brazilian Traction was a firm spot, selling at 58 for a fractional gain. Canada Dredge weakened during the sesion, closing 2¼ at 52½ and Massey Harris ½ at 43¾.

MINING BRIEFS

A Special Service to The Examiner

TORONTO, Sept. 14.—A Sudbury report states that the Longyear property has 5,000,000 tons of indicated ore, running $20 per ton, above the 500,foot level. Nickel is the predominating mineral but copper is said to be coming in. A mill of 250 tons daily capacity will, it is understood, to be started immediately.

* * *

A despatch from Kirkland Lake is to the effect that, in drifting east and west on the 2,900-foot level of the Kirkland Lake Gold Mines, an eight-foot width of ore was opened up. This was stated to run $9 per ton. It was officially announced that the company had cut their vein on this level but these are the first details to arrive.

* * *

It is reported that shaft sinking at the Tough Oakes Burnside is now completed and that development of the lower levels will begin immediately. No further word has been heard regarding the rich stuff that Tough Oakes is said to be in at depth.

* * *

Crown Reserve still occupies the stage. Two reports came down regarding the Larder Lake property this morning. One stated that they had made an important find at the 700-foot level. The other was to the effect that they had cut their No. 2 vein at the 9th level. This follows yesterday's reports of the cutting of the No. 1 vein which was said to show good values over a seven-foot width.

* * *

Sylvanite, according to a wire received from the north this morning, have cut an entirely new vein lying to the south of their main vein. The new discovery is said to be 14 feet wide and looking good. No assays have been made public as yet.

* * *

According to western advices, although yet lacking official confirmation, the milling capacity of the Central Manitoba Gold Mines will be increased to 250 tons daily, as against present production of 160 tons, during the coming winter. Very little additional expenditure will be required for this increased capacity as the plant was originally designed with this end in view. The company's plans are also said to include the further expansion of the plant to 500 tons daily during the winter of 1929-30.

* * *

Shaft sinking to the 200-foot level of the Bathurst property in Red Lake was completed a few days ago, and manager Frank Carnegie is quoted as saying that on August 31st the contractor had completed that station at that horizon, had arranged ladder-ways and collar, and had driven a heading 36 feet to the west. From that point a crosscut had been driven north for 30 feet, and to the south for 27 feet. It is expected that the veins will be cut any day now. A mineralized felsite dyke in the south crosscut is now being explored and the north crosscut is being pushed forward; definite results form these operations are expected daily. On surface the buildings are being prepared for winter.

* * *

Some companies have all the luck. It is now said that Mining Corporation has made a rich strike on their recently purchased McKinnley-Darragh property and that this may pay them for all expenditure in obtaining the property.

* * *

Newbec.

Recent strength in this issue on the Standard Stock and Mining Exchange may be attributed to the highly favorable position in which this company now finds itself, both in regard to its original property in the Rouyn district and its option on the Lartic Mining Company in the Cadillac-Fourniere-Malartic district. An oil-burning plant has been installed on the Newbec and immediately the shaft is deepened from the present depth of 70 feet to the 125-foot level, it is proposed to crosscut out beneath the low ground in which diamond drilling intersected high-grade chalcopyrite. It is anticipated the existing conditions will quickly result in Newbec securing production which will provide substantial revenue. Several thousand tons of high-grade ore have already been hoisted and may be transported to the smelter at any time.

A steam-driven mining plant has been purchased for installation on the Lartic. This was transported by water route and was hauled a few days ago to the property and is now being set up. There is a 100-foot shaft already down on the property, and it is reported a vein has already been opened up which carries 6 to 8 feet of splendid grade ore. With the mining plant in operation at an early date, it will be possible to speed up the lateral development of the deposit in addition to laying plans for carrying work to greater depth.

Newbec is capitalized at 5,000,000 shares, and in addition to 1,000,000 remaining in the treasury, the company has $175,000.

* * *

Interesting Group Visits the West

President Beatty, of the C.P.R. has a particularly interesting group with him on his trip across Canada. As it happens the party includes Sir Charles Gordon, president of the Bank of Montreal, Sir Herbert Holt, president of the Royal Bank of Canada, and among other directors from Montreal, Ross H. McMaster, president of the Steel Company of Canada and F. W. Molson, head of Molson's Brewery.

The trip is a unique one as it affords the heads of the different organizations to be closely in touch with everything that is happening all over the country and in this way better gauge the trend of business conditions.

It is the first trip west for Sir Charles Gordon since he assumed his new office as president of the Bank of Montreal.

News From the Mines

Through
Solloway, Mills & Company

News from the mines

Hollinger.

TORONTO, Sept. 14. — The announcement Consolidated had cut their dividend in half will cause no great surprise in Canadian mining or financial circles, as this action has been expected for several months past. The dividend will be payable as formerly in thirteen periods of 28 days each, one per cent. or 5 cents per share being the 28 day disbursement.

Announcement is also made that the Hollinger Company are negotiating with the T. & N. O. Railway for the construction of a line into Kamiskotia. Should these negotiations be satisfactorily concluded, a concentrator will be erected to treat the ore at theier Kamiskotia property where they own 41 claims in the townships of Robb and Jamieson. As a result of shaft sinking to 150 feet together with drifting and diamond drilling, it was found that occurrences consisted of two ore bodies. According to an announcement made by the general manager, Mr. A. F. Brigham, at the last annual meeting, the north ore body contains 1,900,000 tons valued at $8,285,000, and the south 652,000 tons valued at $3,860,000.

Ribago—Sudbury.

At a meeting of the directors of this company held in Haileybury yesterday it was definitely decided to do 7,000 feet of diamond drilling on their property adjoining Treadwell Yukon. Results of a previous hole put down here were very encouraging, 200 feet of heavy mineralization having been encountered. As a result of the showing, a radiore survey was made and nine conductors were found in the general line of weakness along the river.

Central Manitoba.

Accordinf to reliable western advices, although as yet not officially confirmed, the milling capacity of Central Manitoba will be increased to 250 tons daily from the present 160 tons during the coming winter. Very little additional expenditure will be required for this increased capacity as the plant was originally designed with this end in view. The company's plans are also said to include the further expansion of the plant to 500 tons daily during the winter of 1929-30.

Mayland.

Our Calgary office advises that Mayland well has now reached a depth of 2,700 feet and have encountered a gas flow of something like 2,000,000 feet. Drilling is proceeding apace, and the management are hopeful that a well of importance will be brought in here.

Vipond.

According to an official report issued yesterday by Dr. Beydell, consulting engineer of Vipond Consildated, the new ore shoot at the 733 foot horizon has proved to be very important. To date it has been opened up for a length of 170 feet, and averages $9.90 over a width of 8½ feet, with both faces still in ore of 8½ feet, with both faces still in ore of good grade. In some places he states it was 16 to 20 feet wide, and its total width and length has not yet been definitely determined, but slashing on the north-west drift was being carried out and the face of the south-west drift was being advanced into virgin territory still carrying good ore. The drift on the 600 foot level is being extended in order to get over the ore encountered on the 733 foot horizon ,and an encourgaing improvement in values has already been met with.

TO AIR MINISTRY

Laurent Bynac, Flying Cabinteteer, Appointed To French Cabinet.

RAMBOUILLET, France, September 14 (Canadian Press). — Laurent Bynac, "Flying Cabineteer," was named head of the newly created Ministry of Aviation by the French Cabinet which met to-day. He is charged with the task of making a determined attempt to pull France out of the slump that has been handicapping most of her flying efforts.

The Cabinet also selected Senator Henri Cheron, former Minister of Agriculture, as Minister of Commerce and Industry. He will succeed Maurice Bokanowski, whose tragic death in the fall of an airplane was the climax of a French air disaster, and aroused an imperative demand that the government centralize its aerial activities in the long-discussed Air Ministry.

22.9 MILL RATE SET IN MONAGHAN

School Section Taxes Vary From 1.6 to 15.1 Mills.

The North Monaghan Council held its regular meeting on September 10, at the Court House, Peterborough. All the members of the Council were present, with Reeve Rye in the chair.

The meeting was called for the purpose of striking the tax rates for the coming year. The following resolutions were passed prior to going into the matter of striking the rates:

That the cost of tile and labor for deepening the Lock street drain and the Braidwood avenue drain, and also the cost of putting in a culvert on Erskine avenue and cleaning the drain on Cameron street, be charged to the Roads and Bridges account.

That $400 be written off the real estate account, the town hall being sold to Mr. J. MacIntosh for $100.

That $100 be written off the account, lots purchased at tax sale, the full amount of redemption not having been given

The clerk was instructed to write and notify the Dominion Road Machinery Company to send Mr. Mitchell to Peterborough and adjust the matter of supplying a steel scarifier block as represented by their agent and also the matter of paying their account to the William Hamilton Company as authorized by their agent, and to say that when these matters are settled, the township is prepared to pay their account forthwith.

That a payment of $700 be made on power grader and that debentures be issued and sold to cover payment of the balance due, the debentures to cover a period of four years.

That in reply to City Clerk Armstrong's communication, the North Monaghan Council attend the meeting of the committee of the City Council on Monday evening, September 17.

That Reeve Rye be authorized to attend the adjourned county tax sale and to purchase for the township all property not bringing taxes and costs.

A requisition was received for county rates as follows:

General county rate	$6,387.44
House of Refuge rate	729.99
Provincial Highway rate	1,824.96
Highway rate	2,737.48
	11,679.89

Requisitions were received for school rates as follows:

School section No. 1	1,170.00
School section No. 2	11,936.78
School section No. 3	800.00
School section No. 4	520.00
Separate school	2,450.52
	16,877.30

The Council then prepared estimates of the current receipts and expenditures of the Township of North Monaghan for the year 1928. The estimated receipts for the year are as follows:

County rates	11,679.89
Provincial Railway Government tax	100.00
Licenses	195.00
Dog taxes	400.00
General levy for road purposes, country area	1,413.76
General levy for road purposes, special area	3,313.75
Schools.	
Trustees in general	16,877.30
Township rate	4,744.41
Sidewalk debenture rate	2,174.75
Amount to credit of revenue and expenditure	535.90
Brown Street water main debenture rate	310.56
Morrow Street water main debenture rate	222.58
Boundary Account, City of Peterborough	156.08
Township of Smith	114.76
Poll tax, estimated	130.00
Provincial Road subsidy	1,620.30
	$43,988.98

Estimated Expenditures for Current Year.

County rate	$11,679.89
Levy for road purposes—	
Country area, 3 mills	1,413.76
Special area, 7 mills	3,313.75
Schools, trustee rate	11,825.30
Schools, general rate	5,052.
Charity	1,200.
Election expenses	150:
Law costs	100.
Interest on over draft	250.
Ten per cent depreciation on machinery	71.10
Printing and stationery	350.
Salaries	2,500.
Roads and Bridges	2,500.
Miscellaneous	200.
Sidewalk debenture rate	2,230.10
Board of Health	50.
Pay for sheep killed by dogs	50.
Brown street water main debenture rate	310.56
Morrow street	222.58
Grants	20.
Fire protection	100.
Peterborough War Memorial Fund	250.
Purchase of lots at County tax sale	150.
	$43.989.04

The following are the rates for the township for the current year:

County rate	12 1-10 mills
Township rate	5 mills
General public school rate	5 8-10 mills
Rate for school section No. 1	4 9-10 mills
School section No. 2	15 1-10 mills
School section No. 3,	1 6-10 mills
School section No. 4,	4 mills
Separate School rate	20 9-10 mills

Millbrook

(Examiner Correspondence)

MILLBROOK, Sept. 12.—Miss Helen Armstrong, of Fergus, is visiting her aunt, Mrs. T. B. Collins, and cousin, Miss Mamie Collins, this week.

Miss Jessie Fallis, of Toronto, was a recent visitor at the home of her brother, Mr. L. H. Fallis, Fallis line.

Mr. and Mrs. Charlie Might, of Detroit, and Mr. Ray Hutchison and a friend, of the same city, recently motored to Canada, and were guests of Mr. and Mrs. J. H. Might, Mr. and Mrs. James Hutchison, and other relatives in this vicinity for a short stay.

Among those from this vicinity who have attended the Canadian National this year were: Dr. H. A. and Mrs. Turner, Misses M. B. and Francis Turner, Mr. and Mrs. B. L. Richards, Reeve W. H. Wood, Mr. and Mrs. H. W. Johnston, Mr. and Mrs. Ivan L. H. Gray, Mr. and Mrs. Thomas Ingram and family, Mrs. (Dr.) H. E. Ellis, Mr. and Mrs. Thomas Harkness, Mr. and Mrs. Harold Nattress, Mr. and Mrs. W. E. and Miss Thelma Ball, Mrs. C. C. Garside, Mr. and Mrs. G. E. Burnham, Miss Jean and Ernest L. Burnham, Messrs. E. H. Barnes, F. W. Pendrie, I. M. Nattress, I. E. Needham, Edgar and Donald Fallis, V. C. Lambert, S. Fitzgerald, H. B Allen, E. Thorndyke, F. P. Stinson, and several others.

Misses Flossie McMahon and Elinor Fallis are attending the Peterborough Business College this term.

Councillor T. J. Lang has put through another real estate deal, purchasing sixty acres of the former Carveth property, west of the village, from W. Thorne. He may ranch the land or hold it for speculation purposes.

Teachers in this vicinity who have begun their duties in the rural schools include: Miss Dorothy Hall, at Fairview, Fourth line, Cavan; Miss Jean L. Burnham, at Zion; Miss Maretta Gray, at Fallis line; Miss Isabelle Syer, at Carmel; Miss Florence Fallis, at the Marsh.

There are upwards of sixty-five pupils now enrolled in the local Continuation School, and new names are being added practically every day. Evidently the advantage to both pupils and teachers of beginning the term with the first day school reopens after the holidays has not yet been fully appreciated, possibly either by the parents or by the boys and girls themselves, else the delay would not occur each fall term. Fourth form subjects are being taught by the staff this year, as was the case last year, the tuition being arranged to suit the needs of pupils requiring this extended course.

The many friends of Miss May Mitchell, of Oshawa, formerly a member of the Continuation School staff here, will be interested to learn that she is again in Colborne this year as assistant principal in a staff of teachers in connection with the High School of that town.

Cavan

(Examiner Correspondence)

CAVAN, Sept. 12.—On Sunday evening the Rev. F. Carpenter preached the first of his series of sermons on "The Lord's Prayer."

Miss Helen Kennedy will attend Whitby College for the ensuing term, entering on Monday, Sept. 10. Her parents, Mr. and Mrs. A. B. Kennedy, motored down with her on Monday.

Mr. and Mrs. W. Galloway, Mr. A. Galloway and Mr. O. Staples visited Cavan friends on Sunday.

Mr. and Mrs. James Howe, Janetville, visited Mr. and Mrs. F. M. Staples on Sunday, and with them motored to South Monaghan and visited Mrs. M. Hall.

Mr. Vernon Hunter and sister, Miss Eileen, motored to Toronto on Thursday and attended the Exhibition.

Mrs. Foster, Bethany, spent a few days of last week with friends in Cavan.

NEWS IN BRIEF

Death being Probed.

TORONTO, September 14. Canadian Press. — The police are investigating the death of Albert Butler, aged 70, who was found dead in a hut at the aviation field, on North Yonge street to-day. A bottle of rubbing alcohol was found in the man's hip pocket.

Cohen Gets Bail.

TORONTO, September 14. Canadian Press. — Dr. Benjamin Cohen, facing a charge of conspiring to defeat the course of justice, on which he was committed for trial, was released to-day on bail of $25,000.

Police Seize Still.

LINDSAY, Ont., September 14. — Canadian Press. — A large copper still, with a capacity of 50 gallons, and a barrel of mash, was seized by police officers at Silver Lake, in Sommerville Township, to-day.

Amos Hopkins, the alleged owner, escaped to the surrounding bush when he discovered the officers.

WE NEVER GIVE UP, SAYS MAYOR

Continued from page 1.

for and that there is a variation among judges as to what values may be placed or taken away when defects are encountered under any of the three heads. At Ottawa, there is a movement to have the values and defects more or less standardized so that a more uniform judgment may be reached

Regarding the measurements of a heavy draft horse, Mr. Grey explained that the body of a horse should be half the thickness near the shoulder that it is from the ground, or in other words, that a horse sixteen hands high should be half that number in thickness. With a horse sixteen hands high, the weight should run about one hundred pounds to the hand Horses of greater height may vary from this rule, as, for instance, a horse eighteen hands high would be approximately a ton.

Qualified Judges.

The speaker did not feel that a judge should hide behind a veterinary's inspection report, made immediately before the horse enters the ring—he pointed out some common errors of judges and concluded by a kindly suggestion that great care should be taken in the selection of judges. "We have got to the stage where we should exercise great care for it is a department not to be fooled with any longer," he declared in closing.

Following the vote of appreciation, Mr. Grey arose again to compliment the directors on the splendid grounds of the Peterborough Exhibition which have remained so favorable despite the heavy rains of the first two or three days.

Neighborly Notes

(Please 'phone items to 1600 or 1601)

Mrs. S. J. Bridge, Weller Street, has returned home after spending the past two weeks visiting friends in Toronto.

• • •

Mr. and Mrs. Robert McKnight, Mr. and Mrs. Edward Ball and Miss Thelma Ball, Mrs. Armstrong and Mrs. Nattrass, all of Millbrook, were visitors this week to the Peterborough Exhibition.

• • •

The many friends of Mr. Leo Reid of the staff of the Bank of Montreal here will be pleased to learn that he is progressing favorably after undergoing an operation for appendicitis a few days ago in Nicholls Hospital.

• • •

Miss Thelma Freeman, R.N., of Clifton Springs, New York, is spending her holidays with her mother, Mrs. A. A. Fowler, Hunter Street East.

• • •

Mr. Fred Easson of Keene was a visitor to the Exhibition yesterday.

• • •

Mr. and Mrs. Samuel Le Boeuf of Sandwich have returned home after visiting Mr. and Mrs. Leland Wade, Reid Street.

• • •

Mr. Wesley Johnston of Havelock is a visitor to the city for the Exhibition.

• • •

Mrs. F. Burnham and daughter Jean, and Miss Pearl Burnham, of Millbrook, were in the city yesterday and attended the Exhibition.

• • •

Mr. and Mrs. P. H. Toll and son, of Detroit, Michigan, left to-day for Quebec City, after spending a week with Mrs. Quartermaine on London Street.

• • •

Mrs. Giles Stone has returned from Toronto, where she was the guest of her sister and brother-in-law, Mr. and Mrs. P. Bedford, in Toronto and at their summer cottage at Jackson Point, Lake Simcoe. On her return, she was the guest of her daughter, Mrs. R. Hick, Richmond Hill, and also spent a day at the Toronto Exhibition.

• • •

Miss Alford of Belleville was a visitor to the Exhibition yesterday.

• • •

Mr. and Mrs. C. F. Lloyd of Harold, Ontario, are visitors to the Exhibition.

• • •

Mrs. O. Kellet of Oshawa is spending a few days with her aunt, Mrs. Wm. Gray, at 22 Cricket Place.

• • •

Mr. and Mrs. P. Bedford have returned to Toronto after visiting the latter's sister, Mrs. Giles Stone. On their return, they were accompanied by Mr. and Mrs. Stone. The former spent a few days at Toronto and at Richmond Hill.

• • •

Mr. Edmund Ruth of East Emily spent a few days recently with friends in the city.

• • •

Mrs. Hutchison of Cavanville was a visitor to the Exhibition this week.

• • •

Mr. Morgan Cottingham of Chicago, formerly of Peterborough, with his bride, formerly Miss Violet Jackson, are guests of the former's parents, Mr. and Mrs. S. Cottingham, 430 Donegal Street.

• • •

Mr. H. Cruikshanks is celebrating a birthday anniversary to-day.

• • •

Mrs. E. Bogue of Lakefield was a visitor to the Exhibition yesterday.

• • •

Last evening, at the home of Mrs. J. Sadler, Smith Street, a pleasant time was spent by a number of the girl employees of the Auburn Mills, who gathered to present Miss Lillian Sadler, a bride-elect of next week, with a chest of silver. The presentation was made by Miss Margaret Kitchen, and the accompanying address was read by Miss Greta Grisdale. The showing of the trousseau was in charge of Miss Kathleen Simmons. Later, dainty refreshments were served.

• • •

Mrs. Lloyd of Warsaw was a visitor to the city and the Exhibition yesterday.

• • •

Mrs. C. H. Cheverill, Stewart Street, has returned from Orillia, where she visited friends.

• • •

Mrs. A. A. Fowler and her daughter, Miss Viola Freeman, have returned from Toronto, where they visited friends and spent some time at the Exhibition.

• • •

Mrs. W. A. Sanderson has returned to the city from Stoney Lake and is staying at the Y.W.C.A.

• • •

Mrs. A. L. Amys, Gilmour Street, has returned home from her summer cottage, "Shagata," at Stoney Lake.

• • •

Miss Kathleen Brady, R.N., of the Sisters' Hospital in Buffalo, N.Y., has returned after spending two weeks with her parents, Mr. and Mrs. John Brady, at 122 Park Street.

• • •

Mr. and Mrs. Thomas Locke and Mr. and Mrs. George Fry, of Campbellford, were visitors to the Exhibition yesterday.

• • •

Miss Kathleen Holmes, R.N., of New York City, who recently completed successfully Courses in Clinical Pathology and Basteriology at Columbia University, is the guest of her mother, Mrs. E. Holmes, Reid Street. Miss Holmes covered 1,300 miles on a motor trip to the city, coming by way of the Adirondack Mountains, Montreal, and Quebec.

BUSINESS WOMEN SURPASS MEN

Innovation of Women in Civil Service Declared To Be a Success.

EXECUTIVE CAPACITY.

TORONTO, Ont. Sept. 14. (By the Canadian Press)—Hector Charlesworth, editor of "Saturday Night" writes in his weekly of Hon T. B. Pardee and the success of his innovation (women in the civil service).

"For over 18 years, he was a tower of strength to the Mowatt Ministry—so much so, that he was able to successfully combat the opposition of his colleagues and adverse public sentiment emphatically expressed in the newspapers of the time, when he proposed to introduce female employees into the Department of Crown Lands. His defence against time-honored prejudice of the mental capacity of women and their right to earn a livelihood for themselves in other than a few "genteel" and menial occupations was gratifying to the hearts of the very small coterie who in that day were outspoken in their demands for "women's rights." But his views were contrary to those of a large section of the pulpit, and of Canadian society generally. However, he was sufficiently powerful and influential to get his own way.

"It is amazing to compare in retrospect conditions in 1878 with those of today. In all our cities the "business women" constitute a vast multitude, and some of them possess an executive capacity unsurpassed by men. As has been said, they constitute one-third of the public service of Ontario, enormously increased since Timothy Pardee's day. In 1878 there was not a woman to be found in a law office or a bank, it was illegal for women to practise medicine or law women students were not admitted to the University of Toronto. Those who defied convention and engaged in commerce were supposed to have taken a downward step in a social sense. A "real lady" was not supposed to earn her own living except in an amateur way in a few luxury occupations, or in minor educational work. The unimaginable change to present-day conditions has taken place quite unconsciously, and with an increase rather than a decrease of efficiency. Women, therefore, do well to honor the memory of Timothy Blair Pardee, the first political champion in Canada of the business girl."

Add a little starch when doing up cretonnes or slip covers. It will take away that flimsy look and keep the materials clean longer.

Use rain water for storage batteries instead of distilled water, for which garages charge so much. It is just as safe, and free.

PLAY SAFE!

Many people continue to wear Glasses long after they should be changed. The penalty is suffering and discomfort.

THE WHATNOT

A Place for Little Bits of Everything of Local Interest

By MARION

WE are all planning clothing for the fall and winter, mothers, business girls, school girls and even the very young school girls. Most of the mothers are thinking first of the children and last of themselves deciding that Grace must have a new coat, a best dress and all the rest of the garments necessary to make Grace a well-dressed girl. How many of these mothers are getting the wishes of the girls in question?

• • • • • • •

The small child is so often stood up to have a dress fitted without any thought as to whether she may like the dress. How many of us have heard "Mother, I don't like this" and have replied, "Well you'll have to wear it?" Perhaps the color just doesn't appeal to small Jean or Bessie but with the help of a guiding word or so it becomes acceptable.

• • • • • • •

Children all take an interest in the subject of clothing—even boys—but girls particularly may be started thinking along lines of harmonizing colors, suitable materials and appropriate sytles at an early age.

• • • • • • •

One small girl who attends a west end school has told her mother she wants nice white bloomers with her colored dresses. This in spite of the fact that she always wears bloomers of the same material as the dress. Her mother has had to explain that it is so much better looking and so much more practical. The child now understands why she is required to wear these matching clothes and is quite content.

• • • • • • •

Another little lady who is very fond of 'pairs' of beads would wear various strings with any clothes. Now she chooses her colors and does not insist on adorning herself with jewelry when she is wearing clothes that do not 'go' with that sort of thing.

• • • • • • •

Small as these things may appear they are the beginning of good taste in dress, and girls who are allowed some choice in matters of dress will be better able to choose their clothing when they become self-supporting.

• • • • • • •

How many of the home dressmakers are puzzled over how to dress their small daughters of seven and up? So many have grown out of the chubby stage and look like animated fence posts in dresses that fall straight from the shoulder. One dress that I saw on George street overcame the difficulty very nicely. A skirt pleated in front only, fastened to a straight body which was topped with an asymmetric collar made a pretty costume. A flowing tie finished the collar.

• • • • • • •

Dresses made with pleats in the skirt should be done only in the front to my way of thinking, for school use. It is so hard to keep pleats in skirts when they are being sat upon so much.

• • • • • • •

Another way of dressing the seven-year-old is in the popular pullover sweater and pleated skirt. A charming costume of this sort was worn by a young miss on Childrens' Day at the Exhibition. A red jersey skirt—pleated of course—topped with a red and white candy stripped sweater with round neck seemed the very thing for uncertain weather.

• • • • • • •

I was reading the other day of the mysterious birds, the sooties and noddies, that migrate no one knows where from Bird Key in the Gulf of Mexico. Nothing was said about carrying luggage but I'm sure if they do the more up to date ones carry a certain case that is quite easy to carry and does away with the necessity of carrying any other piece of luggage. There is room for ten frocks, two hats, four changes of hose and lingerie, three pairs of shoes and toilet accessories.

• • • • • • •

While visiting in a north end home I was given a charming room in which was a dressing table adorned with a pair of glass candle sticks in the form of large pink roses. Candles of the same shade of pink were used in these holders.

• • • • • • •

Leather seems to be used very much in furnishings about the fireplace. Dropping in for a chat with a friend near the Exhibition Grounds I was made comfy before a cheerful fire. Under my feet was a foot stool of vari-colored leather squares. They were orange, black, green and purple, the effect being a modernistic one indeed.

• • • • • • •

Another west end home has a low seat made in a simple design the cushion of which is made to lift out so that it may be used by a sleepy child who may like to dream on the rug before the fire. This cushion is covered with leather on one side while the other has a heavy piece of tapestry for its cover.

• • • • • • •

A hybrid in hats has been seen on the streets of Peterborough. This hat is a cross betweent a beret and a tam and has the best points of both.

• • • • • • •

A charming fall walking suit of fine wool fabric was worn by a young lady enjoying the thrills offered by the rides at the Ex. It had a smart short 'box' jacquet and box-plaited skirt. The collar and suffs were of washable material and I suppose were detachable for washing.

S-O-S

If you have a problem, or want advice, or a recipe, the neighbors will be glad to help out. Write to Marion, who will present your request.

BUTTERSCOTCH PIE

(Kindly contributed by Mrs. L. G., for Mrs. E.R.)

"Dear Marion,

I am sending a recipe for butterscotch pie some of our readers were asking for in last night's women's page of our paper.

Mrs. L. G."

1 cupful brown sugar (darkest), 1½ tablespoons cornstarch, 1 tablespoon butter, 1 teaspoon vanilla, 1 cupful sweet milk, yolks of two eggs (use whites for frosting).

Cook all ingredients in a double boiler until thick. Put into baked pie shell, whip whites of eggs stiff for frosting, and brown in oven for three minutes.

SOCIAL AMENITIES

Marion will answer questions of etiquette addressed to her in care to The Examiner.

Tomboy: No, you should not thank a man for dancing with you. The favor is supposed to be the other way. If you have enjoyed the dance, you may tell your partner so, naturally.

Mrs. J. E.: Coffee is sometimes served before leaving the table, but the better custom is to have it passed later in the drawing-room. In either case the small coffee-cups, sugar and cream are passed on the tray. A small coffee-spoon is laid on each saucer.

THE MIRROR OF THE MODE

By Mary Marshall.

This cloche poke of soft blue is banded with darker blue and white.

Consider the possibilities of the poke cloche before deciding on any of your new autumn hats. There's a wide variety of hats to choose from this autumn—close-fitting skull caps, berets, turbans and for formal afternoon wear an occasional wide-brimmed model—though as usual wide brims are less in demand for autumn and winter than for the sunny seasons. Almost all the hats are constructed so that when properly adjusted they show a glimpse of forehead. A great many of them show a marked tendency to droop down at one side. The effort it would seem was to make every woman look as oval faced as possible. The line across the forehead and the side drapery follow more or less closely the upper curve of the oval.

The new poke cloches follow this oval line admirably and, as they are usually made of lightweight wearable felt, they are admirably adapted to street and sports wear. For a decade we have been wearing cloches and so popular did they become and so widely worn to the exclusion of any more elaborate sort of headgear that many milliners would gladly have seen them all in the bottom of the Great Lakes or the Seine or the Atlantic or Pacific Ocean. Cloches simply means bell in French—so the essential of the cloche was its down drooping of the brim which was simply a slightly flaring extension of the crown. It requires more imagination to see any resemblance between these new cloches to a bell than it did with the earlier sort, because these new cloches are also poke shaped. The poke bonnet takes us back to the Directoire period in costume when these hats, narrow at the back, wide and somewhat drooping at the sides were very generally worn.

It would be hard to find a hat more comfortable and convenient for autumn and winter wear than the poke cloche. Its shortness at the back makes it suitable for wear with the large fur collar. It fits closely but without a constricting band about the brow and it rises off the forehead.

MARION'S MAIL

Address correspondence to Marion, at The Examiner Office.

"Dear Marion,

Your columns in The Examiner are certainly proving popular, and just to show that I appreciate them I am sending in a suggestion which you may use if you think it is worth while.

I have not very much money to spend on housefurnishings, and I have consequently been driven to evolve many items out of cheap material, because we all like things nice. When my little girl was big enough to have a room of her own, I had no furniture, except, of course, her bed. I got a big wooden packing box from the grocer, covered the top with white oilcloth and hung a flounce of dotted swiss over colored sateen around the sides, meeting in front on a draw string. Inside, I papered the box with wall paper and put in two shelves, which are handy for clothes. Over the top I placed a bureau scarf of white dotted swiss.

During a sale I bought an unpainted mirror, swung on wooden uprights, and at the same time I got two cigar boxes with hinged lids and little fasteners. All of these I painted white with that quick-drying enamel. Placed on top of the box, with a little box on each side of the mirror, and comb, brush and nail file set in between, the outfit makes a nice addition to a little girl's room.

I painted a light kitchen chair with the same paint, and as the bed is white, the room looks very nice.

I hope that this hint may be of use to some of your readers.

Yours sincerely,
Mrs. Douro."

Thank you very, very much, Mrs. Douro, for this idea. I think your "home-made" room must look charming, and it certainly will delight the heart of the little girl who is just growing up. I'm sure a lot of our readers will be able to put the hint into practice.

Write again, and tell some more of your home-making ideas.

• • •

"Dear Marion,

Will you please tell me if the red color of a bird cage is likely to blind a canary? My husband gave me a red bird cage, and we have heard that the color is likely to blind the bird. Rather than take chances, we have put him back in the old brass cage. But I would like to use the new cage, if possible.

Yours truly,
Canary."

I knew of a parrot once that became violently ill in a cage that was painted red. But that was because he climbed to the outside of it and chewed a good deal of the painted woodwork. Some one well versed on the subject of canaries will answer your question, I am sure.

• • •

"Dear Marion,

I certainly appreciated your fashion edition, but it just brought to mind something I have often thought. Why don't the stores put something in their advertisements regularly, telling us what is fashionable and not? If there was a little paragraph or perhaps two in every big ad I'm sure many others besides myself would appreciate it. That would be real service, and, I think, would attract attention to the ads. What do you think?

Artist."

I think it is a good idea, Artist, but of course I have nothing to do with the advertisements. Perhaps some merchants will see this note and try out your idea.

JONES IN SEMI-FINAL OF UNITED STATES GOLF

SHOOTS 70 FOR RECORD

American Champion Finishes 36 Holes, 14 Up and 13 to Play.

WILL MEET FINLAY

Braeburn Country Club, Newton, Mass., September 14. Canadian Press. —The semi-finals of the National amateur golf championship, will be played to-day with Bobby Jones, the defending champion, opposing Phillips Finlay, Harvard sophomore star, while T. P. "Phil" Perkins, the champion of Great Britain, meets the sensational New Yorker, George Voight. This was decided yesterday by four sensational third round matches.

Jones led the way by crushing the British player, John Beck of London, by 14 up and 13 to play, a margin that equalled the tournament record for decisive defeat. The defending champion, with a seventy for the morning round that was the best score of the tourney so far, thus put himself in the same bracket with Finlay, who wound up the day with a spectacular uphill victory over Harrison R. "Jimmy" Johnston of St. Paul, 2 and 1.

Perkins, the first Briton to get as far as the semi-finals in the United States championship in many years, beat off George Dawson of Chicago, 3 and 1, in another exciting match. The invader's next opponent, George Voigt, the medalist, continued his brilliant march, by overcoming the burly Portland, Org., dentist, Dr. Oscar F. Willing, 4 and 3, in the fourth 66 hole encounter.

With the exception of the Johnston-Finlay match, the leaders at the end of yesterday morning's first 18 holes, were returned victors and by increased margins.

CUBS WIN FROM CARDS

Chicago Entry Stages Batting Rally to Defeat League Leaders 6-1.

GIANTS UP TWO

NEW YORK, September 14. — Canadian Press. — The Cubs advanced to within two games of the pace-setting Cardinals by defeating the St. Louis entry by 6 to 1 here yesterday before a record week-day crowd at Chicago.

Paced by Kiki Cuyler, Gabby Hartnett and Woody English, the Cubs drove the veteran Clarence Mitchell from the box, and maltreated his successor, Sylvester Johnson. Fred Frankhouse pitched to the last batter in the Chicago eighth after singles by Beck and Blake and a triple by English had given the Cubs two runs with two out.

While his mates were pounding the opposition to fourteen hits, including two triples and two doubles, Sheriff Blake was holding the Cardinals to four hits, two each in the fourth and the fifth innings.

Giant fortunes continued to improve to-day when the New Yorkers won twice from the Braves at Boston and by virtue of St. Louis' defeat moved to one and one-half games of the League lead. The scores yesterday were 13 to 2 and 7 to 6. It was the third consecutive double success for the Clan McGraw over Boston and a new modern Major League record.

LEAFS WIN TWO AND LEAD LEAGUE

Montreal's Pennant Hopes Blasted By Double Defeat Yesterday.

MONTREAL, Sept. 14. — "Lefty" Martin of the Leafs hurled his team into first place over the idle Rochester Red Wings and the Buffalo Bisons, as the Torontonians took both ends of a double-header from the Royals here yesterday afternoon, 9 to 7 and 2 to 0. Martin went into the box in the seventh inning of the first game, after his mates had fallen upon Roy Sherrid and turned an impending 7 to 1 defeat into a 9 to 7 triumph, and held the Royals in check until the end after three other moundsmen had failed. Then Martin went the round in the second contest. Dale Alexander hit a home run in the fourth inning of the second contest, his twenty-eighth of the season, and the Leafs scored another run in the fifth on a double and two sacrifices, while Martin was blanking the opposition.

The double defeat, which put the Leafs on the straight road for the International League pennant, was damaging to the Royals. Any faint hopes the locals may have entertained in the pennant hunt were practically blasted in the first contest, and Martin and Alexander rung their deathknell in the nightcap. The Leafs have taken 14 of the 24 scheduled contests between the two teams, seven victories in each city.

FOWLER AT HIS BEST.

NEWARK, Sept. 14.—Pitcher Peter Fowler was in rare form yesterday, and had no trouble in shutting out the Bruins, 6 to 0. He allowed four scattered hits, and only one Bear saw third base. Kingdon got that far in the second on a walk, an error and a stolen base.

OFFICE CREW DEFEAT TEST

Win Group Honors in C.G.E. Softball League by 11-3 Score.

WILL MEET PUNCH PRESS

Under lowering skies and with occasional showers of drizzling rain, the Office nine last night eliminated the Test men from the struggle for group honors in the C.G.E. Softball League by the score of 11 to 3 at Confederation Square.

The game was peppy from start to finish, the slight showers proving no detriment to good fielding on the part of either team, the errors being made usually by the baseman dropping the ball. Weldon, who started for the Testers on the rubber, was nicked for six hits and three free trips to first and when relieved by Munro at the first of the fifth the score was five to one in favor of the Office. The new twirler, although pitching a better brand of ball, was unable to block the winning rush of the opposing batters, who chalked up six more counters before the end of the eighth, duplicating the score of Tuesday night when the Punch Press trimmed the Meter Department by the score of eleven to three.

Routly, the pitching ace of the Office team, exhibited a brand of steady twirling throughout the whole of the game and was given good support by his team mates especially the infield. Playford and Williams pulling down a hot one apiece when a hit meant a run.

The winners staged a double play in the third when Gore batting, with a runner on first and second, grounded to Playford, who tagged Butcher and threw out Newson at second base. Barry's three-bagger into right field in the seventh innings with one man on was a feature of the game.

Newson and Cameron in the outfield turned in a very nice game for the Test men both at bat and in the field

The game was called at the end of the eighth owing to darkness.

The Office team meet the Punch Press in the first of a three game series on Monday night at 5.15 o'clock at Confederation Square to battle for the championship of the C.G.E. League.

Line-ups

Office— Weir, lf.; Playford ss.; Weese, 3b.; Ed. Williams 2b.; Routly, p.; Barry, 1b; Dyer, c.; Collins, rf.; Northrop, rf.; Whatley, cf.; Saunders, cf.

Test Men— Newson, lf.; Convery, ss.; Gore, c.; Cameron, cf.; Hall, 3b.; Hedger, 2b; Pease, 1b.; Weldon, p.; Butcher, rf.; Munro, p.

The game by innings:

Office	04003022—11
Test Men	00010011— 3

Struck out—By Weldon 0. Balked by Weldon—3. Hits off Weldon—6. Struck out by Munro—1. Walked by Munro—1. Hits off Munro—6. Struck out by Routly—3. Walked by Routly—2. Hits off Routly —5. Three-base hit—Barry. Umpires—Bennett at the plate, Batley on the bases.

VIEWS ON SPORT

Riley and Hickey vs. St. Francis of Toronto in O.B.A.A. bantam final at Riverside Park tomorrow afternoon. Game will be called at 3:00 sharp.

Raybestos will make another attempt to get to Stouffville tomorrow for the second game of the series, and with Masterson on the mound will make a big effort to capture the round. The winner of the series will meet either Niagara Falls or Leamington, the Falls having won their home game on Wednesday.

* * * * * * *

The benefit game for the widow of the late Herb. Wolff, between Belleville and an All Star team arranged for Wednesday, was cancelled on account of wet grounds, and will be played at a later date. Belleville go to Toronto tomorrow for the opening game with Bell Telephone, the T.A.B.A. winners. Umpires Kay and LeBarr will handle the second contest in Belleville.

* * * * * * *

Here's a last call for a big crowd at James Stevenson Park tomorrow afternoon when Riley and Hickey Bantams meet St. Francis of Toronto in the second game of the Ontario finals. The local youngsters have had several helpful workouts at the park this week, and will be in good shape for the contest at three o'clock.

* * * * * * *

By defeating the Test Men 11-3 in the C.G.E. softball group play-offs at Confederation Park last night, the Office crew won the right to meet the Punch Press in the first of a three game series for the industrial honors on Monday night. The game was played under lowering skies and while the weather was damp the battle itself turned out to be a hot argument. Strong fielding by both teams was a feature of the tussle.

* * * * * * *

The Office men were a superior team through the game, Routley pitching a steady brand of ball that lasted throughout the whole session while he was given a world of support by his teammates. The winners staged the only double play of the fixture in the third inning when Gore batting with a runner on first and second grounded out to Playford who tagged Butcher and threw out Newson at second.

* * * * * * *

Heinie Maush displaced Lou Gehrig for second place in the American league batting averages with a circuit clout, a two bagger and a pair of singles in as many times to bat in the game between the St. Louis Browns and the Chicago Sox yesterday.

HORSESHOE IS WELL WIELDED

Tournament Under Auspices of Kiwanis Club Features Exhibition Program.

GAMES TO-NIGHT

The horseshoe tournament at the Industrial Exhibition under chairmanship of A. Moffatt, got away to a good start yesterday with 32 pairs entered, and sixteen will to-night enter the second round. Vincent Eastwood, Manager of the Royal Bank, made the first draw.

This is the first horseshoe tournament to be held in Peterborough, and it is made possible mainly through the efforts of Mr. Moffatt, who organized a horseshoe club as a part of Kiwanis activity in the spring. The second round to be played to-night at 6.30, in front of the grand stand, should furnish much of interest, and there will be some exciting games in the semi-finals and finals, starting on Saturday at 3 o'clock. Carl S. Browne will referee the Saturday games.

In yesterday's events the palm for ringers was carried off by Percy Read, who was, however, eliminated early. Mr. Read made ten ringers. T. Drum, who was second with nine ringers, is still in the running, and W. Dearborn and Earl Kidd tied for third place, with seven ringers each.

The following were the players participating yesterday, the first mentioned in each case being the winning pair:

Adam Sands D. Snelgrove	H. Nugent v R. Hickson
Ralph Brunton Laurie Campilo	Chas. Saunders v L. M. Richardson
James Neary W. J. Rome	Geo. Gimblett v Chas. Telford
Walter Fitzgraid H. H. Graham	J. L. Hancock v C. Sanderson
Bert Padgett B. Fleming	Dan Campbell v Percy Read
Harry Huffman Ira Moore	Robert Huffman v Chas. Huffman
Martin Chenhall Alf Heckman	Robt. Tully v Sid. Rushton
Mark Bredin H. Freeman	Sam Oke v W. Flannery
Ivan Lillico E. V. Taylor	Terry McGovern v
Stephen Grisdale S. P. Cullon	W. H. Kidd v J. E. Smith
S. Touchbourn Vivian Milburn	J. A. McKone v H. J. McCannan
Reid Bros. (Coe Hill)	v. R. Taylor
W. Breckenridge G. W. Bennett	Fred J. Martin v Eric Miller
Bernard Barrett J. Hawley	Wm. Meagher v J Dainard
Thos. Drum Earl Kidd	W. Merrill v E. V. Morphet
O. Steer W. Dearborn	J. Kingsboro v R. Tully

Second Round.

The draw for the second round was made last night, and the following games will be played at the hours indicated. All games are scheduled for the Exhibition Park.

At 6.30: J. Neary and W. J. Rome v. B. Padgett and B. Fleming; A. Sands and D. Snelgrove v. R. Brunton and L. Cuplio.

At. 7.30: W. Breckenridge and G. M. Bennett v. M. Bredin and H. Freeman.

I. Lillico and E. Taylor v. B. Barrett and W. J. Hawkey.

At. 8.30: S. Touchbourn and V. Milburn v. S. Grisdale and F. F. Cullon.

T. Drum and E. Kidd v. H. Huffman and I. Moore.

At. 9.30: G. W. Fitzgerald and H. H. Graham v. O. Steer and W. Dearborn.

M. Chenhall and A. Heckman, a bye.

Exhibition Program.

ACCOUNTS PASSED BY OMEMEE COUNCIL

Other Matters Discussed at Regular Monthly Meeting of Council.

(Examiner Correspondence)

OMEMEE, Sept. 14.—The Omemee Council met on Friday evening for their monthly meeting, the Reeve and Councillors all being present. The following accounts were examined and found correct and ordered paid:

J. J. Williams, account, $6.60; N. D. Earle, $1.70; J. White, 17 loads gravel, $1.25; street lights, $72.34; C. Elliott account for cement sidewalks, $925.90; W. Magee, 1 load gravel, $1.50; Coronation Hall, $3.10; fire hall, $2. Total $1,034.39.

Upon motion the expense of the fire team and equipment at Albert Carroll's fire, amounting to $25 is being sent to the Emily Township Council.

A by-law for the purpose of fixing rates and assessments totalling 40 mills for the year 1928 had its several readings and was passed.

A by-law appointing Thomas Newman collector for the year 1928, at a salary of $50 was passed.

A motion was passed that the Hydro Commission be requested to put a street light about midway between George and Colborne streets on church street.

Council adjourned to meet the first Monday in October at 7 o'clock.

WINNER OF FIRST RACE

Clarence Ross, Chicago, winner of the first of the Wrigley Consolation swims in Lake Ontario, at Toronto, on Saturday. His brother, Norman, made it a big day for the family by coming second to George Young in the main swim of the day.

MANUSH LEADS LOU GEHRIG

Holds Batting Average of .375 as Browns Defeat White Sox 6-4.

AMERICAN LEAGUE

NEW YORK, Sept. 14. — Canadian Press. — Collecting half of his team's 8 hits, Heinie Manush, left fielder, boosted his second place batting average to .375 over Lou Gehrig of the Yankees yesterday as the St. Louis Browns bested the Chicago White Sox 6 to 4 at St. Louis. Manush, who trails "Goose" Goslin of the Senators for American League batting honors, connected with a circuit wallop, a two bagger and a pair of singles in as many times to the plate.

Lu Blue, Brown first baseman, resurrected the ancient "hidden ball trick" to touch out Shires, Sox rookie initial sacker, in the seventh.

GORDON CUP FINAL SATURDAY AFTERNOON

Kick-off Three O'clock at King Edward Park—De Laval and General Electric.

The soccer bill for to-morrow afternoon is the final of the G N. Gordon cup between the Canadian General Electric and the De Laval at King Edward Park. Kick-off at three o'clock. Referee Alexander McKinley.

When these two teams met recently the De Laval had the lead of two goals in the unfinished game in the league schedule. The Separator boys intend giving the Electric eleven a good tussle for the possession of the trophy. The C.G.E. were the first local team in the city to have their names engraved on the cup while the De Laval have not had that privilege so far, although their name appears on the junior trophies of the Junior Association that has been inactive the last two seasons—all the Junior Cups are now in the possession of the Canadian Packing team.

NOVEL EXHIBIT OF MARVELUBE

Whippet Car Running Constantly Without Guidance Attracts Crowd.

PRIZES GIVEN

Seldom does a Fair come and go without at least one novel attraction being created. This year by the ingenuity of Mr. A. W. Blade, manager Imperial Oil Limited, Peterborough, has worked out as ingenious an idea as was ever staged.

A beautifully arranged exhibit of Marvelube Oil and other Imperial Oil products enclosed within an artistic railing, has simply amazed every visitor to Peterborough's great exhibition.

Those who visit the exhibit have come away marvelled by this unique display.

But this is not all. Through the kindness of J. J. Duffus, Limited, Peterborough distributors of Whippet and Willys Knight fine motor cars and trucks, and who sell carloads of Marvelube Oil, Mr. Blade secured for each day one or more Whippet or Willys Knight automobiles which are driven into the enclosure left running round and round this attractive exhibit of motor lubricants. As an advertising medium Mr. Blade and his congenial staff sell to interested spectators a beautifully lithographed can of Marvelube Oil at a special price and give each of such visitors an opportunity of guessing the distance that the car will travel from ten o'clock a. m., until 11 o'clock at night each day, and prizes are offered to several of those who guess the nearest to the correct distance daily.

It is worth while visiting just to endeavor to reason out how any automobile can continually keep going around in a circle without anyone guilding it. This is exactly what is happening at the Peterborough Fair.

There you will find one of the latest Whippet or Willys-Knight models hour after hour beating a path around a very limited circle. No one steers it. No one tends to it, yet it never alters its course, and never alters its speed. Furthermore the radius in which it turns is remarkably small, and proves the selling argument put forth by the company that the car turns in a smaller space than any stock car of its price.

In the spacious and beautifully decorated showroom of J. J. Duffus Limited, Corner Charlotte and Water streets, Peterborough, may be seen a complete and special exhibit of all the latest models of Willys Knight and Whippet cars and trucks, ranging in price from $725 to $4000. Visitors to Peterborough during the exhibition are cordially invited.

Our Boarding House . . . . . By Ahern

MUSIC AT THE EXHIBITION

Lt. Cervonne's Band will play the following program before the grand stand at the Exhibition on Saturday evening:

March: "On the Mail"—(Amato).
Overture: "Rose Marie" (Arrangement by Cervonne).
Popular Number: 'I'm More Than Satisfied" (Vilella).
Selection: "What Price Glory" (This was adapted from the motion picture "What Price Glory?" and especially arranged by Lt. Cervonne).
Vocal number by Miss Edna Joyce: "Auf Weidersehen" (Mazzetti).
Selection: "Can't Do Without You" (Berlin). Featuring trumpet solo by Lt. Cervonne and vocal solo by Frankino Dorsi.
March: 'Colonel Bogey" (Bonaroglia).
God Save the King.

By permission of Lt-Col. W. Gordon Hall and officers, the band of the 57th Regiment, Peterborough Rangers will give the following programs on the main band stand on Saturday afternoon and evening from 1.30 to 430, and 7.30 to 9.30, under the direction of Lieut. W. H. Peryer:

Bailleboro, October 7th. Rev. F. Carpenter of Cavanville will be the speaker for the day.

Bensfort, October 21st, conducted by Rev. J. V. McNeely, M.A., B.D., of Keene.

All services at 11 a.m. and 7 p.m.

THEATRES

AT THE REGENT.

THE SEA EPIC, "THE WRECK OF THE HESPERUS."

The extraordinary task of breaking up a full-rigged, 250-foot sailing ship and pounding it to pieces on the rocks was only one of many difficult production problems that confronted Elmer Clifton during his filming of "The Wreck of the Hesperus" at the De Mille Studio. Never before, it is said, has so large a ship been broken up in a motion picture, and De Mille production attaches assisting Clifton in the filming of the spectacular wreck scenes, found each day presenting new problems to be solved.

Their efforts, however, resulted in the filming of the most realistic storm scenes ever screened, and those who have seen the production are enthusiastic in its praise. Realism was essential, because of the known fury of the particular New England storm around which the poem, "The Wreck of the Hesperus" was written by Henry Wadsworth Longfellow.

Longfellow's famous ballad, which Harry Carr and John Farrow prepared for the screen, has an authentic historical background, and chronicles the spectacular wreck of the "Hesperus" on Norman's Woe, which occurred during the terrific storm along the New England coast, December 15, 1839.

The "skipper" of Longfellow's ballad is portrayed in the picture by Sam De Grasse, while his little daughter is played by Virginia Bradford, a recent De Mille ingenue discovery. Fra[illegible] Marion, Alan Hale, and Ethel Wa[illegible] also are conspicuous in the cast. The picture is now playing at the Regent. It is said to be packed with thrills.

AT THE CAPITOL.

MILTON SILLS IN "THE HAWK'S NEST"

The lure of the underworld of a big city has a fascination for most people. When a moving picture centers its activities around this section of life, it has a widespread attraction. And Milton Sills is the "Hawk" the tall man who is one of the oldest of the screen's stars and yet retains his popularity with the public that has a fickle and ever-changing taste. He poses just as much as ever, but he gets away with it beautifully and the quality of grimness and determination in his long, lean face is just right for the characterization of the man who went to war, had his face smashed and then crudely repaired, and came back to start a night club in the Chinese section of New York, and call it "The Hawk's Nest."

Daughterty, the rival of "The Hawk" is a heavy villain, who is played by the well-known Montagu Love. He also owns a night club and desires to get control of "The Hawk's Nest" which is diverting business from his doors. He goes to barter with its owner, accompanied by a man and woman assistant, who start a row in the rival cafe. In the ensuing melee, one of the Hawk's men, Kent, has a fight with Daugherty's henchman, McGuire, and the latter is killed. Kent is 'framed" for it and goes to prison, to be sent later to the electric chair.

"The Hawk" who has been a wartime buddy of Kent and knows that he is innocent, is desperately trying, through the balance of the picture, to force Daugherty to confess to the crime. A great deal of tense and cumulative interest is injected into the production by the struggle in wills between the two strong men, and the manner in which "The Hawk" utilizes his friendship with the Chinese to bring Daughtery into subjection. He also becomes very friendly with Madelon, a girl of Daugherty's cafe, and uses her to lead up to the final denouement.

It is an interesting picture, with the very desirable atmosphere of suspense sustained to the last moment.

With it is a comedy featuring the inimitable Charlie Chase, in "The Eighth Pest" an excellent bit of fun from the prize-ring. There are also close-up pictures of the Men's Marathon Swim in Toronto, showing the valiant Michel being saluted by his excited trainer.

—Jeanette.

INTERNATIONAL AIR MAIL SERVICE

Plane Will Leave Montreal For Albany About Sept 15.

The first International Air Mail Service between Canada and the United States will be inaugurated on or about September 18th, 1928, with the first air mail flight from Montreal, Quebec, to Albany, N.Y.

All mail offered and prepaid at the rate of five cents for the first ounce and ten cents for each succeeding ounce or fraction thereof, will be conveyed.

All covers should bear in the top left hand corner the words:

"Via first Aid Mail Flight — Montreal-Albany."

The Postmaster at Montreal will be furnished with a special cachet and an impression of such cachet will be made on all properly prepaid covers reaching him for inclusion on this flight.

If you are interested in first flight covers and are anxious to secure the special cachet it would be advisable to prepare your covers as far in advance of the day of the flight as possible and forward them under cover to the Postmaster at Montreal, with such instructions as may be consistent with his duties as Postmaster.

All covers handled in this manner must bear the necessary Canadian Postage Stamps, or should be accompanied by a money order for the correct amount of postage.

Senders of mail from Montreal to Albany, who desire such mail reforwarded from Albany under cover, should forward to the Postmaster at Albany a stamped addressed envelope should bear U.S.A. postage stamps.

REGENT FIRST IN PICTURES AND MUSIC!

A beautiful picturization of Longfellow's World-famed ballad

"The Wreck of the Hesperus"

A dramatic story of New England and whole-souled seafaring folk, at once impressive, charming, thrilling — A film creation of supreme merit—An epic of the sea!

WORK AND HEAT HARD ON MINERS

Strenuous Labor of Western Harvest Fields Too Much For Them.

LOCAL MAN RETURNS.

The blazing heat and the heavy, slugging work in the prairie grain fields proved too exhausting for those British harvesters whom Hector Turvey, of the T. Eaton Company in Peterborough, recently met in the south-western section of Manitoba. He was visiting his parents at Hartney and was away from the city three weeks.

"I met and talked with a dozen or more," Mr. Turvey told The Examiner. "They told me they simply couldn't stand the heat and the heavy, hard work. It was more burdensome than they had expected They said they were entirely satisfied with the treatment they had received from the farmers. I put in several days in the harvest fields, and I know it wasn't easy. I was simply getting some exercise while on my holidays.

Big Grain Crop.

"Down in the Hartney district the wheat averages 35 to 40 bushels to the acre, and the oats 65 to 80 bushels. They have a wonderful crop, and the grain growers are happy. The oat fields were a picture, the grain being exceptionally tall and heavy headed. The weight of the grain made heavy work for the best experienced Canadian harvesters. I talked with a lot of harvesters from the Old Country, and I didn't hear a word of serious criticism against Canada.

"My main impression was that we are blessed with a great crop, and all over Manitoba there are signs of prosperity and the expectation of money. I saw a number of the 'combine' machines, which cut and thresh grain in the one operation. They are gradually coming into general use, and naturally tend to reduce the requirement of manual labor."

Visited Big Stores.

On his holiday trip Mr Turvey visited a dozen big departmental stores in Canada and the United States. He was looking for ideas that might help him in his own work. Among the stores he visited were Eaton's in Winnipeg, Teco in Brandon, Dayton's and also Donaldson's in Minneapolis, Sears-Roebuck in Chicago, also Marshall Field's, Mandel's and the Boston, all in Chicago.

Mr. Turvey's wife remained in Hartney with her mother, Mrs. Robert Rutherford, 519 Albert street, of this city, who accompanied them, and together they will attend next Saturday the wedding in Winnipeg of Mr. Turvey's brother - in - law, Robert Rutherford, Jr., accountant in a Minneapolis bank.

The fancy work that most girls like best is the weaving of romances.

When a woman calls her husband a treasure she usually means a treasury.

ROAD PROBLEM ONE OF FINANCE

Public Opinion Had To Be Educated, However, To Reach This Stage.

INVESTMENTS LARGE.

MONTREAL, September 12. — The growth of the good roads movement in Canada is characterized as one of the most amazing in the history of the country. Back in 1914, the motto of the Canadian Good Roads Association was "Good roads must come." Even in those days a great deal of agitation and educative effort was necessary to convince people of the value of improved highways. Compare that state of public opinion with to-day. When no person questions the importance of good roads to any community, and the only problem is one of finance. The Canadian Good Roads Association, which holds its annual convention in Regina on September 25, 26 and 27, long ago ceased its campaign for good roads and to-day centres its efforts to preserve the present highways investment, to regulate the use and abuse of roads, and to make highway travel more safe and secure. In other words, "good roads" to-day are taken as a matter of course.

In making preparations for their convention members of the Canadian Good Roads Association dug up some startling statistics relative to transportation. For example it is estimated that the investment in highways in Canada now amounts to $800,000,000. The investment in equipment to run on these highways—that is vehicular equipment of all sorts—is at least a million and a quarter dollars, thus placing the total highway investment among nine million people at something like $2,050,000,000. The two and one-half billion dollars. The total investment of the steam railways in Canada, both roadbed and equipment, comes to approximately two and a half billion dollars. The total for electric lines is about $3,000,000, and for canals $470,000,000, so that the total investment of the Canadian people in transportation comes to more than five billion. In the permanent means of conducting transportation, that is on roadbeds alone, Canadians have invested three and one-half billion dollars. The investment in the country in transportation amounts to about nearly double the national debt.

"The Canadian Good Roads Association," stated Mr. George A. McNamee, secretary, "while it has no executive authority, assumes in a measure a sort of trusteeship for this two billion dollar highway investment. We have a large and representative membership in each province. We meet once a year in convention to thresh out our problems. At the same time we realise that we have to work with other transportation interests if our efforts are to count with the country as a whole. Therefore, the results of our deliberations go to a Fact Finding Committee on which are representatives of these other interests. This committee in turn reports to an Inter-Provincial Conference, which makes recommendations to Provincial governments or to the Federal Government as is desirable. To illustrate the Canadian Good Roads Association is the funnel mouth for ideas relative to highway transportation. By the time these ideas reach Parliament or the Legislatures they have received consideration from from all interests, so that they are in the main practical and acceptable. Personally, I know of many ideas to be brought before our convention this month which will in all probability be heard from in Legislative halls next winter. We are seeking to co-ordinate and maintain the highway investment. We have no politics to play, and no special interests to serve."

Dominion Amunition
These dependable Shells are made in Canada for Canadian Sportsmen. Come in and stock up. Our Twelve-gauge Shells are put up in Boxes of Twenty-five and are priced as follows per Box::
CROWN, Black Powder. $1.10
CANUCK, Smokeless Powder $1.25

NORMAN McBRIEN LEAVING LINDSAY

Former Peterborough Man Transferred To Oshawa By Bell System.

To show that they know they are losing a good man and a good friend and that they appreciate his friendship, fellow-workers and friends of Norman W. McBrien, formerly of Peterborough, gathered at his home recently to give him a hearty send-off, for he is going to Oshawa soon. Mr. McBrien has been an employee of the Bell Telephone Company for 27 years, and for over 20 of these years he has lived in Lindsay. He was construction foreman here.

Having been promoted, however, to construction foreman at Oshawa, he is leaving within a few days to take up his position there. Though this position is the same in name as the one he has occupied for some time, it is really quite a promotion as there is a great deal more work done in Oshawa than here.

After a pleasant evening, and with all the staff of the local branch of the Bell Telephone Company present that could get away from the office, a presentation was made. C. H. Mortimer, present wire chief, and Harry Lilly, former wire chief, but now of the Bell Telephone staff at Peterborough, presented Mr. McBrien with a club bag. Both spoke a few words complimenting Mr. McBrien on his long and excellent service for the company. Miss Elva Evans then presented Mrs. McBrien with a Boston bag, and this was followed by a presentation of a beautiful bouquet of flowers by F. Jewell, local manager. He spoke a few words complimenting Mr. McBrien on the high position that he has earned for himself in Oshawa.

Both Mr. and Mrs. McBrien spoke thanking their friends for their kindness. In his reply, Mr. McBrien spoke of how the work used to be done and how it is done now. He mentioned starting with Mr Tilly, and also mentioned two ladies who were operators when he started years ago and who were present for the presentation last night. Mr. McBrien was considered a good man, both by the company and by the men who worked under him. One point he always insisted on was safety, and this he impressed on his men at all times. Some of the men that he trained have risen high in the company, and he is proud of it. He is also proud of the fact that he has never had a cross word or letter lecturing him from the company, and says that the company has always "treated him right."

Both T. J. Tilly and ex-Mayor T. Wilkinson spoke a few words, and they both emphasized that fact what is Lindsay's loss is Oshawa's gain, both in a good citizen and hard worker.—Lindsay Post.

SMITH COUNCIL ORDERS INSPECTION

Reeve and Superintendent Make Tour—Want Ditches Deepened.

The members of the Municipal Council of the township of Smith met on Saturday, September 8th at two o'clock. The members were all present with Reeve Middleton presiding.

A petition was received from Messrs. J. L. Rowland, Thomas Darrah, A. W. Ackison and C. L. Ferguson asking the council to inspect the ditches of the C.N.R. track in the first concession, east of the quarter line; and to petition the C.N.R. to deepen the ditches in order to drain the waters which are now dammed up thereby.

Reeve Middleton and Dep. Reeve Coons were appointed a committee to interview Mr. McNabb of the C.N.R. in relation to this matter.

Mr. Allen of the Sawyer-Massey Company was present and addressed the council on the subject of the purchase of a power grader for use on the township roads. After discussion it was decided not to purchase at the present time.

Moved by Reeve Middleton and seconded by Coun. Fitzgerald that the Council and Road Superintendent make a tour of road inspection on Monday, Sept. 10th, including the end of the 15th concession line. —Carried.

William Brown was present to ask Council to improve the condition of the Middle Line road. It was agreed to inspect it at an early date.

Reeve Rye of North Monaghan dropped in with Mr. Brown to pay one of his welcome and periodical visits to Council.

Moved by Coun. Mann and seconded by Dep. Reeve. Coons, that the Treasurer pay the following account: Peterborouh Examiner, $5.88

The meeting then adjourned, the next meeting to be held at the Court House, Peterborough, Monday, October 8, at 2 o'clock.

Sturdy, Healthy, Playful
Quaker Figurron every package
Be sure always to ask for Quick Quaker. You will know it by the figure of the Quaker on the big, full weight, family package, and small ten cent size. Both are wrapped and sealed. Each package contains a coupon with which you can secure many household and personal articles of genuine value.
SUCH a start in life for a child is largely the result of proper feeding. Yet records show that one child in three is handicapped because of early nutritional troubles. Lots to eat? Yes, but not the proper food.
Quick Quaker Oats feeds children properly. The food elements are in scientific balance. Sixteen per cent is protein, which builds tissue and gives stamina. Carbohydrates, 65%, supply abundant energy to active, youthful bodies. And then minerals for blood and bone; roughage, a natural laxative, and the important vitamin B, which aids in the assimilation of all foods.
Children relish Quick Quaker every morning. Because the most perfectly balanced cereal, it sustains throughout long morning hours when most work is done in school and at play.
QUICK QUAKER OATS Cooks in 2½ to 5 minutes—The fastest cooking cereal

IN POLICE COURT

(Examiner Correspondence.)

MILLBROOK, September 14. — Magistrate Floyd of Cobourg, sentenced a man named Serari, living at Gramorgan, on the boundary between Clarke and Manvers townships, to two months in gaol on the charge of keeping liquor for sale, at a trial held here on Wednesday, the court room being crowded while the trial was in progress.

Colonel F. D. Boggs, K.C., defended the prisoner, the case for the crown being in the hands of Crown Attorney W. F. Kerr.

Two witnesses, John and Austin Patton, aged 18 and 16 years respectively, swore that they had visited Serari's home on the second Thursday in August, about the hour of 9 p.m., and had bought nine or ten bottles of beer at 25 cents a bottle; the liquor had been consumed on the premises, the witnesses stated, as they remained for possibly an hour and a half, and became intoxicated.

Both the prisoner and his wife swore the boys had never been at their home, nor had they sold them liquor. The magistrate ruled that the evidence showed them guilty, and the minimum sentence was imposed.

The prisoner wished to have Dr. N. H. Young called to give evidence that his health would suffer seriously if the gaol sentence was carried out. Dr. Young was not sworn, but on being questioned by Crown Attorney Kerr, said Serari needed medical treatment. The lawyer then stated this could be given by the gaol doctor.

Provincial Constable Storey, and three Inland Revenue officers, had visited the premises of Serari on different occasions, and made a thorough search, but had been unable to find any liquor.

IMMORTALITY

The simple plain meaning of the word "immortal" is "not subject to death." The meaning of death is extinction of life. The Scriptural definition of man is a living soul (a breathing creature). The biggest lie that was ever told was that told by Satan to Eve. He told Eve that if she and Adam ate the forbidden fruit, that nothing would happen. "Ye shall not surely die," said he. Another fallacy which Satan has used is the basis of more than one deception, found in our Lord's words to the thief on the cross. Jesus actually said: "Verily I say unto thee to-day, Thou shalt be with Me in Paradise." Satan succeeded in using a human dupe to put the comma in the wrong place, and by so doing people have been led to believe that "Paradise" means either heaven or an intermediate state somewhere they know not where.

Jesus meant simply that the thief would come up in the resurrection on the earth again, when the earth shall be a Paradise, with Jesus as King.

Jesus did not go to heaven the day He died on the cross, for Jesus was in the grave for three days, and after He came forth from the grave, He told Mary he had not yet ascended to His Father. Those who preach Satan's lie, saying man does not die, that death is only a transition, try to bolster up their false assertion by giving the opinion of the heathen and other persons of different climes and ages. They do this while claiming as authority the Holy Scriptures. They do not and cannot quote one passage from the Scripture to support their false assertion. In no place in the Scriptures are we told that a part of man does not die, man in his entirety dies, all that goes to make up man dies.

The immortal soul idea is a fraud foisted upon an unsuspecting public. 1d-63-2048 M. T. BUTCHER.

HORSE RACE ENTRIES FOR TOMORROW

The following is the list of the horses in the 2:20 and 2:10 classes to be run at the Exhibition race track in Saturday's horse races: Gentry Lad, Ingamore Grattan, Hal'e, Lou Grattan, Peggy Allerton, Minnie Patches, Donna Bell, Joe McGregor, Peter G. Jr. Single Grattan, Peter Direct, Lena Mark, King Grattan, Sid Hal and Jack Abbe.

EXHIBITION NOTES.

Growers of flowers and others who are interested in the display of blooms in the Flower Tent will be interested in learning of the name of a very unusual addition to a basket displayed there by G. Downer. This was a foliage with autumn leaf tints of red, yellow and light green in its long, spiked leaves and it made a brilliant spot of color among the flowers. Mr. Downer received the seed from the United States last year and says it is one of the many species of the Amaranthas family. It resembles the foliage which is named "Joseph's Coat," and has many colors in its make-up.

Beg Your Pardon.

The list of winners of athletic events at the Fair did not include the race for boys 11 and 12 years old. The winner was Harry Marsh, with Jack Patterson, second.

The name of Alderman Walter Stocker was inadvertently omitted from the list of those present at the complimentary luncheon tendered the Hon. John S. Martin by the City

In the poultry section of the exhibition prize list the name of Walter Lloyd, whose Rhode Island Reds won several prizes, was wrongly given as Walter Lord.

WEDDING BELLS

MITCHELL—JONES.

(Examiner Correspondence).

MARMORA, Sept. 14.—On Wednesday at St. Mark's Anglican Church, Rawdon, Frances, daughter of Mr. Robert Jones, of Marmora Township, was quietly married to Mr. Herbert Mitchell of Crediton. Rev. M. J. Levason was the officiating clergyman. Both bride and groom were unattended.

LONG—NEWSTROM

The Detroit Free Press contains the following account of the wedding which took place recently, of Mr. Gordon Long, formerly of Peterborough, and Miss Rose Elizabeth Newstrom:

At St. Paul's cathedral in Detroit a pretty wedding ceremony was performed on Saturday, September 1, at 1 o'clock, when Miss Rose Elizabeth Newstrom, daughter of Gustave Newstrom, of Minneapolis, became the bride of Mr. Gordon Long, of Dearborn, son of David Long, of Uxbridge, Ont. The marriage lines were read by Rev. A. N. McEvoy. Miss Newstrom was charming in a costume of beige and brown georgette, with hat of brown felt and matching slippers and hose. Her bouquet was of butterfly roses.

Miss Sally Nelson, the bridesmaid, wore a smart model of ivory crepe, with hat of sapphire blue felt and carried an arm bouquet of delphinium. Walter Northcotte acted as groomsman.

Mr. and Mrs. Long are on their wedding trip through Ontario and later in the month will be at home at Fort Dearborn Lodge."

OBITUARY

MRS. JOHN BROWN

MARMORA, Sept. 14.—(Examiner Correspondence)—The funeral of the late Mrs. John Brown of Rawdon township took place on Wednesday afternoon. The service at St. Paul's, Marmora was taken by the Rector, Rev. A. B. Caldwell, the lesson being read by Rev. M. J. Levason rector of Rawdon. The church was filled with friends and parishioners from Rawdon. The interment took place in Marmora Protestant Cemetery.

(Examiner Correspondence.)

MRS. CHARLES GRIGG.

Wooler

(Examiner Correspondence)

WOOLER, Sept. 12.—Mrs. L. C. McCall, with Mr. and Mrs. Wilfred Simpson, of Detroit, are spending a few days in Montreal.

Mrs. George Anderson, accompanied by her mother, Mrs. Sam Palmer, and Mrs. Lewis, of Rochester, spent Thursday at Colborne.

Silo filling began on Saturday at Mr. Elgin McMasters'.

Mr. and Mrs. W. A. McCall attended the Centreville Fair on Saturday.

Mr. and Mrs. Erwin Scott and Mr. and Mrs. Wilbert Morgan spent Sunday in Kingston.

Mr. and Mrs. Ray Kilbanks and family returned to their home in Oshawa on Tuesday evening.

Miss Thelma Buell, who is teaching north of Frankford, spent the week-end at her home.

Mr. and Mrs. Esli Terrill are able to drive out again, and attended their church service on Sunday morning after an absence of many months.

Aylmer Dorland drove his wrecked car to Toronto on Friday to have repairs and a new top.

Leslie Richards is recovering from blood-poisoning.

Mrs. J. J. McCall and Helen returned home after enjoying a motor trip around Lake Ontario.

Miss Doris McCall will attend High School in Toronto this fall term, making her home with Mr. and Mrs. George Gazley.

Mr. Ray Faux, of Toronto, spent the week-end with Mr. and Mrs. Edward Faux.

Mrs. Percy Gooding and two children spent Wednesday with Mrs. Esli Terrill.

Miss Eva Masters spent this week at Smithfield with Mrs. Harry Gerow.

Mr. and Mrs. Taylor, of Cobourg, called on Mr. and Mrs. S. L. Terrill.

Mr. and Mrs. Esli Terrill spent Friday at Hilton with Mr. and Mrs. Maurice Herrington.

Mrs. Alice Gunter returned to her home at York Road on Friday evening.

Mr. and Mrs. Wessels, of Brockport, N. Y., has been visiting the former's mother, Mrs. Lydia Wessels, and brothers and sisters.

The horticultural show was a grand success, held in Town Hall, afternoon and evening. A fine display of gladiolas, asters, dahlias, house plants, table boquets and vegetables. Mr. Moore, of Toronto, judged and in the evening gave an address in a practical way to enlighten the exhibitors how to show flowers and vegetables. On the day previous to this he was judging at the C. N. E., but to him it was an outing and a pleasure to come to a rural district and to see the interest and effort that was being made to beautify the home and country.

The president, Rev. H. B. Neal, and secretary, Edward Nelson, expressed their appreciation of Mr. Moore's presence and lecture, and wished him a safe drive as he left at a late hour to motor to Toronto.

Fay Forbes, nurse-in-training at Montreal, is spending a few days with her parents, Mr. and Mrs. William Forbes.

On Saturday afternoon more than twenty children were taken by their parents to Trenton to enjoy a Mission Band picnic along the shady bank of the river, where the "eats" were served and relished.

Mr. F. A. Dorland is recovering from the motor accident of last Sunday.

Miss Edith Valentine has returned home after spending three months abroad.

SOCCER NOTES.

Will the following players please report at the DeLaval dressing room on Saturday, September 15th, at 2.30 p.m. Gordon Cup final.

H. Fowler, R. Evans, A. Downer, J. Mitchell, J. Bromley, V. Curtain, W. Watkins, F. Dyer, Jr., F. Dyer, Sr., Ferguson, J. Cross, E. Hanson, H. Pulley, G. Lindsay, E. Abraham.

If unable to be present kindly notify the club officials not later than Friday night, September 14.

Warkworth

Miss Helen S. C. Armstrong has received a bronze medal for obtaining highest marks in the Junior French course which was taken in Quebec this summer.

Mrs. P. J. Moran spent Thursday in Toronto.

DEATH

MOORE. — Katherine Moore, widow of the late Anson Moore, Beaverton, mother of W. H. Moore, 67 Morrow street.

NEW DRUG STORE GEORGE ST. NORTH

First Drug Store To Be Established in North End of City.

New businesses are being established at intervals throughout the city, the latest being a new drug store which will be opened for business tomorrow at 647 George street, by Mr. F. Finn, formerly with E. L. Payne.

Mr. Finn evidently has appreciated the fact that every other section of the city had its drug store and saw an opening to serve this locality. He is an experienced prescription man and with a full line of drugs and accessories will no doubt give a service that those in this locality will appreciate.

Dozen Persons Lose Lives In Storm

Tornado Takes Toll

Houses and Factories Torn Down During Violent Storm.

IN MIDDLE STATES

One Hundred Men Buried in Ruins of Rockford Cabinet Company.

ROCKFORD, Ills., Sept. 15. — A violent tornado yesterday struck the southern portion of Rockford, tore down houses and factories and buried 100 men in the ruins of a chair factory of the Rockford Cabinet Company. A half dozen persons were reported dead outside this factory and scores of policemen, firemen and citizens worked frantically for hours to remove the dead and injured from the debris.

The wind twisted the shattered walls in an almost impenetrable mass over the wreckage of the brick foundation and made rescue work slow and difficult. The four-story frame building contained 150 men when the storm struck.

Three men on the third floor are known to have escaped. They were hurtled to the basement as the building crashed. They crawled from the ruins, covered with varnish and shellac which had poured over them as they fell.

It was thought that probably fifty in all crawled from the debris, many without serious injuries. But the police said it would take many hours to check up on the men entrapped.

Heavy Propetry Damage.

More than 200 houses and outbuildings, according to early reports, were torn down. Streets were littered with debris in which was tangled a mass of fallen wires. It was almost impossible for a time for the rescuers to reach the demolisthed factory and there were several narrow escapes from high powered wires.

Rescue work was handicapped by the gloom that continued until nightfall. Fortunately, fire did not break out and the fire department added its efforts to the work of rescue.

It was not long before all the hospitals were clogged with the injured. How many were seriously hurt, it was impossible to learn. The police believe the total would reach 200.

Several smaller factories were wholly or partially demolished, but in most cases, it was reported, the occupants escaped. More than a score of houses were unroofed in two blocks on Eighteenth avenue and three residences were moved off their bases. One house was carried twenty feet and toppled over.

Death Toll Swells.

DAKOTA City, Neb., Sept. 15. — (Canadian Press.)— Final check of the dead in the wake of two tornadoes which struck parts of Nebraska and South Dakota late Thursday, placed the number at 11 last night. Rescue workers, however, continued the hunt for additional bodies, in the wreckage of homes, barns, schools and crops.

Damage to property was estimated at more than $1,000,000. Children in three districts were without schools, one school house, the Lamer, near Calthill, was demolihsed by the wind.

It was in this school that two pupils were killed and 24 others seriously injured. Miss Phyllis Stewart, heroic teacher ,huddled the children into a group when she was warned of the oncoming storm ,and played popular songs to quiet them. She was seriously injured.

Two other schools were hit by the tornado. Helen Rooney, teacher, was killed when the tornado struck her school near Homer. The third school, near Winnebago was vacated before storm struck. The pupils there were rushed to a cyclone cellar nearby and escaped injuries.

THE WEATHER

Meteorological Office, Toronto S METEOROLOGICAL OFFICE, Toronto, Sept. 14.—A fairly deep depression centred over Wisconsin, moving eastward, has caused showers in the Lake Superior districts. Showers have also occurred in East Maritimes, while elsewhere the weather has been fair; comparatively cool from Ontario eastward, and moderately warm in the West.

Lake Superior—Strong northeast and north winds; fair in west, showers near the Soo; stationary or a little higher temperature.

Western Provinces—Moderate west and northwest winds; fair, with stationary or slightly lower temperature.

DOG FACING DEATH REPRIEVED, LOWER COURT RULING UPSET.

WHITE PLAINS, N.Y., Sept. 15. —A reprieve from sentence of execution was granted Thursday to Queenie, a prize show dog, by County Judge Walter G. C. Otto, who on an appeal from the death sentence pronounced by Assistant City Judge Jacob Ruskin of New Rochelle reversed the lower court's decision. He held that Mrs. Comi had been on trial for allowing the dog to bite a neighbor's child, and that any penalty could not be inflicted upon the dog.

Queenie was sentenced to death by Judge Ruskin on June 21 last, when New Rochelle was under quarantine against dogs being allowed at large without muzzles. Testimony was introduced at the appeal hearing that the dog was on the property of its mistess and that the child was a trespasser. Judge Otto held that Judge Ruskin's verdict "is without authority in law. It was a person who was charged with a crime and the punishment could not be vicariously visited on the dog."

HUNTERS GIVE FINE DISPLAY

Jumping Events Before Stand Are Thriling To Spectators.

SPLENDID HORSEMANSHIP.

It is not necessary to be a horseman to enjoy, at least in a large part, the activities of the skillful rider on a splendid "hunter". Ask any one who, during the past two days, has had the opportunity of seeing the jumping horses go through their paces at the Peterborough Industrial Exhibition. It was a spectacle that thrilled!

Some of the finest hunters to be seen in the province or the Dominion, were those brought to the Exhibition by Frank O'Connor and Alfred Rogers, of Toronto and Mr. Richardson, of Aurora and the display of horsemanship by their riders has been masterly throughout. On Friday afternoon, it was particularly good and shared with the splendid vaudeville program and speeding—in the ring events, the spontaneous applause of a large gathering of spectators.

A clever exhibition of bare-back riding over the various jumps, was given by Miss Nora Gordon.

Following are some of the results of the afternoon:

Light Weight Hunters

1—Fetchum, owned by Alfred Rogers of Toronto.
2—Goldie and British Consol.
3—Limerick, owner, Frank O'Connor, of Toronto.
4—Red Star, owner, Alfred Rogers.

Heavyweight Pairs

1—Limerick and Fetchum.
2—Goldie and Bricish Consol.
3—Red Star and Actor.
4—Princes Pat and Genasco.

Open Jump

1—Red Fox, owner, Alfred Rogers.
2—Actor—owner, Frank O'Connor.
3—Melville, owner, Mr. Richardson of Aurora.
4—British Consol, owner, Alfred Rogers.

Walk, Trot and Canter for Hunters

1—Limerick, owner, Frank O'Connor.
2—Red Fox, owner, Alfred Rogers.
4—Princess Pat, owner, Mr. Richardson.

Touch-and-Out

1—Uplands, owner, Rogers.
2—Red Star, owner, Rogers.
3—Glengariff, owner, O'Connor.
4—Actor, owner, O'Connor.

BOAT STOLEN AT MARMORA

Thieves Break Into R. Nayler's Boathouse and Take Yacht.

OTHERS VISITED.

(Examiner Correspondence.)

MARMORA, September 15.—Some time on Thursday night a thief or thieves broke into R. Nayler's boathouse, near the dam on Crow River, and stole a new 16-foot outboard motor boat, owned by C. Nicholson, Marmora boatbuilder. Two other boat houses were visited the same evening, but a canoe with two paddles in one and an inboard motor boat in the other were undistrubed.

The stolen boat was one of the only two of its kind in the district. It has two-inch cedar ribs and butternut decks and seats and is valued at $80.00.

RELIEF EFFORT IS COMMENCED; SHIPS ESCAPE

Thousands Are Homeless in Porto Rico As Result of Hurricane.

FAMINE FEARED.

Sir Austen Chamberlain's Vessel Reports Calm—Byrd Ship Forced To Flee.

SAN JUAN, Porto Rico, Sept. 15.—(Canadian Press). — With tens of thousands of persons estimated to be homeless, efforts were under way today to avert famine and disease which it was feared would follow in the wake of the tropical hurricane that struck on Monday.

While no deaths have been reported, the authorities thought that as soon as communication has been established with other points in the island the fatalities would become known.

Full relief and reconstruction, Governor Horace Towner said, would probably reach into millions. He placed the homeless at "tens of thousands," and described the destruction of homes and property as "immense," practically all frame structures being destroyed.

Immediate aid from all agencies was said to be vital by Thomas E. Benner, Chancellor of the University of Porto Rico, who made a survey of an area within a seven-mile radius. He added: "Fruits and vegetables will supply an abundance for a few days. Beyond that is famine."

Byrd Ship Escapes.

SAN FRANCISCO, Sept. 15.—(Canadian Press.)—A radio despatch from the 'City of New York,' supply ship of the Byrd Antarctic expedition, to the San Francisco Examiner, to-day said the vessel had narrowly escaped disaster in the hurricane which swept the region of the West Indies yesterday.

The 'City of New York,' due in Panama to-day, radioed that she had been barely able to keep the storm behind her but had come through unscathed.

Near Bahamas Now.

WASHINGTON, Sept. 15.—(Canadian Press.)—Weather bureau computations had the hurricane which devastated Porto Rico passing to-day over the fringe of the Bahamas. Advices received last night placed the centre of the disturbance 75 miles south-east of Turk's Island and it was estimated to be moving in a north-westerly direction at a rate of approximately 300 miles a day.

Dominica Escapes.

SANTA DOMINGO, Sept. 15.—(Canadian Press.) — The Dominica republic escaped damage by the tropical hurricane. The storm passed north of this country, which felt only strong winds and heavy rains. Neither of these manifestations, however, was sufficiently severe to do harm.

No Hurricane Encountered.

NEW YORK, Sept. 15.—(Canadian Press.)— The steamship "Orcoma," on which Sir Austen Chamberlain, British foreign secretary is sailing to Havana, apparently did not encounter the tropical hurricane.

The captain of the vesssel sent this message to the Associated Press in reply to a query regarding weather encountered: "Generally fair, but warm weather experienced."

TEN DEAD IN PONCE.

NEW YORK, September 15 (Canadian Press). — Ten persons are dead in Ponce, Porto Rico, and 700 homeless, many of them in hospitals, injured as a result of the hurricane which swept that island on Thursday and Friday. The All-America Cable Company received the information from its manager there to-day.

TORNADO IN ILLINOIS.

ROCKFORD, Ill., September 15 (Canadian Press). — A tornado which yesterday afternoon mowed a narrow path through Rockford industrial section and the nearby country side to-day was known to have crushed seven persons to death and resulted in property damage estimated at five million dollars. Fifteen persons out of more than 100 employed in the factories bowled over still were missing, and 34 were in hospitals seriously hurt, while others less seriously injured had been removed to their homes.

PARKS ATTRACT FOREIGN TOURISTS.

Under the policy of development and publicity being carried out by the Dominion Government the national parks are not only rendering a wider service each year to Canadians themselves, but they are adding to the knowledge of Canada abroad and attracting to the Dominions thousands of visitors from other countries in every part of the globe.

German Scientist Breeds Yellow Rats, Blue Monkeys And Other Strange Animals

BERLIN, September 15. — Seeing blu monkeys, yellow rats, and rabbits with chinchilla furs, is not necessarily any more a symptom of alcoholism. These strange creatures really exist and are not merely creations of a morbid fancy.

Proof was furnished yesterday at the opening of the Kaiser Wilhelm Institute for Breeding Science at Muencheberg near the German capital. The exhibits in the new institute show that theories on heredity taken as gospel truths two decades ago were entirely wrong. It has been demonstrated by innumerable experiments that species of animal plants can be changed at will and varied thousands of times by crossing breeds.

Each crossing brings further improvements in the new species produced in many cases practically new forms of life. Every new generation differs somewhat from the preceding one. The results of crossing is especially surprising in animal life.

At the opening of the institute the director, Professor Erwin Baur, explained that he succeeded in breeding more than 1,000 combinations, among them yellow rats, monkeys with bluish furs, and many other strange-looking creatures.

Still greater, however, are the variations obtained by crossing in plant life. The institute, for instance, exhibits 40,000 varieties of dandelions, all produced by crossing old and new breeds.

CANADA AND MOTHER COUNTRY SHOULD KNOW EACH OTHER MORE VISITING JOURNALIST DECLARES

Percy Watson Regrets Lack of Intercourse Between Countries.

LITTLE KNOWLEDGE.

Clearer Pictures Would Generate Interest, He States—Studying Business Conditions.

TORONTO, Sept. 15 (Special to The Examiner).—It has taken only three days in Canada to cause Percy Watson, advertising manager of the London Morning Post, deep regret that Canada and Britain do not know one another better.

On his arrival here to-day, after brief glimpses at Montreal and Ottawa, Mr. Watson declared: "Canada is a country of surprises. I don't think one per cent. of the people in the Old Country have any idea of its vastness, its progress, the size of its cities and its huge business interests."

Mr. Watson's regret arose from what he unhesitatingly declared to be a deplorable poverty of communication between Canada and Great Britain. "One of the things that has impressed me most strongly is that the news services between the two counquantity or quality. If we could only quantity or qulity. If we could only know more, get clearer pictures of Canada in the Old Country, the knowledge would tend to generate interest in its greatness and in the attraction of its big business," he said.

"Without for a moment belittling the work of your Government departments in Britain," he continued, "we need more personal contacts. Canada would profit by encouraging her states men and men of affairs generally to go to Britain for the special purpose of broadcasting a direct reflection of the life in Canada."

Mr. Watson is paying a visit to Canada to study business conditions, and from his background of journalistic work in London and experience as a war correspondent during the South African War is in a particularly happy, position to judge of Canadian conditions.

Prior to joining the Morning Post, Mr. Watson was for fifteen years news editor of the London Evening Standard.

FIELD LODGE BULL GRAND CHAMPION

Young Jersey Best Dairy Bull at Fair—Champion at C.N.E.

The grand champion dairy bull went to the Jersey from the Field Lodge Farm. This animal although young was the grand champion in his class at the Canadian National and has been chosen to represent Canada in his class at the world's show at Memphis, Nevada, this year.

IN POLICE COURT

Two cases appeared in police court this morning. A local young man was remanded until Friday on a charge of drunkenness while operating an automobile.

The second case also was drunkenness and the accused pleaded guilty, being fined $20.00 and $4.50 costs.

Delegates Withdraw From Conference

PARIS, Sept. 15.—(Canadian Press)—Insistence by cable companies that code words be limited to five letters or signs, caused withdrawal from the International Telegraph Conference at Brussels of the delegation of the International Chamber of Commerce. Robert E. Olds, former under-secretary of state at Washington, headed the delegation.

"We represent the users of cables and we preferred to withdraw rather than sanction by our presence an increase in message costs which we considered abusive," said Mr. Olds to the Associated Press on his arrival in Paris last evening.

He pointed out that acceptance of the cable company's ultimatum would mean that all existing cable codes would become obsolete. He said that even the department of state would have to adopt a new code.

BUSY MARKET AGAIN TO-DAY

Many Buyers and Many Sellers Crowd Hall and Square.

PRODUCE PLENTIFUL.

Another large patronage, similar to that of last Saturday, marked the selling at the farmers' market this morning. There were plenty of buyers, and much produce on view, in both the basket and the open sections.

In the upper hall, a man with a new variety of hair curler held the enthralled attention of a large group of ladies and many two-bit pieces were exchanged for these handy aids to personal beautification.

Butter was selling generally this morning at 45 cents a pound and was very plentiful, as was the supply of eggs and fowl. Eggs were priced from 38 to 43 cents a dozen. Hens were 33 cents a pound, and chickens 33 and 40 cents. Ducks were 30 and 35 cents a pound.

Honey was selling at 13 and 15 cts. a pound.

Big pears in 11-quart baskets were 75 cents, crabapples in the same-sized containers were 30 and 45 cents, blue plums were 60 cents and greengages were 15 cents a quart. Little green 'sugar plums' were 10 cents a quart or 50 cents in 6-quart baskets. Red plums were 75 cents for 11-quart containers.

Potatoes were 25 cents a peck and $1 a bag. Onions were 45 cents a peck, gherkins and cucumbers were 60 cents in 11-quart baskets, and tomatoes were 45 cents. Corn was 15 cents a dozen.

Cantaloupes sold at 30 cents apiece, and melons in 11-quart baskets were 80 cents. Elderberries were 50 cents a large basket and blueberries were 25 cents a quart.

St. Lawrence and Yellow Transparent apples were 50 cents a peck and Duchess apples sold at 25 cents a peck.

Red peppers were priced at 40 cents for a large basket.

MURDER FARM IS REVEALED IN CALIFORNIA

Boy Held Prisoner There Says Four Others Were Killed.

GRAVES OPENED.

No Bodies Found, But Evidence Points To Use of Quick Lime.

LOS ANGELES, Calif., Sept. 15. — (Canadian Press).—The story of a "murder farm" near Riverside, California, on which four boys met their deaths, as told by a 15-year-old prisoner at the place, was declared by police to-day to have been verified at least in part, by the inspection of the graves on the three-acre ranch. No bodies were found, but indications were that bodies or other objects had been removed or had been treated with quick lime. A boy's hat was found in one of the graves.

After hearing the story of Sanford Clark, 15, who declared he was kidnapped from Saskatchewan two years ago by George Northcott, 57, owner of the farm, police arrested the latter and are searching for his wife and 21-year-old son. They are believed to have fled to Canada. Young Clark told the police he had been forced to aid in killing one of the four boys he says were slain in the last two months. He gave the names of boys who have been missing for several months.

TWO AUTOS DAMAGED

Crash at Hunter and Stewart Streets Causes Much Harm.

BOTH BADLY BROKEN.

A serious collision occurred at the corner of Stewart and Hunter street about one o'clock to-day. A light touring car driven by J. Doige of Plansville and owned by Hilliard Doige of the same place was coming north on Stewart street when a car driven by Harold Beavis, R. R. 4, Peterborough was coming down the hill. According to Beavis he did not have a chance to avoid a collision as Doige darted out in front of him. The result was two damaged cars. Doige's car suffered the least of the two with a broken right rear fender and a punctured tire, while Beavis' car showed the worst of the impact with a broken steering gear and axle, shifted spring and general damage around the front. Magee's garage looked after the damaged autos.

HORSE TUMBLES DURING JUMPS

One of Frank O'Connor's Horses Throws Rider Heavily.

The spectators were given a thrill on the grandstand at the Exhibition grounds when the jumping horses were performing. British Consul number 1, owned by Frank O'Connor and ridden by Gordon Rogers, was making a nice showing and had cleared the hurdles at the back of the ring in fine style, but at the last hurdle at the front of the ring the horse failed to clear, catching his front legs on the obstacle and throwing the rider over his head. Rogers fell on his shouldres but was not injured. The horse took a temporary fright and ran out of the ring, scaring the other horses which were held by their attendants, and was finally caught a little way from the exhibition ring. The horse was uninjured .

Apple Tree Bears Fruit and Flowers

HAVELOCK, Sept. 15.—While driving on the Cordova Road this week, Mrs. C. F. Steenburgh noticed a tree bearing apples and also apple blossoms, near the road on the property of Frank Varty, about three miles east of here. She plucked blossoms and fruit from the same limb. The apples were small and a very hard variety.

CHILD WHO SOLD LIQUOR FREED; OBEYED MOTHER, COURT FINDS.

NEW YORK, Sept. 15.—Federal Judge Clayton of Brooklyn dismissed a charge of selling liquor against an eleven-year-old girl on Thursday, with the remark that she had done nothing more than to obey the commandment, "Honor thy father and mother."

Olga Rebecca and her mother Anna, who conducts a stationery store, were arrested after police of the Ninth Division bought a bottle of home brew from the girl. She was alone in the store under orders to mind it until her mother's return. When Mrs. Rebracca returned the police seized a small quantity of whisky in the store. The mother was charged with possessing liquor and corrupting the morals of a minor. She was fined $10.

"I shall dismiss the charge against you," Judge Clayton said to Olga. "The United States Government is not anxious to persecute little girls. You carried out the commandment, 'Honor thy father and mother,' by staying in the store as your mother told you. That is your only offence."

PETERBOROUGH WILL GO ON AIR

Hour of Music Will Be Provided With Talks About City.

OVER STATION CKGW.

Wednesday evening Sept. 26th or Oct. 17th, is to be known as "Peterborough Night on the Air." Radio fans all over the North American continent will have the opportunity of hearing all about the Kawartha Lakes, Trent Waterway, City of Diversified Industries, together with a specially selected program of musical numbers, through the courtesy of the Satin Finish Hardwood Flooring, Limited, broadcasting from station CKGW, Toronto.

The Chamber of Commerce, in cooperation with Tobias Fredenburg, Peterborough, agent for the Satin Finish Hardwood Flooring, Limited, has been endeavoring for some time to secure a broadcast night for Peterborough. Their efforts have been crowned with success and quite possibly on the evening of September 26, or certainly during the evening of October 17, Peterborough will be "on the air."

The Chamber of Commerce intends that the broadcast will be enjoyable, educational and successful. Publicity concerning Peterborough's many tourist attractions, its industrial advantages, its educational facilities and other associations, is now being prepared by the Chamber of Commerce staff.

A large number of requests have been received from local radio fans asking that their favorite numbers form part of the musical program. These selections are now being carefully considered and the musical program will be announced in The Examiner within the next few days. In the meantime it is suggested that all fans desirous of hearing special selections should send in their requests promptly in writing to the Chamber of Commerce, 358 George street, or to the Dorothy Allan Park Studio, 332 Rubidge street. Mrs. Park, who has on other occasions been heard over the air, and who is well known at Station CKGW, has consented to give the Chamber the benefit of her talents and experience in forming the program for Peterborough's "Night on the Air."

The Satin Finish Hardwood Flooring, Limited, uses Station CKGW, Toronto, one night each week. One of their weekly programs is to be devoted to Peterborough, a tentative date being set at Sept. 26, and this "All Peterborough Night" affords an opportunity to Peterborough and district, as well as other radio fans all over Canada and the United States, of hearing anew the many attractions and advantages which make Peterborough a genuine paradise for the vacationist, an ideal spot for the tourist and a worthwhile home for the citizen.

Full announcements as well as confirmation of the evening of broadcasting will appear prominently in a later issue of The Examiner.

KIDNAPPING CHARGED.

Godfather Acted As Go Between in Negotiations For Ransom.

CHICAGO, Sept. 15 (Canadian Press).—A charge of kidnapping was placed early to-day against Salvatore Mastroianne, godfather of 10-year-old Billy Ranier. Mastroianne confessed, police said, that he had acted as go between in the negotiations involving the payment of $60,000 ransom demanded for the safe return of the child.

Provinces Submit Cases

Voluminous Documents Entered By Ontario and Quebec —Others Briefer.

DOMINION ANSWERS.

Question Will Be Settled By Supreme Court After Hearing Arguments.

(Special to The Examiner.)

OTTAWA, Sept. 15. — In the Supreme Court of Canada to-day—the last day in which it could be done—factums were filed by the Dominion and several Provincial governments in the big power reference to be argued before the court, starting the first Tuesday in October. The submissions, which are voluminous and technical, are fine exhibits of the "dry abstrusities of the law."

The reference is to determine the relative rights of the Dominion and the provinces in respect to water powers on navigible waterways. The issue is approached from various angles through ten concrete questions. The factums discuss the board question and then take up each query, seriatum.

The main submissions are by the Dominion and Ontario and Quebec, though Manitoba, Saskatchewan and British Columbia, put in an appearance. Alberta and the Maritime provinces are apparently not taking part, save to watch the case.

Apparently the authority of the Dominion over navigation is not at issue. Rather, the vital dispute is over the ownership of surplus power, developed from works connected with or for the improvement of navigation.

The Dominion brief is a monumental work of about 150 pages, much of the matter being citations from decisions of various courts held to have a direct bearing on the case.

While there are various submissions regarding each specific question the essential kernel of the Dominion case seems to be in the contention that, when it constructs work for the improvement of navigation, and from such work surplus power is developed such power belongs to the Dominion, without the necessity of consulting or compensating the province.

Several of the decisions cited are from the United States courts and while not ruling cases, are used for purposes of argument, the situation and problems of the two countries respecting water power developments having much in common.

The Ontario factum submits generally that water powers in rivers which unquestionably belonged to the province before the passing of the B.N.A. Act, remain vested in the province in the absence of any specific enactment in the British North American Act transferring them to the Dominion. It is further contended that the Dominion "has no legislative jurisdiction under the section, or any other provision of the British North American Act to deprive the provinces of their proprietary rights in water powers."

In a discussion of the various questions in the reference, Ontario, among other things, holds that nowhere in the British North American Act, is the Dominion given power or authority to engage in the business of developing power; while it is further claimed that the Dominion has no right for the purpose of developing power, to use, assume or expropriate provincial water powers, they being the property of the provinces, it is held that the provinces have complete power to deal with them as owners.

The other cases submitted by the other provinces intervening, are very brief and in line, generally, with the claims of Ontario and Quebec.

HITS PEDESTRIAN; MAKES ESCAPE

Hit and Run Motorist Sought By Police—Victim Badly Hurt.

LONDON, Sept. 15 (Canadian Press).—The victim of a hit-and-run driver, Henry Dixson, 57, of Toronto, is in hospital here in a critical condition as a result of being run down on the Woodstock-London Highway at two o'clock this morning. County police have a good description of the driver of the hit-and-run machine and his arrest, they say, is a certainty.

Although Dixson has not been able to give any details of the accident it is believed he was walking along the right side of the highway when he was struck by a car about four miles east of Crumlin. Motorists found him lying unconscious on the road.

When frightened, rabbits stamp several times on the ground with their hind feet, making a sound which can be heard a long way off. This is a danger signal to fellow rabbits who scamper off to safety.

CAMPBELLFORD CELEBRATES OPENING OF PAVED STREETS

Four Miles of Paving Laid in Town This Summer Finally Opened.

MANY SPEECHES.

Grand March and Dance Follow Formal Part of Evening of Jubilation.

(Examiner Staff Correspondence)

CAMPBELLFORD, Sept. 15. — The tumult and the shouting dies and Campbellford goes on the map as a town where good roads prevail and every accommodation is given the visitor whether on pleasure or business bent. Gaily lighted and decorated streets thronged with hundreds of people marked the opening of the four miles of pavement which Campbellford has laid this year and which is the first to be put down in the town. It is a far cry, from the deeply rutted mud roads to the present smooth surface of the modern pavement, but Campbellford can now boast of streets which are second to none in the dominion. This fact was brought home to the civic officials and citizens of the town by a host of speakers ranging from members of parliament right down to the men who were directly responsible for the actual laying of the pavement. Everyone seemed to be enjoying themselves and at two in the morning there were still crowds on the streets.

On the speakers' platform were M. E. Maybee, M.P.; Dr. Robertson, M.P.P.; Mayor Kingston; Warden Davidson; Major the Rev. James Belford, ex-M.P.; Austin Fellows, Government Road Engineer; George Greer, County Road Superintendent; William Grills, Reeve of Seymour; Deputy Reeve Peake; Dr. Wilson, Reeve of Hastings; Frank Elliott, Reeve of Murray; F. J. MacArtur, Cobourg; Walter Fowlds, Hastings; John McCubbin, ex-Warden of the United Counties; the Rev. N. Clarke Wallace, representing the Ministerial Association of Campbellford; the Rev. R. C. Tait; the Rev. Mr. Smith; Councillor Stone; H. A. MacIntyre, engineer; and A. A. Shaughnessy of the Standard Paving Company.

Mayor Kingston

In introducing the speakers, Mayor Kingston dealt briefly with the paving from the time the idea was first conceived, some years ago, up to the present time when the work was completed. He said that the town was blessed with a splendid river which provided an asset such as few towns in the province possessed a municipally owned power plant. A few years ago the new high school had been built and it had been predicted that the town would be sunk financially. The same had been said when the sewers were being installed. It had also been mentioned in connection with the paving, but all had proved a decided asset to the corporation and it was expected that the paving would be the same. In spite of all this expenditure the tax rate had remained at forty mills. In his opinion the pavement was good and substantial and was the work of competent engineers and men. The first duty of the town was to perform the official opening ceremoney.

Austin Fellows

Austin Fellows, government road engineer, was the first speaker to address the assembled crowd. He spoke highly in favor of the pavement and as the representative of the Provincial department of Public Highways, was very much pleased with the work. He had been a frequent visitor to Campbellford for the last three years and claimed that he saw more people in town last night than he had seen altogether on all his previous trips.

Eighteen minutes to nine o'clock arrived and M. E. Maybee, M.P., accompanied by Dr. Robertson, M.P.P., and escorted by the Warden of the Counties, and Mayor Kingston, opened the streets by cutting the red ribbon which formed the official barricade.

Warden Davidson.

Warden Davidson was the next speaker. Applause greeted the popular favorite of the town and as he rose to speak the crowd sang "For He's a Jolly Good Fellow." The Warden's remarks were brief. He expressed his pleasure and satisfaction with the finished job and reminded the people that there had been much work attached to getting the grant and work done. This had been going on for the last five years. He hoped that there would be more pavements laid as the seasons passed. That all present would enjoy themselves was his wish.

M. E. Maybee, M. P.

M. E. Maybee, M. P., expressed his pleasure at being present and asked to speak at such a momentous occasion. He had been asked to speak at Cobourg, he said, but had forgone the pleasure in order to be present at the function in Campbellford. The ceremony last night was another milestone in the progress of the community he said. It was an age of progress and he was well able to recall the changes in the town during the last few years. When he first knew Canada he had been in the habit of visiting the town once in three weeks. Now it is not uncommon for a person to come to town three times in one day.

The town, he said, is situated in the centre of the finest county in the province of Ontario. It offered the cheapest power in this section of the country, and this would be a great drawing card in attracting new industries. The canal is also an asset in spite of the remarks that had been made from time to time to the contrary. It is one of the finest water routes in the country from a scenic, sporting and power development point of view. In closing Mr. Maybee congratulated the officials and the citizens of the town on the fine work that had been done here.

Mayor Kingston, before introducing the next speaker, said that the town was glad to co-operate with Cobourg. He also reminded the citizens that two citizens of Campbellford had won medals at the Toronto exhibition, and that the tennis club had won two championship cups

PRESIDING OFFICER.

GEORGE A. KINGSTON,

Mayor of Campbellford, who presided over the celebration last night as he did over the meetings of the Council in which the paving program was considered.

BUSINESS POLICY TALK NO. 8

(By H.E.M.)

SAVING MONEY ON PRINTING

Some Pointers That Save You Money and Help the Printer

YOU can save money on your printing if you will be sure that your copy is correct and typewritten before turning it over to your printer.

This procedure will practically eliminate changes and corrections after the job is in type. This means that the most costly item in printing (labor) is reduced to the minimum and you make the saving thus made.

If you cannot prepare your copy yourself, we will gladly write it for you and submit it for your approval in typewritten form before proceeding with the work.

We will also submit sketches for covers with appropriate wording, ornamentation and design.

There are many short-cuts in printing that a competent printer can point out. We make a special study of each customer's needs and give him the benefit of our large and wide experience. We know because it is our business to know, and we feel that we are not giving dollar for dollar value unless we do this.

If you will call at the office personally or telephone 1600 for a representative to call (always without obligation) we will be glad to tell you how you may save money on the printing for your particular type of business.

"We give the same treatment to one and all."

The subject of our next talk will be, "Real Service to One and All."

CLAIMS HOOVER IS EASY WINNER

Republican Party Will Carry Even Strongholds of Tammany.

ROOSEVELT GIVES VIEWS.

CHICAGO, Sept. 15. — Col. Theodore Roosevelt yesterday predicted an overwhelming majority for the Republican national ticket in New York state.

"Maine was only a straw in the wind," Roosevelt said. "You will see the biggest upstate Republican vote ever recorded in New York state. You will see a tremendous vote for Hoover in the very heart of the district Tammany counts as its own."

Roosevelt conferred with western leaders over an itinerary for his middle west and mountain state campaign tour to start September 30.

Campbellford

(Examiner Staff Correspondence.)

CAMPBELLFORD, Sept. 15. — Euchre, under the auspices of the Catholic Women's League got off to a good start last night when there were twenty tables of players to begin the play. Lunch was served by the ladies of the league. The prizes were presetned by the Rev. Father Phelan, who availed himself of the opportunity thus offered to speak a few words of welcome to those who had come and express the hope that they had all enjoyed a very pleasant evening. Father Phelan also announced that there would be a second euchre party of a similar nature on Thursday evening, September 27th.

Those whose skill and good luck were responsible for their success were George O'Sullivan, gentlemen's lone hands, and J. J. O'Sullivan for games. The ladies' prizes were won by Mrs. Mary Keenan, games, and Miss Clyta Sarginson, lone hands.

This is the first of a series of euchre parties, which the C.W.L. usually hold during the winter months. The League occupies the second storey of the Herald block, which they have furnished in a most impressive manner. It is in these rooms that the euchre parties are held.

MARMORA WOMEN WILL HAVE BOOTH

Institute Meeting Featured By Debate On Child Life.

MARMORA, September 15. — A splendid meeting of the Marmora Women's Institute was held at the home of Mrs. (Dr.)) D. Thomson, on Wednesday. Inclemency of the weather had little effect on the attendance, a good number of members answering the roll call with some excellent samples of their favorite recipe. Much interest centred in the debate, "Resolved that environment has more influence on a child's life than heredity." Mrs. W. A. Sanderson's paper opened up the affirmative side of the question, while Mrs. W. F. Bowen's paper sponsored the negative. Able discussion following the matter fifty-fifty. The Institute has decided to run a refreshment booth at the fair grounds on fair day, Sept. 18. Last year in that way over forty nine dollars was raised. The October meeting is to be held at the home of Mrs. M. S. Doupe, with the secretary, Mrs. F. R. Wells and Mrs. Clifford Jones in charge of the program.

Mrs. Douglas Sanderson spent Thursday at the Peterborough Exhibition.

The Ladies' Aid met on Thursday afternoon at the home of Mrs. (Dr.) D. L. Curtis.

Mr. K. Buchmann has returned from his holidays.

Miss Bernice Bonter was in Peterboro on Thursday.

The House of Lords, England, may transact certain business when there are only three members present, not necessarily including the Lord Chancellor.

L. H. Newman, Dominion cerealist, estimates that within three years western Canada will have a rust-resistant wheat which will grade as high as the varieties now being grown.

Healthful Exercise

Out in the open air you forget the worries and cares of the household, the anxiety about your health and the dread of the future which comes to so many people whose nerves are exhausted.

If along with moderate exercise and rest you persist in the regular use of Dr. Chase's Nerve Food, you will find yourself daily gaining in strength and energy until you are fully restored to health.

Every nervous sufferer has his off days, but improvement is bound to come with the use of this restorative treatment. You will sleep better, enjoy your meals and forget to look on the dark side of things.

Dr. Chase's Nerve Food

The greatest of nerve restoratives

WORKED FOR PAVING GRANT

WARDEN C. H. DAVIDSON.

REEVE J. M. BYGOTT.

Campbellford's representatives on the Council of the United Counties of Northumberland and Durham did a great deal of work in getting the grant towards the paving program carried out in the town this summer, when four miles of pavement were laid.

INDIANS BEGIN RICE HARVEST

Crop Plentiful Along Shores of Trent River This Year.

(Examiner Correspondence).

TRENT RIVER, Sept. 15.—The Indians from Rice Lake are harvesting the rice crop, which is plentiful down the shores of the Trent.

Mr. Trueman Dunn is recovering from his recent prolonged illness.

Mr. Jack Garneau, eldest son of Mr. Oliver Garneau, has gone out west for the harvesting.

Mr. and Mrs. A. H. McKeel and son Ernest have returned to Campbellford after summering at "Waterside."

Mrs. James Dickson and grandson, Dickson Dawson, returned to Campbellford Thursday from "Bonnie Bank."

Mr. J. Garrett, of Toronto, and daughter, Mrs. Finlay, and little daughter, Yvonne, of Windsor, are at the former's cottage.

POULTRY EXHIBIT WINS HIGH PRAISE

Judge Says Quality Is As High As In Any Show He Has Visited.

The poultry exhibit at the Peterborough Exhibition is one of the best in the fall shows in the province, according to A. W. Tyson of Guelph who judged the poultry. Mr. Tyson is a government judge travelling all over the province judging poultry and he and A. E. Field-Marshall were chosen to judge the poultry at the Peterborough fair. Mr. Field-Marshall had a bad heart attack just as he commenced to judge and had to go home so the burden of the whole work fell upon Mr. Tyson who carried out the work in a most satisfactorily manner and with such speed that they were able to finish early.

Mr. Tyson, before judging here this week, had been at the London Exhibition judging poultry and asked by The Examiner how the exhibits in the two fairs compared, said that the quality was every bit as good, though the exhibit was not as large, and in the waterfowl class it was the best he had judged any place this year.

He expressely emphasized the quality of the poultry in all varieties and classes and made special mention of the Bantams and Games.

Director Paxman was highly satisfied with the exhibit and especially the production classes, which are something new on the prize list.

STRANGE STORM WREAKS HAVOC

Wind Lasts Only Two Minutes But Does Much Damage During Passage.

IN RHODE ISLAND.

PROVIDENCE, Rhode Island, September 14. — Canadian Press. — Chain lightning, rain that was almost a cloudburst, hail stones as big as marbles, and a gale of tornado fury, struck Rhode Island in separated areas last night and left an erratic trail of destruction. A freak wind of barely two minutes' duration lifted roofs and chimneys off houses, hurled piazzas in the air, uprooted trees, and felled telegraph poles.

THE LUCKY ONES GET THEIR HOLIDAYS IN SEPTEMBER

Anyone who is fortunate enough to have selected September for their vacation will find in the Highlands of Ontario, a "late holiday" land beyond their fondest expectations.

In this lake district September is an ideal holiday month. The leaves are just beginning to take on the vari-colored hues of Autumn. The air is fresh, crisp and invigorating an excellent tonic for tired nerves.

At the numerous resorts dotted along the lakes there is excellent accommodation. Many offer specially reduced rates to September visitors. At each resort you will find a variety of ways to enjoy the early Autumn out-of-doors.

Any Canadian National Agent will gladly give you literature and full information on resort hotels, rates and fares.

10-15.

Train Kills Bear East Of Kalador

(Examiner Correspondence.)

HAVELOCK, September 15. — When freight engine No. 3744, hauling a train of forty cars from Smith's Falls, arrived here about 2.40 o'clock on Friday morning, the cow-catcher was carrying the front quarters of a large bear which was struck as the train came around what is known as Devil's Elbow, between Ardendale and Kaladar. The animal was cut in two and its head was also taken off.

The crew were Engineer Reed, Fireman Stinson, Conductor W. Backus, and Brakesman A. Mathison, of Smith's Falls.

The herd of 709 buffalo bought in 1907 by the Dominion of Canada in Tablow, Mont., now numbers 16,000. Most of them are roaming the wilds in the Fort Smith District in the nort h

GORDON McLEOD, IN "MISS ELIZABETH'S PRISONER," COMING TO THE GRAND, SEPTEMBER 20TH.

NEW STAMP IS ISSUED

Carries Words Upon It In Both French and English.

FOR AIR MAIL.

OTTAWA, September 15. — The new aerial mail stamp is the first regular stamp to be used bilingually in Canada, although a special issue on the Confederation Jubilee was in the two languages. The new five-cent stamp, the post office department announces, will be ready for issue at all city post offices on the twenty first inst., and at the other post offices as soon thereafter as possible.

Design of Stamp.

The stamp will be printed in sepia, and will bear a design as follows: Map of Canada on a globe, with two female figures joining hands over a panel bearing the word "Air," at the top of an airplane; at the bottom figures five and with the word "cents" between. This special air mail stamp will be used to prepay all classes of air mail at the rate of 5 cents for the first ounce and 10 cents for each additional ounce, for convenience over the following air-mail routes: Montreal-Toronto, daily, except Sunday. Montreal-Albany, U. S.A., and over any air mail rote in the United States.

Ordinary Stamp Used.

Ordinary Canadian postage stamps may also be used in Canada to prepay air mail for convenience over any air mail route in Canada or the United States, but in all cases covers should be conspicuously endorsed "via air mail." This air mail rate covers ordinary postage, but fees such as registration will be additional.

FALL FAIR DATES.

List of Ontario fair dates in the Central Ontario district, issued by the Agricultural Societies Branch of the Ontario Department of Agriculture:

Peterborough	Sept. 10-15
Bancroft	Sept. 26 and 27
Bobcaygeon	Sept. 28 and 29
Campbellford	Sept. 27 and 28
Coe Hill	Sept. 19 and 20
Fenelon Falls	Sept. 24 and 25
Frankford	Sept. 20 and 21
Haliburton	Sept. 27
Kingston	Sept. 11-14
Kinmount	Sept. 18
Lakefield	Sept. 25 and 26
Lindsay	Sept. 19-22
Madoc	Oct. 2 and 3
Marmora	Sept. 17 and 18
Millbrook	Sept. 17 and 18
Minden	Sept. 25
Norwood	Oct. 9 and 10
Oshawa	Sept. 11-13
Port Hope	Sept. 25 and 26
Roseneath	Oct. 11 and 12
Stirling	Sept. 25 and 26
Tweed	Sept. 20 and 21

Used in thousands of homes daily. Softens water. Makes dish washing easy. Cuts grease. Cleans pots and pans. Whitens clothes. Try it in your bath. 10c. a pkge., 3 for 25c.

Snowflake

Use it in the kitchen, bathroom, laundry.

JUNIOR SOCIETY HOLDS MEETING

Stories of Kindness To Animals Read By Members of Branch.

The Junior Humane Society held its weekly meeting in St. John's Parish Hall on Thursday, Sept. 13.

The president, Miss Freida Kilcher was in the chair. The opening song was "The Marching Song". The pledge was repeated after the singing of this song.

The members sang "Ring the Bells of Mercy."

Miss Lily Bull, a favourite soloist of the society, sang very sweetly.

A story entitled "The High Road and the Low Road" was then read by Warren Turner. This was a story of the experiences of a deer family with hunters, two legged and four legged. It pointed out the misery hunting causes the deer and other animals.

Donald Howson, one of the society's best speakers on care and life of birds and beasts read an article "About Dogs" which contained many good pointers for their proper care and treatment.

The roll call proved that the society could not stand the competition of Peterborough's big fair. There were only 14 present. "Out of over 2,000 Public and High school and Separate school students eligible for membership and to attend these meetings the showing is not satisfactory" the members feel, and they wish to be known that everybody between 10 and 18 years of age is invited to take part in this work.

It was moved by Warren Turner that: The Senior Society (through its treasurer) be requested to present the Junior Socley with a statemen of its debt to the former society.

That the press secretary be given a note book in which to take down the reports for the press. Both these motions were carried.

Donald Howson moved and G. Millet seconded a motion to provide for the keeping of a list of the guests of the society.

The treasurer reported a balance of $18.22.

Bailieboro

(Examiner Correspondence)

BAILIEBORO, Sept. 12.—Among the young people of this district who are attending high school away from home are Miss Margaret Brown, Messrs. Ray Barnard and Bert Gainer. All three are attending the Port Hope Collegiate Institute.

Miss Kathleen Bateman and friends of Toronto were the guests on Sunday of Mr. and Mrs. W. Bateman.

Mr. Aylmer Dawson was a visitor to Toronto Exhibition last week.

Messrs. Ross Moncrief and W. E. Thompson visited the Canadian National Exhibition on Saturday.

Word has been received from the boys who went west to assist with the harvest that they have secured steady work in Alberta where the crops are excellent.

Mr. and Mrs. George Fletcher attended the C.N.E. last week, returning home on Saturday.

Mr. and Mrs. Robert Harper and family were visitors to Peterborough on Thursday.

Mr. Vincent Jewison of Oshawa is the guest of friends in the vicinity.

Mr. and Mrs. Harry Barnard motored to Toronto on Saturday.

Miss Loretta Barnard left for Allenburg on Monday where she has accepted a position as primary teacher on the Allenburg school staff.

Mrs. J. McCaw of Welland visited friends in the village on Friday.

Dr. B. J. and Mrs. Greer of Toronto and Miss Grace Greer of Peterborough visited friends in the vicinity last week.

Miss Lilian Ball of Bridgeburg is teacher at the local continuation school, while Miss May Earl is again teacher in the public school.

Miss Dot Byers and friend of Ottawa were the guests last week of the former's parents, Mr. and Mrs. Levi Byers.

Rev. Mr. and Mrs. Swain and daughter, Marjorie of Fraserville were the guests of friends in the village on Friday.

Miss Irene Dawson, who has been spending the summer at Muskoka has returned to her home.

Mr. Edmund Morrison is moving onto the farm owned by Mr. Robert Falls.

"Wonderful!"

ALL over Canada, the new 1929 McLaughlin-Buick has met with an ovation such as no previous McLaughlin-Buick model has received.

New masterpiece Bodies by Fisher marking the highest degree of dashing, debonair beauty ever achieved by the world's foremost builder of automobile bodies!

Thrilling new abilities — resulting from sweeping advancements in the world-famous McLaughlin-Buick valve-in-head engine!

New acceleration like a shot from a gun . . dazzling new top speed . . a mighty increase in power in what was already the most powerful automobile engine of its size in the world!

And gorgeous new colors—sumptuous upholsteries—new adjustable front seat in the closed models—full-width rear seat providing plenty of room for three adult passengers—new appointments and conveniences never before known to motor car practice!

"Wonderful" is the country's verdict on the new 1929 McLaughlin-Buick!

GREAT SERMONS
BY GREAT MEN

The Story Of Nain

VERY REV. C. J. VAUGHAN, D.D.,
BY DEAN OFLLANDOFF.

Luke vii, 11-15. "And it came to pass the day after that He went into a city called Nain; and many of His disciples went with Him, and much people. Now when He came nigh to the gate of the city there was a dead man carried out, the only son of his mother, and she was a widow: and much people of the city was with her. And when the Lord saw her, He had compassion on her, and said unto her, Weep not. And He came and touched the bier; and they that bare him stood still. And He said, Young man, I say unto thee, Arise. And He that was dead sat up, and began to speak. And He delivered him to his mother."

Nothing can be more simple, quiet and unassuming than the form and style of this story. The entire want of assumption and of high-coloring are strong, though indirect, proof of its truth. Truth is always unassuming, and yet, simple as it is, how pictorial it also is and pictorial from the extremely natural way in which the little incidents are introduced, such as we cannot conceive to have been detailed by any one who had not witnessed the scene with his own eyes. The ring of truth is in such expressions as the touching of the bier, the man beginning to speak, and the delivery of the son to his mother by Christ. Add to this, to make it still more a picture, the scenery by which it was surrounded, set it in the frame that nature made then for it.

The village of Nain, as in the plain. To the northeast rose Mount Tabor, sweeping in a semi-circle and quite alone into the midst of the plain. To the northwest the great mass of Mount Carmel filled the sky. Further to the north rose the snowy peak of the great Hermon, and all around were corn and vines and olive and fig gardens, and the wind blowing freshly over Mount Tabor, as it always blows to this very day; exactly in front the village of Nain sparkling in the sunshine, standing among the trees and copses of the low and grassy slopes of little Hermon. A crowd, as usual, followed Christ along the road, and as He drew near to Nain, another crowd was at the gate. The open bier carried in front showed it was a funeral, and behind was the mother of an only son "and she was a widow." The two crowds met and filled the road: and when Jesus saw the weeping woman, His human heart was touched. It is possible that backwards many years His memory may have travelled, and have recalled the sorrow of His own mother when after three days of anxiety, she saw her first-born, her only Son, once more after being lost in the Temple courts of Jerusalem; and from that memory His compassion may have taken a deep or more comprehensive glance into the sorrow of this mother. He touched the bier; the bearers stood still: the simple word was spoken to her, then to him, and the man arose and spoke.

We will speak of some lessons we may draw from the story.

First, the words of His consolation were simple, as all consolation ought to be. In the midst of many, this weeping woman was quite alone. Others with her may have wept, but their tears were tears of sympathy; hers were tears of loneliness. Their sympathy could not sound the profound ocean of her sorrow—she was quite solitary, she stood alone in the desert of life. There had been one well of living water beside which she had rested, one solitary palm tree beneath the shadow of whose tenderness she had hoped to spend the evening of her years—her only son. Now the well was dried up and the palm tree withered, and it was grief intensified by the words of comfort from her friends—a grief, too, intensified by the crowd around her. The very multitude that surrounded her only reminded her all the more of her desolate home, and of one who was a multitude to her. It was then, in the midst of this impassioned grief, that she met Christ—met "the Man of sorrows and acquainted with grief." She saw upon His face the reality of His compassion the full understanding of her grief. She felt no longer quite alone: another heart had touched hers with the invisible force of silent attraction which, belonging to all mankind, belonged in the greatest conceivable manner to the greatest and the highest man. The words of others had been many: Christ's were few; but the "Weep not" echoed in the woman's heart; there was in it infinite pity, mingled with a strange and cheering tone, which gains hope, and made her lift her head with delight. That is the consolation of Christ—short, deeply felt, impassioned, inward, silent sympathy, unobtrustive, voiceless, heard in the stillness of the heart passing by all outward forms of feeling down to the centre of grief, and with a strange and entire comprehension of every individual heart that trusts it. Every form of human compassion is purely and nobly entered into; every phase of human feeling and thought are fully comprehended in all their detail. As he who has seen and obeyed the great principle, "Love thy neighbor as thyself," has comprehended in the one principle every conceivable phase of the duty of one man to another, so there is no such thing to those who cannot understand and feel His love and sympathy as real nobleness in life. You may have as unique a character as can be in this world—unique in feeling, or unique in thought; still there is a divinely-human consolation and comprehension in Him in whom all humanity was concentrated. Such should be, as far as we could make it, our way of consolation. Too much talking spoils comfort: better nothing given to a man whose heart is breaking with pain than the commonplaces which are additional wounds to real grief—well meant, indeed; but what chaff are they to a spirit dying of the awful hunger of sorrow! Give rather few words, like "Weep not"; but let them be crowded with the infinite of feeling; let them come out of intense compassion and love, comprehending the misery because you have forgotten yourself—that will console. Heart to heart is then felt. It is not in the words—it is in the spirit, the eyes, the tone, the pressure of the hand: and if the heart behind be true, then your consolation is felt as the comfort of Christ was felt by the woman.

And, again, Christ put this compassion of His at once into action. No sooner had the feelings of pity arisen within Him, than He came forward and touched the bier—did what He could to help the woman. That is a deep lesson to us, though a commonplace one. Wishing well to a person as a charity is worth absolutely nothing unless you do well also. It is like standing in a neglected and stony field, and mourning over its condition without ever attempting to plant anything; and yet that is what we are continually doing in everyday life; we are content to pity, and no more—to sit in our comfortable chair, indulge in weak and sentimental compassion, and never sacrifice a single pleasure or a single advantage to help practically the sick and the weary in this world. What a life all that is; and what an absurd self-deception it is to call ourselves Christians if we never, like Christ, come forward and touch the bier. These are the things which are the test of Christianity. We have a few shillings to spare. There is a little petty luxury we have long wished for, or fresh pleasure that we desire to taste and our well-spared money will buy it. Well, shall we give it to ourselves, or help the sick and heal the wounded whose story has been brought to our doors? Shall we give up the pleasure and act like Christ, or pass by the bier and leave the widow to lament alone? Oh! go forward and touch the bier: put your pity into action. Your gifts will not be wasted. There are hundreds in this town carried out like a corpse to their burial,—poor souls, tortured by pain, sleepless at night, suffering as we have suffered, and shall suffer; at home many a widow mourning the loss of her sole support, many a wife before God, calling to Him to spare her husband's life, many a mother weeping bitter tears to Him, and asking Him to restore her child: and one piece of your gold, or one hour of your time sacrificed for Christ's sake may often help, with God's blessing, to change sorrow into joy. You, too, may, like your Saviour, deliver the son of the mother. Remember then, that He who is to be your Judge has made such charity as this—or such want of charity—the test by which He will condemn or reward at the last; but He makes love to the sick love to Himself, and want of it to those who are sorrowful, neglect of Himself. "Inasmuch as ye did it unto one of the least of these My brethren, ye did it unto Me."

The third thing that comes out in the story is the consciousness of Divine power in the mind of Christ. No man who was a stranger would have intruded upon a mother's sacred grief. For Him it would have been an insult to stop the bier. We cannot conceive of Christ doing this simply for the notion of mere interference. But, on the other hand, He was not exactly in the position of a stranger: He was recognized as a great Prophet by many in Jerusalem: He was well-known over Galilee as one who helped the body, and when He touched the bier, wild hope, like a ray of stormy sunshine, must have gone through the heart of the mother. He must have known He was exciting that hope, and knew that the result of disappointing it would be to plunge her into deeper grief than before: and for both these reasons He would not have stopped the bier, unless He had been conscious of power to do what He did.

Contrast His consciousness of Divine power with His lonely, sad, and hidden life. A carpenter's son, "not where to lay His head" hunted by His foes His friends unlearned and ignorant men, and yet feeling that within Himself He could master disease! And then add to this the marvellous restriction which He Himself laid upon this human power of His. Not once for the sake of ostentation, or to curry favor with people, did He use it; not once for Himself did He endeavor to step out of His humanity, and use these means to satisfy His own natural wants, to help His own natural infirmities; but always for lofty ends; always for profound, moral, and spiritual ends did He use that power He was conscious of possessing. That is the fourth thing we observe. Now I pass on to touch briefly upon the spiritual lessons to be drawn from the miracle.

The first is, that often in the midst of death we meet the true life. It is often when our dearest has died that we meet Christ at the nearest; often when death and danger come to us that we have the clearest knowledge of the life to come and of the rest to come, for then the world fades away, and we are thrown wholly upon God and upon heaven, just as by the law of compensation in this life one thing is weighed against another. Life is not all loss—outward loss it is true—but inward gain if we be true men. Friends go, and we see them no more; but the affections that have been trained by friendship deepen within the soul; the heart passes onward from the manifold affections of the earth; there is a perfect unity of love towards one who is father, and friend and husband and brother, all in one. Our best loved one dies, but our loneliness becomes peopled, as it never was before, by the infinite presence of God. The outward man decays; the inward man is renewed day by day. Our prosperity and wealth may be shattered at a blow; but the unsearchable riches of Christ are given to us if we be faithful. Death comes to entrance into that deep stillness whence no voices ever whispered even one secret, and yet he who follows Christ can calmly say, "This is life." These Christian contrasts are the deep blessing of the martyr. All is not lost when we follow, as the widow followed her son, the well-loved dead, and engage in the sad services of our Church. There are in it words of solemn faith and profound joy. In the awful calm in which we stand at the churchyard gate, there fall from the lips of Christ's minister Christ's own triumphant words, "I am the resurrection and the life," and though the dead rise not up and speak, yet we know for them, indeed, it is well; it is well that they should wait to meet us until we are rendered more fit to share in their immortal birth. For us, far better to remain, and think that as we lose friends here, our store gets so much greater in the world to come, and our meeting shall have delight a hundred hundred-fold. We wander, when winter is drawing on, through the melancholy trees, among the autumn's faded leaves, and yet in the midst of it our heart prophesies of spring, and of the light and the resurrection of life and beauty. And so should be the wandering her eof the Christian man, passing slowly yet cheerfully onwards; watching life's faded leaves, it is true; but gathering from each death that happens around him, hopes of new spring and endless life and light. You have suffered, yet you have the right to rejoice. You have lost, yet in Christ you must have gain. Pass on, then, through life, with hearts braced for the trial, with spirits strong and calm, with faith and hope burning like twin stars within the sacred heaven of your soul, as is meet for those who, like the widow, have met, over the dead we love, the Lord of Life.

Lastly, there lies beneath this outward act of Christ, a spiritual meaning. Every miracle has a twofold object, to meet some physical want or distress, and so to manifest love in the redemption of the body, and so to point to Himself as the One alone who could relieve the higher wants of the spirit of man. Here, He who could raise one who seemed spiritually dead, was manifesting Himself as the spiritual resurrection, as the life of the spiritually dead. The meaning of this story is pointed by the words used in the context of the story of Lazarus. "I am the resurrection and the life," says Christ; "he that believeth on Me, though he were dead, yet shall he live: and whosoever liveth and believeth in Me shall never die." All those texts have a distinctly spiritual meaning. It is with us spiritually as it was with the widow's son. We begin life brightly enough: we, too, have our heaven of innocence before evil begins to work in us. Ere long we pass into the knowledge of evil, and innocence is loft for ever; sin darkens about us. We are not conscious of sin as sin, for we are not conscious of holiness; but the time comes when we awake to the sense of a holy law outside us. Our sinful state is irritated by the pure and piercing law of good into greater sinfulness, just as diseased lungs are penetrated by thin and pure air into greater disease. We are "dead in sin," as St. Paul puts it; and yet at another time, when the conflict with nature is stirred, we go on struggling with the law of sin in our members, weeping bitterly as we sit by the bed of a dead nature, until at last we utter the deepest and most wretched cry that comes out of our hearts, "O wretched man that I am! who shall deliver me from the body of this death?" Then upon the path of life comes by Christ the Saviour, and touches the bier, and that which was dead arises. He gives us not a law without us, which brings with it sin and death by irritating us still further; but a spirit of love within us, which brings with it righteousness and life. We are quickened together with Him, quickened by the love to God which He pours into our hearts; quickened by sharing in His Spirit; and when we share in the Spirit of the Saviour, and begin to love as He loved, then we rise into the same life of love which He possesses for ever. That which made our nature dead is banished and driven out because we love goodness, and it rises clean out of evil. Passions, intellect, will, appetites, senses—all are renewed and inspired by the Spirit of the living God—all have a new motive, and so are made new, not by being taken out of us and replaced by another will, another intellect, another heart; but by having so new, and fresh, and loving, and patient a motive given to us to live justly, that we are all changed and renewed, and we become new men alive in Christ Jesus.

Nor will His work cease at this. As the same vital forces produce first leaves, and then the bud, and then the blossom, and then the fruit, the crown of all in the plant, so the same Divine Spirit of Christ, which raised us here from the death of sin, shall also quicken our mortal bodies by His Spirit that dwelleth in us. That is the last meaning of the story. It is a glorious witness to the resurrection of the body. The fruit shall follow upon the blossom; we shall meet our Saviour once again, and hear His voice, arise, and enter, body, soul and spirit, into the perfect resurrection.

Evening Service

MAKING TERMS WITH DEATH

Sunday School at Three o'clock

"Saturday Sermonette"

Genesis II. 8.—"And the Lord God planted a garden eastward in Eden."

* * *

The Lord God loveth a garden, wherein He may walk in peace,
On our earth He made Him a garden where beauty should never cease,
No creature should harm another; nothing was e'er afraid,
Till Man, in his selfish folly, destroyed the garden God made.
But beyond, in the wide wild spaces, afar from Man's strife and sin,
The Lord God keepeth His gardens, and walketh in peace therein.
And we long for His quiet garden, where silence can heal the soul,
Where lovely happy Nature makes the wounded spirit whole:
But whether in God's far garden that with pristine beauty glows,
Or in some city corner where thou tendest a single rose,
The cares that have sorely pressed thee, and the sorrows, shall flee away
If thou walk alone with thy God in peace in the garden at close of day.

—ELIZABETH CAMERON.

Faith begins as experiment and ends as experience.—Dr. Jowett.

* * *

Faith is receiving Christ into our emptiness. It is not the beauty of my pitcher, it is not even its cleanness that quenches my thirst: it is simply holding that pitcher to the place where water flows.—C. H. Spurgeon.

STORIES FOR LITTLE PEOPLE

DAVID AND THE GIANT GOLIATH

I Sam., xvii, 1-37.
"(By M.B.)"

You remember who the Philistines were. They were wicked people who lived in some of the cities in Canaan. They often fought against the Israelites.

One day a great number of Philistines came and placed their tents on the top of a hill in Canaan. When Saul heard it he came with a great number of Israelites, and they placed their tents on another hill. The Philistines and the Israelites could see each other in their tents; and they intended to fight against each other: but they did not choose to fight immediately.

There was one man among the Philistines whose name was Goliath. He was called a giant, because he was very tall indeed. He was ten feet high.

He was very strong and big, and he could fight well. He wore armour. What is armour? Clothes made of iron and brass: people used to wear armour, that arrows, and swords, and spears might not hurt them easily.

He wore a cap of brass upon his head, and he wore a coat of iron: his legs were covered with brass. He held a great spear in his hand, and he had a great sword in a sheath by his side; and a man went before him with a shield. What is a shield? It is a great piece of iron, or brass, like a large tray, which men used to hold before their faces in battle to prevent the arrows hurting their faces.

The giant Goliath thought that no one could kill him. Every day he used to call out with a loud voice, 'Will one of the Israelites come and fight with me? If he be able to kill me, then all the Philistines will mind the king of Israel: but if I kill him, then the Israelites must mind the Philistines. Is there any man that will fight with me?'

Would any of the Israelites fight with the giant?

No, not one. When Saul heard the Philistine giant, he was frightened, and all the Israelites were frightened. They all thought they should be killed, if one of them fought with the giant. And do you think that if one of them had fought with him he would have been killed? Could not God have helped the Israelite to conquer?

Where was David? Was he among the tents of Israel? No: he was feeding his father's sheep, but David's three elder brothers were in the tents.

One day old Jesse said to David, 'Go to the tents of Israel, and see how your brethren are: and take with you some corn, and ten loaves, as a present for your brothers.

So David rose up very early, and left his sheep with another shepherd, and took the corn and bread with him, and went a long way till he came to the hill where the tents of the Israelites were. Then he ran to look for his brothers. As he was walking with his brothers, he heard a man speaking in a very loud voice, saying, 'Who is able to fight with me?' It was the giant Goliath. David had never heard the giant speak these words before, but the people who were near David told him about the giant, and they said, 'King Saul has promised to give any man who kills the giant a great many things as a reward.'

David was surprised that people shall miss the smile of approval so precious to the obedient child.

The cause of lack of communion with God is summed up in this—disobedience. Another may take away my substance, or my life, but cannot spoil me of my communion with God; if I lack this, I am myself the thief and the robber.

We ought to be always happy in God, and in His ways; if we are not, we mar the quality of our obedience.

We are never so well prepared for effectual service to man, as when we are holding fellowship with God.

Let us be skilful to make God's matters ours; then shall we see that He makes our matters His.

Those who know what it is to deal much with God, know that their hopes and desires must, as it were, be buried, and that they must leave it with Him to bring about a resurrection in His own time and way.

God measures out His communion of love according to diligence in seeking Him.

It is well for us to shut up our desires within the compass of trusting and pleasing God.

If our fellowship be with the Father and His dear Son, we shall know from the character of our Father what are His wishes. Errors in judgment spring more or less from lack of fellowship with Him. Acquaintance with His heart of love will enlarge ours.

We have access to God with boldness and confidence through Jesus, the Son of the Father. Do we tell out our tale at the throne of grace? Fellowship signifies the opening of the heart on both sides, and that without reserve.

"Jesus Christ did not rise from the dead and return to heaven to forget those who were left behind on earth. He was like a strong swimmer who not only reached the shore Himself, but brought the perishing to shore as well."

* * *

"The best of all, God is with us," cried the dying Wesley. Yes, it is the best; it is all. The church is organized insanity if God is not behind it.—Dr. F. C. Meyer.

FAITH

"(By Robert C. Chapman)"

If we act only because our path is clear of difficulty, this is not Faith. Faith acts upon God's Word whatever the difficulty; and to walk by faith brings highest glory to God; but it is a crucifying the flesh.

To be strong in Faith two things are needful,—a very low esteem of ourselves, and a very high esteem of Christ.

The chief excellency of Faith is that it brings us into fellowship with God. Abel—the first spoken of in Heb. xi—is commended, not because of any great deed in man's account, but because he worshipped God acceptably. Nevertheless, if we trust God, there is no limit to the power of Faith, whatever the thing to be done.

God shelters the weak in faith from many a storm, whereby the strong in faith must be proved. (Gen. xxii.)

When a man builds a house or ship, he takes heed that no beam be strained; so God never overtaxes our Faith, but brings in comfort knowing our frame, not suffering us to have sorrow upon sorrow, according to Phil. ii, 27.

By neglect of God, and forgetfulness of His word and promise, our minds may become blinded to plainest things. Isaac, through selfwill and allowing his natural partiality to blind him, would have set aside as nothing the purposes of God concerning Jacob.

When we are especially strong in Faith, we have especial need to watch against unbelief (compare I Sam. xxvi. 5 and on, with xxvii, 1): for as the flesh takes great occasion by sin, so by grace; and no one who studies much that profitable book, his own heart, but must know it.

Soon after Abraham had greatly trusted God, he through unbelief denied his wife. Moses, the meekest of men, spake unadvisedly with his lips. David, the humble, forgiving man, was moved to proud wrath by the words of Nabal.

Faith, which always acts according to the mind of Christ, stoops to no unworthy device for deliverance from trial, leaving consequences wholly with God.

A little increase of Faith works great changes of judgment in us, and brings forth the otherwise hidden riches of the grace and wisdom of God: it stirs His power to do wonders for us, dividing the sea when the waves thereof roar.

Heb. xi, 24—Moses' first great step of Faith was the refusing to be called the son of Pharaoh's daughter. Yet Moses mistook the time for delivering Israel by forty years. He was too hasty; right in point of purpose, not in point of time. He was not content with the bare doing the will of God: he would straightway accomplish some great thing. After leaving Pharaoh's house he should have asked of God further guidance. We need guidance, step by step. "I (saith the Lord) taught Ephraim to go, taking them by their arms" (Hos. xi, 3).

Faith looks straight to the command in order to obey it, and takes the promise for her support. She pushes on her way, regardless of dangers. Moses must "go forward," though the next step lead the people into the sea. Whatever appearances may say to us, it is by advancing in the narrow way of obedience that we prove the truth of the promises; and the faithfulness, the wisdom, and the power of our promise-giving God.

We must not be deceived by appearances, but be sustained by promises. When Jacob looked upon Joseph's coat, which had been brought to him, he should have said, "I see the coat that is covered with blood; I hear the report of the death of Joseph; but Lord, I believe Thy word—Thy promises concerning the greatness and the glory of my son: what Thou hast spoken Thou wilt perform."

It is a great proof of the strength and steadiness of Faith when, diligent in pleasing God, we rise above our obedience to God Himself.

Grace makes light of sacrifices, because of looking straight to Jesus.

Unbelief begets all sorts of evils; Faith prevents and cures them.

Would that the saints of God tried themselves by this test: "How much do I believe?" instead of "How much do I know?"

We please God by trusting Him; trusting His grace, His love, His wisdom; trusting without limit: but it is only by little and little that we come to account our own wisdom folly, and God's wisdom true wisdom—wisdom infinite; then we are able to yield up ourselves unreservedly unto Him.

Faith labours, and holds on, despite of all appearances, and in the midst of all difficulties.

Rather let us look by Faith to Christ at God's right hand, than at the mountain of difficulties before our eyes.

One of the best answers to prayer is to be able to continue in prayer. (See Matt. xv. 21-28.)

Faith perpetually cries to God for its own increase.

All things that are within the compass of God's promises are within the compass of Faith.

Let Faith lay heart-sins upon Christ, and there will be no plague-spots upon the skin.

Faith waits upon God; but she waits also for God. Jacob (Gen. xxxii. 9-12) waited upon God regarding Esau his brother; but he did not wait for God. Had he done so, he would not have bowed down (xxiii, 3) seven times to his brother: Esau must have bowed down to him (xxvii, 29).

God delights in putting faith to do that which the flesh declares impossible. Oh, how precious a jewel is that resolute Faith which walks with God under all circumstances, wrestling against the powers of darkness, making no bow to the Haman of evil customs, or evil principles!

We cannot be losers by trusting God, for He is honoured by Faith, and most honoured when Faith discerns His love and truth behind a thick cloud of His ways and providence. Happy those who are thus tried! Thus saith the Lord, "Count it all joy when ye fall into divers temptations" (James i, 2). Let us only be clear of unbelief and a guilty conscience, and we shall hide ourselves in the rock and pavilion of the Lord, sheltered beneath the wings of everlasting love till all calamities be overpast.

Faith can bear the test of death and burial, and can sing praises to God under any circumstances.

A steadfast purpose to trust God, when He seems to unbelief to be breaking a promise, betokens a growth in faith. "Though He slay me, yet will I trust in him." (Job x.ii, 15).

God often encourages the weak in faith by giving speedy answers to prayer; but the strong in faith will be tested by God's delays.

The prayer of self-will may get its answer, as with the Israelites, "He gave them their request, but sent leanness into their soul." (Ps. cvi, 15).

Faith is the good cable that, stretched and strained, does not break in the storm.

Trial humbles the soul and enables it to bear the ripened blessing, and to carry a full cup with a steady hand. Faith is not discouraged, but holds on in patience, expecting the promised blessing in the fitting time.

What is the food and nournishment of Faith? "My flesh is meat indeed, and My blood is drink indeed" (John vi, 55).

To take God at His word is the business of Faith.

Faith can never fail of the reward of perseverance: the Lord delights in persevering faith.

In trials of faith, let us take heed to our spirit that we trust God without stint. The soul's repose in Him is His delight; and He will honour it. Jehovah sitteth King upon the floods, and faith sits with Him.

A PRAYER

Prayers On Seven Words From Cross

Paryer No. 5.

O Blessed Jesus, Who didst will to endure for us all bodily pains and privations, even unto the agony of thirst in death; Sustain us, we beseech Thee, in all our sufferings of sickness, pain, or want, and grant us such a remembrance of Thy sufferings for us, as may make us ready to bear all things for Thy sake, that being made partakers of Thy cross we may enter with Thee into glory, Who livest with the Father and the Holy Ghost, God for ever and ever. Amen.

SATURDAY, SEPTEMBER 15, 1928

REPORT THE OFFENDERS.

It is pointed out in connection with the Bureau of Complaints launched by Ontario's Highway Department that citizens should have no hesitation in reporting cases of reckless driving.

When it is realized that such carelessness may mean death or serious injury, it becomes the duty of every law-abiding citizen to see that recklessness is curbed.

There is much wild driving within the city limits. A citizen residing on Water street north could use up a bundle of report cards in an hour if he chose to complain of every driver who was guilty of exceeding the speed limit, and that same condition applies to many other streets in Peterborough.

A list of those habitually guilty of driving at a dangerous rate would give the Highway Department a chance to issue a plain warning to the offenders and help to bring about a much more satisfactory condition of affairs.

A DOUBTFUL EXPERIMENT.

The experiment of bringing labor from the British Isles for the Western harvest is not likely to be repeated.

It is announced that none of the miners will be permitted to remain in Canada during the winter unless they secure work on farms.

While some of the workers may succeed in obtaining such employment, the majority will be sent back to the Old Country, and it is a doubtful question whether they will have found the coming to Canada for a few weeks' work of any benefit to them.

On the other hand, the whole affair has been an unfortunate one from a Canadian viewpoint.

The complaints of a small percentage of the miners will undoubtedly do this country much harm in the Mother Country.

It does not matter that most of the newcomers found work at satisfactory wages; those with a kick to make are usually much more noisy than men who are satisfied, and by the time these 300 miners get through telling their troubles to their fellow-countrymen, Canadian immigration agents over there are going to have a big task on their hands.

THE MINISTER'S IMPRESSIONS.

The impression made upon Hon. J. S. Martin, Minister of Agriculture, by the Peterborough Industrial Exhibition during his visit here on Thursday was all that could be desired, and the Minister's promise of championing the cause of the Exhibition with the Government was obviously sincere.

Mr. Martin found that what had been said of the Peterborough Industrial Exhibition was quite true, namely, that it was doing a splendid work in encouraging agriculture and bringing about a better understanding and a closer relationship between city residents and the people of the surrounding districts.

These objects the Minister of Agriculture rightly believes to be the fundamental aim of fall fairs, and it is gratifying, therefore, to know that he has been able by personal observation to accurately estimate how far the Peterborough Industrial Exhibition has been able to succeed along that line.

His praise of what has been accomplished here must have been a source of great satisfaction to the directors, who have never allowed the amusement and entertainment features to swamp the agricultural department.

In this policy, as Mr. Martin pointed out, they are building on a foundation of sure success.

EUROPEAN MINORITIES.

M. Briand at Geneva, having decided for once to shelve the "dreamer" for the realist, seems to have made his survey of European realities fairly exhaustive. He paid his respects to the Austro-German unification movement as basing itself on the rights of minorities. He made the point that before the war the discontented minorities on the Continent numbered 100,000,000, and that Germany was no more conspicuous than any other great Power in giving heed to their case. Now that the minority populations in Europe number only 20,000,000, Germany has constituted herself their protector. As an argument against Anschluss between Austria and Germany this may not be overwhelmingly convincing, but the figures cited by Mr. Briand do come as a useful reminder of certain historic facts.

On one side of the account the Briand statistics are considerably exaggerated. Before the war the minority population in the three now defunct empires and Turkey would have been nearer 70,000,000 than 100,000,000. The Romanovs ruled over 13,000,000 Poles, or just about half the population in present-day Poland, and 10,000,000 other alien ethnic groups now included in the border States—Finland, Estonia, Latvia and Lithuania—and in Bessarabia, now part of Rumania. Roughly speaking, a minority population of 25,000,000 was released as a result of the war and the collapse of Czarism. Germany before the war included 4,500,000 non-Germans, of whom three-fourths were Poles. Turkey ruled over a non-Ottoman population of about 10,000,000 in a total population of 21,000,000—Arabs, Armenians, Greeks and minor nationalities. But the most conspicuous case of minority subjection was, of course, the Hapsburg monarchy. Out of a total population of 50,000,000 in the Austria-Hungary of the year 1910, nearly 30,000,000 were neither German nor Magyar; they were predominantly Slavs. The subject "minority" under the Hapsburgs was a 60 per cent. majority.

The minorities to-day are what M. Briand stated—about 20,000,000. They constitute 30 per cent. of Poland's population of 27,000,000 (in 1921), 30 per cent. of Czechoslovakia's 14,000,000 people, 30 per cent. of Rumania's 17,500,000 people and about 15 per cent. of a total Yugoslav population of 12,000,000. The numbers in Alsace-Lorraine and redeemed Italy are comparatively insignificant. It is obvious that in the post-war redistribution the victors took something more than their due. Germany had, as we have seen, 4,500,000 ethnic aliens before the war, but the Treaty of Versailles took from her an extra 2,000,000 people. Austria-Hungary, stripped of subject races, should have remained with 20,000,000 population; actually the treaties left the two countries with something less than 15,000,000. For this comparatively imperfect apportionment the inherent difficulties of unscrambling Europe's ethnographic omelette are not the sole explanation, though it is a factor not to be overlooked. Several million people were absorbed by the victor States in feeding historic grudges.

Nevertheless, the fact remains that to-day only about one-fourth as many Europeans are living under Governments not of their own kin as was the case before the war. This is not in the least an argument against the enforcement of the minority rights guaranteed to the new subject populations under the treaties and the supervision of the League of Nations. Present-day conditions must be criticized not by pre-war standards, but by the higher aspirations flowing out of the world catastrophe.—New York Times.

A HIGHER GASOLINE TAX.

An increase in the tax on gasoline from three to five cents per gallon is a change to which motorists in Ontario cannot be indifferent. It means a considerable rise in maintenance costs, especially for those with a large mileage in the year. Premier Ferguson has coupled his announcement with a promise that a reduction will be made in the cost of car licenses which will go far to offset the change. As in other alterations in Ontario, the public has ample warning, for the higher gasoline tax will not be effective until probably the new year.

The principle of the gasoline tax is easily defended. It puts the burden of paying road-building and maintenance charges on the people who use the roads most. It is necessary that some charge be made for licenses to cover administration costs, but there are many people who use their cars, say, five or six months of the year, and then only for relatively short distances, while others operate all year and for long distances. The latter impose much more wear and tear on the highways than the former.

The estimated receipts for Ontario for the current fiscal year, as given in the Budget speech last March, showed an expected revenue of $6,060,000 from motor vehicles and $5,130,000 from the gasoline tax. It is conceivable that within a year or two, allowing for the constantly increasing use of motor vehicles, as well as for the increase of 60 per cent. in tax, the gasoline revenue may approach the $10,000,000 mark in this Province. Inasmuch as road improvement is a settled and expanding policy, motorists need not look for generous concessions in their share of the burden of cost.

Taxing of gasoline has come to be a general custom. Last winter a new impost of this kind was announced by the British Chancellor of the Exchequer of four pence (about eight cents) per gallon. This came as a shock to British motorists who had been led to expect a considerable cut in the high rates for motor licenses. Nothing of this kind was done, but later reports indicate a good prospect of concessions in this direction. Several European countries which have not a tax on gasoline consumption raise a revenue by an import duty.

While it may be said that much motoring is a personal necessity, a great deal of it is done for commercial purposes on the one hand, and for luxurious recreation on the other.

The tendency has been toward higher gasoline taxes in the United States Five States have a tax of 5 cents, one State 4½ cents, twelve States 4 cents, one State 3½ cents, fifteen States 3 cents and twelve States 2 cents. Massachusetts and New York are the only States listed as having no tax on gasoline.

One of the difficulties in administering road matters in this Province is due to the fact that the Imperial gallon is used, which is about 25 per cent. larger than the wine gallon used in the United States. This brings some protest from visiting tourists who are not aware of the difference in gallon measure. Canada, however, is not likely to forego this imitation of the policy of the Mother Country, particularly as the explanation is so obvious for the higher cost of gasoline per gallon.—Toronto Globe.

EDITORIAL NOTES AND COMMENT.

Get your last glimpse of the Peterborough Industrial Exhibition to-night.

Bad weather for the first part of the week hampered Peterborough's big fair, but could not keep it from being a success.

There should be plenty of work for the new Bureau of Complaints in our own city if the public appreciates the chance to make driving conditions safer.

Possibly we might have more great men in future if someone would build log cabins for them to be born in.—Florence (Ala.) Herald.

Observation impresses one with the fact that too much of the white man's burden is carried at the waistline.—Ottawa Journal.

Having left the League of Nations in a huff and discovered that she was not missed Spain now meekly returns.—Hamilton Herald.

News of Our Own Village

On account the rain Mon. night Sandy MacTavish sez he didn't see the Fair. Tough luck, Sandy, say we.

• • •

Among them noticed by your scribe riding on the caterpillar Children's Day at the big fair was Harry Kenner, our highly trained Collegiate principal.

• • •

Web Turner spent several days at the fair here this week.

• • •

The Kiwanians et at the Fair grounds this Fri. instead of at Graham's hotel. But their singing didn't sound no better in the open air as some expected.

• • •

So far as your scribe can hear they aint nothing to the story of a matched bicycle race between Bill Lytle and Walter Stocker.

• • •

Jim Matthews was among the big butter and egg men seen at the fair this week.

• • •

Quite a few people was seen riding in the local buses this week.

• • •

Reg. Turner give the local fair a coupla benches. Reg generally can make the people sit up.

• • •

Some people drive cars without a license but Art Blade, the oil king, had a car running at the big fair without a driver. Better no driver than some that we know, say we.

• • •

Not knowing it was going to rain so much George Gimblett, the village fire chief had some of his fire laddies on duty at the Fair. And the first 3 days anyway the boys felt pretty lonesome.

• • •

Fred Hall, our well known Sheriff, was seen by your scribe at the fair one day this week.

• • •

Harold Rye, Reeve of North Monaghan, where the big fair was held was in town on Tuesday and gave this office a call. Come again, Harold.

• • •

According to Gord Matthews the number of hot dogs offered for sale at the fair here if placed end to end would stretch from here to Omemee including the detours.

• • •

They won't be no fair here next week, so Rolly Denne our esteemed Mayor will be found up town again.

—F. D. C.

The Question Box

L. C. Q.—To settle an argument, please tell me how old the exhibition idea is in Canada.

A.—In 1734 an exhibition of colonial products was sent to France by the then intendant of New France. This attracted a great deal of attention to the new colony.

C.A. Q.—Where is Lake Nipissing?

A.—Lake Nipissing is one of Canada's historically famous lakes, being connected with Lake Huron by the French River. It is a large body of water, of 330 square miles, and in the pioneer days was the water highway from east to west for the Indians, missionaries and fur traders from the St. Lawrence by way of the Ottawa. Champlain made this trip in 1615, returning by way of the Severn and Trent waters to Lake Ontario. North Bay is the chief town on Lake Nipissing.

STERLING EXCHANGE

MONTREAL, Que., Sept. 15. — (Canadian Press)—Sterling exchange rates were quoted here yesterday as follows:

Demand $4.84 5-16—3-8.

Cables $4.84 11-16—3-4.

The Bus Driver

Buses have to operate on schedule and we make sure of dependable service by using Champion Spark Plugs.

Champion is the better spark plug because it has an exclusive sillimanite insulator specially treated to withstand the much higher temperatures of the modern high-compression engine. Also a new patented solid copper gasket-sealthatremains absolutely gas-tight under high compression. Special analysis electrodes which assure a fixed spark-gap under all driving conditions.

A CANADIAN-MADE PRODUCT

CATTLE, GRAIN AND PRODUCE

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Sept. 15—(Canadian Press).—Montreal exporters yesterday reported the export trade in all lines of grain of a very moderate character. The domestic trade also was inactive with the tone of the market firm and prices unchanged.

Prices in the spring wheat flour market were steady at the decline noted. A fair amount of business was transacted, with a steady demand from the continent. The winter wheat market was steady with a moderate trade reported.

Trading in millfeed continued fairly active with supplies ample to meet requirements. The prices were unchanged. Rolled oats were firm at the late advance.

The trade in eggs in a jobbing way was active with buyers generally providing for their week-end requirements. Prices ruled steady. Receipts were 1,283 cases.

Prices were maintained on the butter market. Business was small due to light supplies available. Receipts were 2,625 packages.

Although an easier feeling was reported in the local cheese market prices ruled changed. Receipts were 12,113 boxes.

Montreal Quotations.

Oats Canadian Western No. 2, 69c. Oats, Canadian Western, No. 3, 66c Oats, Ex. No. 1 feed, 64c.

WINNIPEG LIVESTOCK

WINNIPEG, Sept. 15.—(Canadian Press).—1,175 cattle; 125 calves.

Cattle trading yesterday was indifferent and the market eased slightly. Butcher heifers sold about 25c lower and stockers and feeders sold from 25c to 50c below yesterday's price.

Hogs 80. Selects, $13.25 to $13.35; thick smooths, $12.75 to $12.85.

Sheep and lambs, 370. Good killing lambs $12.50; sheep $3.00 to $7.50.

CHICAGO CATTLE.

CHICAGO, Sept. 15.—(Canadian Press).—Hogs, 10,000. Market closed dull. Shippers took 4,000; estimated holdover 3,000. Butchers, medium to choice 250 to 350 pounds $12.50 to $13.25; 200 to 250 pounds, $12.50 to $13.40; 160 to 200 pounds, $11.85 to $13.40; 130 to 160 pounds $11.50 to $12.20. Packing sows $11.50 to $12.34. Pigs, medium to choice 90 to 130 pounds $10.25 to $12.25.

Cattle 3,000; calves 1,000; all matured killing classes around steady; slaughter classes, steers, good and choice 1,300 to 1,500 pounds $15.25 to $18.60; 1,100 to 1,300 pounds $15.25 to $18.60; 950 to 1,100 pounds, $15.10 to $18.50; fed yearlings, good and choice, 750 to 950 pounds $16.25 to $18.40; heifers, good and choice, 850 pounds down $14.35 to $17.65; cows, good and choice $9.40 to $13.50; bulls, good and choice beef, $9.75 to $11.00. Cutter to medium $7.25 to $9.75; vealers milk fed, good and choice, $17.50 to $18.50; cull and common, $8.50 to $14.50. Stocker and feeder steers, good and choice, all weights, $12.00 to $14.35.

Sheep 18,000. Lambs, good and choice 92 pounds down $13.25 to $14.35; medium, $11.75 to $13.25; cull and common $8.00 to $11.75; ewes, medium to choice, 150 pounds down, $4.25 to $7.00; cull and common, $1.75 to $5.25; feeder lambs, good and choice $13.85 to $14.75.

CHICAGO GRAIN.

CHICAGO, Sept. 15.—(Canadian Press).—Suggestions of a combined holding policy by wheat growers both north and south of the Canadian boundary tended yesterday to give wheat values a lift. Besides, export demand yesterday for wheat from North America was larger, Europe taking about 8,000 bushels all told.

Closing quotations on wheat were firm, ½ to ⅝c net higher. Corn finished ⅝c to 1⅛c up, with oats showing ½c to ⅝c advance, and provisions varying from 2c decline to a rise of 15c.

Focusing of attention of traders yesterday on reports that domestic spring wheat farmers especially were giving evidence of a widespread effort to keep supplies back was due largely to a statement from a leading grain authority here that regardless of whether the wheat is stored on farms or virtually loaned to country elevators, prospective supplies will not be reduced one iota. He said further that if any benefit accrues, Canadian, Australian and Argentina are undoubtedly the gainers, and that disposal of Canada's big surplus would be improved through curtailment of United States competition.

Confirmation that United States farmers in the spring wheat belt are marketing their wheat in a leisurely fashion and are storing a large part of the wheat delivered was found in the fact that receipts of wheat at northwest points yesterday were 1,226 cars, against 1,778 cars a year ago. Later, gossip was heard that such a course by domestic farmers was in line with action of the Canadian growers pool and might result in at least moderately advancing prices from time to time. Under such circumstances, and with the corn market stronger, wheat closed at virtually the day's top level, notwithstanding that Canadian country marketing of wheat were 5,804,000 bushels, the largest thus far this season. North American wheat clearances for the week were 13,221,000 bushls.

Corn advanced because of continued buying for speculators who are short of corn needed to fill September contracts. Some notice was also taken of an unofficial forecast of frost west of the Mississippi. Oats were but little changed.

Provisions were firmer on account of fairly good shipping trade.

LOCAL HOG MARKETS

Live hogs, thick, smooth, $13.00 cwt; select graded, $13.50; dress hogs, head on, $30.50; head off, $21.50 cwt.

BUTTER AND EGGS.

TORONTO, Sept. 15. — Toronto wholesale quotations on eggs continue steady, with the trend still in the direction of higher prices. In buying, Toronto dealers are paying to country shippers for ungraded extras, delivered at Toronto, cases returned, fresh extras, 39 to 42 cents, which is an advance of one cent on the top price; fresh firsts 37 to 38 cents; pullet extras, 31 cents; seconds, 29 to 30 cents, and cracks, 27c. The receipts from some centres is showing a light increase. Prices, however, are likely to work gradually still higher, due to the fact that production soon will become less

Quotations on the poultry market are steady and firm, and dealers are looking forward next week to a large demand for live fat ducklings, because of the requirements of the Jewish holiday trade.

A moderate trade in butter has been done during the week with quotations firm and most of the buying at 39¾ cents per pound for No. 1 creamery, pasteurized, and the price range from 39¾ to 40 cents.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them published.

PETERBOROUGH NEGLECTED

Mr. Editor:

In last week's issue of the "Star Weekly", an item appeared in the Theatrical Section, giving a list of road shows that would visit Canada this year; at the same time, giving the itinerary of a number of the attractions.

Included in this list are such shows as the Doyle Carter Opera Company, George Robe the famous English comedian, several other noted English companies and such musical attractions as "Hit the Deck", "Good News", "The Student Prince", "My Maryland" and the ever popular "Rose-Marie". Also mentioned, are several dramas.

On looking over the itinerary for these shows, which are outstanding attractions, I find such towns as Brockville, Belleville and Woodstock are booked, yet the City of Peterborough, with a population two and three times as great as these cities, is entirely ignored.

I submit, Mr. Editor, that this a matter of concern. We have a city of some twenty-three thousand people, with suburbs sufficient to make our population approximately thirty thousand. A great body of this population must naturally be interested in the theatre. In a city of this size, where a large portion of the population is younger people, entertainment must be provided and it is in the best interests of all that this entertainment be of an educational nature.

Drama and opera are without question a great means of education. Attractions such as those listed above encourage the musical talent of our city and, at the same time, make our city sufficiently interesting to keep our citizens content and continuous residents of this community.

I would indeed be glad to have you give an expression through the columns of your genuine community paper on this subject, which I believe warrants more than a passing thought.

Thanking you in advance for the valuable space which this item will use, I am,

Yours very truly,

"THEATRE-GOER"

GOD'S MINUTE.

I love them that love me.—Prov 8:17.

• • •

"Father, we thank Thee for the night,
And for the pleasant morning light;
For rest and food and loving care,
And all that makes the day so fair."

We are glad for the privilege of calling upon Thee. We love Thee because of what Thou art and because of what Thou hast done. Thou art the Creator and Preserver of our lives. In Thee we live, and move, and have our being. We thank Thee for Thy Son, in whom we have redemption, the forgiveness of sins, and the hope of eternal life. We thank Thee for our country, and for our homes and schools and churches. Help us to love the right and despise the wrong. Prepare us for the duties of the day. We know not what is before us, but it is written, "Sufficient unto the day is the evil thereof." Give us grace whereby we may overcome evil with good.

Bless all our friends and neighbors. Bless Thy followers everywhere. Let Thy Kingdom come, and Thy will be done on earth as it is in Heaven. In Jesus' name. Amen.

Rev. J. W. Stiverson,
Cedar Rapids, Iowa.

A Thought

HOW TO LIVE.

The great problem is, after all, how shall one grow in sympathy and tenderness, and generosity, and consideration? How shall he feed on high thoughts and noble aims? How shall he be swift to discern and avail himself of those opportunities for usefulness to others which are the best channels of his own growth How shall he hold clear and close relation with the divine energy?

"Be one of the conquerors!" said Balzac. "The Universe belongs to him who wills, and loves and prays; but he must will, he must love, he must pray!" In a word, he must possess wisdom, force and faith! — Lilian Whitting.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

THIS IS OF INTEREST TO EVERYBODY!

Do you realize that right here in Peterborough, "The City of Infinite Possibilities," you have the Largest and Most Complete Printing and Publishing Plant between Toronto and Ottawa or Montreal, where anything that is printed can be turned out as well and perhaps better at a reasonable price?

The Peterborough Examiner is equipped to produce:

CATALOGS,
PUBLICATIONS,
BROADSIDES,
DIRECT-BY-MAIL ADVERTISING,
VOTERS' LISTS,
ANNUAL REPORTS,
BROCHURES,
FOLDERS,
PAMPHLETS,
CIRCULAR LETTERS,
ILLUSTRATED BOOKS AND BOOKLETS,
COLOR PRINTING IN ALL ITS FORMS,
FACTORY FORMS
Of Every Kind and Standardized to Suit Your Particular Business or Problem.

BUSINESS STATIONERY
Of Every Description.

GOLD LETTERING
Done on Bibles, Books, Hat and Club Bags, Etc.

LETTERHEADS,
ENVELOPES,
BUSINESS AND CALLING CARDS,
CORRESPONDENCE CARDS,
WEDDING INVITATIONS AND ANNOUNCEMENTS,
PERSONAL NOTE PAPER,
SYMPATHY CARDS,
IN MEMORIAM CARDS,
CAKE CARDS,
BIRTH AND ANNIVERSARY CARDS
Printed, Engraved or Embossed By Our Special Raised Printing Process.

WE MAINTAIN A SERVICE DEPARTMENT
For the Purpose of Assisting Customers and Prospects in Originating Ideas, Writing Copy and Co-operating in every way and without obligation. We shall be pleased to make up and submit Dummies of any piece of printing for your consideration at any time whether it be a BLOTTER, REMOVAL NOTICE, CHANGE OF TELEPHONE NUMBER, ANNOUNCEMENT OF A NEW OR ADDITIONAL LINE OF GOODS, CATALOGUE, FOLDER, MENU, BROADSIDE, ETC.

LOOSE LEAF FORMS,
LEDGERS,
BOUND BOOKS,
LEDGER SHEETS,
BINDERS AND SPECIAL RULED FORMS
Of Every Description. We will gladly assist you in choosing a system suitable for your business.

Let Us Supply You With Your
SCRATCH PADS,
BLOTTING PAPER,
PLAIN COUNTER CHECK BOOKS, FILING FOLDERS,
CARBON PAPER,
ADDING MACHINE ROLLS,

A BARGAIN IN BLACKBIRDS

School has taken up again, and we boys haven't got as much time to spend down on the old river bank any more. But it isn't so bad, anyway, just fifteen weeks and we get a Christmas vacation, so we've got something to look forward to. The twins, Oliver and Harold, went back to their fancy school in Massachusetts, and so we have two less in our club to worry about. Doc Waters came down to our houseboat last Monday after school, just as we were holding our meeting and told us to give him the key and clear out for a couple of days. It surprised us some, but when he told us that all he wanted to do was to fumigate the clubhouse, why, we gave him the key and said we would play out on the river bank and hold our meetings there till the clubhouse was fumigated. There has been sickness up in town, and Judge Granberry ordered Doc Waters to see that our clubhouse was cleaned out and fumigated.

On Wednesday afternoon as soon as school was out I went up to Doc's office to get the key. And as he handed it to me, he says: "Hawkins, be kind o' careful when you go in your clubhouse."

"Why?" I asked. "Is that fumigating smoke poison?"

"Oh, I don't think it would kill any healthy boys like you," he said with a laugh; "but there was something in the clubhouse—I didn't know it until I had turned the smoke loose in the place and locked up. Then I heard something hit against the walls a couple of times—first on one side, and then on the other."

"Well, why didn't you let it out, whatever it was?"

"Oh, I couldn't do that without letting all the fumigating smoke out again—I had to lock the door quick, you know."

"Well, what the dickens do you think it was, Doc?"

"It might have been a bat, or an owl, or something like that."

"Oh!" I said, and laughed. "If that's all it was, we boys won't be afraid of it."

So I went down to the river bank, and all the boys were waiting for me to come with the key to open it up. When we opened the door, we didn't hear a sound—the smoke was all out, but there was a kind of a medicine smell in the clubhouse. I looked around, I saw something over in a corner that looked like a bundle of black rags. Bill Darby saw it, too, and went over to pick it up.

"Oh, it's only an old crow!" he exclaimed. But it was the biggest crow we had ever seen, and its beak was awfully thick. It was dead. I guess the fumigating smoke killed it. We took it out to the river bank, and Pooby Warren, one of the Pelhams, came along just then, and when he saw what we had he stopped and pointed at it.

"Who killed that bird?" he asked.

"Nobody killed it," I answered. "It just died. But it's none o' your business, anyhow."

He didn't say any more, just turned and got in his flatboat and rowed to Pelham. Our captain told us to bury the dead bird, but I said no, we ought to take it up to Judge Granberry, because he stuffs all kinds of birds and put them up on his bookcases in his library, and maybe he might give us a dollar for this. So we went up to the Judge's office, and I took my cap off as we came in, and said: "Excuse me, Judge, but us boys found a bird you might want to stuff."

"What kind is it?" he asked, grouchy like.

"It's the biggest crow you ever saw!" piped Bill Darby.

Oh, boy! You should have seen the Judge get sore! "What are you boys trying to do—play a joke on me?" he yelled.

"This isn't any joke, Judge," I told him; "we thought you liked to stuff birds—"

"Yes, I do!" he yelled, "but not common old crows! Get out of this office right away, all of you, and hurry up—get out!"

He wouldn't even look at the dead bird. We didn't wait to hear any more—we beat it quick.

"Bury the crow," says our captain. Which we did.

* * *

We had heard that the Pelhams had three new fellows in their gang, and we got our first look at one of them on Thursday of this week. When we came down to our clubhouse after school, Briggen, the Pelham leader, was waiting there with a strange boy who wore a big wide hat like the cowboys wear out West. He was a little bigger than the other Pelhams and he looked as though he was pretty sore about something.

"Hawkins," spoke up Briggen, "you fellows killed this boy's bird. He wants to know what you are goin' to do about it."

"We didn't kill any bird," I said; "we found a dead bird in our clubhouse."

"Well," says Briggen, "since it was killed in your clubhouse, you boys will have to pay for it. This boy wants a dollar for it."

"How's he goin' to get it?" I asked, and all of us boys moved close together, thinking maybe the new fellow might start a rumpus. But the stranger just pulled Briggen's arm and walked over a little ways, where they both talked in whispers. Then they started for their boats. "All right," yelled Briggen, over his shoulder, "we gave you fellows your chance to square yourself, so don't blame us for what happens now." And then they got in their boats and rowed across.

We held a meeting right away, and some boys were for giving the new fellow a dollar and be done with it, but I said no, we would first tell Doc Waters all about it. We went right up to Doc's house.

"I should say not!" says Doc, when we told him all the facts. "If that bird belonged to the Pelham boys, it was their business to see that it did not fly into any place where it would get hurt."

Roy Dobe' got up and I knew by the excited way he acted that he had got an idea for once in his life. "Why," says Roy, "we boys can trap another crow, and give it to that stranger fellow, and call it square. I'll do it myself, if you say so—those old crows are a nuisance around our farm—my pop gives me a nickel for every one I shoot."

"Don't shoot this one!" says our captain. "We've got to give it to him alive."

"Leave it to me," says Roy. "I'll square this thing up, all right."

So we went down to Roy's house, and oh, boy! there were enough crows flying over their corn field—you could hear them "caw-cawing" before you got near it. I asked Roy what kind of a trap he had, but he said we wou'dn't need a trap if we had a little spunk, and he led us down to a shed where his pop keeps corn and potatoes and apples and such things; they keep the corn in bins, some is shelled—that's for the chickens—and some is on the cob, which is for horses. Roy opened the door and then we all went away for a while, to give the crows chance to get in. When we went back, Roy ran up and slammed the door shut. A couple of crows cried "Caw!" as they rose in the air, and I said: "There they go, Roy." But Roy just laughed. "Have any of you fellows got spunk enough to go in with me and get 'em?" he asked. We all said we were willing to go in. But Roy said: "Don't you forget—those old crows give you a pretty good peckin'." After that only three of us were willing, Roy and Jerry and I went in and shut the door quick—but not quick enough to keep in two of the crows. We stood with our backs up against the door and looked around. Three crows still remained in the barn. All the windows were shut, so they couldn't get out. One crow was sitting up on a feed box pecking away at the feed—he didn't even seem to hear us come in. Roy took his cap and slung it at the bird. Blam! Down went the bird and the cap in the feed box. Next thing we knew Roy had both cap and bird in his hand, and was climbing out of the feed box. We didn't try to catch the others; we were ready to go when all of a sudden Bill Darby opened the door and peered in and said:

"Did you get one?"

He got one, all right—smack in the face. Those two other crows saw their chance to escape and they flew right for the partly open door where Bill's face was, and he was so surprised he fell backwards. We went out, and when the boys saw we had a crow caught for sure they were pretty happy over it, and our captain ran up with an empty parrot cage, and we put the crow in it. Then we told Jerry to run over to Pelham and tell that stranger boy that if he would come over to our clubhouse we would square things up with him.

* * *

We took the crow in the cage up to the clubhouse while Jerry went across the river. And when we set it on the table, I wasn't so sure we were going to be able to give a live bird to that new Pelham boy, after all. The old bird looked like he was dying—he wouldn't eat and he had his head chucked down in his feathers so that he didn't seem to have any neck at all. I told Roy he had hit him too hard, but Roy says "Shucks! You can't kill a crow by hittin' him with your cap—just give him time, he will come to life in a few minutes."

Soon we heard the Pelham fellows coming, and Briggen led the new Pelham fellow into our meeting room. They both looked as though they thought we had a trick up our sleeve. "Glad to see you," says our captain. "We boys want to square up that bird business, although it wasn't our fault. And next time, you keep your birds on your own side of the river, and they won't get killed."

Then Roy handed up the parrot cage. "Here," says our captain, holding out the cage to the new Pelham fellow, "here's your blackbird—leastways it's the same kind of blackbird you had—and now we hope you're satisfied, we had a lot of trouble gettin' it."

The new Pelham fellow folded his arms and looked at the crow in the cage.

"I don't like these kind o' tricks," he says, nodding toward the cage.

"Why!" exclaimed our captain. "Who said we were playing tricks?"

The new Pelham kept his arms folded and tapped his shoe on the floor as though he were trying to keep from getting real mad.

"Maybe you think you're funny," he says, "but I can't see anything funny in it."

At that I stepped up and said: 'Briggen, what's the matter with that fellow?"

"Let him alone!" snapped Briggen. "He knows what he's talking about."

"You bet I do!" piped the new Pelham. "You bone-heads haven't got enough brains to keep you down on the ground—you're that light-headed—"

"All right," I broke in, for I was getting sore myself at the way he talked; "forget the nasty remarks, young fella, and say what you want and we'll listen to you, but we don't have to take any of your sass. See?"

The new Pelham turned his head slow. "Who are you?" he asked.

"That shows how smart you are," I said, "you don't even know me—I'm Seckatary Hawkins."

The new Pelham turned up his nose and laughed. "Well," he says, "I don't know who you are, for a fact, and you might be smart for all that, but if you're as smart as you think you are, you wouldn't try to give me back a common old crow for my fine black raven that was killed in your clubhouse."

And with that, then, he turned and walked out, Briggen following at his heels. We boys all sat still and stared out of the window at them—watched them till they got in their flatboat and rowed across. Then I jumped up.

"A raven!" I exclaimed, under my breath. "A raven, fellows! A fine, black raven—I knew that dead bird didn't look like a common ordinary old crow!" And I hopped around the table, and slapped our captain on the back, and they all sat and looked at me as though I had gone crazy.

"Well," says Bill Darby, at last, "suppose it was a raven—what are we goin' to do about it?"

"I'm goin' to give that new Pelham a dollar and call it square," I said. "That black raven is worth a lot more than a dollar."

"Sure it is!" chimed in Jerry Moore. "If old Judge Granberry would have looked at that dead bird we had, before he chased us out of his office, he would have been tickled to death to get a real raven to stuff and put in his library."

* * *

So we took a vote on it, and all the boys voted to take a dollar out of our tin box and pay the new Pelham, so he wouldn't want the dead bird back again, and our captain took out four quarters and gave them to me and Jerry, and we got in a canoe and paddled across to Pelham. We found the new Pelham sitting with Briggen in his shack, and we handed over the dollar, and told him we hoped he would forget anything we said that didn't sound good to him, and said we were sorry there was any trouble about it. He took the money, and said he was satisfied, the raven was getting old anyhow and would have died in a couple of years, so he might as well take a dollar now as nothing later on, when the bird was dead. But he didn't know what we knew about birds. Even dead birds are worth money sometimes.

"Well, now," I said, as we got ready to go back, "everything is squared up, and we hope there won't be any more kick coming from you about that raven."

"Not from me, there won't," he said, jingling the four quarters we had given him. "I wish I had another dead bird—I'd sell it, too, for fifty cents." Then he laughed.

"You're gettin' a good price for this one," I said, as we got into our canoe, "but we don't like to let new fellows think we are tricking 'em, so we are satisfied to pay you what you got. Goodbye, fella!"

"Goodbye, Seckatary Hawkins," he answered, with a grin.

And he and Briggen stood there on the shore and watched us paddle across, and they were still laughing when we landed, as though they figured that they had got the best of us boys, and thought we were boobs. But I said to Jerry; "It's a smart kid who get's the last laugh, and I think they are laughing too soon."

When we got back to the clubhouse, the boys were digging up the grave where we had buried the dead raven. We had buried it in a shoe box, so it wasn't soiled much, and we took it right up to Doc Waters. And you should have seen Doc Waters open his eyes when he saw that black raven!

"Why, boys!" he says, "the Judge will give you at least ten dollars for this specimen. It's feathers are perfect, and everything, and it's the first raven I've ever seen around this old river bank."

"Well, Doc," I said, "won't you clean it up and fix it so it will keep—you know how to do it—'cause you're a doctor, and a doctor knows every thing."

"All right," says Doc, with a laugh; "I'll fix it up for you, and tomorrow you boys come along and we'll take it up to the Judge."

* * *

We boys were at Doc's office next day as soon as we could get there when school let out. But Doc's hired man told us that Doc had gone up to the Judge's house, and we were to go there as soon as we showed up. So we all rambled on up to Judge Granbery's. Doc Waters saw us, through the window, and came out and led us into the room where Judge Granbery keeps all his stuffed birds and animals.

"I beat you boys to it," says Doc. "The Judge and I stuffed that old bird early this morning. We didn't do a very good job of it, but there she is. We are goin' to fix it up better—but we just wanted to see what she looked like."

Doc pointed to the top of a bookcase. There was a statue there that didn't have any eyeballs and it had "Pallas" carved in odd letters underneath. I guess that was the guy's name. And on top of the statue was our old black raven—Gee whiz! it looked like it was alive! It had new glass eyes and was stuffed out and its feathers were all smoothed down and glossy. The Judge came in while we were looking at it. He grinned when he saw us boys.

"Wasn't I an old fool, boys?" he sang out. "I ought to have looked at that dead bird when you brought it into my office the first time. It certainly was a mighty fine 'crow' you had—and to think I come near losing it!"

"We boys didn't know it was a raven when we brought it in, Judge," I told him. "We didn't think it was worth much—"

"Well, I wou'dn't sell it now for twenty-five dollars!" broke in the Judge. "How much do you boys think you ought to have for it?"

None of us said a word. But the Judge reached in his pocket and took out some bills. He held up a ten-spot.

"Who is cashier of this club?" he asked.

"We don't have any cashier, Judge, but I'm seckatary—I'll take the cash."

He gave me the ten and laughed louder than we boys ever heard him laugh before. He and Doc were talking as we sneaked out. We were anxious to divide up the ten. Each of us got a dollar, there being just ten of us now. We got the ten changed at the drug-store, and then went down to the clubhouse and divided it up. There was the old parrot cage still on the table, and the crow looked pretty lively now. Roy Dobel went over and looked at it. I said: "Roy, you twist that crow's neck and get another nickel from your pop, like you said he would give you for dead crows."

But Roy looked at his dollar bill and shook his head.

"No," he says, "I'm not so anxious for that nickel as this poor old blackbird is for his life. We boys got ours from the Judge. Now we are goin' to open this cage, and let this poor li'l fella take a fly for himself."

Which we did.

BIRTHDAY

Prizes announced each Saturday for Best Letter, Story, Drawing or Poem.

READ THE RULES CAREFULLY

In our next contest the title must contain the word, "BIRTHDAY." You must write a letter or a verse or draw a picture.

Write on one side of paper only.

Your composition must be original. You must write it without assistance from older persons.

Manuscripts or drawings will not be returned unless accompanied by self-addressed and stamped envelope.

All contributions must bear the writer's full name, address, and age. Don't forget to give your age.

The contest is open now. It will close next Saturday at midnight; all contributions must be received by that time.

Prize-winners will be announced on Saturday, September 29.

The Prize will be a Seckatary Hawkins Adventure Book.

Address all submissions in this contest to Seckatary Hawkins, care The Examiner Peterborough.

WHAT BIG BIRTHDAY IS THIS?

Our password for last week was "Mediterranean." That was easy for those good scholars who find their geographies most interesting books. Now, take a look at our password for this week:

ARTISMCHS

You'd think at first glance that it's something about Art, but I must confess that I have jumbled all the letters together and made it a puzzle for you. But it should be easy—with our contest for this week about birthdays—say, just take a pencil and paper and change the letters around until you have a real word, and it will spell for you the biggest birthday in the history of the world.

week's birthdays on this page, so that you could call up your friends and wish them "Many Happy Returns." Then I send a specially printed Birthday card to each one from the Club. Isn't that nice?

This is a competition that every girl and boy member should be able to enter, because everyone has a birthday and everyone likes the anniversary to come around.

So get to work at once and write something—remember the title must be something about a birthday—that is, must contain the word "Birthday." Write a story or a verse, if you like; or if you feel that you can't do that, just sit down and write me a letter telling all about your happy birthday. Send it in as soon as possible.

OUR WEEKLY MEETING.

Of course it is impossible for every member of our club to attend meetings in our little old clubhouse on the river bank so we just hold a meeting on this page every week, and in that way all members can keep in touch with everything that is going on.

Now, we will open our meeting by announcing the winner of the "School-days" competition. The book is won this week by Phyllis Watson, 182½ Hunter street west. Phyllis sent in a great little letter in which she tells the advantages and fun to be had in school. You should all read it.

There were other good letters, too, but we have only room for half a dozen. I hope these boys and girls try again—and that everyone tries to win the "Birthday" competition.

The next announcement is about another prize. You know I give a picture of myself to every boy and girl who sends in the name of a new member. Several have sent in two, three or four names, so I'm going to give a very special picture to those who send six names. I thought I would make it ten, but decided that six is a good number. Every boy and girl who send in six new names will be sent a picture of the whole Club—that is, all the members of the Club who hang out around the boathouse. There are Shadow Loomis, and Bill Darby, and Dick Ferris, and Perry Stokes, and all the rest, with Doc. Waters and Judge Granberry. You can read all about them in the week'y story on this page—and just think of having all their pictures to put up in your room! All you have to do is get six members—I'll keep count of them. Just send them in one at a time, as you get them. And don't forget that if you only get one, you will still get the picture of myself—but try for the bigger one.

Some boys think they would rather belong to a BIG CLUB than this branch of our Club—what do you know about that? As a matter of fact, this is the BIGGEST Club there is—we have members in all parts of the world. Just to show you, we'll hear now from one of our girl members in Shelbyville, Indiana, U.S.A. Here you are:

Dear Seck:

I am a new member, but I got your password very easily, although I didn't look in my geography either. I feel sorry for children who don't have the opportunity I have to listen to your radio meeting, as I enjoy it very much. I wrote a letter last week to win a book and didn't succeed, but try, try again is my motto.

Yours, fair and square,
ELOISE CHERRY,
R. R. 5, Shelbyville, Ind.

Next we present the letter of a member in the Panhandle state—that's the nickname they gave to West Virginia because of its peculiar shape between the Ohio river and Pennsylvania:

Dear Seckatary Hawkins:

I have been a member of your club for quite a long while. I read your stories every Saturday and they are the best adventure stories I have ever read, and if your books are like your stories I will certainly try to win one. Please have my letter printed.

Yours, fair and square,
BILLY TREACY,
518 17th St., Huntington, W. Va.

The Prize Winner.

This is a splendid little letter of Phyllis Watson's, telling us how to like schooldays. That's the right way to think of them, Phyllis.

Dear Seck:

I am writing a letter about school days. I hope it is printed as I would like a "Seckatary Hawkins" book. I read the story each week which I enjoy very much. School days are absolutely necessary days, although not many like them when they are going to school. But they are days which we always look back to. When we are going to school we do very much the same every day, but we are learning a little every day.

Now it's very easy to get to like school. Just work hard and you will soon find "school days" are "happy days."

Yours, fair and square,
PHYLLIS WATSON,
182½ Hunter Street West.

I'm afraid, Lloyd Perdue, you boys must be hard on poor teacher. Teachers are usually pretty nice with us, aren't they? Even when we laugh in class!

Dear Seck:

Once upon a time as I was in school on school days, something very funny happened. One of the boys let his reader fall on the floor. It made a big noise, and all the other boys began to laugh. The teacher was mad, and when we got out at four o'clock we all said together, "I like school days."

Yours fair and square,
LLOYD PERDUE.
128 Sutherland street,
Peterborough, Ontario.

I'm glad Fred Simmons likes to go to school. It's the only way, Fred, to learn things—and the more a fellow knows the better he can enjoy himself.

Dear Seck:

I have enjoyed your stories as much as any book I have read and I would like to be a member of the Seckatary Hawkins Club and I love to go to school and learn my lesson and play ball and play on the swings. I guess I will close now.

Yours fair and square,
FRED SIMMONS.
250 Euclid Avenue,
Peterborough, Ont.

We're all glad to have Harriet Roberts as a member. The password IS easy—sometimes, Harriet, but just watch. I may catch you one of these Saturdays.

Dear Seck:

I have enjoyed your page in The Examiner very much and so I have decided to join.

I am fourteen years of age and passed my entrance this summer.

I think the password is very easy to solve this week. The moment I looked at it I had an idea and then I worked it out. This is what I found it to be, "arithmetic."

I think I'll end now, hoping to hear from you soon.

Yours fair and square,
HARRIET ROBERTS.
310 Aylmer Street,
Peterborough, Ont.

Harold Elcome tells us a nice story about a football match at school.

Dear Seck:

I hope that my fish story wins a prize. Here is my composition for "School days."

"Ding! dong!" time for recess. Boys come running out with two footballs, another boy has a softball. There is great excitement everywhere for the school is having a football match this afternoon. Away goes the whistle and "bang" goes the ball. "Ding! dong!" everybody gets into. In one more hour children will be out for the half day holiday.

Yours fair and square,
HAROLD ELCOMBE.
93 Hunter street west,
Peterborough, Ont.

Nelson Foster just joined the club last week, and here is his first letter. It surely is lots of fun to play ball at school.

Dear Seck:

I read your letter and I enjoyed it as much as any book I have read. I love to go to school and learn my lesson. I play ball and play on the swings. I am in first book. I would like to join the Seckatary Hawkins Club. I guess that I will close now. Good bye.

Yours fair and square,
NELSON FOSTER.
236Euclid Avenue,
Peterborough, Ont.

We seem to have a lot of nice poets in our Club—here is a fine verse from Bernice Walker. Jack Frost surely can bite, can't he?

Dear Seck:

When I was mailing my coupon I forgot to put a stamp on so I had to wait for the postman. I am going to write a poem.

Fall and Winter are very near
Jack Frost is on his way here,
Our little fingers he will bite
And that isn't very polite.

Yours fair and square,
BERNICE WALKER.
288 Lansdowne Street,
Peterborough, Ont.

The bell is ringing for closing time and we must adjourn our meeting until next week. Don't delay in sending in your contest letter—and if you have not yet joined our big club, fill out the membership blank and send it in and you will get your certificate and club button. I am back in school aagin and enjoying it lots. Hoping this finds you the same. Bye till next week.

Yours fair and square,

Seckatary Hawkins

FROM THE SECKATARY

Dear Club Members:

There's one thing that we all like to write about and think about and that is a happy birthday. I think that our contest for this week is going to be a dandy, because all we have to write about is a birthday. Just think of your last birthday, and of all that happened on it and then sit down and write.

Birthdays do mean something to everybody, and they are about the nicest things a boy or girl has. Each succeeding year brings us a step closer to the goal of our ambition, and we mark it with a milestone called a birthday. Every boy and girl should be happy on his or her birthday, because it means that you are just that much more in size and weight and importance to the world. What the world needs is strong and good men and women, and if you follow our motto, "Fair and Square," you are bound to be listed at the top of the column where the names of the world's best are written.

This subject is a nice one for another reason. Every week, since the first of the month, I have printed a list of next

Fill out the blank and send it to Seckatary Hawkins, care of The Examiner, Peterborough:—

MEMBERSHIP APPLICATION

SECKATARY HAWKINS:

I wish to be enrolled as a member of The Examiner Seckatary Hawkins Club. I am enclosing a two-cent stamp for my club badge and certificate.

Street Address or R.R.....

Day Month Year

City or Town..... My Birthday.....

Cavan

(Examiner Correspondence)

CAVAN, Sept. 15. — Mr. and Mrs. Allie Kellett, Oshawa, were guests of Mr. and Mrs. James Paul on Sunday.

Messrs. Ray Staple, Archie Matchett, Eldred Snider, Will Swain attended Peterborough Exihibition on Wednesday.

Theer was a special meeting of the Ladies' Aid in Cavan church on Tuesday evening to make arrangements for the annual fowl dinner at Thanksgiving. A representative of the C.N.R. was through Cavan this week collecting one dollar rent from the farmers through whose farms the old road bed of the part of th C.N.R. between Port Hope and Lindsay from which the ties were lifted last summer. It is being given over to these farmers to use as a pasture. The properly signed lease will be sent to them soon.

Mr. and Mrs. Steele, Manilla, with the former's brother, Mr. John Steele, Millbrook, were guests of Mr. and Mrs. James Paul on Sunday.

Mr. and Mrs. Eber Syer motored to Dundas on Wednesday to attend the marriage of their son, Dr. Eber Syer, Cayuga, to Miss Jessie Margaret Dyment, "Mount Sydenham", Dundas.

Mr. and Mrs. Ray Syer attended the Syer-Dyment wedding at Dundas on Wednesday.

Othtr relatives who attended the wedding were: Messrs. Herb and Kenneth Syer, the Misses Lillian and Helen Syer.

MISSION CIRCLE ELECTS OFFICERS

Mrs. J. Gordon Mann Again President of Gilmour Memorial Branch.

Bridgenorth, Sept 15.—The annual business meeting of the Gilmour Memorial Mission Circle was held on Tuesday, September 4 in the basement of the church, with the president, Mrs. J. Gordon Mann, in the chair. The meeting was opened with singing and prayer by Mrs. James Young.

The subject of the meeting was "New Canadians in New Ontario." Splendid papers were given by Mrs. Joseph R. Mann and Mrs. A. I. Edminson, assisted by Mrs. J. Archer, Mrs. J. G. Mann, Mrs. S. T. Hammond, Mrs. J. Young, and Miss Margaret Mann.

The nominating committee report the following officers for the ensuing year: President, Mrs. J. Gordon Mann; Vice-President, Mrs. J. Archer; Secretary, Mrs. Sidney Blewett; Treasurers, Mrs. Joseph R. Mann (Foreign), and Mrs. Grattan Te'ford (Home); Coll. for Indian and Grande Ligne, Mrs. Proudlove; Link and Visitor, Mrs. A. I. Edminson; Pianist, Miss Mabel Paul.

The meeting was closed with prayer by the Rev. W. S. Edgar.

B.Y.P.U. Meets.

The regular meeting of the B.Y.P.U. of Gilmour Memorial Church was held on Tuesday night, September 4, the president, Miss Lula Sanderson, occupying the chair. The topic was taken by Mr. Clarence Mann, "Will the Go'den Rule Carry in Business as Well as Christianity?"

After the meeting was brought to a close, the young people enjoyed themselves by playing games, followed by a weiner roast.

Mrs. Hienman and family, who have spent the summer at Mr. Fowler's cottage, returned to their home at Pittsburg on Sunday.

Mrs. Joseph R. Mann, Mrs. J. Gordon Mann, and Miss Margaret Mann spent Thursday with friends in East Emily.

Miss Mildred Archer, who spent the holiday with her parents, returned to Toronto on Monday.

Miss Anna Franks left on Tuesday to assume her duties as teacher of the sixteenth schoo, Smith.

Mr. and Mrs. Wallace Nicholas, of Bridgenorth, have spent the past week with Mrs. Jewett of Toronto, Mr. and Mrs. Nicholas are also attending the exhibition.

Messrs. Al'en Milburn, Ollie Edmison, Allen Mann, and Grattan Telford attended the Canadian National Exhibition.

Mr. and Mrs. Sidney Blewett, and Marion and Harry, of Smith, spent Sunday with Mr. Russe Darling, Otonabee.

Mr. Kenneth Jackson, of Detroit, was a recent guest at his home in East Emily.

LYRICS OF LIFE

THE SAME THE ROAD

I have known happy hearts, and sad,
Content, and discontent,
And yet the road the merry had
Was one the weary went,
The rocks the same, the rose the same,
The sky of gray or blue—
I wondered, was the road to blame,
Or was it I and you?

I have known lonely hearts, and some
Who had a hundred friends,
And yet the same road they had come,
The same the dips and bends,
The same the hill, the same the vale—
When mortals walked alone,
I wondered d, was the fault the trail,
Or was the fault our own?

I have known empty hearts, and hearts
So full they overflowed,
Yet when love comes, or love departs,
It seems the same the road,
The same the joy, the same the strife,
The rain, the sun again—
I wonder is the fault with life,
Or is the fault with men?

Why We Do What We Do.

WHY ACTIONS SPEAK LOUDER THAN WORDS

By Mehran K. Thomson, Ph.D.
(Author, The Springs of Human Action)

"What you are speaks so loudly that I can't hear what you say" is one of the most familiar of Emerson's phrases.

We rightly judge a man by his acts rather than by his words. It is easier to lie with the tongue than it is with the muscles. Many a well-oiled lie has failed because of the truth-telling muscles, some unconscious gesture, a glance, a slip has ruined a perfect alibi.

Presumably we have speech for the purpose of conveying ideas, but frequently speech is the most convenient means of concealing ideas, of giving false impressions.

Character expresses itself more fundamentally through conduct than it does through speech. Acts are expressed through a physical mechanism which has habitual modes of reaction that cannot be changed quickly and in some cases cannot be changed at all. While the tongue has no such handicap. Give the incentive and the purpose the tongue may wag in any direction desired.

Actions speak so much louder than words that the modern man has very little confidence in speech. He prefers action. There was a time, when men showed their piety by lengthy discourses of their religious experiences. In recent times men have grown skeptical of the fellow with loud professions and little deeds.

Actions speak louder than words because they are more fundamental. They run deeper. They are harder to change on short notice, and are disinterested parties. They have no motive for appearing in any other than their true light.

The tongue no man can tame. We are suspicious of all tongues. We have greater confidence in the language of acts.

Actions speak louder than words because they are more elementary. They can't be changed so readily. It takes greater skill to be a great actor than it does to be a great liar.

Why do you do what you do? Dr. Thomson will be glad to answer questions on human behaviour. Address him care of this paper, and enclosed an addressed, stamped envelope for reply.

(Copyright, 1928, McClure Syndicate.)

One formula for finding out how long one should live is: Add the lives of your parents and four grandparents; divide the total by six and for every five years that exceeds sixty, add a year. The result is the length of your life.

A halcyon is a kingfisher, and "halcyon days" are so-called because it was supposed that the weather was always peaceful when the kingfisher was breeding.

Interesting Reading for All the Family

The Planter of the Tree

By RUBY M. AYRES

© McClure Newspaper Syndicate

WHO'S WHO IN THE STORY:

SALLY LINGFIELD, dancer at the Faun, a night club.

JOSH AKERS, a waster, with whom Sally is in love.

POPPY, Sally's roommate, another dancer at the Faun.

PHILIP SANDERSON, rich young man of wealth who early one morning, when drunk, runs over Sally, badly injuring her. Sanderson loves Sally.

SOMETIMES, Sanderson's dog.

MRS. KIFF, his landlady.

Josh Akers, hearing of Sally's probably permanent injury, says he is through with her, and Sanderson assumes her care. He gets a cottage in the country for her and Mrs. Kiff. At first Sally hates it, and is heartless to Sanderson—even telling him she is glad when Sometimes is injured by an automobile. But gradually she becomes somewhat reconciled, and even looks more kindly on Sanderson's love for her. The rector, ROBERT NAIRN, brings his young son, GARRY, to see Sally. Sanderson is immediately jealous. Word comes that Poppy is very ill, and Sanderson goes to her. While he is away Garry comes often to see Sally, and take her out in her invalid chair.

XXVI—THE END

"Am I going to die?" Poppy asked once.

"We've all got to die some day," Sanderson answered.

She laughed a little at that.

"So we have! Seems queer doesn't it, that some day the jolly old world'll be going merrily on and we shan't be here?"

"Well, it will," Philip answered.

"I know——" She was so short of breath. "Well, wherever I go—if I go first, I hope—some day—you'll come along, Philip. Don't suppose you will, though. You'll be in a better place than me——"

"Rubbish! I dare say we'll be given a stoking job together," he told her, trying to speak lightly.

That made her smile, and then for some time she lay still, not speaking at all, hardly seeming to breathe, until quite suddenly she tugged at his hand with surprising strength.

"Philip!"

"Yes?"

"Do you think Sally 'ud mind if you kissed me?"

Sanderson winced. It was so unlike Poppy to ask such a thing; he felt as if when she tugged at his hand like that she had tugged at his heart-strings as well.

"I think she would be glad if she knew you wanted me to," he said awkwardly.

"Well, then!" Poppy whispered.

Sanderson bent over the bed and kissed her cheek, thankful that there was nobody in the room.

"Now go to sleep like a good girl," he said.

"Right-oh!" Poppy whispered. "And—Philip—thank you for everything. I hope some day you'll be very—happy."

They were the last words she spoke, and just as the sun was struggling to show itself in the cheerless little room she died, so quietly and peacefully that Sanderson sat holding her hand for some time before he realized she was no longer there. Then he stood up for a moment and looked down at her quiet face with a surprising mistiness before his eyes.

"You're luckier than some of them, Poppy, at any rate," he said gruffly, and folded her hands across her breast.

Before he left the house he saw Mrs. Jenks, paid her everything that was owing, and promised to make the necessary arrangements. Then he went out. He felt he would give his soul for a stiff drink, but his promise to Sally restrained him. He would not break his word to Sally.

He had some lunch and called on Abel Sanderson's solicitors. The money was considerable, they told him—roughly, perhaps, thirty thousand pounds, but naturally it would take time to settle everything.

"I suppose Abel left no will," Philip submitted.

They admitted that he had not.

Sanderson grinned.

"I knew that, or he would have taken good care I didn't get a half-penny," he said. "He hated me as much as I hated him, which is saying a good deal."

Then he gave them the address of his flat, fetched his car and made for Ash Hill.

* * *

He felt like an eager schoolboy going home for the holidays as he sped away from London. It seemed an interminable time since he left Sally; his one thought was of her welcome. Would she be glad to see him? Had she missed him? It was like a douche of cold water to be told by Mrs. Kiff that Sally was out with Nairn.

"I told her as 'ow I thought you'd be angry, sir," Mrs. Kiff protested, seeing the thunder-cloud on Sanderson's brow. "But go she would! She must see them woods, so she declared, and as she was all right with the gentlemen yesterday, I——"

"Did Nairn take her out yesterday as well?"

"Yes, sir."

Sanderson walked into the cottage without answering. Sally had been out in the sunshine with another man while he sat and waited for Poppy to die. Although in a way he knew it to be unjust, he felt hurt and miserably jealous. Why could not Sally have been content to stay in just for once? After all, it was for her sake that he had gone to London. Then he pulled himself together and tried to dismiss the thought. It was mere selfishness to grudge her the woods and the sunshine; he ought to be glad that Nairn had been so decent as to offer to take her. After all, the chair was no light thing to push, and the vicar was not a young man.

It was strange that it never entered his head that Mrs. Kiff had been speaking of the son and not the father, and he felt as if someone had struck him over the heart when, half an hour later, hearing voices coming up the road, he went eagerly to the door and saw Garry.

The vicar's son was lounging along, one hand on the invalid chair, pushing it easily enough, laughing and talking.

"Damn him!" said Sanderson under his breath, and strode down the garden path with fury in his eyes.

Afterwards, when Nairn had gone, and Sally had stopped crying and lay by the fire, her long lashes wet with tears, and her thoughts far away with the days when she and Poppy Sladen had been the greatest of friends, Philip said abruptly:

"Who asked that fellow round here?"

She turned her head, her eyes bewildered.

"What fellow?"

"That parson's son."

"Oh, you mean Garry! He brought me a book from his father, and offered to take me out when he heard you were not here."

"Like his damned cheek!"

Sally flushed.

"I thought it was kind of him. He took me out twice, and once we had tea with his father at the vicarage."

Sanderson's face grew ugly with a bitter sneer.

"Are they out trying to save your soul?"

"They didn't mention it," Sally said sharply.

She was unhappy and tired, and in the shock of hearing about Poppy she had forgotten how tired Sanderson must also be, and forgotten also to thank him for all he had done for her friend. Tea was a silent meal.

"We ought to have asked Garry to stay," Sally said.

Sanderson's jealous eyes searched her face suspiciously.

"Did you want him to stay?" he asked roughly.

"He would have been more cheerful than you are," Sally answered sharply. "You've hardly said a word since you came in."

"I'm sorry. I've been up all night—"

Her blue eyes opened wide.

"Up all night? What ever for? you promised me you wouldn't go to the club."

"I kept my promise."

She looked sceptical.

"Then I don't see why you were up all night," she said unkindly. Sanderson told her.

"I stayed with Poppy till she died." And then he got up without waiting for her to reply, and strode out of the room. He was as near the end of his tether as such a man can be. In his over-tired state everything seemed distorted and out of its true proportion. He had not got the welcome from Sally for which he had longed, and he had found his place—his treasured place—usurped by another man—a younger man!

That was where the chief sting lay, that Garry Nairn should be so near to Sally's own age. Sanderson knew that he himself was old enough to be her father, but it made no difference to his love for her. He loved her with all the ardor of a boy, even though he was often tongue-tied and stupid when he most wished to express himself.

There are some men to whom only youth appeals; there are some men who can see no charm in a woman of their own age, and Sanderson was one of these men. It was Sally's youth he loved, and her helplessness; they were the only two things he saw.

Her commonness and rudeness passed him by; or, rather, he forgave them. He was a man who wanted someone to be entirely dependent upon him, and Sally was entirely dependent. He would have made an ideal father for daughters, spoiling them atrociously, but loving them with all his heart. More than twenty years ago he had given love of some such quality to a little stepsister. He had been a boy of seventeen, and she a tiny toddler with flaxen hair and an ingratiating smile.

Philip had adored her; he would have given his life for her without a second's hesitation. But when she was only three years old she died, and his stepbrother Abel had been the cause. Abel was a rough clumsy churl of a fellow, and one day when they were ragging together in a stable loft, with Betty looking on admiringly, Abel had caught his foot in a rope, stumbled, and, finding himself falling towards the open trap-door that led down to the yard below, he had caught at the nearest object in order to save himself—his little sister!

They had gone down together on to the cobblestones below, and she had died.

Abel and he had hated one another ever since, and now, by the irony of Fate, Abel was dead and Philip was to have his money. Money which he would spend on Sally—that was the irony of Fate, too, for in Philip's mind Sally always seemed a vague echo of the little sister who had died—the little sister grown up and dependent upon him still.

(To be continued.)

STRANGE AS IT SEEMS— by John Hix

HOROSCOPE

The Stars Incline, But Do Not Compel

SUNDAY, SEPTEMBER 16, 1928

(Copyright, 1928, McClure Syndicate.)

Benefic aspects dominate today, according to astrology which finds in the horoscope much to cheer and encourage dwellers on the planet Earth.

The rule is most favorable to the clergy and especially to those of high rank who have become leaders of the people.

Under this direction of the stars there may be a deepening of feeling that accents prejudice and increases loyalty to sects or denominations.

There is a sign supposed to stimulate faith into fanaticism and for this reason there is likely to be ultimately much gain from the autumn's religious efforts along many diverse lines of thought.

Women come into their own at this time when they will render splendid public service, while at the same time they excel in all the feminine arts.

Astrologers predict that in the reactionary movement already evident women will gain in charm and will enjoy much of the oldtime reverence that preceded modern progress.

Lovemaking will flourish under this direction of the stars under which even plain girls will seem to be beautiful.

This is read as a lucky rule for engagements and even for weddings. It is foretold that many marriages will be celebrated on Sundays, since pomp and ceremony will become less common than formerly.

Music is subject to the best possible planetary influences and the coming season of opera will awaken unprecedented interest, it is forecast.

According to ancient lore this should be a lucky day for wearing new clothing, and it is likely to be becoming.

Hospitality is well directed today when dinners and other social events should be especially successful.

Astrologers promise closer relationship with South America which will be connected by airplane lines and long distance telephones.

Peace movements should flourish at this time when there will be the paradox of growing horror of war and added danger of conflict in other minds.

Persons whose birthdate it is have the augury of much new interest in life. There may be journeys that bring money and new friends. These subjects of Virgo usually know how to make the most of life.

Children born on this day should be exceedingly successful through life. They come into the world with high aspirations which they are generally able to realize. They are naturally critical and never satisfied with halfway achievements.

MONDAY, SEPTEMBER 17, 1928

With the beginning of a new week of work astrologers advise caution, for they read in this day's horoscope certain warnings.

Early in the morning the mental vision should be clear and plans made at this time are likely to be practical.

There is a sign of good promise for journeys begun today, especially those that are concerned with important missions.

Again oil interests are to be widely discussed, for the stars presage more gain for them and new uses for oil.

The rule brings into prominence the question of wines and all alcoholic beverages.

Mars is in a place supposed to encourage quarrels, dissensions and bitter antagonisms. The sway augurs ill for close personal associations.

Partnerships of every sort are supposed to be affected by the planetary government. The marriage partnership is menaced by this positing of the stars, which increases selfishness.

While this configuration prevails, those who seek the favor of the people may expect to be severely and even unjustly criticised.

Increase of the sort of individualism that is manifested in egotism and vanity is probable under this planetary government which crystallizes opinion and makes it difficult to convince men and women that they can cherish unwise opinions.

The day is not an auspicious one for political campaigning, even though the stars presage much interest in candidates.

The seers prophesy that earthquakes will affect distant countries where industrial and governmental uncertainties disturb the people.

Persons whose birthdate it is should cultivate contentment in the coming year. They should not speculate and should pursue beaten paths.

Children born on this day may resent authority. These subjects of Virgo probably will be rarely talented and independent. Poets and musicians are born under this sign which enriches materially as well as spiritually.

UNCLE WIGGILY

By HOWARD R. GARIS

Today's Bedtime Story

UNCLE WIGGILY AND THE LOLLYPOPS

(Copyright, 1928, McClure Syndicate.)

Uncle Wiggily was on a little sailing ship close to the shore on which stood the hungry Wolf who was waiting until the rabbit gentleman drifted near enough to be grabbed and nibbled. In the story before this I told you how Uncle Wiggily had started out with some broken toys to give to the rabbits in the orphan asylum.

The rabbit gentleman stopped near the brook to mend a broken ship before taking it to the poor bunnies and then,

wishing to try the mended toy, Mr. Longears got on board. And along came the Wolf.

"Oh, if only a breeze would blow to carry me to the other side of this wide brook, then the Wolf couldn't get me," thought Uncle Wiggily as he crouched down on the deck of the little ship. "For the Wolf doesn't like to get wet any more than I do."

But no breeze seemed to blow and the toy ship which had drifted away from the bank where the Wolf stood now began drifting in close to the hungry chap.

"Come along faster!" howled the Wolf. "I can't wait all day to nibble you. Make your ship go faster!"

"I can't," said Uncle Wiggily, which was the truth. If it had been a steamboat or a motorboat perhaps the bunny might have made it go faster, but he wouldn't have steered it toward the Wolf, I'm sure.

"You can't, eh?" snarled the Bad Chap. "Well, I know a way to bring you to shore where I am quicker than you're coming. I'll make a wind for those sails of your little ship."

With that the Wolf puffed out his cheeks and blew his breath as hard as he could and the wind filled the toy ship's sails.

Now the Woozie Wolf was a foolish animal as well as fierce and hungry for rabbits. The Wolf didn't stop to think that by blowing his breath against the sails of Uncle Wiggily's little ship that he would send the toy boat away from him and toward the other shore.

But that is just what happened and soon Mr. Longears had the joy of seeing the ship come close to the far shore and away from the Wolf who kept on puffing out his cheeks and blowing his breath against the sails. And when the Bad Chap saw that Uncle Wiggily on the toy ship was far off and away across on the other shore the Wolf howled and growled:

"O, what a mistake I made! I should have sucked in my breath instead of blowing it out and then I would have had you! Come on, Uncle Wiggily, give me another chance. Push out from shore so I can draw you over here."

"Indeed I will not be so foolish as that!" laughed the rabbit, who was now safe. "Here I am and here I'll stay and there you are and there you'll stay! You can't get me!"

And the Wolf couldn't unless he went away up to the other end of the brook where it was narrow enough for him to jump across. But that would take too long. So the Bad Chap had to slink away without getting any rabbit nibbles that day.

"But here I am on the far side of the wide brook and the basket of toys I was taking to the orphan rabbits are on the other side," said Uncle Wiggily. "The Wolf has gone and it will be safe for me to go back, but I can't unless the wind blows on the sails of my little ship. I wish there would come a strong breeze and blow me back."

However, no breeze came, even though Uncle Wiggily whistled for one as sailors do and the rabbit gentleman was thinking he would have to stay on the far side of the brook all night, when, all of a sudden, along came Aunt Lettie, the lady goat, with a basket and a large palm leaf fan.

"Oh, Aunt Lettie, will you please wiggle your fan and make a strong breeze to blow me back across the brook on my toy ship so I can take the basket of toys to the orphan bunnies?" begged Uncle Wiggily.

"Indeed I will!" bleated the goat lady. So she did, and by the wind of her fan there was breeze enough to blow the ship and Uncle Wiggily back where they started from.

Then the rabbit gentleman hopped ashore, put the toy boat in the basket with the other toys and hopped on to the rabbit orphan asylum. But before he went Aunt Lettie opened her basket and what do you suppose was in it? Why, however did you guess? Lollypops, of course. She tossed the lollypops across the brook one by one to Uncle Wiggily, who took them to the poor rabbits together with the toys and made them happy.

So everything happened for the best.

Fine tea is always the most-desired. The slight falling off in price of cheaper teas cannot entice the tea-lover from his discriminating choice.

At the Price of just an Ordinary Car

You can buy a Silent Willys-Knight

Why deprive yourself of a car so rich to look at, so rich to ride in, a car you will feel so proud to own—when you can buy a Willys-Knight at the price of just an ordinary car?

The new Willys-Knight Standard Six offers the exclusive advantages of the patented, sleeve-valve, high-compression motor. It has quick starting, lightning pick-up, sustained high speed and sweet-running action as quiet as the rustle of silk. You will find by comparison that it has more quality features than any other car near its price—for example, 7-bearing crankshaft; 4-wheel brakes; clear vision cowerposts; wide, deep cushions in form-fitting seats; foot control for dimming headlights; adjustable steering post; thermostat; air cleaner; oil rectifier. Arrange for a demonstration today.

Standard Six prices from $1395 to $1525; Special Six from $1575 to $1845; Great Six from $2365 to $3695. F.o.b. factory, taxes extra.

NOW! A full range of Willys-Knight and Whippet Commercial cars and trucks at attractive prices.

$1395

DURING BABY'S TEETHING TIME

The Bowels Become Loose

Diarrhoea, dysentery, colic, cramps, etc., manifest themselves; the gums become swollen, and cankers form in the mouth. This is the time when the mother should use

and perhaps save the baby's life.
On the market for 80 years.
Price, 50c. a bottle at all druggists or dealers.

RUNAWAY CAUSES MUCH EXCITEMENT

Horses Bolt Up George Street Just Before Noon Hour.

Possibly due to the number of outside fast trotting horses in the city for the Exhibition races, and sensing the fast time, made a fine heavy team on one of H. B. Taylor & Son's coal trucks staged a runaway up George street yesterday morning that would have been a feature anywhere now that the auto is replacing the horse to such an extent.

Galloping up the street from Simcoe to Antrim, where they were caught, they missed the cars parked on both sides of the street, and outside of the excitement due to the fine exhibition they gave conducted themselves in a most orderly manner.

No damage was done as could be seen when they walked sedately down the street on the return trip

She Always Keeps Them in the House

"I have used Dodd's Kidney Pills for my Rheumatism and Lumbago and they are the best pill I have ever used. I always keep them in the house," writes Mrs. Lindsay Morash, West Dover, N.S.

For almost three generations Dodd's Kidney Pills have been the standard remedy for Backache, Rheumatism and ailments arising from faulty Kidneys. They strike at the seat of the trouble—the Kidneys. They are no cure-all. Simply an effective Kidney Remedy.

So don't delay, take Dodd's to-day.

STIRLING COUNCIL DISCUSS PURCHASE OF FIRE ALARM

Matter Laid Over Until Hydro Electric Commission Conferred With.

DISTRICT NEWS.

(Examiner Correspondence.)

STIRLING, September 15. — The Village Council met in regular session on Monday night, all the members being present. After the routine business of passing accounts, etc., a deputation from the Fire Brigade was heard regarding the purchase of a new fire alarm in the form of an electric siren which could be heard in any part of the village. The matter was left with Electrician Sprentall to confer with the Hydro-Electric Commission for suggestions also to get prices and report as soon as possible.

The request by an outsider for permission to open a poolroom here was settled quickly by the Council saying "No."

The following officers of the Agricultural Society, E. R. Carlisle, president, Ed. Pyear, first vice-president, M. W. Sine, secretary-treasurer, and G. Holden, a director, made a tour of the southern part of Hastings County on Thursday, going from here to Belleville, thence on to Tweed, Actinolite, Madoc, Marmora, posting bills and advertising the Fair to be held on September 25 and 26. An incident in the trip was visiting the School Fair at Tweed held in the commodious Consolidated School building. After viewing the exhibits of the pupils which were placed in different class rooms, the deputation were shown the work room on the upper flat, where the boys get their manual training in carpentry, also some of their handiwork which would put to shame that of many an older workman. The boys made a very creditable showing with their birdhouses and other useful articles among the exhibits down stairs.

Not forgetting the girls, it is well to state that they made an excellent showing in the fine cakes and other pastry that make one's "mouth water." District Representative Joe Wilson, B.S.A., is in charge of the County School Fairs, and has as his assistants and judges Miss Bronson, of the agricultural office here, Mrs. Earl Morrow, River Valley, and Messrs. Charles Hoard, Russell Hubble, and Earl Morrow. Another interesting part of the visit to the fair was viewing the parade and drill of over two hundred pupils of the school. After marching in files of three along the four sides of a plot marked off by flags, they formed single file and spelled without an erratic move the letters T.C.S. (Tweed Consolidated School. This part was under the supervision of Mr. Connon, principal of the school. Miss Richardson then took charge. The pupils having been lined up in solid form sang several choruses, ending with the National Anthem. A group of twenty small tots who had only been attending school for ten days, gave an exhibition of flag drill. Following these interesting features, Mr. S. Rollins, Reeve of Tweed and Warden of Hastings County, was called upon to address the assembly.

Barn Destroyed.

The electric storm of Monday afternoon was the cause of considerable loss to Mr. R. Clements, who had worked a portion of Mr. Murney Hagerman's farm on shares and stored the grain in the barn on the farm. Lightning struck the barn, and it was completely destroyed. The building was insured, but none of the contents. Mr. George Heagle, near Wellman's, lost a cow. The lightning followed the conducting wire from the roof and struck the cow standing near.

Mr. Frank Stapley has purchased the residence of Mr. Jetty Thompson, John Street.

Mr. Joseph Geary, contractor, has begun work towards the building of a dwelling for himself on property purchased from Mr. Delbert Utman, on Front Street West.

W.M.S. Meet.

St. Paul's Church W.M.S. held their monthly meeting on Tuesday, Mrs. Livingstone giving the Scripture reading, followed by prayer by some of the members. Miss Kingston gave a paper on French Work, Mrs. W. S. Martin on Syrian Work, and Miss Hume on Strangers' Secretary Work. Mrs. Wood will represent the society at a meeting to be held in Canifton on October 11. A solo was sung by Mrs. J. Butler. A bale containing ten quilts has been sent away.

St. Andrew's W.M.S.

The W.M.S. of St. Andrew's Presbyterian Church held their September meeting at the home of Mrs. A. McGee, 3rd Concession of Rawdon, with an attendance of thirty. After the opening hymn, Mrs. Darius Green read the Scripture lesson. The keyword was Peace, and was responded to by many. Mrs. Bissonnette gave an excellent review of the Glad Tidings. Items on the Watch Tower were given by Mrs. Bissonnette and Mrs. Fargey. The topic was very interesting. Mrs. A. Fargey dealt with the Jews, Persians, and Hungarians in regard to the Church, and Mrs. B. Hoard spoke on the Field Secretaries and their work. Fourteen calls were made on the sick and shut-ins. Collection $3.10. The meeting closed with prayer by Mrs. Bissonnette. A lunch served by the hostess brought a pleasing meeting to a close.

Personals.

Mrs. W. Waller returned home on Sunday after a two weeks' visit with her son in Oshawa.

Miss Margaret Anderson left last week for St. Thomas, where she will resume her training in the Memorial Hospital.

Mrs. D. McGee and son Jack, of Toronto, are visiting Mr. and Mrs. J. McGee.

Miss Bessie Conley, who was camping at Moira Lake, came home on Wednesday.

Mrs. George Reynolds is enjoying a holiday in Detroit with relatives.

Mr. J. Wilson, agricultural representative, is attending the school fairs this week.

Miss Martha Welch, of Chicago, is visiting her brother, William Waller, and other friends.

Rev. A. N. Reid attended a meeting of the Kingston Presbytery, held in St. Peter's Presbyterian Church on Tuesday.

Mr. Wallace Brown is seriously ill at his home on Henry Street.

Mr. Will Spry, of the Royal Bank, Montreal, is visiting his father, Mr. James Spry.

Mr. Sam McGee, of Tweed, visited friends in town last Sunday.

Mr. and Mrs. Rosseau and daughter, of Flint, Michigan, were visitors at the home of Mr. and Mrs. W. Waller this week.

NEW PRESIDENT ASSUMES OFFICE

Mrs. W. W. Jones Presides for First Time at Meeting of W. M. S.

(Examiner Correspondence)

MILLBROOK, Sept. 14.—Mrs. Irwin Hatherly, Fifth Line, Cavan, was hostess for the September meeting of the Woman's Missionary Auxiliary of the United church, approximately sixty being in attendance.

The new president, Mrs. (Rev.) W. W. Jones, was in the chair for the first time, during the opening business period, Mrs. H. E. Smith, convenor of the group in charge, taking the remainder of the meeting.

Mrs. I. Hatherly read the Scriptural lesson from Psalm 104: 1-24, and Mrs. J. H. Might gave the devotional leaflet, "In the beginning, God."

The third study in connection with the W.M.S. work among the Indians of Canada, was then taken up, those furnishing information being: Mrs. David Lunn, Origin and Travels of the Indians; Mrs. John Rowland, Habits; Miss McFee, The First Call among the Indians; Mrs. Moore, Industrial Schools, their Management and Usefulness; Mrs. Will Armstrong, Industrial Schools in British Columbia.

By questions the facts were brought out that the W.M.S. has 8 boarding schools with 500 Indian children in attendance, and 6 day schools with 200 children as pupils, on the reserves; to these school supplies and clothing are contributed; there are besides several hospitals. In 1926-27 the amount contributed by the Auxiliaries and by government grants was $71,750.

Mrs. Smith made reference to some of the events in connection with the recent Jerusalm Conference, noting the fact that at the Edinburgh Conference in 1910 maps, with dark colorings to denote lands still untouched by the gospel, adorned the walls, but at Jerusalem maps were entirely absent, the emphasis being placed upon the dark places in so-called Christian lands. A deepened spiritual atmosphere and experience was strongly advocated to wipe out the sin, in national and individual life, that these dark spots may be eradicated.

The fact that delegates of all denominations met on Mount Olivet on the closing Sunday morning of the conference, and took communion together was also commented upon. An important outcome of the proceedings was mentioned when reference was made to the motion passed asking that special military protection, which has been given to missionaries and which has roused suspicion among the heathen people, should be for the future withdrawn.

A special musical item during the program was a group chorus, "Brighten the Corner Where You Are", the convenor telling the story of how this song came to be written previous to its being sung.

Rev. W. W. Jones offered the closing prayer.

Mrs. Hatherly was assisted by the group members in serving tea, when a very pleasant social hour was enjoyed about the tables. The menu did not follow conventional lines but included hot buttered corn, homemade bread and butter, and pie of various kinds. The formal vote of thanks was moved by Miss Burnham seconded by Mrs. J. A. Brown, and heartily endorsed by prolonged clapping of hands.

Mrs. F. P. Stinson will be hostess for the October meeting.

Personals.

Miss Mamie Fisher, who has been holidaying at Port Carling, Muskoka, for the past month, returned home on Tuesday.

Mr. and Mrs. J. H. George, who have been visiting friends at Bowmanville and Toronto, arrived home this week.

Mrs. C. W. Richards has returned home after an extended visit with her son, Dr. C. Alvin Richards, at Curtisville, Penn. Dr. and Mrs. Richards and baby daughter, Joan, motored over with Mrs. Richards, and also visited friends in Toronto, and Port Colborne while here.

Mr. and Mrs. Bert Fallis of Palmerston, and Mr. and Mrs. B. Enstone of Toronto, were week-end guests of Mr. and Mrs. A. J. Henderson.

Mr. and Mrs. R. Cocks, of Winona, spent the week-end as guests of Rev. R. J. and Mrs. Stillwell, and Mrs. W. H Byam. Mrs. Cocks is Rev. Mr. Stillwell's youngest daughter.

Miss May Byam of Toronto spent the week-end with her parents, Mr. and Mrs. J. L. Byam.

CAMPBELLFORD CELEBRATES

(Continued from Page 1)

again this season. Both remarks brought a round of applause.

A. A. Shaughnessy.

A. A. Shaughnessy, of the Standard Paving Company, assured the people that their streets were second to none and that they would be satisfied with them. They were both noiseless and dustless in so far as it was possble for them to be made. The company had done a great deal of work in cities and towns and the work in Campbellford was as good as could be done anywhere.

Dr. Robertson, M.P.P.

Dr. Robertson, M.P.P., Colborne, was greatly pleased at having been asked to attend the celebration. He recalled the days of thirty-five years ago when he had been a student at the Campbellford High school and had wandered up and down the muddy streets. He had seen much pavement in his day, he said, but he had never seen any that looked any better than the streets of this town. He congratulated the citizens and said that while he was naturally left handed, he had got in the least minded using his right hand to snip the ribbon which constituted the formal barrier of the streets.

George Greer.

George Greer, county road superintendent, did not think it fair that he should be asked to speak immediately after two members of parliament, but he was pleased to have the opporunity nevertheless. He touched briefly on the road work being done this year and sketched the progress made on the 300 miles of county roads during the last few years. This year, he said, the expenses had been exceptionally high due to the severity of the spring rains and freshets. Both had done more than the usual amount of damage to the roads.

F. J. McArthur.

F. J. McArthur, Cobourg, thought the opening of the streets last night was a decided advancement for the town of Campbellford. It was in this town, he said, that Hydro had its beginning in Eastern Ontario. It was a town of good homes, fine schools and beautiful churches, but it had never had good roads till this summer. This fact had been noted on the road maps and tourist guides. The town was in a unique position by owning its own power plant which was an asset instead of a liability as was the case in some places where the municipality owned their own plants. The Campbellford plant was able to assist materially in the town taxes, he pointed out.

While the town itself was a hive of industry, there was still one thing it required, a good road to the lake front. This must be a road that could be travelled with safety day or night, winter or summer. Rough, muddy roads in town were now a thing of the past, and so the road south must become. This remark brought cheers from the crowds. The Counties Council had already realized that permanent roads must be built and had apportioned a substantial sum for this work. The Provincial Government had also seen the same side of the question and would give the county dollar for dollar for the money thus expended, subject to the approval of the department. He appealed to the citizens to forget all dierences and get together in one strong movement for a paved road to the lake front. This, he said, was the birthday of the town of Campbellford. A permanent road to the front was its just heritage and he thought that the men of the country were in favor of the movement and would put their shoulders to the wheel. In closing he expressed his appreciation at being asked to be present and wished the citizens every prosperity for the future.

Major Belford.

Major the Rev. James Belford was pleased to see so many present at the affair and remarked on the interest which was thus shown. He thought, however, that there would have been more noise. He recalled the streets of Campbellford and their condition years ago. They reminded him of a story told of the main street of Winnipeg years ago, when a man said he was safe from the mud because he was sitting on top of a load of hay. In closing, the mayor congratulated the citizens on their fine streets and assured them that they would be an asset to the town, and that the town should and would be a leader in the entire district.

H. A. McIntyre, paving engineer, Dr. Wilson, Reeve of Hastings, F. J. Elliott, Reeve of Murray, Walter Fowlds, and Rev. N. Clarke Wallace also spoke.

This ended the formal portion of the program and the band began to play from a raised stand midway down the street. The Grand March for people in costume started off the fun, and it ended some hours later with square dancing at the northend and impromptu and unofficial speeches from the band stand at two in the morning. The main part of the round dancing took place in front of the Queen's Hotel, near the Bank of Montreal corner, and in between were milling crowds which threatened at any moment to surge in upon the dancers and stop the entire affair. So great was the crowd that at one time it was thought that the clog dancing and old-time fiddling would have to be cancelled, but Warden Davidson had the happy thought of moving the scene a few yards further north where the crowd was less dense and the program was continued to the end.

Thus Campbellford goes on the map as a small town with four miles of paved streets which are second to none anywhere. Already industry seems to be deriving some benefit from the improvement, and the next step in mind is to make sure of the paving of the road from Campbellford to Brighton. This was the suggestion made by every speaker last night. It was attacked from every angle and every speaker was firm in his belief that the work should be done with a minimum of delay. Already all the connecting links on the town are paved and well paved, and it only remains for the county or province, or both, to complete the twenty-odd miles that separate the town from a through paved highway and prosperity that is "Just around the corner."

Stomach Troubles, Headaches and Dizziness

When your stomach is sick, you are sick all over. If you can't digest your food, lose strength and "pep" get thin and nervous; and feel as tired when you get up as when you went to bed.

This was the condition of Mme. P. Royal, 2170 Letourneux street, Montreal. She says: "I was so nervous that the rustling of a newspaper upset me. My appetite had left me; indigestion was giving me a great deal of trouble; I could not sleep; and steadily lost weight. Tanlac soon had me eating again, corrected my stomach trouble, steadied my nerves, ran my weight up ten pounds, and made me feel just right in every way. Let Tanlac do for you what it did for this sufferer and thousands of others. It is marvelous to see how it corrects the most obstinate digestion troubles—relieves gas, pains in the stomach and bowels—how it restores the appetite, vigor, sound sleep and strong nerves.

Tanlac is made of roots, barks and herbs—Nature's own medicine for the sick. Get a bottle from your druggist today.

OBITUARY

MRS. SILAS GREEN.

(Examiner Correspondence).

STIRLING, Sept. 15.—The residents of this community were shocked when word came on Wednesday of the sudden death of Mrs. Silas Green of Picton, who was well and favorably known here, having come to Rawdon as a bride and residing near Sine until they sold their farm in 1917, removing to Bloomfield and thence to Picton a few years later.

Mrs. Green was formerly Miss Annie Louise Hamilton of Thurlow Township, near Zion's Hill. She leaves to mourn her death her husband, one daughter and two grandchildren, all of Picton, as well as other relatives in this section.

The funeral service was held at her late residence, Mary Street, Picton Burial in Stirling Cemetery.

The deceased was 60 years of age. In religion, a member of the Presbyterian Church. Rev. Mr. Scott of Picton conducted the service at the graveside, assisted by the Rev. Mr. Byers of St. John's Anglican Church, Stirling.

PATRICK HICKEY.

(Examiner Correspondence).

DOWNEYVILLE, Sept. 15. — The funeral of the late Patrick Hickey was held from his late residence Friday and was largely attended by friends and relatives from many surrounding districts. The deceased was a lifelong resident of here, and was esteemed by all who knew him. Rev. Father Galvin, who preached the funeral sermon, spoke of the sudden death and said it was a warning to all to be ready.

The pall-bearers were: Messrs. Charles Gerard, Joseph Clancy, Edward and Daniel Costello, and Albert and Charles S. Lucas, all friends of deceased.

Among those from a distance to attend were: Mr. and Mrs. Edward Hickey, Mr. and Mrs. Elmer Hickey, Messrs. Thomas Hickey, Frank Hickey, and Mr. and Mrs. Bernard Sullivan from Ennismore; Mr. and Mrs. Leonard Clancy, Mr. and Mrs. Daniel Donohue, Mr. and Mrs. W. J. Hoolihan, Mr. and Mrs. Stafford Sullivan and Mr. and Mrs. Timothy Carroll of Peterborough; Mr. and Mrs. Albert Ashmore and family, Messrs. F. Coty, Dave Crowley, J. Houzer, Percy Houzer and William Crowley, from Lindsay.

The sympathy of the community is extended the family in their sad bereavement.

THE COOK MEDICINE CO. TORONTO, ONT. (Formerly Windsor)

ROBERT EDWARD SUTTON.

(Examiner Staff Correspondence).

CAMPBELLFORD, Sept. 15.—Yesterday afternoon the many friends of the late Robert Edward Sutton paid their last respects and honored his memory as the remains of the little lad were laid to rest in Christ Church Cemetery here. After a brief prayer service at his parents' home, Healey Falls, the remains were brought to Christ Church. Interment was in Christ Church Cemetery immediately after the service in the church. The Rev. N. Clarke Wallace was the officiating clergyman. The pall-bearers were four of the friends of the deceased: Jack Liberty, Gerald Kellogg, Gordon Dunham and Ernest Sutton. Four smaller boys were flower-bearers: Douglas Liberty, Arthur Rowe, Max Nichols and Alex. Nicholas.

There were few dry eyes as the little white casket was carried slowly to the grave and laid to rest as the rector pronounced the last rites of the Christian Church. Many floral designs were silent tokens of the respect held for the unfortunate child and for the parents.

Robert Dutton was in his sixth year, and was known throughout the Healey Falls district as a most bright and promising child. He made friends quickly and was not one to treat a friendship lightly. Once his friend, always his friend. His death has cast a gloom over a large area, and there is much genuine sympathy felt for the bereaved family.

There remain to mourn the tragic loss, the parents, Mr. and Mrs. Thos. J. Dutton, Healey Falls; three brothers: Thomas in Toronto, Jack in Mount Clements, Mich., and Donald at home, age two years. There is one sister, Lydia, at home.

The following very effective road sign is to be seen in Saskatchewan:

Lakefield

LAKEFIELD, Sept. 14—(Examiner Correspondence). — Dr. J. R. Fraser and Messrs. J. F. Lillicrap and D. H. Welsh, were in Peterborough on Monday attending the funeral of the late Alexander FitzGerald.

Mr. FitzGerald, who was born in Smith township lived for many years very near the village and was well known and held in high regard and his death marks the passing of the last member of a family who were among the pioneers of Smith township. He was a member of the Lakefield company who in 1866 left home and family to defend their country from invasion. His death leaves only three of that gallant band who represented the "Old Guard" of Lakefield veterans, viz.: Messrs. John Edwards Sr., Alexander Fairbairn and Thomas Wallace.

Mrs. J. M. Simpson intertained at a delightful afternoon tea on Wednesday in honor of Miss Craw. Mrs. J. A. Porter poured tea and Mrs. J. W. Ridpath cut the ices. Miss Frankish assisted also at the tea table. The spacious reception rooms and dining room were decorated with gladioli in varied shades which were much admired.

At a meeting held on Tuesday evening in the Veterans Rooms, the Ladies' Auxiliary appointed Mrs. Thomas Junkin and Mrs. W. W. Leonard as delegates to the Provincial annual meeting to be held in October in Hamilton.

SPECIAL SERVICES HELD AT LAKEFIELD

Forty Hours' Devotion Well Attended—Rev. Father Kehoe Speaks.

(Examiner Correspondence)

LAKEFIELD, Sept. 13.—The Forty Hours Devotions were held in St. Paul's church, Lakefield, beginning on Friday last with Rev. Father Kehoe in charge. Father Kehoe concluded a mission in St. Mary's Parish, Young's Point, on Thursday and came on to Lakefield.

Mass was said at 5.30 a.m. and 8 a.m. each morning but Sunday and the evening service at 7.30.

Father Kehoe was a strong and convincing speaker, who urged a greater devotion to the church's services and more practice of the faith. "We are inclined to deride the Jesus," he said, "but when Our Divine Lord preached to the Jews he had always a crowd of listeners who followed him from one place to another. We, who profess to believe in the living presence of Christ at the Mass, are often careless in our attendance." He urged greater diligence in the church service so that "a better understanding of what Our Lord has meant to us all, may come and that in His service we may find our greatest joy. One of the most beautiful portions of the Scripture deals with the Master gathering the little children about him, healing them of their ills and teaching them and blessing them and it is as little children we should come to Him."

Special Speaker.

Venerable Archdeacon Warren, of Toronto, and formerly of St. John's, Lakefield, was the special preacher at both morning and evening services on Sunday in St. John's church.

Airplanes Make Visits.

On Thursday an airplane made a flight over the village. Flying quite low it circled over the entire village and then headed south. On Sunday a hydroplane flew northward about 9.30 a.m. flying high. These aerial visitors attract a good deal of notice from both children and adults and are always welcomed with lots of attention.

Personals.

Miss Isabel M. Stewart, Professor of Nursing Education, Columbia University, who has been spending a few days with her cousin, Mrs. W. W. Yale, returned to New York on Saturday.

Mr. Trude Waldon has returned to the village from Detroit, called back by the illness of his wife, who spent the summer in the village.

Bantams—Cock, Joe Tucker, V. Windsor; hen, Joe Tucker, V Windsor.

Rhode Island Red—Hen, Joe Tucker, F. Tanner; cock, Joe Tucker, F. Tanner; cockerel and pullet, C. S. Windsor.

Minorcs—Cock and hen, H. James.

Grain.

Bald spring wheat—H. James.

White oats—W. R. Parks.

Roots, Etc.

Early potatoes—John Buchanan, A. W. Downing.

Late potatoes—A. W. Downing, W. R. Parks.

Swede turnips—W. R. Parks, H. McColl.

Greystone—John Buchanan.

Mangolds—John Buchanan, W. R. Parks.

Corn—S. Windsor, E. H. Phillips.

Field carrots—W. Earnshaw, Jr., H. McColl.

Early horn carrots—G. Kilborn, H. James.

Pumpkins—E. H. Phillips, Mrs. E. T. Sherven.

Garden Products.

Parsnips—S. Windsor, A. W. Downing.

Beets—J. Downing, Mrs. S. Wilson.

Cabbage—C. McFadden, W. Hales.

Variety of vegetables—J. Downing, C. Smith.

Celery—Herb Tucker.

Table corn—A. W. Downing, Mrs. E. T. Sherven.

Table squash—Mrs. E. T. Sherven, C. McFadden.

Watermelons—Mrs. E. T. Sherven.

Citrons Mrs. E. T. Sherven, A. W. Downing.

Potato onions—A. W. Downing, C. McFadden.

Tomatoes—W. R. Parks, W. Lean.

Cucumbers—W. R. Parks, W. Lean.

Apples—W. R. Parks, P. Tanner.

Crabapples—P. Tanner.

Domestic Sciences.

Bread — Mrs. Buchanan, Mrs. C. McFadden.

Buns—Mrs. C. McFadden.

Tea biscuits—Mrs. C. S. Windsor, Mrs. C. McFadden.

Cookies—Mrs. Joe Tucker, Mrs. John Tucker.

Johnny cake—Mrs. H. James.

Sponge cake—Mrs. O. James, Mrs. C. S. Windsor.

Layer cake—Helen Lean.

Apple pie—Mrs. Ben Coones, Mrs. O. James.

Pumpkin pie—Mrs. John Buchanan.

Best pie, any variety—Mrs. J. Downing.

Collection of home-made baking — Mrs. W. Hales.

Special, collection of pickles—Mrs. C. S. Windsor, Mrs. Ben Coones.

Maple syrup—Herb Tucker.

Dairy Products.

Butter—5-lb. crock, Mrs. F. McFadden; 10-lb. crock, Mrs. Joe Tucker; 18-lb. crock, Mrs. A. McColl; 5-lb. prints, Mrs. Joe Tucker; 10-lb prints, Mrs. A. McColl, Mrs. C. McFadden.

Dozen hens' eggs—Mrs. W. Hales, Mrs. C. S. Windsor.

Miscellaneous.

Collection of house plants—Mrs. W. Lean, Mrs. W. Hales.

Geraniums—Mrs. Ben Coones, Mrs. W. Hales.

Dahlias—W. R. Parks, Mrs. J. Downing.

Hand bouquet—Mrs. A. McColl, Mrs. C. S. Windsor.

Table bouquet — Mrs. A. McColl, Mrs. O. James.

Collection of ferns—Mrs. A. Downing.

Foliage—Mrs. C. S. Windsor, Mrs. Ben Coones.

Cabinet work, special—T. J. Wilson.

Millbrook Fall Fair

Neighborly Notes

(Please 'phone items to 1600 or 1601)

Mrs. R. M. Dennistoun and Miss Beck Dennistoun, of Winnipeg, who are en route to England and the Continent, are spending the week end with Mr. and Mrs. A. Stevenson, Aylmer street.

• • •

Miss Amelia Forster, of Toronto, is spending her vacation with the Misses Marjorie and Gertrude Adamson.

• • •

Mr. and Mrs. Robert Brown and children, Douglas, Billie and Dorothy, of Belleville, are returning today to their home after spending a pleasant vacation with Mr and Mrs. Pryce Adamson and family, in the city.

• • •

Mr. and Mrs. Frank Burkholder and son Allan, of Toronto, are week end guests of Mr. and Mrs. Norman Killingbeck.

• • •

Mr. and Mrs. Arthur L. Amys have returned to the city after spending the summer at their cottage at Stoney Lake.

• • •

Mr. and Mrs. Richard Heffernan, of Asphodel, announce the engagement of their eldest daughter, Mary Monica, to Cecil Joseph Lynch, only son of Mr. Thos. J. Lynch, of Hastings—the marriage to take place the latter part of September.

• • •

Mr. and Mrs. Wilbur Barrie and son ,of Canton, Ohio, were visitors this week at the home of Mr. and Mrs. C. W. Morton, Stewart street.

• • •

Mr. and Mrs. Percy McIlmoyle and Mr. and Mrs. Melville Sanderson, of Selwyn, motored to Oshawa this week to visit friends.

• • •

Miss Bertha Best, R.N., of Gilmour street, is visiting friends in Auburn, N.Y.

• • •

Mr. and Mrs. H. L. Burke motored from Chicago, to visit the former's mother, Mrs. E. M. Burke, who is ill at the home of her daughter, Mrs. Joseph Meagher, 260 Aylmer street.

• • •

Mr. and Mrs. W. McKee Bingham and daughter Marguerite arrived in the city from Cobourg on Thursday and are residing at the Stevens Apartments on McDonell street.

• • •

Mrs. A. E. Chesher, of Hopeville, is visiting her parents, Mr. and Mrs. W. H. Moore, 67 Morrow street.

• • •

Mrs. Plummer and son Lloyd, and Mr. Bruce Plummer, of Toronto, are guests of Mr. and Mrs. Norman Killingbeck.

• • •

Mr. and Mrs. George Curtis, Peterborough, announce the engagement of their only daughter, Eunice Mabel, to Mr. George Lewis Cole, son of Mr. and Mrs. George L. Cole, Leamington. The marriage to take place Saturday, October the sixth.

• • •

Mr. J. J. Grisdale, Cross street, with Mrs. Grisdale, and Miss Eleanor Grisdale, motored to Windsor today, where Mr. Grisdale will be a delegate to the F.A.L.C., (Federated Association of Letter Carriers) meeting in convention there from Monday to Friday of next week.

• • •

Mrs. Arthur Stevenson and her daughter, Mrs. Lennox McLaren, and baby, of Toronto, have returned from Stoney Lake, where they have been spending the summer in Mrs. McMcLaren's cottage.

• • •

Mr. and Mrs. William Smith of Port Hope, have returned home after attending the exhibition and visiting at the home of Mr. and Mrs. William L. Tate, 495 Bolivar street.

• • •

Mr. and Mrs. Robert Brown and children, of Belleville, spent a few days this week with Mrs. Brown's parents, Mr. and Mrs. William Adamson in Lakefield.

• • •

Mr. I. Magee, Charlotte street is celebrating a birthday to-day.

• • •

Miss Carrie Walters of Riverside, California, was a visitor this week at the home of Mr. and Mrs. C. W. Morton, 213 Stewart street.

• • •

Mr. and Mrs. Harry Reid and children, of Bobcaygeon, are spending the week end with Mr. and Mrs. Norman Killingbeck.

• • •

Mr. and Mrs. Percy McIlmoyle, with Miss E. Nicholls and Mr. H. C. Stabler, motored to Cobourg and Grafton on Friday.

• • •

Mr. Sam Hunter of "The Star" staff, Toronto, and Mrs. Hunter have closed their cottage at Stoney Lake, after spending the summer there. Mr. Hunter has been a resident at the Lakes during the summer seasons of nearly forty years.

• • •

Although the summer colony at Chemong Park is sadly depleted by the exodus of cottagers to the city, on the re-opening of the schools for the fall term, still there are a number of people who are staying on for the lovely days of September and October. Mr. and Mrs. Griffin of California are still in Mr. Jordan's cottage and Mrs Hartshorn is remaining at the Park for some time. Mrs. J. D. Tully is in her cottage and Mrs. M. Pope is still in her house. Mr. Dan Sullivan's cottage on the main road is as brightly decorated as it was in the warm days of summer, and Mr. Wolff and Mr. and Mrs. Desbecker are remaining on at the Park. Mrs Felix Wolff has returned to Hamilton. Gerald McElhiney, who has been camping at Chemong for the past fortnight, returns to Toronto to-morrow.

Mr. William Coros of Toronto, formerly of Peterborough, with his cousins, Mr. and Mrs. Coros of Buffalo, N.Y., and their small son, has been staying at Mr. Sullivan's cottage for the past week. Miss Amy Clementi and her sisters of Stewart street ,have taken Mrs. M. L. Henry's cottage for September. Mrs. T C. Ephgrave and Mrs. J. P. Pulkinghorn are staying on in their summer homes, and Mr. and Mrs. T. H. Gilgour are also remaining at the Park. Mrs. Gilgour has her aunt and her husband, Mr. and Mrs. Love of Picton, as guests. At the Island, Mr. and Mrs. W. J. Hopwood have been spending some time, and Mr. Hopwood's sister, Mrs. Wood of Winnipeg, has been with them. Mr. and Mrs. J. E. Patte and family are in their cottage, with Mrs. Patte's father, Mr. Ray, visiting them. Dr. and Mrs. McNulty have not yet closed their cottage, which has been enlarged and repaired considerably this season, the roof having ben renewed and a large stone fireplace built into the living-room, while a new dining-room and kitchen have been added. Mrs. Benedict of Lockport, N.Y., and her sister, Mrs. Bass, are still in one of Mrs. Pope's cottages. Mrs. McFarlane and family of Toronto, are also remaining at the Park in their cottage. Mrs. A. E. Sherwood is in her cottage near the Pavilion, with her sister, Mrs. F. D. Kerr, as a guest. Many of the regular cottagers are utilizing their homes for weekend trips, Mr. and Mrs. F. C. Webber, Mr. and Mrs. P. L. Allison and Mr. and Mrs. J. A. Robinson, often going out this way.

INTERESTING TO COOKS.

Ptomaine Poisoning From Lemon Pies in Tin Plates.

KAMLOOPS, B.C., Sept. 15 (CP).—Housewives may find an item of interest in a discharge report of the hospital here. Cured of ptomaine poisoning three railway employees were told that they must never again eat lemon pie from tin plates.

Campbellford

(Examiner Staff Correspondence)

CAMPBELLFORD, September 15.—Miss Nellie Davidson, Toronto, is spending the week-end with her parents, Mr. and Mrs. C. H. Davidson, Mill Street.

Mrs. Vandewater and son, Toronto, is spending the week-end with her parents, Mr. and Mrs. T. L. Diamond, Front Street.

THE MIRROR OF THE MODE

By Mary Marshall.

Drawn work, fine embroidery and pin tucks give elaboration to this frock of blue handkerchief linen. The narrow stitch cuff is fastened with two very small buttons and the belt has a mother-of-pearl buckle.

Cotton has its place in the autumn and winter wardrobe just as surely as wool has its place in the spring and summer collection of clothes. And this year it is possible to buy new types of cotton and linen materials designed specially for autumn—showing designs of the newer sort and colors of the rich bright shades that have been stressed for the coming season.

Just as it is possible to get woollen materials of so light and fine a weave as to suggest silk, so now it is possible to get cottons that combine some of the advantages of woolens and silks retaining their cotton characteristics as well. The chief advantages of cotton are, I suppose, its low cost and the ease with which it may be washed.

The other day I saw a really charming little ensemble suitable for street wear for many weeks to come and very nice for indoor wear all autumn. It consisted of a skirt made of pleated figured cotton foulard. The pleats were fairly wide side pleats that could without difficulty be put in place after the skirt was washed but it was of a dark figured design so that it would not need to be washed any sooner than a silk skirt would have to be sent to the cleaners. With this was worn a blouse of fine cotton voile and over it a hip length jacket of velveteen—which is, of course, also cotton. If you have not seen any of the new figured cotton foulards you cannot guess how attractive they are.

For the young girl who wishes to have a number of attractive evening frocks at small cost I cannot urge too strongly the use of some of the lovely light cotton fabrics which have been used so successfully for evening frocks during the summer. Organdie in light pastel tones makes a frock that compares favorably with the frock of tulle, and there are some new dotted swisses with metal threads that are as interesting as any of the new silk materials.

FAVORITE RECIPE.

CORN STARCH CAKE

(Contributed by Mrs. J. Armstrong, Cavan.)

One cup white sugar, ½ cup butter, 3 eggs, 3-4 cup milk, 1½ cups flour, ½ cup corn starch, 1 teaspoon vanilla, 2 teaspoons baking powder.

Cream the butter and sugar, add the eggs, one at a time and beat well.

Dissolve the corn starch in milk, sift baking powder in flour 3 times. Add flavoring.

COMPOT OF APPLES

(Contributed by Mrs. E.R.)

In a shallow pan make a syrup of about 1 cup sugar to 2 cups water. Peel 5 medium-sized apples, remove cores without breaking apples, and then simmer in the syrup over gentle heat with the lid on saucepan until tender. They will need careful cooking or they will fall and the appearance be spoilt. When cooked, lift out apples on to a dish. Pass the syrup through a strainer, then boil up for 10 minute to reduce the quantity. Color with a few drops of cochineal or two teaspoonfuls of any pink jelly crystals (if the latter, see that they are all dissolved). Pour round the apples, but do not cover with the syrup. Before serving put a little whipped cream on the top of each apple.

The state of Ohio has ordered 1,800,000 license plates for automobiles for 1929.

THE WHATNOT

A Place for Little Bits of Everything of Local Interest

By MARION

THE discussion I started last Saturday about men eating downtown developed into a pleasing little argument over a card table this week, the gist of which I will pass on. It had to do with whether women spend too much of their time on tasks which are not appreciated by their menfolk.

• • • • •

I suppose it is every housewife's privilege to keep house as much to suit her own standards of good housewifery as to please her husband and the other masculine members of the family. At the same time, I think it is worth while considering just what phases of the housewifely achievements are most appreciated by the men and what usually pass unrecognized.

• • • • •

Because, if women want to entice their men to stay at home they should concentrate on those things which attract and please the men. That sounds quite domatic, but is it not correct?

• • • • •

There are a great many things that many, many housewives do with the greatest compunction which might just as well be left undone for all the appreciation they receive from the men of the family.

• • • • •

Here are both sides of the argument:

Men don't appreciate fine hand-worked table linens, towels, etc.

• • •

Providing curtains and drapery are tidy and effective it doesn't matter to a man whether they took hours to make or only minutes.

• • •

Men don't notice whether the house is clean or not, or whether the floors have a high polish.

Men like to have these things show up when they bring guests home.

• • •

Draperies that match the house furnishings of which they form a part cannot help but be so effective that men will notice them.

• • •

Men may not comment on these things because they take them for granted, but they certainly notice.

• • • • •

What do you think of it? Of course, in my opinion, there is a difference in men in this matter of appreciation—but for the woman who is still old fashioned enough to keep house largely to please her husband it seems worthwhile to make note of the things which he really does appreciate. She can concentrate on these, and save her energy from things which he fails to notice.

• • • • •

All of this undoubtedly has a bearing on the dining-out question, and I am sure you will be looking forward to reading next week what Peterborough women think of the problem.

• • • • • •

Have you seen the new ribbon flowers used to trim nightgowns and other dainty pieces of lingerie? You may buy them ready made or if you want to save money and have a lot of amusement, you can make them yourself. A set of these little ornaments makes a charming present or bridge prize. I will send you full instructions, with sketch, if you will return the coupon printed to-day.

• • • • • •

I was told in a George street store this week that scarfs have a slenderizing effect on the large woman. Whether it is true or not, it has a convincing sound, and certainly no one will be out of step with dame fashion if she wears a fur scarf or throw.

• • • • • •

Scarfs are to be worn, I am told, with all kinds of costumes, suits, coats and ensembles. Blue, silver and cross fox are to be popular, and red fox has its place, too, as an interesting complement to beige.

• • • • • •

Do you know, you women, that you may soon have five pieces of clothing to pick up after your husbands, instead of the present three? A men's clothier told me that an effort is being made to popularize the five piece suit—the extra pieces being a pair of striped trousers and a double-breastd waistcoat.

• • • • • •

When selecting your fall coat you will be struck by the generous use of fur trimming. Every outfitter in Peterborough has a stock of fur-necked coats, and certainly the collars form a flattering frame for the face.

• • • • • •

The short story, printed to-day, is by an Ashburnham girl. It shows real talent.

• • • • • •

To-day's "Song of Love" is by Mrs. E. R., for whom so many neighbors have been sending in recipes for butterscotch pie. Isn't this exchange nice?

DESCRIPTION OF EDMONTON LADY

Clementine Poitras a French Canadian, An Interesting Study.

EDMONTON, Alta., Sept. 15 (CP).—Edna Kells writing in the Journal describes the original talent of a young woman of this city.

Clementine Poitras is a French Canadian, born in Ely, Sheffield county, Quebec. From there the family migrated to California and for many years lived at the Old Mission, San Diego, making their home in the Mission Farm House and operating the farm. When the priests left the mission, the Poitras family moved into the Mission building, and one of Clementine's daily tasks was to show visitors through the mission and describe the points of interest.

Most of the tourists, after the manner of tourists, wanted to carry away some tangible remembrance of the visit, so the young guide got into the way of making souvenirs.

Miss Poitras first took up what she calls her "paper work" in Chicago, where at one time she worked for nine months with a prominent crepe paper company. While there she evolved a process of her own for making a paper pulp which she could mould, and which when dry is hard and almost indestructible. It is not a papier mache, she explained, but just what it is, is not for the world at large to know.

Most interesting models in miniature are made by her clever fingers. Here is a figure of St. Theresa of the Little Flower, in her brown gown, cream cloak and black veil. There a miniature figure of a priest. Incidentally, in all the figures a lifelike expression is obtained.

While the figure work is very interesting, Miss Poitras makes a specialty of her birds. These she copies from bird books and nature, fashioning them in different natural positions and coloring them in lifelike colors. When finished they are mounted on wires to be used as place card holders or as ornaments.

The accessories of her groups are also made by Miss Poitras, who uses what comes to her hand for that purpose. Furniture is formed of fine wire and upholstered in old kid gloves for brocade. Fine wire is also used for fashioning the frames of tiny witches' lanterns with their tiny wax candles, incense burners and other paraphernalia.

ON THE STAGE OF LIFE.

By Ann Gray.

Joan sat alone in her green and silver bedroom fighting a battle which would have done Napolean Boneparte himself great credit. It was a struggle to the bitter end between her love for a man and her love for her only sister.

She knew that her sister Gay loved Thorwald Bailey, the man whom she herself loved and she hated to give him up. Neither Thorwald or Gay had ever said anything to her about this love but to Joan the symptoms were all too plain. Gay was letter-perfect in the ancient technic of capturing a husband and she was practising her countless arts to make Thorwald fall in love with her. If he lost a golf tournament Gay was always eager to assure him that it was the fault of the course or of some opponent who had spoken loudly when he was teeing off. If he did not get a hoped-for contract Gay insisted that it was because all the bridge-builders in Canada had taken up arms against him. Then she was always asking in an adorable childish way for his advice on little points—but, Joan noticed, she never seemed to take it. Her tremendous respect for Thorwald's position was flattering, and she was always boasting about him as a "famous engineer." Often when she and Joan and Thorwald and Peter Summers—a young man with a perfectly unreasonable attachment for Gay but also the possessor of a perfectly unreasonable shyness that prevented him from asking her to marry him—were alone, Joan would look up quickly to find Gay's eyes fixed on Thorwald's face in an ecstasy of adoration, and when any one would speak to Gay her eyes would move away as though they were being dragged, reluctantly, with an effort. . . . Yes, Joan's sister was in love with Joan's sweetheart.

A terrible sense of loneliness and futility came over Joan as she faced her problem. That Thorwald was going to propose to her that evening was a certainty, and that she was going to refuse was just as much of a certainty. She couldn't marry the man her sister loved—she couldn't—she couldn't——

At this point in her cogitations she was interrupted by the advent of her maid who bore an enormous bouquet of lilies and camelias. They were from Thorwald who was waiting for her downstairs.

She put her cheeks down into the cool flowers and drew their fragrance up her nostrils, while the maid, avid to know all, watched her curiously. After a long, tense silence she dropped a light kiss on one of the lovely creamy flowers, a farewell kiss, for she knew that after what she was going to say to Thorwald to-night he would never send her any more flowers.

The maid garbed her in a demure mauve and rose gown a picture frock, down to her ankles, bouffant-skirted, tight-bodiced. She looked incredibly slender and fragile in it.

Thorwald was standing at the foot of the stairs when she went down.

"Jove!" he said. "Is it really you?"

"Myself in person," rejoined Joan trying to act light hearted. "Now, sweet lamb, please don't say that I'm pretty enough to go into the movies. That is what John and Sam and Alec always tell me. Isn't it funny, they seem to think it is a great compliment."

She was standing quite close to him, talking nonsense to fill in space so that his lips could not utter what his eyes looked.

"Come on in and sit down." Now she was leading the way across the mirroring parquetry of the hall into the shadowy, softly tinted living-room. "I just feel like a long, long smoke and a long, long drink, don't you? I'm afraid though, that my fondness for the black-and-tans is going to lead me to the dogs. I suppose I really should cut them out of my diet but I do so adore them."

But for all her attempts she could not avoid the inevitable. Before she could stop him his arms were about her and her face was against the rough cloth of his suit.

"Oh, my dearest one—my love! Marry me."

"Don't touch me!" Joan fought to free herself. "I don't love you and I will never, never marry you. Please go away and never see me again."

Thorwald was astonished. "But I thought you loved me. Why did you lead me to believe it if you did not?"

"I

"I never led you to believe anything." Joan felt her voice growing brittle with tenseness. In a minute it might quiver, or break and then he would know that she was only acting. "I could not morally live with a man I do not love. I think I almost hate you. Now go away."

"Do you know," he answered bitterly, "I want you more than anything else in the whole world."

Joan could not meet his hurt blue eyes. She picked up a watch-shaped vanity case of damascened gold and ivory from a reading-table and stood regarding it studiously. "I can't help that. I don't love you!"

The tenseness of the situation was broken by a tinkling laugh out in the hall and the next minute Gay, wearing a mink coat over her small, svelte gown, stood in the doorway. Never had Joan seen her sophisticated beauty so bright and polished and complete. Her crimson mouth her glowing eyes, her clear pale skin seemed to radiate light. Behind her stood Peter, bursting with pride.

"Congratulate me, darlings," she cried in silvery tones. "I am now Mrs. Peter Summers. We were married about half an hour ago and I am the happiest person in the wide, wicked world."

"Married?" Joan stammered. Her widened eyes met Gay's happy ones. "But I thought—I understood—I was under the impression that you loved Thorwald."

Gay's clear laughter rang out again. "You adorable silly! Of course not. Thorwald is awfully sweet and all that and I'm not sure that if I hadn't fallen so hard for Peter that I might have lost my heart to him, but as it was, I was only pretending to be enamoured with him so that Peter would get jealous and pop the all-important question. That was the only way I could see of getting around Peter's shyness. And you can bet your tintype it worked well."

Joan dropped into a chair, her eyes half closed, her face the colour of the big pearls in her ears. For several seconds she remained motionless. Then she burst into passionate tears.

"Thorwald, dearest, I do love you. I thought Gay loved you and that was why I said I did not love you. I was only acting Thorwald, and acting a horrid, horrid part. Can you ever forgive me?"

"Oh, Joan!" Gently, he took her into his arms. "Oh, Joan! What makes you so sweet and dear and generous? What makes you——"

She kissed him, stopping his words. "I'm not, Thorwald! But Gay has meant so much to me ever since mother and father died and I love her so that I was prepared to sacrifice everything to make her happy. She has always been so sweet to me, too, that I felt I owed her something. But my love for you——"

This time he stopped her words, and stopped them so effectively that she had not time to make any more confessions for the rest of the evening.

Experts say that our digestive organs need 16 hours' rest out of every 24 hours, and that one good meal is sufficient.

S-O-S

If you have a problem, or want advice, or a recipe, the neighbors will be glad to help out. Write to Marion, who will present your request.

BUTTERSCOTCH PIE

(Kindly contributed by Mrs. O. J., for Mrs. E. R.)

4 tablespoons butter
3½ tablespoons cornstarch
1 cup brown sugar
2½ cups milk
1 egg
½ teaspoon salt
1½ tablespoons caramel.

1. Melt butter, add cornstarch; blend well.
2. Add sugar, then scalded milk.
3. Cook over hot water, stirring constantly until thick.
4. Cook 45 minutes, stirring every 10 minutes.
5. Add yolk of egg, well beaten, caramel and salt.
6. Cook five minutes longer; pour into baked pie crust; cover with white of egg, beaten stiff; brown in a hot oven.

To restore the fresh appearance of the navy blue hat mentioned in S.O.S try brushing with a weak solution of ammonia and water.

WHEN PRESERVING TOMATOES use Parke's Preservine for success. It does not alter the color or flavor of the tomatoes. Preservine can be used on other fruits and vegetables with entire satisfaction. 25c and 50c.—Bond's Drug Store, corner George and Hunter streets.

Parcel post packages in Brazil must be marked, "If undeliverable abandon," or "If undeliverable, return to sender."

WOMEN'S PAGE

WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright,
Where nothing stains the pleasure sweet,
Or dims the radiant light.
No unkind word our lips shall pass,
No envy sour the mind,
But each shall seek the common weal,
The good of all mankind.

WARSAW

Some of the actual work that has been done by Institute branches within the district reached by The Examiner are providing lights, providing first-aid kits for schools, providing food, clothing, or fuel for needy families, helping with clothing, quilts, dishes, and in other ways where fires have destroyed everything, sending flowers and letters to the sick, planting trees, renovated a town hall, conducting choral classes, paying hospital fees, aiding Armenian boys at Georgetown, building memorial gates, aiding with the school fairs.

They have been the means of getting some of the cemeteries tidied up. They have gotten much helpful literature into many homes and much of this has been of great benefit. They have seen that children got to school. They have helped young mothers, and provided layettes. They have held literary classes among themselves, and garment-making classes for the younger girls for whole seasons. The list might go on and on.

MADOC

The ladies at Cooper are contemplating the organization of a branch of the Women's Institute in the near future. Mrs. George Bailey of Harold, President of the North Hastings District will attend to assist in the organization and the election of the new officers.

MIL ROOK.

Among the 'do's' suggested for Institute members is this: "Pass along the good things you know from experience."

This may be carried out at the regular meetings, and the wise president, with her executive, will plan to have opportunity for helpful hints being given somewhere on the program, the response to the roll call being a good place for this feature. Suggestions officially listed along this line include: A hot supper dish; a wholesome salad; ways of using leftover vegetables; a menu for a well-balanced meal; points in table etiquette; ways of training children in health habits; making my head save my heels; a use for old papers, felt hats, wool, silk, or cotton stockings; helpful, homemade household devices; a tried menu for an evening party; some good games for a party, either lawn, or evening.

Another suggestion, from an official source, carries with it a point often overlooked, more through carelessness than intention: "When a member has done well, tell her so"; possibly this contains within itself the further thought: "Do your criticising at the meeting, and not afterward; and do not fail to follow any criticism offered with a constructive suggestion if possible."

Probably the manner in which the Women's Institute is broadening in its outlook and activities will come as a surprise to even the majority of the members themselves. Some plans mentioned at a board meeting contain such suggestions as co-operation with the Canadian bookmen in bringing to the attention of the institutes good literature, emphasizing particularly Canadian authors. And as a "follow-up" to this there should be included in some programs a chance for one or more members to present 'interesting bits from a book I liked.'

Co-operation with the League of Nations is strongly recommended to individual societies, by taking out membership and thus securing literature; the plan of having a resume of some of this reading matter given by one or more members at each month'y meeting would lead to an intelligent interest in the great work being accomplished, and bring the objects of the league clearly before the women of our land. If is hoped that the ideal of 'peace on earth, good-will among men' might thus be brought nearer to reality.

The recommendation by the board that district presidents hold office for two years has certainly been endorsed in practice in this East Durham section, since Mrs. T. A. Skitch, of Bailieboro who has efficiently filled the office since she was first elected to the position has been returned to the chair at each annual meeting for quite a number of years—as far as can be learned since 1912.

Mrs. Skitch followed Mrs. Frank Irwin, of Perrytown, who took office in 1909, and previous to her time Mrs. (Dr.) Hassard, of Millbrook, was the district president.

CAVAN.

At the Canadian National Exhibition this year, in Toronto the Federated Women's Institutes were represented by but three provinces, but the three booths presented a clear picture of the scope and variety of the work that is carried on in all branches of the work of Women's Institutes, the first state department of home-making in the world.

Ontario's booth, in charge of Miss Emily J. Guest, told the story in poster and picture, and with sample programs from the branches of the state department of the Women's Institute work—how the government stands ready to help the rural women of Canada. Standing committees are maintained on health, home economics, education, agriculture, legislation, immigration, relief, community activities and historical research, and help is gladly given along any of these lines at any time.

Quebec had a wonderful exhibit of the beautiful handicraft work of her women as shown in colorful rugs, and handsome lines. Her slogan is, "From the field to the loom, and from the loom to the wearer"—"and it wears forever," remarked one who knows. A complete little loom was shown and every article in the booth had been made from home-grown flax, dyed and spun, or woven, by the woman who raised it.

Quebec has flourishing institutes, carrying on in both languages.

Alberta's booth was under the capable direction of Mrs. Rodell.

Demonstrations were carried on, showing the proper kind of shoes to wear; a wheat demonstration and a dairy demonstration.

By the Dufferin gate, there was a Women's Institute tent, a new feature this year—where an interesting program was held each day and where all rural women were warmly welcomed.

Thus the Women's Institutes are constantly extending their activities. In attending the fair, visits to this tent were like meeting old friends in new places, the common interests making all women friends.

MARMORA.

(Examiner Correspondence)

MARMORA, Sept. 15. — Officers and directors of Marmora Women's Institute for the past six years are as follows:

1922.

President—Mrs. H. W. Sabine.
1st Vice-President—Mrs. C. Nichol
2nd Vice-President—Mrs. F. N Marett.
Secretary-Treasurer — Mrs. D. E. Bell.
Directors—Mesdames C. A. Bleecker, D. Thomson and C. W. Cadney.

1923.

President—Mrs. C. Nichol.
1st Vice-President — Mrs. W. F. Bowen.
2nd Vice-President—Mrs. V. Pinner.
Secretary-Treasurer — Mrs. W. E. Bell.
Directors—Mesdames M. S. Doupe, D. Thomson and C. W. Gladney.
District Director—Mrs. E. Rose.

1924.

President—Mrs. W. F. Bowen.
1st Vice-President—Mrs. C. Nichol.
2nd Vice-President—Mrs V. Pinner
Secretary-Treasurer — Mrs. C. A. Bleecker.
Directors—Mesdames D. Thomson, C. W. Gladney and D. E. Bell.
District Director—Mrs. E. Rose.

1925.

President—Mrs. W. F. Bowen.
1st Vice-President—Mrs. C. Nichol
2nd Vice-President—Mrs. D. F. Bell
Secretary-Treasurer — Mrs. F. R. Wells.
Directors—Mesdames D. Thomson C. W. Gladney and C. A. Bleecker.
District Director—Mrs. H. M. Jones

1926.

President—Mrs. W. F. Bowen.
1st Vice-President—Mrs. C. Nichol
2nd Vice-President—Mrs. D. E. Bell
Secretary-Treasurer — Mrs. F. R. Wells.
Directors—Mesdames D. Thomson, C. W. Gladney and C. A. Bleecker.
District Director—Mrs. W. A. Sanderson.

1927.

President—Mrs. W. F. Bowen.
1st Vice-President—Mrs. C. Nichol
2nd Vice-President—Mrs. D. E. Bell.
Secretary-Treasurer — Mrs. F. R Wells.
Directors—Mesdames C. Cordeniere, D. Curtis and E. C. Prentice.
District Director—Mrs. D. E. Bell.

For the five years ending May 31, 1927, the institute donated to the Library Board no less than four hundred and ten dollars, besides assisting worthy charitable objects. There is no questioning the fact that the Women's Institute is one of the most useful organizations in the village of Marmora.

KITCHEN Utensils, Sinks, Bathrooms, Floors are safely cleaned with Old Dutch. It is a natural detergent, and contains no lye, acids or hard grit to scratch or mar the finest enamel surfaces. For economy, comfort and safety's sake use Old Dutch Cleanser. There's nothing else like it.

SONGS OF LOVE

TO ....

Tell me, who trampled on your naked heart?
What cut that husky cadence in your throat.
And mad your least word bitter apart
From kindliness in your singing note?

I know. He laid his cheek against your own
And you thought all your life was mad for this,
And walked the world resplendent and alone
Waiting for evening and a lover's kiss.

I know. But something happened, God knows how,
And then his eyes were alien, and you tore
At silence, and what you remember now
Edges your words with sacrilege and more.

Most women wear some rosemary and rue,
But, oh, I wish that I could comfort you.

—Nancy Shores.

MARION'S MAIL

Address correspondence to Marion at The Examiner Office.

HERE is a letter that gives me a real thrill. It comes from the Women's Page Editor of another daily newspaper.

"My dear Marion:—

"Just a little word of appreciation of your work contained on 'The Woman's Page' of The Examiner. I have done a little of this work from time to time, but as I have several other duties cannot manage it permanently. I must tell you that in looking over the Women's Pages on my desk each morning, I look first for your page. It is so 'homey' and seems really more like speaking to your readers than the ordinary paper talks. It's such an 'inviting' looking page, and I am sure there is not a woman in your city who does not read it.

"Please accept my congratulations and best wishes for your continued success.

"I am, cordially yours,
"JOCELYN,
"Woman's Page Editor."

If that isn't a nice bouquet to have handed The Examiner! Really, Jocelyn, I'm afraid my turban won't fit now!

* * *

"Dear Marion,

"We like your page at our house, and like many others I am coming to you for help.

"I enclose a picture of a boy's suit and would like to get a pattern like it for a boy six or seven years old. Would like the breeches pattern, but don't know where I coul'd get it. I thought you might have something to do with the patterns that were printed in The Examiner, and might have a pattern like this printed. Thanking you,

Yours sincerely,
"MARION'S MOTHER."

Thanks a lot for your nice expression of appreciation, Mother. As a matter of fact, I haven't anything to do with the patterns we print, but that won't stop my getting you the pattern you want, if I can. Come again.

* * *

"Dear Marion:—

"Could you please send me the following: the copy of the sleeveless jacket, the pointed slip, and the camiknicker, and oblige. I want to thank you kindly for the many helpful suggestions I get every day from your page.

"MRS. J. E. S."

The helps have been sent you, Mrs. J. E. S., except the sleeveless jacket instructions. I had a lot of these printed, but there was such a demand than I ran out—and can't get any more printed. At first I had 50 of each help printed, then 100, then 150, and now I am getting 250. And even so, I have only about 20 of the pointed slip and about 15 of the camiknicker instructions left! However, I'll keep on raising the number until I get enough to go around! I'm sorry these others ran out.

Thanks, Mrs. J. E. S., for the nice things you say about the suggestions. I'm delighted that so many neighbors are rallying around to help me answer the SOS calls—it's really wonderful. Write again soon.

* * *

"Dear Marion,

"I think your page is the most wonderful thing for women. I read it first thing, even when you have some red-letter scandal on the front page! And I can quite appreciate why all the readers write to tell you how good it is, because it IS.

"I like the little sermonettes you write better than anything else—better than the days when you just give us a column of hints. I don't know where you get all the things to write about; you must be very observant.

"I wonder if you can tell me a tasty way to use left-over potatoes? But I shouldn't 'wonder,' because I should know that if you haven't the answer at the tip of your pen you will have some reader good enough to tell.

"I certainly wish you long life and health to continue your wonderful work

"Yours very sincerely,
"HOMEMAKER."

The mail to-day is almost overwhelming in its praise of the column, isn't it, Homemaker? Thanks awfully for your good opinion, to which I will try to live up. It's getting hard!

About the potatoes; here's one way, and I'm sure my readers can tell many more. This is for mashed potatoes. I suggest that you prepare them for potato cakes for breakfast before they are really cold. Reheat the potatoes if necessary—using the dish in which they were cooked. Add one egg for about a half pound of mashed potatoes, also a very little flour—enough to make them fairly firm. Mix well and put into a bowl in the refrigerator until morning. Then put some flour on a clean piece of paper turn out the potato mixture and form into balls. Flour and fry in bacon fat or drippings.

Now, come on, you other readers, with your ideas!

* * *

Mrs. T. C. You can vary the jelly menu without hurting your patient, I think, by adding cut-up fruit while the jelly is still liquid.

* * *

Jenny. Don't you do it. Trust your mother's judgment. I'd like to write more fully if you would send your name and address.

Steno. No; the business girls' column did not materialize, because I did not get the assurance of support I want. How about it "Puzzled" and "Tillie" and "Bubbles"? Are you going to help out?

Marion

ENTERTAINING GUESTS

A Series Giving Hints on Arranging Parties.
By LAURA.

WEDDING ANNIVERSARIES.

Wedding anniversaries are a thing which everyone should celebrate. The earlier years are often celebrated in a joyous fashion, but more often as the years roll on it becomes a more sacred anniversary. If the wedding service was solemnized in the fall, a pleasant evening may be planned for almost any number of the years, and decoration schemes may be easily arranged.

The first anniversary is, of course, the Cotton Wedding, and this lends itself delightfully to all sorts of fun and amusing decorations. Gifts may include many useful as well as novel articles — darning cotton, laundry bags, dust cloths, and rolls of absorbent cotton for the medicine cabinet.

As the second anniversary is the Paper Wedding, a card party would exactly fit the scheme, but may be kept very amusing also by the decorations. If the guests discovered the plot before the eventful evening, a large assortment of paper gifts can easily be purchased. A good book is paper, and certainly a most acceptable gift.

The third wedding anniversary is Leather, and is, therefore, harder to plan than the others, as leather is not as easily used for decorations. Invitations may be sent out in leather-bound books, and lunch served from leather shopping bags after partners had been found by matching slips found in little leather purses.

A jolly 'camp-fire supper would make the Wooden anniversary of the fifth year most enjoyable. With the five years and wood as material for planning, one could make a real lively time. Five courses may be chosen for the supper, with chops, chips and crackers having a good showing. Wooden instruments, such as guitars, ukeleles and mandolins, would finish the evening in good style.

The camp-fire supper suggested above might also serve as an evening for the seventh, Woollen Wedding. Invitations written on plain cards, stitched with bright woollen yarn, would suggest to the guests the occasion of the evening's entertainment. Lots of woollen blankets provided for the guests' comfort on the ground, and, of course, there are hundreds of woollen articles which may be chosen for a gift.

A Tin-Box party would make an novelty for the tenth year, and gifts may consist of pots and pans for the kitchen.

For the twelfth anniversary, the Silk and Linen suggests the note of formality—ine table linen, and the glow of soft candles through silk shades. For this year the most appropriate celebration naturally takes the form of a dinner, or if dinner cannot be suitably arranged, afternoon tea may suffice.

Crystal Gazing was the mystified title one couple gave the evening of their fifteenth wedding anniversary, as it means Crystal. If someone can be found who may be responsible for the reading of the crystal, a very amusing time may be spent in this and fortune telling.

From the twentieth to the sixtieth anniversary, the evenings must be planned more fully. Starting next Saturday, commencing at the first anniversary, I will try and arrange a successful evening for each of the anniversaries.

INSTITUTE WOMEN HEAR GOOD TALKS

Norwood Members Are Addressed By Ladies From Havelock Branch.

(Examiner Correspondence)

NORWOOD, Sept. 15.—The Women's Institute held its regular meeting in the council room on Friday afternoon. There was a good turn out of members and two visitors, Mrs. Whitney and Mrs. Rigby, of Havelock. These ladies favored the members with short talks and gave some good suggestions on Branch Institute work.

The committee appointed at the August meeting showed a splendid display of their work, which included pillow cases, towels, aprons, etc. and with the help of all the members they hope to hold a bazaar and sale of homemade baking and candy on October 27.

The next meeting is to be held at the home of Mrs. William Buchanan on October 5.

Hair Removed in 3 Minutes

Seems almost too good to be true. But it is true. Science has at last produced a fragrant, snowy-white cream called DEL-A-TONE. It's just as easy to use as cold cream.

No fuss or muss. Just think—you apply Del-a-tone Cream, and in 3 minutes wash the hair away. Leaves skin smooth and white. Retards regrowth. Far better than shaving or pulling hair out by roots. Thousands of dainty women would use no other.

Del-a-tone Cream or Powder at your dealer's, $1.00 per package. *Money back guarantee.* Distributed in Canada by Lyman Bros. & Co., Ltd., 71 Front St. East, Toronto, Ont.

RIVALS.

(By Mrs. E. R.)

My sweetheart has another beau
Yet I cannot jealous be,
Thoug they love each other so,
You see, they both love me!

She is prettier far, I vow,
Yet indeed I must confess;
Though I have a rival now
He loves me none the less.

Charms he oft my baby now
(For they flit quite openly)
With loving glances once I know
Were my special property.

My sweetheart has another beau;
(So have I—and so has she)
We were happy, just we two,
But happier still, we three!

Dietitic Dissertations

(Specially Written for The Examiner.)

VI—MINERAL MATTER

Some of our best dinner pals are foods replete in minerals.

From five to six per cent of the body weight is mineral matter; it is found in bones, blood and other fluids, teeeth nails, pigment and tissues.

Mineral salts do not provide heat and energy, but they are very important as body builders and regulators. When we have said this, we have not, by any means, given an adequate idea of their function in the body. They increase osmotic pressure, thus helping fluids pass through membranes. They aid in the chemical reaction of fluids in the body. The end-products of their metabolism being almost always alkaline, they assist in neutralizing the acid products from most protein foods and thus help to maintain the normal neutrality of the blood. They help preserve tissues from putrefaction and decomposition.

Low blood pressure and anemia are often prescribed for by an iron tonic. This should be accompanied by an increase of iron in the diet. It is much easier for the system to make use of the iron of food than that of medicine, but the tonic stimulates the body to make more use of the iron of food.

While from sixteen to twenty mineral elements are found in the body (also in food) the three most important are iron, phosphorus, and calcium. They are necessary to the body in the following daily portions: iron, .015 gram; calcium, 1 gram; phosphorus, 3 grams. Children need more calcium than adults that their bones may grow and develop properly. This is but another reason that a child's supply of milk should be praetically unlimited.

The chief sources of mineral salts are:

1. Succulent plant foods—fruit, leaf and stalk vegetables, root vegetables (mostly in a layer near the earth).
2. Whole grains and cereals.
3. Milk (calcium).
4. Red meats (iron).

In the preparation of vegetables sometimes as much as thirty per cent of the mineral matter is lost. In baking there is little loss of material except the water which is driven off by heat. When vegetables are immersed in water as in boiling, a greater or less of material is almost inevitable—the kind and amount of material extracted by the water depending on such factors as its temperature at the beginning and during the cooking period, the length of time the cooking is continued, and the condition of the vegetable, that is, whether it is pared, whole, or cut into small pieces. Cooks who are properly impressed with the value of the mineral salts in vegetables usually use the water in which they were cooked for soups or gravy.

Carrot and Cheese Salad.

1 pint grated raw carrot
3-4 cup grated cheese
Salt, paprika.

Toss the ingredients lightly together and serve on lettuce with French or boiled dressing.

SOCIAL AMENITIES

Marion will answer questions of etiquette addressed to her in care to The Examiner.

Helen: When entering a church with a lady, a man follows her. When in a private house and ascending or descending stairs he follows. In a public place he may lead the way up a staircase.

* * *

J.M.: The dinner-coat, or Tuxedo, is the evening dress for a man at home, and is worn for the theatre and for informal dinners among intimate friends. The correct dress for evening is always full dress for formal dinners, the opera or a ball.

* * *

Miss E. C.: The term "saleswoman" is far more dignified than the misapplied word, "saleslady," and it is unfortunate that so many business people do not understand the truth of this.

RED ROSE TEA "is good tea"

THE SATURDAY MARKET BASKET

Just at this season of the year one finds on the market nearly every kind of fruit and vegetable, perhaps more fruit than vegetables.

Apples, peaches, plums and pears all continue to ask for attention. Duchess apples are 25 cents a peck; peaches range in price from 75 to 1.40 cents a basket, according to the size of the basket and the variety of the peaches. Plums sell from 50 to 75 cents a basket, and home-grown pears, new arrivals on the market, sell for 75 cents a basket. Eating pears are 6 for 25 cents.

Bananas range in price from 25 to 40 cents a dozen, or 3 pounds for 25 cents; oranges, 30 to 80 cents a dozen, and lemons from 30 to 50 cents a dozen. Grapefruit are 3 for 25 cents. California grapes may be had for 25 cents a pound, and green Malagas are 15 cents a pound. A few huckleberries remain at 25 cents a quart.

Potatoes sell for 17 and 20 cents a peck; sweet potatoes, 5 pounds for 25 cents. Carrots and beets may be had for 5 cents a bunch. Parsley is selling 2 bunches for 5 cents. Turnips are 5 cents each; cabbage, 5 and 10 cents a head, and cauliflower, large white heads, 15 to 25 cents a head.

Head lettuce is 10 and 15 cents a head. Both green and red peppers sell 3 for 10 cents; the sweet ones are also sold at this price. 11-quart baskets of tomatoes are 50 cents. Celery is priced at 15 cents a bunch.

Melons still continue on the market. Honeydew melons at 30 to 45 cents each; cantaloupes, 15 cents each; watermelons at $1.25 each.

Cucumbers, too, still remain, small Gherkins selling at 30 cents a quart and large sized cucumbers at $1.00 for 6-quart basket.

Celery Relish.

The following is an excellent recipe for celery relish:

Twelve heads of celery, 3 good sized cucumbers, 2 red peppers, 2 quarts vinegar, ¼ pound mustard, 2 ounces curry powder, ¼ pound brown sugar, 3 tablespoons flour, 2 tablespoons salt. Boil vinegar and let simmer; mix dry ingredients separate, then stir into vinegar; let boil and add vegetables that have been chopped.

Jones And Perkins In The U.S. Amateur Golf Final

CHAMPS OF BRITAIN AND U. S. TO MEET FOR AMERICAN TITLE

Jones and Perkins Advance To Last Stage of Championship.

FINALLY ROUTED.

(By Alan J. Gould—Associated Press Sports Editor).

BRAEBURN COUNTRY CLUB, Newton, Mass., Sept 15 (Canadian Press).—For the first time in thirty-two years' history of the tournament the kings of American and British amateur golf will fight it out for the championship of the United States. Bobby Jones, title-holder three times in the past four years, will oppose Thomas Philip Perkins, the British champion, to-day, in the 36-hole final match over Braeburn's rugged links.

Jones continued his successful march to the finals by swamping 20-year-old Phillips Finlay, Harvard sophomore, 13 and 12, in the first 36-hole semi-final yesterday. Perkins, with a brand of golf that was close to as brilliant as that of the great Georgian, routed George Voigt of New York, the medalist, 6 and 4, in the final stages of a match that was otherwise sensationally hard fought.

Thus the man he trounced exactly two weeks ago at Chicago by 13 and 12 is the last human barrier between Jones and a fourth American championship, that if his, will tie the record of Jerome Travers. Triumph for King Bobby would give him a better mark, as a matter of fact, for it would be his fourth in 5 years, whereas Travers won four times over a seven-year span.

Jones will quite naturally be the favorite to win, especially after the way he has ruthlessly crushed his last two opponents, bowling over John Beck of England Thursday by 14 and 13, and Finlay yesterday by 13 and 12 with golf that has demolished old man par as well as his rivals. But Perkins, also quite evidently, is playing much better golf and playing it much more confidently than when he met the American champion in the Walker Cup matches recently.

The records, past performances and the "dope" all favor Joines, but Perkins has fought his way past sturdy opposition to reach the finals, and has established himself as a real contender. He is the first British star to reach the American finals since 1911, when Harold H. Hilton, then the British champion, beat Fred Herreshoff and took the title trophy on its only overseas journey.

They are an unusual contrast, the finalists, in this international battle. The bespectacled Briton, only 23 years old, is lanky by comparison with the chunky American veteran of many a championship fight, and the acknowledged king of par-shooters at 26. Perkins, cool and deliberate, is addicted to caps, lavender tinted shirts and cigarettes, which he smokes without the slightest interruption from start to finish of his matches. Bobby, unless it is raining, goes bareheaded and smokes only at intervals to ease nerves that are seldom outwardly apparent.

Jones, after a narrow escape against Ray Gorton on Wednesday, has struck the top of his form in his last two matches. His astonishing record of being eight under par on this difficult course for the last 59 holes he has played is eloquent testimony to the way he is shooting. Perkins cannot match this record, but the Briton, only one over par for his last 67 holes, has maintained a great pace.

The American was two under par for the last 12 holes of his desperate fight with Gorton Wednesday. He was three under par, with a morning round of 70, in overwhelming Beck. He was again three under par for the 24 holes it took to put the youthful Finlay out of the way, again shooting the first round in 70, the best mark that has yet been carded on this championship Braeburn layout.

CARDS TAKE FIRST GAME

Defeat Phillies 13-6 in Opening Tilt of Five Game Series.

GIANTS WIN DOUBLE.

NEW YORK, Sept. 15—(Canadian Press).—The Cardinals prevented any possibility of a tie between themselves and the Giants for the National League lead by defeating the Phillies 13 to 6, in Philadelphia yesterday in the opening game of a series of five clashes. Willie Sherdel pitched as well as he had to, and St. Louis batters hit hard.

The Cardinals led by 2 to 1, going into the fifth when the game was really broken up. Six Cardinal batters walked in succession, creating a new modern Major League mark.

New York's Giants finished their Boston pilgrimage 100 per cent. successful by winning both ends of yesterday's double header from the Braves, and so cleaning up their eight-game series which was run off in four twin engagements. The scores this afternoon were 6 to 2 and 5 to 1, with the second game called after the eighth inning on account of darkness.

This remarkable run not only created a new Major League record for victories in consecutive doubleheaders, but also hauled the Giants up to within one game of the pace-setting Cardinals, despite the St. Louis success over Philadelphia yesterday.

Pittsburgh tightened its hold on fourth place at Cincinnati be defeating Cincinnati four to one.

Burleigh Grimes won his 24th victory of the season but was hit freely, particularly in the last three innings. He pitched almost air-tight ball in the pinches, however, and the Reds had thirteen men stranded on the bags.

SOUVENIR BOOK

AN OPPORTUNITY OF A LIFETIME. Get a copy of Souvenir Book, "Peterborough's Contribution to Canada's Diamond Jubilee." It is full of actual scenes of the Parade and Pageant. On sale at Examiner's South Store at 75c each, with mailing envelope. dtf-2249

VIEWS ON SPORT

Raybestos clash with Stouffville on the latter's home field to-day.

Headed by the team of Padgett and Fleming, many close matches were played in the horseshoe tourney at the Exhibition Park yesterday. The winners of last night's battles will enter the semi-finals to-day.

Softball fans should not forget the first game of the C.G.E. finals for the shop honors when the Punch Press and Office crew clash in Confederation Park.

Kings of American and British amateur golf will fight it out to-day for the championship of the United States for the first time in thirty-two years. Bobby Jones, three times titleholder, will opopse Thomas Philip Perkins in the 36-hole final match over Braeburn's ragged course.

It is proposed to enlarge the Central Ontario Tennis League, and the new association which is in process of formation will probably be known as the Eastern Ontario Tennis Association. It will be composed of the Tummon Cup League and the present Central Ontario League. The object is to promote greater interest in tennis, and to affiliate every player in the various groups with the Canadian Lawn Tennis Association.

The boys in Pittsburg are telling a story on Heinie Mueller which is worth repeating.

Mueller has been with several clubs in the majors in his time, and has spent most of this season with Toledo, in the American Association, after being cast off by the Giants. The Braves brought him back to the majors a few weeks ago, and he joined the club in Pittsburg.

Some bird congratulated him on getting back in the majors.

"What? With this team?" replied Heinie.

"Sure, why not? It's a pretty good team!"

"Who have they got besides me and Hornsby?" asked Mueller.

Of course, Heinie was having his little joke. That's the only thing to be assumed. The Braves have Sisler and a few other players.—Hamilton Spectator.

BASEBALL RESULTS

National League.

	R.	H.	E.
New York	5	10	0
Boston	1	6	0

Batteries: Fitzsimmons and Hogan; R. Smith, Edwards, Greenfield and Taylor.

2nd game:

New York	10	12	1
Boston	1	6	1

Batteries: Scott and Hogan; Smith and Taylor.

St. Louis	12	12	2
Philadelphia	2	12	1

Batteries: Sherdel and Wilson; Ring, McGraw, Baech and Larian.

Cincinnati	1	11	0
Pittsburgh	4	11	1

Batteries: Rixey and Hargrave; Grimes and Hargreaves.

International League.

Reading	5	12	0
Jersey City	3	8	0

Batteries: Harrison and McAvoy; Shoffner, Higgins and Head.

(Tie, called fifth, rain).

Betts and Gaston; Eddleman and McMenemy.

Louisville	2	7	1
Toledo	0	6	0

Wilkinson and Thompson; Klinger and Hamby.

Minneapolis	5	7	0
Kansas City	4	11	2

Robertson, Pate and McMullen; Warmouth and Peters.

JONES CONTINUES SENSATIONAL PLAY

Nine Up At End of First Eighteen Holes of Semi-Finals.

NEWTON, Mass., September 14 (Canadian Press). — Bobby Jones, continuing his triumphant march in defence of the national amateur golf championship, overwhelmed Phillips Finlay, Harvard sophomore, and stood nine up at the end of the first 18 holes of their 36-hole semi-final match to-day.

In the other semi-final, Phil Perkins, British title nolder, was one up on George Voight, of New York, after a sensational battle to the half-way mark.

Jones, playing his second round in as many days in 770, two under par, smothered the youthful Finlay after a few preliminaries. The champion was five up at the turn and nearly doubled his margin on the way home.

Bobby's spectacular putting featured his par demonstration game. He was not steady to the green, exploring the rough on many holes, but once on the carpet he made his famous "Calamity Jane" do his bidding.

You will find many things in the Classified Ads. of the Examiner.

COCHET IN SEMI-FINALS

Lone Surviving Foreign Threat For United States Tennis Championship.

THREE AMERICANS IN.

(By F. G. Vosburgh, Associated Press Sports Writer.)

FOREST HILLS, N.Y., Sept. 15.—Henri Cochet, has yet to be stopped. The marvelous little French shotmaker, lone surviving foreign threat for the United States' national tennis championship, coasted to victory over a young American opponent yesterdaly afternoon and stood last night in the semi-final round together with three Americans.

Francis T. Hunter, George Lott and Frank Shields, remain to bar Cochet's way to the title and if possible to prevent it from making another voyage to France.

That this will be a difficult task was indicated yesterday by the easy manner in which the acrobatic little French stylist defeated Gregory Mangin in a match which was begun Thursday and completed this afternoon, by scores of 4-6, 6-3, 6-1, 6-2.

In similar ready fashion, Hunter drove ahead to victory yesterday afternoon over Jack Crawford of Australia by scores of 7-5, 3-6, 6-3, 6-4. Hunter had his work two-thirds done Thursday and made no bones about applying the finishing touches, his superior steadiness speedily overcoming the cool young Anzac in the only set required to compete the match.

Except for another of those exhibitions of feminine against masculine tennis, in which Miss Helen Wills, the woman champion of three nations, was beaten by scores of 6-2, 6-4, by Herbert L. Bowman of New York, this was the entire tennis fare dished out for the entertainment of some 7,000 fans yesterday afternoon.

Most of them had come to see the gallant fight of the 20 year old Mangin against Cochet, but the Jersey boy this time was far from the steady player who carried that one set so brilliantly Thursday.

Encountering one of the greatest tennis players in the world is hard on the nerves of a youngster, especially when he has a long, and doubtless restless night in which to think about it. Be that as it may, Mangin was a more cautious, less daring and accordingly much less successful player in these closing sets.

The crowd was with him to a man, but on this occasion Cochet refused to let the often ill-timed cheering bother him.

Except for one game which he lost on his own service at love apparently because of nerves upset by the posting of a wrong score on the board and the consequent hooting of the crowd, he applied himself steadily to the work in hand.

For a time in the Hunter match it looked as though the battle would go to five sets. After games had followed service Crawford broke through Hunter's delivery in the fifth, added his own and led by four games to two, clinching the last of them with an ace.

That was enough to rouse Hunter's fighting spirit and he stormed through the next three games without a moment's let-up for the set and match, thus accounting for the last of the foreign entrants with the sole exception of Cochet. Hunter to-day was chopping, lobbing and smashing as well as using his deadly excalibur, the forehand drive.

MANUSH HELPS BROWNS TO WIN

Continues Hitting Spree To Make Home Run and Triple.

NEW YORK, Sept. 15 (Canadian Press).—Heinie Manush of the St. Louis Browns continued his hitting spree yesterday with a home run and a triple to score all of his team's runs as the Chicago White Sox took a five to four victory at St. Louis.

Manush drove in three runs with his four-ply swat in the first and then scored another with a triple in the eighth.

Five boots chalked up against the Browns assisted the White Sox to their winning but the Browns were outhit 11 to 7.

Inside Sportin' Dope—By a Wise Cracker

Mister Sporting Editor:

Well, Mac, I just got time to write you a few lines before going down to the fair grounds to see the harness nags go. And right off the reel, before I forget it, I wanta to pay my respects to Mister Tom Curvin what has brought a big bass in to The Examiner Office to show me up. That fish dont prove nothing, seeing it was caught 12 miles away from where I did my stuff. But I can claim a little credit for it anyway, for the chances is I chased that bass down to Young's Pt. for Mister Curvin to grab. And remember, folks, I was hunting him in a great big lake, whereas Mister Curvin waited until the big fish got cornered in a tall race and then nailed him. But I'm glad Mister Curvin got him, seeing he only has about 6 months a year to fish, and he deserves all the luck in the world. I for 1 don't begrudge him the price, but I'd like to see him come up where I was working and grab off 1 like that.

The customers is still talking about the Toronto swim. What do I think of the way the prize melon was split? I might say, why bring that up? But seeing you ask, Mac, I'll come back at you with another. Suppose the last bird in that race was Mister Geo. Young and he had stuck in there for hours after everybody else had been towed to drydock and had covered more distance than the rest of the gang, do you think the prize money woulda been parcelled out in 14 lots? If you do, old timer, you're taking a long chance walking through the park alone where the squirrels can get you. No, Mac, if Mrs. Young's only son had been in the place of Monsewer Michel, as I call the Frenchman, the committee woulda passed that 1st prize out to him faster than it took Byron Summers to grab that 1,000 bucks consolation money that was give him for some reason or other. Let's forget the swim anyway, Mac, and if they never stage another that will be plenty quick enough for me anyway.

Sorry to report, Mister Sporting Editor, that outside the Coursey-Kay-Primeau silver-edged Raybestos team our ball clubs ain't been doing so well. Our Royals, which Labor Day looked to be in for the jr. title, are through for the season. They looked so much better than the Lizzies in the 1st clash that their chances for the Ont. title was rosy, but this here Mister Levinsky was a different proposition when he went to the gun-pit, and the Royals folded up like a concertina. And the Riley & Hickey team—the name sounds like a vaudeville turn—broke all Canadian altitude records Sat. when they was beaten 31 to 0 by the Toronto Saint Francis. The Peterborough kids was in a daze all the way, but they claim they're going to play the other side of the record Sat. Mebbe they can, but I ain't betting the winter's fuel on it. Anyway we'll have 1 team left in, and they's plenty of places can't say that half-way through Sept.

Well, Mac, they ain't time for no more now. See you down the midway.

Sportfully yours,

A. WISE CRACKER.

READING STOPS SKEETERS' STREAK

Defeats Jersey City 5-3 On Home Diamond Yesterday.

JERSEY CITY, N.J., Sept. 15.—Reading stopped Jersey City's winning streak on their return for the last home stand of the season here yesterday, winning 5 to 3. Nick Harrison kept the eight hits well scattered.

BARNYARD GOLF.

The barn yard golf course was a spot of light on the fair grounds last night as the games progressed and many close matches were played. The winning teams were:

Bert Padgett and Bry Fleming.

Ralph Brunton and Lourir Cupillo.

W. Breckenridge and G. W. Bennett.

B. Barrett and W. J. Hawley win by default.

Thomas Drum and Earl Kidd.

Grisdale and Cullen.

Steer and Dearborn.

These teams will enter the semi-finals to-morrow starting at 2.30.

Springville

(Examiner Corrtspondence)

SPRINGVILLE, Sept. 15.—Mr. and Mrs. Sam Fries of Lindsay were the guests on Sunday of Mr. and Mrs. R. Colon.

Mrs. T. Collison of Stratford is visiting at the home of her sister, Mrs. William Whitfield.

Mrs. S. S. Staples and Miss Sibyl Robertson motored to Millbrook on Sunday.

Mr. and Mrs. R. Russell and two children of Toronto were the guests on Sunday of Mr. and Mrs. R. Robertson.

Mrs. V. Whittington and little son, Clark, of Toronto were the guests during the week at the home of the former's parents, Mr. and Mrs. J. Clark.

Mr. and Mrs. Wilbert McColl of Lindsay visited on Sunday at the home of Mr. and Mrs. R. Colon.

Miss Hazel Hunter, nurse-in-training, of Toronto, was the guest on Sunday of Mr. and Mrs. R. Robertson.

Mr. Donald Sanderson of Toronto was the week end guest of his parents, Mr. and Mrs. A. E. Sanderson.

Miss Gray of Peterborough was the guest on Sunday at the home of Mr. and Mrs. R. Robertson.

Mr. and Mrs. L. Finnie and Barbara, of South Monaghan, visited on Sunday at the home of Mrs. Finnie's parents.

Rev. A. H. and Mrs. McConnachie.

Miss Ethel Clark spent the past week in Toronto and Niagara Falls and attended the Canadian National Exhibition.

Thomasburg

(Examiner Correspondence)

THOMASBURG, Sept. 14—Mr. and Mrs. Ervin Bateman and children spent Sunday with friends in Campbellford.

The Messrs. Russell Grills, Murney Grills and William Maynes, of Chapman motored to Toronto last week.

The Women's Missionary Society are preparing for the annual bale. It is to be sent away during September. The ladies of the congregation are rquested to help provide for it. Knitted goods are requested. Clothing will also be accepted.

Mrs. Geddes Bradshaw and children of Thurlow have returned home after a few days' visit at the home of her father, Mr. Jabez Jones.

Mr. and Mrs. Archie Reid, of Kingston, and Mr. John Geen, of Fuller, spent Monday with Mrs. Wilber Sherry.

Mr. and Mrs. A. E. Hunt and Mr. and Mrs. Bert Hunt and children, of Kingston, called on friends here recently.

Mr. and Mrs. Damon McCammon and son, Clifford, visited Mr. and Mrs. Russell Grills, of Chapman, on Sunday.

Messrs. Henry and Earl Bateman accompanied by Mr. Henry Blakely motored to Toronto on Thursday last.

SUCCESSFUL EXPERIMENTS MADE

Bituminous sand from the extensive deposits situated in the vicinity of McMurray, northern Alberta, was first used for paving in Edmonton in 1915, under the supervision of the Mines Branch, Department of Mines. These demonstration surfaces remain in good condition. In 1926 Alberta bituminous sand was used for the first time on a commercial scale for the surfacing of highways when upwards of 5,000 square yards of pavement was laid at Jasper, in Jasper national park, Alberta. Last year further surfacing, amounting to approximately 30,000 square yards, was undertaken at Jasper. This work involved the designing and constructing of a suitable heating and mixing plant.

HORSE RACES MAKE BIG HIT AT EXHIBITION

Four Heats Are Raced in the Fast Time of 2.12.

DARK GRATTAN WINS

Races Are the Closest and Fastest Seen in Many Years.

On a fast track, and with good horses, the races at the Exhibition went over large yesterday. Although it was announced in the afternoon that the track record had been broken when Peggy Allerton, owned by Dr. Whitley of Goderich, stepped the first mile of the 2.15 class in 2.12, old timers informed The Examiner that the track record was 2.11¼, and was established some years ago by Herman Windsor, then being driven by R. Elmhurst. Of the two classes racing yesterday afternoon, the 2.25 equalled the time of 2.15, and in fact an attempt was made by George A. Elliott to break the record which in all probability could have been done if his horse, Darky Grattan had been driven harder in wither of the first two heats of the race as he made a mark of 2.08 at the Canadian National. The first half mile of the first and fourth heats of the 2.25 was made in 1.05.

Every heat was a real battle from start to finish, with on more than one occasion the leading horse being nosed out on the home stretch. Armandale, the 15 year old black horse of Art Johnston, and who has won many races all over the province, came back into form in the third heat of the 2.15 class and captured second place from Peggy Allerton, a fast, brown mare from Goderich. The first heat of the 2.15 class proved to be one of those races that people want to watch. Armandale, who had drawn the pole, was leading the field at the three-quarters mark with Peggy Allerton and Ingomar Grattan right behind; on the home stretch Ingomar Grattan took the lead to be put out by a nose by Peggy Allerton at the wire. Every heat had its features with the drivers getting the best out of their horses, as the races were run under the Dominion Harness association rules, where money counts—not marks.

Ingomar Grattan after losing the first heat of the 2.15 class, captured the next three, and the first money of the $500 purse. Peggy Allerton won the first heat, stepped back into second for the second and third in the third heat, but took second place in the final. Armandale, who was third in the first and fourth, with second in the third and fourth, in the second heat. Lena Marque, a roan mare owned by W. McPherson, Smith Falls, finished third in the second and fourth in the other three heats. The first, second and fourth heats was made in 2.12 while the third heat was only a quarter of a second slower.

The 2.25 class was won by Darky Grattan, who is owned by George A. Elliott of Toronto, and was driven by Harold Currie of Strathroy. These two men opposed each other at the last provincial election. It was quite evident that Darky Grattan was held in during the first two heats, although he paced them in 2.12. On the third heat Charles Snow announced that Darky Grattan was out to beat the track record, but the tables were turned and Joe McGregor won the race, it being the slowest time of any of the heats. Joe McGregor, a little bay horse, owned by W. Hillock of Caledon, won second money with Eleanor May coming third, and Hal. E., fourth.

C. Snow got the horses off well in each heat and was congratulated on more than one occasion on the small amount of scoring, and the way the heats were let away.

2.25 class:

Darky Grattan, George A. Elliott, Toronto	1	1	2	1
Joe McGregor, W. Hillock, Caledon	2	2	1	3
Eleanor May, J. Akey, Peterborough	3	3	3	2
Hal E., A. Elmhurst, Indian River	4	4	4	4

Time 2.13, 2.12, 2.14¾, 2.14½.

2.15 class:

Ingomar Grattan, C. Sanderilla, North Bay	2	1	1	1
Peggy Allerton, Dr. Whitley, Goderich	1	2	3	2
Armandale, A. T. Johnston, Peterborough	3	4	2	3
Lena Marque, W. McPherson, Smith Falls	4	3	4	4

Time 2.12, 2.12, 2.12½, 2.12.

Starter, Charlie Snow, Toronto.

Timers, Lou Ferguson and C. Armstrong.

Judges: Gus White, M. Storey and A. Juby.

Clerk, C. Stapleton.

MONDAY—TUESDAY—WEDNESDAY
Return Engagement by Popular Request

SPLENDID CONCERT ON MONDAY EVENING

Toronto Medallist and Madrigal Singers Will Give Program.

Attention is called to the concert to be given on Monday night in the Conservatory Hall, by the Madrigal Singers, who made such a favorable impression on Toronto musicians and music lovers on Music Day at the C. N.E.

This concert is being given at the popular price of 25c. so that this band of singers and the public generally may do honor to three members of the Madrigal Singers who won great success at the music competitions in Toronto. Mrs. Fred Free, Misses Geraldine Collins and Margaret Dickson, and Mr. Stanley Northrop (violinist) will sing and play the test pieces in which they won success.

The "Madrigal Singers" will give the program which called for such warm commendation from leading Toronto musicians. Miss Agnes Best, of Toronto, will be the accompanist for the vocalists and Miss Gwen Donley for the Madrigal Singers.

Captain Atkinson, of Toronto, director of the Canadian Bureau for the advancement of Music, will be present, and will speak and also present the medals to the winners.

Music lovers are advised to come early.

DOCKERS DECIDE TO RESUME WORK

Vote To Start On Monday After Five Day Strike.

MELBOURNE, Australia, Sept. 15.—(Canadian Press).—The dockers who struck on Tuesday, tying up shipping in all Australian ports, to-day decided to return to work on Monday. The waterside workers had opposed the arbitration court award which they feared might prevent them from obtaining a full day's work.

TWO BURIED ALIVE.

Toronto Workmen Not Seriously Hurt When Caught in Cave-in.

TORONTO, September 15 (Canadian Press). — Buried when the roof of a tunnel of the new Canadian National Railway baggage and express building being constructed on York St. here collapsed, two laborers were rescued to-day within ten minutes. Neither was seriously injured.

A WONDERFUL TRIBUTE.

Baby's Own Tablets Declared To Be Worth Their Weight in Gold.

A mother has only to use Baby's Own Tablets once to be convinced that nothing else can equal them in banishing the ills of her little ones. Once used, always used, as long as there are small children in the home —that is the tribute thousands of mothers pay the Tablets.

Among the many, many mothers who are anxious to tell of their experience with Baby's Own Tablets is Mrs. Griffith, of East Hamilton, Ont., who writes:—"Shortly after coming to Canada I began giving the Tablets to my baby boy who was then six weeks old. The result was so pleasing that since that time I have always kept the Tablets in the house. I have two children now and both of them are the picture of health. Baby's Own Tablets are the only medicine they have ever had and I really believe the Tablets to be worth their weight in gold."

Baby's Own Tablets are free from all injurious drugs and can be given to the youngest babe with absolute safety. They are sold by medicine dealers or by mail at 25 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

SPORTS HOUR POPULAR.

Y.W.C.A. Swimmers and Spectators Enjoy Weekly Contests.

Sports hour at the Y.W.C.A. Swimming Pool is proving a great success. The relay race last evening was entirely exciting with Viola Harvey's team winning.

In the speed tests Viola Harvey still leads with the highest score. Doris Rogers reduced her time one second, thus making a close second, with Jean Harvey third.

In fancy diving the honor again fell to Viola Harvey, Jean Harvey second, Doris Rogers, third.

Hazel Bradley, Mary Brooks and Jeanette Allen showed marked improvement in their diving.

The leaders in the Junior speed tests were Mary Kingsbury, Marion Harvey and Margaret Currie.

Sports hour each Friday is becoming very popular and last evening the pool was crowded with enthusiastic swimmers. Water games were playd during intermission.

CARS COLLIDE.

A light touring car driven by William Armstrong, of Lakefield, was proceeding south on George street last night. It turned east on Perry street and collided with another touring car driven by Stanley Killenbeck, who was going north on George street. Both cars were damaged considerably about the front while a wheel was knocked off Killenbeck's car. There was no one injured in the mix-up. The cars were later taken to Brewer's garage.

Extra Attraction Before Motordrome

Captain Kittering's motordrome supplied an extra thrill last night at the Exhibition midway about nine o'clock when one of the motorcycles used to attract the crowd caught fire as the barker on the stand was attempting to draw the people. A merry blaze resulted, but chemicals soon extinguished the blaze before any damage could be done. A leaky gas tank is blamed for the outbreak.

Boys Climb Fence But Pay Anyhow

Three local lads received the surprise of their lives last night when they were apprehended by a policeman and a member of the Exhibition Board as they were strolling up the midway at the Fair Grounds. They had climbed the fence and had thought that they had been successful in getting away with it, but soon found out different. They were taken to the secretary's office and were held for some length of time and given some sound advice. They then paid their admission money, after which they were allowed to go. The next cases of this will be dealt with through court proceedings. This acted only as a warning.

DOLORES DEL RIO IN "ROMONA" at the Capitol, Monday, Tuesday and Wednesday.

Veteran Spieler Works On Midway

Spielers come, and spielers go, at every Peterborough Industrial Exhibition, but Edwin M. Thompson, the expert talker for Madame Nevada, the leading palmist on the Midway this year, will long remain in the mind of the public. Mr. Thompson is red hot from Coney Island, and has been a real drawing card for Madam Nevada. His quips draw the crowds ,and he has always a ready answer for the most sarcastic.

BYRD SUPPLY SHIP LEAVES NEW YORK

Thirty Members of Expedition Board Freight Vessel.

NEW YORK, Sept. 15 (Canadian Press).—The second section of Commander Richard Byrd's Antarctic expedition gets under way to-day with the sailing of his supply ship, the freighter "Eleanor Bolling." Thirty members of Byrd's party sail on the ship, which will make its first stop at Hampton Roads, Va.

DRIES GET MOTION ON LEAGUE BOOKS

Economic Committee Agrees To Investigate Abuse of Strong Drink.

GENEVA, September 14. Canadian Press. — The foes of alcoholism won a partial victory to-day by getting through the economic committee of the league of nations a resolution for an investigation concerning the abuse of strong drink. The wets were not entirely vanquished because they succeeded in having wines, beer and cider eliminated from the proposed enquiry.

HIGH COMMISSIONER LEAVES FOR CANADA

Sir William Clark Starts From London With Family To-day.

LONDON, September 15. Canadian Press. — Sir William Clark left London to-day for Southampton, from where he will sail to Canada to assume the position of first High Commissioner from Britain at Ottawa. He was accompanied by Lady Clark, and their two daughters, Diana and Frances.

ARE YOU RUN-DOWN?

All That Is Needed Is a Tonic To Build Up the Blood.

There are many people who have been semi-invalids so long that they accept their condition as a life burden. They have endured nervousness broken sleep and a generally run-down feeling so long that they have given up hope of again enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would do wonders. And as a blood-building tonic no other medicine can compare with Dr. Williams' Pink Pills. There is scarcely a spot in Canada where you will not find some formerly ailing person who has found new health through the use of this medicine. The experience of Mrs. Thomas Ahearn, St. Malo, Que., bears out these statements. She says: — "I have the greatest reason to be thankful for what Dr. Williams' Pink Pills have done for me. I was in a very weak and run-down condition. Frequently I would faint and my legs would swell badly. It was almost impossible to do any housework. It seemed as if my blood had turned to water. In this weak and despondent condition I began taking Dr. Williams' Pink Pills. A few boxes proved that they were helping me, but I continued taking the pills until I had used a dozen boxes by which time I found myself a completely restored woman, able to do my work without fatigue, a better appetite and a sense of cheerfulness, where before I had been despondent. For all this, thanks to the health-giving qualities of Dr. Williams' Pink Pills."

If you are feeling run-down, give Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get the pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THEATRES

AT THE REGENT.

"7TH HEAVEN"

Is Acclaimed by Critics as one of the Greatest Screen Dramas.

"7th Heaven" has been brought to the screen and will be shown on Monday, Tuesday and Wednesday at the Regent Theatre.

This picture, based on the play by Austin Strong, is said by all critics to be one of the finest porductions of any type ever screened. Taken from every angle it is perfection, and more than that it has lost none of the appeal or beauty of the original play.

The atmospheer of the Paris Montmartre, where the plot of the story is laid, is accurately carried out in the settings an dthe photographic effects. The story follows the play itself, but bringing into actual view those things that could only be talked about in the play, thereby heightening the interest and adding greatly to the entertaining value of the picture.

The characterisations of the players are said to be inspired, particularly that of Janet Gaynor, who appears as the winsome, frightened and finally glorified "Diane," and Charles Farrell, who is the handsome, egotistical, generous and thoroughly lovable "Chico."

"7th Heaven" is the story of two of the lowest types of Parisians, a worker in the sewers of Paris, and a waif of the Paris streets. But because of the glorious doctrine of courage which it preaches and the marvellous things it does to both of their characters it has been called one of the greatest and one of the most beautiful love stories ever written. The play created a sensation when produced for a record run on Broadway, and the picture is surpassing the reputation established by the play.

Besides the two principals, the cast includes Ben Bard, David Butler, Albert Gran, Gladys Brockwell, Geo. Stone, Emile Chautard, Marie Mosquini and Brandon Hurst.

Frank Borzarge directed the production.

AT THE CAPITOL.

"RAMONA" THE PICTURE THAT THE WHOLE CITY HAS BEEN WAITING FOR, WILL BE AT THE CAPITOL, MONDAY, TUESDAY AND WEDNESDAY. MISS GERALDINE COLLINS, GOLD MEDALIST AND SCOLARSHIP WINNER AT THE RECENT TORONTO EXHIBITION WILL SING "RAMONA" AT THE EVENING PERFORMANCE.—3 SHOWS DAILY AT 3:30, 7:00, 9:00.

"Ramona" here at last. It opens Monday afternoon at the Capitol, where it will stay for a three-day engagement. Manager Stewart has arranged to give three performances daily so as to give every one an opportunity to see the most talked of picture in years. There will be matinees every afternoon at 2.30 and two performances every night, the first commencing at seven o'clock and the second at nine o'clock.

"Ramona" holds the record for the longest continuous run for a picture in the city of Toronto, having run for fourteen weeks at the Tivoli Theatre. This beats the record of "Mickey" which had a continuous run of three months at the Grand Opera House a number of years ago. "Ramona's" run was all the more remarkable when it is considered that "Mickey" was shown only twice daily, afternoon and evening, while "Ramona" was shown five times daily, having been shown continuously from one to eleven p.m. every day during the record engagement.

For the local engagement, Manager Stewart was successful in securing the services of Miss Geraldine M. Collins, A.T.C.M., Gold Medalist at the recent Toronto Exhibition, and winner of the Scholarship, for having the best feminine voice in Canada, in the competition of 1928. Miss Collins will sing "Ramona" at the evening performances only. Miss Collins is a pupil of The Studio of Dorothy Allan Park of this city.

AT THE GRAND.

GORDON McLEOD IN "MISS ELIZABETH'S PRISONER"

Several English dramatic reviewers have expressed surprise at the importance placed by the young London star, Gordon McLeod, on his Candian appearance.

They point out that, last year, while already an established star in the British metropolis, he went to Canada merely as a featured player with Sir John Martin-Harvey and only because of Sir John's withdrawal from the cast of "Scaramouche" for several weeks did Canadian audiences have the opportunity of realizing that the young actor was an artist of the firts rank. This season he is in Canada at the head of his own company in "Miss Elizabeth's Prisoner", bringing with him a carefully-selected London cast and what has evidently astonished Londoners, arriving in the Dominion with one of England's most famous directors, A. E. Anson. Mr. Anson has previously gone to America to supervise the detail of English production for Broadway but he has never before been induced to cross the Atlantic to aid in the presentation of a play which is intended purely for a Canadian tour.

Perhaps, the explanation of Mr. McLeod's attitude lies in the fact that he himself is very nearly a Canadian. As a child, he came to the Dominion with his mother and lived for a number of years in Victoria, B.C. Later, when just out of school, he decided to become a farmer and with this end in view, came back to Canada and did the work of an ordinary farmhand at the Experimental Station, Indian Head, Sask. At that particular period, however, the supply of English agricultural novices was greater than the demand and Mr. McLeod temporarily left the farm to work in Indian Head where he scrubbed floors and did odd jobs at the Imperial Hotel. Returning to England because of family affairs, he went on the stage instead of returning to the harvest fields and made his next appearance on the prairies as a rising young actor.

His local engagement at the Grand Theatre, has been arranged for Thursday, September 20th. Advance sale of tickets opens at the box office Tuesday, at 10 a.m.

Passenger and freight air transport has been started between Vancouver, Victoria and Seattle.

GRAND THURS. SEPT. 20

THE ENTIRE COMPANY AND PRODUCTION WERE BROUGHT DIRECT FROM ENGLAND FOR THIS TOUR.

Prices 50c, 75c, $1.00, $1.50, $2.00
Seat sale opens Tuesday.

NEW METHOD OF LIKE NEW SHOE REPAIRING

SHOES REPAIRED WHILE YOU WAIT

No longer do you need to carry your worn shoes to a repair shop in a parcel, and perhaps suffer untold discomfort from an old pair a day or two while the better ones are being mended. No! Just wear the pair you want repairing to VENERANDA'S, and he'll give you a first-class job in a short time while you make yourself comfortable in a

COSY WAITING ROOM

Nicely furnished and supplied with Papers and Magazines.

Wonderful New Repair Machine

This "quick time" shoe rebuilding is done by a NEW MODERN MACHINE installed by us when going out of the retail shoe business. Better work and quicker service now await you at our re-modeled store, one of the BEST EQUIPPED SHOE REPAIR PREMISES in Canada.

LADIES' SHOE SHINE

Ladies and Misses, let us shine your shoes the refined and unembarrassing way. Be seated in our comfortable ladies' rest room, REMOVE YOUR SHOES, and we'll give them a "looking glass" Polish with Electric Brushes in our adjoining shoe shine department.

SUNDAY BLUE LAWS CUT TOURIST TRADE

Toronto Convention Association Head Notes Complaints of 'Dead' Sundays.

TORONTO, Sept. 15—(Special to The Examiner).—Much week-end tourist traffic is lost to Toronto because of the laws which prohibit the operation of theatres, ball games, and other such amusements on the Sabbath, according to E. R. Powell, managing director of the Toronto Conventions and Tourists Association.

One large convention party passing through Toronto last Sunday were quite bitter because they received no reception here, after being treated wonderfully in Montreal. They placed the blame for the uneventfulness of their short stay here on "Sunday Blue Laws."

"From Buffalo, for example, "said Mr. Powell to the Examiner, "A great many people would motor here for the week-end if there was anything for them to do. Thousands of people within motoring distance of the exhibition would come were the fair open. Many American cities use Toronto's quiet Sabbath as a point against it in the bid for tourists.

"I don't care to give my opinion of the matter, but others have expressed themselves against the "dead" Sundays," he said.

TRENT RIVER.

(Examiner Correspondence)

TRENT RIVER, Sept. 14.—Some of the farmers have finished harvesting. Some of the buckwheat is not ready; others are putting in rye and doing fall ploughing.

John Boyd has a wonderful display of salvia and other flowers in front of his residence.

Personals.

Dr. and Mrs. Foster, of New Jersey, have spent a week at Mrs Brewster's summer home. This is their first visit here and they are both delighted with this resort and fully intend returning next year.

Mr. George Spencer and daughter Winnifred, motored to Toronto and spent the week-end attending the C.N.E.

Messrs. Alphonsus McNichol, of Toronto, and Bernard McNichol, of Detroit, arrived Monday to spend their holidays with the former's parents, Mr. and Mrs. M. McNichol at "Sum-er-in."

Miss Isabel Boyd, of Fort William, who has been visiting her grandfather Mr. John Boyd left Monday for Toronto where she will enter Normal school.

Miss Ethyl Rose spent the week-end in Toronto attending the C.N.E.

Mr. and Mrs. Fred Lane and Mr. Fogarty (Mrs. Lane's brother) arrived from Toronto Monday as guests at the Cook cottage.

Exhibition Attendance.

Attendance at the Exhibition yesterday showed a decided increase over the early days of the week, although nearly a thousand less than the corresponding day of last year. Yesterday there were 9,573 paid admissions to the grounds. The figures for the week are:

	1927	1928
Monday	Free	Free
Tuesday	1,957	5,498
Wednesday	9,558	2,824
Thursday	6,850	6,728
Friday	10,487	9,573
Total	28,852	24,623

Decrease on day—914.
Decrease to date—4,229.

Cavan

(Examiner Correspondence)

CAVAN, Sept. 15.—Mr. and Mrs. Russell and children, Toronto, were week-end guests of Mr. and Mrs. D. J. Hunter, motoring down and bringing the Misses Hazel and Gwen Hunter and Mr. Oren Robertson. They returned to Toronto on Monday.

Mr. and Mrs. F. Nelson, who have been visiting Mrs. Milligan and Mrs. Kelly and other relatives in Ontario, motored to Toronto on Wednesday, intending to leave for their home in Rockfort, Illinois, on Thursday.

Messrs. Ralph Staples, Emery, Carl and Mervin Smith were visitors to Peterborough Exhibition on Wednesday.

Mr. George Coulter, Millbrook, is spending a few days at the home of Mr. Eber Syer.

Mr. and Mrs. R. Falls and Miss Margaret were guests of Mr. and Mrs. F. M. Staples on Wednesday.

Cheese Prices
Eighteen hundred cheese were offered at the cheese board to-day. All sold at twenty-two and eleven sixteenths cents.

Wheat Moves Higher Following Liverpool

CHICAGO, September 15 (Canadian Press). — Wheat tended upward in price here early to-day, reflecting higher Liverpool quotations than were looked for. With corn showing strength, a pronounced disposition was evident to refrain from speculative selling of wheat except on good upturns. Opening ⅝ to ¾ cents higher, Chicago wheat rose a little more, but then reacted somewhat. Corn started at ⅛ to 1⅛ cent advance and subsequently scored further gains. Oats were firm.

Provisions held steady.

Opening prices were: Wheat, September 100, December 124. Corn, September 101⅛, December 77. Oats, September 41⅛, December 41⅝.

Toronto Trading Light With Leaders Losing

TORONTO, Ont., September 15 (Canadian Press). — Trading was very light on the Toronto Stock Exchange to-day and was scattered throughout the list. Prices were mostly stationary, with a few losses being recorded. Canada Dredge Preferred was the heaviest loser, dropping from 163 to 152 for a loss of eleven points as compared with yesterday's close. The Common stock was also on the decline, going down to 50 for a loss of three.

International Nickel was firm at 128 for the most part of the session, and registered a loss of seven at the close to sell at the above figure. Brazilian Traction, with sales amounting to less than 500 shares, suffered a fractional loss of ¼ at 59, while McKinnon at 51¼ was down one-half.

Newbec Is Still Active But Loses Four Points

TORONTO, Ont., September 15 (Canadian Press). — With the bulk of interest concentrated on Newbec, the trading constituting over 168,000 of the total sales of 765,000, the issue continued strongly on the market at the Standard Mining Exchange to-day. The price, however, failed to retain its high price of yesterday, and eased off to 52 for a loss of four.

Hudson Bay continued on its upward movement. After topping its gain of yesterday, it closed 85 cents higher than its previous price at 20.60.

Malartic was an active feature, jumping to 1.80 for a gain of 14. Sudbury Basin was up 27 at 6.37, Sherritt-Gordon 25 at 6.80. Sisco eight at 28, and Abana 10 at 3.50.

Hollinger Consolidated was weak, sagging 45 points to sell at 8.45. Teck Hughes was also down, easing five cents at 8.90, and Jackson Manion three at 85.

Mining Briefs

A Special Service to The Examiner

TORONTO, September 15. — A report from Rouyn states that the B ore body at Noranda was encountered in a crosscut on the 625-foot level, and that crosscutting is now in progress to the same point on the seventh, eighth, and ninth levels. No dimensions or grade of ore has been made public as yet.

Activity in Newbec continues unabated. Favorable reports on diamond drill operations and the reported favorable developments on the adjoining Gilbec property are said to be strong factors in this rise. Engineer Len Smith was in the city up to a few days ago, but it appears as though he has now returned to the property.

Sunrise Gold Mines, Limited, a recently incorporated company shows a line-up of interesting properties. They have acquired the McPherson group of nine claims in Level Township adjacent to Bidgood, Cambro, and Continental. Over $30,000 has been expended on the property by the former owners who, it is said, have uncovered ten gold bearing veins. Surface work will be started here immediately. The company also has claims in Thackeray Township, Playfair Township, Playfair and Black Townships and Maisonville Township.

Diamond drilling will commence shortly on the property of Gold Centre Porcupine, it is said. This property consists of 160 acres adjoining Hollinger and McIntyre. According to the report on preliminary work, recently completed, encouraging gold values have been found on surface and in the small shaft sunk on the property.

An engineer who has just returned from the White Lake Mines property and the district states that developments at the former property continue good and that recent work has been successful in disclosing substantial amount or ore to the west of the original discovery. He states that "in one trench a width of about 12 feet of practically massive chalcopyrite has been uncovered." Regarding work he says that "Preparations are being made to drive an adit into the hill near Clear Lake. This will tap the above mentioned ore at a depth of about 140 feet. Winter camps are being put up at the present time."

Our Vancouver correspondent writes that "Britannia mill, of the Howe Sound Company, at Howe Sound, B.C., is now treating 3,000 tons daily. The mill was built in 1921 and had a rated capacity of 2,000 tons daily, a tonnage which it soon outstripped. Additions of coarse-crushing machinery at the bottom of the raise from the main haulage tunnel, through which all the ore passes, and of fine-crushing machinery and flotation cells in the mill building, from time to time, have raised the mill to its present capacity. Milling costs have been reduced to less than 40 cents per ton, and the copper content of the tailings to less than 0.11 per cent. The mill makes two products, a copper concentrate, averaging around 21 per cent. copper, and an iron pyrite concentrate, averaging around 40 per cent. of sulphur."

It is understood that Amulet has already secured good results from their diamond drilling campaign. Details will be forthcoming shortly.

FOR SALE.
50 Acres of Farm Land, suitable for gardening and fruit farm, on a good main road; ½ a mile of water front. Good frame 7-roomed house, large frame barn, 30 x 100, drive shed, hog pen and henhouse. Would make an ideal spot for small farming, chicken raising, fox farm, or gardening.

Railroad Shares Active; Upward Move Continues

NEW YORK, September 15 (Canadian Press). — The revival of activity and strength in railroad shares featured the resumption of the upward price movement in to-day's stock market. Despite the absence of many traders because of the Jewish religious holiday, trading was in substantially large volume for the half-holiday session. The day's sales approximated 1,500,000 shares.

Buying of rails was influenced by predictions of unusually heavy crop movements in the last quarter of the year. St. Louis South-Western Common, a non-dividend payer, advanced 4¼ points to a new peak at 113. New York Central and Canadian Pacific each advanced three points, and Missouri Pacific Common, New Haven, Chicago North-Western, Erie and Consolidated Railways of Cuba Preferred sold two or more points hogher.

Motor Products was the spectacular individual feature, soaring 26 points to a new high record at 190, as against the year's low of 94, established less than three months ago. Warner Bros. Common and A stocks extended their early gains to eight and seven points respectively. Commercial Solvents jumped 7½ points, and Columbia Carbon moved up more than four to a new peak price at 103⅝.

CERVONNE'S BAND PLAYS FOR DANCE

Large Crowd Goes To Rye's at Close of Grandstand Performance.

Many orchestras have been heard in the city during the past few years but Cervonne's group of players made a real hit last night at Rye's Pavilion. After the performance at the grand stand, H. B. Rye had six of the boys go dow nto the pavilion and play for several hours. They gave red hot music to the largest crowd of dancers of the season at the pavilion, and one of the most noticeable facts was the length of each dance which every time went over the ten minutes. Mr. Rye deserves great credit for the efforts he always makes in having the best orchestras and bands to visit the city give a program at his pavilion.

Summary of the Company's Progress and Monthly Income

The Company is incorporated under the laws of the Province of Ontario. The Directors were elected and the Company commenced operations on March 7th, 1928.

Months Operating	Preferred Shares Issued	Actual Monthly Income Received
March	222,650	$11,661.31
April	258,420	13,099.98
May	315,250	14,069.25
June	413,674	16,712.57
July	468,265	18,002.51
August	532,602	25,248.88

The Company's Income is now 4¾% per month on the outstanding Preferred shares.

After the expenses of Management, Taxes, etc., the Charter provides for the distribution of the Income four ways as follows:—

1. CUMULATIVE 12% REDEEMABLE PREFERRED STOCK
The Preferred Shares are a first lien on all the Assets of the Company with a fixed dividend of 12% per annum payable 1% monthly on the first of each month to shareholders of record on the 25th day of the previous month, and are redeemable at $1.10 a share.

2. SINKING FUND
An amount equal to at least ½ of 1% each month on the outstanding Preferred Stock of the Company must be set aside out of the Income of the Company and deposited with The Imperial Trusts Company of Canada, as Trustee for the Redemption of the Preferred Shares on the 1st April, 1943, at $1.10 per Share.

3. SURPLUS FOR RE-INVESTMENT
Two-thirds of the Surplus Income must be invested in producing Royalties to increase the Assets and Earning Power of the Company and the remaining one-third is available for Common Stock Dividends.

4. COMMON STOCK DIVIDENDS
One-third of the Company's Surplus Income is set aside for dividends on Common Stock and in view of the large Income. Dividends are assured and the Company will commence paying regular dividends on April 1st, 1929, as originally provided.

Monthly Dividend cheques for the Preferred stock at the rate of 1 per cent. are issued by The Imperial Trusts Company of Canada, and this dividend has been paid regularly since April 1st, 1928.

$38,000.00 has already been invested out of the Surplus Profits in New Producing Oil Royalties for the Company.

No other Royalty Company on the Continent has made greater progress in so short a time as STANDARD ROYALTIES LIMITED, all due to the Company's funds being invested only in Diversified Producing Oil Royalties in Fields of Proven Deep Long-Life Sands which are being operated by the Major Oil Companies.

The shares are sold in Unites of 100—12 per cent. Preferred shares at $1.00 per share and 100 Common shares at 25c per share. The present yield will be substantially increased in the near future out of the Rapidly Increasing Common Stock Dividend Fund, as provided for in the Charter.

A DESCRIPTIVE CIRCULAR, GIVING FULL INFORMATION ON STANDARD ROYALTIES LIMITED, WILL BE FORWARDED ON REQUEST.

When purchasing units please make cheques, Drafts, or Money Orders payable to The Imperial Trusts Company of Canada, and forward same to:—

Mid-Continent Bond Corporation
331 Bay Street, Toronto, Canada
'Phones: Adelaide 9177-8-9-0

Upon receipt of funds the Share Certificates will be issued by The Imperial Trusts Company of Canada, the Official Transfer Agent for Standard Royalties Limited, and forwarded by registered mail to the purchaser.

FISH AND GAME SOCIETY MEETS

A very important meeting of the Pterborough County Fish and Game Protective Association will be held in the Empress Hotel next Tuesday evening at eight o'clock. Matters of importance will be brought up at this meeting and also matters of public interest will be discussed. All those who are interested in the preservation of our fish and game should be present and a representative attendance is requested.

HOUSE OF BISHOPS IS MEETING TO-DAY

HAMILTON, Ont., Sept. 15. — (Canadian Press).—The House of Bishops of the Church of England in Canada is meeting at Christ Church Cathedral here to-day for the purpose of considering the resignation of the Primate of Canada, Archbishop of Rupert's Land, the Most Rev. Dr. S. P. Matheson. That he will be urged to continue is indicated. The decision may not be known for a week.

On Monday a joint committee of the upper and lower houses meets, and the Mission Commitee will report on the Canadian Northwest Missions and the Foreign Fields.

BICYCLE RIDERS TAUGHT SAFETY

Plank Riding Contest Feature of Demonstration at Fair Grounds.

JOYCYCLE RACE HELD.

A turnout of seventy-five bicycle riders and several joycycles greeted the famous cyclist Fred St. Onge at the Exhibition grounds this morning where he gave a safety demonstration and carried out an unique contest in the form of plank riding.

Fred St. Onge, travelling for the Canada Cycle Motors has been carrying out a safety campaign from coast to coast, starting early in the spring of this year. His usual practice is to stage a safety demonstration in each of the schools throughout the cities he visits, but he was unable to carry out this plan here.

In safety riding he demonstrated the proper way to ride a bicycle, the proper use of hand signals that are so often neglected and showed the importance of warning signals such as horns and bells.

Several hundred spectators witnessed this demonstration and found the contest to be of great interest, as real skill and steadiness of nerve is required to stay on the narrow plank for any length of time or distance. Planks are placed on the ground, forming a straight runway six inches wide and one hundred and fifty feet in length.

Reggie Stevens, of Confederation school, succeeded in riding the entire length of the board four times and made a hundred and twenty-five feet of the one hundred and fifty in a fifth attempt, covering a total of seven hundred and twenty-five feet in five trials. Griffin Young, of the Prince of Wales school covered 315 feet and was second, while third was Jack Comstock of the Collegiate, 170 feet.

The joycycle race, in which none of the winners were over six years of age, was the feature event of the day in some loving mothers' eyes and perhaps the first public contest the youngsters had ever entered. All set at the word go the kiddies pedalled over the course for dear life at the signal and Ernie Greyson, five years old tore across the finish as the winner, with Ray Matthews, six years of age, and Helen Thomson, also six, as second and third.

Fred St. Onge was assisted by the local bicycle dealers, T. H. Ashby, H. T. Millard and Karl Simpson as judges.

BIRTH.

Re-opening of the Duffus Bowling Academy

Splendid Preparations For a Most Successful Season.

A genuine surprise awaited the lovers of bowling on the opening of the newly perfected Bowling Academy of J. J. Duffus Limited, corner of Water and Charlotte streets, this afternoon.

The splendid equipment of last season was even surpassed by the added attractions, and when the bowlers filed in this afternoon, they were delighted with the many new, attractive features which were presented to them.

It is not too much to say that the Duffus Bowling Academy presents features unequalled anywhere in the Dominion.

Those who desire to enjoy an hour or two's healthy exercise, will be delighted with this new and varied modern equipment prepared for their amusement. —Advt.

IN MEMORIAM.

In loving memory of John A. McIntyre, who passed away Sept. 11th, 1927:

The depth of sorrow we cannot tell
Of the loss of one we loved so well.
And while he sleeps a peaceful sleep
His memory we shall always keep.

Days of sadness oft come over us
Tears of sorrow often flow
Memory keeps our loved one near us
Whom God claimed one year ago.

—Lovingly Remembered By His Wife and Family.

Nervous Breakdown

Only those who have suffered the tortures of a nervous breakdown and have obtained benefits from Chiropractic can understand how effective spinal adjustments are for nervous disorders. Any derangement of spinal segments or constriction of spinal muscles can cause severe irritation of the nervous system. If this irritation exists for a length of time it may result in a gradual paralysis, St. Vitus dance, or nervous breakdown.

CHIROPRACTIC SPINAL ADJUSTMENTS

have proven their worth in bringing health to sufferers from these nervous troubles. If you find yourself easily fatigued, over irritable and your nerves all on edge, you can bank on getting benefits from Chiropractic.

LET US HELP YOU TO HEALTH.

NEW GOLD STRIKE MADE IN NORTHERN ONTARIO

Englehart Centre Of Find

Mayor of Town and Several Other Prospectors Report Surface Ore.

VARIES IN VALUE.

Mayor Weeks' Discovery Comes As Climax of Romantic Career in Northland.

ENGLEHART, Sept. 17 (Special to The Examiner).—A new gold strike has been located in the hills surrounding the town of Englehart in Brice Township, about thirty miles from the Kirkland Lake gold fields, it is reported.

Surface ore, varying in value, has been located by several prospectors, it is said. Among them is Harry "Billy" Weeks, Mayor of Englehart. He has carried out exploring work for nearly three years, has several claims, and feels that Brice Township may develop into a second Kirkland Lake.

If Weeks does strike it rich it will be the climax of a romantic career in which the North has "broken" him financially three times and the fulfillment of a declaration that the North will some day bring him fortune.

Weeks is a real man, the head of a man's town, but he wears a woman's shoe. Male shoes don't agree with his feet, which are exceptionally small for a big man, so he wears a lady's "five."

He is road inspector for the Provincial Government in that section of the province, and is also in charge of the Sharpe Township Colonization scheme in which settlers are being taken by the government from Haliburton and given farms in the North.

He has had one of the most colorful careers in the North. He was born in England. Sixteen years ago he arrived at Montreal and was married on the day he landed. The clay belt around Englehart, then only a lumberjack's shack or so, seemed attractive, so Weeks and his bride settled there and began to battle for existence in the bush. A clearing was made, a house and barn built, cattle, pigs and chickens bought, and everything was rosy until the winter came.

The cattle took rheumatism and died. His horse swallowed a turnip, which caught in its throat and choked it to death. The same fate took off the pigs. Then a friend gave him a few chickens. They and his own died.

They were broke in a strange country. Weeks walked eight miles when it was more than thirty below zero to a lumber camp. The foreman laughed at him when he asked for a job. Finally he was hired as cook.

Now he is Mayor of Englehart for the fourth time. He has shown most of the Provincial Cabinet Ministers and Premiers over the North in the past few years, and is known to many of them as "Billy."

I.O.O.F. MEMBERS MEET AT MONTREAL

Sovereign Grand Lodge Holding 104th Annual Convention There.

MONTREAL, Sept. 17 (Canadian Press).—Approximately one thousand members of the Independent Order of Oddfellows were here to-day for the 104th annual convention of the Sovereign Grand Lodge, which will conclude at the end of the week. They were welcomed by Premier Taschereau and Mayor Houde.

MUCH DAMAGE IS DONE WEST INDIAN HURRICANE.

SAN JUAN, Porto Rico, Sept. 17 (Associated Press).—Seventy per cent of the beautiful capital's homes and forty per cent. of its business buildings believed destroyed.

Ponce, Porto Rico—Ten dead, 700 homeless. Extensive damage, although Ponce apparently not so hard hit as San Juan.

Humaco, Porto Rico—Thirty dead; widespread damage.

Nassau—Shipping ordered to anchorages in expectation that falling barometer forecasts arrival of the big wind.

St. Croix, Virgin Islands—Hundreds homeless.

San Salvador — Stiff northeasterly gale blowing yesterday afternoon over the island Columbus discovered.

Turks Island, British West Indies—Two schooners damaged; one reported lost with all hands.

Puerta Plata, San Domingo — Bull Line freighter Lillian driven ashore Saturday.

SAVES WOMAN FROM DROWNING

George Metcalfe Pulls Her Out of River Near London Street Dam.

ATTRACTED BY SCREAMS.

Hearing the screams of a woman calling for help from the river near London Street yesterday afternoon, George Metcalfe rushed to the river bank and there rescued a young woman who was a visitor to this city from drowning. The lady, who has been in poor health for some time, had been noticed sitting on a log near the bank for an hour or more during the afternoon. When Mr. Metcalfe reached the water she was floating on her back and calling for help, but making no effort to get ashore. He ran out along one of the boom logs, and, reaching out, caught her and pulled her on to the log. In effecting the rescue he fell in himself. A pulmotor call was put in, but the apparatus was not necessary. Dr. McPherson was called to the scene to render medical assistance.

Exhibition Attendance.

Despite the bad weather of the early days of the week, Peterborough's Industrial Exhibition piled up an attendance of 34,383, a total which two or three years ago was considered impossible of attainment. True, the turnstiles did not register the 45,000 confidently expected before the show started, but considering the handicaps encountered, the directors are delighted with the showing made. Saturday did not bring in as many as the closing day last year by more than two thousand, but helped swell the attendance by 9,760 paid admissions. The figures for the week follow:

	1927	1928
Monday	Free	Free
Tuesday	1,967	5,498
Wednesday	9,558	2,824
Thursday	6,850	6,728
Friday	10,487	9,573
Saturday	12,049	9,760
	40,901	34,383

Decrease on day—2,289.
Decrease on total—6,518.

LARGE CROWD ATTEND FAIR ON LAST DAY

Many Fine Types of Animals Seen in Live Stock Parade.

HEAVY DRAFT HORSES.

Biggest Crowd of Week Sees Exhibition Brought To Close.

Saturday night saw the bringing to a close of Peterborough's 1928 Industrial Exhibition. Although threatening rain all day, the sun came out at noon and shone on the largest crowd of the week. Early in the afternoon the parade of live stock winners was formed up and headed by Cervonne's band paraded in front of the grandstand. In the parade was seen the best that this district, and, in fact, in some classes the best that Canada can produce for the grand champion dairy bull was there owned by the Field Lodge Farm and which will represent Canada at the great dairy fair to be held in Memphis in October, and J. Seymour and Sons had Idlewilde Korndyke, world's champion milk cow.

W. H. Petrie's six-horse team from Toronto and which is said to be worth $15,000 followed the band and then came heavy draft horses, agricultural and general purpose horses both on the halter and hitched to wagons. Then there followed the driving classes and the horse under saddle, light delivery and heavy delivery outfits.

In the cattle section of the parade were shorthorns owned by Kerr and Davidson, W. E. Skuce, Reaboro, George Whittington and Son, South Monaghan, who won the county special on the junior herd, and Allan B. Mann's. With the Herefords was those owned by Mossom Boyd of Bobcaygeon and included champion Hereford bull and the champion female, which were also grand champions at the Canadian National. This herd also won the Bank of Montreal trophy and Walter Lowney Company trophy. There was also Charles Westlake's herd, including the winner of the Peterborough butchers' trophy for the best local beef bull and those winning the senior herd prize. Mr. Westlake has won the trophy two years in succession. Birdsall and Son brought up the rear of the Hereford class with the winner of second prize in the Hereford bull class.

Aberdeen Class.

In the Aberdeen-Angus class were the cattle owned by Bertram Blackburn of Uxbridge. Gordon Mann had the champion male and female out in the Ayrshire class. Kerr Brothers' Ayrshires from Campbellford were there with also those from the Smith Township Heifer Club.

There was a strong representation of Jerseys, including those from the Field Lodge Farm, with Silver Boy, the winner of the Canadian Bank of Commerce trophy, W. H. Down's of Lakefield, Fred Bent's from Omemee, E. L. Bellthorpe's, and Kerr Brothers'.

J. Milligan and Sons from Cannington had their Guernseys in the long parade, and with the Holsteins was J. C. Seymour and Sons' world's champion milk cow, Idlewilde Korndyke, and also those that won the Farm and Dairy trophy, De Laval trophy, the Bradburn trophy, and the Patterson trophy.

At the final grandstand performance Lieut. Cervonne's band played a special farewell arrangement, "Till we meet again." This included a vocal solo, the chorus of "The End of a Perfect Day" and wound up with "Auld Lang Syne."

Bee Starr surpassed her feats of earlier performances by doing 128 complete turns, dislocating her shoulder each time.

LIGHTS GO OUT AT WRONG TIME

Services in West End Churches Last Night Cut Short.

TRANSFORMER BURNS OUT.

The lights in the section of the city north of Charlotte Street and west of Rubidge Streets centering around Trinity and St. Andrew's Churches went out at a most inopportune time last night. Just as the congregations had gathered for the evening service a transformer in that section of the city burned out, thus cutting off the lights. Harry Beatty, superintendent of the Utilities Commission, immediately got men out to replace the transformer, and by nine o'clock the power was on again, but too late to aid those who had gone to church. In the churches several hymns were sung and the ministers offered prayer and then dismissed the congregations.

Few Buy Verses To Aid Woman Gain Living

Possibly very few people noticed one of the minor actors in the drama of the Exhibition last week. Through all the inclement weather, an elderly woman dressed in faded black stood at the main entrance of the Manufacturers' Building, proffering little printed verses to the passers-by. "Ten Cents, or give what you like" was written on the bottom of the pages, but most people passed by with a shake of the head.

During the whole of one rainy day, the old lady stood from morning until night. Then a kindly attendant at the Post Office exhibit provided her with a chair. She had little to sustain her but milk and remained at her post until Saturday night.

This old lady lives about nine miles from Havelock. Her husband is blind. She has four children, three of whom are married and away from home. A fourth was incapacitated by war service and is not able to do much to help her.

During the week, she sold several copies of the verses.

NEW STAMPS FOR AIR MAIL READY FRIDAY

Service To Be Put On Permanent Basis At Beginning of October.

ARTISTIC STAMPS.

Winged Figures Hover Over Globe With Plane Above—Two Languages Used.

OTTAWA, Ont., September 17 (Special to The Examiner). — Canada's new air mail service, hitherto viewed as a test service, takes on permanency on October 1, when the new air mail stamps will be on sale and the Toronto-Montreal and the Montreal-Albany air mail services go into effect.

The new air mail stamp is considered an artistic triumph. It is a five-cent stamp in sepia. The upper half of the globe is shown and covering over it are two winged figures with hands joining over the North Pole and the other hand resting on the globe itself, and in between a panel with the word "Air." Above is a monoplane with whirling propeller, a machine of the type being used in the air mail service.

Across the top is the familiar scroll with the word "Canada," and at the two bottom corners the figure "5" with the word "cents" in the centre. The bilingual character of the service is perpetuated in the word "Postes" vertically on the left and "Post" vertically on the right.

The new stamps will be on sale at Canadian post offices on September 21, the supply being sent out to-day. These stamps will be used to prepay all classes of air mail at the rate of five cents for the first ounce and ten cents for each additional ounce for conveyance over the following air routes:

Montreal-Toronto, daily except Sunday.

Montreal-Albany, daily except Sunday, and over any air mail route in the United States.

It is not compulsory to use the air mail stamps. Ordinary Canadian postage stamps may be used to prepay air mail for conveyance over any air mail route in Canada or the United States, but in all cases covers should be conspicuously endorsed "Via Air Mail." The air mail rate of postage covers ordinary postage, but fees such as registration, etc., are additional. The new stamps were designed, and are being printed by the Canadian Bank Note Company at Ottawa.

'MURDER FARM' TALE REPEATED BY NORTHCOTT

Father of Accused Man, Held As Material Witness, Feared For Himself.

THREATENED BY WIFE.

Four Boys Killed — Gordon Northcott Tortured Victims Before Death.

LOS ANGELES, Sept. 17 (Canadian Press).—Investigation into a 15-year-old boy's story of the slaying of four boys on a Riverside, California, farm took new impetus late last night when George Northcott, held as a material witness, told officers his son, Gordon Northcott, and grandson, 15-year-old Sanford Clark, had admitted to him that they had committed the murders.

The statement of the elder Northcott came at the end of a day's questioning by officers. The elderly man added a new sensation when he declared that his grandson and his own wife had tried several times to murder him, the last attempt being only six weeks ago.

The two boys, Clark, who first told the story of the "murder farm" to police, and Gordon Northcott both told him, Northcott said, that the three youths slain on the farm were Lewis and Nelson Winslow of Pomona and Walter Collins of Los Angeles. He said they also told him of an unidentified Mexican boy being slain and of his head being cut off.

Young Clark had admitted that he was forced to kill one of the Winslow boys under fear of his own death at the hands of Gordon Northcott. The latter, he said, killed his victims only after inflicting torture.

FIRE LOSS LOW.

Chimney Fire On Friday First Alarm of Month in Campbellford.

(Examiner Staff Correspondence)

CAMPBELLFORD, September 17.—The first fire alarm for the month was rung in at 6.40 on Friday night when there was a chimney blaze at William Martin's residence, Ranney Street. The brigade responded with the usual efficiency, and matters were set right by the use of chemicals before much damage was done. The loss is slight, and is covered by insurance.

ADOPT CHAIN STORE METHODS SAYS VETERAN

John Burton, Well Known Traveller, Addresses Rotary Club.

GOVERNOR COMING.

Will Visit Peterborough Rotarians Week From Wednesday.

Peterborough Rotarians at their weekly luncheon at the Empress Hotel to-day heard some theories of business discussed in a most interesting manner by a speaker with many years experience in Canadian business life. John Burton of Toronto, one of the best known commercial travellers in Canada.

Mr. Burton is a breezy and colorful speaker and his talk, particularly his reminiscences of his own early days in Canada and his arrival here at the age of 20 as a penniless immigrant was alive with interest. The veteran traveller is actively connected with the work of the Gideons and at the beginning of his address referred to the activities of that organization in placing over a million bibles in the hotel rooms of this continent.

Mr. Burton's message to the retail merchants was to meet the competition of the chain stores in adopting the method of the latter, particularly in insisting upon business being done on a cash basis and in the elimination of delivery service and other items of overhead. Their duty was first to their own families rather than to the families of other people and they were entitled to a living. The speaker warned them too against the danger of selfishness. If they conducted their business in a fair honorable manner they would in the long run succeed and be an honor to themselves and their families and to their business.

Speaking of his own career in Canada Mr. Burton remarked that he had arrived her an immigrant 20 years old, without money and without education and had managed by sticking to the ship to achieve a measure of success, raise a family and enjoy life in this country.

The speaker was introduced by Rotarian James Juby and a vote of thanks was moved at the conclusion of the address by otarian Thomas Barrie.

Among the visitors to-day were E. F. Mason and J4 Geraghty.

President W. R. Morris called the attention of the members to the visit on Wednesday of next week of District Governor Turnbull. The Governor, he said, was expected to arrive on Tuesday in time to visit the Boys' Camp and inspect the plant there. His address on Wednesday will be given at noon and consequently there will be no Monday meeting of the Club next week.

Rotarians George Macdonald and Jack Selby who have been away on holiday trips for some time, the former in Europe and the latter in the Maritime Provinces were warmly welcomed home.

JANET WILSON WINNER OF $5

Kendry Girl Finder of Balloon Which Travelled Farthest.

SEVEN REPORTED.

Janet Wilson, of R. R. No. 5, Peterborough, is the winner of the $5.00 prize offered by The Examiner to the finder of the balloon travelling farthest of those released on Dollar Day. Eleven were sent out, and seven were reported. Four of these were picked up by the Fox Farm, one on Monaghan Road, one at Springville, and one near Kendry. This last was found by Miss Wilson, whose prize is being mailed to her.

WIDOW CONFESSES TO KILLING HUSBAND

Policeman Killed in Home With Carving Knife, Woman Admits.

NEW YORK, Sept. 17 (Canadian Press).—Dorothy Leonard, 25, widow of Policeman Michael Leonard, who was found dead in his Flushing home on Saturday, confessed yesterday, police said, to having slain her husband with a carving knife.

DUKE SCHILLER TAKES OFF ON FLIGHT TO NORTHLAND.

SAULT STE. MARIE, Ont., September 17 (Canadian Press).—A Loening amphibian plane, piloted by C. A. "Duke" Schiller, and with T. M. 'Pat" Reid as co-pilot, took off from here yesterday on the first stage of a 1,500 mile flight to Kogaluk Bay, in the Chesterfield Bay area of Hudson Bay. Col. J. E. Leckie, mining engineer, in charge of the Northern Aerial Minerals Exploration Company's operations, was a passenger.

The plane will investigate the situation of one of the company's parties at present located in the northland. Previous to the take-off Col. Leckie denied published reports that the outpost was in danger of starvation. So far as the company was aware, the men were in no danger.

"Duke" Schiller, whose license was recently suspended, was temporarily reinstated to take a part in the flight. The first stop is expected to be made at Remi Lake for re-fuelling.

SIX PERMITS IN PAST WEEK

Building Operations To Cost $3,075 Authorized By Engineer.

MOSTLY ALTERATIONS.

Six building permits estimated to cost $3,075 were issued during the past week by City Engineer Parsons. W. W. Theobald is erecting a new four-car garage at 709 Water Street. Fred H. Rowan is repairing T. H. Hooper's houses at 291, 293, 297 and 299 Townsend Street. New verandahs will be built at the rear and front of each house. The estimated cost is $2,500. F. Forsythe is having his house at 635 Downie Street stuccoed and shingled. The other three permits were for minor repairs.

IN POLICE COURT

J. Gates, Jr., appeared on charge of assault and was remanded until Thursday for trial.

Robert Fruse was arraigned on the charge of using abusive language in a public place, but with the consent of the prosecution the charge was withdrawn when Fruse agreed to pay the costs.

William Kelly pleaded guilty to a charge of begging without the proper certificates, and was given, on his own request, two months on the hill.

Raffia Work On Exhibit At Fair

A real, tangible proof of the summer's work by the children's playground was to be seen at the Peterborough Exhibition at the south side of the Main Building. Here was to be seen raffia work that was done by the kiddies, showing a remarkable degree of skill and workmanship. Raffia picture frames for the dresser, pin boxes, and many other articles expressed a true interest in their work.

The fancy work displayed—and that also was the work of the children at the playgrounds throughout the summer — expressed in nearly all cases real talent. Aprons, runners, table centres, little boys' overalls, bags, purses, and other articles were on display that spoke of a very successful summer's work at Peterborough's playground.

Greatrex Enters Suit

Mystery Case of Five Years Ago Revived By Court Action.

NURSE'S MISTAKE.

Father Holds Hospital Responsible For Child Being Given To Wrong Man.

Special to The Examiner.

DETROIT, Mich. Sept. 17.—One of the most puzzling mysteries which has ever confronted the Detroit police, the Greatrex baby case, will be revived in circuit court here to-day when William C. Greatrex, 26, the father of the "Greatrex baby" opens his two hundred thousand dollar damage suit against the Evangelical Deaconess Hospital for their negligence in giving away his child five years ago.

The hospital's error was committed while Greatrex was in Toronto burying his wife, who had died a week after the birth of the child. Both parents were former residents of the Canadan city. The hapless error the trial will reveal, was traceable to a nurse in the hospital, who mistook the parent of another child in the hospital for Greatrex.

The nurse's mistaken identity was attributed to the fact that two children, both baby boys, were born in the hospital within a week of each other.

Greatrex was the father of one The other child was born to Eva Viemminck, 18 years old and the father of the child was Eva's father Alphonse Viemminck, who then lived in a shack at Grosse Point village, a Detroit suburb .The Viemminck baby was born August 29, 1923, a week before the Greatrex child. After Mrs Greatrex's death Greatrex took her body to Toronto for burial.

Greatrex then returned to Detroit with his mother, Mrs. Christopher Greatrex, of 127 Briar Hill, Toronto. When he went to the hospital to rhis child he was informed that the child had been given away three days before by a nurse, Miss Helen Sawsky, who mistook Viemminck for Gretrex.

Viemminck was called to the hospital for questioning and told the Rev C. C. Haag, superintendent, that he had given the baby to a stranger who was motoring to his home in Pennsylvania. Disbelieving the story and fearful that Viemminck had killed the child, District Police Inspector John P. Smith organized a hunt that examined every possible place on the east side of Wayne county where a child's body could have been concealed.

While detectives were making an extensive search for the body of the missing child another squad of officers directed their efforts to check Viemminck's story of the disposal of the body.

Viemminck was then arrested on a statutory charge, but the case was subsequently dismissed because his daughter Eva, the only witness against him, refused to testify. Almost three years ago the Viemminck child, who had been boarded at the hospital, was adopted. No trace of the Greatrex boy was ever found.

Louis Cohane, who will represent Greatrex, is searching for Viemminck and his daughter, who disappeared shortly after the statutory action was dropped. Both Greatrex and his deceased wife and their parents were natives of Toronto The latter now resides there.

Ex. Notes

A registration book for visitors, to be placed in the section devoted to the display of women's work, is a suggestion for future use, made by one of the ladies in charge there this year.

May Attempt To Take Prayer Book Question Out Of Hands Of Parliament

LONDON, Eng., Sept. 17.—(Canadian Press Cable).—An attempt may be made to take the Prayer Book question out of the hands of parliament altogether, according to an article in yesterday's issue of the Sunday Times. The article was written in connection with the coming meeting of the Bishops at Lambeth Palace, called to decide what action is to be taken in regard to the second defeat of the Prayer-Book measure in the British Parliament.

Stating that the possibility of securing amendments to the Enabling Act so that the Church may settle to its own domestic concerns through an Assembly and Convocations, as does the other established church, the Presbyterian Church of Scotland, is to be thoroughly discussed the article says that a committee of statesmen and churchmen to prepare the way for this extension of privilege, has been proposed by the Primate.

Should the Church of England obtain these powers it could deal with its own creeds and forms of worship without appeal to parliament.

Would Make Bleak Coast Of Labrador Into Productive Agricultural Region

AMHERST, Mass., Sept. 17.—Canadian Press).—Professor Fred C. Sears of the Massachusetts Agricultural College is back here after a trip to the Grenfell Mission in Labrador during which he set under way an experiment which may convert the bleak coast of Labrador into a productive agricultural region.

Professor Sears was selected by Dr. Sir Wilfred Grenfell to serve on a commission to conduct experimental work in agriculture for two years in an effort to determine whether vegetables and other agricultural products can be produced in parts of the world, such as Labrador, where the season is too short for normal growth.

The mission has more than 75 head of cattle but as the season is short and tillable land scarce there is difficulty in finding sufficient food. Experiments are to be made in methods of gardening, soil drainage and tillage, and various plants, shrubs and seeds will be sent there to determine their ability to grow.

Special efforts will be made to introduce red flowering plants of which there is virtually none in that section of Labrador.

Storm Strikes Florida Coast On Sunday

Hurricane Breaks Wires

Communication Cannot Be Maintained With Stricken Part of State.

MIAMI CUT OFF.

Radio Stations Unable To Communicate With Bahamas—Dame Is Great.

JACKSONVILLE, Fla., Sept. 17. —The tropical storm which visited Porto Rico last Thursday blew in from the Bahamas yesterday, and last night was lashing the east coast of Florida.

Described by the Weather Bureau as "still of great intensity," the storm apparently was taking a course inland between Jupiter, 20 miles north of West Palm Beach, and Miami, an approximate 90-mile strip to the coast.

Few details as to the severity of the blow were available. Telephone and telegraph communication into the area was disrupted.

The Trophical Radio also was unable to raise any other point in the lengthy island tier of the Bahamas and grave fears were felt for the safety of the inhabitants of islands known to have been in the path of the storm.

Worst at Palm Beach

A despatch from Miami stated that Weather Bureau officials believed the storm centre struck the coast between West Palm Beach and Fort Lauderdale. They believed the worst storm was near Palm Beach, where they had a report that roofs had been blown from several buildings. Verification of the report was impossible, as there was no communication with either West Palm Beach or the island resort across Lake Worth.

An unconfirmed report also was received here that the storm had struck either at or near Jupiter, about 80 miles north, up to the coast.

The Weather Bureau reported a wind of 100 miles an hour velocity at Palm Beach and a barometer reading there of 28.18. Shortly after this information was received communication was lost. A wind of 75 miles was reported at Fort Lauderdale, but no details were given. The barometer in that city was said to have registered slightly above that at Palm Beach.

Two Aerials Lost

MIAMI, Fla., Sept. 17.—(Via radio to Boston, Mass.)—Except for the Tropical Radio, which managed to maintain service despite the loss of two aerials, Miami was cut off from communication with the outside world at 3:30 p.m. yesterday by winds of 50 miles an hour with gusts that ranged up to 60 or 70 miles an hour.

No distress was reported at sea. The steamer President Adams, off Miami, was heard giving a barometer reading of 28.88 and reporting mountainous seas and hurricane winds.

Barometer Falling

Some damage to frail structures already has been reported here. At 3 p.m. the barometer reading was 29.03, and the barometer was falling. At Palm Beach the barometer was 28.88. At 4 p.m. the wind was shifting to the west.

There has been no communication with the Bahama Islands since midnight on Saturday.

Reports from the island Capital before the communication was broken told of increasing storm conditions.

SAN JUAN, Porto Rico, Sept. 17.—(Canadian Press.)—The death list of

PRESBYTERY MEETS IN MADOC CHURCH

Rev. T. G. Marshall Elected Moderator To Succeed Rev. R. G. Stewart.

(Examiner Correspondence.)

MADOC, Sept. 17.—The Presbytery of Kingston, of the Presbyterian Church of Canada, met in St. Peter's Church, Madoc, on Tuesday afternoon.

There was a large attendance of ministers and ruling elders. The Presbytery was constituted by Rev. R. G. Stewart, Moderator. On the Presbytery being opened for business the Moderator intimated that his term in the Moderatorial chair had ended and called for nominations. Only one name was submitted, that of Rev. T. G. Marshall, of St. Peter's church, who was elected unanimously.

Rev. Dr. Rochester, editor of the Record, presented in a very able manner the claims of the Budget, and called upon the Presbytery to do its full share in this meeting the needs of the church.

Reports of the various committees were given by the conveners, and all showed progress being made.

At 6 o'clock the Presbytery sat down to a banquet provided by the ladies of St. Peter's which was heartily enjoyed by all after the strenuous afternoon sederunt.

The evening sederunt heard the report of the committee on missions. Other matters were dealt with, after

Four Lives Lost In Fire

BODIES ARE RECOVERED FROM RUINS

Residence Burned To Ground in Western Suburb of Ottawa.

CAUSE UNKNOWN.

Believed That Victims Were Suffocated While Sleeping.

Ottawa, Ont., Sept. 17 (CP).—Four persons were burned to death in a fire which destroyed a two-storey frame residence in the village of Britannia, a western suburb of Ottawa, Saturday night. The dead are: Miss Jean Agnes Lenihan, 22 years, of Syracuse, N.Y.; Mary Edna Walters, 9 years; Austin Joseph Walters, seven years; Gordon L. Walters, four years, children of Mr. and Mrs. Bernard Walters of Britannia.

The cause of the fire is not known. Mrs. Walters was at the auditorium a short distance away, having left her sister, Miss Lenihan, with the children. Miss Lenihan was on a visit here. Mr. Walters, who had been in ill-health, was at a farm a few miles away. Shortly before midnight the house was noticed in flames and the place was soon consumed. In the confusion it was some time before it could be ascertained whether the occupants had escaped, but towards morning as the firemen searched the cooling ruins, the body of Gordon was found, and after that the charred remains of the others.

Left Fire in Grate.

Miss Lenihan had not been feeling well and had gone to bed upstairs, as had the children before Mrs. Walters and two other women, who rented a part of the house, left for the auditorium. A small fire was left burning in an open grate in the living-room. No word was heard at any time from the victims by occupants of nearby houses and the first intimation the neighbors had of the fire was when they saw the house ablaze. By this time the heat was so intense that no person could approach the building. From the position in which the bodies were found, it is believed that the victims were suffocated in their sleep. All four were found under the twisted remains of bedsteads and charred clothing.

A strong wind, which was blowing at the time, rendered the task of the fire-fighters difficult, and during the height of the blaze they were called upon to direct their attentions to nearby dwellings, which were menaced by flying embers.

The arrival of the parents was the signal for tragic scenes. When they were unable to ascertain whether or not their children had been safely removed from the house, they attempted to break through the cordon of policemen and firemen in a frantic effort to gain entry into the home. As the fire then was raging fiercely, they would have met instant death. Both father and mother collapsed when search of the smouldering ruins disclosed the grim truth.

An additional sad feature of the tragedy was the fact that Austin Walters, who had been visiting a relative's farm, had just returned home that evening.

An inquest will be held to-day.

The whole purpose of advertising is to show you ways in which you can live better, more comfortably and more happily. Read the advertisements to find out how you may own many things you have always felt were beyond your means.

Exhibition Prize Winners

(Figures in brackets indicate number of entries).

Light Horses

Carriage

Pair mares or geldings, 15.2 and under (5)—1 G. N. Graham, Peterborough; 2 Mrs. J. S. Chandler, Peterborough.

Four in hand — Mrs. Davison, Unionville.

Runabout class, open to horse under 15.2 and over 14 hands, (6)—1, G. N. Graham, Peterborough; 2, Mrs. Davidson; 3, Mrs. J. S. Chandler, Peterborough.

Roadsters

Mare or gelding, over 15.2 hands, (4)—1 and 2, W. H. Rutledge and Son, Port Credit; 3, J. T. Drope, R.R. 1, Hastings.

Farmers' Special, pair, mares or geldings, in harness, (5)—1, Redmond Bros., Peterborough; 2, C. S. Wood, Orono; 3, J. O. Ball, R. R. 3, Peterborough.

Saddle Horses

Mare or gelding, under 15.2, (4)—1, Dr. Middleton, Peterborough; 2, Mrs. Davison, Unionville; 3, Keith Kelly, Peterborough.

Specials

Combination class, horse to be shown in harness and under saddle, (6)—1, Mrs. Davison, Unionville; 2, W. C. Lewis, Port Hope; 3, Harry Jamieson, Ida.

G. N. Gordon Cup, open to farmers only for the best four wheeled turnout, driver to be accompanied by lady, (3)—1, Harry Jamieson.

Redmond Cup, presented by S. F. Redmond for the best roadster, trotter, mare or gelding, (6)—1, W. H. Rutledge and Son, Port Credit.

Ladie's gelding or Gentlemen's single outfit, (10)—1 Harry Jamieson, Ida; 2, Mrs. J. S. Chandler, Peterborough.

Best roadster outfit, open to all roadster entries, (6)—1, W. H. Rutledge and Son, Port Credit; 2, C. S. Wood, Orono; 3, J. G. Manley, Westwood.

Kelly Memorial Cup, in memory of director T. N. D. Kelly, for the champion knee astor in the carriage classes, (4)—G. N. Graham.

W. G. Morrow Cup for the best pair of carriage horses in harness, (2)—G. N. Graham.

Lady drivers' special, (5)—1, Mrs. J. S. Chandler; 2, Mrs. Davison; 3, W. H. Rutledge and Son, Port Credit.

Hill-Weddell Cup for best pair of road horses in harness, (2)—W. H. Rutledge and Son, Port Credit.

Roland Denne Cup, for the best carriage horse in harness, (.) — Harry Jamieson, Ida.

FIVE INJURED CAR OVERTURNS

Party of Motorists Travelling From Toronto To Lindsay.

UPSET NEAR OAKWOOD.

LINDSAY, Sept. 17.—(Special to The Examiner).—A serious automobile accident occurred on Friday night about a mile west of Oakwood village, Victoria County. It appears that Messrs. Andrew and Stafford Walsh, of Toronto, with four other occupants of the car were motoring from the city to Lindsay, when the driver, in some unaccountable way, lost control of the car, which went off the road and overturned into the ditch. Every one of the occupants, save a little baby were seriously injured. Stafford and Andrew Walsh were badly cut about the head and face; Mrs. Walsh sustained a fractured arm and a number of lacerations, while a boy had his leg broken. How the occupants escaped more serious injuries is a miracle.

The injured ones were removed to Dr. Hall's Hospital, Little Britain, and required the attention of two physicians.

OBITUARY

MRS. LEAH CLAPSADDLE.

(Examiner Correspondence.)

MADOC, September 15. — Mrs. Leah Clapsaddle died at her home on North Park Street, Belleville, on September 5th. She was born in Madoc Township sixty-two years ago, being a daughter of the late Mr. and Mrs. Alexander Trotter. The late Mrs. Clapsaddle had lived in this vicinity for some time and was a member of the Holiness Movement Church. She leaves to mourn her loss her husband, Stephen Clapsaddle, one daughter, Mrs. James Irwin, Belleville, two sons, Bruce Daws, Winnipeg, and Harvey Daws, of Saskatchewan.

All that was mortal of Mrs. Clapsaddle was laid to rest in Lakeview Cemetery, Madoc, on Friday, September 7. A simple but impressive service to its bearers was conducted at the residence of the deceased daughter, on Park Street, Belleville, at one o'clock by Rev. S. G. Caswell, of Gananoque. The funeral cortege then went to Madoc, where the last obsequies were conducted by Rev. W. M. Willoughby in the Holiness Movement Church. The floral tributes were beautiful and many friends of the deceased followed the coach to the cemetery.

The pall-bearers were Messrs. C. Reid, P. Comerford, C. Robinson, W. Reid, W. Nobes, and Lew Johns.

MEDICINE FOR YOUNG GIRLS

Mothers Endorse Lydia E. Pinkham's Vegetable Compound

Sydney, N. S.—"My seventeen year old daughter took Lydia E. Pinkham's Vegetable Compound for weakness and pains. She could not go about much with the other girls as she was not strong enough. We got six bottles and it did her a great turn. She is working out now in a store and walks three miles every morning and back in the evening."—Mrs. MARY VANCE, 44 Logan Road, Sydney, N. S.

Pinewood, Ont.—"I constantly had pains in my back and side and spent two days in bed every month. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound Tablets. They have done me good and I always have them in the house. I have recommended your good medicine to several friends and have given it to my 17 year-old girl."—Miss. ALVARD OUELLETTE, Pinewood, Ontario.

REAL SERVICE TO ONE AND ALL.

When We Make a Promise—We Live Up To It

EVERY employee in The Examiner is intensely interested in rendering service to our customers.

When a promise of delivery is made we all put forth our best efforts and strive to make good on that promise. Sometimes to do it we work overtime when we would like to bowl, play ball, swim, drive or do something else—but a promise to a customer is a solemn obligation with us and is always treated as such.

We maintain a shipping department, consisting of a shipper, two trucks and two drivers, who are constantly on the jump rendering service to our host of customers.

We call for copy, deliver proofs, send a representative with samples and prices, and always deliver the completed job on time.

There is no additional charge for this kind of service, because we believe it is part and parcel of our Main Idea to "give the same treatment to one and all."

We have been highly complimented on our SERVICE many times, and are proud to have merited such compliments.

We are looking for more customers to render this service to.

Old World or New

THE scene is different, but the general principle is the same. East or West, one of the world's criterions of success is financial independence—freedom from worry about those things which maintain pleasant living conditions.

¶ The surest, the safest and the most practical start upon the road to financial independence is the savings bank account.

¶ You acquire and maintain a savings account without the payment of any commissions. Your funds increase, in safety, without effort or supervision on your part. Your profits remain constant through periods of financial depression. Your money is safe and quickly available when needed.

¶ It is the policy of this Bank to give all depositors, whether their accounts be large or small, the utmost in service and consideration.

MONDAY, SEPTEMBER 17, 1928

A SANE LABOR LEADER.

The re-election of Tom Moore as president of the Canadian Trades and Labor Congress is a matter upon which not only the ranks of union labor but the people of Canada generally should be congratulated.

It is of great importance to the whole country that labor should be wisely and sanely led, and Mr. Moore's regime has been characterized by just such qualities of leadership.

Under his direction Canadian labor has moved on constitutional lines to improve its status and to protect its members.

A successful resistance to the efforts of the Communists to win over organized labor has been maintained, and Red agitators have been given to understand that the great body of workers in Canada have no desire to emulate Russian methods or to follow the Soviet example.

Mr. Moore's re-election without a contest is a good thing for labor and a good thing for Canada.

He is moderate, sane and reasonable, and his leadership has done much to save Canada from industrial disturbances and labor unrest.

A NEW RECORD.

In connection with the Peterborough Industrial Exhibition prize lists The Examiner has been able this year to establish a new record in the promptness with which the results have been published.

The last list of prize winners, consisting of the classes judged on Saturday afternoon, appeared in the noon edition of to-day's Examiner, and with the printing of these names the results in every department have been given.

This service has entailed a great deal of work on the part of members of The Examiner staff, who made their headquarters at the Exhibition Grounds and dealt with the results in each class as soon as the books were released by the judges; but it has been labor well worth while, and we believe that the promptitude with which the entire prize lists have been published is appreciated by Examiner readers in general and by the exhibitors in particular.

This is the first occasion on which The Examiner has succeeded in completing the prize list in the issue immediately following the close of the Exhibition, and our satisfaction in the feat must be accepted as justification for calling attention to the service we have been able to render.

HAS SOLD ITSELF.

While the unfavorable weather prevailing over the greater part of the week prevented the attendance at the Peterborough Industrial Exhibition from climbing as high as the directors had reason to expect, the support given by the people of the city and district under the circumstances was remarkable.

Particularly gratifying was the attendance from outside points, this year's Exhibition probably bringing in more visitors than any previous Exhibition.

From all parts of the district came delegations, and their presence was concrete testimony to the reputation that the Peterborough Industrial has gained through this part of the Province.

Even threatening weather did not prevent people coming long distances, and no more enthusiastic supporters of the Exhibition were to be found than these visitors from outside points, whose praise of the all-round excellence of the program and exhibits was enthusiastic to say the least.

The Peterborough Industrial Exhibition has sold itself to the people of Central Ontario, and their patronage this year has been of the greatest assistance to the directors, especially in view of the disappointing weather conditions.

THE THEATRICAL SITUATION.

A correspondent, signing his interesting letter "Theatre-goer," has asked The Examiner to discuss the theatrical situation as it affects Peterborough.

Our correspondent is worried over the intimation that a number of high-class attractions will miss this city but will visit other Ontario centres, and he views the outlook with some alarm.

The Examiner agrees with "Theatre-goer" in so far as the desirability of Peterborough people being given an opportunity of seeing worth-while plays is concerned.

However, we trust that the outlook is not so gloomy as he fears.

Already we have a chance to see that clever British actor, Gordon McLeod, who made such an impression upon Toronto play-goers last season when the sudden illness of Sir John Martin-Harvey made it necessary for Mr. McLeod to assume his roles, and it is to be hoped that his appearance is the forerunner of other important theatrical attractions.

There is this point to remember, however.

If Peterborough does not secure plays that visit other Ontario cities it will be because we have not in the past patronized the worth-while offerings to an extent that made it profitable to stage them here.

If we do not equal the attendance record of other communities we can have no logical complaint at being passed over in favor of cities with a keener taste for good theatrical fare.

THE PIONEER AS EXAMPLE.

Hon. H. P. MacMillan, Lord-Advocate for Scotland, a position which corresponds to that of Attorney-General in a Canadian Province, spoke the plain, unvarnished truth when, in addressing the Canadian Club at Victoria, he declared that Canada was no place for the whiner and the shirker. Canada is a new country and it wants men who are willing to work and to make the best of things. Mr. MacMillan did well to recall the spirit which animated the pioneers of this country. These men suffered hardships greater than any to be encountered in these days, no matter where one's lot may be cast. But they suffered them bravely and uncomplainingly. They were men of vision. Looking into the future they saw comfortable homes and fine farms of many fertile acres. So the log cabin and the little clearing of the early days did not oppress them. They lived for the days to come, not for the present. So they toiled on early and late and were content with little, knowing that their reward would come with the passing years. And it did.

But while the hardships to be met with in Canada are not as great as they were in the early days, there is still considerable pioneering to be done, especially in the unsettled portions, and men must still work hard and deny themselves many luxuries if they would make a success of their undertakings. They must suffer certain deprivations when they are young in order that they may enjoy the comforts of life when they are older.

The Lord-Advocate declared that the man who comes here can't expect to land on down pillows at once. Seemingly quite a few do expect this, and also beds of roses, and when they don't fall into a life of comparative ease at once, are disappointed and start to whine. Intending settlers should be given to understand that they must expect to work. The streets of Canada are not paved with gold. The gold of success is to be won only by sustained industry and by the foregoing of luxurious living. No land holds out greater promise to men, but they have to give up imagining they are like the lily which neither toils or spins.—St. Thomas Times-Journal.

HIGHER LIVE STOCK PRICES.

Housewives confronted with rising prices in meats are apt to agree with the cartoonist who shows that the cow has at last jumped over the moon. The shift in prices is a serious matter—encouraging to the producer of live stock and discouraging to the consumer who has to pay. It is one of the final adjustments to be accomplished as a result of wartime dislocations.

During the past month or two prices of cattle and hogs have been rising and market conditions have been changing. Higher cattle quotations in the United States have brought large exports from Canada in spite of the Fordney tariff, which was designed to give protection even to the farmers. Argentine cattle have been prohibited in the United States owing to foot-and-mouth disease, and this has afforded Canadian animals their opportunity. On the other hand, Britain continues to import chilled beef from Argentina, though the danger of foot-and-mouth disease even in that form of beef is now under investigation.

Meantime the low-priced meat from a country with all-year pasture has handicapped Canadian shippers, and the exports of Canadian cattle to Britain have all but ceased. In the year ending July shipments of Canadian live cattle to Britain were valued at only $61,770, compared with $3,394,785 in the previous year, while to the United States the exports were $15,241,419, compared with $5,674,536 a year earlier.

It is contended on behalf of the cattle producers that the present prices are only an adjustment which will put cattle and hogs in line with other articles bought by consumers. The slump in beef cattle after the collapse of the war boom drove many farmers into dairying, and the continuance of fair prices for milk and milk products, as still existing, will tend to keep them in that line. Moreover, they have heavy investments, and will not be in a hurry to switch.

An examination of prices before the war, during the boom and since goes far to substantiate the claim that beef may now be coming back to its own. Butchers' steers, a staple grade, sold in Toronto in July, 1914, at $8 to $8.25 per hundred weight. In May, 1920, just before the boom collapsed, the price was $13.75 to $15.75. A year later it had dropped to $8.50 to $9.50, while at present the price is $12.25. In other words, butchers' cattle are now 50 per cent. above pre-war prices.

Select hogs were quoted in Toronto in July, 1914, at $9.15 to $9.25. After rising as high as $24, they dropped to $20.25 in May, 1920. Within a year the price was more than cut in half, the quotation in May, 1921, being $9.50. Under the recent revival they have risen to $11. Hog prices now are less than 20 per cent. above those just before the war.

Taking living costs as a whole in Canada, as given by the Labor Gazette, the index number for 1913 was 100; for June, 1920, it was 200, and in July, 1928, it had fallen to 156. Living costs, therefore, now stand 55 per cent. higher than before the war, while butchers' cattle are 50 per cent. up and select hogs less than 20 per cent.

The effect of the change, should it continue, will be to encourage a return to beef cattle and to steady the production of hogs. The consumer, as yet, gets small encouragement.—The Globe.

EDITORIAL NOTES AND COMMENT.

And now the directors of the Peterborough Industrial Exhibition will begin planning for a greater fair in 1929.

It must be hard to get baseball fans interested in the presidential election with the leagues all tied up in a knot as they are at present.

This young fellow Jones seems to be developing into quite a golfer.

J. A. Bradette, 42-year-old Liberal member for North Timiskaming, plans to enter Osgoode Hall to qualify as a lawyer. Surely there are enough of them in the House of Commons now.

Peterborough's Exhibition now includes a horse show of no mean proportions or quality. The splendid horses shown here formed an attraction of real merit that should be repeated in future exhibitions.

The editor of the Brandon Sun has discovered that the best thing to enforce speed laws is a herd of cows.

If things keep on the way they're going, we'll have to have a Pedestrian Lovers' Association.—Border Cities Star.

The old problem was to get to the North Pole. The problem today seems to be to get back from it.—Marion Star.

International Association of Chiropodists is holding its annual convention in Indiana, on the fringe of the corn belt.—Sault Daily Star.

Who wrote: "Some women are never happy unless some man is more in love with them than their husbands."—London Bystander.

A woman killed her husband with a can opener. But what's news about that?—Quebec Chronicle-Telegraph.

An American says that no big men are born in England to-day. They start as babies like the rest.—Montreal Star.

The Question Box

M. L.: Q—(1) Who was Warden of Peterborough County in 1927? Who were the Public School Inspectors in 1927?

A—(1) Reeve J. A. Middleton of Smith Township; (2) R. Lees and A. F. Downey.

* * *

L. G. Q.—What was the cost of living in 1900 compared with now?

A.—For a family of five the total cost of all foods in 1900 was $5.48; in July 1928, $10.80. If fuel and lighting, and other living costs be included, the cost in 1900 was $9.37, and in July 1928, $21.01.

* * *

P. R. Q.—(1) What is the population of Arcola, Saskatchewan; (2) Who is Mayor? (3) Who is clerk?

A.—(1) 700. (2) W. F. Youngblud; (3) P. B. Thomson is clerk and treasurer of the town.

GOD'S MINUTE.

Love suffereth long, and is kind; love envieth not, love vaunteth not not itself, is not puffed up; doth not behave itself unseemly, seeketh not her own, is not easily provoked, thinketh no evil; Rejoiceth not in iniquity, but rejoiceth in the truth; Beareth all things, believeth all things, hopeth all things, endureth all things. Love never faileth.—Cor. 13: 4-7.

* * *

Most merciful God, Whose we are and from Whom we receive our daily supplies, accept the adoration and gratitude of our hearts for Thy fatherly care and bounty. We have sinned and come short of Thy glory. Be merciful unto us in the forgiveness of all our sins, for the sake of Him Who loved us and gave Himself for us. May the love of Christ abound in our hearts, and manifest itself in our daily lives. May the Holy Spirit enlighten our minds, and enable us to understand and appropriate the Word of God, in order that it may be food for our souls and light unto our pathway. May He comfort our hearts and help us to lay down every burden that hinders our Christian progress. Deliver us from the power and temptations of Satan and wicked people. Employ our lives every day in Thy service, and make them a blessing to others. In mercy deal with the afflicted and save the lost, for Jesus' sake. Amen.

H. J. Hill, D.D.,
Red Springs, N.C.

A Thought

CAN'T KEEP 'EM DOWN.

Henry Ford told this writer that one of the best financial investments he ever made was buying old ships from the Government, now cut to pieces and piled up in mountains of scrap iron.

There was little, if any, financial profit in the purchase, "but I got two or three good men out of it. The difficulties of the job developed them, and they are worth more than all the ships cost me."

Men working for Ford in important positions are sure to leave their jobs for one mistake and that is the mistake of keeping other men down, not giving them a chance.

"You can't keep a good man down permanently," Ford says, but he doesn't want them held back.—Arthur Brisbane in Baltimore News.

DISTRICT MARKETS

AT WARSAW

WARSAW, Sept. 17.— Following are the week-end retail market prices:

Beef, sirloin, 30-35c; round, 30c; roast, 22-30c; stew, 15-18c. Pork, 20-35c. Lamb, 20-35c. Breakfast bacon, 45c. Butter, creamery, 45c; Eggs, fresh, 35c. Chickens, 25c; stewing fowl, 18c. Potatoes 25c a peck; $1.25 a bag.

Oats, 80c a bushel; wheat, $1.25 a bushel; barley, 80c a bushel. Hay, $10.00 to $12.00 a ton.

CATTLE, GRAIN AND PRODUCE

MONTREAL GRAIN AND PRODUCE

MONTREAL, Que., Sept. 17 (Canadian Press).—Owing to the fact that foreign bids were below local exporters' views the export trade in Canadian grain here Saturday was dull. The domestic trade in oats was also quiet, but prices were unchanged.

The trade in Spring and Winter wheat grades of flour was moderately active and values were well maintained.

The millfeed market was active with a firm undertone. The demand for standard grades of rolled oats was fair and values were steady.

Prices for all grades of fresh and storage eggs were firmly maintained under a good demand. The receipts Saturday were 840 cases.

The undertone to the butter market continued firm, but the volume of business was small. The receipts were 2,836 packages.

A feature of the cheese trade was the stronger feeling that developed in the market and values were marked up a fraction. The demand was good and an active business was done with local and foreign buyers. The receipts were 14,124 boxes.

Montreal Quotations.

Oats Canadian Western No. 2, 69c. Oats, Canadian Western, No. 3, 66c

Flour, Man spring wheat patents, firsts, $7.20.

Flour, Manitoba spring wheat patents, seconds, $6.60.

Flour, Manitoba spring wheat patents, strong bakers, $6.40.

Flour, Winter patents, choice $5.80 to $6.00.

Rolled oats, bag 90 pounds, $3.70.

Bran, $31.25.

Shorts, $33.25.

East Emily

(Examiner Correspondence)

EAST EMILY, Sept. 15. — The Messrs. Harold Mitchell and Edward Lowes spent the week-end with friends in Toronto.

Miss Ona Casey, of Mariposa, has been visiting her grandparents, Mr. and Mrs. Robert Casey.

Miss Velma Harrison and Miss Greta Gillis, of Peterborough, spent Sunday with friends in East Emily.

Mr. and Mrs. Sayward Switzer spent Sunday with friends in Fenelon, Mrs. Shannon returned home with them after spending the past week with relatives there.

Mr. and Mrs. Elmer Mahood spent spent a few days last week attending the C.N.E. in Toronto.

Mr. A. Mahood, of Lindsay, spent Sunday with Mr. and Mrs. George Newman.

Mr. Downey, school inspector called on a number of the schools in this district last week.

Mr. and Mrs. George Newman were visitors to Peterborough on Saturday.

Mr. and Mrs. Henry Magee and family, spent Saturday in Lindsay and Little Britain.

Mr. Eugene Switzer spent Sunday with friends in Fenelone.

Miss Doris Parker has returned to resume her duties as teacher at Orange Cornes.

M. Pierle Lowes and sister, Miss Lillie, attended the band concert in Peterborough on Sunday evening, given by Cervonne's Band and soloist, Miss Edna Joyce, from Pittsburgh.

Mr. and Mrs. L. Moncrief spent Sunday with Mr. and Mrs. Kenneth Moncrief, of South Monaghan.

Gerald Lowes is attending the Peterborough Collegiate Institute.

Mr. and Mrs. P. Menzies, of Detroit, motored over and spent the holiday with Mr. and Mrs. Herb Jackson and took home their two daughter, who spent the summer vacation with Mr. and Mrs. Jackson.

Our Boarding House . . . . . By Ahern

Re-Roof with EDGWOOD Shingles

YOU can re-roof with EDGWOOD Red Cedar Shingles right over the old roof. Where the old shingles are flat-grain and have warped, EDGWOODS will force them back into place and hold them there, as EDGWOOD Shingles are cut edge-grain and cannot warp, cup or curl. This method of re-roofing is practical and simple. Your carpenter will apply EDGWOODS in the same manner as he would on old sheathing, excepting that he uses longer nails—5d. 1¼-inch zinc coated—and starts with a double course at the eaves. Find sheathing strips by tapping, sounding or driving two or three nails at successive intervals. Once the position of three consecutive strips has been ascertained, it is a simple matter, as the sheathing is evenly placed.

EDGWOOD Shingles are cut edge-grain from centuries old giant Red Cedars. They will last fifty years and more.

Having a greater covering capacity, EDGWOODS cost no more than ordinary flat grain shingles and last two and three times as long as substitutes. EDGWOODS are sold and recommended by your local lumber dealer.

"EDGWOOD HOMES" is an interesting and informative illustrated booklet. We'll gladly send it *free* on receipt of name and address.

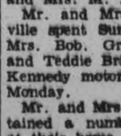
Mr. Tom McCarthey of Peterborough was a visitor at the home of Mr. and Mrs. Frank Young on Sunday.

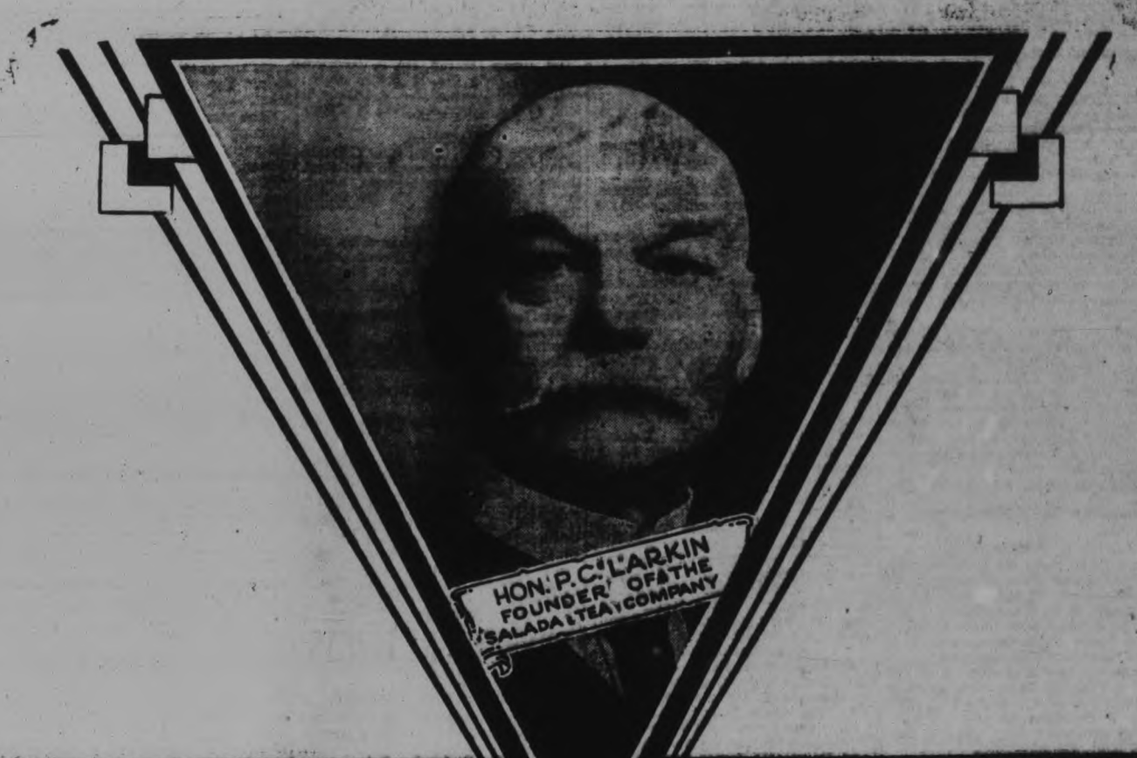
Mrs. Joe McCarthy of Peterborough visited with her sister, Mrs. Frank Young, on Sunday.

Mrs. J. Bateson of Ludington, Michigan, spent Wednesday with Mr. and Mrs. Andrew Wilson.

Miss May Guerin of Peterborough was a guest at the home of Mr. and Mrs. Frank Young on Sunday.

Mrs. H. Harley and baby Jack, of Ludington, Mich., were guests of Mr. and Mrs. Andrew Wilson on Wednesday.





The Gigantic Salada Success Started With a Revolutionary Idea

WHEN P. C. Larkin, 36 years ago, conceived the idea of packing a high-grade tea in metal packages, little did he dream of the great business that was to be built on that MAIN idea.

Revolutionized the Tea Business of this Continent

The story of SALADA is one of the romances of the business world. It is one of the outstanding advertising examples of the power of a MAIN IDEA, for P. C. Larkin with his metal package idea revolutionized the tea business of Canada and the United States.

China and Japan Teas Controlled the Market

Forty years ago the Canadian market was controlled by China and Japan teas, the largest sale being of China teas of poor quality.

P. C. Larkin, who was in the wholesale tea business at that time, thought it deplorable that Canadians should be consuming these cheap teas, whereas in England, the most particular tea-drinking country in the world, the finer grade Ceylon and Indian teas had practically driven the cheap China teas off the market.

Ceylon Teas Little Known

Mr. Larkin tried to interest Canadian grocers in fine Ceylon teas, feeling sure that Canada would follow England's example if given the opportunity, but grocers bought very sparingly, generally using the Ceylons to mix with the Chinas to improve the flavor of the cheap teas.

The public had no real chance to learn about these finer Ceylon teas and there seemed no way to get these superior teas into the homes. Tea was sold in bulk from open chests in the stores. If a person asked for Ceylon tea, there was no assurance she would get it. Teas looked much alike to the unskilled eye and China teas could be readily sold for Ceylons.

Mr. Larkin Finds His Idea

The idea of putting fine-grade Ceylon teas in metal packages for resale to the consumer occurred to Mr. Larkin. The more he thought about it, the more enthusiastic he grew. Here was a way to put Ceylon tea on the market so that consumers would be certain of getting the genuine article. The metal package would also protect the tea from dust, moisture and grocery store odors, for tea readily absorbs odors of soap, oranges, onions, matches, spices or anything near by.

P. C. Larkin's package idea may not seem such a big one now but there was hardly an item sold in packages at that time. Mr. Larkin's idea was a revolutionary one—a forerunner of the great demand enjoyed to-day for package foods and other package goods.

The New Tea was Called Golden Tea Pot Blend

P. C. Larkin had so much confidence in his package tea idea that he started a new enterprise in 1892 and called it the Salada Tea Company. The name SALADA was chosen because of its Oriental origin and its distinctiveness. It was originally the name of a far Eastern tea garden. The tea in the packages, strange to say, was called Golden Tea Pot Blend.

Many Grocers Didn't Co-operate

Many grocers did not take to P. C. Larkin's new fangled package tea idea. They were content to sell poor quality China teas in bulk as long as consumers were satisfied. They didn't think it was up to them to tell the public about the advantages of using the Golden Tea Pot Blend of fine Ceylon teas. They were passive—neutral—disinterested.

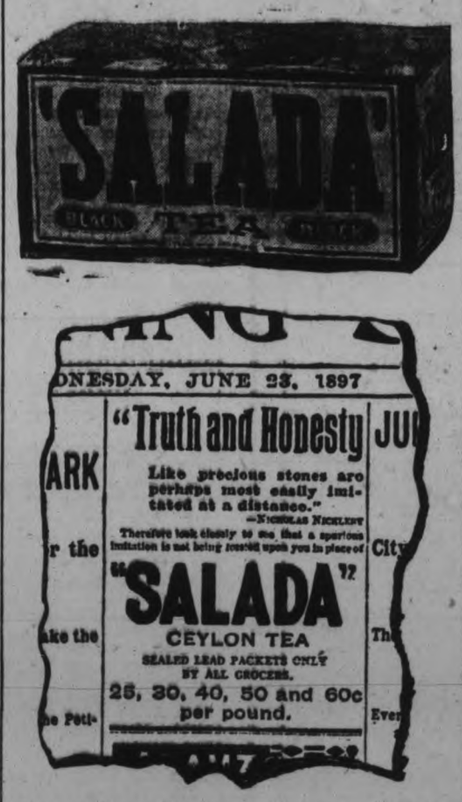
Mr. Larkin Decides to Advertise

Mr. Larkin decided there was only one thing to do. That was to tell the public himself about these finer-flavor, better-quality teas in the Golden Tea Pot Blend package, so he became a pioneer newspaper advertiser of a grocery article sold in a sealed package.

Package Idea Meets Obstacles

Even a well-advertised article takes time to win a market, and the very newness of the package idea was at first a handicap. People were accustomed to buying tea and almost every other grocery article in bulk. They would not change their habits over night. The business grew slowly at first, but Mr. Larkin had faith in his idea and fought on, shouldering the burden of Manager, Salesman, Bookkeeper and everything else.

Strange to relate SALADA was first called Golden Tea Pot Blend. The name of the company was the Salada Tea Company. When people commenced to ask for the tea by the name SALADA, Mr. Larkin promptly changed the name of his brand to SALADA as shown below:—



One of the earliest advertisements of Salada showing how the MAIN idea was advertised by this pioneer advertiser of packaged goods

Just 15,000 packages were sold in 1892. A pitifully small amount compared with the 40,000,000 packets sold in 1927. But Mr. Larkin never lost heart. He kept on working and advertising.

Name Changed to Salada

Business gradually began to pick up. People who tried the fine Ceylon tea in the metal packages liked it and continued to buy it. Mr. Larkin found that a great proportion were asking for it by the name SALADA, which was the name of the Company, instead of the name Golden Tea Pot Blend. Thereupon, Mr. Larkin abandoned the name, Golden Tea Pot, and had SALADA placed in large letters on the packages and featured it boldly in his advertisements.

Expansion Begun

Mr. Larkin had made so much progress with his package tea idea by 1895 that a branch was opened in Montreal. Then the American market was invaded in 1897 and a branch opened in Buffalo, where his Canadian success was repeated in the States. From that time on SALADA swept along to greater and greater heights.

To-day, the great SALADA building in Toronto, with its luxurious furnishings, its marvelous automatic mixing, weighing and packing machinery, its own staff club rooms and bowling greens, is merely one evidence of SALADA'S success. There is a new plant in Montreal, and the plant in Boston, which was doubled last year, is the largest in the world devoted exclusively to the packeting and merchandising of tea. There are SALADA branch offices in New York, Buffalo, Cleveland, San Francisco, Pittsburg, Chicago, Los Angeles, Seattle, Detroit, Philadelphia, Washington and Omaha in the States. In England at London. In Ceylon at Colombo.

Newspapers and Metal Signs

No premiums have ever been given to induce people to buy SALADA. No tea has been sold to grocers on consignment. No fantastic selling stunts have been practised. But the quality, the saleability and the margin of profit have been guaranteed to the grocer regardless of market conditions. Many forms of advertising have been tried off and on, but the bulk of the appropriation has been concentrated in newspapers and enameled signs year after year. Mr. Larkin has invested millions in newspaper space and made millions of dollars. To-day he is the Hon. P. C. Larkin and Canada's High Commissioner in England, while SALADA marches successfully on under the guidance of his son, Gerald Larkin.

Many Have Missed the MAIN Idea

Many have marvelled at the success of SALADA. Many have sought to win success, too, by patterning their advertising after SALADA. They have thought Mr. Larkin's success was due to the size of SALADA advertisements, or to the style of the bold SALADA lettering, or to the brevity of the copy.

They have overlooked the simple fact that the foundation of SALADA'S success was a fundamentally sound MAIN idea. Mr. Larkin did not take the China teas the public were then consuming and pack them in packets. He introduced to the public a better tea—a fine Ceylon tea of far more delicious flavor, more delightful aroma and more satisfying quality than the China teas the public were consuming at that time. He gave them this tea in a sealed dust-proof, moisture-proof metal package—an innovation at that time. He gave them a uniform blend of tea that they could identify and buy by name. Then he had the faith and the courage to advertise *this better tea in a metal package* persistently, month after month, good times or bad times, and to sell it fearlessly to the trade.

A shrewd, fearless, business man plus a sound MAIN idea were the combination that won success for Salada.

Ideas Yet to be Found

It is still possible to uncover real basic advertising and selling ideas for many different lines of businesses, possibly not revolutionary ideas such as was SALADA'S package idea, thirty-six years ago, but ideas of definite selling power. The James Fisher organization have helped others find such ideas and possibly could assist you, too. Many a manufacturing industry could be made much more successful than it is today if a Main Idea for it were developed.

Our booklet, "The Main Idea," shows numerous examples of successful advertising and selling ideas used by prominent advertisers. A copy will be gladly mailed to you on request.

Graded dairy herd; 1 bull over 2 years; 2 cows, 3 years and over; heifer, 2 years; heifer, 1 year, and heifer calf, owned by exhibitor, open to all dairy breeds, silver cup donated by Patterson Candy Company of Toronto (3): Rev. Father McColl, Peterborough.

OBITUARY

MRS. ANDREW ROBERTSON

The death occurred yesterday morning at her home at Villiers, of an old resident of Otonabee, Mrs Andrew Robertson, after a lingering illness.

Three daughters, Mrs. John Dickson, Indian River; Mrs. Sydney Smithson, Kitchener; and Miss Elizabeth at home, are left to mourn their loss. Her husband and her only son died some years ago.

The funeral will take place tomorrow afternoon at one o'clock from the family residence to Westwood cemetery.

RAY STAPLES IS SENIOR CHAMPION

Sr. Poultry.

1st, James Crowley, Hastings; 2nd, Maitland Forsythe, No. 2, Indian River; 3rd, Harold Dunford, No. 2, Lakefield; 4th, Harold McQuigge, Havelock.

James Crowley won Poultry Special Prize.

Sr. Boys' Champion.—Ray Staples, Fraserville.

Royal Trips.

Those who will go to Toronto are: Earnest C. Wilson, No. 3, Keene; Elwood Dunford, No. 2, Lakefield; Hugh Buchanan, Havelock; Gordon Hancock, No. 2, Peterborough; Nelson Coons, No. 1, Lakefield; Harry C. Blewett, No. 1, Peterborough; Ralph Scott, No. 1, Peterborough; Robert Irwin, No. 2, Peterborough; George Middleton, No. 2, Peterborough.

PRESBYTERY MEETS

(Continued from 1st page.)

which the Presbytery adjourned to meet in St. Andrew's Church, Kingston, on December 4.

Mrs. Barker Lauded.

The members of the Young People's Society and Choir of Trinity United Church met at the home of Mr. and Mrs. Rousehorn on Saturday, Sept 1 to bid farewell to their daughter Muriel, upon the eve of her departure to her new home in Bolton.

Mrs. J. B. Hough read a beautifully worded address, and at the close of the address Mrs. Wellman and Mrs. Tumulty presented her with a beautiful pyrex pie plate and silver bread tray.

Muriel (Mrs. Russel Barker) replied, thanking them for the beautiful gift, assuring them that though her home in the future would be in new surroundings, yet she could never forget her old friends in Madoc.

Personals.

Mr. Donald Huxley, of Snelgrove, who is camping at Moira Lake, landed a sixteen and a half pound maskelonge on Tuesday afternoon.

Miss Grace McCoy, R.N., of Niagara Falls, has been visiting at the home of her brother, Mr. Carl A. McCoy.

Mr. Fred Nayler and daughter, Mary, spent a few days in Toronto last week.

Mr. Charles A. Pringle has accepted the position as teacher at Leader, Saskatchewan.

Mr. George Rollins has returned from Barrie, where he spent a few days with his daughter.

Mr. and Mrs. Frank Sills, of Elgin, Illinois are guests at the home of Mr. George Mayhee.

Dr. Arthur Whytock, of Niagara Falls, is the guests of his parents, Mr. and Mrs. Jas. Whytock.

Miss Laura Ellis has returned to her home after undergoing a serious operation at the General Hospital, Kingston.

District Churches

CAMPBELLFORD UNITED CHURCH.

(Examiner Staff Correspondent.)

CAMPBELLFORD, Sept. 17.— St. John's United church pulpit was occupied at both morning and evening services yesterday by the Rev. Mr. Joblin, of Stirling. The Rev. R. C. Tait was absent from his pulpit for the purpose of preaching the anniversary services at Wellman's Corners United church. At the evening service at St. John's church a six-piece orchestra consisting of A. L. Hazel, organist, Ronald Hazel, violin, Cecil Searles, violin, E. C. Dolman, trombone, Leslie Gregg, trumpet ,and Everett Thomas, clarinet, was an added feature at the evening services.

HURRICANE BREAKS WIRES

(Continued from Page 1.)

the tropical hurricane in Porto Rico was increased to-day with the receipt of reports that at least 29 persons were killed at the town of Comerio.

No Dead at Palm Beach.

JACKSONVILLE, Fla., Sept. 17. — (Canadian Press.)—Clifford Grange, local amateur radio operator, said he received the following message this morning from West Palm Beach: "No known dead, but undetermined number of persons injured in hurricane which struck Palm Beach and West Palm Beach at six o'clock Sunday night. Many homes were wrecked." The message was signed by D. H. Conkling, publisher of the Palm Beach Post.

The message continued: "The buildings which are standing are filled with refugees.

Wind Dropping.

"The centre of the hurricane is believed to have entered Florida at Del Hay, 20 miles south. The wind changed northwest to east and to south at daylight and dropped to 27 miles an hour.

"No estimates of damage possible. Hospital partially destroyed. Red Cross had temporary hospital. Aid is not officially asked for in this message, but believed needed."

The message was addressed to the Associated Press and was the first direct word from the isolated storm area.

Among the Moors, if a wife does not become the mother of a boy, she may be divorced with the consent of the tribe and can marry again.

MUSIC NOTES

KIWANIS' MUSICAL FESTIVAL.

"Of all the liberal arts, music has the greatest influence over the passions and is that to which legislators should give the greatest encouragement."—Napoleon Bonaparte.

"The man who disparages music as a luxury and a non-essenail is doing the nation a great injury."—Woodrow Wilson.

"Competitors should never regard competitions as ends in themselves, but merely as incidents, disciplinary, forces, not the objective of their existence. Learn to apply the lessons of defeat or victory to the pursuit of the highest ideals for their own sake."

The foregoing are wise words and sound advice, and every competitor in the Kiwanis Festival should enter in such a spirit.

Not with the idea of beating someone else, not of gaining a medal or a shield, but of learning something helpful. The writer attended many of the competitions in connection with the Toronto Exhibition, now taking place, and was delighted to see how warmly rival competitors applauded each other's efforts. They exhibited true sportsmanship even in defeat.

With only one or two exceptions the competitions were excellent, large number of entrants, and the quality of performances of a very high standard.

Dr. Healey Willan in announcing the result of the Lyric Soprano Class, in which there were twenty-one singers, said it was a long time since he had heard so good a competition and the adjudicators had had a difficult task. It was also a very long time since he had heard so many badly played accompaniments. Some of the singers had suffered badly in this respect and those who had come out on top had got there not only by reason of their beautiful voices and singing, but also because their singing had not been marred by a bad accompaniment.

We were glad Dr Willan said this, for it needs saying. Most people who play the piano think themselves, also qualified as an accompanist, and a greater mistake was never made. The art of accompanying is an art in itself and a real accompanist is born not made. We hope competitors in the Kiwanis Competition will bear this in mind, and when not quite assured as to the capability of their own accompanist secure the services of the official one, Miss Agnes Logan.

It will be of great interest to competitors in the forthcoming resuval to know that all the competitions will be held in the splendid new auditorium of the Collegiate Institute. Everyone will be heard to the best advantage as the accoustical properties of the hall are said to be very satisfactory.

At this festival, instead of entrants being allotted their time for performing they will draw numbers, and appear in order according to the number drawn. Therefore, it will be necessary for every competitor to be present fifteen minutes before the time their class begins.

Time is drawing near and competitors are reminded that all entries must be in on or before the first of October, none will be accepted after this date. Additional forms and information can be obtained from Dr. Craig, 146 Hunter street west.

Hearty congratulations are due to Mrs Fred de Free of Campbellford (pupil of Dorothy Allan Park) in winning the Gold Medal in the contralto class at the Toronto Exhibition competition. There were twenty-four competitors, not only from Toronto but from all over Canada, so it was a real honor to win this contest.

Miss Margaret Dickson, so well known to Peterborough audiences was successful in winning the Silver Medal in the lyric soprano class. There were twenty-one competitors and the competition was open to Toronto singers as well as open to all Canada. Miss Dickson is a pupil of Dorothy Allan Park.

Miss Geraldine Collins was successful not onll in winning the mezzo-soprano gold medal, but the $75 scholarship for women's voices She is also a pupil of Mrs. Park.

Congratulations are also due to a fine young student in the person of Stanely Northrop (pupil of Edwina Palmer). Mr. Northrop won the gold medal in the violin class open to out of Toronto competitors and won it in fine style. We offer our congratulations on the honor he has brought to Peterborough. Oh! why are we not brilliant musicians also brilliant hockey players and then the city might wake up to the fact that good advertising is being done for Peterborough by these fine musicians.

Peterborough should be proud of the way "The Madrigal Singers" registered, not only in their broadcasting on Wednesday night, but by their singing at the directors' luncheon, and elsewhere. Congratulations were literally showered upon them by the leading musicians of Toronto, and they returned to Peterborough after a very happy experience, feeling they were a worth-while organization. When in a city such as Toronto, which is used to the very finest choral work, our singers can make the impression they did, is a matter of justifiable pride to us.

A PETRIFIED HAM YARN FROM 'TUCKY

By NEA Service.

DANVILLE, Ky., Sept. 17.—A story coming up from the Hundley farm on the Harrodsburg Pike, has it that a petrified ham was found there in a rock fence.

The age of both the fence and the ham is estimated at more than 100 years. The weight of the ham, before turning to rock, is estimated at about 15 pounds. Now it weighs 25 pounds.

Some of the old-timers are of the opinion that some early settler may have cached the ham in the wall for future needs—which never developed.

The principles of mass production were seen and practiced more than a century ago, and have been in continuous use ever since.

Used in thousands of homes daily. Softens water. Makes dish washing easy. Cuts grease. Cleans pots and pans. Whitens clothes. Try it in your bath. 10c. a pkge., 3 for 25c.

Lawrason's

Snowflake

Use it in the kitchen, bathroom, laundry.

SAFETY
versus
HIGH INTEREST

Many a man has lost his hard-earned savings because of the fatal lure of high interest. A safe general rule to remember is — the higher the interest, the greater the risk

PUT YOUR SAVINGS INTO A SAVINGS ACCOUNT in the

BANK OF MONTREAL
Established 1817

There they will earn a reasonable interest and be safe

Widows and Orphans, Limited

IT is upon *them* that the schemer preys? The lure of easy money is almost irresistible and the savings of a lifetime are often gambled away, unknowingly, in unfortunate speculations.

Even the husband and father, anxious to leave his family well provided for, often becomes the victim of some get-rich-quick scheme. Almost without exception, the results are failure and disappointment.

When the head of the home is taken away, a hundred enticing baits are set for the estate he leaves behind. With the vision of winning financial independence for her children and herself, the widow falls prey to ignorant or unscrupulous advisers.

There is one safe, sure method of protecting your loved ones after you are gone . . . the creating of an adequate estate through Life Insurance. And, by arranging for its payment in the form of a regular income for your widow, you can guard her for as long as she may live.

Let a Life Insurance representative explain to you how easily and safely you may provide for the future of your family.

The secret of perpetual youth

"As a subject of both gout and rheumatism for just over 50 years, I wish to acknowledge that I have found nothing so effective as Kruschen Salts. Epsom and other things all have their virtues, but also their drawbacks. Kruschen Salts I have so far found, after 5 years or more of using them, have no drawback and no counter effect whatever. I am 76 and more active than 40 years ago."

Original letter on file for inspection.

There's the clue—in one word—"Kruschen." The "little daily 'dineful'" that keeps body and mind clear and clean, fit and healthy.

Kruschen Salts

Good Health for Half-a-Cent a Day.
At Drug and Dept. Stores at 75c. a bottle.
Manufactured by E. Griffiths Hughes, Ltd., Manchester, England (Estab. 1756).
Importers: McMillvray Bros., Ltd., Toronto.

INSTITUTE HEARS ADDRESS ON MOTTO

Mrs. John Thompson is Hostess at Meeting of Petherick's Branch.

(Examiner Staff Correspondence)

Petherick's Corners, September 17 Mrs. John Thompson was hostess to the members of the Women's Institute at the regular meeting held on Thursday afternoon, when a most enjoyable address was given by Mrs. George Bailey, of Harold, who took as her subject "For Home and Country."

"Since our motto is For Home and Country, naturally our first concern is of the home. What the mother is to the home, the Women's Institute is to the community—caring for the needy, tending the sick, making layettes and quilts to be used in times of need, welcoming the stranger from overseas, in fact the benefactions are endless. The Women's Institute is the good Samaritan by the wayside it brings to every woman irrespective of creed or circumstance, information and assistance in practically everything in which she might or should be interested.

The Women's Institute is sponsor for the social life of the community. How is it accomplished? By giving unselfishly of our home and talents and in innumerable other ways, the means to obtain the things necessary for the successful carrying out of these undertakings, is forthcoming. Let us look at our Institute Ode with which every meeting is opened. A priceless gem of verse pledging us to the highest, the spirit of service. No small thing, no malice nor unkindness shall enter into our work as Women's Institute members, but we shall work for the common weal, the biggest asset upon which we can unite. To do this well our organization must be a success and this depends on three things—become a member, pay the dues, and attend the meetings.

Perhaps we are too busy to attend, yet pleasure plays a part in all lives. Recreation and pleasure are necessary in all lives. A gardener planting the same kind of seed in the same place year after year exhausts the soil, and only poor stunted flowers appear. The same principle holds good in our lives. Let each take an active part in the meetings. The one taking the active part gets the most benefit. The critic is usually the onlooker. If one goes only as a listener one is apt to become uncharitable toward those who are shouldering the responsibility. Members should all be enthusiastic and act their parts, never letting their enthusiasm waver.

We each owe something to the life of the community in which we live—every one has some influence for good or bad on the lives of others. Put away petty jealousy, narrowness, severity of judgment and selfishness or self-saving, the greatest sin of the day making its presence felt everywhere. By forgetting self and self-interests we will be doing our duty to home, district and community.

"No unkind words our lips shall pass" recalls to mind the couplet, "There is so much good in the worst of us, and so much bad in the best of us that it ill behooves any of us to talk about the rest of us." Life is too short for any bitter feeling.

The following recipe for "Better Citizens" was given at the Toronto convention by Mrs. Grant of Moose-jaw:

Two pounds of love ½ pound good looks ½ pound sweet temper, ½ pound buttered youth; 2 pounds self-forgetfulness; ½ ounce of dry humor; 2 tablespoons sweet argument; 1 pint of common sense. Put the flower of love, good looks and sweet temper into a wee furnished home and mix the butter of youth with blindness of faults and self-forgetfulness, throw in dry humor, sweet arguments; add to the above, pour in gently rippling laughter and common sense. Work together till well mixed and bake gently forever.

It's doing your job the best you can
And being just to your fellow men;
It's figuring how and learning why
And looking forward and thinking high
And dreaming little and doing much;
It's keeping always in closest touch
With what is finest in word and deed;
It's being clean and playing fair;
It's laughing lightly at Dame Despair;
It's sharing sorrow and work and mirth
And making better this good old earth;
It's serving and striving through strain and stress;
It's doing your noblest—that's success.

Zion League Meets.

With an attendance of forty-two, Zion League met on Thursday evening under the convenership of Thomas Fry, with Mrs. Fred Barnum as leader. Song service opened the meeting, followed by prayer by W. Forde, and the usual business session showing the Whippets in the lead. The Scriptural lesson was read by the leader with the devotional talk given by Amos Barnum. Other program numbers were a hymn by the Chevrolet group; duet, Misses Gladys Simpson and Bessie Meiklejohn; reading, Mrs. Lorne Barnum; devotional topic by Thomas Fry.

School Reopens.

Schools in the locality have reopened again for the fall term. Miss Bennett, of Menie, is continuing as teacher of No. 2, the home school of Pethericks. S.S. No. 1 is in charge of Miss Cruickshanks of Peterborough, while Miss Bateman, of Springbrook, is teacher at the Union School.

Mr. and Mrs. Fred Barnum and Mr. and Mrs. Lorne Barnum are spending the week-end with Rev. and Mrs. C. D. Daniel at Sunderland.

STUDY OF SHELLS MOST INTERESTING

Rev. Joseph Wilks, of Millbrook, Has Very Large Collection.

(Examiner Correspondence)

MILLBROOK, Sept. 15.—Conchology, which is the study of mollusks, soft fleshy animals and their shells, is a hobby seldom indulged in by people living in inland centres, but locally there is one such student and collector, Rev. Joseph Wilks, who followed this 'bent' during some years' residence at Pacific Grove on the California coast.

This is but one of the hobbies which Mr. Wilks has indulged, others being stamp and coin collecting; and he has also a fine selection of basketry work brought direct from Indian makers in Utah, and other points in the United States, and from Africa. Although Mr. Wilks has passed his eighty-second birthday, he is still young in spirit, and one of the means by which his life has been kept broadened and full of interest has been the time devoted to a variety of studies, with a consequent wide intellectual outlook.

Sea shells are frequently to be found in homes in any community, though it is probably safe to say that but a cursory glance is ever given at their delicate coloring or the wonders of their structure and shape. Usually they are for ornamental purposes only, but occasionally one sees a paper-weight, for instance, such as Mr. Wilks possesses, in his collection—a round glass globe two or three inches in diameter, filled with a variety of small shells, the whole cemented firmly to an oblong glass base—which serves a useful purpose.

Folk who raise chickens, particularly on a commercial basis, know the value of powdered clam and oyster shells in the diet to ensure proper egg shell formation; these shells are rather ordinary specimens of the bivalve family, but in his collection Mr Wilks has several bivalves from the ocean's floor that are large exquisite in coloring, and of various and attractive shapes.

Almost every child has picked up snails, the little animals 'with their houses upon their backs'; but opportunity to pursue the fascinating study of conchology may come, with more or less frequency, to the senior members of the family through vacation trips; or change of residence to lake shore, or seaside town. Suggestions to beginners from one of wide experience include the keeping of an exact record, either by note book or label, of whenever and wherever each shell was found. Do not stop here, however, but learn names, markings, structure and the habits of the animal which made this house its home; the latter, being of soft formation and boneless, must have a hard protective covering, though small mollusks, such as the garden slugs, and occasionally others on the ocean's shore, are naked and apparently trusting to 'luck' to preserve them.

Once an intelligent interest is aroused, constructive study is almost certain to follow, and 'you will love your work, and find in it many hours of real pleasure and profit.'

Shells, as everyone knows, are composed of carbonate of lime, the basic constituent of limestone, chalk and marble. Practically all rivers carry dissolved limestone to the sea, hence an adequate supply is always available for the mollusks, though by what 'instinct', as we call it, these creatures are impelled to build each its own home, so perfectly, in such a variety of ways, and usually so beautifully, is beyond our intelligence. It can truthfully be said that it is done under the guidance of the Creative Power which controls all nature.

Shells grow more abundantly in tropical waters, and are usually brighter in color and more attractive in appearance than those found along cooler coasts; and Mr. Wilks seconds the warning given to beginner-collectors not to take it for granted that all shells sold in stores along the seaside are native to that locality. A trained conchologist can tell from the appearance even of a dead shell its natural dwelling-place and home surroundings.

There is apparently an infinite variety of shells and of the animals that build them, but possibly none are more delicately colored, or more beautifully formed, than those of the Abalone family, the translation of the scientific name being sea-ears. Of these Mr. Wilks has a number in his collection, one a large Red Abalone, having a curious barnacle projection that adds to its interest.

A feature of all these shells is a series of holes near the outer edge, these serving as outlets for the water, and other waste matter, expelled from the animal's gills, or which has passed along with the current. As size increases some of these holes become closed from inside the shell, and new ones are formed.

Shells of the Abalone family are found only along the Pacific coast, the open, under surface where the animal is concealed being held fast to the rocks; it is best to insert a wedge to dislodge it for if fingers be used much pain and inconvenience will certainly result. An acid bath is the medium for dissolving the rough outer surface, the coloring revealed being of rainbow variety, delicate and yet rich in hue, and reminding one of mother-of-pearl by its beauty. Bits of these shells are used to set in brooches, and other pieces of jewelry, and are then sold as souvenirs.

Every part of this mollusk is valuable; the meat is dried and used for food by the Chinese, and the great muscle that controls the foot that can cling to the rock with surprising force, it is said makes a most delicious soup. The shells are sold by the ton, the majority being exported to Europe, where they are made into various kinds of buttons, and also used for inlaid work. Indeed it has been necessary to protect the animals by law so enormous was the number of shells being gathered, lest the species become extinct.

Dissection of the internal organs of the Abalone has been found of much interest; there are mouth parts 'with a ribbon-like tongue as long as your finger', thickly set with flinty hooks, sometimes termed teeth, and with these the animal rasps its vegetable food into gne shreds before swallowing. There are besides the gills, mantle, heart and digestive organs; but the very large part of the mollusk is the great central muscle which leaves its whorl clearly defined on the inner part of the shell, the coloring here being particularly fine and often resembling a peacock's tail.

There are many varieties in this species, the Green Abalone being considered the most beautiful; with the Red a close second; the Black, the Gray, the Threaded, and the Japanese are others but by no means all the members of the family.

Apparently the Japanese Abalone followed the warm ocean current down through the Aleutian archipelago, and finally finding its home on the central California coast. In shape it is rather long and narrow when compared with the other species, but the interior is very iridescent, though the muscle scar is not distinct.

Even a casual study of the shells in Mr. Wilks' collection leads to wonder at the revelation of infinite variety; the symmetrical structure; the amazing coloring, so evenly distributed; and the beauty of design; while the weight in several cases causes speculation as to how some of these 'houses' can possibly be carried upon the backs of the constructing animal, when it makes a trip abroad.

Before leaving California and coming to Canada to reside, Rev. Mr. Wilks disposed of the major portion of his large and valuable collection of shells with the bungalow which had been his home, and in which they were conveniently catalogued and shelved, to a church organization that gladly accepted his offer and pays him a substantial yearly rental, the privilege of tentative ownership carrying with it financial opportunities

BACK TO OLD PEN JOB

COLUMBUS, Sept. 17.—Frank Lee Smith, 66, is back at his old job of laying bricks at the Ohio Penitentiary. This time he is working on a new chapel. While "doing time" fifty years ago he helped build the old cell block. He did his first "stretch" for larceny; this time he got 15 to 20 years for safe breaking.

Ennismore

(Examiner Correspondence)

ENNISMORE, Sept. 15.—Mrs. Jerry Sheedy has returned home after spending a few days with her sister, Mrs. Millheron, of Toronto.

Mr. and Mrs. Charles Lucas and Mrs. M. Flynn, of Downeyville, were guests of Mrs. James Morrissey on Sunday.

Mr. and Mrs. Michael Hennessey have returned to Thurstonia Park after spending a few days with Mr. and Mrs. James Garvey.

Mr. and Mrs. Angus Twomey, of Downeyville, were guests of the latter's parents, Mr. and Mrs. W. J. Scollard on Sunday.

Mrs. John Cadigan has returned from Detroit after attending the O'Connor-Lucas wedding.

Miss Irene Shanahan has returned to her home in Prescott after spending a few weeks' holiday with her aunt, Mrs. Thomas Cavanagh.

Mr. and Mrs. Bernard Flood and son visited friends in Peterborough on Sunday.

Morley Cadigan has returned to his home in Toronto after spending his vacation with his aunt, Mrs. D. Cavanagh.

Mr. and Mrs. F. Cavanagh spent Sunday with the latter's mother Mrs. E. Herlihey, of Downeyville

Mr. T. Cavanagh, of Douro, spent Sunday with his parents, Mr. and Mrs. W. F. Cavanagh.

Mr. and Mrs. G. Harris, of Peterborough, were guests of the latter's parents, Mr. and Mrs. John Davis, on Sunday.

The first trunk line railroad in Florida was constructed between Fernandina and Cedar Key.

(Copyright, 1928, McClure Syndicate.)

Astrologers read this as a lucky day in planetary government, for benefic aspects rule from early in the morning.

Under this sway it is well to push all one's business, for there is much to be gained from initiative.

Lawyers should benefit from this positing of the stars which will bring much litigation. Judges will win fame and women attorneys will attain honors.

Banks and bankers again benefit today, if the stars are rightly read. Expansion of business and commercial interests is forecast.

Women should be lucky today, for men will be patient with their political and reform demands while this configuration prevails.

This should be an auspicious wedding day, bringing prosperity and happiness. Money as well as happiness may be expected, astrologers announce.

The evening may not be a propitious time for radio talks that carry any sort of propagandas, for Uranus is in a forbidding aspect.

Those who travel through the air later today should be especially cautious in choosing pilots, since accidents are supposed to be more likely than usual.

In the early autumn, new inventions of many sorts will be tested and although many may be incomplete they will precede many remarkable achievements, it is foretold.

Housewives should benefit today which augurs good luck in the making of preserves and the performance of other tasks.

Diet again will command attention, the seers prophesy, but the modes will encourage a certain degree of flesh, and women who have been willing to sacrifice face to form will mourn.

Persons whose birthdate it is may expect success if they work for it wisely in the coming year. They should be wary about tempting offers that compel change of vocation. Women should be especially careful. These subjects of Virgo rebound quickly from defeat or disaster, but they should not court trouble.

Children born on this day probably will have fine talents that lead to scholarship. Many chemical engineers belong to this sign and musicians also claim it. Great power to overcome handicaps is a characteristic.

Marmora

Marmora, Sept. 15 (Examiner Correspondence)—Accompanied by two friends, Misses Bertha and Jean Reynolds, of Ottawa, spent the last week-end with their parents, Mr. and Mrs. W. R. Reynolds, of Deloro.

Mrs. J. Ethier and daughter, Peggy, are visiting friends in Belleville.

Mr. and Mrs. J. Musgrave, of Belleville, were Sunday guests of Mr. and Mrs. M. J. Tamplin.

Misses Margaret and Madeline Gaffney recently left for Kingston to train as nurses.

The family of Mr. Ross Hunter left on Tuesday for their new home in Belleville.

Mr. and Mrs. Ray Murray and daughter, Patsy, are holidaying in Toronto.

Miss Evelyn Ethier returned home on Monday from a two weeks' visit in Belleville.

Mr. and Mrs. Floyd Gray and children, and Miss Rita Steenburgh spent Saturday with Miss Lulu Gray in Oshawa.

Miss Eileen Mantle is visiting friends in Toronto.

XXVIII—THE CALL OF YOUTH.

Sometimes, a little stronger on his injured legs, had dragged after his master from the room, and drew painful attention to himself by whining and pawing Sanderson's feet.

"Hallo, old boy! Forgotten you, had I?"

He picked the dog up and took him out into the garden.

It was quite dusk now, and the air was fresh and scented with flowers. Philip thought of the room where Poppy had died, and of the blunt words she had spoken to him from her grateful heart: "If it 'ud only been me you wanted, instead of Sally now!"

In the bitterness of his soul Sanderson wished it had been.

It would have been something to have known love, even if he could not have given it in return.

Mrs. Kiff hailed him from the doorway.

"Are you there, sir, please? Miss Sally wants you."

"Coming!" But his voice was dispirited, and his steps dragged as he went back to the sitting-room with Sometimes still in his arms.

"What do you want to go away like that for?" Sally asked, but she spoke more gently. "And put Sometimes down. I want to tell you something—something that will please you."

"What is it?"

He put the dog down on the rug and sat on the end of Sally's couch. She held out her hand.

"Please!" she said.

Sanderson took it reluctantly; somehow the feel of it did not seem sincere after the tug of Poppy's dying hand last night.

"Well, what is it?" he asked again.

"You know what you've often said," Sally began slowly. "About doctors, and further advice—and all the rest of it."

"Yes."

"Well, I'm willing—if you really want me to."

Sanderson's heart gave a quick leap. Was she doing this for his sake? Did it mean that at last she had some deeper feeling for him that was urging her to do all she could to please him?

But he was cautious.

"I thought you dreaded it so, my dear," he said gently. "I thought you could not bear to think of it. What has made you change your mind so suddenly?"

Sally turned her head away.

"I've been thinking," she said slowly. "I suppose it is silly not to do all I can . . . After all, it would be rather lovely to be able to walk—even just a little, and if it does hurt at first, it won't for always, perhaps—and, as Garry says, I'll still be young at the end of five years, even if it takes all that time to mend me."

There was a stiff little silence, then Sanderson spoke.

"So Garry has been talking about it to you, has he?"

"Yes. Not much, only just a little, but I think he's right; I think I ought to do everything I can, don't you?"

Sanderson did not answer; he was conscious of a cold feeling round his heart. So it was not for his sake at all that she was willing to risk the thing she so dreaded, but for the sake of this other man.

Youth calls to youth!

Lying awake at night, Philip Sanderson realized the poetic justice of Garry Nairn's attraction for Sally, even while he fiercely rebelled against it.

Was he to have no happiness in his own life? It seemed as if a few careless crumbs of gratitude were all that he need ever look to receive.

Sally had relented before he said good-night to her. She had cried and thanked him sobbingly for his goodness to Poppy Sladen; she had kissed him with quivering lips, and declared that no other man in the world was as good or unselfish as he, but somehow the words had not comforted him nor healed his sore heart.

Sanderson knew that women do not love a man because he is good or unselfish; he knew that more often than not an utter blackguard has the power to attract and hold the deepest affection.

Sally had reiterated her intention of seeking further advice for her injuries.

"That is, if you want me to," she told him. "You'll have to pay, Philip, and if, after all, you don't want to——"

There had only been one answer possible to such a question. Sanderson had declared that his chief desire was to see her well and strong again, and he had promised to find out at once the best surgeon to whom to take her for advice.

But lying awake, alone, with the silence of the country all around him, Sanderson was conscious of deep misgiving. Supposing she died? He was haunted by Poppy's death. In his over-strung state of mind it had almost seemed like a warning. Supposing Sally died? Well, if she did, his own life would also be at an end; he would not live without her.

On the other hand, what if she made a complete recovery? Her need of him would then be gone, and she might turn elsewhere for affection, even as she had done during the past two days. At the back of Sanderson's thought was a haunting certainty that Garry Nairn had come into Sally's life to stay. He saw in the vicar's cheery son a far more formidable rival than he had ever seen in Josh Akers, though why he was at a loss to explain. The two men were such utterly different types. Akers belonged to Sally's past, a past to which he did not believe she would return, even supposing she completely recovered. He was fully aware of the change in her, and until to-day he had rejoiced in it. He knew that she no longer considered Ash Hill and the country a place of boredom and exile; he knew that she had grown to love the cottage and the little garden. He knew how she felt about the woods—the woods to which he had first taken her for that one happy day.

"And now it's all over!"

That thought was in his mind and would not be dismissed; he had had the only run for his money he was likely to get; Sally had passed beyond him. He felt as if ever since their first meeting he and she had been fellow-travellers on a high road, and that sometimes she had overtaken him, sometimes he had overtaken her. Once he had been sure that their lives had definitely joined and would never again divide—that was when he brought her away from the hospital, helpless and friendless save for himself—but now, in spite of her crippled state, in the last two days she seemed to have eluded him once again, to have so far outstripped him in the race that it was useless to pursue her further.

Nairn was a young, strong man, and although as yet there was nothing between them of which one could definitely state "This is so," Sanderson's fourth sense told him that a third traveller had joined them on the road, and he could not deafen his ears to the sound of the intruder's footstep.

At the foot of his bed Sometimes stirred and whined uneasily, his injured legs cramped and stiff, and Sanderson got up and lit a candle and moved the dog into a more comfortable position.

He had never felt more wideawake in his life, and instead of going back to bed he put on a dressing-gown—a shabby, ugly affair of black and red check—and sat down by the wide-open window.

Already there was a first pale streak of dawnlight in the sky, and a sleepy bird was rousing and twittering from its nest in the ivy, and Sanderson remembered that at just such an hour, more than thirty years ago, his little sister had died. He had loathed the dawn ever since then. The most vivid memory of his life was when, as a broken-hearted boy in his 'teens, he had crouched shivering on the landing in terror as to what was happening on the other side of the closed nursery door. Then after interminable hours it had opened, and his stepmother had come out, half-led, half-carried, her face grey and her eyes closed. Philip had swayed forward and clutched at her arm.

"Betty?"

But there had been no need to answer him, and out in the world, beyond the uncurtained landing window, there had been just such a grey streak of dawnlight in the sky.

How he had loathed the dawnlight ever since; and yet here he sat, watching it once again, conscious in his heart that this time it was his very hope of happiness that was dying, and that soon he would be quite an old man—old and friendless.

He thought of Garry Nairn and tried to hate him, finding it impossible. Nobody could hate a youth with such a frank, open face, such a cheery smile. Sanderson felt ashamed as he remembered how he had snubbed him—how deliberately rude he had been.

Perhaps, after all, he was making a mountain out of a molehill; perhaps, after all, Fate would step in and remove this intruder from his pathway and Sally's; perhaps it was just his jealous imagination that had magnified the incident to such great importance.

A little chill breeze stirred suddenly in the sleeping garden below and blew in at the open window.

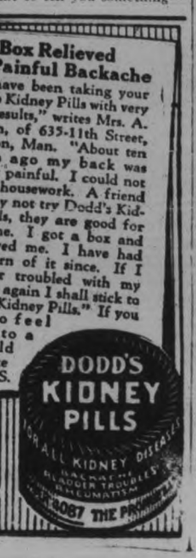
Sanderson shivered and rose to his feet. The light of the flickering candle threw his huge, grotesque shadow on the low, sloping ceiling of the little room, and Sanderson smiled grimly as he saw it.

"The Guards never retire!" he told himself obstinately, and climbed back into bed.

(To be continued.)

One Box Relieved a Painful Backache

"I have been taking your Dodd's Kidney Pills with very good results," writes Mrs. A. Clayton, of 635-11th Street, Brandon, Man. "About ten months ago my back was awfully painful. I could not do my housework. A friend said why not try Dodd's Kidney Pills, they are good for Backache. I got a box and it relieved me. I have had no return of it since. If I am ever troubled with my Kidneys again I shall stick to Dodd's Kidney Pills." If you wish to feel young to a good old age—take DODD'S.



DO YOUR KIDNEYS PURIFY YOUR BLOOD?

UNCLE WIGGILY

By HOWARD R. GARIS

5-day Bedtime Story

UNCLE WIGGILY AND THE EAGLE

(Copyright, 1928, by McClure Newspaper Syndicate.)

On top of a high pine tree, close to a lake, sat a large bird who, as the sun shone on him, seemed to have a bald head.

"Who is that?" asked the Fox of the Wolf as the two bad chaps slunk along in the bushes.

"That is the Bald Eagle," answered the Wolf.

"Ha! A bald-headed bird!" snickered the Fox. "I never saw one before. What is he doing up on that tree?"

"Waiting to catch a fish for himself, or, if he sees some other bird catch one, he'll swoop down and take it away from him," said the Wolf.

"Ho, bald Eagle!" he howled.

"Oh, ho! Then the bald-headed eagle is that kind of a bird; is he?" barked the Fox.

"He isn't a bald-headed eagle," the Wolf explained. "The Eagle has white feathers on top of his head and at a distance he looks like a bald-headed man. But it is only because of the white feathers. Though I suppose the feathers on an eagle's head are not as thick as those on his body. But come on! Why should we bother with the Bald Eagle, as he is called on account of his white head?"

"I was just thinking," whispered the Fox, "that if the Bald Eagle is hungry, and I guess he is or he wouldn't try to get a fish, why maybe he would help us catch Uncle Wiggily."

"I hadn't thought of that," snarled the Wolf. "Perhaps he might. I'll ask him. Ho, Bald Eagle!" he howled. "Do you want a rabbit?"

"I want anything good to eat!" screamed the Bald Eagle.

"Say! He might eat us!" whispered the Fox.

"No, the Bald Eagle isn't quite strong enough to catch us," the Wolf said. "But he could easily catch a rabbit like Uncle Wiggily."

"Where is that rabbit you speak of?" the Eagle wanted to know, looking down on the lake with his sharp eyes to see if a fish might swim near enough the top of the water so he could swoop down and spear it with his sharp claws.

"Uncle Wiggily is cutting the grass in front of his hollow stump bungalow," said the Fox. "Mr. Wolf and I want to catch him but we're afraid. Now I have heard that you eagles are very brave. So if you go there you may catch this rabbit. All we ask, for showing you where he lives, are a few nibbles off his ears."

"Go ahead!" screamed the Bald Eagle. "Show me where Uncle Wiggily lives and I'll catch him! And I'll give you some of his nibbles to pay for telling me about him. I don't believe I'm ever going to catch a fish."

So the Fox and the Wolf slunk along on the ground to lead the way to the rabbit's bungalow. Flying along in the air overhead, the Bald Eagle looked down and with his sharp eyes watched which way the Fox and Wolf went. Slowly the two bad chaps drew near to Uncle Wiggily's hollow stump bungalow.

Out in front the rabbit gentleman was cutting the grass on the lawn. He was twinkling his pink nose and not thinking of any danger for he had just brought home, in his tall silk hat, some rice that Nurse Jane made into a pudding for Baby Bunty.

"Everything is peaceful and lovely," thought Mr. Longears as he pushed the lawn mower over the green grass, clipping it as a barber clips your hair. "Pretty soon I shall hop away and have an adventure to make me laugh!"

Poor Uncle Wiggily! If he had only known it, an adventure was coming right toward him, then an adventur of a Bald Eagle, a Fox and a Wolf, all three very hungry.

"Hey! Look out where you're going, if you please!" suddenly cried a voice down on the lawn and a large, green grasshopper jumped up and sailed through the air, alighting on the handle of the mower.

"What's the matter?" asked Uncle Wiggily.

"Matter enough!" sang the grasshopper, "you nearly cut off my long hind legs with that grass machine of yours."

"Oh, I am so sorry!" exclaimed the rabbit. "Wait, I'll go get you some molasses." And the bunny hopped into the bungalow, while the Bald Eagle, Fox and Wolf came nearer and nearer. But don't worry. Everything will be all right.

PILES DISAPPEAR

No painful cutting or greasy salves now needed to banish piles in any form. Dr. Leonhardt's prescription HEM-ROID frees the blood circulation in the lower bowel and removes the cause. It's brought quick and lasting relief to thousands—it must do the same for you or money refunded by McDermid & Jury or Bond's Drug Stores, or any good druggist.

Why We Do What We Do.

WHY WE CARRY A CHIP ON OUR SHOULDER

By Mehran K. Thomson, Ph.D.

(Author, The Springs of Human Action)

Carrying a chip on the shoulder is taken literally in lumber camps and among boys as a means of starting a fight. One member of the gang who is peeved, or just for the fun of picking a fight, will place a chip of wood on his shoulder and defiantly parade before the one he wants to fight. The one who is challenged in this way is supposed to knock the chip from the challenger's shoulder. A fight immediately results.

In the figurative sense, carrying a chip on the shoulder is essentially an attitude of mind, the attitude of defiance, of looking for trouble.

The attitude of defiance is the result of an actual or imaginary attack upon some cherished possession. We take this attitude to show our contempt for the challenger, to disprove his contention and to establish our superiority.

The truly superior person, however, scarcely ever assumes this attitude. He knows his powers and limitations. He is not greatly disturbed by criticism and insinuations to the contrary.

On the other hand, the inferior person is not sure of himself and falls more readily a victim to ridicule. The bravado attitude that we call carrying a chip on the shoulder is a means of bolstering up his courage and an attempt to convince himself as well as others that he is somebody.

In some people this is a means of attracting attention. With others it is a pastime and with still others it is a means of bullying.

No matter what the ultimate motives for carrying a chip on the shoulder, the major motive is to prove one's superiority.

It is a trite but true saying that the man who is looking for trouble usually finds more than he wants. A good beating helps to keep the chip permanently off the shoulder.

Why do you do what you do? Dr. Thomson will be glad to answer your questions on human behaviour. Address him care of this paper, and enclose an addressed, stamped envelope for reply.

SCHOOL FAIRS

OMEMEE.

Omemee, Sept. 17 (Examiner Correspondence).—The annual rural fair of the schools of the Omemee district was held in Omemee, on Thursday afternoon. In spite of the inclement weather, which was cloudy and cold, a good attendance of parents and interested friends gathered on the athletic park to witness the various events on the afternoon's program. This year the Omemee public school pupils were granted a holiday by Inspector R. F. Downey, and their presence was noted.

Shortly after one o'clock the scholars, from the seven schools represented, were lined up by their teachers at the post office corner, and from here marched to the grounds. Miss Graham, the teacher of the Orange line school, No. 5, Emily, led off, followed by Roy Faulkner's school No. 8 Emily; Miss Shea's, No. 9, Emily; Miss Parker, No. 10, Emily; Miss F. Rutherford, No. 11, Emily; Miss Gardiner, No. 13, Emily, and Miss Bowes, No. 9, Ops. Each school carried a pretty banner bearing the name, and occasionally the date of the school's erection, and the scholars wore caps, bandeaus or shoulder regalia to match the banner. Upon their arrival at the grounds, each in turn gave their song and yell, followed by the physical exercises. These were very much enjoyed, but it could hardly be expected that a new teacher who had only a week since the opening of school to make preparations, to surpass those who had been engaged in the same school last year. No. 10, Emily, was awarded first prize; No. 5, second prize; No. 8, third, and No. 13, fourth. This announcement was made by Mr. Carroll, of Toronto, the agricultural representative, who congratulated the scholars on their singing, and caused a smile when he criticized the marching. He was pleased with the various exhibits, but was somewhat disappointed in the lack of grain, turnips and mangolds shown. He looked for a continuation of school fair work and later show in larger exhibitions. Mention should be made of the winning school, whose song, "The Soldiers of the King," brought back memories of bygone days, when the song was so popular among school children.

The oratorical contest was next in order. Two entries were listed in the senior and two in the junior. In the former, Nellie Casey of No. 10, Emily, was awarded first prize. The subject of "Lady Jane Gray" was chosen, and under unfavorable circumstances was given in a clear, audible voice. Olive Reeds, of No. 9, Emily, received second prize, her subject being "My Favorite Character in History — Sir Francis Drake." Irene Fairfield and Clement Reeds competed in the junior and each spoke remarkably well on "A Day I Spent at the Lindsay Fair."

The judges gave their decision to the latter. F. G. Sandy, M.P.P., who takes a special interest in this work, made the presentations. Mr. Sandy expressed the hope of meeting the winners at a later date in Lindsay when the trophies awarded by Newman and Sandy to the champions of the district will be presented.

Mr. Winters, of Lindsay, the agricultural representative of this district, expressed his appreciation to the teachers, boys and girls, parents and trustees for the interest shown.

A new feature introduced in the competitions this year was first aid work in the case of fainting or drowning.

The girls of the various schools competed for honors in the demonstration of first aid in fainting while the boys demonstrated the task of reviving a drowning victim.

These demonstrations were very interesting and should prove helpful. Mr. R. F. Downey, of Peterborough, the public school inspector of this district, commended the actors on their success in this new venture and also criticized, where necessary, before presenting the awards to the teachers of No. 5, Emily, who, in the fainting demonstration received first: No. 9, Ops, 2nd; No. 13, Emily, 3rd, and No. 10, Emily, 4th. In the drowning, the prizes, in order of merit went to No. 5, Emily; No. 9, Ops; No. 10, Emily, and No. 8, Emily.

Another new feature was solo work. Only two schools were entered, No. 10, Emily, and No. 9, Ops. Jane McConnell, who sang "Red Wing," won first prize over Nellie Casey of the same school, who rendered "Let the Rest of the World Go By," while Lorna Reeds, of No. 9, Ops, sang sweetly "Lullaby-Land," and received third prize. In a mouth-organ contest, Jane McConnell won first from her brother, Lawrence, when she played "Golden Slippers."

To Marjorie Ruth, of No. 13, Emily, goes the silver cup donated by the T. Eaton Company to the pupil securing the highest number of points, her total being 62. She also won this trophy last year. Dorothy Rea, of No. 9, Ops, came second with 48 points, while Ronald Pogue and Olive Reeds, also of No. 9, Ops, tied for third place with 47 points. The second prize was two beautifully bound books, entitled: "Friendly Acres," and "Around Home," by Peter MacArthur.

A few races were run off, among them being the teachers' race, which was won by Miss Bowes, of No. 9, Ops, and a trustees' race in which Walter Reeds, of Ops, triumphed.

By this time the large tent, containing the various articles, was opened, and the crowd was attracted in this direction where many expressions of pleasure were heard as each exhibit was reviewed, and they indeed reflected uch credit on the part of the boy and girls, who must have spent much time in making ready. Poultry and stocks, placed near the tent, received its share of onlookers and [illegible]

An ice-cream and candy booth was well patronized, in spite of the cold.

The judges for the afternoon's program and the exhibits included Mrs. H. Debois, Miss Robertson, of Lindsay; Messrs. Carroll, of Toronto; R. Hawkins, of Stayner, and Mr. Waite, of Cobourg.

By five o'clock all the exhibits were gathered up and the school fair was over for another year.

Following is Prize List:

Oats, O.A.C. No. 14, 1 qt. in glass jar.—1, David Lowes.

Barley, O.A.C., No. 21, 1 qt. in glass jar.—1, Mary Jones; 2, Tommy Lowes; 3, Dora Bulbeck.

Barley, O.A.C., No. 21, 1 sheaf 2 inches in diameter.—1, Dora Bulbeck; 2, Mary Jones.

Corn, Golden Bantam, 6 ears.—1, Hazel Casey; 2, Ivan Deyell; 3, Alta Magee; 4, Dick Skuce; 5, Marion Deyell; 6, Gwendoline Fee.

Potatoes, Dooley.—1, Ronald Pogue; 2, Ronald Siddle; 3, Stanley McColl; 4, Hilda Howden; 5, William Chatten; 6, Gladys Rice.

Potatoes, Irish Cobblers.—1, Dennis Acreman; 2, Gladys Chatten; 3, Boyd Windrim; 4, Lorna Reeds; 5, Marjorie Ruth; 6, Hilda Magee.

Mangolds, giant white sugar.—1, Francis Fitch.

Turnips, Canadian Gem.—1, Bruce Fairfield.

Beets, Detroit Red.—1, Bessie Fee; 2, Gladys Chatten; 3, Clemet Reeds; 4, Cora James; 5, Stanley McColl; 6, Calvert McConnell.

Carrots, Chantenay.—1, Margaret Best; 2, Jean Harrison; 3, Louise Bray; 4, Gracie Carew; 5, Stanley McCall.

Parsnips, Hollow Crown.—1, Irene Fairfield; 2, Gladys Rice; 3, Hazel Wilson; 4, Nelson Atwell; 5, Annie Fee; 6, Allie Casey.

Onions, Yellow Globe Danvers.—1, Gladys Wilson; 2, Huber Reeds; 3, Murray Fee; 4, Harrietta Fee; 5, Irene Fairfield; 6, Jean Acreman.

Hubbard Squash.—1, Nellie Casey; 2, Olive Reeds; 3, Stanley McCall; 4, Gertrude McNevin.

Wealthy Apples.—1, Marorie Ruth; 2, Gladys Rice; 3, Lewers Deyell; 4, Alta McGee; 5, Ivan Deyell; 6, Della McGee.

Snow or McIntosh Red Apples.—1, Dorothy Rea; 2, Helen McNevin; 3, Mary Jones; 4, Marion Deyell; 5, Huber Reeds.

Alexander or Wolf River Apples.—1, Arnold Rea; 2, Ronald Pogue; 3, Edith Reeds; 4, Gordon Fee.

Crab Apples.—1, Edith Reeds; 2, Marorie Ruth; 3, Ronald Pogue; 4, Cora McGee; 5, Stanley McCall; 6, Dorothy Rea.

Any other Fall variety apples, named.—1, Clement Reeds; 2, Murray Fee; 3, Huber Reeds; 4, Cora McGee; 5, Stanley McCall; 6, Norma Jackson.

Any other variety winter apples, named.—1, Mary Jones; 2, Murray Fee; 3, Lewers Deyell; 4, Olive Reeds; 5, Ronald Pogue; 6, Norman McQuade.

Astors, 6 blooms.—1, Earl Magee; 2, Helen McNevin; 3, Alton Clarke; 4, Dick Skuce; 5, Elwood McCarroll; 6, Gordon Fee.

Zinnias.—1, Boyd Windrim; 2, Edna Graham; 3, Annie Fee; 4, Olive Graham; 5, Alta Magee; 6, Lorna Reeds.

Calendulas.—1, Fairburn Magee; 2, Freida Magee; 3, Hilda Magee; 4, Louise Bray.

Verbena or Phlox.—1, Cora Magee; 2, Cora James; 3, Gladys Wilson; 4, Edith Reeds.

Pinks.—1, Bessie Fee; 2, Olive Reeds; 3, Della Magee.

Living Room Boquet from home garden.—1, Huber Reeds; 2, Gertrude McNevin; 3, No Name; 4, Helen McNevin; 5, Nellie Casey; 6, Laurene Howden.

Collection of Noxious Weeds.—1, Cora James.

Collection of Noxious Weed Seeds.—1, Marjorie Ruth; 2, Freida Magee; 3, Louise Bray.

Collection of Woods of Native Trees and Shrubs.—1, Marjorie Ruth.

Handmade Doll's Dress.—1, Dorothy Sherin; 2, Marjorie Ruth; 3, Harrietta Fee; 4, Allie Casey; 5, Cora Magee; 6, Alta Magee.

Hand Hemmed Table Napkin.—1, Marjorie Ruth; 2, Gladys Chatten; 3, Dora Bulbeck; 4, Alta Magee.

Embroidered Hand Towel.—1, Marjorie Ruth; 2, Freida Magee; 3, Olive Reeds; 4, Helen McNevin.

One Hand Hemmed Patch.—1, Gladys Chatten; 2, Marjorie Ruth; 3, Hilda Magee; 4, Barbara McConnell; 5, Marjorie Carew; 6, Jane McConnell.

Sponge Cake.—1, Olive Reeds; 2, Dorothy Rea; 3, No Name; 4, Louise Bray; 5, Lorraine McConnell.

1½ dozen baking powder biscuits.—1, Helen McNevin; 2, Patricia McCarrell; 3, Freida Magee; 4 Lorraine McCarrell; 5, Dorothy Rea; 6, Gracie Carew.

Writing, first-class.—1, Willie Carew; 2, Marjorie Carew; 3, Hilda McGee.

Writing, second-class.—1, Michael O'Neill; 2, Gladys Rice; 3, Mary Jones; 4, Hilda Howden; 5, Richard Skuce; 6, Elwood McCarrell.

Writing, third-class.—1, Lorna Reeds; 2, Dora Bulbeck; 3, Lorraine McCarrell; 4, Irene Fairfield; 5, Vina Fife; 6, Jean McConnell.

Writing, fourth class.—1, Dorothy Rea; 2, Dorothy Sherin; 3, Marjorie Ruth; 4, Nellie Casey; 5, Ruth Fairfield; 6, Louise Bray.

Drawing.—"How I Help My Mother."—1, Janet Fee.

Spring Flower in Crayon: 1, Mary Jones; 2, Stanley McCall; 3, Cora James.

Drawing Spring Flowers: 1, Norman McQuade; 2, Lorna Reeds; 3, Edith Reeds; 4, Vina Fife; 5, Jane McConnell; 6, Harrietta Fee.

Writing, Primer: 1, Ronald Siddle; 2, Helen Parker; 3, Hazel Casey; 4, Orma McConnell; 5, Nelson McConnell; 6, Helen Graham.

Drawing Spring Landscape: 1, Geo. Bullen; 2, Dorothy Sherin; 3, Olive Reeds; 4, Ruth Fairfield; 5, Marjorie Ruth; 6, Lawrence McConnell.

Foot Ruler Marked off Into Quarter Inches: 1, Fairburn Magee; 2, Ronald Pogue; 3, Arnold Rea; 4, Clemet Reeds.

Vegetable Garden Marker: 1, Fairburn Magee; 2, Clemet Reeds; 3, Ronald Pogue.

Necktie Rack: 1, Earle Magee.

Half Dozen Baked Apples: 1, Lorna Reeds; 2, Freida Magee; 3, Louise Bray; 4, Dorothy Rea; 5, Helen McNevin; 6, Gladys Chatten.

Maple Cream Candy: 1, Edith Reeds; 2, Barbara McConnell; 3, Lorna Reeds; 4, Dora Bulbeck; 5, Louise Bray; 6, Hazel Wilson.

School Lunch for One: 1, Lorna Reeds; 2, Edith Reeds; 3, Louise Bray; 4, Freida Magee; 5, Vina Fife.

Girls' Sewing Contest: 1, Marjorie Ruth; 2, Nellie Casey; 3, Barbara McConnell.

Brown-shelled Eggs, 1 dozen: 1, Gertrude McNevin; 2, Oda Howden; 3, Dorothy Rea; 4, Fairburn Magee; 5, Boyd Windrim; 6, Gordon Fee.

White-shelled Eggs: 1, Harrietta Fee; 2, Vina Fife; 3, Dorothy Rea; 4, Jane McConnell; 5, Lorna Bray; 6, Donald McNevin.

Pair of White Leghorn Hens: 1, Annie Fee; 2, Nelson Atwell; 3, Ronald Siddle; 4, Hazel Wilson; 5, Ronald Pogue; 6, Arnold Rea.

Pair White Wyandottes or Rhode Island Reds: 1, Huber Reeds; 2, Nelson Atwell; 3, Arnold Rea; 4, Gladys Chatten; 5, Edith Reeds; 6, Gladys Wilson.

Cockerel, Barred Plymouth Rock: 1, Dorothy Rea; 2, Boyd Windrim; 3, Olive Reeds; 4, Donald Siddle; 5, Gladys Chatten; 6, William Chatten.

Pullet, Barred Plymouth Rock: 1, Olive Reeds; 2, Dorothy Rea; 3, Boyd Windrim; 4, Lorna Reeds; 5, Gladys Chatten; 6, Ronald Pogue.

Trio, One Cockerel, Two Pullets, Barred Rocks: 1, Dorothy Rea; 2, Roy Windrim; 3, Olive Reeds; 4, William Chatten; 5, Ronald Pogue; 6, Gladys Chatten.

Light Colt: 1, Ronald Pogue.

Calf, Beef: 1, Donald McNevin; 2, Norman McQuade.

Calf, Heifer, Dairy Breed: 1, Fairburn Magee.

Ewe, Lamb, Short Wool: 1, Donald McNevin; 2, Gladys Wilson; 3, Ronald Pogue.

Ewe, Lamb, Long Wool: 1, Ronald Pogue.

Boys' First Aid Contest: 1, No. 5, Emily; 2, No. 9, Emily; 3, No. 10, Emily; 4, No. 8, Emily.

Girls' First Aid Contest: 1, No. 5, Emily; 2, No. 9, Ops; 3, No. 13, Emily; 4, No. 10, Emily.

School Entry: No. 5, Emily.

Three-minute Address, 11 years and under: 1, Clemet Reeds; 2, Irene Fairfield.

Three-minute Address, 12 years and over: 1, Olive Reeds; 2, Nellie Casey.

Solo Contest for Girls: 1, Jane McConnell; 2, Nellie Casey; 3, Lorna Reeds.

Mouth-organ Contest: 1, Jane McConnell; 2, Lawrence McConnell.

School Parade: 1, No. 10, Emily; No. 5, Emily; 3, No. 8, Emily; No. 13, Emily.

GAINED 10 POUNDS IN 22 DAYS

That's going some—but skinny men, women and children just can't help putting on good healthy flesh when they take McCoy's Cod Liver Extract Tablets.

Full of health and weight building substances—the proven and successful kind—the kind that are a real help to frail, rundown, skinny men and women.

Try these supremely efficient sugar coated tasteless tablets for 30 days if they don't help greatly your money will be refunded.

One woman gained ten pounds in twenty-two days. Sixty tablets sixty cents—Economy Size $1.00. Ask McDermid & Jury, Bond's, Lynch's, Giles, Drug Stores, or any druggist for McCoy's Cod Liver Extract Tablets. Directions and formula on each box.

(Please 'phone items to 1600 or 1601)

Mr. and Mrs. George Curtis, Peterborough, announce the engagement of their daughter, Eunice Mabel, to Mr. George Lewis Cole, son of Mr. and Mrs. George L. Cole, Leamington. The marriage to take place Saturday, October the sixth.

• • •

Mr. and Mrs. John Primeau of 32 Cricket Place are to-day celebrating the golden anniversary of their wedding. With members of their family, totalling thirty-five in all, they attended Mass this morning at St. Peter's Cathedral, where they were married fifty years ago. This evening, a reception will be held at their home in Ashburnham.

• • •

Mrs. H. A. Earle, Mrs. J. D. Armstrong and Mrs. J. Pritchard, all of Millbrook, were visitors to the Exhibition last week.

• • •

Miss Geraldine Glover is in the city from London for a few days and is the guest of Miss Helen Lamb, London street.

• • •

Mrs. Arthur Curry of Havelock was a visitor to the city and the Exhibition, last week.

• • •

Mr. and Mrs. Ralph Ames of Bowmanville, were guests over the week-end of Mr. and Mrs. E. W. Wood, Park street South.

• • •

Mrs. W. M. Saxby has returned home after visiting friends in Toronto and Welland.

• • •

Mrs. H. Rogers and Miss Della Rogers of Norwood were in the city last week for the Exhibition.

• • •

Mr. I. W. Lunham, who is a member of the Electrical staff of the Canadian National Railways system, is the guest of his aunt, Mrs. M. A. Errington, 291 Rubidge street, and other friends in the city.

• • •

Miss Beatrice Glenn and Miss Florence Wildman of Trent River were in the city on Friday for the Exhibition.

• • •

Mr. and Mrs. Alex Primeau and of 32 Cricket Place.

• • •

On Saturday evening, Miss Helen Lamb entertained for Miss Geraldine Glover, a bride-elect of the Month. Five tables of bridge were played. The first prize was won by Mrs. F. Hooper and the second prize by Mrs. Gerald McClelland. A gift from the guests to Miss Glover was a handsome electric coffee percolater.

• • •

Mr. and Mrs. Fred Primeau and baby, of Detroit, are in the city for the golden wedding anniversary of the former's parents, Mr. and Mrs. John Primeau of Ashburnham.

• • •

Miss Ethel McKay entertained on Saturday evening at the home of her sister, Mrs. E. E. Harvey, at a miscellaneous shower given in honor of one of the brides-elect of the month, Miss Dairy Murray. A large number of pretty gifts were presented to the guest of honor and were brought in tied in a gaily-decorated small automobile, drawn by little Ted Carruthers, dressed as a bridgroom, with a large lady doll as his bride. Decorations were carried out very daintily in colors of pink and silver.

• • •

Mrs. W. R. Stock of Belleville was a visitor to the Exhibition last week.

• • •

Mr. and Mrs. Bruce Tice of Wellington spent the week-end with Mr. and Mrs. E. W. Wood, Park Street South.

• • •

• • •

Mr. and Mrs. Sidney McFarlane, Miss Benedict and Mr. McFeeters of Ottawa were visitors to the city last week. Mr. and Mrs. McFarlane brought their son Jimmy to the Grove School at Lakefield, returning to Ottawa yesterday.

• • •

Mr. Francis Mather, long and favorably known as the city manager of Barries, Limited, has resigned his position with the firm, owing to the duties devolving on him becoming too onerous for his present strength, impairing his health during the past months to such a degree that he was forced to seek a more restful pursuit. On the eve of his leaving, Barrie's, Limited, and staff presented him with a very tangible token of their esteem and regard, accompanied by the following letter:

"Dear Mr. Mather,—Not 'good-bye' but 'au revoir,' for we hope to meet you frequently but not as closely in the daily round as has been usual.

"As a remembrance of the good times and mutual pleasure we have had, and which we feel is slipping somewhat from out our lives in as close a measure as heretofore, we wish to ask you to accept this small gift, as a little material reminder of that which commends you to us, as we think back over our work together, a gentleman always, and a straightforward, honest, loyal friend, adviser and helper to each of us, also to the firm with which we are identified.

"We trust your new position will give you a greater measure of health and happiness and that all of life's best things come your deserving way, without limit, for each of us knows how worthy you are.

"Regretting the parting of the ways.

"Barrie's, Limited and Staff.

"(Signed) Thos. Barrie, E. G. Hiland, Jas. Richardson."

Recipes for cooling beverages containing fruit juice.

Printed instructions, with sketches, of the ribbon flowers so popular for the new lingerie.

All of the instructions for camiknickers and pointed slips have been sent out, and no more are available.

This service is FREE—and by return mail.

THE MIRROR OF THE MODE
By Mary Marshall.

Roman striped belting ribbon in vivid colors was used for the hat band and belt, both of which are fastened with mother-of-pearl buckle.

The millinery store that sells merely hats will be soon as rare or the shoe store that sells only shoes or the drug store that confines itself to the purveyance of drugs. It is not merely in order to enlarge their scope and hence their profits that milliners are selling scarfs, frocks, belts, bags, etc., but because with the present desire on the part of well-dressed women to link up the various details of their costumes it is sometimes quite impossible to sell a certain hat without some other accessory to g with it. And so it is often with the shoe dealers who some time ago took to selling stockings and quiet recently have added supplies of handbags to their stock in trade. The other day one shoe dealer pleased many of his customers by selling a pair of shoes with the right sort of stockings and matching leather handbag all for a price that might have been considered no more than a fair price for the shoes alone.

I have not heard of any of the milliners who have sold a hat and a scarf or a hat and a frock let us say for the price of the hat, still I suppose it would please customers if they did. A milliner I know, however, sells complementary—not complimentary—belts to go with some of her new hats. They are made of the same belting ribbon or leather that is used to band the hat and they link up the hat and costume in a simple, satisfactory manner.

Let me tell you of a new trick that may interest you if you are buying a new fur coat or are making plans to have your old one relined. Or I should perhaps say one of your old ones, for I was told today that no woman's cold weather wardrobe was complete without at least four fur coats. This is the trick that is a good one whether you have one or a dozen coats. It is a scarf made of silk to match the lining of the coat, and some of the smart new fur coats are made with these matching scarfs so there is no reason why when you have yours lined you should not ask to have a square of the silk reserved for the same purpose. These silk scarfs are worn folded in front under the fur coat.

BLIND TAUGHT HANDICRAFTS

To Encourage Them To Have Confidence in Themselves.

MONTREAL, Que., Sept. 17 (CP).—Aware of there being sightless persons in rural sections of Quebec who have never been taught to read or write in raised type or to occupy themselves with handicrafts, the Social Service and Home Teaching Department of the Montreal Association for the Blind is anxious to have its programme known to all residents of the province who are without their vision. A. W. Chandler, supervisor of social service and home teaching for the association, declared that he knows of no fewer than 50 blind persons in small towns and villages who, he stated, "hide themselves away in corners, because they feel helpless and discouraged."

"These are the people the Home Teaching Department would like to reach," added Mr. Chandler. "And there must be many more like them, who are afflicted and whose lives would be much happier if they studied the Braille or the Moon system of reading and writing in raised type.

"They would have confidence in themselves and would be encouraged in spite of their affliction."

THE WHATNOT

A Place for Little Bits of Everything of Local Interest

By MARION

I GOT HOLD of a good book on etiquette the other day and since then have been reading everything that I should do and everything that I should not do, and, of course, I have noticed a good many faults in other people since then too. Have you ever stood in some doorway, or sitting in a car by the curb, and watched the jolting crowd, hurrying here and hurrying there? Don't you wonder, too, sometimes, if there is such a thing as good manners?

• • •

One paragraph which struck me most was one dealing with good form in speech and begins with this statement: "When men and women begin to frame their thoughts in language," writes a critic, "they depend not at all upon recorded rule and precept, not upon anything that can be taught or learned, but their thoughts or words spring out of that finer taste, which may, indeed, be cultivated and still more refined, yet which is itself the fairy birth-gift, that insures enlightenment to the possessor."

• • •

The way of saying what one has to say is a test of education and good breeding. Those who have a discriminating sense of language try to use the best words to express what is in their minds. Simple, direct words are usually the most convincing, but we know that this too is sometimes rather hard.

• • •

Self-consciousness is a very hard obstacle to overcome in the way to success. This makes one awkward in manner, frightened to death at the sound of one's own voice, and therefore timid at conversation and naturally we drop down a notch. But then there is the other kind, those people you know who always have too much to express—people who always have something really exciting to tell you, but who lack the ability of expression. This is almost as bad as being afraid to express your opinion.

• • •

There are other things too which I would very much like to whisper in some ears. After attending the Peterborough Industrial Exhibition a number of times last week, I came to the conclusion there is still quite a bit of etiquette running at large. I do wish some people could catch it! Another place in the book which I have been buried in lately, discloses the fact that it is a mark of provincialism for people to walk arm-in-arm in daytime. If a lady is old or infirm and requires assistance a man may offer his arm, otherwise it is UNNECESSARY. When a man is walking with two women in the evening, he offers his arm to the elder, and does not walk between the two, nor does he ever give an arm to each.

• • •

A man who knows the correct thing does not carry a lighted cigar or cigarette into a public conveyance or in any place where a number of ladies are. In a private home or at an evening's entertainment, he, of course, asks permission from the ladies present, and if they do not like smoke, it is up to them to say so—not complain about it afterwards, as I have heard some do. It is their privilege to say whether a man may smoke in their company, so why not use it?

• • •

Theatre and concert-going people should, too, have some knowledge of what is expected of them while there. What is more annoying than to have someone behind you, alongside of you or in front of you who continually hee-haws and whispers during the concert or while the picture is being shown? This is something, I think, which should be studied a little more, in Peterborough. If we do not enjoy the picture, we should at least feel our obligations to the people around us, and remain as quiet as possible. If people insist on being rude, it is quite proper to quietly ask them to remain quiet—but it should, of course, be asked as courteously as possible—letting them know that you are, at least, a little above their apparent objection.

• • •

When I was contemplating buying a new fall hat the other day, I was discussing with the milliner the cleaning of one which I had purchased from her before. I told her that I had thought of sending it to the cleaners', but she suggested cleaning it with dry salt, and it proved to be just the thing. A stiff brush makes the process more satisfactory.

• • •

Cold coffee is a liquid that can be easily substituted for other liquids given in the list of material for spiced cookie or cake recipes. It gives zest and a delicious flavor to the food.

• • •

The short cape, of the same material as one's dress, or of silk or wool, is smart for autumn wear and easy to make at home. I have a pattern diagram and instructions suitable for a thirty-six or thirty-eight figure.

A PURSUIT IN THE WILDERNESS.

By H. Louis Raybold.

It seemed to Alec Ballard that never had he seen so ancient a forest as this one in the depths of New Brunswick. Such giant trees, such hoary draperies of moss suspended from their gaunt limbs, such an atmosphere of desolate remoteness. He had emerged from a tangle of undergrowth to the edge of a tiny pond and had sat down to rest on a length of old tree that had crashed to earth a decade or so ago.

He had come to New Brunswick because he was afraid that if he went to Maine he might inadvertently run upon Alice Rogers at some of their old haunts, and it would be tough having to be friendly with someone you had expected to marry up until the moment you found she was engaged to somebody else. And, considering that his family and Alice's had been going to Maine together for years, the possibility of a meeting was not too unlikely to be ridiculous.

Alice—Alice—Alice— He said the dear name over softly to himself as he sat there. How suddenly all his dreams had collapsed like a pack of cards at a breath when Alice had admitted her betrothal to Bruce Forbes. The very next morning he had packed up and left home, changing his destination to no one but his mother and enjoining her to reveal it to no inquirers.

Shouldering his pack, Alec rose to retrace his way to the tributary of the Restigouche which he had followed in. Already he had penetrated as far into the wilderness as he cared to and while he had not exactly buried his love for the faithless girl there, he had brought himself during the solitary weeks into something like resignation.

Suddenly he stopped short and lifted his chin quickly, sniffing the air. Smoke! Well, if it were fire, he thought grimly, his goose was probably cooked. The little pond he had just left could be easily bridged by anyone of those huge trees, falling aflame.

Then he spied a tell-tale wisp of smoke winding among the trunks ahead, and recognized it for what it was. Some woodsman's fire.

Hurrying forward, he burst out into a tiny clearing and then fell back in thunderstruck amazement, as, one by one, he took in the group gathered over their meal. Doug Rogers, Mrs. Rogers, a guide and—Alice.

For an instant, he was terribly angry. Did they think this was Maine? Did they think they could pursue him against his will? Did they think they owned the earth? Then the absurdity of such an emotion struck him. It was a coincidence, of course, strange and explicable. Perhaps Alice, actuated by the same fears of a meeting as himself, had persuaded the others to forego Maine and try this new vacation country they had all often spoken of.

He found himself shaking hands with them all, comparing notes as to the routes they had each followed, commenting on the fishing as tried in various streams. He did not ask for Bruce Forbes although deeply curious as to that person's whereabouts.

"Our main camp is over on the Restigouche," explained Alice, whose eyes had avoided his, even when she directly addressed him. "This is just one of the side trips we have been making. In fact, we're headed back now."

The others looked at her quickly and it did not take much keenness on Alec's part to comprehend that something had happened recently to upset a previously arranged schedule.

When they started, Alec realized at once that he was being manoeuvred to the rear and that Alice was going to companion him. What was it all about he wondered? Had Bruce thrown her down? Had she found that she had made a mistake? But it wasn't because she had preferred Bruce to him that had so hurt Alec. It was because, up until the very last night, every look, every smile, every word had seemed to convey affection for him, and for him alone. If ever a girl had led a man on to thinking that she cared for him, that girl had been Alice Rogers.

And now he found himself at her side, with the others far enough ahead to be out of earshot.

"I daresay," she began, with a quick sidelong glance, "you are wondering about Bruce Forbes?"

"More likely," said Alec stiffly. "Bruce Forbes is wondering about you."

"I don't think so," said Alice with a funny little grin. Then she plunged. "Oh, heavens! I don't know why I should mind humbling myself to you after all I've done already in the humiliation line! Going to your mother and begging her almost on my bended knees to tell me where you were. Teasing my father into helping his proud daughter chase a man.

"Well, here goes! I have loved you ever since we were children, Alec. It seemed as if you were never going to let me know whether or not you cared for me. I thought you did, but I wasn't sure. Finally, on that memorable night, I was convinced you were about to propose. You didn't and I had a momentary brainstorm which cost me dear. It occurred to me that jealousy might accomplish my purpose. I mentioned Bruce Forbes—you jumped to the conclusion I was engaged to him and left me abruptly. Next morning you were gone!"

Alec looked at her aghast. Had he, so sure of himself, actually been such a hasty, blundering fool?

"Oh, my dear!" was all he could say, humbly. "Oh, my dear!"

But it served.

BUTTERSCOTCH PIE.

(Contributed by Mrs. R. for Mrs. E. R.)

2 tablespoons butter
½ cup brown sugar
1 cup scalded milk
3 tablespoons pastry flour
Yolks of 2 eggs
¼ tsp. salt
1½ teaspoons caramel syrup

Method: Cream the butter and flour. Mix the sugar, salt and lightly beaten eggs and add to butter and flour. Combine the caramel syrup and hot milk and add to other ingredients. Cook in a double boiler for about fifteen minutes or until it thickens, stirring constantly. Let it cool a little. Fill shell with filling and top off with meringue made of stiffly beaten whites of two eggs, 4 tsp. sugar and a pinch of salt. Brown in oven. To make the caramel syrup put ¼ cup brown sugar in a saucepan and stir while on the fire until it becomes golden brown and a liquid. Add gradually ¼ cup boiling water and stir until it is as thick as molasses.

BUTTERSCOTCH PIE.

(Contributed by Mrs. J. S. D. for Mrs. E. R.)

You have asked for Butterscotch pie. Here is a real good one:

2 tablespoons flour
3 parts cup brown sugar
1 egg

Beat all well together. Then add 1 cup boiling water, bring to a boil, add a nice sized piece of butter, also vanilla flavoring. Use meringue or whipped cream top.

MARION'S MAIL

Address correspondence to Marion, at The Examiner Office.

"Dear Marion:

I do hope you can use the enclosed, to help others suffering from this dread malady. Thanking you indeed for all the helps you have sent me.

Yours very truly,
Mrs. R. L."

These are the methods used in four cases of Infantile Paralysis, two in Saskatchewan, one in Manitoba and one in Ontario. There were all children ranging in ages from 2 years and 4 months (my own child) to 5 years.

In the morning bathe the arms or legs, whichever are affected, in warm water to which is added 1 tablespoon of mustard. Just throw the water on for about 3 minutes with the hands, the object being to get the pores open. Have a mixture ready, of 2 tablespoons of castor oil and 2 tablespoons camphorated oil, then pat the limbs dry and rub in the oils with a steady circular motion. My girl, being very ill, screamed terribly, and fainted, but I kept on. Then wrap the limbs in cotton batting, (sterilized) from the hips to the toes, pull on a pair of white woollen stockings, large ones, wrap in a woollen blanket, and make comfortable. The patient, if very ill, will scream and cry with the intense pain. I stopped all medicine unless a mild laxative. I gave small doses of invalid food such as beef tea, etc. Very often it was vomited, but I gave it just the same.

Then at night, bathe in hot water (not too hot) and put one tablespoon turpentine in water and after patting dry, drop a few spots of oil of wintergreen on each joint, the knee, ankle, thigh, where it joins the body and under part of hip. Wrap again in fresh cotton wool, put on the stockings, and wrap in the blanket. Now I had to do that for three weeks, each day. The first few days it was like a nightmare, but gradually you could see a change, although it wasn't until the end of the third week, that she turned of her own accord, on to her side. She had lain for three weeks on her back and only moved her head and her hands, a very little at that. Now here also is, I think, the main thing. I prayed incessantly to God for His help to direct me if I was doing wrong, as the doctor said he could not save her and would not let me rub her. But now she is 14 years old, 5 feet 6 inches in height and weighs 130 pounds. Each of the cases cured are strong healthy children, not lame, or showing any signs of ever having this terrible disease. I do hope and pray that what I have written will enable other mothers to save their children. All those cured can play baseball, climb trees, ride bicycles, and in fact, seem stronger than others.

From one who believes in the mercy of God."

I think it is very nice of you, Mrs. R.L., to pass on your experience with this dread disease. I am sure the readers sympathize with you in your trouble and rejoice that the outcome was so happy.

I have a nice letter from Mrs. D. thanking Mrs. F. M. S. for the lovely nine-day pickle recipe. Mrs. D. adds about the pickles she made from this recipe, "They are wonderful."

• • •

"Dear Marion,

You asked for ideas on making pin money, didn't you? Well, I make a bit around Christmas time coloring cards and calendars. I have time all year round for this work, but cannot find a store that will sell these goods. Occasionally through the year I sell birthday, wedding, and shower cards, etc., but the busy time is Christmas.

I really enjoy your page.

Yours truly,
M. D."

Thanks very much, M.D., for this useful hint. It is nice to know that one is in some measure independent, isn't it? Yours is such a nice hobby, too. Write to me again.

Marion

NO NAME ON COUPON

This is an SOS of my own.

Some reader sent in a coupon requesting instructions for Camiknicker, pointed slip and cooling beverages, without writing on it her name and address. The letter was mailed in Peterborough on September 10 at 4.30 p.m. The "Xs" were marked in ink after the items.

If some reader recognizes the coupon as hers, will she please supply her name and address so that the helps may be sent?

FAVORITE RECIPE.

FIG PICKLE (FROM GREEN TOMATOES.

(Contributed by Mrs. D. M., Warsaw.)

7 pounds green tomatoes cut up in small pieces
4 pounds granulated sugar
1 pint vinegar
2 tablespoonsful ground cinnamon
1 pound seeded raisins

Put all together in a kettle and boil slowly until thick. Watch that it does not burn.

FRENCH PICKLE.

(Contributed by Mrs. D. M., Warsaw.)

1 peck medium size green tomatoes
8 medium sized onions

Slice both crosswise. Place in a crock in layers, sprinkling salt between each layer, and on top. Use one cup of salt. Let stand 24 hours and drain. When well drained, put into a kettle, and pour over it 1 quart of weak vinegar, let simmer for 10 minutes, keep stirred. Then, drain and cover with good vinegar, with which has been mixed 1 pound granulated sugar, 2 tablespoons curry powder, 1 tablespoon each of cinnamon, allspice and tumeric, and 1 dessertspoon ground cloves. Let boil slowly for fifteen minutes. Keep stirred to prevent scorching. Put in a crock, cover with a plate, and then a crock-cover, and with paper or cloth tied over to insure no dust. A few pieces of horse-raddish put on top when cold, before the plate goes on, is an improvement.

So Fresh!

in packages triple wrapped

So fresh, so delicious, so different. The Baker package retains all the luscious freshness and goodness. Write for free recipe booklet to Franklin Baker Limited, Metropolitan Bldg., Toronto.

A TEMPTING DELIGHT
BAKER'S COCONUT

CO-OPERATION IS SUGGESTED

Housewives Asked To Help Corner Store Against Chains.

HON. ALFRED LEDUC

MONTREAL, Que., Sept. 17 (CP).—Taking advantage of the presence of ladies at the banquet of the Quebec provincial bureau of the Retail Merchants' Association of Canada, Hon. Alfred Leduc, minister without portfolio in the Taschereau Cabinet, appealed to housewives to do their bit for the individual storekeeper in his fight against chain store domination by adopting the cash-and-carry principle even when dealing with the corner shop.

"May I ask the ladies if they will do as much for the corner store as they do for the chain stores? When they go to the chain stores, it is little trouble for them to pay cash and to put their goods into their bag or basket and carry it home. Will they not do as much for the individual merchant? I know it is easy to take the telephone and order, but co-operation would save the individual money on his deliveries, cut his credit burden, and enable him to meet the chain stores at least on a plane of equality. And, with that, I think the individual merchant would have more than his chance, for he, by his experience and his years of trading in Montreal, knows his trade better than the chain stores ever can." The suggestion was much to the liking of the gathering and loud applause greeted it.

Just a Joke

CAN'T BE DONE

"Marie," observed Muriel, "has suffered much for her belief."

"Indeed," asked Millicent, lifting her eyebrows in polite curiosity, "What is her belief?"

"That she can wear a number four shoe on a number six foot," was the cruel reply.

WIFE SENTENCES ERRING HUSBAND

By NEA Service.

ROCKY RIVER, O., Sept. 17.—Husbands of this metropolitan suburb are watching their "P's and Q's."

It's all because of Mayor Leonard E. Weitz who recently permitted a wife to pass sentence on her husband, who had been arrested on a charge of intoxication.

Luckily this particular wife was fairly lenient. She ordered her husband to stop driving the family car for two months. "We'll see how he behaves," she said, "while I do the driving."

Boscoe was of the sea. And now, here was Luella, whom he loved, wanting to put her roots down into soil, shying away from the only kind of life that was endurable to him. At first, it was only a rift. In the end, it was to widen and finally separate them.

FOR six years, Luella had lived on her father's barge, "Cynthia." It had a one-room cabin divided by a cretonne curtain. They slept on either side of it on cots and all night long, the curtain seemed to be a living thing; animated with the breathing of the two occupants of the great hulk of a boat that plied between Brooklyn Harbor and Providence. Sometimes, a barge named "Moonrise" joined in line with "Cynthia" and aided and abetted by six or seven more of the sea-going barges, plied their coal trade as far up as Rhode Island.

A great six-foot, brawny fellow with a perpetually open shirt-front and terrific, tattooed arms, and red-brown hair that stood off at all angles, was master of the "Moonrise." He occupied its single cabin alone. He had a voice like a fog-horn. He tossed it about as the string of barges traveled at night, shouting, laughing and finally wooing.

He wooed Luella, leaping from his barge to her's with a throw of his great body that had the grace of a discobolus. Then one day, on the trip from Providence, Luella's father died of a stroke.

But Luella Loved the Land

It left her alone. Pitifully alone. With all her traditions of life in the open, Luella was a frail, yellow bit of a girl with eyes that seemed perpetually to be looking at you over the rim of a glass of milk, and a sweet, trembling mouth. Boscoe, the owner of "Moonrise", loved that mouth. He wanted to cover it with kisses. He wanted to share his barge with her, and the irreconcilable aspect of what seemed a simple enough love-affair, was that Luella loved the land. Night after night, as their barge slid softly down the gun-metal sheaf of waters, Luella sat on the deck outside the cabin, watching the lights of the houses along the banks, blink and glow from behind their shrubberies.

Anchored, rooted, stable people were behind those windows. Generations of babies had been born under those roofs. Trees had their roots in the good, rich soil surrounding those houses. Pavements ran before them and turned corners and led to more secure houses with their foundations in soil.

The only garden Luella had ever known was a geranium in a flower-pot on the window-sill of her barge cabin. Her boulevards were the soot-flecked deck that ran around the coal-bins. A cretonne curtain was the only wall she had on which to hang a picture.

Boscoe loved what he called the "landlubber" in her and it was only after the death of her father and he was entreating her to meet the situation by marrying him, that he was jerked to the realization that this seemingly harmless predilicton threatened to become an actual menace between them.

Her Yearning Separated Them

What he had thought cunning in her, now began to take on proportions that were terrifying to him. Boscoe was of the sea. Its salt was in his matted chest. The only roof he yearned was the open, star-lit one that hung over water. The pull of tides at night was in his veins. And now, here was Luella, whom he loved, wanting to put her roots down into soil, shying away from the only kind of life that was endurable to him. At first, it was only a rift. In the end, it was to widen and finally separate them.

It is more than probable that Luella had never dreamed it could happen so. Certainly it had been farthest from the simple mind of Boscoe, who loved her, and yet, night after night, as they sat on deck outside the simple cabin they called home, the yearning in Luella's heart rose like a wall between them.

Luella's heart was cast landward, so were her eyes. Little gardens within paling fences seemed to hold out their hands to her. Hands that were the shape of slim, yellow crocuses. So instead of planning, they fell to wrangling. Luella, who wanted a garden and a house built into the soil. Boscoe, who loved the sleek, slapping of water against the sides of his barge and the sense of movement, instead of soil beneath him.

It was a girl who came to visit on one of the fleet of barges for over Sunday, who finally turned the little tide of Luella's destiny. She worked in what was called a "sunlight factory" in Providence, Rhode Island. She boarded with a family who lived in a house surrounded by three acres of truck-garden. She earned eighteen dollars a week, sealing boxes that contained beaten biscuit.

Luella sold her barge, which was mortgaged almost up to its value, and with forty-eight dollars in her pocket, and a mixture of yearning for Boscoe, semi-regret and happiness at her decision in her heart, turned landward.

It is possible that Luella felt sure he would follow. In fact, she was partially right. For weeks, Boscoe battled with himself, wanting her, loving her, and yet too stubborn and too leary of the land to capitulate.

In the end, he turned sullen and drove his barge up and down in a silent kind of resignation.

Life in the sunlight-factory was disappointing to Luella. The confinement was hard on her. The companionship of the hundreds of twitting and twittering girls was monotonous and the truck-farmers with whom she boarded were a querulous, noisy lot who intruded on her privacy. The girl whose beckoning finger had led her landward, proved none too congenial because her interests were too fly-away. Luella, who loved the land, wanted to settle and enjoy it. This friend of her's, Myrtle, had no rest. She was a humming-bird of a person. To live around her, to a person of Luella's tranquility of spirit, was dizziness.

Finally, she left the sunlight-factory and went to clerk in a Five- and Ten-Cent Store on the main street of Providence. She moved her lodgings, too, where she might be nearer to her place of employment. This time, there was no garden plot around the house where she boarded. It stood flat on the sidewalk, and in the evening the boarders spread straw mats on the stoop and inhaled the stale air off the granitoid.

Myrtle, who had whirred into her life like a humming-bird, whirred out of it. After about eighteen months, Luella awoke one day to the consciousness that she was sick for Boscoe.

With the same quick decision with which she had set off landward, she now set off for the barges. A fellow named Terry, a big, gruff, good-natured ruffian of a chap who happened to be in the harbor with his flatboat, informed her that three months previous, Boscoe had gone off inland; married a girl named Myrtle and was truck-farming up in the hills behind Providence.

That same week, Luella married Terry. They live on the flatboat which plies between Providence and New York.

FANNIE HURST

RAYBESTOS IN INTERMEDIATE FINALS

BRAKELINERS WHITEWASH STOUFFVILLE 5-0 TO WIN POSITION IN THE FINALS

Carrier In Three Runs in the Seventh Inning To Take Decision.

TIGHT CONTEST.

Local Industrials Unable To Hit Early Offerings of Opposing Twirler.

Three hits in a row, one a two-bagger, good for two runs, with nobody out in the seventh, put the skids under Stouffville on Saturday afternoon, Raybestos getting another run in the inning and adding a fourth counter in the eighth, to earn a place in the Ontario Intermediate finals. The score was 4 to 0 fellow citizens, and it was some ball game.

Stouffville fans never saw its like, and at the end of an hour and twenty-five minutes of pastiming left them staggered. The youthful Cook, pitching hero of the town and district, had started off mowing down the visiting ball-tossers, making their earlier efforts at hitting the ball look extremely funny, so funny indeed, that a section of the crowd guyed the visitors with all sorts of quips relative to their eyesight, their ability to wield fence rails. And they rubbed it in. What feeble demonstrations of hitting came to pass were gobbled up by the boys behind, and there would be no runs off Cook that day.

But some there must have been who did not fail to notice that the home talent were not getting any place. Stouffville were whaling the ball at the infielders, only to be turned back off the runways. It was a new experience. Finally the crash came. The spalding streaked its crooked way at the batter, and back it went into the outfield. Three times in succession this occurred and two runners crossed the plate for the visitors. Another short session of strikeouts, another hit, another run. And as the homesters went at it again, only to find their smashes at the pitcher, third base or any other place in the infield, trapped, and the ball shot over to first, few there were who could not guess the final result.

But after all it was just baseball. Stouffville's fine young pitcher couldn't stand the pace, and he faltered in the seventh. Raybestos started hitting the ball, and the damage was done before the hitting was stopped.

Masterson struckout two batters, both in the fourth frame. He allowed but five safeties, no more than one in any innings. Moreover, the Stouffville clouters were held to ground balls which on the dirt diamond were quickly handled by the infielders. The team never played better baseball. Apart from the two strikeouts, there were forty-four fielding chances handled without a slip. Firstbaseman Barry had seventeen putouts on which there were fifteen assists.

Cook fanned thirteen batsmen and passed one. His support in the infield was faultless, on twenty-four fielding chances.

Harry Burridge and "Sailor" Barker, both of Toronto, handled the game and did their work well.

First Innings.

Hillier leading off for the Rays worked the pitcher without swinging. The count was two strikes and three balls when Cook got the third one, shoulder high. Rogers struckout and Corrin filed to the catcher.

Masterson failed to get the ball across for E. Clendenning and he walked. Rogers threw him out on the first pitch to Button, Hillier taking an accurate peg. Button was also passed, and he too, was thrown out by the catcher, who fielded his tap in front of the plate. Cook filed to Moore.

Second Innings.

Moore and Scully were struckout in quick order. Harold Nicholls drew a pass and stole second. He tried for third and was thrown out by the catcher.

Scully pegged out M. Clendenning. Smith with two strikes against him, lined to right, but the hit was wasted as Rogers threw him out going into second. Pete Clendenning lined down to Barry.

Third Innings.

Oscar Nicholls was struckout swinging. Barry gave the infield its first fielding chance with a grounder down third on which he was nailed at first on a close decision. Masterson made it six strikeouts for Cook in three frames.

Masterson threw out McFadden and E. Cook, both of whom lined to the box. E. Clendenning drew his second pass. Button took one in the ribs, putting two on. With Reesor up, Stouffville had a fine chance to score. But Masterson kept on chewing his Wrigley and the catcher's best effort was a roller to the pitcher, retiring the side.

Fourth Innings.

The Rays were batting for the second time and they commenced to hit the ball. Hillier grounded out via second and the shortstop tossed out Rogers. Corrin singled for the team's first safety, but failed to advance as Moore's drive went into the thirdbaseman's waiting hands. It was a fine catch.

Masterson got his first strikeout on Cook. M. Clendenning singled into left and made second, the throw being high. Smith popped high to Hillier and Pete Clendenning struckout.

Fifth Innings.

Scully was thrown out by the pitcher, the thirdbaseman nailed H. Nicholls at first and O. Nicholls fanned. The Stouffville infield was handling the ball without a sign of a fumble.

McFadden flew out to Moore. E. Cook was thrown out by Hillier. E. Clendenning waited and accepted his third pass, after which he stole. Button popped to Masterson.

Sixth Innings.

Barry got a single into centerfield, and the Rays were instructed to bunt. Masterson sacrificed to the pitcher, sending Barry to second. Hillier laid down another tap to the box and Barry made third. The campaign was so far successful, but Cooke put an end to it by fanning Rogers.

Reesor put down another one in front of the plate. Masterson raced in and both he and Rogers hesitated. Reesor was well on his way when Masterson picked up the ball and rifled it at Barry. The big first-baseman had to stretch to get the throw but he grabbed it and held on, and got the decision. It was fast work and one of the fielding features. H. Nicholls worked easily on Cook's crash down third, and pegged him out. Scully threw out M. Clendenning.

Seventh Innings.

Corrin broke up the game with a single between right and center. Moore singled into left. It was a fly ball, and fly-chasing in the left garden was a dangerous pastime, that part of the playing field being a dried out frog pond, making it extremely difficult to cover ground. It was time for Scully to arrive here and the second baseman doubled to center, sending in both Corrin and Moore. Scully's effort was also a fly ball which caught the centerfielder out of position. Cook recovered somewhat and struckout Harry and Oscar Nicholls, but Barry duplicated his hit of the sixth frame and Scully scored. Masterson popped to the shortstop.

Smith singled into right. P. Clendenning was thrown out by Nicholls, McFadden was tossed out by Masterson and Hillier threw out E. Cook. The homesters could not get a ground ball through.

Eighth Inning.

Hillier singled into centre, was sacrificed by Rogers, and made third on Corrin's infield out. It was a hopper down third. Moore sent up a fly into short left close to the foul line and it fell safe, Hillier scoring. Scully popped to the pitcher.

E. Clendenning got a clean double to center. The crowd asked for more but nobody could deliver. Button was disposed off by H. Nicholls and Barry took Reesor's liner. Clendenning had made third, the first Stouffville player to reach that bag. Masterson threw out Cook.

Ninth Inning.

Cook finished strong. He fanned H. Nicholls, passed O. Nicholls and struckout Barry and Masterson.

M. Clendenning slashed a drive at Nicholls and was thrown out by feet. Smith walked. Pete Clendenning raised a cheer by hitting in left, but the uproar died down when Smith trying for third was thrown out at that bag on a fine throw by O. Nicholls. McFadden ended the game with a grounder to Scully.

The box score:

Stouffville:	AB	R	H	PO	A	E
E. Clendenning, 3b..	1	0	1	2	3	0
Button, cf	2	0	0	0	0	0
Reesor, c	4	0	0	14	2	0
Cook, 1b	4	0	0	9	0	0
M. Clendenning, 2b.	4	0	1	0	1	0
Smith, lf	3	0	2	0	0	0
P. Clendenning, rf..	4	0	1	0	0	0
McFadden, ss	4	0	0	1	1	0
E. Cook, p	3	0	0	1	3	0
	29	0	5	27	10	0

Raybestos:	AB	R	H	PO	A	E
Hillier, ss	3	1	1	4	1	0
Rogers, c	3	0	0	2	3	0
Corrin, rf	4	1	2	0	0	0
Moore, cf	4	1	2	2	0	0
Scully, 2b	4	1	1	0	4	0
H. Nicholls, 3b	3	0	0	1	4	0
O. Nicholls, lf	3	0	0	0	1	0
Barry, 1b	4	0	2	17	0	0
Masterson, p	3	0	0	1	6	0
	31	4	8	27	19	0

By innings:

Raybestos . . . . . 000000310—4
Stouffville . . . . . 000000000—0

Stolen base—H. Nicholls, Reesor, E. Clendenning. Two base hit—Scully, E. Clendenning. Sacrifice hit—Hiller, Rogers, Masterson. Struckout—By Cook 13, by Masterson 2. Base on balls—Off Cook 1, off Masterson 5. Left on bases—Raybestos 5, Stouffville 8. Umpires—Harry Burridge and "Sailor" Barker, Toronto.

HORSESHOE TOURNEY BROUGHT TO CLOSE

Mayor Denne Presents Prizes To Winners—Games Keenly Contested.

The horseshoe tournament that was held at the Peterborough Exhibition was brought to a whirlwind close on Saturday afternoon. The number of entries and the keenly contested games speak well enough for its success.

J. J. John, introduced by Mayor Roland Denne, made the presentation speech over the loud speaker system in front of the grand stand, while His Worship handed the prizes to the winners.

Mr. John spoke as follows: "At the rear of the main building the Peterborough Exhibition Board have very kindly, in the interest of the community sport, made a horseshoe pitching ground. On this ground during the last three days, the Peterborough Kiwanis Club have organized and sponsored a horseshoe pitching tournament. We thank the Exhibition Board for their interests in this community sport.."

The winners of the tournament were: Breckinbridge and Bennett, who defeated Kidd and Drumm by a score of 53-47. All the games were fifty points in the finals. By winning this they are the champions and receive a handsome silver cup donated by the Fair Board, and to be won three times in succession to become the permanent owners. The winners were from Coldsprings. Also they won a pair of Kenwood blankets, valued at $20.00. The losers, Kidd and Drumm, were second, and received a $6.00 overcoat each; Brunton and Cupilo defeated Hockey and Barrett with a score of 50-30, the winners of this taking third place and receiving carving sets, while the losers took fourth place, and each received a gallon thermos jug. Bry. Fleming and B. M. Patchett defeated O. Steer and W. Dearborn 50-46 for fifth place, and won an umbrella each.

Mayor Denne, in presenting these umbrellas, said that the Kiwanis Club knew what they were doing when they chose those for prizes.

RILEY AND HICKEY DEFEATED 5-2

VIEWS ON SPORT

The first game in the C.G.E. softball finals will be held tonight at Confederation Park. Punch Press vs. Office.

The Riley and Hickey crew lost the Ontario bantam honors but they covered themselves with glory nevertheless by the great game they put up in their fixture with the Saint Francis team of Toronto on Saturday afternoon at James Stevenson Park. Defeated by a 5-2 count the youngsters sure brought down the score from the 30-0 decision suffered by them in the Queen city a week ago.

* * * * * *

Most of the credit for the victory goes to Bush, the opposing hurler who had a card of twenty-one strikeouts chalked up to his credit. In the ninth inning he pulled himself out of a tight hole by striking out the side three in a row after the bases were clogged.

* * * * * *

Walkerville eliminated Niagara Falls on Saturday by the score of 14-4 in the semi-finals of the senior O.B.A.A. The victors secured eight runs in the first inning.

* * * * * *

Bill Kay's Raybestos brakeliners, conquerors of Ontario East are in. Their great victory at Stouffville on Saturday against one of the best pitchers in the province sends them into the finals against the winner of the Leamington-Niagara Falls series. The Rays have won ten straight games, winning their series with Cognawagas to land the city title, and making it two straight against Hastings, Cobourg, Napanee, and Stouffville.

* * * * * *

There was a general shaking of hands after the game. All the Stouffville players and officers of the club, visited the Raybestos bench to congratulate the players on their fine victory and to wish them success against the western winner. And the Rays crowded about Cook to wish him well.

* * * * * *

Manager Mather had the playing field in tip top condition for the game. It is a dirt infield, and when rolled as it was on Saturday has few equals. The Stouffville Club provided capable umpires, and Joe Walsh, of the O.B.A. Executive came down from Toronto for the game. Another visitor on the Raybestos bench was Horace Walkey who came in from Oakwood.

* * * * * *

Harry Corrin would like to have all the gaves played in Stouffville. The Rays rightfielder had two hits and a run, and picked up a water-soaked ten dollar bill that had evidently been lost a long time.

GIANTS LOSE TO PITTBURGH

Pirates Aid Cardinals By 1-0 Victory Over McGraw Men.

REDS BEAT ROBINS.

NEW YORK, September 17. — The Giants dropped half a game further behind the pace-setting Cardinals yesterday, when Pittsburg opened its final eastern invasion with a 1 to 0 victory over the Clan McGraw, while the Red Birds were idle. This reverse left the struggling Giants two full games out of first place, but leading the third place Cubs by one and one-half contests.

The Cincinnati Reds opened their eastern invasion with a ten-inning victory over the Robins. Two runs in the tenth gave the Reds the game by a final score of 4 to 3.

CLOTHIERS LOSE OUT IN FINAL TUSSLE FOR BANTAM HONORS

Opposing Twirler Has Record of Twenty-one Strike-outs in Nine Innings.

INFIELDERS GOOD.

Visitors Collect Eleven Safe Hits Off Gatfield.

The hard-fighting Riley and Hickey Bantam crew went down to their second consecutive defeat to lose the Ontario bantam championship by a 5-2 score on Saturday at James Stevenson Park in a hotly contested game of hardball that reflected great credit on the local infielders, who performed cleverly on the bases, but were unable to stand up before the sterling brand of ball twirled by Bush, the Saint Francis star pitcher.

It was very apparent that Bush, who went the whole nine innings for the winners on the mound, is a hurler of rare ability, turning in a card that would have done credit to a big leaguer. He struck out twenty-one batters and issued three free passes. In the fourth, fifth and sixth innings he only faced nine men, retiring eight of them by way of the strike-out route, the other batter being out on a fly to the first baseman. With the bases loaded and one out in the seventh innings, he was steady as a rock and pulled himself out of a tight hole by again fanning three men in a row, a feat that brought him a big hand from the large crowd of fans.

Gatfield, the local pitcher, who showed exceptional ability in the city league series although pitching good ball was nicked for eleven safe hits and one free pass. He was given fairly good support from his team mates, but the winners had the knack of placing their hits on safe territory. Price on second base played a nice game, his fielding being marked by his speedy delivery to first base, a feature that aided him greatly in his assists.

Spalla, the Toronto catcher, was the only weak link in the winner's line-up, although his work at bat was commendable.

The Game By Innings.

St. Francis—Tominson struck out, also Gallagher. Roden was out on a grounder to Price.

Riley nad Hickey—Cadd was safe when Tominson failed to catch an infield fly. Asquith rolled to Bush, forcing Cadd, who was out at second. Asquith stole second and third, where he died as Reynolds struck out and Braund grounded to Tominson.

Second Innings.

Spalla fanned. Bush was thrown out by Asquith, who took Goodall's grounder also.

R. and H.—Kay struck out. Davern rolled to Bush and was out. Bailey whiffed but got a life when Spalla dropped the third strike and made an overthrow to first, the runner reaching second. Gatfield was passed, putting two on. Bailey stole third and was safe because Forsythe dropped the ball. With a runner on second and third Price fanned.

Third Innings.

Forsythe was out when Price took a hot grounder. Murphy singled. Kearns hit to Gatfield, who threw out Murphy at second. Kearn stole second. Tominson slapped a hot grounder through second, scoring Kearns. Gallagher was thrown out by Gatfield.

R. and H.—Cadd beat out a slow grounder. Asquith walked. Kay got a life when Spalla dropped the third strike, Cadd scoring. Spalal in returning the ball to the pitcher overthrew it, allowing Asquith to score. Davern struck out.

Fourth Innings.

Roden grounded to Price and was out. Spalla was an easy out, Asquith to Kay. Bush walked. Price made a nice throw to catch Goodal at first.

R. and H.—The local boys went out in Bailey, Gatfield and Price striking out.

Fifth Innings.

Forsythe clouted a clean hit into centre for one base. Murphy beat out a small hit that Gatfield was unable to gather in. Kearns sacrificed to Kay. Tominson's grounder went for a hit when Davern was hugging third base, scoring Forsythe, Gallagher grounded to Price, scoring Murphy. Roden flied to Braund.

R. and H.—Cadd popped to Goodall. Asquith and Reynolds struck out.

Sixth Innings.

Spalla hit to centre field for one base. Bush lined out to Kay, who touched his base and threw out Spalla at second. Goodall's fly was good for two bases as Reynolds failed to hold it. Forsythe struck out.

R. and H.—Bush retired three batters in order, Braund, Kay and Davern, by way of the strike out route.

Seventh Innings.

Murphy fanned. Kearns was out on a roller to Davern. Tominson was out when hit by the third strike which he swung at.

R and H.—Scollard, batting for Bailey, was passed and reached third base on passed balls. Gatfield walked also. Price bunted and was safe when Murphy threw to third, holding Scollard on. With the bases loaded. Bush struck out the next three batters, Cadd, Asquith and Reynolds.

Eighth Innings.

Gallagher was thrown out by Davern Roden singled. Spalla hit into centre field for two bases, but Reynolds' throw home caught Roden at the plate. Bush slammed out a two-bagger, scoring Spalla. Goodal was safe when Asquith made a slow throw to first. Forsythe grounded to Price to end the frame.

R. and H.—Braund whiffed. Kay was out on a roller to Bush. Davern hit a two-bagger over Gallagher's head. Scollard was an easy out, Bush to Goodall.

Ninth Innings.

Murphy singled. Kearns filed to Braund, who missed it, but caught Murphy at third. Kearns going to second. Tominson struck out. Gallagher hit into centre, scoring Kearns. Gallagher stole third and was out at the plate in an attempt to steal.

R. and H.—Gatfield fanned. Price was out on a bunt, Bush to Goodall. Cadd singled and Asquith struck out.

LEADERS WIN IN AMERICAN

Athletics Wallop Cleveland While Yankees Battle Browns.

SOX BREAK EVEN.

NEW YORK, N.Y., Sept. 17.—Lefty Grove turned all of his blinding speed and pitching wizardry upon the Cleveland Indians yesterday, defeating them 7 to 1, winning his 23rd victory and allowing the Philadelphia Athletics to maintain the pace of the New York Yankees, who beat St. Louis 7 to 5. The A's, however, are still half a game in the rear.

The victory gave Philadelphia two straight in their last invasion of the west. It marked Cleveland's eleventh consecutive loss. The series end with one game Tuesday.

Yankees 7; Browns 5.

The New York Yankees kept a tight clutch on their half game lead over the Athletics in the American League by defeating the St. Louis Browns yesterday, 7 to 5, at St. Louis.

Lou Gehrig added another homer to his belt, making a total of 24. Lu Blue, of the Browns, also hit to the bleachers in the fifth.

Twenty thousand fans saw two good pitching performances as the White Sox and the Boston Red Sox split a double-header yesterday. Chicago took the opener, 7 to 1, and Boston copped the second, 2 to 0.

Washington hammered three Tiger pitchers for 15 hits and took the second game of the series here yesterday. Goose Goslin, leading batter of the American League, slammed a home run into the right field bleachers in the sixth with Sam Rice on base. It was the only hit Goslin made and his average shrunk slightly. Sam Jones went the full distance in the box for Washington and registered his 13th victory of the season.

BISONS HOLD LEAGUE LEAD

Beat Leafs 3-2 in Important Game—Rochester Loses.

JERSEY CITY WINS.

BUFFALO, N.Y., September 17. — The Toronto Maple Leafs were pretty well buried in third place, while the Buffalo Bisons ascended to the post of honor in the sensational International League pennant race, when the men of Bill Clymer out-gamed the O'Hara tribe to score a brilliant 3 to 2 victory in the Sabbath encounter here yesterday. A throng of close to 23,000 people, shattering all local records, usurped every possible vantage point to see the well matched teams fight it out to the last ditch, with victory perching on the Bison flagstaff when two runs were pried from Don Hankins in the eighth inning.

Rochester Slumps.

ROCHESTER, September 17. — Rochester's pennant chances took a decided drop here yesterday as the Montreal Royals pounded out four runs in the fourth inning and went on to win the contest, 6 to 4. Rochester had the bases loaded in the ninth inning, but could not tie up the game as 14,000 fans stayed in their seats until the final out.

Reading Loses Two.

JERSEY CITY, N.J., September 17. — Jersey City took a doubleheader from Reading yesterday, winning the final series of the season between the two clubs by three games to one. Timely hitting behind the brilliant pitching of Brame and Horne gave the Cats the first game, 4 to 1, and the second 3 to 1.

Socks Seibold, gunning for his twenty-second victory of the reason, was winning the second tilt, 1 to 0, when the Cats bumped him for three runs on five solid blows in the sixth. Of the seven games Seibold has lost this season, four of them have been to Jersey City. Sonny Horne, opposing the veteran, allowed three scattered hits.

GO TO PROS.

WINNIPEG, Man., Sept. 17 (Canadian Press).—Three Winnipeg amateur hockey stars have decided to play in the professional game next season. They are: North Pridham, Bert While and Sammy McAdam.

They will perform in the newly-organized Pacific Coast League. White is a goal tender; Pridham, a defensive player, and McAdam, a forward.

NEW GLIDER RECORD

LONDON, Sept. 17.—A German flyer, named Nohring, has established what is claimed to be a new world's record. At Cherbourg, recently, he flew nine miles in a glider.

SID HAL WINS IN 2.10 CLASS AT EXHIBITION

Best Racing of the Week Was Seen On Saturday Afternoon.

LARGE CROWD.

2.20 Class Is Forced To Five Heats To Declare a Winner.

The strongest competition of the three-day racing program at the Peterborough Industrial Exhibition was to be seen in the 2.20 and 2.10 classes on Saturday afternoon, with the former going five heats to declare a winner and the latter four. Lena Marquie won the 2.20 and Sid Hall the 2.10. Every heat was a real race, with four of the five horses entered in the 2.20 class being winners. Lou Grattan, owned by C. Schooley, made a strong bid for first place in the 2.20 class, and was only put out by a nose.

The track on Saturday was heavy after Friday night's rain, and hence the time of none of the heats was as fast as on Friday, when four heats were done in 2.14. The largest crowd at the Exhibition was on the grand stand to watch the races, and every onlooker got the full value for his money.

A feature of the race was the appearance of Louis Bennett, the veteran race horse man from Port Hope, who was seriously hurt in Belleville several weeks ago. The horses were good and the drivers none better, with the result that the races were most interesting from the spectators' viewpoint.

Peggy Allerton won the first heat of the 2.20 class, with Minnie Patchen second, Lena Marquie third and fifth, and Lou Grattan fourth. First money of the $500.00 purse went to Lena Marquie, second to Lou Gratton, third to Peggy Allerton, and fourth to Minnie Patchen. The first heat was the fastest, being done in 2.18.

Four horses entered the 2.10 class, Sid Hal, after taking fourth position in the first heat, when his sulky became locked with Jack Abbe's, won the next three heats and first money. King Gratton won the first heat and second money, with Jack Abbe taking third and Peter Direct fourth. The third heat, made in 2.12¾, was the fastest of the race.

2.10 Class.

Sid Hal, Dr. Whitley, Goderich	4	1	1	1
King Grattan, J. Wellwood, Merlin	1	2	2	4
Jack Abbe, J. Akey, Peterborough	2	3	3	2
Peter Direct, L. Bennett, Port Hope	3	4	4	3

Time—2.19, 1.15, 2.12¾, 2.17.

2.20 Class.

Lena Marquie, W. McPherson, Smith's Falls	2	3	1	2	1

CHICAGO GOLFER TAKES HONORS

Miss Virginia Wilson Wins Canadian Women's Golf Championship.

PLAYED AT MONTREAL.

MONTREAL, Que., Sept. 17 (Canadian Press).—Canadian women's golf laurels will rest in Chicago for the next year. The mid-western United States city can lay a double claim to the honors. It was Mrs. Lee Mida, of Chicago, who eliminated Helen Payson, of Portland, Me., the defending champion, from the tournament, and it was Virginia Wilson, of Chicago, who captured the crown in the 36-hole final at Beaconsfield Saturday when she defeated Peggy Wattles, of Buffalo, 5 and 4.

Playing magnificent golf in the morning round, Miss Wilson went around in an approximate 79 and had the match virtually won at the half-way mark when she was leading the Buffalo girl, six up. Miss Wilson could do little that was wrong on the first 18 holes of the match and on the few times that she did stray from the line she recovered with magnificent shots. The most spectacular of these was at the ninth in the morning when she carried the green after driving her tee shot to a hanging lie on the side of a bunker. In the afternoon round the Chicago girl added to her margin, increasing the score to eight up at the 28th. Needing only a half on one of the remaining eight holes, Miss Wilson weakened. Her lapse gave Miss Wattles her first real chance of the match to win holes. The Buffalo girl took three in a row, keeping the game alive until the 32nd green before conceding the title to Miss Wilson.

GOLF.

Club Championship—Quarter Finals.

J. W. McDermid vs. J. Green.
R. Abbott vs. Dr. McPherson.
F. M. Delafosse vs. A. Mowat.
F. Green vs. H. Bradburn.

This round must be played on or before Monday, September 24th.

Two-Ball Mixed Foursome

Mrs. E. H. Wood and C. Webber vs. Mrs. L. W. Scott and P. Bond.
Mrs. Roy and G. H. Lyons vs. Mrs. Reynolds and V. J. McElderry.
Miss Hatton and W. C. Ackerman vs. Mrs. G. Wood and J. Green.
Mrs. Carmichael and J. W. McDermid vs. Mrs. B. H. Hall and O. A. Degraw.
Mrs. Blaiklock and C. H. Ackerman vs. Mrs. C. Graham and Mr. Stratton.
Mrs. Wearing and C. Graham vs Miss Rush and W. F. Huycke.
Mrs. Jamieson and Dr. McPherson vs. Mrs. Vernor and W. M. Sangster.
Mrs. Potvin and G. Monkman vs. Mrs. Grant and Dr. Wood.

This round must be played on or before Wednesday, September 19th. No extensions of time beyond that date will be allowed. Players will take alternate strokes.

If either team incurs a penalty stroke such as driving out of bounds, etc., his or her partner plays the next stroke; e.g., if the gentleman drives out of bounds from the tee, the lady plays the next shot from the tee. This makes a third shot for this team.

Please Note

Your team handicap is ¾ of the difference of the total handicap of the teams. If fraction comes to ½ or over, take the stroke.

Mrs. Brown, handicap	36
Mr. Smith, handicap	20
Team handicap	56
versus	
Mrs. Jones, handicap	20
Mr. Roberts, handicap	22
Team handicap	42

Difference in handicaps, 14 strokes; ¾ of 14 is 10½. The Jones-Roberts' team gives the Brown-Smith team 11 strokes, to be taken at holes as indicated on score card.

GOLF TOURNAMENT TO WIND UP SEASON

Six Clubs of District Arrange Competition For Next Saturday.

At a meeting recently held at Cobourg at which representatives from Peterborough, Oshawa, Port Hope, Belleville, Cobourg, and Trenton golf clubs were present, arrangements were made to hold a field day at Cobourg on Saturday, September 22nd.

There will be eighteen holes of medal play starting at 10 a.m. and the participating clubs will send a list of their players entering with their handicaps, so that the draw may be made without undue delay. Clubs may bring as many players as they wish, and suitable prizes will be given.

The intention is to form an association of the six clubs concerned and have a field day once a year, the tournament being at a different club each year.

Meals may be obtained throughout the day at the Cobourg Club.

This tournament will make a fitting finale to the splendid golfing season, and any Peterborough players who desire to take part in the tournament are requested to get in touch with the local club captain, A. J. Reynolds, of the Canadian Bank of Commerce. It is naturally desired that names of the competitors be received as soon as possible.

C. G. E. WON GORDON CUP FROM DE LAVAL

De Laval Team Held Winners Scoreless in First Half—Chances Missed.

ONE GOAL TO NIL.

Parkins Headed Goal—Hanson and Dyer Hit Posts—A Hard Battle.

One goal to nothing was the verdict of a hard fought soccer cup tie on Saturday afternoon between the De Laval and the Canadian General at King Edward Park before a fair attendance. A mistake by Curtain who played a great game at left half, gave the winners the decision.

President Vincent Stewart, in the absence of the donor of the Cup—G. N. Gordon—presented the trophy to Captain Blowers for the 1928 season.

Mitchell kicked off for the Canadian General, with the wind favouring his side, and the De Laval goal was at once raided. Brugess beating the defence on a close tackle the defence closed in upon him to nullify his progress Bromley relieved the pressure by carrying the ball up the field and transferring the sphere to Frank Dyer, who missed the post by inches.

Blowers Tried Hard For Goal.

Time and again the C.G.E. left half would go down the pitch with the ball, to bang it over the bar. On one occasion, he sent a lightning drive towards the goal but Fowler grasped the sphere with both hands in mid-air. Throw-ins now dominated the play in which the respective teams had an equal share. Then the C.G.E. forwards endeavored to gain the lead through A. Mitchell when Clark centred into the goal but his team-mate's effort went skywards.

Dyer Missed With the Head.

On mid-field tactics Watkins gained possession near the half field line to run into the flag in the corner where he outwitted the full backs with a twisting shot that failed to meet the cranium of his versatile centre-forward; while Ernie Hanson was a little too small to divert the ball into the net. From the goal-kick, Laidler sent Clark away on the wing who made a great opening for his mates but to his surprise witnessed a poor attack, because Downer and Cross repeatedly beat them to a standstill inside the goal area and they held them scoreless, in spite of the fact, that the attacking forwards had the win in their favor. While this was being enacted the De Laval were doing likewise at the other end.

De Laval Defence Solid.

In exchanges that followed for a time there was nothing to enthuse over, but over eagerness on the part of players in trying to get a goal that never materialized. Just before the interval, the Canadian General added pressure to their attack but the opposition defence never faltered in the pinches that followed as the forwards hovered around the citadel of the De Laval. A corner kick in favour of the winners was taken as the whistle sounded half time— no scoring.

HALF TIME.

After a well merited rest the players lined up, and the first brush saw the C.G.E. ground invaded, but Fred Dyer missed a great chance to put his team ahead when he was right through the defence; instead of putting the ball past the goal keeper, he shot it into his hands. Then a foul against the De Laval relieved the pressure. They came back again in a combination attack that caused the opposition lots of trouble. Westwood nipped an attack cleverly, carried the ball up-field where he left Mitchell in possession who travelled at a fast pace for De Laval goal, but he spoiled his opening by pushing Bromley aside. The resulting free kick was punted back by Blowers, who seemed contented with close passing this half.

Two Openings in Two Minutes Lost.

Inside two minutes, Fred Dyer had the goalkeeper at his mercy, but at the crucial moment he slipped the ball on the wrong side of the upright. Play ran from end to end with neither side gaining anything worth while. Then Brugess broke into the picture with a smart run on the left that finally tested Fowler at a close range. A foul followed that caused some anxiety to the De Laval until Downer cleared up-field. For a while there was a lot of free kicking for foul play, and offside and of real football we saw little.

C.G.E. Got An Easy Goal.

A smart tackle by Mann frustrated a De Laval attack. He passed the ball out to Burgess who made tracks for goal and he never gave up in his effort to get a goal from a lifted ball into goal mouth. Curtain headed the sphere out from gaol but Parkins' cranium nodded it past Fowler for the winning goal.

Hit the Bar Twice.

From the centre kick De Laval became dangerous, and Blowers conceded a flag kick that ended in a scrimmage in front of goal. It finally went to Hanson who drove hard for goal but his parting shot hit the upright, then Pulley struck the same post and Dyer met the rebound with a fast drive for gaol. Everybody cried "goal," but they were bewildered when Bolton grasped the ball.

Forwards Versus Defence.

As time went on, it was a battle between the Canadian General defence and De Laval forwards, who did everything but score. The losers made desperate efforts to get the equalizer and only the call of full time robbed them of another chance for the silverware Full time—Canadian General 1, De Laval 0.

Goal scorer—Parkins.

De Laval— Fowler, goal; Downer and Cross full-backs; J. Mitchell, Bromley and Curtain halves; Watkins, Fred Dyer Frank Dyer, Pulley and Hanson forwards.

Canadian General— Bolton, goal; Westwood and Gelletley, full-backs; Houston, Mann and Blowers, halves; Clark, Parkins, Mitchell, Laidler and Burgess forwards.

Referee—Alex. McKinley.

Cochet Is Favored To Defeat Hunter

PARIS, Sept. 17 (Canadian Press).—Henri Cochet is favored here to defeat Francis T. Hunter to-day in the finals of the American national tennis championship at Forest Hills by odds of as much as two and three to one. Never before, even in the hey-dey of the Tilden-Lacoste rivalry, when the French and American aces were engaging in their bitterest battles, have the French taken a keener interest in a tennis match in the United States.

A group of rabid supporters of the French champion Saturday night made the rounds of the places where American tourists gather, offering the long odds on Henri's chances but few backers of Hunter were found.

BOBBY JONES RETAINS HONORS

Crushes Champion of Great Britain 10 Up and 9 To Play.

ONE-SIDED MATCH.

BY ALAN J. GOULD
Associated Press Sports Writer

BRAEBURN COUNTRY CLUB, Newton, Mass., Sept. 17—(Canadian Press).—The rather stoutish but exceedingly business-like young man who dominates American links strode up and down the hills of Braeburn Saturday, wielding a niblick that dealt death and destruction to the hopes of British golf in general and the ambitions of Thomas Phillip Perkins in particular.

While a pop-eyed gallery of some 6,000 spectators scrambled to watch him in astonishment, Bobby Jones crushed the champion of Great Britain, 10 up and 9 to play, in the most one-sided match for the amateur championship of the United States in thirty three years.

The great Georgian, reaching a higher pinnacle of achievement than ever before in his amazing career, thus completing his ruthless march to a fourth national amateur title in five years and his eighth triumph in six years in either an American or British national tournament.

Perkins, the first Briton to reach the American finals since Harold Hilton was victorious in 1911, was no match for Jones yesterday. The promise of a keen title fight, indicated by the brilliant manner the youthful Englishman had won his way to the finals, was quickly dissipated. Whether it was because he could not forget the 13 and 12 thrashing he absorbed two weeks ago at the hands of Jones or whether the tension of the title match was too much for him, the invader's game went almost completely to pieces.

Perkins won only two holes, the first and seventeenth. His approximate medal score, at best, was 17 strokes over par for the 27 holes while Jones was exactly even with standard figures.

NIAGARA FALLS TEAM HERE NEXT

Will Play Raybestos On Wednesday in Ontario Final Series.

Niagara Falls who on Saturday eliminated Leamington, 1927 Intermediate champions, in two straight games, will be here on Wednesday afternoon to meet Raybestos in the opening game of the Ontario finals. The game will start at four oclock, and will be played at James Stevenson Park.

Right now Raybestos are a great baseball team. They have been good all season, and the team did not falter against the remarkable pitching of Cook, the Stouffville star, who has few, if any superiors, in the O.B.A.A.

On their record of ten straight wins, the Rays should be given a big crowd on Wednesday. The second contest will be played at Niagara Falls on Saturday.

Bowling

The following games are scheduled for to-night:

Doubles—7.30.

G. Coleman vs. J. Cullen.
J. McDonald vs. J. Maynecard.

Singles—7.30.

Sloane vs. Glover.
Sexsmith vs. Parkins.
Taylor, G., vs. Petrie.
Chenhall vs. Fallon.
Johnson vs. Hill.

Singles—8.30.

Taylor, E., vs. Dyer.
Grant, A., vs. Kay.
Dawson vs. Curvin.
Oke vs. Fitzpatrick.
Coleman vs. Clegg.

WARKWORTH

Misses Lillian and Lila Jewell have returned after spending a couple of weeks in Toronto.

Mrs. Jack Leonard has returned after spending a week in Detroit, Michigan.

GRAND TRUNKS WIN SLUGGING MATCH

Defeat Bell Telephone, T. A. B. A. Champions, in Toronto Park.

TORONTO, Sept. 17.—Belleville, Central Ontario League winners, got the jump on the Bell Telephone, local representatives in the first of home and home games in the O.B.A.A. semi-finals at Conboy Park on Saturday, when they came out on top by a 12 to 8 count, in an old time slugging bee.

Both "Lefty" Wright and Utronki who started on the mound, were hit hard and were relieved in the sixth frame. While both clubs collected the same number of base knocks, the visitors produced theirs at opportune times while the locals fell down badly in the pinches, leaving six stranded on the paths in the fifth and sixth and twelve altogether.

The losers started off with a counter in the first frame and four in the third and looked to be well away but the visitors, who had been pecking away at Wright, broke out in the fourth, fifth and sixth for ten runs, as many hits and several errors causing the debacle.

Second Hurlers Best

Carlton and Gibson, the relieving hurlers ,were much better than their predecessors, the former allowing but two runs and the latter none.

Jennings, Thompson and W. Mills were the big hitters with three hits etch. Daly, R. Scott, Ross and H. Mills drove out a brace of hits apiece, the latter geting a homer on one of his that hopped through the picket fence. A. Scott and Blakely featured in the field. The return game is in Belleville on Wednesday. The score:

Belleville	AB.	R.	H.	PO.	A.	E.
R. Scott, 3b.	4	2	2	0	3	6
Weir, 2b.	4	3	1	3	1	0

RUGBY.

There will be an open practice in Central Park Tuesday evening at 5.30 sharp. All those interested in playing rugby this fall are asked to turn out.

The suggestion has been made to have two teams, Intermediate and Junior O.R.F.U. Any who are eligible for either team will be welcome.

Melchett Only Peer Who Can See Effigy

London, Sept. 17 (By the Canadian Press).—Lord Melchett, formerly Sir Alfred Mond, is the only peer who, strolling down to the House of Lords by way of Millbank and Avingdon street, can salute his own effigy.

The new Mond Building (the headquarters of Imperial Chemical Industries, Ltd.) in Millbank is now rapidly approaching completion, and the removal of the scaffolding has revealed the impressive head of Lord Melchett carved in gleaming stone above the central doorway. It looks out across the river with an Olympian calm, and small boys, touring London during their holidays, speculate as to whether it is an allegorical head of Father Thames until they catch sight of the carved lettering "Alfred Mond."

This portrait head in stone is one of a series adorning this building which is the latest of London's architectural monuments. The others are such great chemists as Priestly, Alfred Novel, Lavoisier, Liebig, McGowan and Ludwig Mond.

Trent River

(Examiner Correspondence.)

TRENT RIVER, Sept. 17.—A meeting of the Fish and Game Protective Association was held Thursday night at the home of John Ruttan, for general business and the election of officers for the coming year.

Heavy rains fell for two successive days, accompanied by high winds.

Strawberries Ripe.

James Dunn has picked ripe strawberries in his garden the past week, the berries were the ever-bearing variety.

Personals.

Mr. and Mrs. John Armstrong left for Havelock Friday from spending the summer at "Lazy Lodge."

Dr. and Mrs. Foster left for New Jersey, Friday morning from spending a week at Mr. Brewster's cottage.

Miss Florence Wildman attended Peterborough Exhibition on Friday.

Mr. E. H. Fairbrother arrived Thursday from Toronto to spend over the week end with Mrs. Fairbrother.

THEATRES

AT THE CAPITOL.

All roads will lead to the Capitol to-night—"RAMONA"—the record breaking picture of this or any other year, will be the attraction, two shows each night at 7 and 9. Miss Geraldine M. Collins, Gold Medalist and Scholarship Winner at the Toronto Exhibition will sing "Ramona" at the evening performances.

Manager Stewart, of the Capitol expects to break all local attendance records with "RAMONA" which opens a three-day engagement at that popular theatre to-day. "Ramona" has been breaking attendance records everywhere, and Peterborough should be no exception. As an added attraction, Miss Geraldine M. Collins (vocal), Gold Medalist and Scholarship winner at the recent Canadian National Exhibition, and pupil of the studios of Dorothy Allan Park of this city, will sing "Ramona" at the evening performances. In order to accommodate the crowds there will be three performances daily, at 2.30 in the afternoon and at 7.00 and 9.00 in the evening. We would advise as many as possible to attend the matinees or come to the seven o'clock performance in the evening, thus avoiding the crowds.

AT THE REGENT.

"7TH HEAVEN SURPASSES EXPECTATIONS, GREATEST PICTURE OF MANY YEARS

Neither the advance reviews of the Fox Films publicity department nor the reviews of New York and Los Angeles critics will fully prepare the local audience who witness the first showing of "7th Heaven" at the Regent to-night, for the sheer beauty, fascinating interest and gripping heart appeal of this marvelous picture.

If a picture can be perfect then this picture is. Story, photography, direction, acting—none of these have been surpassed and never found in such marvelous blending in any other one film. This story of the little street waif, Diane, and the Paris street cleaner, Chico, with their friends, the cab driver, the "rat," the street washer and the priest, is a thing that will stick in your memory after many other pictures yet to be seen in the years to come will be forgotten. And those twin stars newly blazing in the cinema firmament, Janet Gaynor and Charles Farrell, with what heart reaching sincerity do they play their parts! What actress now playing could so win the hearts of an audience as does the wistful little Janet Gaynor, with her smile bravely struggling through her tears, her frail body bowing beneath the whip of her absinth maddened sister, or at last working and waiting for that remarkable fellow, her Chico? And great as is the interpretation of the role of Diane by Miss Gaynor, it is equaled by that of Charles Farrell in the part of "Chico." He of the valiant heart, and the gay laugh, who dared to make a contract with God win a heaven on earth for himself and his beloved.

But every actor in this remarkable entertainment is splendidly cast and plays his part with a sincerity that touches the hearts of the audience.

There is Gladys Brockwell as the underworld sister of Diane, Ben Bard as Colonel Brissac, David Butler as Gobin, George Stone as the sewer rat and Albert Gran as Boul. And while the war scenes are incidental to the telling of the story, still that dash of the Paris taxicabs through the hail of steel to the rescue of the city is one of the most stirring scenes ever filmed.

Then there is the photography. How marvelous that episode showing Chico leading Diane, flight after flight of steps up to the "7th Heaven." But there is so much of beauty of story and incident in this picture that it can only be suggested in review.

AT THE GRAND.

ROMANTIC COMEDY AT HIS MAJESTY'S IS WELL RECEIVED

In these days of indifferent musical comedies, plays concerning sex complexes and the fetish of the stage for gutter language it is more than refreshing to witness a performance such as offered by Gordon McLeod at the head of his own company when he opened his tour of Canada last night at His Majesty's Theatre with the inaugural play, "Miss Elizabeth's Prisoner" a revival of a romantic comedy of colonial days which met with great success in London some years ago. The story takes place during the stirring times of the American Revolution and the play is sprinkled with redcoats, rebels, duels and charged with an element of drama, as well as comedy and love.

The work of Gordon McLeod is well known to Montreal theatregoers who have more than once applauded his fine art with Sir Martin Harvey and he has established himself as a fine actor again last night and earned the undoubted appreciation of the first night audience. Rather longer than the average play of 3 acts "Miss Elizabeth's Prisoner" was somewhat draggy at the start, but the atmosphere quickly changed to tense drama with the quality of the work contributed by the principals of the cast and the interest and action was thereafter sustained throughout.

Mr. McLeod as ever is the master of his art rather than the slave of his art. His performance last night brought him further laurels as he demonstrated that power of his for vivid, colorful yet controlled dramatic effects, and above all for the intense gripping quality of his work that brought him homage even before he became head of his own company. The enthusiasm with which the audience last night received the initial offering is another tribute to the mastery of this famous actor for judging the play by its own merits its lacks many necessary essentials.

More than ably supported by Miss Lillian Christine, Mr. McLeod with the rest of the well balanced cast were successful in entertaining the large house last night for a period of some four hours, and any one present will admit that there were very few uninteresting moments, so well was the material handled by these excellent performers.

Constantly enriching the whole play, Miss Christine brought an unfailing verve and quality to her work. Hers was a difficult role last night, one that demanded a constant clash of emotions of pride, kindness and something akin to cruelty or rather strength, she carried off the part of the haughty Elizabeth very well indeed.

The plot of the play is simplicity itself and one that might be expected when the story concerns those exeited years when the American colonies struggled for independence.

There is the rebel hero played by Mr. McLeod, there are the Loyalists of whom Miss Elizabeth is one of the strongest, there is the proud Colonial gentleman who fights these "dem rebels sah," and a number of comedy characters.

The last act is particularly effective, not only for the quality of the work of the cast but as much for the excellent settings. The scene is the living room of an old Colonial country mansion, and the artistic staging and lighting work produces an illusion of delightful charm and comfort.

To the supporting cast this commentator pays a sincere tribute for the quality of their work which at all times was devoid of a single jarring note. Excellently trained and with proper restraint there was the feeling that each knew and enjoyed his role to the utmost, and every part was given its genuine interpretation. In the prologue Stanley Browne does good work as the hearty Irishman. Philip Reeves gave a natural interpretation of the history book Tory of stubborn Loyalist strain. Olive Walter as the romantically inclined aunt provided some excellent bits of entertainment and received a generous meed of applause from an appreciative audience. Aubrey Mallalieu as the colonial farmer gave a good piece of characterization.—Montreal Herald.

The above play will be seen at the Grand Opera House, Thursday, September 20.

The Bureau of Labor Statistics says carpenters are earning $1.36 per day in Belgium, $1.82 in Italy, $1.86 in Germany, $2.96 in England and $10.16 in the United States.

TRAFFIC COMPLAINT SYSTEM PROMISES TO BE SUCCESSFUL

Motor Vehicles Branch Believes It Will Improve Conditions On Roads.

MUST BE SIGNED.

Spite Reports and Those of Chronic Grouches Will Be Shown Up.

TORONTO, Ont., Sept. 17.—(Special to The Examiner)—The Department of Highways has announced the establishment of a bureau of complaints in the motor vehicles branch, the avowed purpose of which is to supplement the work of the highways traffic officers and municipalities police throughout the province in maintaining law and order on the streets and highways. This new bureau is prepared to receive and deal with genuine reports from responsible parties of actual occurrences in which traffic regulations have been disregarded or other evidence given of careless or reckless driving.

Every man his own traffic cop is the aim of the new bureau. Cards have been prepared for the reports and have been made available at all police stations and at the offices of the motor vehicles branch. These cards are of postal size and on the address side are printed for delivery to the registrar of motor vehicles at Toronto. The reverse side has blanks for the plate number of the offending car with the year of its issue, the state or province, the time and date of the offence, the place where it occurred, the type of vehicle, and the nature of the offence.

If the complaint is made by a motor vehicle operator his driver's license number must be filled in on the card and his address stated, together with the date of making of the complaint.

These details required allow for a number of different check-ups. The sore head chronic complaint will soon be recognized by the number and the nature of his complaints and they are likely to receive little attention. Any effort to wreck a personal spite will become apparent through the checking up of the names and addresses of the complainants.

As cards are received at the motor vehicle branch at Queen's Park they are to be filed but first complaints will not be followed by summons or prosecutions unless the nature of the offence is very serious or there has been an accident as a result of the breach of the Highway Traffic Act. As the complaints are received and filed the presence of previous reports on the same car license number will be disclosed and the owner of the car must then account for the way in which the vehicle is driven on the highways.

"I believe the bureau is going to work out very successfully," declared one of the officials of the Department, of Highways to-day. "The scheme has actually been in working order for several days and the system has been tried out far enough for us to feel that it will work a great improvement in the conduct of drivers on the public highways. It is well known that the presence of a traffic officer in the neighborhood does a lot to cut down minor violations of the regulations and if the reckless driver, the man who cuts in and out without regard to the safety or convenience of other drivers, for instance, feels that he is likely to be reported by any driver whose car he endangers, there will be a much smaller tendency to take long chances."

Already there have been a number of complaints registered and with one or two exceptions they deal with reckless cutting in during heavy traffic hours. No summonses have yet been authorized as a result of the complaints, but several are pending. The department will retain the necessary legal staff for the prosecution of the cases where the work will add materially to the duties of Crown Attorneys, or where no such official is immediately available the department is considering the possibility of making the cards much more easily available, and the announcement of further places at which they may be obtained may be expected within the near future. At the department the hope was expressed that every motorist who wishes to see traffic conditions brought to the highest possible degree of safety would avail himself of the first opportunity to get some of the cards and would carry them in the pocket of his car so they might be on hand for the emergency when one arises.

East Emily

Mr. J. Carrol was the guest of his mother last week, coming from U.S.A. by way of airplane.

Mr. and Mrs Harold Forsythe and baby, Miss Jean MacMillen, and Messrs Roy and Victor Fee, all of Detroit, spent the holiday with the latter's parents, Mr. and Mrs. Samuel Fee.

Miss Velma Lowes, of Peterborough, is spending two weeks' vacation with her parents, Mr. and Mrs. Harry Lowes.

Mr. Kenneth Jackson, of Detroit, spent the holiday with his parents, Mr. and Mrs. Herb. Jackson.

Mr Clifford Jackson, of Peterborough, spent Sunday under the parental roof.

Mr and Mrs. Walter McGregor, and son, of Bobcaygeon, spent Sunday at the home of the former's sister, Mr. and Mrs. George Carew.

Miss Wilma Skuce, of Peterborough, spent the week-end as the guest of Mrs. A. Rutherford.

Mr and Mrs. Bernie Barrett were guests at the home of the former's brother, in Douro on Friday.

Mr. and Mrs. Melville McBrien entertained a number of their friends at their home on Wednesday evening. An enjoyable time was spent in cards and dancing.

Mr. and Mrs. Everett Harrison spent a few days last week attending the C.N.E. in Toronto.

Miss Alta Moncrief spent a few days with friends at Orono.

Little Miss Jean Fee, daughter of Mr. and Mrs. William Fee entertained a number of her playmates at a birthday party at her home on Saturday afternoon. The kiddies enjoyed a pleasant afternoon when various games were played.

Quebec Mine Shares Lead Trading To-day

TORONTO, Sept. 17.— (Canadian Press.)—Granada Rouyn and Newbec were the outstanding issues on the Standard Mining Exchange to-day, each of these stocks selling well over 100,000 shares .Granada opened at 31 and eased off to 30½, fractionally lower than Saturday's close, while Newbec was unchanged at 52. Malartic failed to retain its increase of the previous session and suffered a relapse of forty ceints to sell at 1.76, and Lake Shore was 25 cents lower at 22.25. Other gains and losses were about equally balanced and were more of a minor nature. Sherritt Gordon was off ten at 6.70, Kirkland Lake nine at 160, Teck Hughes five at 8.90, and Pioneer Mines 2¾ at 45¼, Hollinger regained some of its heavy losses and was up fifteen at 8.60. Sudbury basin was up 26 cents to 6.65.

Favorable Weather Sends Wheat Down

CHICAGO, Sept. 17 (Canadian Press).—Influenced by reports of favorable weather for the Canadian harvest, wheat prices here went downgrade early to-day after a show of firmness at the start. The initial gains were associated with unlooked for upturns in quotations at Liverpool. Opening unchanged to ½ cent higher, Chicago wheat later declined all around to well below Saturday's finish. Corn started ¼ to ⅜ cent up and subsequently kept near to the initial range. Oats were firm. Provisions held about steady.

Opening prices were: Wheat, September 110, December 114⅝. Corn, September 104½, December 77¾. Oats, September 41⅝, December 42¼.

Oils Feature Session Of Toronto Exchange

TORONTO, Sept. 17 (Canadian Press).—Oils continued their strength and activity at the morning session of the Toronto Stock Exchange to-day. Prices in this section were on the whole higher than their close on Saturday. British American, with the heaviest trading on the market, remained strong and closed for a gain of a half at 41½. International Petroleum, selling well over 3,000 shares, jumped 1⅝ to 40⅞, McCall two to 33, Imperial 1½ to 77, and Foot Hills 50 cents to 5.00. Brazilian Traction resumed some of its old activity to-day when with a heavy turnover it advanced two points to 61. City Dairy continued to increase in price, going from 64 to 67, closing at the latter for a gain of three points. Page Hersey and Massey Harris were both active. Hersey gained 2¼ and Massey Harris one at 44½. International Nickel was easier all morning, dropping to 127 with a loss of ¾, while the rights were down 10 cents at 6.80.

Hiram Walker's led the brewery stocks, gaining one point to sell at 63 while Carlings was down one at 30.

News From the Mines

Through
Solloway, Mills & Company

Newbec

TORONTO, Sept. 17.—The strength in this issue on Friday may be attributed to a report from Rouyn that 6 feet of very high grade ore was cut by diamond drilling at a depth of 250 feet. This was reported to be considerably east of previous drilling.

Noranda

Our field man reports that the "B" ore body at Noranda was encountered in crosscut a few days ago on the 625 foot level, and that crosscutting is now in progress to the same level on the seventh, eighth and ninth levels. No dimensions or grade of ore as yet has been made public.

Thompson-Cadillac

Regarding Thompson-Cadillac, a well-known engineer made the following report for us:

"Development to date includes a three-compartment, vertical timbered shaft to a depth of 315 feet with stations cut at the 150 foot and 300 foot levels.

"On the 150 foot level approximately 275 feet of crosscutting has been employed in locating No. 1 and No. 2 veins and in exploring adjacent areas. Three hundred and seventy-five feet of drifting has been accompanied on these veins. These veins are from one to five feet in width of dark, glassy quartz with porphyritic intrusions, containing mineralized streaks of sulphides and some very fine free gold. The porphyry vein margins are sheared and show sulphide mineralization.

"On the 300 foot level some 325 feet of crosscutting and 375 feet of drifting has been done in opening up the No. 1 and No. 2 veins. The veins on this level are of the same general character as on the 150 foot level, but appear to gain in size with depth, No. 2 being said to have a width of 16 feet. The probability of such enlargement at depth is reasonable to assume.

"Due to the fact that the assay plant has been in operation but a short time, assaying of drift samples is considerably behind in actual mine operations. A mine official states, however, that such assays as have been run from the first level drifts were low but encouraging, and that channel sample assays from the second level drifts, taken over a stoping width of 5 feet were satisfactory. The existence of any commercial ore in quantity is now known at this time.

"Formation consists of finer sediments with conglomerate and narrow bands of porphyry and greenstone. A wide body of talc-chlorite schist has been crosscut on the 300 foot level.

"This property is being operated with a force of forty men. A commendable amount of work has been accomplished for the period of operation. The present plant is capable of operating three machines two shifts a day and of extending operations to a depth of 500 feet if necessary."

5TH PETERBOROUGH TROOP

The Fifth (All Saints') Troop and Pack were at camp in Horse Show Park, Cobourg, lent to them by J. D. Hayden of Cobourg.

The camp, which was for fourteen days, was very much enjoyd by all the boys. Patrol Leader Johnson proved himslf the best ring thrower in camp, and Patrol Leaders Roy Hope, Barclay McKone, and Arnold Smedmor proved themselves very good cooks, with the Scout Master as chief. Jack McKone and Jack Ackerman were able salesmen of soft drinks, etc.

The Wolf Cubs found great fun in letting the tents down, but when they found out that they had to put them up again, they did not like it. It was said that the Scout Master was pulled out of bed thrpe times in one night; such is camp life. Scoutmaster Harry Wilks was very pleased with the way the boys played up to him and thinks that they are very near as good as the Irish Boy Scouts.

The troop wishes to thank Mrs. Hope, Mr. and Mrs. McKone for the way they worked for the camp. Nothing was too much for them to do and nothing was too good for the Scouts and Cubs. The success of the camp is due to the way they helped the Scoutmaster.

The troop also wishes to thank Mr. John, Mr. Ackerman, Mr. Dickin, Mr. Turner and Mr. Smedmor for taking them to camp, and for the way in which they helped the camp; also all others who helped the camp.

The troop has now started its winter's work, also the Wolf Cubs will welcome any boy over eight years of age. The Scouts meet Tuesday night at 7.30; the Wolf Cubs on Friday night at 7.15, in All Saints Parish Hall.

J. J. DUFFUS TAKES COURSE IN ART OF JUDGING PLOWING

Attends Gathering of Judges To Discuss Standards.

BEING HELD AT LONDON.

The farther J. J. Duffus retires from the farm, the closer he approaches it.

Proof of this paradox is his attending in London this week a short course of instruction in the judging of plowing, conducted by the Ontario Department of Agriculture. It is more than instructional, because this class of arbiters of the art of "sod-busting" is composed of men who have had abundant experience in this essential of agriculture and who have also studied and analyzed it to determine the elements of its technic, of its craftmanship. These referees are to decide and agree upon the rules of the game, to secure uniformity in their interpretation and application. This may be stretching the analogy too far, because there is no code of written rules in plowing as there is no athletic contests like rugby and baseball.

Nevertheless, it was evident to the Department that, since the plowing match had established itself as an important and useful feature in the life of rural Ontario, there should be agreement among the judges as to what constituted proficiency in plowing. They are to decide what good plowing is, and this consensus is to be the working basis, the unwritten rules for the plowing matches in Ontario this Fall.

Mr. Duffus is recognized one of the best judges of plowing in the province. He has officiated from New Liskeard in the northern clay belt all the way down to the Ottawa Valley and here and there across the province from east to west. And there is nothing he undertakes into which he puts as much enthusiasm as into this work of presiding at plowing matches.

This does not mean that he is infallible, that every person at a match is bound to agree with his decisions. Mr. Duffus would be the first to acknowledge that he is a long way from such perfection, which is not of this earth. It simply means that this duty has a powerful appeal to him, and that to do it conscientiously and well, requires the closest attention and concentration. He not only makes awards, but explains them, not merely to set forth his reasons but through a desire to be helpful to those who hear him.

So, since Mr. Duffus left the farm as a young man he has been steadily getting back to it. Presumably he served an ample apprenticeship in the furrows of his father's land in Otonabee, not so far from that prophet of good plowing, the late Joshua Smithson. At any rate, he went into business with Duncan Drummond selling plows and other agricultural gadgets, and although he launched out into the selling of automobiles, he retained his association with the land by selling tractors which were built for speed and "turnover" with little regard for the old ideals of straight furrows and the other purposes of intelligent plowing and now he goes from intensive business discussions with sales representatives of the automobile company of which he has the district agency to an intensive course in the judging of plowing.

A most unusual hobby! Still, the past president of the Ontario Plowmen's Association should keep his hand in the game, and if he serves as a judge this Fall his decisions will be supported not only by authority, but by the fullest knowledge he could obtain.

Cavan

(Examiner Correspondence.)

CAVAN, Sept. 17.—Mr. and Mrs. Jas. Paul were visitors to Peterborough on Thursday.

Messrs. Herb and Kenneth Syer, and the Misses Lillian and Helen Syer returned on Thursday evening from the Syer-Dyment wedding in Dundas, having visited friends in Hamilton, en route. The trip was made by motor.

Messrs. F. and R. Staples attended Peterborough Fair on Thursday.

Master Clayton Fee, East Emily, is visiting relatives in Cavan.

WEDDING BELLS

BACON—COURNYEA.

A quiet but pretty wedding was celebrated at St. Peter's Cathedral last week when Marie Cournyea, eldest daughter of Mr. and Mrs. Noah Cournyea became the bride of Mr. Clarence Bacon, eldest son of Mr. and Mrs. Thomas Bacon, Wescott street. Rev. Father Costello officiated. The bride looked lovely in a frock of sand georgette and large picture hat of mohair, with shoes and hose to match. She carried a bouquet of pink and white asters with baby breath and maiden hair fern.

Miss Margaret Cournyea, sister of the bride, was bridesmaid, wearing a shell pink georgette dress with small white hat and shoes and stockings to match. Her bouquet was of gladioli and baby breath.

The groom was attended by his brother, Roy Bacon. Later at the bride's home a dainty wedding breakfast was served to about forty guests.

The bride and groom left later for a motor trip to Montreal, the bride wearing a frock of Nile green and small sand hat and coat to match. On their return they will reside in Peterborough.

LUCAS—O'CONNER
(Contributed.)

DETROIT, Mich., Sept. 17.—On Wednesday, Sept. 5, at 9 o'clock, a very pretty and interesting autumn wedding was solemnized at Most Holy Trinity Church, by the Rev. Father Heenan in the presence of a large gathering of friends and relatives when Miss Marie Alta O'Conner, daughter of Mr. and Mrs. Maurice O'Conner, of Detroit and who are former residents of Ennismore, became the happy bride of Mr. Joseph F. Lucas, of Detroit and a native of Downeyville, Ont.

The bride looked charming in a handsome white satin gown in full train. She also wore a long veil and carried white roses and Baby Breath. She had two bridesmaids and a flower girl, the former being her sister, Miss Agnes O'Conner, and her cousin, Miss Mary Ellen Ducie, of Toronto; her sister wore a dress of orchid tulle and satin with hat to match and carried yellow roses, while her cousin, Miss Ducie wore a very pretty dress of peach taffeta and tulle with hat to match and carried pink roses.

Her little cousin, Margaret Marie Shappee was the flower girl and she performed her duties admirably; she was dressed in pink taffeta and carried a large basket of roses. The bride's mother, Mrs. O'Conner, looked lovely in black crepe satin and wore a corsage of beautiful pink roses. The two ushers were the groom's friend, Neil Kennedy and his cousin, Charles C. Meehan.

During the Nuptial Mass, which was chanted by Rev. Father Heenan, the choir rendered some beautiful and appropriate selections. At the conclusion of the ceremony the bridal party left the church amid showers of rice and confetti, after receiving congratulations from a throng of well-wishers and repaired to the home of the bride's parents, where about thirty-two guests, including Rev. Father Heenan, sat down to a full course dinner served by the caterers, and where the day was happily spent. At 8 o'clock that evening a large reception was held in the Mosswood Apartments hall, where the bride and groom received the guests which numbered about a hundred and twenty-five. Luncheon was served and dancing was indulged in for a couple of hours, the music being furnished by Miss Ruth Sackrider and Mrs. Norman Jackman on the piano and Charles C. Meehan on the violin. Later the bride retired to her home where she changed to her traveling costume which was a very pretty crepe and velvet treo tan, with small velvet hat and her shoes to match. The happy pair left on the midnight train for Toledo, Cleveland, Rochester, N.Y. and New York City. They will also visit the old home town, Lindsay and the home of the groom's parents at Downeyville, Ont., and on their return will be at home to their friends in Detroit about Oct. 1st.

The presents they received were the admiration of everyone, being both costly and useful, as well as beautiful.

During the preceding weeks of her marriage she was given several showers by her girl friends, some of which were linen, kitchen, miscellaneous, etc., and was feted by her many friends.

The groom was also surprised by his boy friends in the shape of a stag party and presented with a beautiful lamp. Those from a distance at the wedding were the groom's parents, Mr. and Mrs. John C. Lucas, Downeyville, Ont.; Miss Carmelita O'Neill, Downeyville; Mrs. J. J. Cadigan, Ennismore; Stephen Harrington, also of Ennismore; Mr. and Mrs. Kevin Kirby, Chatham, Ont. The groom's gift to the bride was a handsome onyx ring, set with diamond.

(Examiner Correspondence.)
BRENNAN—DUBEAU

HAVELOCK, Sept. 17.—A pretty wedding was solemnized at Sacred Heart Church, Port McNichol on Monday, September 3rd, when Dorothy Marie Rose Dubeau, youngest daughter of Mr. and Mrs. Isaac Dubeau, became the bride of Mr. Charles R. Brennan, son of Mr. and Mrs. Reginald Brennan of Havelock.

The ceremony was performed at nine o'clock, the Rev. Bernard Doyle, of Victoria Harbor, officiating.

The bride who was given in marriage by her father, looked charming in a sleeveless gown of ivory taffeta with skirt of French tulle and velvet petals, long veil of silk net with cap effect caught with orange blossoms and rhinestones. She wore long kid gloves, white kid shoes with rhinestone buckles and carried a shower boquet of Ophelia roses, lily of the valley and maiden-hair fern. She was attended by Mrs. Albert Armstrong, of town, wearing a sleeveless gown of apple green satin, the dipping hem line being lined with gold crepe de chine, mohair hat and shoes to match, and she carried yellow 'mums.

Twin niece and nephew of the bride acted as flower girl and ring bearer, the former dressed in pink flat crepe and carrying a basket of butterfly roses and baby breath, while the ring bearer was attired in blue velvet and white satin. Mr. Albert Armstrong, uncle of groom, acted as best man. The ushers were Messrs. Edmund and Norman Dubeau, brothers of the bride.

The groom's gift to the bride was a fox fur, to the matron of honor an aquamarine pendant, to the flower girl and ring bearer, signet rings with initials engraved, and to the best man a white gold Waldemar chain.

After the ceremony a reception was held at the home of the bride's parents and later the happy couple left on a short wedding trip, spending part of their honeymoon at the family cottage, "Algrada," at Trent River, the bride travelling in a green dress coat with fox fur and accessories to match. On their return they will reside in Havelock for a short time.

Obituary

JOSEPH LUNDY.

The death occurred yesterday at his home, 340 Aylmer Street, of Joseph Lundy, a life-long resident of Peterborough. There are left to mourn his loss, two brothers, William of Peterborough and Richard of Toronto.

The funeral will take place on Tuesday afternoon, September 18, from Comstock's Funeral Parlors.

The United Church of Canada, and particularly the Home Mission Department of that Church's work, has suffered a severe loss by the death of Rev. John H. Edmison, D.D., which occurred on Saturday evening at his residence, 78 Hogarth Avenue, Toronto. The loss is all the more severe following, as it does, the death of Dr. C. E. Manning, the other Secretary of the Home Mission Board, which took place less than two weeks ago in Vancouver. The removal of these two men, able and experienced men both of them, has temporarily left without an executive head the largest department of the missionary work of the United Church.

Dr. Edmison left a sick-bed and set out for Winnipeg to present to the General Council the Report on Home Missions. At Parry Sound he was forced to leave the train and return home. His condition at first was not considered serious, but toward the end of last week a change for the worse came, and early on Saturday he lapsed into a state of coma, passing away shortly after 7 o'clock that evening.

Graduate of Queen's.

Dr. Edmison was born on the old Edmison homestead, near Peterborough, in 1871. He attended the Peterborough Collegiate Institute, proceeding from there to Queen's University, where he graduated in both Arts and Theology. Dr. Edmison was always an enthusiastic Queen's man, taking an active part in her affairs, and was a member of the Board of Governors up to the time of his death. As a mark of appreciation for his invaluable services to the Church and nation, Pine Hill College, Halifax, conferred upon him the degree of Doctor of Divinity in 1920. Dr. Edmison held two pastorates—both in Ontario—Cheltenham and Kincardine, in both of which places his ministry is remembered with gratitude. While minister of these charges, he served as Secretary of the Augmentation Fund of the Presbyterian Church in Canada. His experience in this work nourished his sympathy for all his fellow-ministers, a sympathy which never slackened, and which was to be one of his outstanding marks as an official of the Church. From Kincardine he was called to be Secretary of the Board of Home Missions, which office he held for some fifteen years before Union in the Presbyterian Church and since Union in the United Church.

For a period he served as Secretary of the Church Union Committee, carrying with ungrudging spirit a double load of responsibility, a load, as it now appears, far beyond his strength to carry. There can be no doubt that his early death is the result of a too close devotion to the interests of the Church. No Church ever had a more capable or more self-forgetful servant—ever ready to help a brother or serve the good cause. There is a great company of men up and down the Dominion who will mourn for him as for a dear and prized friend.

Dr. Edmison was a great Canadian. He knew Canada as few know it, having travelled it in its length and breadth many times. He was enthusiastic about the future of Canada, and gave his best that the best hopes of those who love Canada might be realized.

Dr. Edmison leaves to mourn their great loss, his wife, who was Miss Lilian Fitzgerald of Peterborough, who buried her father only a week ago, and three children—two sons and one daughter. The eldest son, Alexander, after graduating at Queen's, is studying law at McGill University; the younger son, Harry, is a student at Jarvis Street Collegiate. The daughter, Helen, a graduate of the University of Toronto, holds a position in the Presbyterian Hospital, New York.

The funeral will take place from North Broadview United Church on Wednesday at 3 p.m. Interment will be made in Peterborough on Thursday upon the arrival of the C.P.R. noon train.

JOHN McKEE.

John McKee died suddenly yesterday morning at his residence, 188 Perry street. He had been in his usual health and worked on Saturday. His wife predeceased him by six years. He is survived by three step-children, Miss Elizabeth Ann Sullivan, Mrs. Charles Parkes, and Alonzo Sullivan, all of Peterborough.

The funeral will be held to-morrow afternoon, with interment in Little Lake Cemetery, the Rev. William McDonald officiating.

MISS MARY BEST.

LINDSAY, Sept. 17 (Special).—Miss Mary Best, a well-known resident of this town, died suddenly at the residence of James A. Cain on Saturday evening. The deceased was an aunt of Thomas Best, of Peterboro, with whom she formerly lived.

RICHARD ELMHURST

Richard Elmhurst passed away at the family residence, Otonabee, township on Sunday night, September 16 in his 44th year.

He was born in Otonabee and was very well known throughout the community also in the horse racing circles throught Ontario.

He leaves to mourn his loss a sorrowing wife, one daughter, Isobel of Toronto, two sons, Roy of Toronto and Jack at home, also his mother and father, Mr. and Mrs. James Elmhurst, one brother, Harry and one sister, Mrs. Jennie McIntyre, all of Otonabee township. The funeral will take place at 3 p.m. Tuesday September 18th from his late residence to Keene Cemetery. The Rev. J. D. McNeeley of Keene United Church will conduct the services.

FARMER KILLED AT PORT HOPE

James Pratt Thrown From Wagon When Cattle Take Fright.

SKULL FRACTURED.

James Pratt, aged 63, a resident on the Telephone Road about four miles east of Port Hope met a tragic and sudden death on Saturday on the streets of Port Hope when he was thrown from a cattle wagon which he was driving. Mr. Pratt was taking two cows to the C.N.R. station, standing in the rack with the cattle. When they were going under the C.N.R. viaduct, the cows took fright at a train passing overhead. They reared in the wagon, knocking the rack off and throwing Mr. Pratt to the ground. Mr. Pratt struck his left shoulder and head on the pavement when he fell.

He was taken to the hospital in a semi-conscious condition and it was found that his skulll was fractured and several ribs broken. Everything was done to save the man's life, but he died soon after he entered the hospital.

A tragic part of the whole affair was that the accident occurred directly in front of the funeral of a Port Hope boy who had met a like fate in Toronto, where he was struck by an automobile and had his skull fractured.

The deceased was one of Hope Township's most popular farmers. He is survived by a widow, three daughters, and one son.

Although the London County Council has provided homes for 26,000 people, the Bishop of Southwark recently asserted that there still are 100,000 people in the metropolis unsuitably housed.

Women begin to show its ravages
before they realize it!

THERE'S the pity of it—constipation undermines its victims by stealth. Slowly—steadily the body poisons absorbed into the system steal away charm and ceaselessly gnaw the very roots of health.

Well does your doctor know the danger of habitual faulty elimination. He will tell you that insufficient roughage in the diet is one of the chief reasons for constipation.

Eat Post's Bran Flakes *every day*. Here is that roughage so necessary in regaining regularity for those afflicted with constipation. There's a tempting flavor in each crisp, golden flake—a flavor millions enjoy.

Make this two weeks' test and note the difference

Constipation must not be neglected. Start a two weeks' test now. Order a package of Post's Bran Flakes from your grocer.

Start by eating a dish of Post's Bran Flakes for breakfast. Eat it as a cereal with milk or cream. You will like it as well as any cereal you ever tasted.

Do this every day for two weeks. We predict you will find a real difference in the way you feel, and that you have been "regular" all the time.

But don't stop at the end of two weeks. Eat Post's Bran Flakes *every morning for health and regularity.*

Post's Bran Flakes is sold by all grocers in a wax-wrapped package. Ready to eat.

It is dangerous to experiment with patent medicines and drug laxatives. They bring only temporary relief and may make matters much worse. Ordinary cases of constipation brought about by too little roughage in the diet should yield to Post's Bran Flakes. If your case is abnormal, don't experiment. Consult a competent physician.

STORM KILLED 25 AT MONTSERRAT

Island Government Reports Today On Havoc Wrought On Thursday.

LONDON, Sept. 17 (Canadian Press).—Twenty-five deaths on the Island of Montserrat of the Leeward group in the Caribbean during the tropical hurricane were officially reported to the Colonial Office to-day. Fifty persons were injured. All casualties were among the natives.

The island, which is about 250 miles south-east of Porto Rico, in the direct path of the storm, was hard hit. All Government buildings were damaged, many estate were levelled and two-thirds of the peasant houses were destroyed.

Two Die at Palm Beach.

TAMPA, Fla., Sept. 17 (Canadian Press).—A wireless despatch from West Palm Beach, picked up by the local station to-day, said two persons were killed and fifty injured in a hurricane which struck that section last night.

The despatch added that an unconfirmed report from Boynton, south of there, said 40 persons were buried in the Scull building, which collapsed. Another report from Dasyville said several negroes were dead.

DONATIONS MADE TO EXHIBITION

Several Citizens and Firms Contribute Substantial Cheques.

Expressing their confidence in the Peterborough Industrial Exhibition and hoping that it will make as rapid strides in the future towards the establishing of a first-class agricultural exposition, several local men during the past week handed cheques to the Board of Directors. Some of those who made contributions are: Toronto Savings and Loan, $250; H. A. Morrow, $100; J. K. Hughes, $50; G. W. Hatton, K.C., $50; A. Brown, $25, and Selkirk and Elliott, $25.

CRASH KILLS TWO.

Passengers Die and Pilot is Badly Hurt in Plane Accident at Flint.

FLINT, Mich., September 17 (Canadian Press). — Two passengers were killed and the pilot seriously injured when an airplane went into a head spin while attempting a landing here yesterday, and fell from an altitude of 2,000 feet. Donald Gary, 18, and Harold Graham, 24, both of Flint, are dead.

Campbellford

(Examiner Staff Correspondence.)

CAMPBELLFORD, September 17.—Mr. and Mrs. F. C. Long and family of Mapleville, R.I., and Mr. and Mrs. Bert Smith are the guests of Mr. and Mrs. Charles Long.

Mr. Alfred Senior, Toronto, was the guest of his sister, Mrs. John Macoun, Frank Street.

LOTTERY PRIZES GO TO WORKERS

Chinese Laundrymen Among 20 Winners in Mexican National Draw.

MEXICO CITY, Sept. 17.—(Canadian Press).—Two Chinese laundrymen, two gasoline station employees, a Syrian peddler, a woman fruit vendor and fourteen others, most of them clerks and industrial workers, yesterday won 40,000 pesos (about $18,000) each in the Independence Day drawing of the National lottery.

DECK HAND HURT

Man Falls Into Hold or Steamer and Sustains Serious Injuries.

SAULT STE MARIE, Ont. Sept. 17.—(Canadian Press)—Cecil Chapman, 20, a deck hand on the steamer Anna C. Minch, was seriously injured yesterday when he fell 28 feet into the hold while the ship was near Whitefish. The ship was turned back to the Soo and a doctor summoned by wireless. The doctor boarded a tug and met the steamer near Iroquois Point and Chapman was brought here. The full extent of his injuries is not yet known.

CHILD STRANGLED.

Cord Used To Tie Toronto Baby in Crib Causes Her Death.

TORONTO, September 17 (Canadian Press). — The infant daughter of Mr. and Mrs. Arthur Dingman was found dead in her crib to-day, accidentally strangled by a bath robe cord which had been used to tie her so that she would not fall from her crib.

LACHANCE IS SENT TO INSANE ASYLUM

Man Who Caused Cobourg Mystery, Committed To Institution To-day.

COBOURG, Sept. 17.—(Canadian Press).—John H. Lachance, who was charged with the theft of a watch and who has been in jail here since he was brought back from Woodstock in company with a young boy, Pat Taylor, this morning was committed to an institution for the insane, when he was brought before Magistrate W. H. Floyd for trial. He had been examined by Dr. T. S. Lapp, a local physicial, whose report was accepted by the court.

NO TRACE FOUND OF MISSING SAILORS

SHAREHOLDERS APPROVE MERGER OF BANKS

Commerce Votes In Favor

No Dissenting Votes Recorded At Largely Attended Meeting.

85 PER CENT VOTE.

Changes in Bank's By-laws To Allow Election of Six Directors Ratified.

(Special to The Examiner).

TORONTO, Ont. Sept. 18.—A meeting of the shareholders of the Canadian Bank of Commerce held today ratified without a dissenting voice the amalgamation of the Standard Bank with the Bank of Commerce. Permission was also given for a change in the by-laws governing the bank making possible the addition to the present directorate of six members of the present Standard Bank directorate.

The Bank of Commerce issued this statement:

"Following a meeting of the shareholders of the Canadian Bank of Commerce held today to ratify the proposal for union with the Standard Bank of Canada it was announced that votes representing 169,905 shares were cast in favor of amalgamation without a single dissenting vote. This number of shares is about 85 per cent. of the total outstanding and largely exceeds that legally required—two thirds of 133,334 — to ratify the deal proposed by the directors of the two institutions. The very large number in favor of the amalgamation is evidence of how the proposal is regarded by the bank's shareholders as a whole, for there is a wide distribution of the shares, not only throughout Canada but in other countries as well."

Sir John Aird, president, was elected chairman of the meeting.

In the proposed merger the Standard Bank will lose its identity in the Bank of Commerce.

It was announced some time ago that sufficient proxies had been obtained to make the merger possible and the meeting to-day gave the necessary formal approval to the proposition.

The Bank of Commerce has agreed to acquire the assets of the Standard Bank, payment for which is being made by the assumption by the Bank of Commerce of all outstanding liabilities of the Standard and delivery of 48,234 fully paid up shares of $100 par value of the Bank of Commerce for distribution to the Standard Bank shareholders on a share-for-share basis

PETERBOROUGH GOES ON AIR NEXT WEEK

Wednesday, Sept. 26 Chosen As Date For Local Program.

By mutual agreement with the Satin Finish Hardwood Flooring Company, Limited, and Station CKGW, the city of Peterborough goes on the air the evening of September 26, which is to be known as "All-Peterborough Night."

Accepting the invitation as contained in The Examiner of the 15th, numerous citizens have sent in requests for favorite numbers, to be played by the Satin Finish Hardwood Flooring Concert Orchestra. To make this in reality "All-Peterborough Night," citizens are expected to lend a hand in choosing the program. The requests should be sent in promptly in writing to the Chamber of Commerce, 358 George Street, or the Dorothy Allan Park Studio, 338 Rubidge Street.

The Chamber of Commerce has been successful in obtaining, through the courtesy of Station CKGW, the services of the "City Service Cavaliers," recognized as one of the finest quartettes used by the National Broadcasting Association.

There is every indication of an enjoyable program during the evening of the 26th, and citizens are advised to have their "machines" in first-class order, which will enable them to enjoy every bit of it.

DIVORCEE STRANGLED.

BOSTON, Sept. 18 (Canadian Press)—Mrs. Elizabeth Rosborough, 48, a divorcee, was found stranged to death in her attic apartment in the south end last night. Neighbors told police there had been a "party" earlier in the day and officers were seeking a man named "George," supposedly one of those present.

Invents Typewriter For Composing Music; Will Type the Most Complicated Melodies

PARIS, September 18.—Will symphonies and sonatas of the future, not to mention blues and ragtime, be written on a typewriter? Will the Beethovens of to-morrow dictate to a stenographer or the Irving Berlins whittle their creations to the clicking of a machine?

Paul Bonnard, a Paris lawyer, thinks the answer is in the affirmative. He has just obtained a patent on a typewriter for writing music. According to the inventor, the most complicated music may be recorded on his machine just as effectively and much more rapidly than by the old style of writing it out by hand. By the Bonnard system each note in the octave is replaced by a letter. A figure on the left would mark the first note of an octave, while a figure on the right would indicate the tempo. The inventor declares that twelve letters and an ordinary set of figures are all that are needed to record the most intricate musical composition.

In announcing his invention to the world M. Bonnard says that he expects to hear much criticism and doubt expressed, but holds himself at the disposition of all inquirers. In addition to being a lawyer M. Bonnard also holds the degree of Doctor of Philosophy.

He throws doubt on the usefulness of his invention by the statement that the widespread use of his typewriter would lead to the production of much more music, apparently placing emphasis on quantity rather than quality. But, he argues, the same can be said to the effect of the ordinary typewriter on the production of literature.

COURT ACTION IS ORDERED BY HEALTH BOARD

M. O. H. To Institute Proceedings To Enforce Board's Orders.

FOR CONVENIENCES.

Milk Report Shows Higher Butter Fat Content Than Usual.

Dr. T. W. H. Young, City Medical Health Officer, was instructed this morning at the meeting of the Board of health to take court action against those who have refused to carry out the orders of the board in regards to installing sanitary conveniences. Those who have been the most flagrant and have been defying the board for a number of years will be the first against whom open proceedings will be taken.

The milk report for the month of August showed that the milk of one vendor had a slight sediment and that the butter fat test in all classes were much higher than usual.

The report from the Queen Mary hospital for the month of August gave five in the hospital when the month opened, two of them being out of the city patients. Of the city cases, one had diphtheria and two chicken pox. During the month one was discharged leaving four in the hospital on the first of September.

The Board decided to take immediate action in cleaning up Ware street and the M.O.H. was instructed to notify all those who have no sanitary connections that they must be installed. Numerous applications were made from all parts of the city by people who are not able to pay for the installing of sanitary conveniences but are applying to have the work done by the city five year payment plan.

CONVICTS REBEL AT STATE PRISON

Extra Guards Required To Keep Order in Maryland Institution.

BALTIMORE, M.D., Sept. 18. — (Canadian Press.)—Threats of a general strike at the Maryland State penitentiary here were made to-day by prisoners following a near riot last night.

Guards at the institution were doubled and more than a score of policemen from the Baltimore City Department were called to aid in preserving order.

A riot was started during the dinner hour last night, but the guards herded the 800 prisoners into their cells before the disturbances had assumed serious proportions. Officials of the prison had a recent report absolving officials and guards of charges that cruel and inhuman treatment was responsible for the riot.

WINDMILL PLANE LANDS.

CAPE GRIZ NEZ, France, Sept. 18 (Canadian Press).—The first windmill plane to cross the English Channel landed near here at 11.05 a.m. to-day, piloted by its inventor, J. De La Cierva. The plane hopped off from Croydon, Eng., this morning and carried one passenger.

Fire Truck Tumbled Into Welland Canal

ST. CATHARINES, Sept. 18.—Answering a call to a house at lock 21 the Thorold motor fire truck plunged into the Welland Canal yesterday afternoon. Chief Ekins and Driver C. Allan went into the water with the truck, but were able to swim ashore without injury. Other members of the brigade were able to jump clear before the truck reached the water. The truck was recovered with the aid of a steamer in the canal. The damage to the house was not serious.

MEDALS GIVEN C.N.E. WINNERS

Singers and Violinist Repeat Test Pieces at Concert Last Night.

MADRIGAL CHOIR SINGS.

(By Jeanette)

The hall of the Conservatory of Music was filled last night for a very enjoyable concert given by the Madrigal Singers, under direction of Mrs. Dorothy Allan Park, and the winners of medals at this year's Musical Contests of the Canadian National Exhibition. The singers made a lovely group in their white gowns, the program was very bright and attractive, the audience appeared to enjoy every number presented, and a great deal of applause, with insistent encores for the soloists, was vouchsafed each selection.

Captain J. S. Atkinson of Toronto was down for the occasion and presented the medals to the lucky contestants. He proved to be a very likable chairman and had a great many nice things to say about the Madrigal Singers, the solo prize-winners and their teachers. He also spoke with much commendation of the work of the accompanists, Miss Agnes Best of Toronto and Miss Gwen Donley of Peterborough.

Mrs. Park referred to the 'perfect' accompaniments provided for the soloists during the competition by Miss Agnes Best, who was present lats evening and played for the solo numbers, also providing a second piano accompaniment for the choral selections.

In his remarks regarding the medal winners, Captain Atkinson praised each one in very complimentary terms, adding a special word of explanation about the work of Miss Margaret Dickson, who, through an unfortunate slip on the part of the adjudicators, was missed out of the list of finalists, according to the initial proclamation. That it was their intention to include Miss Dickson in the final test was explained later when Dr. Healy Willan asked for the "bird voice," as he termed Miss Dickson's singing, and the other adjudicators agreed that they also were waiting to hear the same singer. Miss Dickson, who had been disappointed in the beginning of the evening, when she thought she had been left out of the final tests, was complimented by the speaker on later winning second prize under such trying circumstances.

The Madrigal Singers acquitted themselves splendidly last evening, showing a great deal of hard work and intense application to the tuition of their teacher, Mrs. Park. Their program was bright and attractive and included a number of dainty madrigals, which were well sung in every instance. They have attained a nice tone balance, with

INSANITY PLEA IS EXPECTED AT TRIAL OF ROBERT CHILDS

Pleads Not Guilty To Aiding and Abetting Sweetheart's Suicide.

TRIAL OPENS TO-DAY.

Jury Selection Takes One Hour—Mr. Justice Fisher Presides.

WOODSTOCK, Ont., Sept. 18 (Special to The Examiner).—Robert John Childs, survivor of an alleged suicide pact, stood before Mr. Justice Fisher in the prisoner's box at the Fall Assizes of Oxford County, and through Arthur G. Slaght, K.C., today pleaded not guilty to aiding and abetting the suicide of Gertrude Yelland of Ingersoll.

The young lady was Child's companion on a motor ride from which she did not return alive, August 20. At an inquest into the 19-year-old girl's death, Childs told of obtaining chloroform with which the couple proposed to end their lives. The girl alone died, and Childs faced a murder charge, which was subsequently reduced to that of being accessory to the suicide.

Childs was smartly dressed in blue with a gay handkerchief in his breast pocket and looked with interest on the selection of a twelve-man jury from the more than fifty men called. He whispered instructios once to his associate counsel, A. S. Fergusson of Woodstock.

Lieut.-Col. J. Keiler MacKay was the special Crown prosecutor, prepared to meet the plea of insanity, which it is expected will be the defence. Nine witnesses were called by Col. MacKay. Childs had been standing an hour before the jury of ten farmers, one merchant, and a clerk were sworn.

Col. MacKay traced the friendship between Childs, 20, and Miss Yelland, 19, describing them as lovers, perhaps, and at any rate very great friends.

26 Known Dead.

NEW YORK, Sept. 18.—(Canadian Press.)—The known dead of the tropical hurricane to-day stood at 626. It was estimated that more than 1,300 persons had perished. Death toll:

	Known.	Estimated
Porto Rico (U.S.)	300	1,000
St. Groix (U.S.).	6	
Martinique (Fr.).	3	
Guadeloupe (Fr.)	235	300
Mont Serrat (Br.)	25	
Nevis (Br.).....	13	
St. Kitts (Br.) ..	6	
Florida	38	

VISCOUNTESS SAILS FOR ENGLAND SOON

Lady Willingdon Will Sail at Week-end—Back in November.

OTTAWA, Sept. 18 (Canadian Press).—Viscountess Willingdon will leave on Sunday for Quebec, where she will embark for England on the Empress of Scotland, returning on the Duchess of Athol on November 9.

TYPHOID AT DUNDAS.

Outbreak of Fever Causes Great Anxiety in Town.

HAMILTON, Ont., Sept. 18 (Canadian Press).—An outbreak of typhoid fever at Dundas within the last few days is causing much anxiety among health authorities there. Yesterday nine cases were reported and to-day two more were added to the list. The distribution of milk from a suspected dairy has been stopped.

BICYCLE SMASHED.

Car and Wheel Collide at Corner of Hunter and George Streets.

A bicycle and a car collided at the corner of George and Hunter Streets this morning with the result that the man-power vehicle came off very much the worse of the combat. A woman was driving her car on George Street and was turning west on Hunter Street, while a boy was crossing the intersection, where the two collided. The bicycle was badly smashed, but the rider appeared to be unhurt.

SHAFT TO NUNGESSER AND COLI DEDICATED AT ETRETAT CLIFFS

PARIS, Sept. 18.—A monument honoring the memory of Captainf Charles Nungesser and Captain Francois Coli was dedicated yesterday at Etretat, where the French airmen left the coast of France on their illstarred attempt to fly to New York more than sixteen months ago. It bears the inscription:

"To the First Who Dared."

At the base of the column, which resembles an obelisk, are marble figures, three times life size, representing the two fliers. The monument has been erected on the cliffs at Etretat at the point over which Nungesser and Coli in their plane White Bird passed on May 8, 1927, before they disappeared in the west. On the front are engraved the words:

"Nungesser and Coli, May 1927."

The inscription on the reverse side recalls their attempt.

38 KNOWN DEAD ON EAST COAST

Subsiding Hurricane's Last Sweep Does Great Damage in Florida.

HUNDREDS HOMELESS.

JACKSONVILLE, Fla., Sept. 18. — (Canadian Press.)— A known death toll of 38 dead, 140 injured and an undetermined number rendered homeless and extensive property damage was exacted by the West Indies hurricane that buffeted the lower Florida east coast late Sunday and then blasted its way inland, available reports showed to-day.

The subsiding hurricane spent itself over Florida and part of Georgia yesterday. Many districts in Florida are cut off from communication, but it appeared certain that at least 38 people are dead on the United States' mainland and damage estimated at many millions had been done.

West Palm Beach is the worst hit so far as property damage is concerned. Scarcely a building in that fashionable resort but has suffered somewhat. The encroaching seas drowned fifteen people at Okeechebee, Fla. Fragmentary reports coming in by radio indicate that several are dead at the Palm Beaches, Fort Lauderdale and Deerville, while at Boynton a collapsed school house may mean further deaths.

The West Palm Beach relief committee announced early to-day it had verified fourteen deaths in the Florida east coast area.

Britain Sends Help.

LONDON, Sept. 18.— (Canadian Press.)— The British Admiralty announced to-day that H.M.S. Durban has been ordered to proceed to Colon in case any help should be required in the Bahamas because of the West Indian hurricane.

Carolina Coast Suffers

CHARLOTTE, N.C., Sept. 18 (Canadian Press).—The South Carolina coast from Charleston to the Georgian border to-day was cut off from communication by wire as a result of the heavy storm that swept up the South Atlantic coast last night.

Citizens Complain

SAN JUAN, Porto Rico, Sept. 18 (Canadian Press).—Despite the insistence of citizens that martial law affords the quickest and most effective means for alleviating distress and inaugurating proper sanitary measures to overcome the effects of last week's hurricane, Governor Horace Towner to-day advised Washington that he did not believe the situation called for so drastic a measure.

Citizens complain that while San Juan still has last Thursday's garbage and later accumulations in the streets, and all available man-power is needed for clearing roads in the interior, large forces of convict laborers to-day continued to lay sod in the new public park here and to repair the damaged wall of the Governor's palace.

MINER KILLED

SPRINGHILL, N.S., Sept. 18.—Milton Meager, aged 21, of Canso, was instantly killed by a fall of stone in No. 2 mine shaft at noon yesterday. Meager, who had been working there only two weeks, was on the 6,500-foot level.

Shoe Buckles Made From Cow's Milk Are Among New Products Of Chemistry

SWAMPSCOTT, Mass., September 18 (Canadian Press). — The shoe buckle that you wear may be a part product of cow's milk.

This is one example of the work done by Chemical Research to increase national wealth, as described at the annual meeting here of the American Chemical Society.

A new industry of casein plastics has been developed in recent years. It is used in many cases as substitute for horn, ivory, celluloid, ebony, pearl, amber, and tortoise shells. Many of the staples and novelty articles, such as beads, buckles, buttons, combs, cigarette holders, cuff links, dominoes, dice, toilet articles, fountain pen barrels, penholders, pipe-stems, and so forth, now contain casein products.

The society announced that 118 industrial firms have invested $345,000 to aid the American Chemical Society in gathering and abstrating the chemical literature of the world for use of industry and science in this country.

Woman's Sobs Caused Disaster To Players

BROOKLYN, N.Y., Sept. 18.—Tender-hearted poker players lost $5,000 and a rookie policeman off duty had his badge stolen, all because of a woman's sobs. Twelve men, playing two tables in a Coney Island basement in the small hours of the morning, heard a woman sobbing violently outside. One of the players opened the door. Two men and a woman entered and held up the group with pistols. The bandits took abut $2,000 in cash, and jewelry valued at $3,000. One of the players, a policeman off duty, was relieved of his badge.

FATHER SUES FOR HIS CHILD

Aunt Has Always Cared For Girl, Whose Mother Is Dead.

FEARS ESTRANGEMENT.

ST. THOMAS, Ont., September 18 (Special to The Examiner). — Does a father's equity in a child supercede an aunt's on the mother's side, even though the aunt has raised the child as her own for nine years at the expressed wish of the child's mother? This is the question that Judge Ross has been called upon to settle in Surrogate Court. The case is unique, and was argued before His Honor this afternoon.

The child is Ellen Rose Brennan. The father is Joseph Austin Brennan, M.C.R. shop employee of this city, while the aunt is Miss Nellie O'Brien.

Mr. Brennan has made application under the Infant' Act for possession of his daughter, fearing that the little girl will become estranged from him and her seven-year-old brother, although the father and aunt have houses side by side on Hughes Street this city. The children's mother died about two years ago. Previous to that, according to the evidence, the two families had lived virtually as one family, the evidence indicated.

The father admitted in his evidence that except for $2.25 paid for a pair of shoes he had contributed nothing toward clothing or feeding his daughter, and also that he and his wife had lived with Miss O'Brien for two years when the little girl was a baby.

Miss O'Brien claims that no money was ever paid for the parents' board and lodging.

The little girl's mother was raised from babyhood by Miss O'Brien, just as the little girl has been .

HERE AND THERE

CAN'T BALANCE EVIDENCE.

LOS ANGELES, Calif., Sept. 18.—(Canadian Press).—After more than three days spent in checking 15-year-old Sanford Clark's account of the torture and murder of four boys by his uncle, Gordon Stuart Northcott, 21, the authorities to-day frankly admitted they were unable to strike a balance between the contradictory evidence thus far discovered.

NEW YORK, Sept. 18 (Canadian Press).—The size of the vote, especially that of the women, was the chief point of interest for political leaders of both parties in the State-wide primary elections to-day. The size of the vote, it was hoped, would give some indication as to how the State will go in the Presidential elections this fall.

NOBLEMAN DIES.

LONDON, Sept. 18 (Canadian Press).—The Earl of Burham, one of the leading land-owners of Northern England and a widely known horseman, died to-day after a long illness.

GUNMEN FORCE UNION TO MOVE FROM CHICAGO

Commercial Telegraphers May Establish Headquarters in Toronto.

FEAR MOLESTATION.

Chicago Quarters Barricaded As Result of Attacks By Thugs.

TORONTO, Sept. 18.— An announcement of a sensational character to the international trade union movement was made yesterday when President Frank Powers of the Commercial Telegraphers' Union of North America stated that the union might be compelled to move its headquarters from Chicago to Toronto. Mr. Powers passed through Toronto yesterday from Chicago, where a union convention elected him President, and named William L. Allan, a Canadian war veteran, an executive officer of the union.

Gangsters Feared

Fear that officers of the union would be threatened by armed gangsters, and that offices of the union would be broken into again by thugs in the pay, it was alleged, of forces unfriendly to union labor, was stated by Mr. Powers as the reason why the union may be forced to move its headquarters. Under Mr. Power's direction the union is embarking on an organization campaign in the United States.

Offices Barricaded

"When we had trouble in 1919, officers of our organization were held up on the streets of Chicago, and union papers taken from them," said Mr. Powers. "Our offices were broken into and files containing the names of members were stolen. Today we have our offices barricaded, and letter-boxes barred to protect our papers. Conditions may compel us to come to Toronto. Allan and I are not afraid of guns; particularly Allan, who served overseas with Canadian forces. But what we want to do is help operators improve their conditions without encountering gangsters and gunmen."

Mr. Powers, accompanied by Canadian officers of the union, expects to leave for Ottawa to interview Hon. Peter Heenan, Minister of Labor; President Tom Moore and Secretary-Treasurer P. M. Draper of the Trades and Labor Congress of Canada, on matters of interest to his organization in Canada.

'QUAKES AT SMYRNA.

Unfortunate City Suffers Two Severe Shocks To-day.

CONSTANTINOPLE, Sept. 18 (Canadian Press).—Smyrna, unfortunate city of Asia Minor, was visited by two more earthquakes to-day. Both were severe and caused some property damage, but details have not been received.

16 in Boat Feared Lost

Freighter Manasoo Foundered Suddenly On Saturday, Survivors Say.

ADRIFT 60 HOURS.

Men Found On Raft in Lake Huron Bring Story of Lake Tragedy.

OWEN SOUND, Sept. 18.—(Canadian Press).—While airplanes and water craft searching the waters of Georgian Bay have not all reported, there was no word early this afternoon of any signs of further survivors of the foundering of the Manasoo on Saturday morning. The list stands at one known dead, five survivors arrived here and fifteen members of the crew and one passenger missing.

The owners of the boat are fearful for the safety of the other seventeen. The latter are known to have left the steamer in two lifeboats as the steamer went to the bottom, but one of the boats was never seen again. The other was seen at daylight Saturday morning, with two men clinging to it, that it soon disappeared, and has not been seen since.

The list of dead, rescued and missing follows:

Known Dead

Thomas McCutcheon chief engineer died of exposure on life raft at 2 p.m. Body not recovered.

Survivors

John McKay, master, Owen Sound.
Osborne Long, first mate, Owen Sound.
Arthur Middlebro, pursurer, Owen Sound.
Roy Fox, oiler, Owen Sound.
Donald Wallace, passenger, Cold Springs, Ont., cattle drover.

Missing

Frank Hutchison, second mate, Shallow Lake.
Marland Beattie, wheelsman, Owen Sound.
Allan Scott, second engineer, Owen Sound.
Dougald McClean, fireman, Port Elgin
Sing Quon, chef Owen Sound.
Hum Tom, second chef, Owen Sound.
Donald Rose, waiter, Owen Sound.
Joseph Mansour, watchman, Little Current.
E. Stewart, watchman, Owen Sound.
Clark Fox, fireman, Oxenden
H. Baird, deck hand, address unknown.
Wesley Galbraith, deckhand, Owen Sound.
Thomas Lambert, passenger, Petrolia, Ont.
E. Shawanas, deckhand, Sheguindah, Manitoulin Island.
A. Shawanas, deckhand, Sheguindah, Manitoulin Island.
An unidentified watchman.

While the five rescued men were receiving medical treatment in the sick bay of the Manitoba last night, messages were broadcast to lake boats to be on the lookout for other possible survivors of the disaster which occurred with frightful suddeness. The five men brought to this port were suffering from the effects of sixty hours exposure on the life raft, exposure which resulted in the death of Chief Engineer Tom McCutcheon of Owen Sound. His body was cast into the sea to lighten the raft and his clothes taken to provide a covering for one of the rescued men who had been on the raft for fifty hours clad only in his underwear.

They are expected to recover.

Tell Grim Tale

While enroute to Owen Sound they recounted to officers of the Manitoba a grim tale of a vessel that foundered without warning and of terrible suffering from exposure.

The Manasoo, with a cargo of cattle aboard, was making the trip from West Bay, Manitou Island, to Owen Sound. A heavy sea was running and when off Griffiths Island, 25 miles north from Owen Sound, the ship foundered without warning.

Plane Leads Search

OWEN SOUND, Ont., Sept. 18.—(Canadian Press).—Squadron leader E. Brooks, of Camp Borden, accompanied by another officer, took off this morning to conduct an aerial search over Georgian Bay for sixteen persons, who have been missing since the steamer Manasoo sank a short distance off Griffith's Island early Saturday. The plane led an extensive search by the S. S. Mani-

(Turn to Page 10, please)

Nicholls Hospital Notes

Written by the Board of Nicholls Hospital to explain the necessity for an addition to building and equipment.

The Examiner is glad to place this space at the disposal of Nicholls Hospital Board daily until the day of the by-law, September 26, that the Board may have an opportunity to explain to all citizens the purpose and scope of the measure on which they will vote.

The articles will start to-morrow.

HEAVY DAMAGE IS WROUGHT AS STORM RAKES FLORIDA

Two Out of Every Three Buildings in Business District Wrecked.

PARTS UNDER WATER.

Estimated That Damage Will Run Into Millions of Dollars.

TAMPA, Fla., September 18 (Canadian Press). — A message picked up here yesterday by a wireless station from an amateur wireless station at Palm Beach, told of damage done by hurricane winds there and of conditions between Fort Lauderdale and Palm Beach.

The message signed "Chamblin" was believed to have come from Walter Chamblin, a staff writer for the Associated Press who has been in Miami with Senator Joe Robinson, Democratic vice-presidential nominee.

"Two out of every three buildings in the business district in West Palm Beach are wrecked, or were damaged," the message said. "The big hotels at Palm Beach apaprently escaped without serious injury. A part of the Royal Palm was under four feet of water, swept up from the ocean on Saturday night.

"The first train to reach West Palm Beach since the storm broke here on Sunday afternoon about 2 p.m., arrived yesterday morning from Miami over the Florida East Coast Railroad." Chamblin evidently was a passenger on the train.

"It took nine hours to travel a distance usually covered in two. North of Fort Lauderdale to here there was a continuous story of damage wrought by the storm," the message continued.

RUN INTO MILLIONS.

JACKSONVILLE, Fla., September 18 (Canadian Press). — The Associated Press last night received the following message from Arnold Heidt, managing editor of the Palm Beach Post which was sent from Miami:

"West Palm Beach damage into millions. Not a building in town undamaged. No check yet on deaths. Wind estimated at 125 miles at highest point. Centre of storm not believed to have struck here. I have crews up and down coast now checking. Hope get radio out from Palm Beach during morning operating on 40 meters."

A GREASY RAIN

CREDITO MINIERE, Roumania, Sept. 17.—Oil became a real problem here recently when a gusher came through and before it could be stopped, had flooded the town. Citizens who ventured out of their homes used umbrellas to protect themselves from the downpour of oil.

The amount of scrap iron consumed in the United States in 1927 is estimated at about 25,000,000 tons.

DEATH.

TEDFORD.—On Tuesday, Sept. 18th, 1928, Mrs. Richard Tedford, Sr., of Warsaw.

The funeral will leave the family residence, Lot 1, Con. 7, Dummer, at 2 p.m., Thursday. Interment at Little Lake Cemetery.

BUSINESS POLICY TALK NO. 10
(By H.E.M.)

PERSONAL NEEDS, OUR PROBLEMS

We Are Interested in Every Printing Requirement.

WHETHER you are a private citizen or are engaged in business, we are interested in your printing problems. All we ask is that you let us know what they are and we will solve them for you.

The Examiner is a big family catering to a still larger family, which we wish to keep on increasing. The larger our family grows, the greater our city will grow. That fact increases the circle of money in circulation, which, in turn, helps to make more happy individuals and homes.

We are always happiest when we are serving our customers, individually and collectively, to make their businesses better and to satisfy their individual needs and requirements through the art of printing, which is known as the "Inseparable Companion of Achievement."

We are proud to say we hold an ideal in business. That ideal is to daily practise the Golden Rule and "Do unto others as we would be done by."

A telephone call to 1600 requesting a representative to call will start us on our way to serve you without obligation.

We gladly extend and "Give the same treatment to one and all."

The subject of our next talk will be, "Business Volume Reduces Cost."

THE WEATHER

METEOROLOGICAL OFFICE Toronto, Sept. 18.—Pressure is high over the central portion of the continent and low over the Atlantic States and Gulf of St. Lawrence. Except for a few local showers from Quebec eastward, the weather has been fair in all Provinces, and it has become considerably warmer in Saskatchewan and Alberta. The tropical storm is now centred over north-eastern Florida, moving in a northley direction.

Forecasts

Lower Lakes and Georgian Bay — Moderate to fresh northerly winds; fair and cool.

Lake Superior —Moderate winds; fair and comparatively cool.

Western Provinces—South to west winds; mostly fair and warm; probably scattered showers.

DUCK HUNTING IS VERY POOR

Two Shot at Rice Lake on Opening Day of Season.

BAILIEBORO NEWS

(Examiner Correspondence).

BAILIEBORO, Sept. 18.—The duck hunting season opened on Saturday with its annual group of hunters ready for the occasion.

There were few ducks to be found on Rice Lake, and it did not take long to discourage the numerous hunters who soon changed their sport to fishing.

W. Hibbard was successful in shooting one black duck, but there were no large bags brought in at noon.

Apparently the weather is yet too warm and the ducks are awaiting cooler weather.

Personals.

Miss Ruth Lucas of Alberta is the guest at the home of her uncle, Mr. T. E. Dawson.

Miss Ruth York of Lindsay was the guest of Miss C. Barnard last week.

Mr. Frank Dawson is having an auction sale of his farm stock and implements on October 4th. Mr Dawson is moving off his farm and Mr. Will Lord is taking charge.

Among those from this district who attended the Peterborough Exhibition last week were: Mr. and Mrs. O. B. Johnston and family, Mr. and Mrs. Robert Harper and family, Mr. and Mrs. Charles Dawson, Messrs. F. and K. Barnard, A. Deyell, A. Dawson, J. Barnard, J. Halt, G. Dean, C. Barnard, Mr. and Mrs. H. Dawson, and Mr. and Mrs. Harold Moncrief.

Miss Irene Dawson has returned from Muskoka, where she has been spending the summer at the Pleasant View House.

Mr. Keith Barnard was a week-end visitor with Mr. Sidney Greenaway of Port Hope.

Mr. and Mrs. Charles Perrin and Mr. H. Perrin of Oakwood attended the funeral of the late Mrs. Robinson last week.

Mr. Harold Barnard of the Peterboro branch of the Dominion Bank spent the week-end the guest of his parents, Mr. and Mrs. P. Barnard.

SHOWER TENDERED HAVELOCK COUPLE

Mr. and Mrs. Charles Brennan Receive Many Useful Gifts.

(Examiner Correspondence)

HAVELOCK, Sept. 18—On Thursday evening Mr. and Mrs. Albert Armstrong entertained at a miscellaneous shower in honor of Mr. and Mrs. Charles Brennan in the dining room of the Armstrong House which was beautifully decorated with autumn flowers for the occasion. The many useful and pretty gifts were placed in a beautiful cedar chest the gift of the groom's brother, Mr. Douglas Brennan and drawn in on an attractively decorated wagon by Master Albert Lamey of Hastings. Mr. Brennan responded in a few words thanking their friends for their kindness after which the evening was spent in cards and dancing.

Among the out of town guests were Mr and Mrs. Lamey and son, Albert and Mrs. McCarthy, of Hastings, and Mr. and Mrs. R. Coffey, of Peterborough. A number of friends were also present from Trent River.

Campbellford

(Examiner Staff Correspondence)

CAMPBELLFORD, September 18.—Mr. John Callahan, of the Bank of Montreal staff, Gananoque, is spending his vacation at his parents' home, Booth Street.

Mr. Max Watters, Kingston, is visiting relatives and friends in town.

Approximately twenty people from Campbellford motored to Peterborough last night to attend the concert in the Conservatory given by the Madrigal Singers, under the direction of Dorothy Allan Park. It is understood that this group of singers will make their first appearance in Campbellford at an early date.

Among the honors which have come to this town during the past season are two handsome silver trophies which are on display in the window of the Birmingham Hardware, Front Street. There are the cups which were won by the local tennis club, who hold the championship for the Tummon League and also in the Central Ontario Lawn Tennis Association. The Tummon Cup has resided in Campbellford for the last three years.

Believe Northcott And His Mother Are Still In Vancouver District

VANCOUVER, B.C., Sept. 18. (Canadian Press).—Geo. Stewart Northcott, 21, sought by Los Angeles police in connection with the California murder ranch was a client of J. A. Walker, chief of the Coast Detective Agency on September 8, Mr. Walker said yesterday.

Northcott, who first gave his name as Scott, afterwards correcting it, first wanted to locate his mother who might be at a local hotel under the name of Carter. Mr. Walker found she had been at a local hotel under the name of Mrs. Green.

The man said he had a niece, named Jessie, who was watching him as there was trouble between members of the family over valuable securities and titles to land.

At another time the man said there might be charges against him in Los Angeles and asked the detective to find out if these were.

Later Mr. Walker saw Northcott and his mother. The man said he had recently married a rich Los Angeles woman sixty-four years old who was waiting for him at Seattle with a palatial yacht. He suggested he might go to Seattle as if the police did wish to arrest him they could not do so if he were on a yacht at sea.

On September 10 he telephoned Mr. Walker that his solicitor had told him his fear of charges was all imagination.

"Suspicious by the action of the couple," Mr. Walker said, "I endeavored to pick up their trail but without result, though I am sure they are still in the city."

THREE COWS KILLED BY CAR

Driver Crashes Into Herd Being Driven Along Road By Boy.

WORKMEN QUIT.

STIRLING, Sept. 18 (Examiner Correspondence).—A bad mix-up of cars and cows occurred near C. U. Heath's farm on 7th Concession, Rawdon, about 5 p.m. yesterday. Mr. Heath's grandson was bringing in the cows from pasture at milking time and Mr. Fox from Frankford came upon the herd at such a speed that he could not avoid crashing into them, with the result that three cows were killed and others injured. Another car that was following Mr. Fox smashed into his car and bent everything that was bendable, causing a bad mix-up generally.

It seems that every six cows must have a driver accompanying them when on a provincial highway, and no bull is to be on the road unless led by someone. These laws were not obeyed, and it looks as though the owner of the cows will be the loser.

Trouble on Paving

Difficulty arose yesterday between the workmen on the street paving and a new boss, with the result that several of the men quit at noon and more of them later, and it looked at one time as though there were going to be two strikes.

It was stated last night that there would be plenty of men to take the place of the strikers in the morning.

FISHING COMMITTEE INSPECTS STREAMS

Visitors Confer With Marmora Council and Angling Enthusiasts.

(Examiner Correspondence)

MARMORA, Sept. 18.—A special committee of inquiry appointed by the Provincial Government to tour this section of Ontario to investigate conditions in local waters as they affect the preservation and propagation of game fish, made a visit to Marmora recently. Headed by the Hon. Finlay McDiarmid, the committee comprised C. N. Candee, G. S. Bell, representing the Toronto Angler's Association; Professor W. J. K. Harkness, of Toronto University, secretary; J. L. Milligan, of the Dept. of Mines, assistant secretary, and Mr. Coffee, of Ottawa, Head Fish and Game Warden for Eastern Ontario. Meeting the Village Council, Booster Club members and other citizens, a free and informal discussion took place. Depletion of lunge and bass was brought up, as well as reference being made to the appeal of the district to the tourist angler. The advantages of Marmora for the location of a fish hatchery were not lost sight of.

Professor Harkness made a return visit on Wednesday and inspected Crowe river from above the dam to a distance below the bridge. Crowe Lake and Beaver Creek were also visited by him. Some time ag omembers of the staff of the Department of Game and Fisheries visited Marmora investigating conditions to some extent. It is therfore conjectured that the advisability of establishing a fish hatchery is receiving favorable consideration. With the Council and Booster Club following the matter up strongly something worth while should ensue.

AUTOGRAPH QUILT IS FAREWELL GIFT

Rev. P. C. and Mrs. Howard Receive Present Signed by Congregation.

(Examiner Correspondence)

MILLBROOK, Sept. 18.—A pleasant surprise was prepared for Rev. P. C. and Mrs. Howard recently, in connection with a social evening held in the Parish Hall of Trinity Church (the Marsh), the congregation being fully represented at the gathering.

A program of games, music, etc., furnished a social good time, the surprise feature being introduced when Mr. and Mrs. Howard were seated on the platform, Miss Irene Patton reading an address, and Mrs. Kinsman, the oldest member of the church, on behalf of the entire congregation, presenting them with a handsome autograph quilt as a token of esteem and affection before they leave for their new home at Havelock where Rev. Mr. Howard has been appointed rector of Saint John's church.

The recipients of the gift spoke

MADOC FARMER BREAKS HIS ARM

Austin Bristol Also Fractures Ribs in Fall in His Barn.

NAMES WANTED

(Examiner Correspondence.)

MADOC, Sept. 18.—Austin Bristol, a farmer of Madoc Township, had the misfortune to break both bones of his right arm and two ribs while unloading oats recently. While reaching for the trip rope he stumbled and fell, his hand under him.

Dr. Eagleson reduced the fracture. The September meeting of the rapidly as can be expected. The accident is particularly unfortunate, as this is the farmers' busiest season.

Seek Names

Madoc memorial committee are asking for names of the "boys who gave their lives in the Great War" from the district of Madoc and vicinity. The committee is anxious to get a complete list at an early date. The monument has been ordered and will be unveiled some time this fall.

Sale of Cooking

The W.M.S. of Trinity Church held a very successful sale of home cooking and potted plants on Saturday afternoon in the Sun Life Assurance office (through the kindness of Mr. Richard Wellman).

A goodly supply of cakes, bread, pies and vegetables, also many potted

WILMA FALLIS LEADS C.G.I.T.

(Examiner Correspondence)

MILLBROOK, Sept. 18—The weekly meeting of the Wide Awakes C.G.I.T. group was held on Friday evening at the leader's home, the chief feature of the business period being the election of officers.

Usually the election is held in January, but three of the girls holding office are going to school out of town this year and will not be able to attend the meetings regularly, hence it became necessary to fill the vacancies and the entire slate was changed.

The officers for 1927-28 are: President, Wilma Fallis; vice-president, Annie McMahon; secretary, Betty O'Brian; treasurer, Alvira Davis; herald, Dorothy McDowell; pianist, Francis Jones; assistant, A. McMahon.

The leader expressed her personal regret at losing from the list of active workers the three girls who have filled the positions of president, vice-

Put Silvo on your order list!

FINE old Silver lends an air of distinction to the simplest meal, but it must be bright and glistening for the whole of its charm to be revealed.

To keep your Silver in the best condition there is nothing better than Silvo Liquid Silver Polish.

Silvo brings out the beauty of Silver and imparts a rich brightness!

And Silvo is easy to use! Just a few drops on an old soft cloth—a light rub—and the Silver shines and glows again.

SILVO
Liquid Silver Polish

NEW POLE LINE NEARLY READY

Poles Are Up to About One Mile From Roseneath Village.

RESIDENTS SIGN UP

(Examiner Correspondence)

ROSENEATH, Sept. 18.—The poles for the new Hydro line from Harwood to Roseneath, which is to serve Roseneath and the farmers along the route with power and light are put in up to about a mile from the village. Nearly all the residents of the village have signed contracts with the Hydro. In order to secure service Frederick Field of the Field Lodge farm took out seven contracts. It is expected that work will be completed so that the village will have electric service by October.

New Building Completed.

The immense new building erected by the Alnwick Agricultural Society is completed. Part of it is to be used for the ladies' section of fine arts, fancy work, home-made cooking, for field produce and many other things. This new addition is 110 feet long by 50 feet wide, built by the Metallic Roofing Co. of Toronto and is one of the finest buildings for its purpose in the Province. Even with this new building and the horse stable that accommodates fourteen horses, built last year, the capacity will be taxed to the limit as requests for reservation have already been spoken for.

Roseneath Fair is noted for being one of the best of its size held in Ontario, with its spacious grounds and half-mile track, are a great attraction.

Premiums are this year away above the standard, and there is marked progress in all departments. The night concerts, Kiltie Band and midway are all big attractions.

INTERESTING TALK IS GIVEN INSTITUTE

Mrs. Elizabeth Cameron Speaks at Warsaw on Shopping.

(Examiner Correspondence)

WARSAW, Sept. 18.—Mrs. Elizabeth Cameron gave a very interesting and helpful address on, "When Mrs. Canada Goes Shopping," at a meeting of the Women's Institute held at the home of the president. She is a delightful speaker and introduced both humor and pathos into her address.

Mrs. Vivian Jackson read a selection from an address of the Hon. Mr. Motherwell, Minister of Agriculture.

The Institute executive was appointed to look after the booth at the school fair and also at the plowing match. A committee consisting of Mesdames T. Clements William Dunsford, and George Taylor were appointed with power to add to their number to make preparations for the banquet to be held on October 3. Misunderstandings as to conditions regarding the banquet arose and were discussed.

The matter of erecting Warsaw signs was brought up and will be discussed further at the next meeting. Refreshments were served at the close.

Reports Untrue

After the report of the horses which were killed during the electric storm last week, there were a number of false rumors arose about other people having lost teams. These were all found untrue upon inquiry.

Personals

Mr. Pinkerton spent part of his vacation with Mr. and Mrs. J. A. Crowe.

Mrs. Fred Anderson is visiting relatives near Warsaw.

Mrs Bryson and Mrs. Robert Bullock accompanied Mrs. Cameron to Warsaw on Thursday afternoon.

Miss Edith Tucker left for New York on Wednesday morning.

The Rev. Mr. Kemp, of Lakefield, will preach the anniversary sermons in Warsaw United Church on October 14. The fowl supper will be held the next evening.

Bethel Church will hold its anniversary on October 21, and the Rev. Mr. Thornely, of Peterborough, will preach.

The Salvation Army conducted a service in Warsaw on Sunday afternoon.

W. I. MEETS AT OMEMEE

Interesting Papers Read at Monthly Meeting of Society.

SMALL ATTENDANCE

(Examiner Correspondence.

OMEMEE, Sept. 18.—The monthly meeting of the Womens' Institute was held on Thursday afternoon at the home of Mrs. Fred Evans .Owing to the rural school fair being held on the same afternoon, the attendance was not as large as it otherwise would have been. In the absence of the president, and also the vice-president, on motion, Mrs. R. Tate occupied the chair, and opened the meeting by singing the Institute ode This was followed by the repetition of the Lord's Prayer in unison.

After the secretary's report which was given by Mrs. McGinnis, a very interesting paper on "The setting of the table and preparing dinner" was read by Mrs. D. Rea. This contained some valuable information. A paragraph on "The Mill Village of Omemee" from "the Victoria County Centennial History" was read by Mrs. J. Bushnell. A short leaflet entitled "Betty's Ripple" was read by Mrs. A. Scott.

A communication from the district secretary, Mrs. Perrin, regarding the work of the society was heard, also a letter from Mrs. Albert Brooks, thanking the society for kindnesses shown since the time of her accident.

The roll call was responded to by recipes or suggestions. One suggestion was that the society have an objective in view and this led to discussions on various subjects. The most favorable one being that a safe, clean swimming place for children be made. This will receive further attention at the October meeting which will be held at the home of Mrs. D. Rea, on October 11th.

It was decided to pack a bale of clothing for the Children's Shelter in Lindsay, the same to be brought to the next meeting.

The meeting closed by singing the National Anthem and prayer, after which a social half hour was enjoyed, when Mrs. McPhee, Mrs. McGinnis and Mrs. Faulkner provided dainty refreshments.

The Mill Village of Omemee.

The following is the item on "The Mill Village of Omemee."

In 1825, William Cottingham erected a rough mill building beside Pigeon Creek and equipped it with two mill stones, which an American named Myles had cut and dressed in the woods near by. This mill became so important as a base of supplies during the Robinson immigration that a store was opened beside it in 1826. This was the nucleus around which the modern Omemee has grown.

In 1835 a post office was established here with Josiah L. Hughes as postmaster. This post office was called Emily, but the hamlet was known generally as Williamstown—doubtless equivalent to "William Cottingham's town." In 1835, also, the first school was built on the site of the later Bradburn's hotel. James Laidley and Captain Hancock were amongst the earliest teachers.

The first preachers to come in had been Methodist pioneer missionaries or "saddle-bags." Prominent amongst these was the Rev. "Daddy" Sanderson, known irreverently throughout the township as "Little Peculiarities," because his invariable reproof to those whom he heard criticizing others was "You know we all have our little peculiarities." In 1826 a church, used chiefly by the Methodists, was built on the northwest corner of lot 13, concession 2. An Anglican clergyman, the Rev. Mr. Thompson, famed locally as a classical scholar, used to come in from Cavan and hold services in private homes. In 1835 an Anglican church was built at Williamstown and the Rev. M. Street, of Cobourg, became the first resident clergyman. A Methodist church was begun in the village in 1836, but took several years to finish. The first Presbyterian minister was the Rev. Mr. Deck, who was succeeded by the Rev. Mr. Ewing.

In the forties, the name of the village was changed to Metcalfe. A business directory of 1850 gives the following names: William Cottingham, miller, lumber merchant, carder and fuller; Robert Grandy, postmaster; Richard Galbraith, distiller; Wm Kells, teamster; C. Knowlson, merchant; Wm. Matchett, merchant; W. Beatty, merchant; Rev. John Burk, R. C. priest; Rev. Robert Harding, Anglican priest; Rev. John Ewing, Presbyterian minister.

The Port Hope, Lindsay and Beaverton railway was built through the township in 1857, but the station was placed at an extraordinary distance from the village. This was apparently done by the railway company out of spite because the bonus paid them had fallen short of their demands.

The name of the village was now changed to Omemee, after the Omemee or "Pigeon family of Mississaga Indians," who had long made this neighborhood their hunting ground. The names of Pigeon Creek, Pigeon Lake and Omemee have thus a common origin.

Incorporation as a village was secured in 1874. The first village council was constituted as follows: Reeve, Wm. Cottingham; Councillors, Jas. Ivory, Wm. Neil, John English and Copeland Laidley. Its officials were: Clerk, C. Knowlson; treasurer, W. S. Cottingham; collector, S. English; assessors, J. Ritchie and W. H. Hill.

Omemee reached its maximum of prosperity and population in 1878, when it had 835 inhabitants. There were then three churches, a high school and a Public school, a grist mill, two saw mills, a tannery, a foundry, a shingle mill, a cloth mill, four hotels and several stores. The 'Warder,' now of Lindsay, had been published in Omemee from 1856 to 1857, but its successor in the seventies was the 'Herald,' now defunct. By 1920 the population had dwindled to 467. The industrial competition of the cities had a blighting effect on the local manufacturing and the general decline of the countryside has been reflected in village life. It still functions, however, as the natural economic focus of the township.

There has been no other considerable village in Emily. The quondam post office at King's Wharf dates from the time of the Robinson immigration and a Roman Catholic church built in the forties at "Downey's Cross" has been surrounded by the modern hamlet of Downeyville.

The original St. Luke's church was a log structure put up on the present cemetery site by Father Fitzpatrick, of Lindsay. The first resident priest at Downeyville was Father Burke, appointed in 1851. Under his successor, Father Coyle, a new frame church was built in 1858. This church was bricked over and remodelled in 1894 during the incumbency of Father Bretherton.

WILMA FALLIS LEADS C.G.I.T.

(Continued from Page 1)

president, and treasurer, respectively, with marked efficiency, Misses Elsie Spence, Flossie McMahon, and Elinor Fallis, but recognized the fact that there must be 'graduates' from the group, and others step up and take responsibility so that there is no break as the work is carried on.

The talk for the devotional period was on "Building Our Life on God's Plan", the Scriptural lessor being chosen from Matthew 25: 14.30.

The usual social hour was enjoyed at the close.

Corn Roast Held.

The A.Y.P.A. of Saint Thomas' church held its annual corn roast this week in the parish hall, the wet evening making necessary a change of plans, and preventing its being an out of doors event at the home of Mrs. John Allen as had been originally been planned.

There were about thirty present, the substantial meal around the bountifully-spread tables being the initial feature of the evening; following this community singing, piano selections, and games filled in the program with hilarity and a thorough enjoyment throughout.

The holidays being over, the regular fortnightly meetings of the A.Y.P.A. will be a feature of the fall and winter months in the church's program of activities for the young people.

AUTOGRAPH QUILT

(Continued from Page 1.)

briefly expressing sincere appreciation of the useful remembrance, and of the kindly words which were its accompaniment, the amount of beautifully done work in connection with its making giving tangible evidence that it was a labor of love, the outgrowth of warm freindships formed during the two years of ministry.

The quilt is generous in size, and on its white ground are twenty-one red stars on which, worked in white floss, are 102 names, so that every family connected with Trinity church is well represented. On a single white star, embroidered in red floss, are the words: "To Rev. P. J. and Mrs. Howard, from the congregation of Trinity Church, Cavan; September 11, 1928."

Mrs. Kinsman also presented Mrs. Howard with a beautiful bouquet of asters, daintily arranged, and grown in her own garden.

A bountiful supper was the final item in the evening's program, and in the social hour which followed practically everyone present took advantage of the opportunity to express to Rev. Mr. and Mrs. Howard their personal regret at their removal from the community, and their appreciation of the faithful service given to what is really the smallest church in the large parish of Millbrook and Cavan.

Mr. Howard expects to take up his duties as rector of Saint John's Church, Havelock, the first Sunday in October, and removal to the new home will probably be the last week in this month.

WEDDING BELLS

(Examiner Correspondence.

MAJOR—BRISBIN.

ROSENEATH, Sept. 18.— Married in Toronto by Rev. I. G. Bowles, of Rosedale United church, Miss Marguerita Brisbin, oldest daughter of Mr. and Mrs. Frank Brisbin, Roseneath, to Mr. William X. Major, of Toronto, a former employee of the Royal Bank staff, Roseneath.

A reception and shower is to be given at the home of her parents on Friday evening before they leave for their new home at 47 McPherson avenue, Toronto.

WOMAN COMMITTED FOR TRIAL IN FALL

Theft and Forgery Charged as Result of Cashing Cheque.

LINDSAY, Sept. 18.—A Lindsay woman has been committed for trial at the fall session of the Supreme Court on serious charges arising out of alleged theft and forgery in connection with a cheque of $25.00, made out in favor of a traveller for a Toronto wholesale house. The cheque was mailed to the local post office, and was secured by the woman, who bore the same name as the traveller. It is charged that the woman forged the traveller's name on the cheque, and handed it to a citizen as part payment of an obligation. The latter presented it at the bank, where it was accepted. The amount was recovered by the bank.

OBITUARY

WESLEY GRANT

MARMORA, Sept. 18 (Examiner Correspondence).—After an illness of about two weeks, Wesley Grant died at his home in Marmora on Sunday morning in the sixtieth year of his age. Deceased was born at Maynooth, the son of Mr. and Mrs. Jonas Grant. His aged parents are living at Mayerthorpe, Alta., with another son, William. Deceased followed the occupation of carpenter and came with his family to Marmora in 1916. He worked for a while with the Pearce Company, but for the greater part of his residency in the village, he has been employed at the plant of the Deloro Smelting and Refining Company, being highly esteemed by the staff there and his fellow workmates.

Besides his widow, six children are left to mourn a devoted father. They are Mrs. T. Hannah and Mrs. T. Campbell of Rawdon Township; Mrs. S. Jones of Detroit; Frank and Wilson of Detroit, and John at home.

The late Mr. Grant is also survived by three brothers and seven sisters William of Meyersthorpe, Alta; Fore of Johnstown, Ont.; Henry of Calgary; Mrs. J. Moxam, Copper Cliff; Mrs. H. Kirk, Detroit; Mrs. R. Edwards, New Carlow, Ont.; Mrs. A. Frantz, Maynooth; Mrs. J. Small Rokeby, Sask; Mrs. W. Warren, Balm Alta; Mrs. W. Clawson, Alberta; Mrs Harry Head of Peterborough is a cousin. Deceased belonged to the United Church, where the funeral service has been arranged to take place this afternoon.

RICH THROUGH LAZINESS

MITCHELL, S.D., Sept. 18.—The laziness of a farm hand may spell a fortune to I. A. Polus, farmer of this locality. Four years ago Polus' hired man complained that he was "breaking his back" trying to steer the cultivator. This caused Polus to work out an idea to simplify the steering mechanism which now has been patented with the result that several manufacturers applied for the right to use the improved device.

Exercise No. 17 Here's a typical Penmans Health Drill—one that will aid greatly in developing arm, leg and torso muscles. Write for free Penmans Exercise Book, containing detailed descriptions.

KEEP FIT IN Penmans 95

ENJOY better health and increased efficiency by doing these Health drills every morning in Penmans 95. There's quality and weight in Penmans 95 that offers unfailing protection from influenza, chills and other cold-weather ills. Ask for it at your dealers. In two-piece and union suits for men, women and children.

NOTICE TO PENMANS DEALERS

The nation-wide interest in Penmans Health Exercises provides a golden opportunity for Penmans dealers. Write for as many booklets as you require—also for Penmans attractive window and counter display cards.

HEALTH UNDERWEAR

MADOC FARMER BREAKS HIS ARM

(Continued from Page 1.)

plants was provided, and the proceeds of sale amounted to $18.00.

Assists Pastor

Rev. Mr. Mackay of Hastings assisted the pastor, Rev. G. W. Rivers, at the morning service on Sunday at Trinity United Church.

W.C.T.U. Meets

Teh September meeting of the W.C.T.U. of Madoc was held at the home of Mrs. George Huffman on Thursday afternoon, the President, Mrs. McCaffrey, presiding. A good program was given and tea and a social half hour followed.

Breaks Arm

Miss Phyllis Stockloser, daughter of Mr. and Mrs. Karl Stockloser, fell on Saturday while climbing a ladder, the ladder falling on top of her, breaking her arm.

Personals

Mr. and Mrs. Sexsmith have returned to Madoc after a motor trip to Niagara Falls. They were accompanied home by Mrs. George Clapp and daughter, Dolly.

Miss Blanche Bronson has been spending a few days in Ivanhoe, at the home of Mrs. George Reid.

Mr. Bernard Jackson and sister, Mary, of Detroit, spent a few days in town last week.

Mr. and Mrs. C. H. Sweetman spent last Thursday in Toronto.

Mrs. Sandford of Oshawa is visiting friends in town.

Mr. and Mrs. T. Caverly and Milburn were in Toronto last week.

Miss McMillen has been visiting her sister, Mrs. Rorabeck at Hillier.

Mr. and Mrs. D. Phillips and daughter, Kathleen, were in Toronto last week.

Miss Norma Fair is leaving Madoc this week to take a business position in Belleville.

Mr. and Mrs. West and Miss Lamoine were in Kingston during the week for a day or two.

Mr. and Mrs. William Sills of Belleville were Sunday visitors in Madoc. The choir of Trinity Church were delighted to welcome once again their old choirmaster and secure his assistance for the morning service.

Mr. Charles Macdonald of Brockvill spent two weeks in town with relatives.

Mr. and Mrs. Clarence Rogers spent the week-end with friends in Madoc and Queensboro.

Cuticura Talcum Is An Ideal Toilet Powder

It is pure, smooth and fragrant and contains antiseptic properties which help to allay excessive perspiration. It imparts a pleasing fragrance and leaves the skin refreshed and cool.

Sample Each Free by Mail. Address Canadian Depot: "Potter-Boston, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

GAS MADE HER CROSS, CAN'T EAT OR SLEEP

"When I ate I would bloat up with gas. I couldn't sleep, was cross and nervous. Adlerika has given me real relief."—Mrs. M. Meyer.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you feel. It will surprise you! McDermid & Jury, E. L. Payne, and McDermid Drug Co.

TUESDAY, SEPTEMBER 18, 1928

PETERBOROUGH'S FAIR GROUNDS.

The Kingston Whig-Standard is pleading for better grounds for Kingston's annual fair, a fact that should serve to remind local citizens that the local Exhibition Grounds rank with the finest in Canada.

Visitors to the Peterborough Industrial Exhibition last week, especially the vaudeville artists, members of Cervonne's Band and others whose business takes them to fair grounds all over the Continent, pronounce the local Exhibition Park as one of the prettiest, best laid and most commodious fair properties they have seen.

Contrasted with some other fair grounds in Ontario, the local plant, with its splendid grandstand, its race-track entirely free from anything to cut off the view of the spectators, its trim fences, its wide expanse of ground for the midway and other features, its attractive entrances and its wonderful lighting, is in a class by itself.

Exhibition Park, with its fine baseball diamond and its facilities for sport in general is a splendid community asset, and local citizens who have not seen the fair grounds in other Ontario centres do not realize how fortunate we are in having such a property available.

THE MUSICAL COMPETITIONS.

The musical competitions which are to be a feature of the Kiwanis Made-in-Canada Fair next month promise to do much to encourage development in Peterborough along musical lines.

The range of the competitions has been materially increased since last year's Fair, and in all there are 39 classes, the competitions being divided into vocal, violin, piano, brass and orchestral departments.

The adjudicators will be Herbert Sanders, Doctor of Music, and organist and choirmaster of the Dominion Church, Ottawa, and Captain C. O'Neill, bandmaster of the Quebec Citadel Band, Quebec, and with such widely known musical celebrities in charge, it can readily be recognized that the competitions will be of great educational value, not only to the contestants, but to the audience.

There is no doubt that the various classes will be well filled.

The great success of the competitions last year and the fact that new classes have been added will ensure keen interest in the event on the part of the musicians of the city and district.

The musical competitions promise to be one of the outstanding events of the Kiwanis Fair, and that condition is gratifying to those who appreciate the importance of developing Peterborough from a musical viewpoint.

ACTION IS NEEDED.

"Canada is all bad and we are going home to tell them so," is a statement credited to one of the disgruntled British miners who are on their way home.

It is to be feared that many of those who are not satisfied with the treatment received here are in a similar frame of mind, and what they have to say when they get home will do much harm.

It makes the situation no better for Canada that much of what they will say will be distorted and unreliable.

The trouble is that they will say it often and vigorously, and before the main body of the miner-harvesters are able to get back to the Old Country with more favorable reports of Canada.

Under the circumstances, therefore, the Canadian Government would be well advised to counteract the effect of these miners' complaints by an immediate and vigorous campaign of publicity in the British Isles.

We cannot afford to ignore the charges made by these men, even although we are convinced that there is not a great deal in them.

Their effect should be offset by the publication of the truth about Canada, and a grave mistake will be made if all this adverse propaganda is allowed to go unchallenged.

FROM 21 TO 85,000.

There are lean years in professional baseball as in other commercial enterprises.

Much has been printed in regard to the record-breaking attendance at the double-header in New York a week ago Sunday when 85,000 people, much the largest crowd in the history of baseball, saw the New York Yankees and the Philadelphia Athletics in action.

Few people recall the fact that only twelve years ago the same two clubs, playing a regular American League game, had the smallest crowd in the annals of professional ball.

This game was played on September 15, 1916, at Shibe Park, Philadelphia, and the paid admissions on that occasion actually numbered only twenty-one.

As a matter of fact, more base hits were made by the Yankees and Athletics that day than there were people in the stands.

The uncertainty of baseball as a business enterprise was surely never more clearly illustrated than by a comparison between these two records.

Certainly any one who would have ventured to tell the owners of the Yankees and Athletics back on that dismal September day that twelve years from then 85,000 people would pay to see these clubs play on one afternoon would have been turned over to the police for an investigation into his mental condition.

COMPLAINT CARDS.

On several occasions, when commenting on reckless driving, the Spectator has suggested that motorists could co-operate with the police by filing information against transgressors of the rules of the road, even in cases where no accident had occurred. There are reckless drivers, who, if they are assured there is no traffic officers in the vicinity, operate their cars without regard for the safety of their fellow motorists. Their driving motto is: "Here I come, get out of my way!" It's a simple matter to get the license numbers of these "nit-wits" of the highways, and motorists should not be squeamish about reporting them and filing complaints. It is interesting to note that the Minister of Highways has had printed "complaint cards" for the use of motorists. These are available at police stations and branch offices of the Highways Department. The Highways Minister thus invites the safe and sane motoring public to co-operate with the highway policemen in the campaign to weed out reckless drivers. If a "cut-in" addict almost forces your car into a ditch and waves you a merry good-bye, fill in a complaint card, mail it to the Department of Highways and Hon. Mr. Henry promises that the offender will be checked up. It might be inferred that the department is playing into the hands of confirmed grouches or those who might welcome this opportunity to vent a spite, but assurance is forthcoming that habitual filers of complaint cards will be marked and little attention paid to their grievances. Within the last year there have been several notable instances of the value of co-operation with the police by the man in the street. Two armed thugs have been apprehended by private citizens and held until the arrival of limbs of the law. The reckless driver is no less a menace to society than the bandit. Perusal of the records will reveal, we have no doubt, that reckless driving has taken a greater toll of life and caused more property loss than banditry in the current year. The Minister of Highways does not ask motorists to play the role of spotters. He is working on the theory that the driver of a motor car who has no regard for his fellows is not entitled to special consideration from those whom he plagues by his recklessness.—Hamilton Spectator.

A BILLION BUSHELS OF GRAIN.

Two and a quarter centuries ago Henry Kelsey traversed the Western prairies as a fur trader, and in his description of the country could not see the slightest possibility for agriculture. He wrote:

> "This plain affords nothing but short, round, sticky grass and buffalo, and a great sort of bear which is bigger than any white bear, and is neither white or black, but silver haired like our English rabbit. Ye buffalo likewise is not like to ye Northward, their horns growing like an English ox, but black and short."

Kelsey did not dream that this country of which he wrote so contemptuously would some day become one of the granaries of the world, producing in a single year one billion bushels of grain, including nearly 550,000,000 bushels of wheat. And the end is not yet. Some years ago, when the western wheat crop began to go over 100,000,000 bushels, Canada was described as the bread basket of the Empire. The basket has grown enormously in the last eighteen years. Here are some of the high spots in the history of increasing production:

1910	112,778,000	bushels
1911	181,751,000	"
1915	366,904,000	"
1923	442,033,000	"
1928 (estimated)	550,000,000	"

The yield varies from year to year with climatic and other conditions, but, with increasing acreage, new high records are established every few years. Therefore, remembering the great tracts of land that remain to be worked—the Peace River district is an empire in itself—with acreage increasing every year, and with science producing better seeds and warring on parasites that retard production, there is reason for believing, as Mr. T. A. Crerar predicted some time ago, the day is not far distant when the West will be producing a billion of bushels of wheat each year, not to speak of other grains.

And as with the West, so with the future of other parts of this land. To-day in Canada there are still Kelseys, people who only dimly comprehend the mighty possibilities of that Northland which is still called the "barren lands." Yet explorations are revealing astonishing knowledge of the character of the vast areas of the once so-called "Frozen North." What we are hearing of to-day is of a much more hospitable country, with mighty areas far from barren, with rich deposits of coal and oil and water powers as gigantic as any that we know.

There are those who say that the time will never come when Canada will need or develop these resources. They forget their history. Fifty years ago the Western plains were but the home of the Indian and the buffalo, touched only by the explorer and the pioneer. To-day they are traversed by two mighty transcontinentals, have become one of the granaries of the world. Twenty years ago Northern Ontario was but a spot upon the map, a land of rock and marsh and snow. To-day its yield of gold and silver is among the great factor of the world. And so all down through the story of our development from a pioneering colony to industrial and agricultural power.

The truth is that Canada is but upon the threshold of a great and inescapable destiny. Her industrial greatness is assured by her almost unrivalled and barely touched resources; and when the day comes—as come it soon must—when the United States, teeming with population, becomes a food importing country, then the agricultural life of this country will know a development that at present it is impossible to measure.—Ottawa Journal

EDITORIAL NOTES AND COMMENT.

According to reports, the United States election is quiet. Well, that is all right with us.

Georges Michel, the only man to finish in a 30-mile swim at Montreal, received $500. He was paid at a much better rate in Toronto, even if he didn't get as much as most people thought he ought to have been paid.

Fair directors can congratulate themselves upon the fact that while there was plenty of rain for the Peterborough Industrial Exhibition, we were at least out of the tornado belt.

We are just a little bit eager to know if we can use one of those report cards to tell the Bureau of Complaints about the fellow who makes his auto horn serve instead of ringing the door-bell.

The Y.W.C.A. is to be commended upon providing opportunities for learning to swim. Those who have not mastered the art would do well to take this chance.

Big business isn't so smart there. United States Steel says it paid $11,000,000 too much taxes in 1918. Why we would never make an error like that!—Brandon Sun.

The man who studies the habits of fish is called an Icthyologist. But we don't give quit as long a title to the fellow who tells fish stories.—Ottawa Journal.

The Question Box

R. B. Q.—When is the fall fair at Roseneath?

A.—October 12.

* * *

C. M. D. Q.—I wish to trace a relative who was last heard of at Chicoutimi. How can I do this?

A.—Write to E. Berthiaume, Chief of Police, at Chicoutimi, Que.

* * *

J. A. E. Q.—Can a municipality go in for town planning?

A.—Yes. In Ontario an urban municipality can, subject to approval of the Ontario Railway and Municipal Board, make a general plan of the municipality and for some miles of the district surrounding it. Special permission must be obtained for subdivisions which show any highway less than 66 feet wide.

GOD'S MINUTE.

Whatsoever ye shall ask the Father in My name, He will give it you.—John 16: 23.

* * *

O God, Who art the Father of all the families of the earth, and Who makest men to be of one mind in a house: Bless this household, we beseech Thee, and grant that its members may be so united to one another in Thy faith and fear, that Thou mayest have Thy dwelling in them, and through them draw others to know Thee, to love Thee, and to serve Thee.

Set us free, we beseech Thee, from all the sins which we have committed in the years that are past, showing us how we have displeased Thee, making us sorry for all our selfishness, our pride, our anger and every other wrong-doing.

Grant us courage this day to be true to Thee, in thought and word and deed. Make us patient and humble, pure in heart and speech, cheerful and self-forgetful, temperate and just. Strengthen us to stand for the rights of the poor, the oppressed, the forsaken, against the insolence of the rich and the tyranny of the powerful. And bring us at last to Thy Heavenly Kingdom. All this we ask for the sake of Thy dear Son, Jesus Christ, to Whom, with Thee and the Holy Ghost, be glory now and forever. Amen.

Rev. James O. S. Huntington,
West Park, N.Y.

A Thought

OLD AGE.

When life has been well spent, age is a loss of what it can well spare—muscular strength, organic instincts, gross bulk, and works that belong to these. But the central wisdom, which was old in infancy, is young in four-score years, and, dropping off obstructions, leaves, in happy subjects, the mind purified and wise.

I have heard that whoever loves is in no condition old. I have heard that, whenever the name of man is spoken the doctrine of immortality is announced—it cleaves to his constitution. The mode of it baffles our wit, and no whisper comes to us from the other side. But the inference from the working of intellect, living knowledge, living skill—at the end of life just ready to be born—affirms the inspirations of affection and of the moral sentiment.—R. W. Emerson.

STERLING EXCHANGE

MONTREAL, Que., Sept. 18 (Canadian Press). — Sterling exchange rates were quoted here yesterday as follows:

Demand, $4.84 5-16 to 7-16.
Cables $4.84¾ to 13-16.

Summer Kidney Cold

You go to bed feeling like a million dollars, and wake up with a pain in the back that makes you wince with every move.

Perhaps the shower was too cold. Maybe you sat in a draught when overheated. Whatever the cause, the pain is there and you want relief just as quickly as you can get it. ABBEY'S is kind to kidneys, inflamed and congested by summer cold. It neutralizes the excessive acidity, reduces irritation of the bladder, soothes the kidneys and thus eases the pain.

ABBEY'S also insures regular elimination of the body waste, enabling the system to throw off the cold in the shortest possible time.

If you are miserable with a summer kidney cold, ABBEY'S will certainly help you to get rid of it.

Take...

ABBEY'S

The Morning Health Salt

For half a century, ABBEY'S has done its full share in protecting and maintaining the public health. It has brought the comfort and enjoyment of good health to people all over the world; and is generally regarded as the highest type of efficient effervescing saline. 434

CATTLE, GRAIN AND PRODUCE

Hogs.

Live hogs, thick, smooth, $12.50 cwt.; select graded, $13.00; dressed hogs, head on $20; head off, $21.

TORONTO LIVE STOCK.

TORONTO, September 18. — With eight thousand cattle for sale, trading was very slow. Only 200 cattle were over the scales at eleven o'clock.

A draggy market will continue all day with lower prices prevailing.

The choice cattle will be least affected, leaving the greatest cut on medium and common.

Cows of all classes will be lower, some bids on choice butchers were placed at a quarter less than last week's close.

Some small buyers picked up bologna bulls at $6.90, which was little changed from last week. Packers buyers are bidding lower.

The slump seemed to affect demand for choice baby beeves in no way. They were turned over at $15.00 for extra quality tops.

QUOTATIONS.

MONTREAL GRAIN AND PRODUCE

MONTREAL, Que., Sept. 18 (Canadian Press)—Extreme dullness marked the export trade in Canadian grain here yesterday. The local cash grain market was also quiet, the demand being only for odd cars for shipment to country points. The tone of the market was steady and prices were unchanged.

The local and foreign demand for Spring and Winter wheat flour was quiet, but values were firmly maintained.

The demand for millfeed continued good and the market was fairly active, with a firm undertone. A fair trade was done in standard grades of rolled oats and prices were fully maintained.

A feature of the baled hay trade was the stronger feeling that developed and prices scored an advance of $1 per ton, which was attributed to the increased demand for domestic consumption and the scarcity of the top grades owing to the fact that the crop this year in many sections of the province of Quebec has turned out to be much smaller than was at first expected. Sales of car lots of Extra No. 2 timothy hay were made at $14 to $15 per ton; No. 2 Timothy hay at $13 per ton; No. 2 Timothy and clover mixed hay at $12 to $12.50 per ton, f.o.b. cars here.

There was no actual change in the local egg situation, but the undertone to the market for strictly fresh stock was very firm on account of the continued small supplies coming forward and the light stocks on spot. Sales of small lots to meet immediate wants were made at $4.20 to $4.40 per bushel, ex-store, and choice white hand-picked in car lots to arrive were quoted at $4 per bushel, ex-track.

A feature of the butter trade was the increased demand from country buyers and a moderate amount of business was done in this direction, but the demand from spot buyers was again of a limited character. The undertone, however, remains firm on account of the fact that supplies coming forward are not sufficient to meet the daily local requirements. The receipts were 704 packages.

The volume of business in cheese with English importers was small. There was some demand from spot buyers for supplies and the tone of the market on the whole was firmer. The receipts were 4,567 boxes.

Sheep 22,000. Lambs, slow. Sheep, weak. Lambs, good and choice, 92 pounds down, $12.85 to $14.10; cull and common, $7.50 to $11.35; ewes, medium to choice (150 pounds down), $4.25 to $6.85. Feeder lambs, good and choice, $13.85 to $14.75.

CHICAGO GRAIN

CHICAGO, Sept. 18 (Canadian Press).—Despite stubborn opposition, wheat prices yielded yesterday in some degree to pressure of increasing supplies. The corn market likewise receded at the last, curtailment of available stocks of corn turning out to be less than most traders had expected.

Closing quotations on wheat were unsettled, ¼ to ¾ net lower. Corn finished ¼ to ¾ down; oats unchanged to ¾ higher, and provisions varying from 7 to 10 decline to a rise of 2.

Announcement of 4,463,000 bushels increase for the week in the United States wheat visible supply total was a last straw on the camel's back yesterday in the wheat market here. The domestic aggregate of wheat in sight is now 95,882,000 bushels, against 69,869,000 bushels a year ago. It was this news which prevented any worth-while rally as trading drew to

SCHOOL FAIRS

DOWNEYVILLE SCHOOL
(Examiner Correspondent.)

DOWNEYVILLE, Sept. 18.—The Annual Rural School Fair for Downeyville district was held in Downeyville Wednesday. The crowd was not as large as usual, for the weather was unfavorable, but it was an enjoyable day for the children and teachers. There were four schools represented: S.S. No. 12, with Miss M. Duffy, teacher; S.S. No. 6, with Miss Alma Scully, teacher; S.S. No. 15, with Miss McPherson, teacher; S.S. No. 4, and High School, with the Misses Mary O'Connell and Nora Costello, teachers.

The following were the prize winners:

Potatoes, Irish Cobblers.

Hazel Dorgan, 1st prize, S.S. No. 4; Michael Harrington, 2nd, S.S. No. 12; Thelma Lucas, 3rd, S.S. No. 4; Orville Perdue, 4th, S.S. No. 6; Mark Scully, 5th, S.S. No. 12; Mildred Lucas, 6th, S.S. No. 4.

Potatoes, Dooleys.

Rita Winn, 1st prize, S.S. No. 12; Mark Scully, 2nd, S.S. No. 12; Marguerite Winn, 3rd, S.S. No. 12; Frank Dorgan, 4th, S.S. No. 4; John Blum, 5th, S.S. No. 4.

Beets.

John O'Leary, 1st prize, S.S. No. 4; Charlie Harrington, 2nd, S.S. No. 4; Parnell O'Neill, 3rd, S.S. No. 6; Emmerine Carroll, 4th, S.S. No. 4.

Squash.

John Scully, 1st, S.S. No. 4; Emmerine Carroll, 2nd, S.S. No. 4; Charlie Harrington, 3rd, S.S. No. 4; Evelyn Duffy, 4th, S.S. No. 12.

Carrots.

Raymond Perdue, 1st, S.S. No. 6; Francis Winn, 2nd, S.S. No. 12; Ruth O'Neill, 3rd, S.S. No. 6.

Turnips.

Claude Scully, 1st, S.S. No. 2.

Oats.

Ralph O'Neill, S.S. No. 15.

Weeds.

Adrian O'Neill, S.S. No. 6.

Weed Seeds.

Helen Costello, S.S. No. 14.

Corn.

Willie O'Neill, 1st prize, S.S. No. 15; Pauline Scully, 2nd, S.S. No. 12; Francis Fox, 3rd, S.S. No. 4; Thelma Lucas, 4th, S.S. No. 4.

Apples—Wealthy.

Oscar O'Neill, 1st, S.S. No. 15. Ralph O'Neill, 2nd, S.S. No. 15; Marguerite Winn, 3rd, S.S. No. 12; Tita Herlihy, 4th, S.S. No. 4.

Snow.

Mildred Lucas, 1st, S.S. No. 4; Vera Lucas, 2nd, S.S. No. 4.

Crabs.

Marguerite Winn, 1st prize, S.S. No. 12; All. O'Neill, 2nd, S.S. No. 6; Ruth O'Neill, 3rd, S.S. No. 6.

St. Lawrence.

Lucille Morrissey, 1st prize, S.S. No. 4; Raymond Perdue, 2nd, S.S. No. 4; Grace Dorgan, 3rd, S.S. No. 4.

Bird House.

Herbert Harrington, S.S. No. 4.

Foot Ruler.

Joseph Gooslau, S.S. No. 4.

Vegetable Marker.

Joseph Gooslau, 1st prize, S.S. No. 6; Claud Scully, 2nd, S.S. No. 12.

Asters.

Marguerite Winn, 1st prize, S.S. No. 12; Michael Harrington, 2nd, S.S. No. 4; Mark Scully, 3rd, S.S. No. 12; Ethel Winn, 4th, S.S. No. 12.

Eggs (Brown).

Norine Gooslau, 1st prize, S.S. No. 4; Lucille Morrissey, 2nd, S.S. No. 4; Michael Harrington, 3rd, S.S. No. 12.

Eggs (White).

Michael Harrington, 1st, S.S. No. 3; Rita Winn, 2nd, S.S. No. 12; Mourine Garvey, 3rd, S.S. No. 4.

Barred Rocks (Cockerel).

Helen Costello, S.S. No. 4.

Pullet.

Imilda Garvey, S.S. No. 4.

Trio—Mourine Garvey, S.S. No. 4.

White Wyandotte.

Pair—Teresa O'Leary, S.S. No. 4.

White Leghorn.

Pair—Emerine Carroll, 1st, S.S. No. 4; Helen Costello, 2nd, S.S. No. 4.

The Trustees' Race was run by Messrs. Martin Herlihy and Chas. Lucas, the latter the winner.

The Teachers' Race was run by the Misses Alma Scully and Mollie Dupoy, the latter winning the box of chocolates.

The school parade was one of the best and S.S. No. 4 was first; S.S. No. 6, second; S.S. No. 12, third, and S.S. No. 15, fourth.

The public speaking senior was won by Anna Tracy, S.S. No. 12, and junior by Michael Harrington, S.S. No. 12.

The Eaton Trophy was won by Helen Costello, S.S. No. 4.

Reeve Martin Carroll addressed the audience, also Rev. Father Galvin and Father Ferguson, who were present for the occasion.

Bladder Weakness Getting-Up-Nights Quickly Relieved!

Pleasant Home Treatment Works Fine; Used by Doctor For Many Years

What a wonderful comfort it is to sleep all night and not get up once from Bladder Weakness and Irritation.

The daily annoyance, restless nights of misery, backaches and nervous irritability that result from Bladder Troubles are wrecking the lives of thousands who might otherwise be in the best of health.

To be at your best, you must have peaceful, health-giving sleep and freedom from daily irritation—that's why Dr. Southworth's URATABS give such wonderful satisfaction.

Made from a special formula and used in the Doctor's succesful private practice for nearly 50 years—URATABS, now obtainable from your druggist for inexpensive home use, have brought quick help and comfort to many thousands.

No matter what your age may be or how many medicines you have used without success, if you want to forget you have a Bladder and enjoy ther est of peaceful, unbroken sleep, try URATABS today. Bond's or your druggist will refund the small cost if you are not well pleased!

Obituary

(Examiner Correspondence.)

MRS WILLIAM O'BRIAN.

MILLBROOK, Sept. 18.—Following an extended illness, there passed away on Sunday, September 16, a life-long resident of this community and its vicinity, in the person of Mrs. William O'Brian, whose maiden name was Hannah Lightfoot.

Deceased was born in Cavan township and was a daughter of the late Mr. and Mrs. John Lightfoot. Surviving are two daughters: Mrs. Charles Leach, (Verta) of Victoria, B.C., and Miss May, at home; and one son, William O'Brian, of Cavan. There are several grandchildren.

The funeral will take place from her late residence, Marshal street, on Wednesday, September 19, at 2.30 p.m., Rev. Canon Allen officiating. Service at the home will be at 2 o'clock.

Interment will be in the Presbyterian cemetery.

(Examiner Correspondence)

MRS. RICHARD TEDFORD

WARSAW, Sept. 18.—(Examiner Correspondence).—Another old resident of Dummer passed away this morning in the person of Mary Trotter, widow of the late Richard Tedford. Mrs. Tedford, who was 79 years of age, had been confined to her bed for about a month but had been in poor health for some three years, suffering from heart trouble.

Her husband predeceased her by thirty-one years, but seven children survive. There are four sons, Robert of Norwood, William of Lakefield, Richard on the homestead near Warsaw, and Joseph, also a farmer near Warsaw, and three daughters Mrs. McNeilly of Trent River, and Mrs. Clarence Watts and Mrs. Gordon Payne of Warsaw.

Funeral arrangements have not yet been made.

6 Years of Misery

No Relief from Stomach Trouble Until He Tried TANLAC.

If your stomach is sick, you are sick all over. If you can't digest your food properly, you quickly lose strength get thin and nervous, and feel just as tired in the morning as when you went to bed. For 20 years Tanlac has been restoring to permanent, buoyant health many thousands who suffered just as you do. Why shouldn't Tanlac do for you just what it did for Mr. Noah Pare, 330 Albert street, Windsor, Ont.

He writes: "There was not a day in six years that I did not suffer with my Stomach. It was sore as a boil, and gas would clog up in my chest until I had to fight for breath. I became so nervous and worried that the strain was showing on me. I could not eat, sleep or do my work properly. I tried many treatments without any benefit whatever until I started on Tanlac—and I want to tell every one who suffers as I did, to use Tanlac. After finishing the third bottle, I was well and I don't believe there is a man in Canada with a better stomach than mine. I eat and sleep well; never have pain or gas; never had a day's sickness since using Tanlac."

Tanlac brings back lost appetite, helps you digest your food, builds up weight and strength. It contains no mineral drugs; it is made of roots, barks and herbs, Nature's own medicine for the sick. Get a bottle from your druggist to-day. The cost is less than 2c a dose—and your money back if it does not help you.

GOOD PROGRESS MADE IN PAVING

Drainage Work Finished, With Much Pavement Already Laid.

TWO WEEKS WORK.

MILLBROOK, Sept. 18 (Examiner Correspondence).—Good progress is being made with the work in connection with the two miles of pavement to be laid here this season. The main storm drain was completed some weeks ago, a distance of approximately three-quarters of a mile being involved in this task. The ditch draining along the entire two miles of streets is also finished, as well as the lateral drains into the cellars of business places and some homes.

Preparation for the surface is all complete on Tupper street, Regent street, and King street east as far as the bridge, and this work is being rapidly pushed forward from the western extremity of King street as well. The business section will be done last. On a section of King street east, near the Regent street intersection, reinforcement has been found necessary owing to the spongy condition of the road bed, and a cement base has been put in over a distance of some feet. This will also be done on the parsonage hill, about opposite Mrs. J. C. Kells' property.

It is expected that a gang of forty men will be here next week to proceed at once with the amesite top, promise being made that the entire contract will be finished within two weeks' time. The men bring their own cook with them, and permission may possibly be asked of the Agricultural Society to allow them the use of the main building on the fair grounds for accommodation for both sleeping and eating.

Appreciation of the pavement will be decidedly genuine, as the detour round by the old Octagon Mill road has been far from good, though it was considerably improved when its use became obligatory. The condion of the streets generally, torn up as they have been for several weeks, has made motoring anything but a pleasure, within community limits, this summer. Probably this accounts for the fact that the number of tourists motoring through the village this year has been considerably less than in previous seasons.

At present the workmen are putting in the cement basins to catch surface drainage. There will be nine of these all told. The cement curb along the business part of King street is almost complete, and the new culvert and bridge on Tupper street are now in use.

STUDY ANTIDOTES FOR POISON GASES

British Scientist Roused To Greater Zeal By Success of Mock Raids.

London, Sept. 18 (By the Canadian Press).—Novel measures to counteract the effect of deadly gas-bombs dropped by aeroplanes on London in possible future wars are being considered, but such expedients as are suggested would cost enormous sums and would provide only a small measure of protection against such a destructive force as could be launched, judging by the recent mock air attack that London experienced.

Emergency supplies of gas masks for every man, woman and child would be one measure of safety. Another would be the installation at every air-inlet of the ordinary house of "seals" of chemical antidotes, which would render each house gas-proof. A third precaution is the training of special gas-squads, men wearing gas-proof clothing and masks and equipped with a spraying mechanism to lay and neutralize gas clouds in the streets.

And the provision of "community" dugouts is suggested by subsidizing motor companies to build four- and five-story garages underground on the condition that these could be used as bomb-proof shelters in time of war, for large numbers of people.

The verdict on the giant mock attack causes many gloomy predictions. It is estimated that in actual warfare at least 500 tons of bombs would have been successfully launched on the capital. Although some raiding formations suffered heavy losses from anti-aircraft fire and the defending fighters, more than half the "enemy" bombers evaded the defence. The time factor is stressed by those who figure that at least 11 attacks were in progress before the enemy planes had been in sight of London for more than an hour.

Marmora

(Examiner Correspondence).

MARMORA, Sept. 18.—Mr. James Shaw has moved into the residence recently vacated by Mr. Bert Davidson.

Mr. Carl Wood returned to Peterborough on Saturday.

Mr. Arthur Berry was called home to Westport on Saturday owing to the serious illness of his mother.

Mr. Milford Steenburgh has moved with his family to Peterborough.

Messrs. R. Bonter and W. Forsyth spent Sunday in Oshawa.

Mr. and Mrs. Charles Derry, of Madoc, visited the former's parents, Mr. and Mrs. W. H. Derry, on Sunday.

Mr. and Mrs. Art Moffatt of Peterborough visited relatives here on Sunday.

Misses Alma and Ina Shetler, of Toronto, are visiting Mr. and Mrs. Clifford Jones.

Mr. and Mrs. Manley Lavender and son Glen spent the week-end with relatives at Wellington.

BAN ON "NUDITY"

LONDON, Sept. 18.—An order recently issued by the Bishop of St. Brieuc, Brittany, bars any woman with bare arms, legs or shoulders and boys with shirts open too low at the neck, from entering any church or presbytery in his diocese.

COMMITTEE CLOSES LIST

Choice of Minister Will Be Made From Among Those Already Heard.

DECISION NEXT MONDAY.

(Examiner Staff Correspondence)

CAMPBELLFORD, September 18.—Acting on the feeling expressed by the congregation of St. Andrew's Presbyterian Church at a meeting held after the evening service on Sunday, the committee of the congregation met in the ladies' parlor of the church at half-past two yesterday afternoon. Rev. Dr. Thomson presided. It was unanimously decided that the list of applicants for the pulpit here be closed and that a meeting be held for the purpose of calling a minister. This meeting will be held in the church at eight o'clock on Monday evening, September 24.

There have been six ministers heard as applicants, and of these, one has already accepted a call to another church. The ministers who occupy the pulpit for the next few Sundays will not be applicants, but supplies. It is expected that Rev. Mr. McGregor, of Toronto, will preach here next Sunday. Mr. McGregor has preached here on a former occasion, and those who heard him will be pleased to know that he will return for one Sunday. Who will be the minister for the last Sunday in the month is not yet decided, but it is understood that Rev. Peter Taylor, of Toronto, will be invited to take charge of the services.

PROJECT FOR CANAL AGAIN IS RENEWED

Cut Through Isthmus of Chignecto, Making Nova Scotia an Island.

CENTURY OLD PROJECT

Canal Would Provide a Valuable Trade Route for Maritimes.

AMHERST, N. S., Sept. 18.—(Canadian Press).—Off and on for more than a century past engineers and commercial leaders in the Maritime Provinces have been preaching the necessity of cutting a canal through the narrow Isthmus of Chignecto and thus at a single stroke severing Nova Scotia from the rest of the Dominion. It is pointed out that while such a canal would transform the Province into an island in the terminology of physical geography, it would bring its production fields and ports into closer commercial communication with the markets of central and western Canada.

The century-old project was recently revived by the Amherst Board of Trade, which, after receiving an exhaustive report presented by Hance J. Logan, K.C., passed a resolution urging the Dominion Government to undertake the construction of the canal at the earliest possible date.

A canal across the isthmus would shorten the sea run from the port of the maritimes to the St. Lawrence River ports by two days, cutting off the dangerous circuit of the Nova Scotia coast; would greatly facilitate trade between the Atlantic Provinces and the West Indies, and bring Prince Edward Island into closer touch with Saint John, the commercial capital of New Brunswick.

While the Maritime Provinces, and particularly Prince Edward Island, stand to gain most by the consummation of the project, its promoters state the whole Dominion would benefit. Millions of tons of coal from the Cumberland Basin, gypsum from Albert County, N. B., apples from the Annapolis Valley, could be shipped through the new artery of trade to the Gulf of St. Lawrence and so to the port of Montreal for distribution throughout the Dominion. Transportation and marine insurance costs would drop.

Fifty years ago the project seemed well on its way to actual consummation when the Dominion Government granted $1,000,000 to commence construction, it having been approved by the Canal Commission of 1871, together with the Welland, Lachine, Sault Ste. Marie and Rideau Canal plans. Then a more novel scheme for removing the trade barrier blossomed into brief splendor, detracting attention from canalization. In 1882 the ship railway project was launched and quickly gained strong support. The idea was to construct a railway on which ships with their cargoes undisturbed in their holds would be hauled by locomotives across Chignecto. But after some preliminary work the project was abandoned.

The first survey for a canal site was carried out in 1822 at the instigation of the British Government, more interested in finding a safe route for its small ships of war from Saint John and the Bay of Fundy to Quebec than in stimulating the commercial development of the infant Provinces of the sea. Other surveys followed in 1825 and 1843.

At the Quebec Conference of 1864, one of the gatherings which paved the way for the union of the Provinces, the construction of the waterway, then referred to as the Baie Verte Canal, was discussed. Present backers of the project declare that it was held out to the people of the Maritimes as one of the inducements to enter the Confederation pact.

The Canal Commission of 1871 declared the Baie Verte Canal to be of the utmost importance, placing it on the same basis as the Welland, Lachine and Sault Ste. Marie projects. These others have long since been carried to successful completion, but the 20-mile strip of bogland which joins Nova Scotia and New Brunswick still remains unsevered.

Along the line favored by the latest survey conditions are ideal for canal construction, almost the entire distance being through marsh and bogland, with only about two-thirds of a mile of red sandstone requiring blasting.

RED ROSE TEA "is good tea"

Red Rose Orange Pekoe is supreme

In clean, bright Aluminum.

An apple contains about 82.5 per cent water.

EVERY TWO MILES ACROSS THE DOMINION

In every populated district throughout Canada, General Motors Authorized Service is available. The number of General Motors Maintenance Service Stations in Canada, if placed in a direct line, would be sufficient to extend across the Dominion, less than two miles apart.

NOT only does General Motors build better automobiles . . not only does it embody in these cars the latest engineering developments . . but it also maintains a vital interest in seeing that these better General Motors cars deliver the utmost in satisfaction in the hands of their Canadian owners. To that end, there are in Canada enough General Motors service stations to extend at two-mile intervals from the farthest tip of Cape Breton, clear across Canada to the blue waters of the Pacific.

These service stations are staffed and equipped to render an efficient service. Each is within twenty-four hours distance of a distribution depot for genuine General Motors parts.

And, not in Canada alone, but throughout the United States . . all around the civilized world . . the General Motors chain of service extends unbroken.

Whatever road you travel, however far you go, you will find General Motors service always near at hand . . BETTER service, because of General Motors centralized control . . ECONOMICAL service, because of the standardization and the extensive interchangeability of General Motors parts . . SATISFYING service, because its one object is to insure for you the uninterrupted use and enjoyment of your General Motors car . . Service everywhere and everywhere *good* service.

Pte. Arthur Lewis who went overseas with the Queen's Field Ambulance Corps is reported killed in action. He resided at 579 Aylmer street and left the Collegiate Institute to enlist.

Gunner Percy Josey of the 26th Battalion, who formerly lived at 504 Patterson street, is reported to have been gassed.

Pte. H. R. Moore who went overseas with the 39th Battalion and was transferred to another infantry battalion in France is reported to have died of wounds. Pte D. D. Nicholls and Pte B. Weeks are reported wounded.

Pte. Percy Fowler of the Army Medical Corps is reported killed in action. He was a brother of Mrs. H. E. Tillcock, Park street, who still has five brothers serving.

Captain Max Hamilton is transferred from the 146th Battalion to the 247th. Park street church pays honour to the memory of Sergt. Fred Thomas.

HOROSCOPE

The Stars Incline, But Do Not Compel

Wednesday, September 19, 1928.

(Copyright, 1928, McClure Newspaper Syndicate.)

Good and evil planetary influences contend to-day, according to astrology which reads sinister signs in the skies.

In the morning good luck should attend interviews with men of prominence whose support or commendation is desirable.

The early hours are favorable to all who seek employment and there is even chance for persons who desire some sort of preferment.

All the signs appear promising for persons in the Sun. This means that men and women who have attained high positions are likely to retain them.

Under this direction of the stars intrigue and indirection are believed to flourish. It favors secret plans and successful plots.

Sensational personal comment may be expected in the public prints at this time when libel suits and slander charges may be numerous.

Again the seers point out that the younger generation will lead in public matters and that women may find conditions unfavorable.

The evening is read as unfavorable to courtship or to the amicable association of men and women.

It is rather unfavorable for the theatre and those who belong to it since many changes in management and personnel are indicated.

Motion-pictures are subject to stars that presage drastic reorganization of companies and development of mechanical processes as well as players.

The sign read as indicating more general demand for orators and appreciation of the effect of the human voice all is interpreted as foreshadowing for movie actors a demand for diction as well as dramatic talent.

Women are to make new records as distinguished scholars, it is prognosticated, and they are to attain high positions in public service in the next year.

Persons whose birthdate it is have the augury of a good year in a financial way, but they may have troubles of the heart and should be wise in all romantic adventures.

Children born on this day probably will be rather difficult to understand, for these subjects of Virgo have hidden fires. Outwardly quiet they are intense in their emotions. Many talented dramatists and actors belong to this sign.

Junior Examiner

Official Organ of the Seckatary Hawkins Club

NO. 1 SEPTEMBER 18, 1928

EDITORIAL

This is the first number of The Junior Examiner, which is to be the official paper of the Seckatary Hawkins Club. It will contain news of the Club, letters from members, and little sketches.

The Seckatary invites all members to contribute to The Junior Examiner and to the big page which is printed every Saturday.

Any boy or girl may join the Club by sending in the coupon printed on another page. The Seck. will at once send a button and a membership card.

JOIN THE SECKATARY HAWKINS CLUB

Send in the name of one new member and get a picture of the Seckatary.

Send in six new names and get a splendid picture of the gang, 13 inches long by 8½ inches deep.

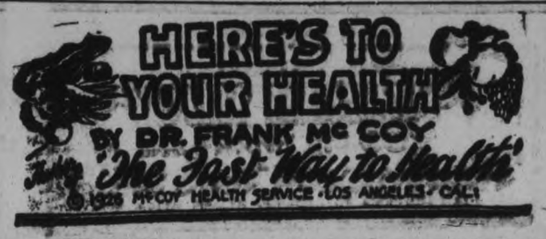
LETTERS

Dear Seckatary:

I have got my pin and like it. Every Monday when we get the paper I see what Seck. is doing. I like his stories very much. The river cave must be quite a place. The Pelhams got scared when "Old Skinny Guy" lit the lantern. I hope, Seck., this club gets the cave.

Well, I have been going to write this letter a long time ago, but I forgot. School has started again. I like it well. Well, I must close.

Yours
fair and square,
Garnet Howden.
Fowler's Corners.



SUN BATHING

When you are contemplating a sunbath, either in the nude or at the beach, it is well to keep in mind the fact that an overdose of the sun's rays is always injurious.

I find that many people suffer from the mistaken belief that if a little sunshine is good, a great deal is better Extreme sunburn is often very dangerous, as the skin becomes so swollen and injured by the burn that the proper elimination of the poisons, which are normally discharged through the pores, cannot take place. This has a disastrous effect upon the kidneys.

Even a faint glow of sunburn on the skin affects the body in a proportionate manner, and is injurious as long as it lasts. It is much better to measure one's sunbath over several exposures and receive an increasing tan each time, than to try to become burnt through the effects of only one or two sunburns.

One whose skin is well tanned has benefited by the ultra-violet rays of the sun which are needed to produce such a dark color. However, the mere darkening of the skin is of no benefit but must be considered only as a necessary change which occurs to the skin as a protection against too much sunlight.

In taking your sunbaths, remember that the sunlight must strike the body directly without the obstruction of clothing or even glass, which would divert the ultra-violet rays. Heating the body with sunlight through clothing is of no more benefit than heating from a stove.

It is well to time yourself at first so that you do not take an overdose of this valuable remedy and increase the time of treatment as your skin gradually tans.

When taking a sunbath, one should avoid overheating which is indicated by a quickening of the pulse. When this occurs, quietly rest in the shade for a time before finishing your regular time of exposure.

Sometimes people bathing on the beach are sunburned on a cloudy day because they do not feel the heat of the sun. This is because the ultra-violet rays which produced the burn do not warm the skin, but do penetrate through the clouds and moist air. If you wish to stay on the beach for a long time without being sunburned, it is wise for you to expose your body to the sun for only a short time, and for the remaining period keep it covered with a blanket or robe. In this way many hours can be spent on the beach so that one can benefit from and enjoy the inhalation of the clean, fresh, moist, salt air.

Nude sunbathing is now being recognized by all physicians for diseases such as anemia, tuberculosis, rickets, asthma, catarrh, chronic tonsillitis, and disorders of metabolism, such as nephritis and diabetes. There is a German proverb that states that the hearse calls twice as often on the shady side of the street as on that which is more favored by the sunshine.

The modern bathing suit has taught us to cultivate bodies more beautiful and pleasing to the eye. Even in ordinary street clothes the women of today have adopted such practical styles that the air circulates over the whole body, giving the skin a continuous air bath for which it has been hungry for several generations. For some reason, men have been more conservative about reforming their style of dress However, the lighter underclothing adopted by both sexes allows a freer circulation of air and undoubtedly contributes to the increased longevity of the human race.

Take advantage of the waning summertime so that you can avail yourself of this most valuable health force—a simple and inexpensive treatment for which there is no better substitute in the physician's pharmacopoeia.

Questions and Answers.

Question: A. H. writes: "I am seventy-three years old, and am bothered with a twitching or jerking in my legs when retiring, sometimes keeping me awake for an hour or more. Will you please let me know the cause, also if there is a remedy?"

Answer: The jerking in your legs is doubtless caused by a poor circulation of blood. I would advise you to take some exercises about an hour before retiring. After the exercises, sit in a tub of warm water, immersing the legs in the water for about two or three minutes. This will help the circulation and should prevent the jerking. If you will write me in care of this newspaper inclosing a large, stamped, self-addressed envelope, I will be glad to send you a special chart of exercises without charge.

Question: Mrs. M. G. asks: "What is the best method of keeping grapes?"

Answer: Sound grapes may be kept in good condition for a long time by wrapping each bunch in waxed paper. After tying the ends they should be placed on some soft material, such as cotton batting, and kept in a cool place. They may also be packed in California redwood sawdust and stored in a cool place. Another method, frequently used in Europe, is to place the stock of each bunch of grapes in a small bottle of water containing a piece of charcoal. If a temperature of about 38° is maintained, they will keep in good condition for a long time.

Question: Ruth asks: "What would you think best to do for sciatic rheumatism? The party in question has been in bed close to four years with it. He is on a milk diet now?"

Answer: What is called "sciatic rheumatism" may be due to an inflammation of the sciatic nerve and caused by rheumatic toxins; or, the nerve may be pinched some place between where its branches emerge from the lower spine. An osteopath or chiropractor could quickly correct the trouble if it is caused by pinched nerves, and a diet to cure rheumatism would bring about a cure of the trouble if it is caused by the rheumatic toxemia

Why We Do What We Do.

WHY WE ARE NEVER SATISFIED.

(By Mehran K. Thomson, Ph. D.)

None of us is completely satisfied. Before we get what we want we think we are going to be thoroughly happy, but always there is something ahead of us that we are looking forward to.

Complete satisfaction means stagnation, death and decay. There is no greater spur to achievement than the desire to reach a notch higher in the social scale, in one's profession, in expanding a business, in making money, or whatever it is that we are striving for.

We are never satisfied, because we live in an imperfect world. No matter how far we may go in any line of activity there is always room for improvement.

The average man thinks he would be satisfied if he could run a hundred yards in ten seconds. But the athlete who can run it even a little under ten seconds is all the more eager to run it just a little faster.

The more we have the more we want; the more we can do the more we want to do.

Dissatisfaction is a mark of ability and ambition. It is often the mark of progress. The man who aims at a target on the ground close by may hit it with ease while the man who aims at the sun shoots much higher although he will miss his target by a big margin.

There is less chance for perfect satisfaction for a man of skill and ability than for the poor fellow who has nothing and can do nothing. The English philosopher, James S. Mill, must have sensed this psychological truth when he said, "It is better to be a human being dissatisfied than a pig satisfied; it is better to be a Socrates dissatisfied than a fool satisfied."

(Copyright, McClure Newspaper Syndicate.)

The fast disappearing ox team still remains as one of the special attractions to American tourists visiting in the vicinity of Digby, Nova Scotia.

DISTRICT MARKETS

AT BAILIEBORO

BAILIEBORO, Sept. 18.—Following are the week-end retail market prices:

SLEEPLESS NIGHTS AND LIFELESS DAYS

Constipation ruins rest

Don't let this deadly evil fasten its hold upon you. Spots before the eyes. Dragging feet. Aching muscles. Sleeplessness. These are just a few of the symptoms. Constipation is the cause of more than forty diseases.

Protect yourself—now. Kellogg's ALL-BRAN is guaranteed to relieve constipation safely and promptly. More—to prevent it just as surely. Eat two tablespoonfuls daily—chronic cases, with every meal. Doctors recommend ALL-BRAN because it is 100% bran.

Serve with milk or cream—and add fruits or honey for variety. Mix with other cereals. Sprinkle into soups. Use it in cooking too. Recipes on package. Genuine ALL-BRAN is made by Kellogg in London, Ontario. Sold by all grocers. Served at hotels, restaurants, On diners.

Kellogg's ALL-BRAN

LYRICS OF LIFE

THE FOLKS UPSTAIRS

I know I love the human race,
Of any creed, in any place.
I know I like the Singalese
And other men across the seas.
I love the poor, the wealthy, too,
And yet it's not so hard to do:
They don't drop hammers, don't move chairs,
Like people do
Who live upstairs.

The world is full of brotherhood,
We try to live like brothers should.
We're sending clothing to the East,
And often where they wear it least.
We love the Japanese, I know,
And here's the reason that it's so:
They do not play these jazzy airs
Like people do
Who live upstairs.

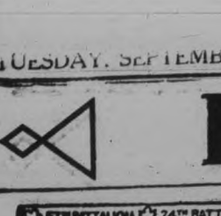
The tests of friendship have been told:
The loss of fame, the loss of gold,
For faithful friends are friendly still
Through poverty, disgrace or ill.
But here's the greatest test of all:
Perambulators in the hall.
For Christian love no man compares
With one who loves
The folks upstairs.

(Copyright, 1928, Douglas Malloch.)

IT'S EASY NOW

CHICAGO, Sept. 18.—A letter to Dad for additional wherewithal to make college life bearable, is made easy for Northwestern co-eds. The Northwestern Letter Shop, operated by three students, handles everything but the signature—for 10 per cent of the proceeds.

It took 76 years to build the Great Pyramid.



The Planter of the Tree

By RUBY M. AYRES

© McClure Newspaper Syndicate

WHO'S WHO IN THE STORY:

SALLY LINGFIELD, dancer at the Faun, a night club.

JOSH AKERS, waster, with whom Sally is in love.

POPPY, Sally's roommate, another dancer at the Faun.

PHILIP SANDERSON, rich young man of wealth, who early one morning, when drunk, runs over Sally, badly injuring her. Sanderson loves Sally.

SOMETIMES, Sanderson's dog.

MRS. KIFF, his landlady.

Josh Akers, hearing of Sally's probably permanent injury, says he is through with her, and Sanderson assumes her care. He gets a cottage in the country for her and Mrs. Kiff. At first Sally hates it, and is heartless to Sanderson—even telling him she is glad when Sometimes is injured by an automobile. But gradually she becomes somewhat reconciled, and even looks more kindly on Sanderson's love for her. The rector, ROBERT NAIRN, brings his young son, GARRY, to see Sally. Sanderson is immediately jealous. Word comes that Poppy is very ill, and Sanderson goes to her. While he is away Garry comes often to see Sally, and take her out in her invalid chair. After Poppy's death Sanderson goes back to Sally, and is jealous of her interest in young Garry.

XXIX—BY THE FIRE

At the end of the week Sanderson went back to London for two reasons—first to follow Poppy Sladen's lonely coffin to an obscure corner of an ugly London cemetery, and secondly to make arrangements for Sally to come to town for further advice.

Sally had clung to him when she said goodbye to him.

"Do you think they'll hurt me?" she asked fearfully.

"Not if I can help it," was his grim reply. "And they shan't lay a finger on you, even now, unless it's what you really wish."

"I do really wish it," she told him "It's only that I'm such an awful coward."

Garry Nairn had not been to the cottage again, but the day following Sanderson's departure he called.

Sally was delighted to see him, and said so frankly. It was raining, so he sat beside her in the little parlor and they talked.

Sally told him that she had made up her mind to be examined by another doctor if Philip could arrange it for her, and she was surprised because Garry did not look pleased.

"Why, what's the matter?" she asked disappointedly.

Garry scowled at the floor.

"I hope Sanderson will go to the top man," he said.

"Oh, he will," Sally assured him fervently. "Philip always has the best of everything for me."

"And it means that you will leave here and go back to London?"

"I suppose so—just for a little while, anyway."

She looked at his brown young face with puzzled eyes; then suddenly she smiled with understanding.

"Shall you miss me?" she asked.

"Of course."

Sally laughed.

"When we've only known one another such a little while?"

He turned his honest eyes upon her.

"There are some people you seem to have known all your life when you've only seen them once," he explained, not very lucidly.

"And am I one of them?" Sally asked.

Garry Nairn nodded; he was rather red about the ears.

"You're so little and helpless," he said boyishly.

"And you're so big and strong," Sally answered with a sigh of envy.

There was a little silence, and from the kitchen came the unlovely treble of Mrs. Kiff:

"I shall lo-ove you the s-ame for ev-er!"

"She always sings the same song," Sally complained.

"It's rather a nice song," Nairn answered. "It was one my mother used to sing."

"Oh!"

They looked at one another with sympathetic eyes, and then suddenly Nairn asked an irrelevant question.

"Is Sanderson any relation to you?"

She shook her head.

"No."

"Haven't you got any relations?"

"No. At least, if I have I don't know them, and I don't want to."

"I see." He fidgeted with an unlit pipe, and Sally said kindly:

"Do light it if you want to. Philip always smokes a pipe."

"Thanks."

She watched interestedly while he unfolded his pouch, filled his pipe and rammed the tobcaco down into the bowl. She had seen Philip do exactly the same thing dozens of times, but it had never interested her in the very least.

Philip had such long, lean hands—"spider hands," Sally had always called them—but Garry Nairn's were square and sunburnt, with freckles on them—the sort of hands, Sally thought wistfully, into which it would be such a comfort to slip one's own and feel them held in a hard, firm clasp. She ached to put the thought into action, and, as if he guessed something of what was in her mind, Nairn asked abruptly:

"What are you thinking about?"

"You might be shocked if I told you."

"Try me and see."

Sally flushed.

"Well, I was just thinking that I should like to take hold of your hand."

"Well—why not?"

And then suddenly her hand was in his, and she was conscious of such infinite content and happiness that she closed her eyes.

"Well?" Garry Nairn said rather hoarsely. "I've got a big leg-of-mutton fist, haven't I?"

"I like it," Sally whispered.

They sat for some moments without speaking. Nairn's pouch had fallen to the floor, and his pipe was unlit; then he said suddenly:

"When you are strong and well again——"

Sally's blue eyes snapped open.

"Oh, do you think I ever shall be?"

"Yes, I do think so."

Tears welled up and flowed over on to her cheeks.

"Well enough to walk—to walk through the woods, and pick the flowers, and perhaps climb over a stile without anyone to help me?"

"Yes."

"It's too good to be true. It makes me afraid."

The silence fell again, which Sally broke with a little laugh.

"What are you thinking now?" he asked.

"That it's funny—how I've changed," she explained. "Once upon a time all I thought about was dancing, and night clubs, and men to take me about. I used to lie here and long to get well so that I might go back to all that sort of thing; but now——" She broke off.

"And now?" he prompted.

"I must have changed an awful lot," Sally said slowly. "Because now all I want is to get well enough to be able to walk about these lanes, and to look after the cottage and the garden——"

"With no men about?" he queried.

The color rose slowly to Sally's pale face.

"I shouldn't mind—you," she whispered.

Nairn flushed dully.

"You don't mean that," he declared. "I'm not the sort of fellow you'd want hanging about. I'm too slow—too clumsy——"

"And I'm quite—useless," Sally answered. "Perhaps I always shall be."

They looked at one another with tragic eyes, then suddenly Garry Nairn bent and kissed the hand he held.

"Don't say such things. You're not to say them," he told her almost angrily. "It makes no difference, if you—like anyone—if they are ill or not. It makes no difference to me."

"But it would in time," Sally said, suddenly wise. "Just at first, perhaps, it seems rather pathetic to you to see me like I am, but you'd get sick of it—oh, how sick!—and then——"

"And then?"

"Then you'd look round for a girl who could race you down hill, and go for walks with you."

He was silent, but he still held her hand. Although nothing definite had been said between them, they seemed to understand one another perfectly. It was such happiness to be together—Sally had always known that, from the very first moment they met—and she knew now that there was not and never would be anyone in all the world who could give her such a sense of completeness and serenity as this broad-shouldered man with the red, quaintly-crinkled hair. Impulsively she told him of her dream.

"It was you I dreamt about. The back of the man's head was just like yours. I knew you at once—I knew you directly you walked into the garden with the vicar."

(To be continued.)

FOR Diarrhoea

THERE'S NOTHING TO EQUAL

This valuable preparation has been on the market for the past eighty years, and holds a reputation second to none for the relief of all bowel complaints.

Price, 50c. a bottle at all druggists or dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

STRANGE AS IT SEEMS— by John Hix

UNCLE WIGGILY

By HOWARD R. GARIS

Bedtime Story

UNCLE WIGGILY'S SWEET FERN.

(Copyright, 1928, by McClure Newspaper Syndicate.)

Uncle Wiggily was just about to hop out of his hollow stump bungalow one day to go adventuring when, all of a sudden, he heard Nurse Jane Fuzzy Wuzzy scream loudly:

"Oh, dear!" cried the muskrat lady housekeeper.

"What can be the matter?" asked Mr. Longears of the dining room table, there being no one else in the room with him at the time but the chairs, and they were asleep. "I guess maybe the Skillery Scallery Alligator is after some more of that chow chow," thought the rabbit gentleman.

But when Nurse Jane kept on screaming and Uncle Wiggily had hopped out to the kitchen he saw Miss Fuzzy Wuzzy holding the end of her long tail under the cold water faucet in the sink.

"Whatever is the matter?" asked Mr. Longears.

"The tea kettle boiled over and burned my tail and I am trying to cool it," said Nurse Jane.

"Oh, that's too bad," said Mr. Longears. "But a burn is a bad thing. I had better get Dr. Possum, and he will give you something to put on better than cold water, which will only stop the burning pain for a little while."

"Don't bother about me," spoke the muskrat lady housekeeper bravely. "Hop along and have your adventure."

"No, I'll get Dr. Possum," said the bunny uncle, and when the animal doctor had come with his bag of powders and pills fastened to his long tail he said to Nurse Jane.

"You must get right in bed and I'll put a poultice on your burn."

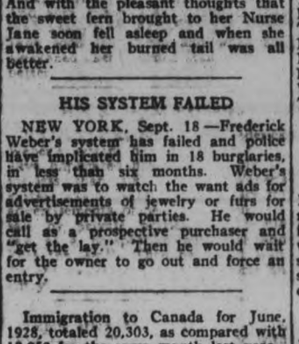
"But who will look after Uncle Wiggily's bungalow?" asked poor Nurse Jane.

"Never mind about the work. You do as Dr. Possum says and get in bed," ordered Uncle Wiggily kindly. "I can look after the bungalow. It will not be the first time."

His wife and the forty twelve little bunny children rabbits were still away on their summer vacation, school not opening until a week later. Soon Nurse Jane was in bed and Dr. Possum had put some cold green leaves on her burned tail so the pain was better.

"She will be all right when she gets to sleep," said Dr. Possum. Away he hurried with his bag of powders and pills on his tail, but Nurse Jane could not seem to get to sleep. Of course it was daytime and you know it is harder to go to sleep then than at night. The poor muskrat lady tossed and turned on the couch and though she said nothing about it her tail pained her very much.

"If I could only stop thinking about it I could go to sleep," she told Uncle



Wiggily when he told her to close her eyes. "But this couch is so hard and hot I can't sleep."

"I'll go ask Mrs. Hen and Mr. Rooster for some feathers to make you a softer bed," offered Uncle Wiggily, but even with a pile of feathers under her Nurse Jane tossed and tumbled and couldn't go to sleep. Perhaps the bed was too soft and hot now.

Uncle Wiggily was hopping around near the duck pond where the cat-tails grow and he was thinking how nice it would be if muskrat lady housekeepers had cat-tails that hot water wouldn't burn when, all of a sudden, he smelled a most lovely spicy perfume.

"Ah ha! Sweet fern!" said the rabbit gentleman to himself as he saw where he had stepped on a bush. Sweet fern is a sort of bush and when the green leaves are stepped on, or crushed in your hand, they give off a most lovely smell.

"A bed of sweet fern branches will be the very thing for Nurse Jane to lie on," thought the rabbit. "She will be cooler than on feathers and the sweet smell will make her go to sleep."

So he gathered two big paws full of sweet fern branches and, carrying them to the hollow stump bungalow, made a bed on the floor for Miss Fuzzy Wuzzy. And when the muskrat lady stretched out on it she closed her eyes and murmured:

"Oh, the lovely sweet fern! It makes me think of the time when I was a girl and went to the woods to gather huckleberries. Those were happy days!" And with the pleasant thoughts that the sweet fern brought to her Nurse Jane soon fell asleep and when she awakened her burned tail was all better.

HIS SYSTEM FAILED

NEW YORK, Sept. 18.—Frederick Weber's system has failed and police have implicated him in 18 burglaries, in less than six months. Weber's system was to watch the want ads for advertisements of jewelry or furs for sale by private parties. He would call as a prospective purchaser and "get the lay." Then he would wait for the owner to go out and force an entry.

Immigration to Canada for June, 1928, totaled 20,303, as compared with 18,052 for the same month last year.

Although teeth are white STILL..

Pyorrhea strikes 4 out of 5

Few people realize that Pyorrhea attacks even when teeth are clean and snowy white.

And as a result, this foe of health takes heavy toll from 4 out of 5 after forty and thousands younger. A needless sacrifice!

Take this precaution: See your dentist every six months. Every morning and night use Forhan's for the Gums. As a dentifrice alone, you would prefer it.

Without the use of harsh abrasives, it easily helps to keep teeth clean and white and also protects them against acids which cause decay.

Moreover, if used regularly and in time, it firms gums and helps keep them sound and alive, thus safeguarding them against the attack of Pyorrhea.

Get a tube of Forhan's. Use this dentifrice every day. Massage your gums daily with Forhan's, following the directions in the booklet that comes with tube. Teach your children this good habit. Two sizes—35c and 60c.

Formula of R. J. Forhan, D.D.S.

W.M.S. STUDIES STEWARDSHIP

Lakefield United Church Ladies Hold Fine Open Meeting.

BOOK ON AFRICA BEGUN.

LAKEFIELD, Sept. 17 (Examiner Correspondence).—The W. M. S. of the Regent Street United Church held an open meeting on Tuesday evening, with a good attendance, despite the threatening weather. Mrs. S. A. Kemp, the president, was in the chair and conducted the opening exercises.

Mrs. J. H. Sherin, the secretary, gave a reading, entitled "When the Deacon Talked in Church," which was along the lines of Christian stewardship, and was interesting and contained much material worthy of personal consideration in its application of the general conception of giving to missions.

Reports from the Watch Tower were given as follows: China, Mrs. A. Darling; Japan Mrs. G. A. Welbourne; Africa, Mrs. J. R. Northey; India, Mrs. W. Leonard.

An excellent musical program was presented, which was much enjoyed by the audience, and consisted of a duet by Mrs. Richardson and Miss Margaret Richardson; a piano solo by Miss Mildred Purdy, and a solo by Mrs. McMillen. Mrs. H. E. Moore presided at the piano.

The study book for the year is called "Drums in Africa," and is particularly interesting to the Lakefield branch because of its being the field where Rev. and Mrs. R. B. Harrison are laboring in the service of their Lord and Master.

The opening chapters were covered on Tuesday evening by Mrs. Elmer Milburn, who gave a splendid address, which made it sound like an interesting story of adventure, and indeed that is what it really is. The particular part of Africa dealt with is Angola, on the west coast, and the means which were required to send the first missionaries in 1888 were largely provided by the will of the late Asa Otis of New London, Conn., which bequeathed a million dollars to the cause. This bequest, added to what already had been collected, meant a sufficient amount to insure a real start, and three men went, Messrs. Baxter, Miller and Saunders. These men were called pathfinders, but they were just Christians who were anxious to do their part in response to the message of their Lord: "Go ye into all the world and tell the Gospel to every creature." The missionaries landed at Benguela and then found that they were to be held up for a time, and a Moroccan Jew proved to be a friend in need till all was ready for the march up country. After a very hard trip they reached Bailundo, where they were forced to tarry for some time because of a feud between the chiefs of Bailundo and Bie. The language was a terrible handicap, and in Africa, a bookless nation it was, a colossal task to get a vocabulary in order to teach the people. The death of Mr. Baxter was a great disaster, but the others bravely carried on and laid the foundation for a flourishing mission. Dr. Curry and his bride (formerly Clara Wilkes, of Brantford) were the first Canadian missionaries to go, but Mrs. Curry died of fever soon after her arrival, which was a severe blow to the young husband. A native who had two sons, Lumbo and Cumba, gave them to Dr. Curry to be educated, and Lumbo became a famous preacher and Cumba a fine orator. Miss Minnetaba Clarke was the first single lady to go out as a missionary to Angola, but she died in a short time, and the Misses Melville, one a teacher and the other a nurse, heard the call to service and went out, and have accomplished a great deal. The natives have built a beautiful church, and the carved front of mahogany is a remarkably fine piece of work, which was done by Lumbo, the native preacher. There are boarding schools, clinic, hospital, missionary home and also Dr. Curry's beautiful residence with its lawn and garden reminiscent of Canada.

The study book will be continued at future meetings.

Mrs. Kemp thanked Mrs. Milburn for her admirable presentation of her subject, the committee, and those who contributed to the musical program. She also welcomed Mrs. Wesley Sherin, a former member, who is a visitor in the village.

The committee served refreshments and a social hour was spent. The committee in charge were: Mesdames Welbourne, Richardson, McConkey, A. Darling, and E. Millage and W. W. Leonard.

The breakfast any one can get

SHREDDED WHEAT

Ready to eat—no preparation necessary. Just warm in the oven for crispness, and add either hot or cold milk. Sold by every grocer.

GEOGRAPHY NEEDED IN SCHOOL COURSES

Is Complement of History, Says Educationist, Urging Joint Study.

Glasgow, Sept. 18 (By the Canadian Press).—Ancient geography's importance on the curriculum of the school and universities was urged before the geographical section of the British Association for the Advancement of Science by Prof. John Myres, the sectional president, at the British Association meeting here a few days ago.

Prof. Meyers stressed the fact that geography was closely interwoven with history, and the one could not be studied regardless of the other. He thought it particularly opportune at this time, when rumors were being heard about the introduction in British schools of a "new phase in education" to define the value of geography and to ensure that its claims were put forward.

"Geography, as its name indicates, is the systematic description of this earth of ours," said Prof. Myers. "But description is not an end in itself. The end, to which it is the means, is a science of the earth, an understanding and interpretation of its meaning. Like all other departments of science, it presumes two things: an intelligence to which this significance is interpreted, and what I will only describe now as intelligibility of the facts of observation in relation with each other. In geographical science the relation of these facts with each other is their relation in space; the geographer ascertains, records, compares and interprets distributions, the arrangement of things on or in relation to the surface of the earth.

"Obviously, in this general sense, geography is the coequal sister-science of history, which studies and interprets the relations of events in time. History originally meant (as its name also indicates) the process of following or tracking something which has gone before, and left trace or trail; and is applied, like the name of geography, to the recorded result of such 'following-up.' Like geography, it begins with description and proceeds to interpret. But whereas the geographer's observations are for the most part verifiable at will—for he can go back to a place and see it again—the historian is always to this extent behind the times, that he can never catch up historical events at all, still less can he have them repeated, however closely the new devices of phonograph and photograph may simulate such repetition."

The speaker deplored the fact that the necessity for co-ordination of brain, hand and eye, stressed in elementary training, seemed to be ignored as the educational ladder was ascended. He explained that in every other aspect of learning and advanced study competent use of the special symbols and notation was an elementary necessity. But it was amazing to him how ill-equipped were most students of literary or historical subjects when it came to a question of describing anything otherwise than in grammatical longhand. It was not merely that they were poor draughtsmen; it was rather that they do not do their thinking about regional matters in such fashion that geographical symbols could express it. So long as a numerous and influential class of public servants and legislators was recruited from universities where indifference to geographical considerations lasted l[illegible]est, Prof. Meyers thought so long would the geographical aspect of historical study continue to be overlooked, merely because the responsible people have had little or no personal experience of it.

Marmora

(Examiner Correspondence.)

MARMORA, Sept. 18.—Mrs. George Dennis is visiting relatives in Belleville for a few weeks.

Mr. James Hegadoren spent Friday in Peterborough.

Mr. and Mrs. Ross Belnap, of New York, are spending two weeks with the former's parents, Mr. and Mrs. W. Belnap.

Misses Dorena Gehan and Anna O'Connor, are visiting friends in Picton.

Mr. and Mrs. F. N. Marett and sons, Douglas and James, are away on a motor trip to Kingston, Ottawa and points in Quebec province.

Mrs. Robert Cole and Mrs. Kar Ayre, of Timmins, are visiting Mrs Dan Osborne.

Mr. Clarencee Ross, of Toronto, has been visiting in town.

Mr. and Mrs. William Gray and family recently moved into part of the Bleecker residence on Forsythe street.

Rev. R. Sedore is leaving the local Free Methodist charge, having been appointed to Campbellford. Quite a number of his congregation assembled at the North Marmora Free Methodist parsonage on Monday to bid their minister and his wife farewell.

Miss Lena Sullivan is visiting in Toronto.

Mr. and Mrs. A. B. Smith, of Hastings and Mr. and Mrs. Walter Burkholder, of Haliburton, were Sunday guests of Mr. and Mrs. E. C. Prentice.

A sudden turn in the market puts some store in a position to offer you goods of the highest repute and quality at a bargain price. Read the advertisements and save money.

No smoke or soot, and more heat in Ford Coke

Product of the Ford Motor Company

NOW is the time to prepare for cold weather. When the first cool snap comes, your dealer may have so many orders for "immediate" delivery that he can't take care of all of them promptly. Somebody will have to shiver. Make sure it is not you and your family. Buy your winter fuel now.

Ford Coke is the fuel to buy. No smoke. No soot. No clinkers if you use ordinary care. Needs attention but twice a day. Plenty of heat, responsive to control. Ford Coke is practically all heat, in fact. When you buy fuel you pay for weight, but heat is what you want. And that's what you get in Ford Coke.

Ford Coke is made by the Ford Motor Company in its own coke ovens, from coal mined in Ford-owned mines. It is used by the Ford Motor Company. There is your assurance that the quality is both high and uniform. You can depend on it. For the Ford Motor Company cannot tolerate fuel of inferior or varying quality. That's the fuel to keep your home comfortable this winter. And the cost is very economical. Order now.

CHURCH WILL CALL MINISTER SHORTLY

St. Andrew's, Campbellford, Has Heard Seven Applicants Preach.

CAMPBELLFORD, Sept. 17 (Examiner Staff Correspondence).—St. Andrew's Presbyterian Church is prepared to call a minister and in another week's time will be prepared to engage an organist. This is the decision which the congregation reached last night at a meeting held after the regular evening service. Since the time the Rev. James Grier handed in his resignation and subsequently removed to the town of Lindsay, there have been seven applicants heard for the pulpit here. Of these, one has already accepted a call. There are six applicants yet to be decided upon. Not the least popular among the candidates is the Rev. Mr. Gibson of Toronto, the minister for yesterday.

The organist was Mr. Nesbitt of Merriton. His laying won the approval of a great many members of the congregation. After the evening hour of worship he played four numbers in a piano recital, all of which met with the approval of the majority of the members of the congregation, who repaired to the Sunday school rooms to hear the numbers. The first number was a Turkish march written by Beethoven for an opera score which he composed. The arrangement which Mr. Nesbitt played was by Rubenstein. His second number was an old English melody whose history dates back as far as six hundred years and whose composer is not known. The arrangement played last night was by Grainger. Mr. Nesbitt's third number was the Valse in E flat by Durand. It was a light affair, well known in olden times but seldom heard in the prsent generation. It rose to its height of popularity twenty years ago. Its soft melody reached the hearts of the listeners. For his final number Mr. Nesbitt played the tenth Hungarian Rhapsodie by Leitz. Leitz was a frequent visitor by night to the gypsy camps of Europe and thence he drew measureless inspiration for his composition which have become so popular during late years.

The Rev. Mr. Gibson chose for his text last night, the fourteenth verse of the third chapter of Paul's letters to the Ephesians. This he characterized as a familiar text, but an unusual statement which set forth the purpose of a great man. By its use, Mr. Gibson compared the life of Bible times to that of the present modern era. Just as despair was fatal to progress, so was satisfaction, he said. Tolstoi, the great Russian author, exemplified this belief and theory. Mr. Gibson's sermons won for him a place of high esteem among the members of the congregation.

J. A. Anderson presided at the meeting of the congregation held in the Sunday school rooms of the church immediately after the evening service. He reminded the congregation that they had heard seven applicants for the pulpit and that one of these had already received and accepted a call. It was the feeling of the congregation that the time had arrived to call a minister and a meeting will be held on September 24th for this purpose. The applicants heard so far are the Rev. Mr. Hood, Woodside; Rev. Mr. Mark; Rev. Mr. Sinclair; Rev. Mr. Galbraith; Rev. Mr. Forbes-Robertson, and Rev. Mr. Gibson. Of these, the Rev. Mr. Hood has already accepted a call. Mr. Anderson also pointed out that there were seventeen more applications filed for the pulpit and of these there were few who were closly connected with the Presbyterian church. After several members of the congregation had expressed an opinion, it was decided that the church would call a minister and for this purpose, a meeting will be held a week from tonight. At the present time, the congregation has not expressed itself as ready to engage an organist. The committee will meet Monday afternoon at four o'clock.

Havelock

(Examiner Correspondence.)

HAVELOCK, Sept. 18.—Mr. Jack Wiggins, of Cupar, Sask., is visiting his father, Mr. John Wiggins at Cordova Mines.

Mrs. E. Riggs, of Toronto, was the guest of Mrs. J. Moore and other friends in town this week.

Miss Laura Wiggins, of Cordova Mines, underwent a successful operation at Nicholl's Hospital, Peterborough.

Mr. D. J. McCarthy, of Kingston, is the guest of his niece, Mrs. J. H. Moore.

Mr. and Mrs. Orville and children, of Kingston, were the recent guests of Mr. and Mrs. H. W. Roche.

Mr. and Mrs. A. Aboud and sons have returned from a motor trip to Montreal.

Miss M. Lehane, Miss A. Loyst and Miss W. Greer, motored to Peterborough on Saturday.

Mr. Arthur Steenburgh, of Detroit, is visiting his father, Mr. G. Steenburgh, at Cordova Mines.

INDIANS MAKE OPTIMISTIC PROPHEC OF FALL DEER HUNTING

Plenty of deer this season! That is the welcome news that comes from the North. Indian guides, who live all year 'round in the deer country, say that there will be big hunting this fall.

Through a science not found in books, these born hunters have made this prediction— and they are seldom wrong.

So start planning your party now. Check up your war gear—wipe the grease off your gun—and keep "The black and tan" running thin.

If you want to try new territory this year—or wish any information about licenses, fares, etc. ask the nearest Agent of the Canadian National Railways.

POST'S BED BUG POISON.

Post's Bed Bug Poison is composed of carbolic acid, Methyl Hydrate and Corrosive sublimate. When this preparation is used according to directions it is sure death to bed bugs, cockroaches and insects of all descriptions. Two or three applications are all that is necessary, but as it is very poisonous, this preparation should be kept out of reach of children.

Sold at Lynch's Drug Store, 168 Hunter street.

Autumn Fabrics

Meet Miss Day

Expert Butterick stylist and cutter from New York, who will be here

Wednesday, September 19th, Thursday, September 20th

You are cordially invited to attend her Fashion Talks at 1.30 p.m. and 4.00 p.m. first day, second day 10.30 a.m. and 3.00 p.m., and also to consult her on your dressmaking problems and the New Butterick Patterns.

Free Cutting Service for the Two Days

Miss Day will demonstrate with living models, more than twenty lovely made-up garments —all Fall modes cut from Butterick patterns.

Before and after each Fashion Talk, Miss Day will cut out any materials purchased during the event and costing $2.00 a yard or over. This service will be free, and will be rendered in turn, according to the order of requests.

We Sincerely Invite You to Attend

Smartness—Fit—Individuality

THE threefold style secret of every Butterick pattern. Learn more about these patterns from a special Butterick representative, who will be at our Pattern Department for two days. She will be glad, also, to talk over any questions of style and dressmaking that you may have in mind.

Smart Clothes—Yours for the Making

YOU'LL find the Butterick representative, who will be here for a few days, delightfully helpful and informative on the subject of dressmaking. Ask for her at the Pattern Department.

Delightful and Charming Silk Taffetas, Yard 98c

SIXTEEN KILLED

Fifteen Others Hurt in Train Wreck in Phillippines.

MANILA, Sept. 18.—(Canadian Press).—Sixteen persons were killed and fifteen injured in a train wreck near Cadiz on Saturday. All were laborers.

Hall's Bridge

(Examiner Correspondence)

HALL'S BRIDGE, Sept. 18. — Dr. and Mrs. Edwin E. Willis have moved into their new home which they recently purchased from Mr. Harry Shearer.

Mr. and Mrs. W .H. Pearson, who have been at their summer hotel, Bay View, on Deer Bay, have returned to their home in Hall's Bridge.

Mr. and Mrs. Harry McIlmoyle motored to Dummer Township on Sunday.

Mr. and Mrs. Joseph Bird, of Toronto, motored to Ball Lake on Sunday, and on their return were the guests of Mr. and Mrs. Frank Edwards.

Mr. and Mrs. George Wilson and their daughter, Alice, were in Burleigh Falls on Sunday, the guests of Mr. and Mrs. Bluett.

Mr. and Mrs. Richard Fawcett motored to Dummer Township on Sunday.

CATTLE, GRAIN AND PRODUCE

(Continued from Page 4.)

an end, and especially as Canadian marketings for a single day had mounted to 7,023,000 bushels. Besides, Canadian harvest conditions yesterday were auspicious, and export edmand for wheat from North America slack, purchases for Europe aggregating but 35,000 bushels. Only transient upturns in Chicago wheat values yesterday resulted from unlooked for strength shown at times by quotations at Liverpool, the advances abroad were associated with cables telling of decreasing stocks in Great Britain and millers' demand there better. Estimates of the French wheat crop were also rather bullish, being 4,800,000 bushels smaller than last year. Word of big arrivals at Winnipeg, however, 1,447 cars yesterday, compared with 421 cars a year ago, did much to put buyers at a disadvantage here, and for the rest of the day the market averaged lower notwithstanding word of some falling off in the volume of domestic receipts northwest.

Profit-taking sales in the corn market yesterday tended to pull down prices near the close, supplementing the bearish effect of disappointment over the corn visible supply figures, which disclosed a reduction of only 314,000 bushels for the weak.

Earlier the trend of values was upgrade, with Europeans buying, and September delivery ascending to the highest price since June 6. On the other hand, country offerings were somewhat larger, and the cash corn trading basis was off 1 to 1¼ with weather conditions generally favorable for maturing the crop. Oats receipts were scant, and the oats market held firm.

In the provision pit, foreign selling of lard more than counter-balanced the effect of an upturn for hog values.

BUTTER AND EGGS

TORONTO, September 18.—While there was no general easing of the price trend in local butter markets yesterday, the extreme range of 46c per pound paid the better part of last week for No. 1 pasteurized creamery solids was a little harder to obtain owing to marked dullness which was a feature of the initial market day for the week. Wholesalers and jobbers reported very little action from all sources for fresh supplies spot, and lacking any noteworthy feature prices were steady between 39¾c to 40c per pound, for finest grades. Second grade butter, dealers find, is still a little hard to move.

The undertone to the cheese market appears to be very firm and week end sales at country cheese boards confirm this attitude. The continuing diminished demand for cheese at home and abroad has left the Canadian cheese market in a decidedly featureless condition. The nominal quotation for No. 1, new, large, colored, paraffined and Government graded yesterday was 23½c per pound delivered Toronto.

Condition and prices in the local market for fresh gathered eggs remains unchanged and values yesterday were being well maintained at grades narrow. Demand is fair for the season of the year, but offerings are not quite free enough yet to precipitate any immediate decline in prices. Storage stocks here so far remain untouched.

CANADIAN ROCKIES

A region which can offer the finest in natural beauty is the one which makes a direct appeal to the vacationist. If that region has good hotel accommodation and every facility for vacation enjoyment, then greater becomes the appeal.

For the person taking a late August or September vacation no better choice could be made than that of Banff and Lake Louise in the heart of the Canadian Rockies. There one can enjoy the finest of golf, tennis, horseback riding, mountain climbing—and how exhilarating, the warm pools afterward.

Your stay at the world renowned Banff Springs Hotel or Chateau Lake Louise will be a delight long remembered.

Low summer tourist fares in effect until September 30. Full information, rates, etc., from nearest Canadian Pacific Agent. 3d, 30 10 18

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

General.

With cutting nearing completion except for certain districts in Alberta, there is general agreement that the wheat crop in the Prairie Provinces this year will surpass half a billion bushels. The estimate of the Dominion Bureau of Statistics just issued, places the yield at 527,332,000 bushels, while the Manitoba Free Press estimate gives a return of 534,621,000 Threshing is now in active operation everywhere, except in places where held up by rain. Frost damage has been heavy in many localities, with a consequent lowering of grades. In Quebec province favorable weather has enabled farmers to make good progress with harvesting, while in Ontario the harvesting is practically completed, with the exception of the buckwheat and corn crops. Similarly favorable conditions with a promising outlook as to yields prevail in the Maritime Provinces. In British Columbia ideal weather has prevailed, and threshing of an excellent grain crop is almost completed.

Prairie Provinces.

ALBERTA WESTERN AREA—Cutting is about 70% completed and threshing will be general in a few days. Frost damage has been fairly extensive and severe in a few cases. It is estimated wheat will yield 30 bushels to the acre. Sugar beet crop is in good condition. ALBERTA NORTHWESTERN AREA—Cutting is almost finished and threshing is general. Practically all points report heavy frost and rain. The yield will be about 25 bushels to the acre but grades may be lower than the average. ALBERTA SOUTHEEASTERN AREA—Threshing is nearly completed with yields of from 25 to 40 bushels per acre and grading Nos. 1 and 2 in most cases. There has been some slight damage in a few low lying districts. SASKATCHEWAN NORTHERN AREA—Cutting is practically completed and threshing is expected to be general this week. SASKATCHEWAN SOUTHERN AREA—Threshing is becoming general and cutting is almost finished. Better than average yields are estimated throughout the province although as a result of injury from frost much grain will grade No. 3 and lower. MANITOBA —Thresing is well advanced showing yields well above last year and generally exceeding the average. Excessive moisture and frost have caused some lowering of grades.

Province of Quebec.

Threshing of wheat, oats and barley has commenced. Corn is in good condition, and cutting will begin soon; potatoes and other root crops are making progress and a good yield is expected. Tobacco is doing well. Grass pastures are in good condition.

Province of Ontario.

Threshing is general and fall wheat and barley are yielding satisfactorily; oats are somewhat disappointing. Corn has made excellent growth in the past month and is now a full average crop. Root crops are good but would improve with moisture. Some blight is showing in potatoes. Fall apples are plentiful; winter varieties are scarce. Peaches, plums and pears are good crops and grapes are heavy. The tobacco harvest is in full swing. The crop is excellent and about 65% is under cover in good condition. Pastures are drying up and need rain.

Maritime Provinces.

Hay has been an above average crop of good quality and the cutting of a satisfactory crop of oats is now under way. Some potato blight has appeared but a good average crop is expected; digging has started. Apples are coloring well, and have grown to a good size, the estimated yield remaining at 850,000 barrels. Pasturage is good but the need of rain is being felt especially in Nova Scotia.

British Columbia.

Roots have suffered somewhat from lack of moisture and recent frosts but good yields are anticipated. Apples estimate of 115% of average is maintained, and weather conditions are favorable for sizing and coloring. Packing of MacIntosh variety is now general. Pasturage is adequate.

Bonarlaw

(Examiner Correspondence)

BONARLAW, Sept. 18.—Mr. Clarence McKeown, of Rochester, N. Y. is spending a few days at Bonarlaw.

Mr. Harry Chesley, of Peterborough, visited friends in this vicinity last week.

Mrs. John S. McKeown, Clarence and Betty, also Mrs. Reg. McGee and Mrs. Bill Barlow, motored to Belleville on Friday.

Mr. and Mrs. Percy Bateman were in Belleville on Thursday last.

Mr. and Mrs. W. S. Stiles and Hazel old, also Mr. and Mrs. D. Wellman attended Peterborough Exhibition on Thursday.

Mr. and Mrs. Isaac McInroy and Mr. and Mrs. Arthur Burkitt were guests at the Peterborough Exhibition on Friday.

Mr. and Mrs. Thomas McKeown and Mr. and Mrs. John McKeown spent Friday in Peterborough.

Mrs. Gable left for Peterborough on Friday after spending a few days at the home of her daughter, Mrs. Isaac McInroy.

Mr. and Mrs. John Primeau of 32 Cricket Place celebrated the fiftieth anniversary of their wedding in the presence of their family and friends, last evening, when they held an informal reception at their home, and a number of friends dropped in to extend congratulations and wish them continued long life and happiness. It was a very cheerful and pleasant gathering, with many useful and handsome gifts received by the hosts. Among the guests of the evening was Mr. E. A. Peck, M.P., who came in to add his word of congratulation. During the evening, the presentation of a purse of gold was made, on behalf of the family, by J. H. Primeau, while his small son, Jack, represented the grandchildren (twenty-one grandchildren being present last evening) in a presentation made to the grandparents, from the small boys and girls of the family circle. Sons present last evening, with their wives and children, were J. H. Primeau, Charles Primeau, Arthur Primeau and Joseph, all of Peterborough, with Alex and Fred of Detroit. Two other sons, William of Buffalo and Leo of Toronto, were unable to be present. The daughter of the house, Miss Grace Primeau of Detroit, was also present for the celebration.

• • •

Mr. and Mrs. George Macdonald and family have returned from a trip to the Old Country.

• • •

Miss Freda Kull of Munroe, Michigan, and Miss Margaret McGregor of Toronto returned to their homes on Sunday, after spending some time with Mr. and Mrs. A. Mitchell, of 78 Aylmer street.

• • •

Mr. and Mrs. L. Boden of Oshawa were week-end guests of Mr. and Mrs. J. L. Rowland in Smith.

• • •

Mrs. Neil Driscoll left on Saturday to spend two weeks at her home in Alexandria, Ontario.

• • •

The Rev. Father Cloran and the Rev. Father O'Hara of Toronto, who are conducting a mission in Cobourg, spent yesterday in the city.

• • •

Mr. Arthur Mitchell has returned to Detroit after spending a fortnight's vacation with his parents, Mr. and Mrs. A. Mitchell, at 78 Aylmer street.

• • •

Mr. and Mrs. William Garnett and Mrs. A. White of Port Hope were week-end guests at the home of Mr. and Mrs. J. L. Rowland of Smith Township.

• • •

Rev. Dr. R. C. Blagrave left this morning for Toronto, where he will attend a conference of the Alumni of Trinity College. From there he will go to Hamilton to attend the meetings of the General Board of Religious Education and the Council for Social Service of the General Synod of the Church of England in Canada, to be held in Hamilton.

• • •

Miss Jean Mullen of Fergus, Ontario, spent the week-end with Mr. and Mrs. A. Mitchell, Aylmer street.

• • •

Miss Marie Ames of Bowmanville was the week-end guest of Miss Florence Hutchinson, Sheridan street.

• • •

Mrs. J. W. Rutledge of Los Angeles, California, is the guest of Mr. and Mrs. G. W. Armstrong, Monaghan road.

• • •

Dr. Stewart Deyell of Ravenna, Ohio, spent a few days this week with his parents, Mr. and Mrs. J. D. Deyell, Park street, when he motored to Canada with his friend, Dr. Landsbergh, who was called to his home in Port Credit owing to the illness of his mother.

• • •

Mrs. A. Mitchell and Art Mitchell, Junior, and their guest, Miss Freda Kull of Munroe, Michigan, spent a few days last week with friends in Fergus, Ontario.

• • •

Mr. and Mrs. J. Grisdale and Miss Eleanor Grisdale, with Mrs. A. Grisdale and son Jack, motored to Detroit, to spend a few days with the latter's sister, Mrs. Charles Headlee.

• • •

Miss Helen Goldberg has returned to Montreal after visiting her sister, Mrs. N. Fine, at 197 Rink street.

• • •

Mrs. W. O'Dette, Sophia street, is celebrating a birthday anniversary to-day.

• • •

Among those who motored from Campbellford to attend the concert given in the Conservatory of Music last evening, by The Madrigal Singers and the four C.N.E. medalists (Mrs. Fred Free; Miss Margaret Dickson, Miss Geraldine Collins and Mr. Stanley Northrop) were Mrs. George Dickson, Dr. Fred Free, Messrs. Jack Free, and James Dickson.

SOCIAL WELFARE IS DESCRIBED

Sympathy and Understanding Is Necessary To Success.

HOME FOR GIRLS.

EDMONTON, Alta., Sept. 18 (CP) —"Sympathy and understanding and the ability to make friends and confidents of those committed to one's charge is the secret of successful social welfare work," says Miss Alice Wright, a prominent social welfare worker of London, who after years of experience in hostlery work is visiting this city.

Miss Wright is studying the methods employed in this country whereby young people starting life on their own are provided with that companionship so necessary to keep them looking at life through steady, sober, happy eyes.

It has always been the object of the hostelry movement to establish a home away from home for girls or youths starting out in life. It is recognized by many of the most philanthropic in England that the most dangerous period in a girl's or boy's life is when they set out into the world on their own. It is then, that with little money earned they have to rough it—have to endure loneliness and hardships, homesickness and all that goes with the breaking of the home tie. This makes them an easy prey for the many and varied temptations which enter for those who have no guidance or advice. For this reason, says Miss Wright, the hostel for girls or boys has come into existence in all the large centres of England, has proved a success and is doing more to safeguard future generations than any other movement. It is financed in the main by wealthy people.

It is estimated that the average cost of running an auto is $229 a year, of which $101 goes for gasoline and oil.

If you would like previous home helps at the same time, check here those you desire:

Recipes for cooling beverages containing fruit juice.

Printed instructions, with sketches, of the ribbon flowers so popular for the new lingerie.

All of the instructions for camiknickers and pointed slips have been sent out, and no more are available.

This service is FREE—and by return mail.

THE WHATNOT

A Place for Little Bits of Everything of Local Interest

By MARION

NOW that the long chilly nights of Autumn are upon us, the hostess begins to plan refreshments for her bridge nights. After a busy day pickling or reserving or visiting the Fall Fair, how every woman enjoys an evening at home with friends. How delightful to serve home-made refreshments before your guests depart.

• • • • • • •

No woman objects to making a cake, even after a strenuous day, when she can carry out one of the many few minute recipes available just now for cake making, but so many have written asking detailed instructions that I am devoting to-day's column to the business of cake-making.

• • • • • • •

To make a good cake is the ambition of many housekeepers and yet it seems to be one of the simplest branches of the art of cooking. There are five fundamental rules we need to remember if we want a perfect cake. Here they are as told to me by a correspondent:

1. Use good ingredients.
2. Use accurate measurements.
3. Blend sugar and shortening together thoroughly.
4. Bake at a proper temperature.
5. If your cake is to be frosted, use a well-made frosting, don't think that anything will do.

• • • • • • •

Ingredients of good quality do not necessarily mean the most expensive. For example, there are excellent shortenings on the market which cost less than butter and give splendid results. If you select an unsalted shortening, however, be sure to use more salt than the all-butter recipe calls for, otherwise your cake will taste flat.

• • • • • • •

Sugar is an important item. Only fine granulated sugar should be used. This has a great deal to do with the texture and grain, as the coarse sugar does not blend well with the other ingredients. If your sugar is rather coarse, sift it before measuring out the amount you will need. The coarser grains may be used to sweeten stewed fruits, gelatine or other prepared desserts.

• • • • • • •

And eggs, it is not necessary to use strictly fresh eggs. Cold storage water glass eggs are satisfactory if they look clear and smell sweet when they are broken. It is best to break them, one at a time, in a cup, so that if a bad one should be among the lot it will not spoil those already in the bowl.

• • • • • • •

And next flour. "Should I use cake or pastry flour?" is the question most asked by the amateur cake baker. This is a hard question to answer as flour differs so in various sections. If you are using an all-purpose flour with satisfactory results, there is no reason for a change. But if, on the other hand, you are not getting good results, try a reliable cake flour.

• • • • • • •

And now comes the first step in mixing—that of blending together the sugar and shortening. Unless this is very thoroughly done, your cake will not be of a good texture, no matter how much you beat it later. In fact, too much beating can spoil a cake just as well as too little beating—so spend that extra effort on working the sugar and shortening together. So many people do not realize this, that it should be particularly emphasized.

• • • • • • •

Next add the eggs. Some women prefer to add the whole egg, well beaten, while others separate the yolk from the white, folding in the beaten whites last. This is a matter of individual preference and for the average cake recipe it seems to make little difference in the result. When the whole egg is added to the sugar and shortening it must be well mixed. A thorough beating at this time helps to insure a light, good textured cake. When whites are added last they should be beaten until stiff and carefully folded into the batter so as not to break the air bubbles that have been beaten into them.

• • • • • • •

The last step is to sift the dry ingredients together and add them alternately with the milk to the first mixture, first a little milk then a little of the dry ingredients, then milk again, and so on. That is simple enough, but then comes the question of how much to beat the mixture after all the ingredients have been combined. This is a debated question and there are several factors that must be considered in connection with it. You must remember that baking powder is now in your cake batter and that baking powders begin to act as soon as they come in contact with moisture. Too much beating will result, therefore, in the loss of the gas which causes the cake to rise. On the other hand, too little beating will mean a cake of coarse, open texture. One must decide on a happy medium, remembering that the richer cakes made with more eggs and less baking powder may be beaten longer than the plainer cake, made with fewer eggs and a larger amount of baking powder.

• • • • • • •

Proper temperature in the oven is the next very important matter, therefore an oven thermometer is almost necessary. Layer cakes and cup cakes take an oven 375 to 400 degrees. For loaf cakes use a moderate oven 325 to 350 F.

• • • • • • •

It is very important that cakes should have proper care when they come from the oven. Turn them out on wire racks to cool—if inverted on a bread board or other solid surface the top of the cake will become moist and sticky. If you are going to frost the cake have your frosting ready to spread as soon as the cake is cool.

• • • • • • •

The following is a recipe for a delicious cake and may be used for tea cakes:

1½ cups cake or pastry flour.
2 teaspoons baking powder.
1 cup sugar.
½ teaspoon salt.
¼ cup shortening.
2 eggs.
Milk.
1 teaspoon almond extract or vanilla.

Mix and sift into the mixing bowl the flour, baking powder, sugar and salt. In the measuring cup melt the shortening, break in the eggs, and fill cup with milk. Add flavoring. Stir the liquids into the dry ingredients and beat well two or three minutes until well mixed and light. Bake in a moderately hot oven 375 degrees, for 25 minutes.

• • • • • • •

This delicious cake may be varied by adding nuts, cocoanut, or chocolate.

Here is a recommended cooked frosting that comes to us highly:

2 cups sugar.
1-3 cup light corn syrup.
1-3 cup water.
2 egg whites.
1 teaspoon vanilla.

• • • • • • •

Cook sugar, syrup and water together, stirring until sugar is dissolved. Continue cooking until 242 degrees F. is reached or until syrup will form a firm ball when tested in cold water. Pour syrup slowly over stiffly beaten egg whites, beating constantly. Continue beating until stiff enough to hold its shape. Add vanilla or other flavoring.

• • • • • • •

And having disposed of the cake business for one day, let me suggest that you send for this week's household help—printed instructions, with pattern diagram, of the new short autumn cape. It is smart and economical. Just send me the coupon.

• • • • • • •

Velvet, that richest of all fabrics, has come out this fall with an added satin sheen and a high degree of exotic delicacy as a leading material in Paris fashions. And the new woollens are not mere woollens. They have borrowed the rich surface of the velvets of by-gone days and of satin also.

• • • • • • •

If you must be practical, and also look it, then some of our stores have provided for you new silky serges which don't look like the hard working fabrics they really are.

NEIGHBORLY HELPS

This column is used by Examiner neighbors to help out others who have requested recipes or advice. You may use it freely by addressing Marion.

"Dear Marion,

I saw a request in your paper from Mrs. E. R. for a recipe for buttorscotch pie, and will send it along.

Butterscotch Pie.

1 cup very dark brown sugar
1½ tablespoons flour
1 tablespoon butter
Yolks 2 eggs (whites for frosting)
1 cup sweet milk.

Cook in double boiler and put in baked crust.

I sometimes brown the sugar and butter in the frying pan, then add milk, eggs and flour, like making a caramel pudding.

I also save all the cooking recipes I see in the paper and have tried some of them.

Yours,
Mrs. W.L., Havelock.

Butterscotch Pie.
(Contributed by Mrs. L. A. M., Omemee, for Mrs. E.R.)

1 cup dark brown sugar
1½ tablespoons flour
1 tablespoon butter
Yolks of 2 eggs (whites for frosting)
1 cup of sweet milk.

Cook in double boiler and put in baked crust.

MARION'S MAIL

Address correspondence to Marion, at The Examiner Office.

"Dear Marion:

It is very kind of you to hand us out hints on the care of children going to school. But that woman who told you she marks their socks and clothes with tags for the days when they are to be worn must be a fusser. Now I ask you, what would she do if it rained and the boy came home with wet feet or the [illegible] tore her dress and they h[illegible] change their clothes? The [illegible]er's schedule for the week would be all upset and she, too, I daresay. But maybe the children are so perfect that things like that couldn't happen to them.

And when that boy grows up and marries (and he'll likely choose a wife just the opposite to his mother) whatever will he do if he can't find his Tuesday shirt or his Friday socks haven't been washed?

I say let them be tidy to go to school (the mother should put their clothes ready at night for the next day) and when they come home change into something that a little tumbling about can't hurt and then they can enjoy themselves as children should and which they can't if dressed up like little manikins.

MOTHER."

Well "Mother", you know different people have different ideas. It does seem a little far-fetched to have a complete outfit for every child every day of the week. And it appears, as one mother said to me since, as if it would take the mother of four all night on ironing day to put the things away.

I'm glad to have your opinion, and shall be glad to see others.

"Dear Marion:

I received the "Helps" last night. Many thanks for the prompt attention. Accept my compliments on the women's page. It is very helpful and the suggestions and remarks in the "Whatnot" are useful indeed. Thanking you again and wishing you every success, I remain,

Sincerely yours,
MRS. T. C."

P.S.: Would it be too much trouble for you to send me the "Corn Relish" recipe you printed in Saturday's edition. I accidentally mislaid the paper."

Thanks for your appreciation, Mrs. T. C. The corn relish recipe has been sent you, and I shall be glad to help in any other way I can. Thanks for the green tomato pickle recipe.

Marion

A pinch of salt will improve the flavor of coffee.

FAVORITE RECIPE.

SACCARINE PICKLES

(Contributed by Mrs. D. W., Bonarlaw.)

One gallon cider vinegar, 1-3 of a cup of salt, 3-4 cup of ground mustard, ¼ cup whole spice, 1 cup grated horse radish, 2 tablespoons alum, 2 teaspoons saccarine.

Place all of the ingredients in a stone jar and cut up cucumbers and fill jar; turn a plate over and weigh down.

These are a sweet pickle.

SOUR CREAM CAKE

(Contributed by Mrs. L. A. M., Omemee.)

Break 2 eggs into a cup. (If you want a boiled frosting, use 1 egg and 1 white, and save other white.) Fill up cup with sour cream. Pour into mixing bowl and beat well. Add 1 cup sugar and beat well; ½ teaspoon soda in a little hot water, 1 teaspoon flavoring, 1 teaspoon baking powder in 1½ cups flour. Bake in 2 layers.

A Tip or Two

Given as an example of the general enthusiasm expressed over the tricolor theme, by London, Paris, and New York, is a sports costume noted in Paris, consisting of a red flannel coat and white crepe skirt banded in blue around the hem, while worn with it is a sweater jumper in white with dark blue diamond pattern and printed scarf to match.

Why Do Men Eat Downtown?

This is one of a series of letters submitted in a competition. Others will be published daily, and the winner will be announced on Saturday. Marion will be glad to learn the men's opinions.

Dear Marion:

Like yourself I have often wondered "how come?" when musing on the "lure of the restaurant wilds."

I take it yo uwere referring to the habitual diner out—not the near adventurous minority which in search of the irresistible spice of life to wit—variety—try to find a little of it by the way of an occasional meal away from the ordered routine of home. This by the way would, by the nature of things as they are more of a lure to a home-keeping woman with the never-ending monotonous task of planning or preparing three meals a day facing her day in and day out than to the great big business man whose interests are not confined to the four walls of home.

To this said G.B.B.M. with the cares of state resting upon him, or so he likes to think, it would be a very immaterial matter to his mind as to whether the table has decorations of pink roses or red carnations. All the carefully thought out little details of a well appo[illegible]ed table are no count passed unnoticed by him or taken as a matter of course. True, he will express his appreciation if these matters are called to his attention, if he is a considerate man, but mostly to please his better half, not from personal interest.

Men do take the comforts and daintinesses that have been painstakingly planned for their enjoyment as a matter of course. You see they have been accustomed from childhood (mostly by their mothers) to have so much for their well being that it would be an exceptional nature which was not thereby rendered more or less selfish and unmindful as to all those little niceties that mean so much to a woman. Man must concern himself over things of larger moment than these. Who but a woman could in this world of eternal tragedies and sorrow, actually worry herself ill over the preparations of an afternoon tea for instance? I often think we demand or expect too much of masculinity in this way for the mind of woman in general is narrowed down to a degree impossible for a man to understand. We are "careful and troubled" over many things that have no meaning in man's scheme of life. Even our Lord could not sympathize with Martha's domestic concerns. If woman would not make of herself so much a "thing apart" from the matters that interest her men folks and would show an intelligent interest in his affairs without seeming to interfere perhaps she would not have so much time to fuss over the little trifles that wear down the spirit and get one no farther ahead, with things that are really worth while.

When Henry is wondering if Jones will get that order he is after which means an advancement to him he is not apt to be eloquent in his praises over the superiority of lemon sauce to vanilla or to ever comment upon it. He just eats it.

It is not especially entertaining to the tired man of business after a worried day to have to listen to the tale of the laundry woman's waste of soap or of Johnnie's misbehaviour at school. Is it any wonder he feels the urge of getting away from all this once in a while? All this is by the way of course, Marion, and we are no nearer to the solution of the problem.—Why this desertion of the family dining table by constant offenders?

Well perhaps he hasn't time to dine in the home atmosphere (not always so congenial as you may think, Marion). Perhaps wife is away visiting, although not likely so much, do you think?

But I do think men like to get away to mingle with their fellows from even the best and well ordered of homes, and this does not necessarily mean non-appreciation of home meals well cooked and well served. Sometimes it's just herd instinct or the urge to break away from the custom of being in the place at the same table in the same house three hundred and sixty-five days in a year.

Then, too, it may take a woman all morning to prepare and cook and serve a meal eaten in half an hour at the most and this makes men man wonder what it is all about if the "preparee" appears or complains of being tired.

Let us try to realize by putting ourselves in his place that most of the things we "set store" by and seem to make our whole existence are only the incidentals of life to men, unused if not forthcoming, it is true but not held to be vitally important. It is woman's part to make home attractive and a desirable place to dwell therein, but not to fasten their men folks to it by chains as it were. It's just one woman's point of view of course. So I will close this much too lengthy discourse by signing myself.

"I DUN'NO."

MONKEY BUSINESS

LONDON, Sept. 18.—Kingston-on-Thames justices heard a tale of woe by a distraught husband recently and promised relief. The complaint had to do with a neighbor's pet monkey which had got into the habit of entering complainant's home where it "damaged furniture, helped itself to food and upset the wife's nerves terribly."

FINDS LOST TREASURE

KINSTON, N.C., Sept. 18.—Mrs Jessie Tyndall has recovered the wedding ring which she lost 28 years ago. A new tenant, working in the garden of the home in which she lived when the treasured ornament was lost, found it and traced the owner through the initials J. T. to J. M.

ASYLUM ATTENDANT IS NAMED BY JURY

Inquest Verdict Results In Arrest On Charge of Manslaughter.

CALGARY, Sept. 18 (Canadian Press).—Following an inquest into the death of Dr. Arthur Hodds, a patient of Ponoka Mental Hospital, who died on Saturday, Walter Scott, an attendant at the institution, was arrested on a charge of manslaughter. The jury found that Dr. Hobbs died of acute pneumonia, a direct result of severe dealing administered by Scott.

MEDALS GIVEN C.N.E. WINNERS

(Continued from Page 1.)

each section well represented, and their shading is excellent. They sang several numbers in unaccompanied style, passing this severe test of choral voices with distinction and ease.

The Soloists

The solo numbers were beautifully rendered. Although the applause for each of the vocalists was vociferous and long continued, expressions made by members of the audience, as heard by The Examiner representative, were especially complimentary to Miss Margaret Dickson. People in the vicinity held their breaths or breathed long "Ohs" of delighted appreciation as this "bird voice," as the adjudicators called it, was heard in ethereal trills and cadenzas of a coloratura type. It is a voice of much promise and sweetness.

"Bird voice was right" was the comment of one apparently very interested neighbor of the scribe.

Mrs. Fred Free of Campbellford, Miss Geraldine Collins and Stanley Northrop, the latter a pupil of Miss Edwina Palmer, violinist, were the other soloists of the evening, and each was heard with intense appreciation and long-continued applause from the audience. Each of the ladies received lovely floral tributes during the evening.

Accompaniments for the vocalists were played by Miss Agnes Best, for the Madrigal Singers by Miss Gwen Donley and for Mr. Northrop by his brother, Harry Northrop.

Captain Atkinson was loud in his praise of the prowess at the Exhibition of the the Madrigal Singers and spoke in complimentary terms of the work of the soloists and their teachers. He presented the medals to the victorious contestants, Mrs. Fred Free and Miss Geraldine Collins receiving gold medals in contralto and mezzo-soprano classes respectively, whille Miss Dickson won the silver medal in the lyric soprano class and Stanley Northrop the violin medal in the out-of-town violin competition. Miss Collins also received the $75 cheque which represents her success in winning the scholarship for women's voices presented at the Canadian National Exhibition.

Captain Atkinson, in his opening remarks, complimented the city and the citizens generally on the preeminence of Peterborough in outside musical circles and of the interest taken here in things intellectual and worth while. He was introduced by R. Gliddon, director of the Conservatory of Music, who was one of the judges in the vocal and instrumental sections of the Musical Competitions at the Canadian National Exhibition this year, and whose Conservatory here shares in the honors which have been awarded its pupils and their teachers, Mrs. Dorothy Allan Park and Miss Edwina Palmer.

Captain Atkinson referred to some of the difficulties encountered by him in his desire to encourage the presentation of good music at the Exhibition and to the general excellence of the programs given, with special reference to the Peterborough choristers and soloists.

The Madrigal Singers

The program given by the Madrigal Singers included the following numbers: "A Madrigal in May," "Happy Song," I Saw Lovely Phyllis," "Lullaby," "Elf and Fairy," "O May, Thou Art a Merry Time," "The Banjo Song," "Two Little Stars" "The Dairymaid" and "Around the Gypsy Fire."

Miss Margaret Dickson was the first soloist of the evening, and sang the test piece at the C.N.E.: "Snowflakes," followed by a second number, "Shepherd, Thy Demeanor Vary" and an encore in "Villanelle," the latter sung in French.

Miss Geraldine Collins sang the test piece at the Exhibition: "A Memory," followed by a second number in "Nay, Though My Heart Should Break," and an encore in "Bird Songs at Eventide."

Mrs. Fred Free of Campbellford sang the test piece; "Silent Noon", with a second number in "I Blame Thee Not," and an encore in "Sink, Sink, Red Sun."

Stanley Northrop played the test piece; Variations on a Theme by Corelli, with an encore in "Liebesfreud."

At the conclusion of Captain Atkinson's remarks, Mrs. Park spoke briefly, thanking him warmly for his assistance at the Exhibition and for the encouragement and support he had given to the Madrigal Singers and the soloists. She also thanked her pupils for their support and enthusiasm in their work and spoke of the "Marvellous memorizing" necessary to carry their program through to its successful completion.

A BIGGER JOB--
and You're the Man

Are you hunting a bigger job, or does the bigger job hunt you? A hurricane raging at 132 miles an hour has devastated the island of Porto Rico, taking toll of 1,000 or more lives, according to present estimates, and doing $100,000,000 damage to property. The gale also struck the coast of Florida, isolating several cities, and doing considerable damage. Picture No. 1 shows the famous bronze statue "Victory," constructed by Bonnie Macleary, which stood on the capitol building at San Juan, Porto Rico, and which was wrecked by the storm. No. 2 shows the San Juan waterfront, where damage estimated at $2,000,000 was done. No. 3 shows three native Porto Ricans, engaged in hat weaving. No. 4 is the Presbyterian hospital in San Juan, reported unroofed and badly damaged. No. 6 is a map of the hurricane zone, from Porto Rico northwesterly to Florida.

NO TRACE FOUND OF MISSING MEN

(Continued from Page 1.)

toulin, several tugs, and a fleet of motor boats whose owners have volunteered to assist in searching for the missing.

Captain John McKay and the three members of the crew who were rescued by the S. S. Manitoba could not be induced to tell their experiences, but Donald Wallace, Oil Springs, Ont., cattle drover, who was the passenger rescued, told of how he had boarded the Manasoo at Manitoulin Island with George Lambert, of Petrolia, a friend. Wallace was unable to conjecture the cause of the sudden sinking of the vessed. He said he went to bed and awoke shortly afterwards when he noticed the boat was listing slightly. He went back to bed and after another brief sleep awoke to find water in his stateroom. Lambert, who could not swim, donned a life belt and the two companions went overboard together. Lambert is among the missing while Wallace saved his life by swimming to the raft.

"I was the first one to reach the life raft. When I came up after going part way down with the boat the raft was 50 yards away and I swam over to it, getting up on it. The other five got on soon afterwards.

Were Near Island.

"The water was terribly rough, especially at first. At first we were favored by wind, and we had paddled our way with an oar we picked up to within a mile or less of Griffith's Island, when to our dismay the wind shifted and we started out across the bay again. It was a terrible experience to see good safe dry land fading in the distance when we had worked so hard to get as close as we did to it.

"Just after the accident early on Saturday morning we saw the steamer Manitoba passing us in the distance on its way to Owen Sound. Then again that night it passed, this time to Port McNichol, but again it was too dark and the boat too far away for us to signal them. When they finally rescued us it was the third time we had sighted them.

"The men on the raft were all steady. There were no complaints on the part of anyone. Chief Engineer McCutcheon went very peacefully. He could not stand the exposure.

"I was on duty at the time of the accident, taking another's place who was sick. My brother (who is one of the missing) had gone to bed, and if it had not been that I was on duty, I would have been in bed with him.

Will Probe Wreck

OTTAWA, Sept. 18 (Canadian Press).—Captain L. A. Demers, Dominion Wreck Commissioner, will leave immediately for Owen Sound to conduct an investigation into the disaster which occurred on Saturday when the steamship Manasoo foundered.

Besides the question of the cause of the accident, Captain Demers will probe the matter of whether the ship carried proper life-saving apparatus.

The Manasoo does not fall within the class of vessels required by law to carry a wireless, A. Johnston, Deputy Minister of Marine, stated to-day.

Blames Cattle

OWEN SOUND, Ont., Sept. 18 (Canadian Press).—Roy Fox, oiler on the ill-fated Manasoo, which sank early Saturday morning in Georgian Bay, attributes the disaster to cattle which were in the hold. Interviewed to-day, Fox, who wa soen of the five survivors rescued from the life raft by the S.S. Manitoba, was apparently in good condition, but quite weak.

"We could hear the cattle moving about," Fox said. "They were not loose but were penned in, but the weather was so rough that one or more could have been pushed into a nearby pen when one of the boards gave away under the great pressure which was put upon them. Yes, in my mind, it was the cattle."

DROWNS CHILDREN; POISONS HERSELF

Cornwall Woman Will Face Murder Charge When She Recovers.

CORNWALL, Sept. 17.—Mrs. Delina Lagreois is a patient in the Hotel Dieu Hospital, following an alleged attempt to take her life by drinking lye, after, police say, she drowned her two small children, Romeo, aged 27 months, and Leo, aged 4 months. A charge of murder was laid against her last night. Her condition is not considered serious.

The alleged crime was discovered by the husband, Napoleon Lagreois, on his return from work at 5 30 o'clock yesterday afternoon, when, he told police, he found his wife lying in bed with the two dead bodies beside her, and she was writhing in pain. Dr. J. A. Hurteau was notified, and immediately arrived on the scene and transferred Mrs. Lagreois to the Hotel Dieu.

Constable Wilfred Bertrand, on arriving at the house, made an inspection. Mr. Lagreois's brother, who stays at the house, left at 3 o'clock yesterday afternoon, when Mrs. Lagreois seemed to be in very cheerful spirits.

The mother was placed under police guard at the hospital last night.

WOMAN ADMITS MURDER ATTEMPT

Pleads Guilty To Trying To Kill Her Infant Daughter.

SARNIA, Sept. 18 (Canadian Press).—Mrs. Bertha Leboeuf, 40, a former domestic, pleaded guilty before Mr. Justice W. E. Raney in the Supreme Court here to-day to a charge of attempting to murder her infant daughter last July, and was remanded for sentence. She was accused of administering poison to the baby and then burying her alive in a shallow grave on the Sarnia Indian reservation. Indians found the child shortly after, and it recovered.

BIBLE CLASS MEETS.

Gleaners of Mark Street Sunday School Have Social Evening.

The Gleaners' Class of Mark Street Church held the first meeting after the holiday season last night in the church, 25 members of the class being present. A jolly time was spent in playing games, which were directed by the sports committee, Mrs. Boorman, Miss Curry, Miss Reynolds and Mrs. Morrison. After the games the class went into the dining room where a dainty supper was served by the social committee, Mrs. Cooper, Mrs. Agnew, Mrs. Scriver, and Mrs. Andrews.

The president of the class, Mrs. Hill, sat at the head of the table. Rev. A. E. and Mrs. Thornley were present. This clas shas a membership of thirty-two.

The Chemins de Fer du Nord has always held first place among French railroads for speed.

GETS FIVE YEARS.

Guelph Man Goes To Penitentiary For Serious Crime.

GUELPH, Sept. 18 (Canadian Press).—Pleading guilty to a serious offence against a 13-year-old girl, Raynor Williams, 23, Guelph, was sentenced to five years in Portsmouth Penitentiary by Mr. Justice Meredith to-day.

NEWS IN BRIEF

OPPOSES NEW GAS TAX

WINDSOR, Sept. 17.—A resolution asking the Ontario Government to refrain from putting into effect the proposed increased gasoline tax, was passed by the City Council last night. The resolution states that the Council views with great concern reports that the tax is to be increased from 3 to 5 cents per gallon, which tax, the resolution goes on to state, is ultimately paid by the consumer. "This Council feels that taxes on automobiles and gasoline are much in excess of reasonableness."

SCHOOL FAIRS

AT BRIDGENORTH.

The Bridgenorth School Fair was held in the village on Monday afternoon. There was a large attendance of parents and friends, and a fine display of flowers, vegetables, poultry, and live stock.

Five schools took part in the parade: No 3, Milburn School, which carried off the shield, teacher Miss Clara Dobbin; Bridgenorth, teacher Mr. Ball; S.S. No. 11, teacher Miss Victoria Robinson; S.S. No. 4, teacher Miss Myrtle Brock; and S. S. No. 2, teacher Miss Lewis.

The judges had a difficult task deciding the winners, owing to the closeness of the result.

Judges were: J. B. Nelson, agricultural representative for the County of Peterborough; Mr. Gardiner, R. F. Downey, school inspector, and Miss Edith Hopkins.

When the biennial general council of the United Church of Canada, the third since the inauguration of union, met in Winnipeg, preparations were found unusually complete. Rev. David Christie, (1) above, of Westminster Church, Winnipeg, has charge of devotions at the various sessions; Walter C. Murray, LL.D., (2) president of the University of Saskatchewan, is one of the most influential commissioners;; Rev. Prof. J. R. Watts, (3) of Queen's Theological College, is a keen debater on constructional questions; Rev. J. D. Byrnes of Barrie, (4) reports on church progress in northern Ontario, where he is superintendent of home missions; Sir J. A. M. Aikins (5) is honorary chairman of the arrangements committee; and Rev. John A Cormie, (6) is secretary of the same committee.

LOST CHILDREN WORRY OSHAWA

Police Kept Busy Looking For Strayed Little Ones.

WANT TO BE TOLD.

OSHAWA, Sept. 18—What seems to be an epidemic of lost children has taken place during the past month or so when a number of these have been reported missing to local police authorities. At 12.25 Sunday morning, Mrs. H. Dyas, 163 Celina street, reported her boy, aged 8 years, missing. He was found at 1.30 o'clock that same morning, having taken it upon himself to go to sleep in the open air, near the home of his parents. But the police were not notified that the youngster had returned safe and sound, and if they had not learned, probably would have been on the look-out for the child yet. This has been the case before. When a lost child has been returned, it is the duty of the parents to see that officials are notified.

BOY FOUND GUILTY ON ASSAULT CHARGE

Lad Who Slew Man With Pitchfork Gets Suspended Sentence.

HAMILTON, September 18. — J. Dermanuel, 11-year-old boy, of Wesleyville, Pa., who was charged with assault in connection with the death of Ernest Salmon, a youth on the farm of J. Young, of Mount Hope, in August, was found guilty by Magistrate Vance in County Police Court yesterday afternoon. The boy, however, was allowed to go on suspended sentence, as his act, it was felt by the Court, was not intentional.

Ernest Salmon died as a result of wounds he received when the tines of a pitchfork penetrated his lungs and heart. Evidence showed that Salmon was injured by the fork when he suddenly ran in an opposite direction. The Dermanuel boy, it was stated, threw the fork to frighten Salmon and to make him cease teasing him.

"I do not think for a moment that this young boy intended to kill Salmon," said Magistrate Vance, in considering Dermanuel's years, and imposed suspended sentence.

NEW RECTOR IS WELCOMED

Rev. J. M. Crisall Assumes Charge of All Saints' Parish, Whitby.

FROM GORE'S LANDING.

WHITBY, Sept. 18. — Rev. J. M. Crisall, of Gore's Landing, recently appointed as rector for All Saints' Anglican Church, commenced his work in the historic parish on Sunday, when he conducted both morning and evening services at the church. He was greeted by large congregations on both occasions.

At the morning service Rev. Crisall spoke of the regret he felt on leaving his former parish but this he said had been nullified by hearty welcome he had received on coming to Whitby.

YOUNG BANDITS GET LONG TERMS

Will Serve Eight and Ten Years For Attempted Murder.

WOODSTOCK, Ont., Sept. 18 (Canadian Press). — Mr. Justice Fisher sentenced Kenneth Kirkwood and Allan Greenfield, Toronto, to serve eight and ten years in Portsmouth Penitentiary after the young men had pleaded guilty to a charge of attempting to murder R. S. Burgess of London in a hold-up east of here on April 20 last. The sentences are to run concurrently with sentences of similar duration which the two men are now serving on hold-up charges.

GOLF.

Macdonald Cup—Third Round.

Judge Huycke vs. W. R. Widdess.
Dr. E. H. Wood vs. A. J. Reynolds.
G. M. Lyons vs. G. Monkman.
Geo. Logan vs. W. F. Huycke.
C. Sedgwick vs. W. A. Donnelly.
C. S. Browne vs. A. H. Stratton.
C. Rogers vs. W. C. Beamer.

Matches to be played on or before September 24th. Stymies must be played. No handicaps. Winners strike out losers' names.

WORLD SERIES TO START OCTOBER 4th

SCHEDULE IS DRAFTED BY BALL MOGULS

Will Open in the Park of American League Winner.

THREE SCHEDULES DRAWN

Clubs Agree to Open Thursday Instead of Wednesday as Formerly.

NEW YORK, Sept. 18 (Canadian Press).—The world series of 1928 will begin on Thursday, October 4, with either the Yankees or the Athletics playing at home. Because of the closeness of both races, the Thursday date was agreed upon in preference to the tentatively set Wednesday opening. Contending clubs feared a late decision in the League battles might make it impossible properly to distribute the vast number of reserved tickets for a Wednesday game.

The schedule and other points were settled here yesterday at a meeting of Commissioner Landis with the presidents of the two major leagues and representatives of contending clubs. Only the Yankees and the Athletics sent delegates for the American League, but all clubs in the National League's first division attended.

Three schedules were drawn, covering every likely outcome of the pennant fights. If the Cardinals or the Cubs win, the following dates will obtain:

Oct. 4 and 5, at New York or Philadelphia.
Oct. 6, open for travel.
Oct. 7, 8 and 9, at Chicago or St. Louis.
Oct. 10, open for travel.
Oct. 11 and 12, at New York or Philadelphia (if needed).

A Giant victory in the National League calls for the following dates:

Oct. 4 and 5, at Yankee Stadium or Shibe Park.
Oct. 6, 7 and 8, at Polo Grounds.
Oct. 9 and 10, at Yankee Stadium or Shibe Park (if needed).

The most remote possibility is a Pittsburgh victory in the National. The Pirates would play as follows:

Oct. 4 and 5, at New York or Philadelphia.
Oct. 6, 8 and 9, at Pittsburgh.
Oct. 10 and 11, at New York or Philadelphia (if needed).

The shift from October 3 to 4 will cost the clubs a Saturday date in the West if either the Cards or the Cubs should win, and will set a precedent in opening in the Western city on Sunday. The loss of a Sabbath game in Pittsburgh is impossible, but little thought was devoted to that as nobody expects the Pirates to win.

Each club will order tickets printed in strips of three, and the eventual winners will dispose of them only in such numbers. The American League winner will sell cardboards for games Nos. 1, 2 and 6, while the National League rival will sell strips for games Nos. 3, 4 and 5.

Box seats will retail for $6.60, or $19.80 a set, and reserved seats for $5.50, or $16.50. General admission will be $3 and bleacher accommodations $1, neither being taxed. These seats will be placed on sale only on the days of the games, and purchasers will be required to enter the park immediately.

If a seventh game should be necessary, it will be played at either the Yankee Stadium or Shike Park the day after the sixth game is decided. No tickets will be sold for such contest until after the sixth battle.

A game postponed on account of rain, or halted short of becoming a legal contest or a legal draw, will be decided the following day on the grounds where it occurred, and the schedule advanced to accommodate the change. A tied game, however, will be played over only if necessary after the seven scheduled games have been completed.

FOR GAS, ACID STOMACH, INDIGESTION

Is Safe and Reliable Bisurated Magnesia

If you are a victim of Stomach Trouble,—Gas, Sourness, Acidity, Pain or Bloating after eating, Bisurated Magnesia is made for you.

At the nearest drug store, get a bottle—powder or tablets—take a little and get instant relief.

Keeps your stomach sweet and strong—digestion perfect. It works like a charm.

YANKEES GAIN ON ATHLETICS

Beat St. Louis 12-2 While Second Placers Are Idle.

SOX SERIES EVEN.

NEW YORK, Sept. 18.—The New York Yankees went on a big batting spree yesterday at St. Louis and went into a lead of a full game over the Athletics in the American League pennant race by taking the third game of the series from the Browns by a 12 to 2 score. The Athletics were idle and gave New York its chance to pick up half a game.

Waite Hoyt pitched his nineteenth winning game of the season against only six losses. He allowed seven hits and had a shut out in sight, when Kress hit a homer in the ninth inning, driving in Schulte, who had singled.

Jack Russell held the White Sox to eight scattered hits and Boston evened up the final game of the four-game series by winning 6 to 3 at Chicago.

The Red Sox scored four runs in the fourth inning on three singles, a passed ball and an error by Bill Cissell. Only in the sixth inning, when the White Sox scored two runs, were they able to get two of their hits together.

A three-run outburst in the eighth inning yesterday at Detroit broke up a pitching battle between Fred Marberry and Owen Carroll and gave Washington a 4 to 3 victory over the Tigers. It was the third straight win for the Senators. Goose Goslin hit safely in his twenty-third consecutive game, when he beat out a grounder to Gehringer in the first inning.

Deloro Meets Winners In White Soccer Cup

Game To Be Played in Deloro —On Saturday C.G.E. Meets De Laval in Final League Game.

Saturday's soccer bill is the final league match between the Canadian General and the De Laval. Kick-off is arranged for three o'clock and the referee for the occasion will be J. C. Russel. This game is scheduled for King Edward Park.

The draw for the White Trophy resulted as follows: On Saturday, September 29th, the De Laval meets the Canadian General in the semi-final. Deloro gets a bye into the next round and meet the winners of the previous game at Deloro. This will be the first occasion that any Peterborough team has travelled to the smelter town.

ROCHESTER TAKES LEAD

Bisons Lose in Montreal, Dropping One Point Behind Wings.

TORONTO IN THIRD PLACE.

ROCHESTER, Sept. 18.—It was bush league baseball that the Toronto Leafs exhibited yesterday, and as a consequence the Red Wings climbed back into first place by winning 21 to 4, while the Buffalo Bisons lost to Montreal Royals by 5 to 3. The defeat of the Leafs came in the first game of the final series of the season with the Reds, the remaining two games to be played to-day and Wednesday.

It was a typical slaughter that took place here yesterday before a large Monday crowd of about 5,000 fans. Never in this whole season of baseball campaigning have the Leafs exhibited so poorly as they did yesterday. As one of the players remarked along about the seventh inning, "It was just one of those things." Explaining he said that every club is bound to have an off-day sooner or later and when that off-day comes, while the opposition is having a big day with the stick, the contrast is just that much worse.

BISONS BEATEN.

MONTREAL, Sept. 18.—The Buffalo Bisons dropped into a virtual tie with Rochester for first place in the International League standing here yesterday, losing to the Royals, 5-3. The win put the Royals three and one-half games behind the leaders. Roy Sherrid, right-hand ace of the Royals' staff, pitched consistent ball and held the Bisons to nine scattered hits, while his mates were pounding Milo Palermo, Howard Signor and Lefty Williams for a total of eleven. The Royals made their killing in the second inning, when they found Palermo and Signor for five hits and four runs. Buffalo tallied in the third, sixth and seventh frames.

NEW YORK, Sept. 18.—Reading took the first of a five-game series from Newark at Reading yesterday 9 to 2. Pete Fowler gave the Bears ten hits, but kept them well scattered except in the eighth, when the visitors scored two counters to avoid a shut-out.

Reading pounded Goldsmith off the hill in four innings and continued their attack on Mattingly, scoring five runs in the sixth off the Newark youngster. Jarrett hit a home run with Walsh on first base in the first inning.

PRINCES JOURNEY IN CENTRAL AFRICA

King's Sons Really Commence Tour at Mombasa at End of Month.

Cape Town, South Africa, Sept. 17 (By the Canadian Press).—At the end of this month or on Sept. 28, to be exact, the Prince of Wales and his brother, the Duke of Cloucester, will reach Kilindi, Mombasa, and really commence their African tour.

The scheme outlined provides for a stay of two days in Mombasa, during which the Prince and the Duke will attend a garden party and ball at Government House before making the long railway journey of 320 miles to Nairobi, the capital of the colony, where the governor will welcome them officially.

The Prince will remain in Nairobi, where he hopes to attend the races on Oct. 4 and 6, while the Duke penetrates the interior under the guidance of a "white hunter" in search of big game.

A meeting place is being arranged for the brothers where they will again join forces for the motor trip down country and on this part of the journey both of them will do a good deal of hunting.

Starting in the neighborhood of Nairobi they will travel by motor-car through Nyasa land and Northern Rhodesia, by what is known as the Great Northern Road, to Broken Hill where they will join the railway, and thenceforth use that method of transport for the rest of the journey to Cape Town.

About three weeks will be taken on the road to Broken Hill, and special camping equipment is being prepared for their accommodation during that part of the journey. Everything is collapsible. The equipment includes a bathroom and sun- and mosquito-proof tents.

The journey down to Cape Town will be made by stages, the Princes aim to complete the journey in time to spend Christmas at Government House with the Earl of Athlone, Governor-General of South Africa.

The Prince and the Duke expect to be back in England towards the end of January.

MORE TELEPHONES THAN AUTOMOBILES

British Columbia Is Leading Province in Telephone Development.

The most recent authentic figures showing the comparative number of telephones and automobiles now in use in Canada do not substantiate the common belief that the automobile has outstripped the telephone.

According to an official announcement of the Canadian Government Information Bureau at Ottawa, the Dominion now contains 945,672 Canadian-owned automobiles, exclusive of motorpowered farm implements. This total is to be compared with 1,265,869 telephones in actual operation in Canada at the end of December, 1927, as reported officially by the Bell Telephone Company of Canada.

In telephone development among the provinces, Ontario leads with a total of 561,043 instruments in service, or a percentage of 17.46 per 100 population. But British Columbia's ratio is higher at 18.71 for 108,556 instruments. Quebec has 262,784 telephones or 9.99 per 100 persons. There are 436,120 automobiles in Ontario, a ratio of 13.7 per 100 population, but Quebec's 128,459 autos, second as to number in Canada, show a percentage of only 4.9.

Comparative figures have been compiled as follows:

Province.	No. of Telephones	No. of Automobiles
Ontario	561,043	436,120
Quebec	262,784	128,459
Brit. Columbia	108,556	77,617
Saskatchewan	106,215	106,599
Manitoba	74,124	
Alberta	73,634	73,830
Nova Scotia	41,716	30,059
New Brunswick	31,397	24,544
Prince Ed Island	4,936	4,388
Yukon Territory	200	156

As shown in the above table, only Sasaktchewan and Alberta have more automobiles than telephones, and in each instance the difference is very slight.

HUNTER LEADS HENRI COCHET

Third Set Goes to Veteran After First Two Are Divided.

HUNTER SMASHES WELL

FOREST HILLS, Sept. 18.—Francis Hunter, New Rochelle veteran, who is staging a remarkable comeback, met Henri Cochet, French star, in the U.S. National tennis final here yesterday.

Hunter's First Set

The first set was a service duel until the fifth game, when Hunter broke through Cochet's service to lead 3-2. The first games were poor. Cochet made error after error but Hunter was not quick to seize his opportunity.

Hunter won the twelfth game and first set on service, sending over a vicious smash for the final point.

Point score of the first set:
Hunter .. 2 4 5 5 4 4 1 3 4 4—36—6
Cochet .. 4 2 7 3 2 0 4 5 2 1—30—4

After losing the first game of the second set on Cochet's service, Hunter pulled up from love-40 to win the second game. They divided service through the ninth game. Then the Frenchman broke through Hunter's service in the tenth to take the set.

Point score of the second set:
Cochet .. 4 4 8 1 4 3 4 2 6 5—41—6
Hunter .. 2 6 6 4 2 5 2 4 4 3—38—4

Hunter won the third set, 6-3.
Cochet won the fourth set, 7-5.

CARDS RETAIN TWO GAME LEAD

Beat Phillies Again While Giants Trim Pirates Easily.

ROBINS BEAT REDS.

NEW YORK, Sept. 18. — A home run by "Sunny Jim" Bottomley, his twenty-ninth of the season, gave the St. Louis Cardinals a 5 to 2 victory over the Phillie sat Philadelphia yesterday. This fourth consecutive conquest over the tail-enders, while the New York Giants were taming the Pittsburgh Pirates, enabled the Cards to retain their two-game lead in the National League pennant race.

The battle was a draw at two runs each when Bottomley came to the plate in the seventh after High and Frisch had singled to right field. The St. Louis first-sacker, with the stage set for a sacrifice, as no one was out, took a toe-hold and drove the ball over right-field fence for a homer that was fair only by inches.

Robins Rally to Beat Reds

A rally in the eighth inning that netted them five runs enabled the Brooklyn Robins to even their series with the Cincinnati Reds at Brooklyn by a 7 to 3 scores. A walk, four hits and a pair of sacrifices accounted for the five Brooklyn runs. Gilbert's double with the bases full drove in three tallies and was the big feature of the rally.

The New York Giants held their pace in the exciting three-cornered National League pennant derby at New York when they won an easy victory from the Pittsburg Pirates by a score of 9 to 2.

The Giants coupled hard hitting with excellent pitching by Carl Hubbell, recruit left-hander from Beaumont. Pittsburgh got to Hubbell for only seven scattered hits, a homer by Traynor with Paul Waner on, deprived the boy of a shut-out.

Brame's Appearance Brief

The Giants knocked out Erwin Brame in three and a third innings, getting to him for seven of their nine runs.

Chicago won a wild and wooly game from Boston by a score of 15 to 5, taking six of their runs in the second inning against Pitchers Delaney and Edwards.

The last of the five Boston pitchers officiating was Ray ("Lefty") Boggs, who worked in the ninth inning, in which he hit three batters, made two wild pitches and walked a man.

Hartnett and Wilson led the Cubs at bat and Walker ("Doc". Gautreau returned to the Braves from Providence to work yesterday at short-stop.

SHOOTING OPENS

Tourists Remain at Trent River for Few Days' Duck Hunting.

(Examiner Correspondence)

TRENT RIVER, Sept. 18.—Duck shooting opened Saturday. A number of tourists are remaining over for the sport.

Personals.

Mr. and Mrs. A. L. Riendeau and daughters left Friday for Campbellford after summering at their cottage.

Dr. and Mrs. O. C. Watson returned to Campbellford from spending the season at "As You Like It."

Mr. Fogarty left for Toronto Saturday from spending a week at the Cook cottage.

VIEWS ON SPORTS

Rays meet Niagara Falls in first game of Intermediate finals, tomorrow afternoon at James Stevenson Park.

Buffalo and Rochester are in a tie for first place in the International League as a result of the former's 5-3 loss to the Montreal Royals yesterday. The victory places the Montreal club three and a half games behind the leaders. The Royals won the game in the second frame when they pounded the Bison hurlers for five hits and four runs.

* * * *

Ty Cobb, who has thrilled hardball fans for many years, has decided to quit the game after the present season. The veteran said he will not be connected with baseball in any way after this year.

* * * *

The Raybestos tried to get a Saturday date for the first game of the O.B.A.A. Intermediate finals with Niagara Falls, but failed, and the battle will open at James Stevenson Park to-morrow afternoon at four o'clock. Baseball fans now have an opportunity of showing their appreciation of the Rays' good work giving the club and the game their support.

* * * *

The series will be expensive for the local club. Furthermore, if Peterborough wants senior ball players, support must be accorded the club having the likely looking prospects. It will be folly to expect these players to move into senior baseball next season, if proper support is not given right now to a team that has won ten O.B.A.A. games in a row.

* * * *

October the fourth has been set as the opening date of the 1928 World Series. The series will open with two games at the American League Park, the winner in that league, with the third, fourth, and fifth, switching to the National League park, and then again to the American League park, should these games be necessary.

* * * *

All matters pertaining to the playing of the Series were settled at a meeting of Commissioner Landis with the presidents of the two major leagues and representatives of the contending clubs. Three schedules were drawn covering every likely outcome of the league pennant fights.

AVIATORS RESCUED

Russians Had Walked 200 Miles From Scene of Crash to Coast.

MOSCOW, Russia, Sept. 18.—(Canadian Press).—Six men of the Russian plane, "Soviet of the North," missing since August 22 on a flight from Valdivostok to Leningrad, have been rescued by the steamer Stavropol.

Their airplane was wrecked during a storm near Kolyuchin Bay, Siberia, and the crew, unhurt, walked more than 200 miles over the bleak and frozen plain to the icebound coast, where the steamer took them aboard.

WHEN SPOTS FLOAT

before your eyes, it indicates a lazy liver. Parke's Liver Tone will correct a lazy liver and relieves constipation, biliousness, headache and stomach disorders. This is a vegetable tonic that gives wonderful results. $1 per bottle.—Bond's Drug Store, corner George and Hunter streets.

What You Want In the WANT ADS

DELORO DEFEAT CAMPBELLFORD

Smelters on Long End of 7-0 Score at Home Field.

PLAY GOOD GAME

MARMORA, Sept. 18.—(Examiner Correspondence). — Campbellford which has not had a representative soccer team for three years resurrected a team to engage Deloro at the latter place on Saturday and were defeated by 7-0. The visitors did well in the first half for a team out of condition. Though beaten thrice by W. Brown, Gay made many brilliant saves. The Black and Yellows changed their team around in the second half but to little purpose. Play became one sided and after Brooks and Cousins had scored further goals for the hamster W. Brown raised his contribution to five. Mr. J. Hart refereed the game to the satisfaction of both teams. The return game will be played in Campbellford next Saturday afternoon.

The teams.:

Campbellford—Goal, Gay; backs, Romaine and Boulton; halves, Rollo, Cleverley and They; forwards McMahon, Cambert Sargent, Flint and Stocker.

Deloro—Goal, Balog; backs, Savage and Nicholson; halves, Burridge, Kelly and Simmons; forwards E. Brown, Brooks, W. Brown, Cousins and Melville.

NIAGARA FALLS HERE WEDNESDAY

Raybestos to Play First Game for Intermediate Finals at Riverside.

Local baseball fans are showing a lively interest in the Niagara Falls Raybestos series, and indications point to a big crowd at James Stevenson Park to-morrow afternoon when the Rays go into action against the Falls at four o'clock. The invaders, of course, must be a good team to be at top of the Western pile, their last two rounds having been won against Dundas and Leamington in two games.

It is Scotty Maudsley's turn on the mound, and the local southpaw should be in prime form after a rest of ten days. The Rays will go into the game with plenty of confidence.

Umpires Colling of Belleville and Kerr of Deloro have been appointed for the contest.

MADE BEST SHOWING IN MARATHON

These are th swimmers who entered the "invitation race" at the Canadian National Exhibition a few days ago. The "invitation race" was open to those who made the best showing in the third Wrigley marathon, and got $2500 for their efforts: (1) Mendel Burditt, Toronto; (2) George Young, Toronto; (3) William Erickson, The Bronx, N. Y.; (4) Norman Ross, Chicago; (5) Herr Von Papenfus, South Africa; (6) O. C. Hummell, Nauvoo, Ill.; (7) Harold Preston, Toronto.

SYD. CHAPLIN IN "SKIRTS."

TRY TO PRESERVE SCENIC LOVELINESS

Lovers of Nature Working To Combat Ugly Modern Inroads.

GLASGOW, Sept. 18 (By the Canadian Press).—Town and suburb, village and farm, wild waste places and the splendid setting of the sea, all under the canopy of soft skies given by oceanic climate—these comprise Great Britain's heritage in scenery which must be protected, declared Vaughan Cornish in his presidential address at the conference of delegates of corresponding societies of the British Association for the Advancement of Science here recently. To some degree Mr. Cornish's remarks applied equally to Canada.

A resolution was passed urging the government to stimulate local authorities in employing the powers for preservation of scenic beauty already conferred on them by Parliament.

The separate beauties of the town, farm, wild places and the seashore were discussed in detail. The characteristic beauty of the street lay in the effect of a pleasant path and in order to preserve the dignity of the street it was urged by Mr. Cornish that uniformity of cornice lines must be enforced by municipal authority; otherwise the vista vanishes, camouflaged by vertical strips.

The skyscraper is found to have its compensations from the point of view of the scenic-lover. While an isolated structure tends to rear an ugly square into the sky, a group of such blend into an imposing and lofty facade if constructed properly. Furthermore, the tall buildings provide easy "outlook stations" where the full scene may be viewed by visitors who only need to ascend the ordinary elevators.

Mr. Cornish turned to the modern suburb, which he thought had obvious disadvantages. It would be better to fix a rural ring around a city and just outside this build compact suburbs, whose residential streets could be planned to perfectly suit their purposes, and whose social life would not be put at a disadvantage through houses straggling individually all over the scene.

The English country parishes he thought had a decorative character quite unsurpassed. Here a new form of beauty appears on the scene with the suggestion of great through-highways for high speed motor traffic. Mr. Cornish visioned these bordered by league-long avenues of stately trees.

Mr. Cornish submitted that there should be opposition to any further restrictions on access to the seashore, whatever part of the country it may be. "Of all the greater manufacturing countries with dense population, none equals our own in accessibility of coast and proportion of coast line to area. The sea shore provides a purely elemental prospect, the panorma of sea and sky with its unmatched horizon and never failing harmony of tone and color. The cliff by the sea presents from its precipitous verge an outlook unsurpassed even by Alpine scenery. Here from our island home we gaze upon a scene untouched by time, an image of infinity and eternity, unequalled in its potential influence upon the loftier imaginings of our people," he said.

"It is the duty of the academic world to educate the nation in the appreciation of its heritage of scenery. When the benefits of scenic beauty are thus extended from the few to the many, the people themselves will guard the goodly heritage. The best method for carrying out this instruction in school is in connection with regional survey."

SEAMEN TRAINED ON DRY LAND NOW

Boys Study Work in Well Appointed Waterside Barracks.

London, Sept. 15 (By the Canadian Press).—The abolition of the historic H.M.S. Impregnable marks the final change in the policy of transferring to shore the training of boys for the seaman branch of the Navy. The movement has been gradually going on since the time when wind was the motive power of the warships.

None can deny that the old training ships produced a fine race of seamen. But it is admittedly more hygienic and satisfactory that the training should be carried on in shore buildings which are spacious, airy and can be adapted more easily to instructional purposes. For this reason, the old hulks which have served as receiving ships at the ports have given place to well appointed barracks and the old Britannia training ship for cadets to the Royal Naval College at Dartmouth.

The original Impregnable training ship was built in 1810, 104 guns. It will be a break with tradition when the name no longer appears in the Navy list, in which it has been registered almost continuously since the first Impregnable was launched at Deptford in 1786.

PATCHWORK HAT IS LATEST MODE

Very Popular Designs Shown at Ennis & Armstrong Store.

VELVETS MUCH USED

The popular little hats that resemble a "patchword" cushion are a feature at the Millinery store of Ennis and Armstrong at 376 George street. These small models are made of velvet or felt and have applied pieces stitched on. They come in all colors.

A pretty black velvet in stock at this store has the modish eyebrow line and ear tabs. The brim is covered with black velvet wheels, heavily stitched in gold. The same fine gold stitching appears on the lovely sapphire blue velvet band of a hat of soft dove grey, with right rim slashed in the fashion of the moment.

The printed velvets which are so good for dress attire this fall appear also in hats, a little model of ruby velvet having a pattern of this type. A brocaded velvet hat of olive green has a stunning side ornament of gold sequins.

A green felt is heavily embroidered in silver and gold thread and a blue velvet tam has a mount of glycerined ostrich, while another model of the same color shows the favored "Ramona" hat, with feather pompom as a side trimming. Hackle feathers make the crowns of other models, these soft, pliable feathers with their gleaming surface having come back into popularity after several years' absence.

In the varied shades of browns which are so good this Autumn there are many models of fashionable headgear. Velvets and felts, with self and contrasting trimmings, offer a choice for any costume. The vogue for self trimming is particularly well exemplified in the small grey felt which has a band of felt circles in soft shades of rose, green and yellow.

In the same store of Ennis and Armstrong is a wonderful display of foreign handicraft in the exhibit of goods made at the Hwaiking Mission Schools, where Japanese and Chinese converts turn out exquisite bits of fine needlework and things in silver and gold. There are fine linens for table and dresser and for personal use, like the daintily embroidered handkerchiefs with Oriental emblems in their corners. There are little pictures and brass and silver pieces Benara ware and choice bits of cloisonne. Cigarette cases, ornaments for every purpose, trays and bridge novelties, are on sale, all of this fascinating foreign workmanship. Coolie and Haori coats with brightly-embroidered designs, make another interesting display.

WAITS SIXTY YEARS.

Italian Woman Faithful Until Return of Lover, Now 80 Years Old.

Rome, Sept. 18 (By the Canadian Press).—An unusually romantic marriage, which took place this month at Pedagoggi, Sicily, has created considerable comment in Italy. Two octogenarians, Psaquelle Salambro and Marianna Maramzano, children of the soil, were married in the parish church, where there was such a congregation as had never before been seen gathered together, while those who had come in from neighboring villages thronged the town to wish good luck to bride and bridegroom.

For 60 long years Marianna waited for her Pasquale to return from the distant city whither he had gone, a handsome young man, when Marianna's parents refused to allow them to marry. At last Pasquale came back, bowed with his 80 years, and when he found she had been faithful to him he asked her to share what remained of his already long life, and the little nest-egg he had put by.

A PICTURESQUE SPANISH HOME

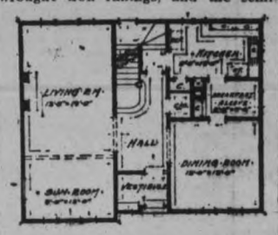
(W. G. Van Egmond & Stan. E. Storey, Architects.)

The picturesque Spanish style so much in vogue in California and Florida is now being adopted by many architects of the Northern States and Canada. It may, of course, be much more purely Spanish in detail when erected in climates resembling that of Spain but, as this example proves, the original spirit of the style can be retained in a house which will meet Canadian conditions in a thoroughly practical way. To fully appreciate the able manner in which the essential color and romance has been obtained, let us imagine the roof of bright red tile, and the beautiful contrast of dark blue woodwork with light blue trim, against the white stucco walls. Truly this is a striking effect.

The introduction of wrought iron grilles is another effective touch which inevitably conjures up thoughts of the romance of old Spain. Due credit must also be given the semi-circular headed windows, and recessed door, for it is easy to imagine the lowering of calibre were these square.

A glance at the plan shows that it very closely approaches a square. By the introduction of a gable over a slight projection of the sunroom, however, the exterior is given the appearance of irregularity so essential to the Spanish style, while retaining the square plan equally essential to meet Canadian climatic conditions.

Entry is made through a quite large vestibule into a hall which exemplifies the Spanish motif employed throughout the interior. The stairs have twisted wrought iron railings, and the semi-circular headed openings into the dining-room and living-room are finished in rough plaster without wood casings, creating a very pleasing effect.



The living-room and sunroom form practically one large room having a combined size of 13 feet by 28 feet forming a space rarely available in a house of this size.

To the right of the main hall is the kitchen, and dining-room. The latter square, of ample size, and, in common with the rest of the house, finished in very bright colors.

The kitchen is bright, and well equipped, and gives convenient access to all parts of the house, while cross-ventilation makes cool breezes possible in the most sultry day. The breakfast alcove has been placed in the logical position between the kitchen and dining-room, where it is most convenient for more informal occasion, and may be used as a pass pantry when the dining-room is used.

Above, hall's room, bathroom, sleeping balcony, and three main bedrooms each cross-ventilated, and with an abundance of closet space, comprise the first floor accommodation.

The size of the house is 28 feet by 35 feet, and the cubic contents approximately 31,220 cubic feet. With hot water heating the total cost will be $11,000.

Readers desiring further information regarding a house of this design should communicate with Home Building Information Service, 345 Adelaide St. West, Toronto, Ont., who will see that it is supplied. When writing, please mention design number 141. Copyright 1928.

SOME POINTERS ON SELECTING HEATING PLANTS

The time to think about your heating plant is when you do not need it. Certainly it is true that the less we have to think about our heating plant in the winter time, the more peace we have.

Think of your heating plant as a kind of machine that has to be given proper attention and supplied with the proper kind of power to run it. When it runs smoothly, silently, we can forget it. But when it rattles, leaks, groans, belches the house full of smoke, drips water on our cherished wall decorations, and fails to deliver plenty of heat when we need it most, it is like any kind of a machine that does not work.

There are two things that prevent heat machines from working well. One of them is the way they are manufactured. The other is the way they are put together on the job. Perhaps there is a third way—the driver has something to do with it.

The manufacturer's part is to assemble substantial materials in a good design. It seems that this ought to be easy enough to do and it is so for a great many of the manufacturers, but our complaints are enormously increased by some manufacturers who apparently either think that anything that looks like a heating machine will do the work, or else have the impression that the public will think so and thus permit them to market extensively what ever haste and greed can produce.

The way out of this is not to buy a heat machine that does not bear a reputable manufacturer's sweeping guarantee. Then if your machine does not work, come down hard on the manufacturer. You have assurance that he will cherish the opportunity to make good on his promises. The manufacturer of cheap heat machines can also make promises. That's what you buy chiefly when you get a cheap machine. Unfortunately the cheap manufacturer does not deliver anything substantial to go with them.

What are the marks of a poor heating machine? Light castings, thin metal, crude workmanship, parts not designed properly as to size or form so as to do their work in the way that scientists have proven to be the best way. For instance, the firepot may be too small. Insulation may be omitted. There are countless ways to cheapen. Buy the best.—Copyright 1925. The Architects' Small House Service Bureau.

THEATRES

AT THE GRAND.

GORDON McLEOD IN "MISS ELIZABETH'S PRISONER"

Judging by the advance indications, the theatrical season of 1928-9 will eclipse all existing records. The array of productions, both musical and dramatic, is one of the most imposing in many seasons.

First of the famous British dramatic stars to reach the Dominion is Gordon McLeod, at the head of his own London company. His opening at His Majesty's Theatre in Montreal resulted in a demonstration, after the curtain fell on his first night, which has rarely been seen in a Canadian theatre.

The young star's appearances in this country last season, it will be remembered, were one of the sensations of the year. When Sir John Martin Harvey was rushed to the hospital in Toronto an hour before the performance was scheduled to begin, Gordon McLeod was called upon to take his place. The play was "Scaramouche" and his characterization so excellent that he received a dozen curtain calls at the end of the evening.

This present tour marks his first appearance in Canada as a star in his own right. He has been starred in London and in the East but the outstanding successes he scored here during Sir John's illness made a return of the young actor who had been pitchforked into fame, almost imperative.

He appears in a famous English hit, a romantic drama based on the American revolution, "Miss Elizabeth's Prisoner" and his local appearance at the Grand Theatre is scheduled for Thursday of this week. Seats now on sale.

AT THE REGENT.

JANET GAYNOR, NEW STAR, BLAZES GLORIOUSLY IN FOX VERSION OF "7TH HEAVEN."

A new star, probably the most brilliant that has yet appeared on the cinema firmament, was discovered with the showing of Frank Borzage's version of Austin Strong's "7th Heaven," for Fox Films, which had its local premier at the Regent yesterday afternoon. And that star is Janet Gaynor. So unexpectedly is her great and wistful loveliness, and with such sympathy and understanding does she play her role of Diane, the Paris street waif, that she completely captivates the hearts of her audience with almost her first appearance in the picture. Sweetly demure, fearfully defiant or gloriously smiling through her tears, in each and every mood she is equally beautiful and lovable as perhaps no other screen actress is.

But not only Janet Gaynor, Charles Farrell, too, is a new star who comes into being with this production. He is Chico, that "very remarkable fellow," as he says himself, who leads the little waif from the streets to the "7th Heaven."

And with these in the leading roles is a cast which includes Ben Bard, David Butler, Albert Gran, Gladys Brockwell, Emile Chautard and George Stone, all of whom reach their greatest achievement in "7th Heaven." This is the verdict of the blase reviewers of New York, and that was the verdict which every member of the premier audience at the Regent yesterday felt to be the case. The reason for this is that Frank Borzage, the director of "Humoresque," which up to the present time was considered by many critics as the finest of all dramatic pictures, has at last found a story greater even than "Humoresque," which permitted his genius full play. And the result is "7th Heaven," probably the most fascinating picture yet produced.

You must not miss it.

AT THE CAPITOL.

"RAMONA" WITH DOLORES DEL RIO.

"Ramona" is one of those pictures that have a charm all their own. A romantic, appealing love story, with a sad atmosphere that changes to happiness in the finale, it is appealing and sweet. Dolores del Rio is perfectly cast for the stellar role and there is a fine supporting cast, with Warner Baxter as Alessandro and Roland Drew as Felipe.

Set in the early days of California, "the days of old, the days of gold, the days of '9," it tells the story of a Spanish-Indian girl and her reversion to racial type when she marries the handsome Indian, Alessandro, and leaves behind the more effeminate Felipe. But it is to Felipe she returns when Alessandro is dead and when, better still, Alessandro's mother, the vindictive Senora Moreno, is sleeping quietly beneath the old pepper tree.

Helen Hunt Jackson's immortal story tells the tale of the love of Ramona and the educated Indian, Alessandro. It is difficult, when watching the picture, to realise that Alessandro would be of the type who spoke those beautiful words: "It is true, Ramona, that the cup of life tastes sweetest at the brim and the flavor changes as we drink deeper, while the dregs are made very bitter. But this is so that we may not grieve too much when it is at last taken from our lips."

But the Alessandro of the picture is convincing, nevertheless. From the cruelty of the Senora and the softness of Felipe, the girl Ramona, half Indian from her mother, turns to the virile, passionate sheep herder captain, Alessandro, and his wooing is one of the most romantic bits of a romantic picture. The hacienda of the Senora follows out ancient traditions of Spanish life in the early days of California, with the mild-eyed son of the house strumming the lute through sleepy afternoons, the fat cook peering through half-closed blinds, to sympathize with the play of the youngsters and to frown over the stupidity of the older woman who comes to stop them, and the picturesque surroundings of the open-air life of a lazy, romantic people.

The piety and superstition of that early time are reflected faithfully in this story-picture. When Ramona has fled away with her lover and the old Father Salvadierra has given them his blessing in their marriage, they go to live in the Indian village on the skirts of the San Jacinto Mountains. Here the sheep and the cattle graze peacefully on the hillside. Ramona has become the Indian-like wife of the Indian who smokes his pipe on the stoop and their little girl child plays with the collie which has followed them from Ramona's earlier home.

Then the bird of ill omen appears at the window and the child sickens. Ramona, true to type, takes from the statued Virgin the tiny Bambino which lies within her arms, and promises to return it when the child recovers. But the child dies and then the bandits come to despoil the peaceful village. Ramona and Alessandro flee to the stony crags of the Eagle's Nest and there make another home. And misfortune again dogs their steps. Alessandro is shot as a horse thief and Ramona's mind gives way under the strain. It is to Felipe and his conquering love and devotion that she owes her final happiness.

Beautifully photographed, with a great deal of what painters call "chiaroscuro," or the play of light and shade, in its lovely gleaming shadows, the picture is true to the setting of the story and the acting is wonderful. Felipe, rather than the stronger Alessandro, is the hero, the nobility of his temperament shining through the tale from beginning to end.

The old writer says: "It is true that a nightingale sings all the more sweetly when a thorn is pressed against its breast." So the song of Felipe, when he strums his lute to his mother, to gain her attention and allow his beloved Ramona to flee away with Alessandro, sounds all the sweeter to the listeners' ears. And, even with the sad ending for Alessandro, the audience is satisfied when the lovely Ramona comes back once again to her home and her milder love.

For its matinee and its two evening performances, the Capitol was packed to capacity yesterday.

As a final touch to the romantic setting of the picture is the singing of "Ramona," the popular song hit, by Miss Geraldine Collins, whose lovely voice was heard to splendid advantage and received repeated applause at both performances last night. Miss Collins will sing during the following two days of the presentation. — Jeanette.

MISSION CIRCLE FINISHES STUDY

Millbrook Girls Conclude Reading of "Drums in the Darkness."

MISSIONARY WRITES

Millbrook, Sept. 18 (Examiner Correspondence).—Mrs. Thomas Luxon and her two daughters, Misses Charlotte and Margaret, were hostesses for the September meeting of the Golden Links Mission Circle, the attendance being as large as could be expected considering the very wet evening.

The president, Miss Jean L. Burnham, was in the chair, and took up the final chapters in the study book, "Drums in the Darkness," in an interesting manner.

Miss Elsie Spence gave a reading, mentioning in detail some present-day results of the life work of Mary Slessor, of Kalabar, and a letter from Miss Hawken, missionary teacher at Washtao, Alberta, was another feature of interest. Miss Hawken gave a number of items regarding her work among the Ruthenian children, and also thanked the circle members for their 'shower' of post cards on her birthday.

The honorary president, Mrs. V. C. Lambert, had her usual instructive and encouraging talk, and the piano duet by Misses Frances and Beatrice Jones was much enjoyed.

Mrs. Luxon, assisted by her daughters, served refreshments at the close, and music and social converse caused the hour to pass pleasantly.

Personals.

Miss M. Beswetherick, formerly of the Continuation School staff here, and now of Janetville, spent the week-end the guest of Miss Florence Fallis.

Miss Hazel McMahon, of Toronto, is holidaying with her parents, Mr. and Mrs. F. McMahon, expecting to return to her position in the city on Wednesday.

Mr. and Mrs. Will Garnet and son, of Port Hope, were week-end guests of Mrs. Herb Ball, Fallis Line.

Mrs. M. Hurd, and Miss Lulu Hurd, of Fallis Line, are visiting her son at Oshawa.

Dr. G. H. Needler, of Toronto, spent the week-end with his brother and sister, Mr. A. A. and Miss Etta Needler.

Roy Fallis, of Fallis Line, is visiting his brother at Buffalo.

Miss Helena Needler, of Lindsay, was a week-end guest of Mr. A. A. and Miss Etta Needler.

Among those from Millbrook and vicinity who motored to Fenelon Falls on Friday and attended the Deanery meeting were: Rev. Canon and Mrs. Allen; Mrs. C. M. Westmacott; Miss Annie Armstrong; Mrs. E. Whyte; Rev. P. C. and Mrs. Howard; Miss Muriel Smith; Mrs. C. McNeil; Mr. and Mrs. R. McCamus; and the Misses Jean and H. Lough.

Mrs. E. Kenyon was a visitor in town last week; Mrs. Kenyon has left Peterborough and will reside in Toronto for the winter months.

Mr. George Kidd is improving the house on West street which he recently purchased from Arthur Foottit, and has moved in to his new home.

The many friends of Dr. S. W. Clarke, of Lindsay, formerly of Millbrook, will be glad to learn that he is able to be about again after some time in the hospital as the result of a slight stroke.

Dr. Tennant, of Montreal, who serves under the Dominion Department of Agriculture, paid an official visit to "Windermere Farm" last week, and applied the t.b. test to W. Fred Fallis' herd of pure-bred, fully accredited Holstein cattle; a clean bill of health was returned as a result of the test.

Dr. Tennant also visited the farm of W. E. Belch, where a fine herd of Holsteins is kept, and the farm of J. L. McCamus, the latter specializing in Durham cattle. Results were satisfactory in every case.

NEW BOOKS AT MARMORA LIBRARY

Number of Books Borrowed This Summer Greater Than Usual.

Marmora, Sept. 18 (Examiner Correspondence).—Marmora Public Library, July and August, report new books: Crusade (Conn Bryne); The Plains of Abraham (Oliver Curwood); The Moccasin Telegraph (Hal G. Evarts); Tess of the D'Urbervilles (Thomas Hardy); We (Charles Lindbergh); The Day of Glory (Dorothy Canfield); Two Flights Up (Mary Roberts Rinehart); The Strange Interlude (Arnold Bennett); The Runagates Club (John Buchan); Shadows of the Long Knives (Thomas Boyd); Eliza for Common (O. Douglas); Miss Mayhew and Ming Yun (Anne Duffield); Power of the Hills (Laurie Y. Erskine); Swan Song (John Galsworthy); Pluck (Basil King); Tide of Empire (Peter B. Kyne); Welcome Home (Alice Duer Miller); Sands of Fortune (Sinclair Murray); The Virgin Queen (Harford Powell, Jr.); A Pool in the Forest (A. R. and R. K. Weeks); Wintersmorn (Hugh Walpole); Two Forsyth Interludes (John Galsworthy); Cherokie Trails (George W. Ogden).

Juvenile.

Treasure Trove (E. B. and A. A. Knipe); My Friend Toto (Cherry Kearton); Youth Down (Harold Sherman); White Swallow (Emma Slearne); The Lone Scout of the Sky (James West); At the Zoo; Bobby and Betty in the Country (Katherine E. Dopp); Mexico and Central America (Harry Franck); Old Testament Stories (Eulslie Grover); The Allens and Aunt Hannah (Clara Pierson); Arabella and Araminta Stories (Gertrude Smith); The Merry Pilgrimage (Merriam Sherwood); Wilderness Adventurers (William Underwood); Belly Wales, Preshman (Margaret Ward); Recitations for Younger Children (Grace Gaige).

During July and August we sold eight new memberships, bringing the number of subscribers (adult paid) for 1928 to ninety-three. The juvenile subscribers for the year (free) number two hundred odd.

The number of books borrowed has been greater this summer than usual, vacation time being a vacation from reading as well as from study and work.

July, adult fiction, 265; non-fiction, 10; juvenile, 212; reading-room, 20.

August, adult fiction, 242; non-fiction, 15; juvenile, 210; reading-room, 33.

As the greater number of books borrowed are read by several in a family, the readers could be multiplied a number of times within the past few months.

Bryne, Curwood, Hardy, and King have died and the reading public will miss them.

Mining Briefs

A Special Service to The Examiner

TORONTO, Sept. 18.—A despatch from Sudbury states that G. M. Miles has resigned as manager of the Treadwell-Yukon and that V. A. Clausen, mill superintendent, will be his successor with the change effective on October 1st. It is said that the company will embark upon a new policy. All construction and surface work will be considerably curtailed and the bulk of work centered upon underground development. Several economies will be derived, it is thought, by reducing the present accounting and supervising staff as well as the number of men employed, which, all told, number about 525.

The aggressive exploration and development work that has been carried out by Capital Rouyn now gives promise of reward. Recent stripping and trenching on their Sudbury property, between the Geneva Lake and Towagmac properties, now shows a decided improvement, with the last four assays taken running over $21, $25, $14 and $13 respectively. Coincident with the encouraging results in the Sudbury field the operations at Rouyn are assuming greater importance. Work is now being carried on at a point where the ore body has widened out considerably. A trench is now being thrown across the vein, and to date a width of 70 feet has been exposed, with the wall not yet reached. It is understood that diamond drilling will soon be carried on at this property.

The annual meeting of the Rubec Mines Limited was held in Montreal last week. The financial statement was approved and the old board re-elected. D. A. Mutch, M.E., the company's consulting engineer, prepared a progress report and this was presented to shareholders. A resolution was adopted authorizing the directors to enter into the necessary arrangements with brokers for the sale of stock to finance future development.

Crown Reserve are said to be meeting with favorable results. It is reported they have cut their No. 2 vein on the 900-foot level and have drifted on same for a considerable distance. Values are not reported, but the material is said to look good. A few days ago Crown cut their No. 1 vein and this is said to average about $9 per ton.

Owing to favorable results obtained at depth recently, it is now reported that the shaft at the Tough-Oakes-Burnside will be continued to 2,500-feet. The shaft reached the 2,000-foot horizon a few days ago, and the station was established at this depth.

The scene of the latest gold strike is the Clearwater Lake field, it stories told by several men who have just returned from the district are true. A sensational good showing is said to have been uncovered on a property at one time under option to Conisagas. Width is unknown, but it is said to have been uncovered for a length of 200 feet so far.

A report from Winnipeg states that the shaft at Gem Lake Mines is now down more than 100 feet, and will be continued to a depth of 275 feet, including a sump. Stations are to be cut at the 125 and 250-foot horizons, and lateral work will be started on both levels. In addition to the sinking contract, 1,000 feet of crosscutting and drifting has already been contracted for.

According to Kirkland Lake advices, the new high grade vein recently encountered on the 400-foot level of the Lake Shore is opening up exceptionally well. Also the work on No. 2 vein to a point near the Teck-Hughes boundary is said to be in very high grade.

According to information received from the Rouyn camp it is reported, on good authority, that the new vein which was encountered while station cutting on the 500-foot level of Granada has width of eight feet of chalcopyrite, with considerable free gold in evidence. No assays are available as yet, but it is evident that the new find is considered of much importance.

Ontario Gold Camps' August Production Increases

The Ontario Mines Department returns from the gold mines of Ontario for August show that the total value of bullion for the first eight months of the year was in advance of that for the corresponding period of 1927. As compared with July, increases were recorded at both Porcupine and Kirkland Lake. While the record for the year to date at Porcupine was considerably below the figures for the same period in 1927, the decrease was offset by the enlarged production from the Kirkland Lake camp.

During August the producing mines in order of output were as follows: Porcupine (8), Hollinger, McIntyre, Dome, Vipond, Coniaurum, Ankerite, March Gold and Paymaster. Kirkland Lake (7), Teck-Hughes, Lake Shore, White Hargreaves, Sylvanite, Kirkland Lake Gold, Barry-Hollinger and Tough Oakes.

Large Increase Shown in Canada's Nickel Exports

Ottawa.—The exports from Canada for the month of August of all grades of nickel, as reported by the Dominion Government, amounted to 8,077,200 pounds, valued at $1,818, 327, against 3,268,300 pounds with a valuation of $907,145 in August, 1927.

During the first seven months of this year the total exports of all grades of nickel amounted to 65,213,-200 pounds, which is an increase of 32,518,900 pounds above that of the corresponding period of last year. The export valuation for the first seven months of 1928 was $14,463,651, representing a gain of $5,018,730, or 50 per cent more than export valuation for a similar period in 1927.

Quebec Stock Exchange Opens

B. T. Riordan and Co., Limited, reports that the Quebec Stock Exchange opened officially at 20 St. James street, Quebec City, yesterday, and the trading hour has been fixed from 11.30 to 12.30.

It is understood that most of the old-established houses of Quebec City have purchased seats on the Exchange, and also a number of houses in Montreal. Bruce T. Riordan of Toronto, has purchased a seat.

Golden Centre Mines Deal

Announcement is made that the Golden Centre Mines., Inc., has acquired two properties in the Sturgeon Lake district of Eastern Ontario and one in the Kirkland Lake district. The corporation has a one-third interest in approximately 80,000 acres adjoining the St. Joseph Lead Company's holdings in Southeastern Missouri, which is on joint account with the Anaconda Copper Company, which is undertaking the management and prospecting of the property.

Douglas Mutch, M.E., says:

Amulet.—The management have issued report on ore reserves. Sometime ago estimated at $12,000,000 in assured ore.

The report which was issued showed $10,116,000, made up of 434,000 tons of ore averaging $23.31 per ton. In this estimate we cannot agree with results arrived at from the figures obtained by diamond drilling. They are, in our opinion, far too low and do not do justice to the property.

We cannot account for the object in issuing such report excepting that the management are ultra-conservative at the present time.

It has been intimated that at the forthcoming annual meeting a much more favorable view will be taken by officials of the company on the possibilities of the property. We consider such a view fully justified and look for developments now under way to increase considerably the estimate which we have made. We consider Amulet at present prices to be selling far below its actual value.

Waite-Montgomery.—At the present the raise from the 165-foot level to surface is practically completed. It shows for its full mining length a copper content of over 7 per cent, the raise is to be used for mining purposes. Due to a lessening in amount of ore being hoisted at Noranda, a large increase in shipments from Waite has been made, during the last two weeks an average of 150 tons per days has been shipped from here to Noranda Smelter.

Aldermac.—Cross cutting is continuing from the 1,100-foot level. So far this work has not advanced far enough to get into known ore. To date, three holes have been completed, none of which have cut commercial ore.

Area.—Diamond drilling is continuing, this is now under direction of former geologist for Amulet. A recent inspection of the cores from diamond drilling indicates that up to date it has not been carried deep enough. The holes are now being deepened.

F. G. Oke and Company wires:

A diamond drilling station has been established at the 700-foot level of the Federal Kirkland, and drilling from this set-up commenced last week. Operations have reached an interesting stage and are now at the point where interesting developments may be expected.

The "street" hears that Hollinger is out after the remaining 17½ per cent of the Jamieson properties, which, to date has not been secured.

The latest is that Jamieson and associates have been offered a flat $250,000, with the offer coming from a person, believed to act as agent for Hollinger. This, however, is gleaned from the "street" and should be taken in small doses.

Numerous wires from the North hit the market about half-way through the session. One of these states that in station cutting at Granada, a new vein carrying free gold was uncovered.

Tough Oakes is unofficially reported to have cut a very large mass of ore at the station of the 1,900-foot level. This follows a report to the effect that due to recent favorable results obtained at depth the shaft would be continued to 2,500-feet.

A new surface find is said to have been made on the northern section of the Area property. Jock McGregor, formerly with Amulet and at present with the Mandy, is now on this property making a study of geological conditions.

Developments at Goodfish are proceeding apace, and reports from the North state that approximately 300-feet of lateral work has been completed on the 250-foot level. Two drills are working from the six hundred feet level, it is stated, the shaft is to be continued to 1,000 feet.

TRAINS CRASH NEAR KINGSTON

Rear End Collision Blocks Traffic On C. N. R. Line.

MANY SHEEP KILLED.

KINGSTON, Sept. 18.—There was a freight wreck on the Canadian National Railways at Collin's Bay, seven miles west of Kingston, at 1.25 o'clock yesterday afternoon, when freight No. 493, travelling at a good rate of speed, crashed into the rear end of a way freight, which was proceeding very slowly. The track for a distance of several hundred yards was plowed up and both sides of the line were piled high with wrecked cars. None of the train crews were injured.

Eleven cars carried sheep, and the tracks for some distance were strewn with dead, dying and maimed animals. Residents of the immediate district helped in tending to the injured sheep, and put out of misery those beyond recovery. Wrecking crews were at work two hours later. Late in the afternoon the passengers on the International Limited were brought near to the wreck and then transferred to a train on the other side and taken west. Only a few weeks ago Collin's Bay was the scene of another train collision.

SUNDAY SCHOOL COURSE PLANNED

Lakefield and Smith Association Will Hold Class For Teachers.

A meeting of the executive of the teachers training department of the Smith and Lakefield branch of the Ontario Religious Education Council, was held in Bridgenorth United Church on Monday evening. The following members were present: Rev. T. M. Wesley, Lakefield; Rev. J. O. Totten, Bridgenorth; Rev. W. S. Edgar Gilmour, Memorial; Miss McCall, Lakefield; Messrs. A. B. Burrows, and Norman Lemay, Lakefield; and Percy Udy, Bridgenorth, who acted as secretary for the meeting.

The purpose of the meeting was to consider the advisability of holding a school for the training of Sunday School teachers, during the coming winter, similar to the one held last winter in Lakefield. It was unanimously agreed to put on a teacher training course in Bridgenorth United Church, commencing on the 1st of October and finishing on the 5th of October. Meetings to begin sharp at 7:45 each night. The following committee was appointed to make the necessary arrangements: William Saunders of Lily Lake; William Paul Gilmour, Memorial; W. A. Sidney, Bridgenorth; G. McIlmoyle, Selwyn United; Sherman Sweeting, Selwyn Baptist; Norman Lemay, Lakefield Regent street; Wallace Hendren, Knox United, Lakefield; Rev. J. B. McComack, Lakefield Baptist; John Harrison, Wesley United; Rev. A. C. Hirston, Lakehurst and Chemong United; Fred Bell, Fairview United; Rev. S. A. Kemp, Young's Point, with A. B. Burrows, Lakefield as manager.

It was expected that the teacher of the Sunday School workers in the beginner's grade, up to the junior, will be Mrs. White, of Brooklands, who will also give a course on "Bible Story Telling."

Rev. Mr. Wesley will give the workers in the other grades a course on "The teaching values of the Old Testament."

Rev. Mr. Wesley acted as chairman and Rev. Mr. Totten opened and closed the meeting with prayer.

WEDDING BELLS

HELSON—SADLER.

A very pretty wedding took place at half past nine o'clock this morning at All Saints' Church, when the rector, Rev. J D. Paterson, performed the ceremony which united in the holy bonds of matrimony George Alfred Helson of Windsor, son of Mr. and Mrs Alfred Helson of 480 Sherbrooke street, and Lillian Elizabeth, daughter of Mr. and Mrs. Emil Sadler, of 77 Smith street, Peterborough.

The bride, who was given away by her uncle, Mr. George Sadler, wore a lovely gown of apricot georgette, the skirt made in bouffant style with floating panels of georgette, the scalloped hems and sides edged with apricot satin in bands of fluted ribbon. The bodice was tight and sleeveless and the bride's only ornament was a string of pearls. Her hat was a slightly poke bonnet shape of apricot georgette and ribbon and she wore matching hose and satin slippers. Her bouquet was a shower of sweetheart roses and gypsophila.

The bridesmaid, Miss Ida Eagleson, was in a frock of beige georgette with matching slippers and hose and a hat of printed velvet. Her bouquet was of pink Premier roses.

The best man was Mr. Albert Charles Veenman.

During the signing of the register, Miss Annie Burns sang "Until" in sweet voice.

After the ceremony, a reception was held at the home of the bride's parents attended by the members of the family and several friends.

Later, Mr. Helson and his bride left by motor for London, Ontario, to reside later in Windsor.

Many beautiful and costly gifts were received by the young people.

A telegram bearing congratulations was received from Mr. Fred Helson, of Chicago.

GILMOUR—BRISTOW

The marriage of Victor H. Gilmour of Campbellcroft, to Audrey May Bristow, daughter of Mr. and Mrs. William Bristow, of Millbrook, was quietly solemnized at Knox Manse, Peterborough, by the Rev. William McDonald, B.D., on Saturday afternoon, September 15. The young people were attended by Francis M. Gilmour and Alma B. Bristow, brother and sister of the groom and bride respectively. After the honeymoon the happy couple will take up their residence at Campbellcroft.

Beg Your Pardon.

In the account of the death of Mrs. Andrew Robertson in yesterday's Examiner, it was stated in error that her only son had predeceased her. James Robertson of Otonabee is a son of the deceased lady.

BIRTH.

COOPER.—At Nicholls Hospital on Monday, Sept. 17th, to Mr. and Mrs. E. W. "Jack" Cooper," 206 Westcott Street, a son—Leonard Walter.

MARRIED

GILMOUR-BRISTOW — At Knox Manse, Peterboro, by Rev. William McDonald, B.D., on Saturday, September 15, 1928, Victor Hilliar Gilmour, of Campbellcroft, to Audrey May Bristow, daughter of Mr. and Mrs. William Bristow, of Millbrook, Ont.

IN MEMORIAM

GOODSON —In loving memory of John Robert Goodson who died Sept. 18, 1924.
—Inserted by his wife and family.

COLLEGIATE BOYS PRACTICE RUGBY

Large Number of Candidates Trying Out For Three Teams.

Forty boys were on hand last night at the Oval for the rugby practice of the first and second Collegiate Institute teams. Nearly all of last year's young team is back, and with an extra year's age and experience the boys are expected to round out into a fine bunch of players. The teams are being coached by C. S. Browne and E. F. Legon.

In Confederation Square the Juniors turned out for a practice under R. C. R. Cummings, the coach. The junior have a team entered this year in the Central Ontario Interscholastic Association, with their first game to be played a week from next Saturday.

Bowling

The following games are scheduled for to-night:

Doubles—7.30.
E. Taylor and Parkins vs. G. Coleman and A. Brown.

Singles—7.30
Sloane vs. Sexsmith.
Hill vs. McDonald.
Taylor, G., vs. Petrie.
Oke vs. Fitzpatrick.
Grant vs. Kay.

Singles—8.30.
Donaldson vs. Cowan.
Johnson, G., vs. Fletcher
McLeish vs. Art. Brown.
Johnson, V., vs. Hutchison.

SOCCER NOTES.

LONDON, Sept. 18.— (Canadian Press Cable).—Soccer league matches played in the Old Country yesterday resulted as follows:

English League (First Division)
Blackburn Rovers 3, Sunderland 0.
Sheffield United vs. Liverpool, (unplayed).
West Ham United 1, Cardiff City 1

Third Division (Southern Section)
Northampton Town 3, Plymouth Argyle 0.

Third Division (Southern Section)
Halifax Town 1; Wigan Boro 0.

News From the Mines

Through
Solloway, Mills & Company

(Continued from page 15)

Lake Shore.

TORONTO, Sept. 18.— According to Kirkland Lake advices, the new high grade vein recently encountered on the 400 foot level at this property is opening up exceptionally well. Also the work in No. 2 vein to a point near the Teck-Hughes boundary is said to be in exceptionally high grade. Production so far this year has shown an increase of approximately ten per cent. in the average value of the ore, and indications point to the continuance of this increase. There are prospects of a further large mill increase during the coming year which will be easily possible with the new shaft in operation. It is believed by 1930 the mine will be in shape to take care of production at twice the present milling capacity, which is around 1,000 tons daily.

Gem Lake.

A report from Winnipeg states that the shaft of Gem Lake Mines is now down more than 100 feet, and will continue to a depth of 275 feet, including a sump. Stations are to be cut at the 125 and 250 foot horizons, and lateral work will be started on both levels .In addition to the sinking contract, 1,000 feet of cross-cutting and drifting has already been contracted for.

Granada.

Mr. R. C. Gamble, president of Granada Mines, reports that in cutting their station at the 500 foot level a blind grade vein was encountered. The extent of this vein was not known when Mr. Gamble was seen, as it had only been cut, but work was proceeding over the week end so that some estimates of its importance and value might be made. The zone was stated to be highly mineralized with considerable free gold in evidence. It was not planned to carry out any extensive lateral development work until the 700 foot level was reached, where they anticipate cutting the No. 2 vein, but this new find may alter their plans for the time being. The geology of Granada is highly favorable for the deposition of ore, and this recent find would appear to bear out the theory of many engineers that pay ore would be encountered at depth. Further development work will be looked forward to with a great deal of interest. It is also reported that a well known consulting engineer and geologist is to make a report for an independent financial house.

Siscoe.

Machinery and equipment for the mining and milling plants of Siscoe Gold Mines is being rushed to the property with all possible despatch, so that all deliveries may be effected before the close of navigation. Work in hand at the mine requires quite large working forces, including mining crew engaged in placing the underground in shape for production of ore at the rate of 100 tons daily, commencing the first of 1929.

Mine Trading Is Slow With Trend Downward

TORONTO, Sept. 18 (Canadian Press).—A very dull session was experienced at the Standard Mining Exchange this morning. Trading was extremely slow and prices established a definite downward movement. Noranda, in heavy liquidation, was off 35 cents at 51.40, while Sudbury Basin, after making a substantial advance yesterday, dropped to 6.20 to-day for a net loss of 30 cents, and Hudson Bay opened at its unchanged figure of the former session at 26.60, but suffered a relapse towards noon to register a decrease of 30 cents.

Other losses were more of a minor character. Lake Shore was off 15 to 22.00, Hollinger 20 at 8.50, Mond Nickel 15 at 27.00, Kirkland Lake six at 1.53, Amulet five at 3.25, Tough-Oakes-Burnside three at 36, and Newbec two at 49. Teck Hughes was one of the isolated spots to hold its own, selling from 8.90 to 9.00 for a ten cent increase. Graham, with a moderate turnover, was up 2¾ at 40¾, Sherritt Gordon ten at 6.70, and Wright Hargreaves three at 3.13.

Wheat Prices Go Down As New Crop Comes In

CHICAGO, Sept. 18.—(Canadian Press).—With receipts of new wheat in Canada the largest of the season and with excellent harvest weather continuing, wheat prices took an early downturn to-day. Arrivals of wheat at Winnipeg to-day totalled 2,054 cars, against 1,069 last week and 909 a year ago. Opening unchanged to ½ cent off, wheat later showed a moderate general set back. Corn, oats, and provisions were also easier, corn starting unchanged to ⅝ cent down, and subsequently undergoing a drop all around.

Opening prices were: Wheat, September 108¾; December, 113½. Corn September, 102½; December, 76⅝. Oats, September, 41⅞; December, 41⅞.

Broad List Of Shares Dealt In At Toronto

TORONTO, September 18 (Canadian Press). — Trading on the Toronto Stock Exchange to-day, although monopolized to a great extent by a few of the better known issues, was scattered lightly throughout the list. Prices were firm with a few issues scoring good advances.

Maple Leaf Milling registered the most substantial increase of the session, jumping to 118 for a net gain of 7½. Asbestos, in light trading, was up 1½ at 28¼, while Hayes Wheel was up the same amount at 34 Shredded Wheat regained its loss of yesterday, and was up to 65½ for a gain of 1½. International Nickel continued on its downward trend to-day, losing 1⅛ to sell at 125½, while the Rights lost 35 cents at 6.40.

There was an increasing demand for farm implement stocks, which remained firm throughout the session, Cockshutt Plow closing ½ point higher than its previous close at 30½ and Massey-Harris ¼ at 45¾.

Calling Of Bank Loans Causes Selling Wave

NEW YORK, Sept. 18.—(Canadian Press).—A wave of selling, presumably inspired by the calling of $25,000,000 in bank loans, turned the course of prices irregular to-day after an early outburst of strength had carried nearly two score issues into new high ground. The ticker was again swamped with the volume of trading, falling half an hour or more behind the market.

Call monew was steady at the renewal rate of seven percent, but a slightly firmer tone was reported in the time money market for short term loans. Failure of American bankers to purchase any gold in the London market to-day caused some disappointment, as further gold imports had been looked for this week.

Sterling Exchange was slightly higher.

U. S. Cast Iron Pipe was a spectacular feature, soaring 16 points. International Harvester extended its gain to 8¾ points, Gimbel Bros. to 7¾, and Curtiss airplane to 4½ before profit-taking sales forced recessions throughout the General list.

The Coppers again gave one of the most impressive demonstrations of group strength. American Smelting ran up more than five points to 256½ and was accompanied into new high ground by Anaconda, American Zinc, Cerro De Pasco, Calumet and Hecla, Inspiration, Kennecott, Nevada-Grandy and Miami.

DOES MASTER MIND RULE BORDER CRIME?

ONE BODY FROM MANASOO FOUND ON SHORE

WRECKAGE ALSO PICKED UP ALONG GEORGIAN BAY COAST

Unidentified Man Picked Up East of Place Where Ship Sank.

SLIGHT HOPE HELD.

Cause of Sinking To Remain Unknown Until Federal Investigation Opens.

OWEN SOUND, Sept. 19.—(Canadian Press).—The relentless search for the bodies of the fifteen missing members of the crew of the foundered steamer Manasoo began to bear fruit this afternoon with the finding of an unidentified body on the shore at Cape Rich, about twelve miles from Meaford. Coroner Dr. A. R. Rutherford of Owen Sound, and undertakers have started out for the spot where the body was found, about fifteen miles from here.

The steamer Manitoulin which has been patrolling the bay since six a.m. reported from Collingwood, where she docked at noon, that absolutely nothing had been located.

A private airplane which is also being used in patrol work returned at noon to the harbor here with nothing to report. It is expected that the search of the shore line between here and Collingwood, which has already brought to light the first body, will probably reveal others.

The list of missing, which included an unidentified watchman, was reduced to fifteen by the owners of the Manasoo to-day. It has been established that only one watchman, E. Stewart, of Owen Sound, was taken on the trip.

OWEN SOUND, Ont., Sept. 19 (By Canadian Press Staff Correspondent) —Nearly six hours of flying by airplane from the Royal Canadian Air Force base at Camp Borden, over the waters and shores of Georgian Bay yesterday were fruitless in their search for traces of the fifteen men who have been missing since early Saturday morning when the steamer Manasoo foundered off Griffith's Island, about fifteen miles from this port. Wireless reports from vessels engaged in the search stating that neither the steamer Manitoulin nor the tug Kenan had found signs of the missing men or their lifeboats in which they are reported to have been cast adrift dampened the spirits of relatives and friends of the refugees who had kept up a constant vigil at the quayside yesterday in the hope that glad tidings would arrive from those who have searched in the neighborhood of the disaster.

Those in this city with a sailor knowledge of the bitterly cold nights the men in their small craft would have to endure with no food and practically no clothing to sustain them for the three nights they have been adrift, are frankly pessimistic regarding their safety.

This lugubrious outlook is supported by the stories of several of the five known survivors, who said an upturned lifeboat supporting two men—and only one man when the craft disappeared from view—was sighted from the survivors' life craft refuge shortly after dawn broke Saturday morning.

Investigation Opens To-day

The lake tragedy was the sole topic of conversation here yesterday, and there were many conjectures or theories as to its cause. The master of the Manasoo, Captain John McKay, and Osborne Lang, the first officer, decline to give their version, however, pending the opening of the Federal investigation by F. L. A. Demers, Dominion Wreck Commissioner, who is expected here to-day.

Nobody seems to know positively what actually happened which caused the Manasoo to list so badly and let in the water. Roy Fox, an oiler, one of the survivors, is of the firm opinion that the cattle cargo which the vessel was transporting from Manitoulin Island to Owen Sound, was shifted during the heavy storm the vessel was riding, and this caused the list which precipitated the Manasoo to her watery grave.

A lot of credence is placed in local marine circles in a story that when the steamer was coming down through the gap in the teeth of the storm, one of the plates gave away. This was quickly discovered and it was decided to beach the boat on Griffith's Island. Before action could be taken, however, or at least before much headway had been made toward the island, the fires in the boilers were extinguished by the inrush of water and the boat was helpless.

Found No Trace

Officers at Camp Borden informed the Canadian Press by telephone last evening that two planes had been engaged in the aerial search yesterday, but observers had found no trace of evidence concerning the fate of the men. One machine combed the east shore up to Wasaga Beach and out over the lake for fifty miles, while another scoured the west shore from Owen Sound north to Cape Croker without success.

Canon Ellis Gooding Favors Word 'Damn'

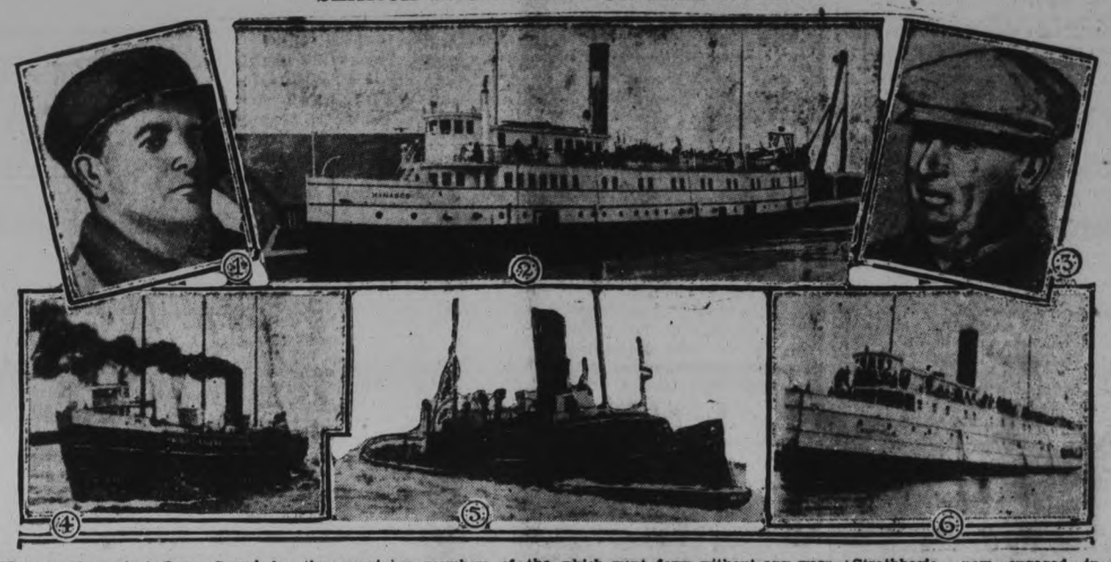
SOUTHEND, England, Sept. 19.—Mild swearing, such as the gentlemanly damn, as a relief for emotion was endorsed by Canon Ellis Norman Gooding, vicar of St. Mary's, and son-in-law of the first bishop of Chelmsford, in an address here. Speaking before a legal association, Canon Gooding said:

"In my opinion, a good healthy 'damn' is much better than continuous grumbling. I object to stupid, ugly swearing, but 'damn' releases the emotion and eases the feelings.

"The late President Wilson's 'tut-tut' sounds almost impracticable to me. It's no good saying 'tut-tut' while thinking 'damn.'

"'Damn' is a word for men. There is no possible harm in it and it is much more satisfying than other horrible expressions sometimes used."

SEARCH LAUNCHED FOR MISSING MEN



When word reached Owen Sound that the steamer Manasoo, formerly the Macassa, had gone down in Georgian Bay, fifteen miles from that city, and that only five members of the crew had been picked up, an intensive search was launched at once for the remaining members of the crew and passengers who were last seen disappearing in lifeboats. ABOVE are shown: (1) E. F. Burke, owner of the rescue Strathbogie, which is engaged in the search; (2) the Manasoo, formerly the Macassa, which went down without any warn- rescue tug Strathbogie; (4) the Manirescue tug Strathbogie; () the Manitoba, which rescued the five survivors of the Manasoo after they had been adrift in Georgian Bay more than sixty hours; (5) the rescue tug Strathbogie, now engaged in the search for the missing; (6) the Manitoulin, which steamer passed the survivors of the Manoosa a few hours after it sank, without seeing them on their life-raft.

ANGLICAN BISHOPS DECLINE TO DISCUSS NEW PRIMATE

Will Not Say What Is Sentiment On Matter in Synod.

THREE TO CHOOSE FROM.

Feeling of Laity Is That Aged Archbishop Should Retain His Position.

HAMILTON, Ont., Sept. 19 (Special to The Examiner). — Will the House of Bishops at its meeting of Saturday accede to the request of Archbishop Matheson to be relieved as Primate of all Canada, and if it does, who will be his successor?

Those, next of the problem of immigration vigorously propounded by Bishop Lloyd of Saskatchewan, are the chief questions of the Anglican Synod, now in session at Hamilton.

Archbishop Matheson of Rupert's Land, when asked, "Are you definitely going to relinquish your position of headship of the Anglican Church in Canada?" replied, "I have sent in my letter of resignation."

None of the clerical delegates would hazard any guess as to the Primate's success or declare positively that the sentiment of the Synod was against accepting Archbishop Matheson's resignation.

One said, "If Archbishop Matheson persists in his reluctance to be Primate again and if the Synod does not overcome his reluctance, the choice is limited to three persons, Archbishop Worrell of Nova Scotia, Archbishop Dupencier of British Columbia, and Archbishop Williams of Ontario."

These are the sole Anglican Archbishops in Canada outside of the Primate. It is not conceivable that they be ignored in favor of any church dignitary who is as yet only a Bishop. It was certain that a new Primate, if a new one is to be chosen, will be selected from the existing Archbishops. There is this in favor of the chance of the Archbishop of Ontario to become Primate of Canada. His position is central. His see is in the middle of Canada and in the middle of the province that is the greatest Anglican province in Canada, but there is against him that he has been Archbishop for a year only.

His Grace of Nova Scotia and His Grace of British Columbia have claims of seniority.

It is extremely probable that the wish of the laymen will be the wish of the Bishops, and that the Synod will persuade the venerable but still vigorous Archbishop of Rupert's Land to consent to remain Primate of Canada.

HOLD BY-ELECTIONS FOR QUEBEC SEATS

Two Vacancies in Provincial House To Be Filled Oct. 24.

QUEBEC, September 19 (Canadian Press). — Provincial by-elections for St. Mary's, Montreal, and Quebec East will be held on October 24, according to an official announcement to-day. Nominations will take place on October 17.

President And Senator End Argument On Bait

ST. LOUIS, Mo., Sept. 19.—(Canadian Press.)— All the uncomplimentary things U. S. Senator James A. Reed ever said about President Coolidge's use of worms for fishing have been retracted.

"I have just come back from a fishing trip in Wisconsin," the senior senator said here, "and my experience has made me a whole lot more charitable.

"I want to retract everything I ever said about Coolidge fishing with worms.

"A man is entitled to use any bait he can get hold of in those northern states."

Brother Of Captain McKay Did Not Hear Of Lake Tragedy Until Tuesday

SAULT STE MARIE, Ont., Sept. 19.—(Canadian Press).—Capt. Murdoch McKay of the steamer Athabasca which arrived in the Sault yesterday downbound, did not hear of the foundering of the steamer Manasoo and the rescue of his brother, Capt. Jack McKay, master of the latter vessel by the steamer Manitoba until yesterday. He was passing through Whitefish Bay bound for the Sault when he received a message from Capt. McIntyre of the steamer Franz telling him of the fate of the Manasoo. Capt. Murdoch McKay who is interested in the Owen Sound Transportation, owners of the Manasoo was all broken up over the probable fate of the missing members of the crew of the vessel for whose safety there appears to be very little hope. He was however glad to hear of his brother's rescue. "I have been unable to think of anything else since I got the news" he said. Capt. McKay met at the dock here Cap t. Davis of the steamer Manitoba who had rescued his brother and four others from the Manasoo. From information gleaned from the crew of the steamer Manitoba it appears that it was only an unkind stroke of fate that prevented the rescue of at least some of the crew of the Manasoo within an hour of the sinking of that vessel, for the Manitoba on its trip from Owen Sound to Port McNicoll, must have passed close to the scene of the disaster in a heavy rain and wind.

HURRICANE MOVES NORTH BUT DIMINISHES IN FORCE

High Winds and Rain Cause Minor Damage Along Seaboard.

DEATH TOLL 2,000.

Property Damage Expected To Total $100,000,000 When All Revealed.

The West Indian hurricane that wreaked its first fury on Porto Rico and upward through Florida, causing deaths that may well total 2,000 and damage of approximately $100,000,000, was spending its force on a final spurt up the Middle Atlantic States to-day.

The wind was no longer of hurricane velocity (eighty miles an hour), but full gale warnings were posted as far north as New England, and the storm was still a serious menace to shipping, most of which however had had sufficient warning to prepare for the blow.

In the districts of worst suffering the first estimates of 1,000 dead in Porto Rico seemed justified by later reports, the figure of 660 in the French West Indies still stood, and the list of 250 known dead in Florida was constantly increasing.

The plight of tens of thousands of homeless was critical, the threat of disease and starvation being geenral. Food riots were reported and some sections were under military rule. Red Cross relief workers were in command of the situation.

Reaches New York

NEW YORK, Sept. 19 (Canadian Press).—A northeast gale of nearly hurricane force lashed the Atlantic seaboard to-day. This storm, the tail end of the West Indian hurricane that swept Florida and the West Indies, was listed by the weather bureau as "extremely dangerous" to shipping.

Storm warnings were displayed as

(Turn to Page 2 please)

With Arm About Girl, Zigzags Past School

TORONTO, September 19. — When James Sakara, of Welland, was called before Magistrate Browne in the Traffic Court yesterday afternoon, a jovial, swarthy gentleman appeared in his stead, and smiled as the motorcycle constable outlined the basis of the charge. Sakara, said the officer, did drive a car along Gerrard Street East, past a school at 1.15 p.m., and zig-zagged all over the road, because he had one arm about a girl.

"There's a time and place for everything," observed Magistrate Browne. "Ten dollars and costs."

"Did Sakara send any money with you?" he interrogated the proxy.

"Sure," retorted the swarthy individual, "twenty-five dollars." He went away with the roll cut in two.

DRAYTON'S SEAT WILL BE FILLED

Writs Issued For ByElection in West York Nov. 5.

OTTAWA, Sept. 19. —(Canadian Press).Writs have been issued for the by-election in the Federal constituency of West York, Ontario. Nomination day has been set for Monday, October 29 with polling one week later, on November 5. The seat has been vacant since the resignation of Sir Henry Drayton to accept the chairmanship of the Ontario Liquor Commission. Sir Henry was elected in West York in 1921 and held the constituency until his resignation toward the latter end of the last session of Parliament.

LIKES CANADA FOR HOLIDAYS

Ramsay MacDonald Returns To England After Enjoyable Vacation.

TALKS EMIGRATION.

SOUTHAMPTON, Eng., Sept. 19. — (Canadian Press Cable).—"Canada is the best holiday country I ever struck," said Ramsay MacDonald, Labor party leader, on his arrival here to-day. In an interview he said he did not think emigration to Canada would "cure or even substantially alleviate our unemployment problem."

Discussing the British miner-harvester migration, the Labor leader said he had asked various people to straighten out the problem because of the danger that obviously exaggerated complaints might make it difficult for men with real grievances to get them re-dressed.

ALD. W. STOCKER BUILDING HOUSES

Takes Out Permit For Two Fine Dwellings On Downie Street.

Alderman Walter Stocker has taken out a permit to build two new dwellings on Downie street. Each house is to cost $6,500 and they will be completed about the end of the year. Alderman Stocker has built several fine houses this summer and these two now under construction will add considerably to the appearance of the city around Hunter and Downie streets.

The houses will be 37 feet by 25 feet on concrete foundations, and have brick veneer finish. They will be eight roomed with basswood finish and hot air heating sytsem.

CAR COLLISIONS CAUSE DAMAGE

Two Trucks, One Bus, and Private Car Involved in Accidents.

ONE CAR BURNS.

One of Stock's bread trucks collided with a truck owned by E. Reid at the corner of George and Charlotte streets about 7:15 this morning. At the time of the collision the stop lights were in operation but according to eye witnesses Reid's truck, which was driven by Clarence Blodgett and was proceeding north along George, was caught in the centre of the intersection when the light turned red. He stopped and then went to go on. As he was faltering G. Johns, who was driving the other truck, attempted to cross the intersection and the two trucks collided. The Stock truck suffered the most damage, having the back rear fender bent and a tire damaged.

Yesterday afternoon a car driven by William Renwick of Keene and the Mount St. Joseph bus collided in front of Gillespie's garage on Aylmer street. At the time of the accident Renwick was driving south and went to make a turn into the garage and Edward Killoran was driving the bus north. As the first car went to make the turn the two collided. Renwick claimed he gave the proper signal but Killoran stated he disn't see it. After the collision the bus struck a pole on the side of the street. The left fender, light, front axle and radiator of Renwick's car were broken.

New Car Burns

A new Victory Six owned by Vincent Eastwood turned over in the ditch on the Provincial Highway last night and in a few moments it was a mass of flames and a total wreck. Alex. Miller was driving the car from Millbrook, where he had been exhibiting it at the fall fair. While he was proceeding along the Provincial Highway a buggy which, he said, had no light, loomed up in front of him. He attempted to miss the buggy but caught the left wheel and went into the ditch where the car rolled over and caught fire. The buggy was being driven by W. Rusk of R. R. No. 3 Peterborough. Miller was badly shaken up.

A new car being driven by M. Spencer of Buffalo turned over on the road north of Bewdley yesterday afternoon and landed twenty feet over the fence. Mr. Spencer and A. Fife of Bewdley were coming north at the time of the accident, and they allege that the wheels skidded in the fresh gravel that is being put on the road and jumped the ditch, landing in the field alongside the road. The two men were bruised and cut, and the car was badly smashed.

660 DIE IN GUADELOUPE.

Minister of Colonies Announces Result of Storm in French Indies.

PARIS, Sept. 19 (Canadian Press). —Last week's tropical hurricane took a toll of 660 lives in Guadeloupe, French West Indies, the Minister of Colonies announced to-day.

Canadian Admiral Visits Old Flagship

MONTREAL, Que., Sept. 19.—Canadian born, Admiral of the British navy, and now representing his sovereign as Governor of New South Wales, Admiral Sir Dudley De Chair, K.C.B., M.V.O., renewed acquaintance with his old flagship, the Canadian Pacific liner Empress of France, when he stepped aboard her yesterday, en route to England.

During the war days the Empress of France, then called the Alsatian, was flagship of the Tenth Cruiser Squadron, and was thus under the command of Sir Dudley.

Born at Sherbrooke, Quebec, Sir Dudley was educated in England and entered the navy at an early age. After an interesting and useful term of service, the Canadian Admiral retired in 1923 and was appointed Governor of New South Wales, where he is returning after a holiday in England.

C. P. R. OFFERS TO BUY THREE ALBERTA LINES

Raises Bid Made Jointly With C. N. R. One Year Ago.

NOW $20,000,000.

Government Will Not Consider Offer Until Auditor Has Analyzed It.

EDMONTO, Alta., Sept. 19. — (Special to The Examiner).—Seeing in the offering made by president E. W. Beatty of close to $20,000,000, for Alberta's three government owned railways vindication of his rejection of the joint offer of $17,500,000 made last year by the C.N.R. and C.P.R., Premier Brownlee displayed quite a cheerful front in his office to-day. It has been common gossip in western railway circles that D. C. Coleman, western Vice-President, has for years been convinced that the C.P.R. should acquire the Edmonton, Dunvegan and B.C. railway running from Edmonton through the Peace River Empire. If he had had his way, the C.P.R. would have exercised the option of sale contained in the lease his company held some years back, but it has been reported that eastern directors of the C.P.R. were not convinced.

By the time Mr. Beatty and his party of directors had reached Grande Prairie on his present trip he was announcing that the C.P.R. would come into the north some way or other, either by joint operation of existing lines with the C.N.R., by sole purchase of these lines, or by building an independent road.

The heavy increase in traffic over the government railway, showing a net operating profit of some $500,000 during the past year, has made the government railways worth more than they were twelve months ago.

An anayisis of the new offer by the Canadian Pacific Railway for

(Turn to Page 9 please)

River Talk Names Boven

Some Men Implicated in Murder, Kidnapping and Hold-ups.

POLICE FOOLED.

List of Unsolved Crimes Grow —Border Residents Terrorized.

DETROIT, Mich., Sept. 19 (Special to The Examiner).—Find the kidnappers of Sam J. Low, President of the Erie Transit Company, and head of the sales department of the Carling Brewing Company at London, and the mystery of the Kennedy murder will be solved, they said along the river front last night, in places where they talk about "things."

They were even farther than that, and this was more surprising. Find the kidnappers of Sam J. Low, and you won't be far from William Boven of Windsor, Detroit, Chicago, racketeersman at large among other racketeersmen, cool-headed gangster, who beaded his pistol sight on a line with vital spots on the anatomy of certain mail clerks on a memorable evening not long ago in the mail car of the Toronto-Detroit Canadian National train at the Union station.

Still another surprising thing. It illustrates the fact that the breaks haven't been with the police. This applies equally to many police forces Toronto, Provincial, Windsor and Detroit.

They had Boven cold in Windsor one night. Facts are facts. Inside Boven's home was Boven himself with the other gangsters who "pulled off" the robbery at Toronto. A battle royal was actually going on in Boven's house. They were at it, free for all sometimes, fighting over a division of the spoils, it was a regular Donnybrook, and the police were waiting to "crash" the place. A squad of Provincials stood ready to help the Toronto detectives. Somehow the "crash" was postponed for a couple of nights. When it did occur, Boven was gone.

One more surprising thing, already published. It has to do with how the Detroit police missed the break. They failed to round up the principals of the Sam Low kidnappers. The Erie Transit people had deposited the dummy packet of thirty-five $1,000 bill in the hands of the taximan in the lobby of the Webster Hall Hotel at Detroit, and the Detroit police car, secretly waiting, set off behind the taxi to follow it to its destination. It never got there. Fate rammed the police car, in the guise of a traffic accident. Later, trailing the taxi by its number, a detective came to the conclusion that, commissioned by the kidnappers to bring them the packet to the door of a certain apartment house, the innocent chauffeur had simply handed the parcel to a gangster who walked through the apartment house and out the back door.

For over two years now the evidence has been mounting of some master force in the realm of Detroit-Windsor Crime. Second only to the fascination of Sherlock Holmes was the creation by Conan Doyle of Professor Moriarty, the ever-elusive super-brain of crime, the man who

(Turn to Page 9, Please)

Nicholls Hospital Notes

Written by the Board of Nicholls Hospital to explain the necessity for an addition to building and equipment.

It has fallen to the lot of few communities to have experienced the munificence of one of its citizens as Peterborough has in the benefactions of the late Mrs. Charlotte J. Nicholls. To her we owe our Nicholls Hospital which has stood for the care of the sick for over 40 years—built, equipped, and endowed and carried on with little cost to the citizens through the goodness of Mrs. Nicholls and her executor, the late Richard Hall.

Hospital conveniences have been increasingly demanded for a number of years and the great strides made by medical science and in surgery require much added equipment in order that these institutions may function properly. Naturally a structure built, in the main, over 40 years ago is wanting seriously in those requirements which go to make up the modern hospital—and this is the situation facing the Nicholls Hospital Board.

More bed accommodation is needed—a maternity and children's section—adequate sun-room facilities—the replacing of an obsolete heating system, now unsatisfactory and expensive to operate —with growing demand these matters must be, among many others, provided if the work is to be advanced commensurate with the possibilities and needs of Peterborough and territory.

The medical staff are fully in accord with the proposed extensions and improvments suggested by the Board and are a unit as to the imperative necessity of the undertaking.

Nicholls Hospital—thanks to its clientele and the income from its endowment, has been practically self supporting for over 40 years and the citizens have enjoyed the unusual situation of having such an institution at their door, ready for their use when needed, yet without expense of moment to them.

A self supporting Hospital has been unusual in the province for years—many have faced large deficits but in spite of this have seen the need and followed that need by substantial increases and improvements in structural capacity.

The plans of the Board include additions and betterments approximating $350,000, which will raise the equipment to 150 beds as against 90 at present and provide for first-class service in all

Horse Races Attract Crowd at Fair

MILLBROOK CENTRAL EXHIBITION SURPASSES PREVIOUS RECORDS, ATTENDANCE IS ABOUT 3,000

Entries In All Classes Were Up to the Usual Standard.

MANY EXHIBITS.

Full Program of Horse Racing Attracts a Large Crowd.

Millbrook's Central Exhibition, moved forward this year about three weeks earlier than its date in other seasons, took place on Monday and Tuesday of this week, with yesterday marking the especial day, gate receipts totalling over $800 and an attendance of about three thousand people. Fine weather greeted this effort of the directors to avoid the inclement days which have marked the annual Fair in the past and the majority of exhibits were fully up to the standard, with a slight decrease in classes in Women's Work, flowers and vegetables, owing to a great extent to the fact that Bowmanville's annual Fair fell on the same two days this week, and many of Bowmanville's regular exhibitors at Millbrook were absent on that account.

The horses for which this Fair has been noted in other years were just as prominent yesterday, with a slight increase in the number of entries over those of last season. The quality shown was fully up to the standard of horseflesh which has made Millbrook notable in this respect, with a splendid exhibit in the heavy draught and agricultural types. Light horses were not so largely represented, but those on view were of a very fine order.

New Grandstand

Millbrook Fair has a fine new grandstand, with a seating capacity of 500 and there has also been a considerable extension made to the poultry building, which allows all entries to be housed within doors, in well-lighted and well-ventilated quarters.

An atmosphere of extra brightness to theg rounds was imparted by the presence of a larger number than usual of games of chance, a long line of these making an aisle all the way down past the horse stalls. Vendors of novelties of many sorts, a display of Japanese china of extra high grade, a "guess your weight" man, Alfred the Alligator Boy, and a vendor of patent medicine who had a very fluent line of talk, added to the attraction of the out of doors.

In the Main Building the principal exhibit was that of the Millbrook branch of the Women's Institute, showing some well-displayd examples of handicraft and floriculture practised by the members. Here there were vases of lovely flowers, cakes, pis and pickls, braided and hooked rugs, fancy cushions and pieces of embroidery, and some very dainty painted pieces of china and of landscapes in frames.

Fancy Work

The general display of fancy work was splendid and was shown, as is usual at this Far, to thevery best advantage. The embroideries on view were lovely, with some notable pieces done in the soft "lazy daisy" stitch. A white linen apron was a pretty thing with its border of deep blue embossed with applied daisies in blue and white and gold. Another exquisite little apron, more ornamental than useful, was made of plale green organdie with apricot ribbon edging. On its edge were sprays of embroidered daisies and applied to its surface were flowers in organdie of mauve, pink and apricot shades.

Rugs, quilts and comforters made a brave showing and there was utility in the display of warm woollen sweaters mitts and socks. The exhibit of woodwork, raffia pieces and chip carving was also very interesting.

In one corner of this building, the Horn Mills of Lindsay were represented by a splendid exhibit of woollens, in blankets, robes, motor rugs and comforters. In another corner was the exhibit of Gyproc and Asbestos roofing and shingles by the Millbrook Coal Company.

On centrally placed tables was fine home-made cooking displayed under white netting, and including wonderful examples of culinary ability in bread, tarts, buns, biscuits, cookies and beautifully iced cakes; also pickles and a display of butter and eggs. Other tables held a display of vegetables of many sorts and roots grains and seeds were rang ed along the walls, with some especially large examples of squash, turnips and cauliflower. A table near the door held a very attractive display of apples, plums and grapes.

Flower Display

The display of flowers here was very lovely, the blooms showing the freshness and bright coloring which characterizes the floral growth of

THE WEATHER

Meteorological Office, Toronto, Sept. 18.—The tropical disturbance is centred off South Carolina, moving north-eastward. Pressure is high over Ontario and Quebec, and low over the Canadian West. The weather has been fair in provinces except the Maritimes, where showers have occurred. It has been unseasonably warm in the Western Provinces.

Forecasts.

Georgian Bay and Northern Ontario: Moderate to fresh winds; fair and cool.

Ottawa Valley, Upper and Lower St. Lawrence: Moderate to fresh northerly winds; mostly fair and cool.

Lake Superior: Strong south-easterly to southerly winds or gales; becoming unsettled, with showers; warmer.

Manitoba: Fresh to strong winds; mostly fair and warm, followed by showers.

Saskatchewan and Alberta: Westerly to north-westerly winds; unsettled; cooler and showery.

BUSINESS POLICY TALK NO. 11
(By H.E.M.)

BUSINESS VOLUME REDUCES COST

The Greater the Volume of Business the Lower the Cost Per Unit.

THE trend of business to-day is to increase the volume and thus reduce the cost per unit. It is patent that mergers, and chain stores are proving this fact to be true and the buying public is benefitting as a result of the greatly increased buying power and general spread of overhead expense.

The same law of averages applies to the printing and publishing business as to any other because the fundamentals are the same. Therefore, the customers of The Peterborough Examiner, Limited, benefit in accordance with the increased volume of business and consequent reduction in production costs.

Our volume of business is increasing daily, and we are asking you to help us further increase it in order that you may share with us the benefits which necessarily follow and accrue from such increase.

Our paramount position enables us to have faster presses, better workmen, a greater range of type faces, unexcelled service, and many other features not obtainable in the average printing plant.

The quality of our printing is equal to the best produced in the Dominion, and it costs you no more than good printing should cost.

Cheap printing never gets the results desired. It does not build prestige or profitable business, because the thought and skill necessary for the production of good printing come only from the quality viewpoint. Quality articles are always worth the small additional cost; this is especially true of printing. Don't let people label your business "cheap."

Our telephone number is 1600, and we "give the same treatment to one and all."

The subject of our next talk will be, "Our Customers: Then Ourselves."

LOCAL MOTORIST FREED OF BLAME

W. J. Grisdale Exonerated By Coroner's Jury at Oshawa.

An inquest was held last night, at Oshawa, into the death of the late Mrs. Lucy Phair, who was killed on Number Two Highway, near Oshawa, on Thursday, the 13th instant, by an automobile driven by Wilfred J. Grisdale, of Peterborough. After hearing all the evidence the jury came to the unanimous conclusion that the unfortunate fatality was due to the fact that Mrs. Phair did not take the proper precaution in crossing the road, and that Mr. Grisdale was in no way to blame for the accident, which he could not avoid.

Crown Attorney McGibbon, of Whitby, conducted the proceedings for the Crown, and V. J. McElderry, K.C., of Peterborough, acted on behalf of Mr. Grisdale.

STATE PRIMARY HELD.

Nominations Made By Enrolled Voters of New York.

ALBANY, N.Y., Sept. 19 (Canadian Press).—New York State yesterday selected its candidates for Congress, State, Senate and Assembly at the general election of November 6. The enrolled voters made 488 nominations and settled thirty-two contests in the State, seventeen of them in New York City. Republican designees contested the nominations in twenty instances and the Democrats in twelve.

MARMORA FAIRS GREAT SUCCESS

School and Agricultural Fairs Held Together—Horse Races Feature.

MANY ATTRACTIONS.

MARMORA, Sept. 19 (Examiner Staff Correspondence). — Something new in the line of Marmora fall fairs was introduced in Marmora yesterday when the rural school fair and the Marmora Agricultural Society's fair were held at the same time and on the same grounds. The school fair exhibits were housed in a large marquee close to the exhibition building, which contained the major portion of the exhibits of the Society's fair. It was also found necessary this year to have the live stock to be exhibited, on the grounds the first day of the fair in order that the judging could be done early in the day. This would permit the public in general more time to view these exhibits. This year the Ontario Association of Fairs and Exhibitions made certain recommendations regarding the classification of horses, and these were generally followed in Marmora yesterday afternoon.

Every detail seemed to work for the general success of the affair. The weather was ideal. The number of attractions was large, and the crowd was the largest on record for several years. These were a few American cars noticed parked among the long lines of Canadian vehicles and among these were cars from as far distant as New Orleans. Throughout the entire crowd there was a spirit of gaiety, which did much to make the fair a success.

Sees First Fair

"First Class!" This was the description given to the afternoon's proceedings by one of the older residents of the district who had not attended a fair for many years. This was Edward Tapp of Glanmyre, a settlement about thirty miles north of Marmora. Mr. Tapp is ninety-one years of age and has been in Canada for the past sixty-eight years. During that time he has never been at a Canadian fall fair till yesterday. This quaint little native of London, England, appeared to be thoroughly enjoying himself. He was not the centre of a group of peopls as indeed he might have been had he made it known that he was attending his first fair in sixty-eight years, but walked about the grounds accompanied by a small party of friends and "took in" all there was to be seen. He seemed very much amused and at the same time pleased that his opinion should be asked regarding such a great event.

The Races

Horse racing was, as usual, the event of the day. There were two races, each with three purses. The track was in good condition and the drivers had their horses well in hand. Not till the final heats were run did the starter experience any difficulty in "bringing them down." Three by three, all in a row, they came under the wire, and rarely did they get sent back. The free-for-all race was run off as regular as clock-work. Three heats decided the honors, and Alberta Hal, a Tweed-owned horse, carried off the honors with a mile in 2.14½ seconds. Alberta Hall won three firsts. Leo Stewart was a good second with Sullivan of Frankford, owner and driver, on the cart. He won three seconds. Bert Davis, with

VICTORIA DEANERY W. A. HOLDS ANNUAL CONFERENCE

Delegates From District Gather For Meeting at Fenelon Falls.

OFFICERS ELECTED.

MOUNT PLEASANT, Sept. 19 (Examiner Correspondence). — The seventh annual conference of the Victoria Deanery Woman's Auxiliary to the M.S.C.C. was held in Fenelon Falls on Friday, September 14, 1928.

A large number of officers and delegates of the different branches assembled in St. James' Church at 10.30 on Friday morning, when the Rev. Mr. Davis of Fenelon Falls extended a cordial welcome on behalf of the local W. A., after which the hymn, "Fling Out the Banner," was heartily sung.

The Epistle, Gal. 5: 16, was read by Rev. Mr. Davis, after which Rev. A. T. Weir read the Gospel St. Luke 17: 11, when the hymn "Jesus Calls Us O'er the Tumult," was sung.

The Rev. Mr. Stanley of Cannington preached a very inspiring sermon which filled his congregation with enthusiasm from start to finish.

The Rev. Mr. Davis led in prayer, after which the celebration of Holy Communion was partaken, of with the Rev. A. T. Weir of Omemee as celebrant.

The hymn, "Here O, My Lord, I See Thee Face to Face," closed the service, after which all were invited over to the basement of the Presbyterian Church, where a sumptuous dinner was served to all by the ladies of St. James' Church.

The business session was held in Dixon's Hall, in the afternoon, commencing at 1.30 and opened with the hymn, "For My Sake and the Gospels Go."

The Deanery President, Mrs. P. G. Powell of Blackstock was in the chair, and in the absence of the president of the Fenelon Falls branch of W. A., who was unavoidably kept at home through illness, welcomed the ladies in attendance.

Proud of Work

Mrs. Powell read two messages from Romans 10: 11-15, also Matthew 28: 18-20, and also led in the W. A. Litany and Prayer. In her address, she said she was proud of the interest taken in the good work of the W. A. The constraining love of Christ in you, stimulates our interest in the work.

Christ said: "Go work in My vineyard to-day, not to-morrow."

"Whatsoever thy hand findeth to do, do it with all thy might."

"Our great possibilities in store by using the machinery of the organization, our supreme partner in life is Christ, going with Him as it is one objective to have Him."

Mrs. Powell invited everyone present to visit the literature table, which was in charge of Mrs. (Rev.) A. T. Weir, before the meeting adjourned; by reading more literature it would create a wider knowledge, with wider interest in the work.

The minutes of the last Deanery, held in St. John's Church, Blackstock, in 1927, were read by Mrs. Arthur Bailey, secretary of Blackstock W. A., who moved the adoption of the minutes, which was seconded by Mrs. Boyd, and carried; after which Mrs.
